## Section 4 – Specification and about this Procurement

### 1. Introduction

UK Research and Innovation (UKRI) requires the ability to keep abreast of often fast-paced political developments, and to have access to information and intelligence on crucial policymakers and political stakeholders. This is critical to central UKRI functions such as:

- accountability to Parliament and Government
- engagement with policymakers and Parliamentary stakeholders.

The successful supplier will provide an easy-to-use service that can be tailored to all UKRI Councils and the interests of individual teams. It is expected that the service would be made available to all across UKRI who maintain a public affairs or parliamentary-facing role.

As an overview, we require the successful supplier to provide the following:

- Regular, timely and detailed information and intelligence updates to colleagues across UKRI.
- Access to a database containing information on key political and policy stakeholders.
- Handling of requests for bespoke information, reports and public affairs research.

### 2. Scope

#### 2.1. Period of the agreement

The contract will run for an initial period of three years, with the option to extend for one more year and then again for a further year, up to a maximum of five years in total. Any extensions will be agreed upon between UKRI and the successful supplier, following an assessment of the service delivered in years three and four of the contract (as applicable). This assessment will take account of activities including but not limited to the:

- quality, frequency and timeliness of regular information updates
- use of any online databases provided by the supplier
- provision of training to use the service provided by the supplier
- handling of bespoke requests for information, reports and public affairs research

#### 2.2. Price and payment

It is expected that throughout the contract payment will be provided annually in advance.

Based on the previous contract, and adjusting for inflation (CPI), the expected annual price for the contracted period is approximately **£39,871 ex VAT (£47,845 inc. VAT)**.

The estimated anticipated price for the full five-year period is **£199,355 ex VAT (£239,225 inc. VAT)**.

#### 2.3. Licencing

It is expected that, as part of the contract, all UKRI staff (and staff in Innovate UK Business Connect, formerly Innovate UK-KTN) who require information should be able to directly receive email reports and information sent by the supplier.

For access to a political intelligence database (see Point 3.3 below), we anticipate that up to 100 UKRI staff members will need to have access. The Bidder should outline in their quotation the number of licences that are provided to use the database (if applicable). If the Bidder has different subscription tiers with differing number of licences, then details of this should be included in the quotation.

## **2.4. Transition period**

The current contract for political monitoring ends on 24 November 2024, with the new service to begin on 25 November 2024.

However, given the significant level of expected political activity taking place throughout 2024, it is important that UKRI colleagues are ready to and can make use of the new service from the outset. Therefore, it is expected that the successful supplier will agree to support UKRI in a 'transition period', if required.

The transition period is anticipated to begin on 14 October 2024, before the service start date of 25 November 2024.

During this transition period, the successful supplier will provide all and any support required to familiarise UKRI users of the service, including but not limited to:

- presentations and training for users of the service, including databases
- agreeing key terms for email updates for individuals and teams across UKRI

## **3. Requirement**

### **3.1. Our requirement**

UK Research and Innovation (UKRI) requires a Public Affairs and Political Monitoring and Intelligence Contract to run for up to five years.

We need a provider who can cover a broad range of issues and provide a wide span of monitoring, This includes:

- all the disciplines covered by the seven [Research Councils, Innovate UK and Research England](#), including Innovate UK Business Connect
- UK research and innovation policy, including devolved nations
- the international landscape
- domestic higher education policy

UKRI needs an easy-to-use service that can be tailored to the different Councils and the interests of individual teams. We expect the supplier to review sources of information including, but not limited to:

- UK Parliament
- HM Government and local government
- Devolved assemblies and administrations
- Other stakeholders, as appropriate including:

- companies
- industry bodies
- learned societies
- interest groups
- campaign groups
- think tanks
- Consultations (government and public body); inquiries (Parliamentary and public); reports (Government, parliamentary); press releases, news and social media (Government and Parliamentary; Parliamentary Questions, debates, Select Committee proceedings, and All-Party Parliamentary Group (APPG) activities.

The following sections set out the minimum service we would expect.

### **3.2. Political monitoring**

In general, our monitoring requirements encompass two main streams: general activity updates and specific monitoring for priority topics and keywords. We expect monitoring to cover the below as a minimum:

- Instant alerts and summaries of significant announcements in research and innovation policy, including mentions of UKRI.
- Daily summaries of parliamentary activity and other key announcements for internal circulation, tailored to UKRI's needs.
- Timely summaries of set pieces events such as Budgets, Spending Reviews, Elections and Cabinet reshuffles, tailored to UKRI and Council interest areas.
- Summary of relevant parliamentary questions tabled and answered to be delivered weekly.
- Summaries of debates and relevant committee oral evidence sessions as required.
- A weekly forward look of relevant parliamentary activity and other key events.
- At least weekly, a Consultation tracker consisting of opening and closing consultations and inquiries, including select committees.
- Summary of senior people moves, at least monthly.
- Coverage of main party conferences, including a forward look of fringe events and coverage of selected events.

In the transition period ahead of the service start date of 25 November 2024 (see above), the successful supplier will agree with UKRI an exact list of general updates to provide, as well as priority topics and keywords relevant to each part of UKRI for monitoring, if required. This list will be reviewed and updated as required by UKRI.

### **3.3. Political intelligence database**

We require access to a database holding political stakeholder information for:

- Parliamentarians (UK Parliament and devolved nations)
- Key senior civil servants
- Special Advisors (SpAds)
- Local and council political leaders and relevant senior officers

Information available on the database should, as a minimum, include a person's:

- personal biography

- history of parliamentary and ministerial roles
- interest areas
- contact details

An associated customer relationship management system (CRM) to track interactions is not essential but will be taken into consideration.

Due to significant political activity expected in 2024 the successful supplier will need to ensure full access to the database on day one of the contract. Therefore, training for UKRI staff to effectively use the database is essential, before the beginning of the contract (during the transition period) and at regular intervals. Training dates will be agreed before the contract start date.

**Licenses:** The Bidder should outline in the quotation the number of licences provided to use the database (if applicable). If the Bidder has different subscription tiers with differing number of licences, then details of this should be included in the quotation.

### **3.4. Bespoke research**

The Bidder should have the capacity and capability for UKRI to request up to eight bespoke research projects each quarter (or provide an equivalent number of hours). Example research requests may include:

- 'deep dive' information on MP or Peer interests and background
- mapping of main political stakeholders
- support with briefings for select committee hearings (including biographies)
- bespoke summaries of policy documents and reports as needed
- historic content
- sentiment analysis
- analytics of UKRI mentions, appearances and submissions

Given the broad range of sectors UKRI engages with, the successful supplier must have the expertise available to handle a wide range of research requests.

The Bidder should explain their ability to meet these requirements and be prepared to agree with UKRI early in the Contract how the research capacity will be provided (for example each month or quarter).

### **3.5. Support and implementation**

Given the wide range of UKRI's interests and activities, it is important that we have a:

- team who can support our use of the monitoring service.
- dedicated account manager, who will be the point of contact for UKRI and its councils and will build an understanding of UKRI's needs and monitoring requirements. This account manager should be available to answer regular queries from across UKRI in a reasonable timeframe. Given the breadth and complexity of UKRI's remit and activities, it is important to maintain the same account manager throughout the contracted period, where possible.

The Bidder should explain in their response how they will structure support for UKRI and ensure continuity across the whole contract. They should also outline any expertise in providing support for large organisations with wide ranging interests.

Initially we would expect monthly meetings either in person or via Zoom or Teams to review the service (and its use across UKRI) and share updates on upcoming priorities and monitoring requirements. After three months, assuming we are satisfied with the service provided, we expect these meetings to become quarterly.

Before the service starts on 25 November 2024 (during the transition period) UKRI will require communication with the successful supplier to ensure the service can begin smoothly. This will include:

- discussions around the needs of each Council
- discussion and agreement on training schedule for UKRI staff to fully engage with the service from day one of the contract start
- having draft service overviews in place that capture:
  - who will receive what, and when
  - the key terms
  - the key terms needed for daily and weekly alerts of UKRI mentions.

Bidders are required to provide a detailed explanation of how they would provide support for UKRI and how they would implement the service to be used by UKRI and its varied constituent bodies.

### **3.6. Format**

We are open to the format in which we receive information and updates from the successful supplier. However, we expect the majority will be received via email alerts. We also expect some form of database tool to be provided, as outlined above.

We require all alerts, summaries and round ups of information to be easy to read and navigate. The format should allow us to easily access information without having to scroll through long documents or emails to find the information relevant to the organisation.

Bidders should:

- share examples in their quotation of what UKRI can expect from their regular products (for example how email summaries will look).
- explain, with examples, how they will handle multiple streams of updates on many different subjects across a large organisation such as UKRI.

The frequency of different alerts we require is outlined approximately above (e.g. daily, weekly, monthly), however we expect the exact timings that information is received would be discussed and agreed ahead of the start of the Contract.

## **4. Measuring performance**

As outlined in Point 2.1 (above), the contract will run for an initial period of three years with the option to extend for a further two years, following an assessment of the service delivery.

This assessment will take account of activities including, but not limited to, the:

- quality, frequency and timeliness of regular information updates
- use of any online databases provided by the supplier

- provision of training to use the service provided by the supplier
- handling of bespoke requests for information, reports and public affairs research

The main deliverables throughout the contract are outlined above and include:

- delivery of reports/digests of key political developments (such as cabinet reshuffles, machinery of government changes, budgets and spending reviews, party conferences)
  - instant initial report to be delivered on the day of the development
  - any follow up reports with more detail to be provided within a week of the development
- summaries of general parliamentary activity and UKRI mentions to be delivered daily.
- at least weekly, a Consultation tracker consisting of opening and closing consultations and inquiries, including select committees.
- summary of senior people moves, at least monthly.

We expect the supplier to measure the number of the above outputs throughout the contract, as well as vital information including the:

- number of UKRI staff receiving email updates and accessing the political monitoring database
- key terms used for email updates across UKRI
- number of hours used on bespoke research requests, including where the requests come from

We expect the above information to be made available ahead of quarterly meetings, although we may agree with the supplier (as appropriate) to receive some information on a less frequent basis (for example every six months).

The Contract duration shall be for a period of 3 years with optional extensions of a further 2 years on an annual basis from commencement of the Contract.

### **Terms and Conditions**

Bidders are to note that any requested modifications to the Contracting Authority Terms and Conditions on the grounds of statutory and legal matters only, shall be raised as a formal clarification during the permitted clarification period.

## Award Evaluation of criteria

### Non-Commercial Elements

Each question will be evaluated on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered, or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

#### Example

Evaluator 1 scored your bid as 60

Evaluator 2 scored your bid as 60

Evaluator 3 scored your bid as 40

Evaluator 4 scored your bid as 40

Your final score will  $(60+60+40+40) \div 4 = 50$

Once the above evaluation process has been undertaken and the scores are apportioned by evaluator(s) this will then be subject to an independent commercial review and moderation meeting, if required by the commercial lead, any and all changes will be formally recorded relative to the regulatory obligations associated with this procurement, so as to ensure that the procurement has been undertaken in a robust and transparent way.

**Commercial Elements** will be evaluated on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.

All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the Commercial criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50.

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 (80/100 x 50 = 40)

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

This evaluation criteria will therefore not be subject to any averaging, as this is a mathematical scoring criterion, but will still be subject to a commercial review.

If you have any doubt as to what is required or will have difficulty in providing the information requested. Bidders should note that any requests for clarifications may not be considered by the Contracting Authority if they are not articulated by the Bidder within the discussion forum within the Jaggaer eSourcing Portal.
- 7.1.13. Bidders should read this document, and all attachment, messages and the response envelopes located within the Jaggaer eSourcing portal carefully before completing the Response submission. Failure to comply with any of these instructions for completion and submission of the Submitted Response may result in the rejection of the Response. Participation in the RFP process automatically signals that the Bidder accepts these Conditions.
- 7.1.14. All material issued in connection with this RFP shall remain the property of the Contracting Authority and shall be used only for the purpose of this procurement. All Due Diligence Information shall be either returned to the Contracting Authority or securely destroyed by the Bidder (at the Contracting Authority's option) at the conclusion of the procurement.

Potential Providers should therefore respond in the light of the arrangements as currently envisaged. Potential Providers are reminded that any future proposed change in relation to consortia must be notified to the Contracting Authority so that it can make a further assessment by applying the selection criteria to the new information provided and consider rejection of the Response if the Contracting Authority reasonably consider the change to have a material impact of the delivery of the viability of the Response.

- 7.3.2. Bidders may disclose, distribute, or pass any of the Information to the Bidder's advisers, sub-contractors or to another person provided that either:

For these purposes, the Contracting Authority may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to the Contracting Authority during this Procurement. Subject to section 7.4 below, the information will not be disclosed outside Government. Bidders taking part in this RFP consent to these terms as part of the competition process.

- 7.3.6. The Government revised its Government Security Classifications (GSC) classification scheme on the 2<sup>nd</sup> April 2014 to replace the previous Government Protective Marking System ("GPMS"). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC from 2nd April 2014. The link below to the Gov.uk website provides information on the new GSC:

<https://www.gov.uk/government/publications/government-security-classifications>

- 7.3.7. The Contracting Authority reserves the right to amend any security related term or condition of the draft contract accompanying this RFP to reflect any changes introduced by the GSC. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.

### What makes a good bid – some simple do's 😊

#### DO:

- 7.21.1. Do comply with Procurement document instructions. Failure to do so may lead to disqualification.
- 7.21.2. Do provide the Bid on time, and in the required format. Remember that the date/time given for a response is the last date that it can be accepted; we are legally bound to disqualify late submissions. Responses received after the date indicated in the RFP shall not be considered by the Contracting Authority, unless the Bidder can justify that the reason for the delay, is solely attributable to the Contracting Authority.
- 7.21.3. Do ensure you have read all the training materials to utilise e-sourcing tool prior to responding to this Bid. If you send your Bid by email or post it will be rejected.
- 7.21.4. Do use Microsoft Word, PowerPoint Excel 97-03 or compatible formats, or PDF unless agreed in writing by the Buyer. If you use another file format without our written permission, we may reject your Bid.
- 7.21.5. Do ensure you utilise the Jaggaer eSourcing messaging system to raise any clarifications to our RFP. You should note that we will release the answer to the question to all Bidders and where we suspect the question contains confidential information, we may modify the content of the question to protect the anonymity of the Bidder or their proposed solution
- 7.21.6. Do answer the question, it is not enough simply to cross-reference to a 'policy', web page or another part of your Bid (unless the question specifically allows you to do so) the evaluation team have limited time to assess bids and if they can't find the answer, they can't score it.
- 7.21.7. Do consider who the Contracting Authority is and what they want – a generic answer does not necessarily meet every Contracting Authority's needs.
- 7.21.8. Do reference your documents correctly, specifically where supporting documentation is requested e.g. referencing the question/s they apply to.
- 7.21.9. Do provide clear, concise, and ideally generic contact details; telephone numbers, e-mails and fax details.
- 7.21.10. Do complete all questions in the questionnaire or we may reject your Bid.

7.21.11. Do ensure that the Response and any documents accompanying it are in the English Language, the Contracting Authority reserve the right to disqualify any full or part responses that are not in English.

7.21.12. Do check and recheck your Bid before dispatch.

## What makes a good bid – some simple do not's
