Baseline Security Requirements and/or any obligation in this Agreement, the Supplier shall effect such change at its own cost and expense.

7.11 If any repeat Security Test carried out pursuant to Paragraph 7.8 reveals an actual or potential Breach of Security or weakness exploiting the same root cause failure, such circumstance shall constitute a material Default.

7.12 On each anniversary of the Framework Commencement Date, the Supplier shall provide to the Customer a letter from its chief executive officer (or equivalent officer) confirming that having made due and careful enquiry:

7.12.1 the Supplier has in the previous year carried out all tests and has in place all procedures required in relation to security matters under this Framework Agreement; and

7.12.2 the Supplier is confident that its security and risk mitigation procedures with respect to the Services remain effective.

(c) apply a tested mitigation against any such Breach of Security or potential or attempted Breach of Security and, provided that reasonable testing has been undertaken by the Supplier, if the mitigation adversely affects the Supplier's ability to deliver the Services so as to meet the Service Levels, the Supplier shall be granted relief against any resultant under-performance for

such period as the Customer, acting reasonably, may specify by written notice to the Supplier; and

(d) prevent a further Breach of Security or attempted Breach of Security in the future exploiting the same root cause failure;

8.2.2 as soon as reasonably practicable and, in any event, within 2 Working Days, following the Breach of Security or attempted Breach of Security, provide to the Customer full details of the Breach of Security or attempted Breach of Security, including a root cause analysis where required by the Customer.

8.3 In the event that any action is taken in response to a Breach of Security or attempted Breach of Security as a result of non-compliance of the Information System and/or the Information Risk Management Documentation with the Baseline Security Requirements and/or this Framework Agreement, then such action and any required change to the Information System and/or Information Risk Management Documentation shall be at no cost to the Customer.

9. Breach of Security – IT Environment

9.1 The Supplier shall, as an enduring obligation throughout the Framework Period, use its reasonable endeavours to prevent any Breach of Security for any reason including as a result of malicious, accidental or inadvertent behaviour. In accordance with the patching policy (which shall form part of the Information Risk Management Documentation and which shall be agreed with the Customer), this shall include an obligation to use the latest versions of anti-virus definitions, firmware and software available from industry accepted anti-virus software vendors.

9.2 Notwithstanding Paragraph 9.1, if a Breach of Security is detected in the Customer System or the Information System, the Parties shall co-operate to reduce the effect of the Breach of Security and, particularly if the Breach of Security causes loss of operational efficiency or loss or corruption of Customer Data, assist each other to mitigate any losses and to restore the Ordered Services to their desired operating efficiency.

9.3 Any cost arising out of the actions of the Parties taken in compliance with the provisions of Paragraphs 8 and 9.2 shall be borne by the Parties as follows:

9.3.2 by the Customer if the Breach of Security originates from defeat of the Customer's security controls or the Data (whilst the Data was under the control of the Customer); and

9.3.3 in all other cases each Party shall bear its own costs.

10. Vulnerabilities and Corrective Action

10.1 The Customer and the Supplier acknowledge that from time to time vulnerabilities in the Information System will be discovered which unless mitigated will present an unacceptable risk to the Data.

10.2 The severity of threat vulnerabilities for Supplier COTS Software and Third Party COTS Software shall be categorised by the Supplier as 'Critical', 'Important' and 'Other' by aligning these categories to the vulnerability scoring according to the agreed method in the Information

Risk Management Documentation and using the appropriate vulnerability scoring systems including:

10.2.1 the 'National Vulnerability Database' 'Vulnerability Severity Ratings': 'High', 'Medium' and 'Low' respectively (these in turn are aligned to CVSS as set out by NIST <http://nvd.nist.gov/cvss.cfm>); and

10.2.2 Microsoft's 'Security Bulletin Severity Rating System' ratings 'Critical', 'Important', and the two remaining levels ('Moderate' and 'Low') respectively.

10.3 The Supplier shall procure the application of security patches to vulnerabilities in the Information System within a maximum period from the public release of such patches with those vulnerabilities categorised as 'Critical' within 7 days of release, 'Important' within 30 days of release and all 'Other' within 60 Working Days of release, except where:

10.3.1 the Supplier can demonstrate that a vulnerability in the Information System is not exploitable within the context of the Services (e.g. because it resides in a software component which is not running in the service) provided vulnerabilities which the Supplier asserts cannot be exploited within the context of the Services must be remedied by the Supplier within the above timescales if the vulnerability becomes exploitable within the context of the Services;

10.3.2 the application of a 'Critical' or 'Important' security patch adversely affects the Supplier's ability to deliver the Services in which case the Supplier shall be granted an extension to such timescales of 5 days, provided the Supplier had followed and continues to follow the security patch test plan agreed with the Customer; or

10.3.3 the Customer agrees a different maximum period after a case-by-case consultation with the Supplier under the processes defined in the Information Risk Management Documentation.

10.4 The Information Risk Management Documentation shall include provisions for major version upgrades of all Supplier Software and Third Party Software which are COTS Products to be kept up to date such that all Supplier Software and Third Party Software which are COTS

Products are always in mainstream support throughout the Framework Period unless otherwise agreed by the Customer in writing.

10.5 The Supplier shall:

10.5.1 implement a mechanism for receiving, analysing and acting upon threat information supplied by GovCertUK, or any other competent Central Government Body;

10.5.2 promptly notify GovCertUK of any actual or sustained attempted Breach of Security;

10.5.3 ensure that the Information System is monitored to facilitate the detection of anomalous behaviour that would be indicative of system compromise;

10.5.4 ensure it is knowledgeable about the latest trends in threat, vulnerability and exploitation that are relevant to the Information System by actively monitoring the threat landscape during the Framework Period;

10.5.5 pro-actively scan the Information System for vulnerable components and address discovered vulnerabilities through the processes described in the Information Risk Management Documentation;

10.5.6 ensure that the Board person responsible shall ensure that the service is patched in accordance with the timescales specified to achieve the security outcomes

10.5.7 propose interim mitigation measures to vulnerabilities in the Information System known to be exploitable where a security patch is not immediately available;

10.5.8 remove or disable any extraneous interfaces, services or capabilities that are not needed for the provision of the Services (in order to reduce the attack surface of the Information System); and
