Section 1 – About UK Shared Business Services

Putting the business into shared services

UK Shared Business Services Ltd (UK SBS) brings a commercial attitude to the public sector; helping our Contracting Authorities improve efficiency, generate savings and modernise.

It is our vision to become the leading service provider for the Contracting Authorities of shared business services in the UK public sector, continuously reducing cost and improving quality of business services for Government and the public sector.

Our broad range of expert services is shared by our Contracting Authorities. This allows Contracting Authorities the freedom to focus resources on core activities; innovating and transforming their own organisations.

Core services include Procurement, Finance, Grants Admissions, Human Resources, Payroll, ISS, and Property Asset Management all underpinned by our Service Delivery and Contact Centre teams.

UK SBS is a people rather than task focused business. It's what makes us different to the traditional transactional shared services centre. What is more, being a not-for-profit organisation owned by the Department for Business, Energy & Industrial Strategy (BEIS), UK SBS' goals are aligned with the public sector and delivering best value for the UK taxpayer.

UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

Our Customers

Growing from a foundation of supporting the Research Councils, 2012/13 saw Business, Energy and Industrial Strategy (BEIS) transition their procurement to UK SBS and Crown Commercial Services (CCS – previously Government Procurement Service) agree a Memorandum of Understanding with UK SBS to deliver two major procurement categories (construction and research) across Government.

UK SBS currently manages £700m expenditure for its Contracting Authorities. Our Contracting Authorities who have access to our services and Contracts are detailed [here](#).

Privacy Statement

At UK Shared Business Services (UK SBS) we recognise and understand that your privacy is extremely important, and we want you to know exactly what kind of information we collect about you and how we use it.

This privacy notice link below details what you can expect from UK SBS when we collect your personal information.

- We will keep your data safe and private.
- We will not sell your data to anyone.

- We will only share your data with those you give us permission to share with and only for legitimate service delivery reasons.

<https://www.uksbs.co.uk/use/pages/privacy.aspx>

For details on how the Contracting Authority protect and process your personal data please follow the link below:

<https://www.ukri.org/privacy-notice/>

Section 2 – About the Contracting Authority

UK Research and Innovation

Operating across the whole of the UK and with a combined budget of more than £6 billion, UK Research and Innovation represents the largest reform of the research and innovation funding landscape in the last 50 years.

As an independent non-departmental public body UK Research and Innovation brings together the seven Research Councils (AHRC, BBSRC, EPSRC, ESRC, MRC, NERC, STFC) plus Innovate UK and a new organisation, Research England.

UK Research and Innovation ensures the UK maintains its world-leading position in research and innovation. This is done by creating the best environment for research and innovation to flourish.

For more information, please visit: www.ukri.org

Innovate UK

Innovate UK works with people, companies and partner organisations to find and drive the science and technology innovations that will grow the UK economy. They drive growth by working with companies to de-risk, enable and support innovation.

<https://www.gov.uk/government/organisations/innovate-uk>

Section 3 – Working with the Contracting Authority

In this section you will find details of your Procurement contact point and the timescales relating to this opportunity.

Section 3 – Contact details		
3.1.	Contracting Authority Name and address	UK Research and Innovation, Polaris House, North Star Avenue, Swindon, Wilts, SN2 1FL
3.2.	Buyer name	Bev Minton
3.3.	Buyer contact details	fmprocurement@uksbs.co.uk
3.4.	Estimated value of the Opportunity	£48,000.00 Including VAT £40,000.00 Excluding VAT
3.5.	Process for the submission of clarifications and Bids	All correspondence shall be submitted within the Messaging Centre of the Jaggaer eSourcing portal. Guidance on how to obtain support on using the Jaggaer eSourcing portal can be found in Section 7.25. Please note submission of a Bid to any email address including the Buyer <u>will</u> result in the Bid <u>not</u> being considered, unless formally advised to do so by UKSBS.

Section 3 - Timescales		
3.6.	Date of Issue of Contract Advert on Contracts Finder	Thursday 2nd March 2023
3.7.	Latest date / time ITQ clarification questions shall be received through the Jaggaer eSourcing Portal	Wednesday 8 th March 2023 at 11:00hrs GMT
3.8.	Latest date / time ITQ clarification answers should be sent to all Bidders by the Buyer through the Jaggaer eSourcing Portal	Thursday 9 th March 2023
3.9.	Latest date and time ITQ Bid shall be submitted through the Jaggaer eSourcing Portal (the Deadline)	Friday 17 th March 2023 11:00hrs GMT
3.10.	Anticipated notification date of successful and unsuccessful Bids	Monday 3 rd April 2023
3.11.	Anticipated Contract Award date	Monday 3rd April 2023
3.12.	Anticipated Contract Start date	Wednesday, 05 April 2023
3.13.	Anticipated Contract End date	Friday, 01 December 2023
3.14.	Bid Validity Period	90 Days

Section 4 – Specification

Introduction:

Innovate UK's Net Zero Heat programme will work with key partners to overcome barriers to enable faster roll-out of decarbonised heat for buildings.

The UK has to move away from gas as a source of heating space and water in buildings to meet its net zero commitments. Heat in buildings accounts for 23% of UK emissions. To meet the Sixth Carbon Budget the UK needs to decarbonise heat for its 30 million buildings. This will be achieved by a combination of reducing demand and a faster, scaled roll out of renewable heating technology. There will be a net benefit to the economy from scaling these solutions faster than other countries alongside greater energy security, lower energy bills, healthier indoor environments and reduced fuel poverty.

The technology to deliver net zero heat mostly exists but has not scaled and industrialised fully due to system barriers such as a lack of information for end users, engineering expertise to industrialise, inconsistent regional deployment and a lack of project finance.

Innovate UK's Net Zero Heat programme will work with key partners to overcome these barriers to enable a faster roll-out of decarbonised heat for buildings. One of the focuses of the programme is design engineering, to reduce capital and installation cost across the system of net zero renovation (fabric and decarbonised heat technology, including installation) through cross-sector innovation (including but not limited to construction, high-value manufacturing, digital, robotics, design, energy).

Aims & Objectives:

An Innovation Lab – also referred to as a sandpit - is where a cross-disciplinary group of businesses/practitioners come together for several days to create new solutions around a given theme. It is widely recognised as a way to foster innovation and creativity in research design.

Over the period of the Net Zero Heat Lab unique consortia will emerge developing projects ideas to reduce the cost of net zero heat renovation through design / system engineering.

At the end of the five days, project consortia will pitch their ideas to a panel of experts and assessors. After feedback projects will be invited to apply for funding through a closed competition (only those who attended the Innovation Lab may apply).

The Innovation Lab will focus minds on a just transition, ensuring equality, diversity and inclusion is embedded into new projects and approaches to net zero heat in buildings. The week will be an intense, unique opportunity for the UK's experts to learn from each other (and a range of guest speakers) and develop cutting edge ideas to decarbonise heat in buildings.

Attendance to the Lab will be through an openly competed process. Attendees will be selected through assessment.

Specific aims include:

- It is expected that at least 30 individuals will be invited to attend the workshop on behalf of their host organisations. Many of them will be unaware of each other's ongoing activity and will not have had an opportunity to share and develop ideas and skills together before.
- Delivery of an end user focused residential Innovation Lab that provides suitable challenge, reflection and creativity for successful project development within the five day time frame.
- The Innovation Lab will provide a dedicated environment to allow participants to create, design and propose novel projects that would subsequently be formed into written proposals post event.
- Facilitate cross-sector collaborations to industrialise net zero renovations and reduce cost.

Delivery of a successful Innovation Lab event aims to result in quality full project submissions that:

- Involve collaborations including: Industry, EDI representatives and other organisations
- Create new collaborations to formulate up to five cutting-edge project proposals attracting funding of up to £5m of grant funding.
- Develop new global innovations and capabilities achieved through the delivery of projects by March 2025.
- Widen the sector's R&D capabilities by encouraging new companies to engage in R&D and enable cross-sector collaboration.
- Bring in solutions from other sectors.

Expressions of Interests will open 18 April 2023, closing 31 May 2023. Further dates will cascade from there, including time for psychometric testing (which is not part of this procurement exercise). The Innovation Lab will take place in September, with projects awarded before end of December 2023. These will be 12-15 month projects, finishing by 28 March 2025.

The facilitators / facilitation provider will be integral to the successful delivery of the above. The Net Zero Heat team would like to work with the provider on planning and preparation of the Innovation Lab.

We expect that more than one person will form part of the facilitation team, and welcome applications from teams as well as individuals.

Background to the Requirement:

The Net Zero Heat programme is tackling the system barriers to scaling out of solutions. The programme will be delivered by focusing on the following three approaches:

- Market demand: standardised information on what renovation to do where and when for maximum impact
- Green finance: to bridge scaling gap leading to growth in supply chains and localised deployment
- Design engineering: to reduce capital and installation cost across the system of net zero renovation

The Innovation Lab will build on approaches and achievements from the [Transforming Construction Challenge](#), with a focus on heat in domestic and non-domestic existing building assets. For more information on some of the innovations already undertaken in this space, see video and case stories below. We are happy to provide further context upon request:

https://youtu.be/Fo_zr5Jef5Y

<https://tc-catalogue.strongerstories.org/stories/aimch/>

<https://tc-catalogue.strongerstories.org/stories/landsec-office-1-0/>

<https://tc-catalogue.strongerstories.org/stories/genzero/>

Further information can be found in this blog:

<https://www.ukri.org/blog/explaining-the-net-zero-heat-programme/>

Innovate UK have also launched a competition demonstrating related activity:

[SBRI: Net Zero heat and power upgrades for demand reduction phase 1](#)

Roles and responsibilities:

UKRI/Innovate UK will be responsible for delivering the Innovation Lab, working closely with appointed assessors, facilitators, mentors, observers (i.e., behavioural psychologist) and expert speakers.

Over the period of the Net Zero Heat Lab unique consortia will emerge developing projects ideas to reduce the cost of net zero heat renovation through design / system engineering. At the end of the five days, project consortia will pitch their ideas to a panel of experts and assessors. After feedback projects will be invited to apply for funding through a closed competition (only those who attended the Innovation Lab may apply).

Scope:

The facilitators are required to demonstrate how they will manage and facilitate a creative, yet focused environment over five days that builds on the expertise of the invited individuals to build concepts, collaborations and project submissions.

The proposal should consider:

- How they will help the Net Zero Heat team shape a facilitation process to get the best out of the consortia and strongest innovation proposals.
- How they will help ensure the right mix of people in the room, so the appropriate expertise is present to develop potential answers to the challenge.
- How they would structure an engagement programme throughout the Innovation Lab week including:
 - Use of techniques to encourage open innovation and true collaboration between a diverse range of participants.
 - Approach to design of a creative environment including the use of speakers, mentors, potential external site visits and challenge based scenarios.
 - An indication of milestones throughout the week to track successful delivery
 - Environmental and well-being aspects important to delivery – sustainability and inclusion.
- Approach to delivery and expected outcomes of the Innovation Lab.
- Approach to wrapping up the Innovation Lab, with any lessons learnt shared with the Net Zero heat team.

Facilitators will not be involved in the recruitment of Innovation Lab participants.

Requirement:

The facilitation provider must demonstrate and deliver:

- Expertise in connecting people of different knowledge areas – helping them speak the same language and be heard by each other
- Understand the wider context of the heat challenge - societal and environmental
- Evidence they can operate in a way to drive inclusion – Equality, Diversity and Inclusion is integral to this programme as mentioned in the introduction regarding a just transition
- Ideally the provider will have an understanding of how Innovate UK work
- Knowledge of publicly funded innovation projects and expertise of building innovation projects
- Examples of previous long duration/residential facilitation work
- A reporting framework, to be shared with the Net Zero Heat team regularly, demonstrating plans, progress and success measurements. Frequency to be agreed upon commencement of the contract.
- Payment will be issued monthly in arrears, subject to receipt of valid invoice and Purchase order

Timetable:

Expressions of Interests for the Innovation Lab will open 18 April 2023, closing 31 May 2023. Further dates will cascade from there, including time for psychometric testing once the EOIs have been received. The Innovation Lab will take place in September, with projects awarded before end of February 2024. These will be 12-15 month projects, finishing by March 2025. We expect facilitators to remain involved in the Innovation Lab Design Engineering Challenge until projects are awarded in February, however most of the facilitator's work will take place at the Innovation Lab itself.

Dates and location of the Innovation Lab need to be shared at the same time as the EOI opens. The venue has yet to be confirmed, but will be in a rural location in the UK, it will not be in a major city. Therefore the facilitation provider needs to be secured by 1 April 2023.

A draft copy of the facilitation plan is to be shared with UKRI no later than 15 May 2023 and a comprehensive facilitation plan needs to be shared with the Net Zero Heat team by June 2023. We expect to meet with the facilitation team (in person and/or remotely as appropriate) at least three times before the Innovation Lab. Dates, time and location to be agreed with the successful supplier upon commencement of the contract.

Travel and Subsistence: Bidders are advised that travel and subsistence costs will not form part of the tender cost, these will be managed in addition to the advertised budget and will be subject to approval in advance by the Contracting Authority standard class travel if public transport, advised in advance and evidenced.

Payment

Payment will be upon completion

Terms and Conditions

Bidders are to note that any requested modifications to the Contracting Authority Terms and Conditions on the grounds of statutory and legal matters only, shall be raised as a formal clarification during the permitted clarification period.

Section 5 – Evaluation of Bids

The evaluation model below shall be used for this ITQ, which will be determined to two decimal places.

Where a question is 'for information only' it will not be scored.

The evaluation team may comprise staff from UK SBS and the Contracting Authority and any specific external stakeholders the Contracting Authority deems required.

To maintain a high degree of rigour in the evaluation of your bid, a process of commercial moderation will be undertaken to ensure consistency by all evaluators.

After evaluation and if required moderation scores will be finalised by performing a calculation to identify (at question level) the mean average of all evaluators (Example – a question is scored by three evaluators and judged as scoring 5, 5 and 6. These scores will be added together and divided by the number of evaluators to produce the final score of 5.33 ($5+5+6=16 \div 3 = 5.33$))

Pass / Fail criteria		
Evaluation Envelope	Q No.	Question subject
Qualification	SEL1.2	Employment breaches/ Equality
Qualification	SEL1.3	Compliance to Section 54 of the Modern Slavery Act
Qualification	SEL1.10	Information security requirements
Qualification	SEL2.12	General Data Protection Regulations (GDPR) Act and Data Protection Act 2018
Qualification	FOI1.1	Freedom of Information
Qualification	AW1.1	Form of Bid
Qualification	AW1.3	Certificate of Bona Fide Bid
Qualification	AW3.1	Validation check
Qualification	AW3.2	Conflict of Interest Declaration
Qualification	AW3.2.1	Conflict of Interest Declaration Supporting Information
Qualification	AW4.1	Compliance to the Contract Terms
Qualification	AW4.2	Changes to the Contract Terms
Commercial	AW5.3	Firm and Fixed Price
Technical	AW6.1	Compliance to the Specification
Technical	AW6.2	Variable Bids
-	-	Invitation to Quote response received on time within the Jaggaer eSourcing Portal

	In the event of a Bidder failing to meet the requirements of a Mandatory pass / fail criteria, the Contracting Authority reserves the right to disqualify the Bidder and not consider evaluation of any of the Award stage scoring methodology or Mandatory pass / fail criteria.
--	---

Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings / scoring mechanism detailed within this ITQ. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.

Evaluation Envelope	Q No.	Question subject	Maximum Marks	
			Overall	Breakdown
Commercial	AW5.1	Price	20%	20%
Technical	PROJ1.1	Understanding, Content and Methodology	80%	40%
Technical	PROJ1.2	Project plan and resources		40%

Evaluation of criteria

Non-Commercial Elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered, or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.

60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60

Evaluator 2 scored your bid as 60

Evaluator 3 scored your bid as 40

Evaluator 4 scored your bid as 40

Your final score will $(60+60+40+40) \div 4 = 50$

Once the above evaluation process has been undertaken and the scores are apportioned by evaluator(s) this will then be subject to an independent commercial review and moderation meeting, if required by the commercial lead, any and all changes will be formally recorded relative to the regulatory obligations associated with this procurement, so as to ensure that the procurement has been undertaken in a robust and transparent way.

Commercial Elements will be evaluated on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100. All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the Commercial criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50.

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: $\text{Score/Total Points multiplied by 50}$ ($80/100 \times 50 = 40$)

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

This evaluation criteria will therefore not be subject to any averaging, as this is a mathematical scoring criterion, but will still be subject to a commercial review.

Evaluation process

The evaluation process will feature some, if not all, the following phases.

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none"> ITQ logged upon opening in alignment with UK SBS's procurement procedures. Any ITQ Bid received after the closing date will be rejected unless circumstances attributed to UK SBS, the Contracting Authority or the eSourcing Portal beyond the bidder control are responsible for late submission.
Compliance check	<ul style="list-style-type: none"> Check all Mandatory requirements are acceptable to the Contracting Authority. Unacceptable Bids maybe subject to clarification by the Contracting Authority or rejection of the Bid.
Scoring of the Bid	<ul style="list-style-type: none"> Evaluation team will independently score the Bid and provide a commentary of their scoring justification against the criteria.
Clarifications	<ul style="list-style-type: none"> The Evaluation team may require written clarification to Bids
Re - scoring of the Bid and Clarifications	<ul style="list-style-type: none"> Following Clarification responses, the Evaluation team reserve the right to independently re-score the Bid and Clarifications and provide a commentary of their re-scoring justification against the Evaluation criteria.
Moderation meeting (if required to reach an award decision)	<ul style="list-style-type: none"> To review the outcomes of the Commercial review To agree final scoring for each Bid, relative rankings of the Bids To confirm contents of the feedback letters to provide details of scoring and relative and proportionate feedback on the unsuccessful Bidders response in comparison with the successful Bidders response
Due diligence of the Bid	<ul style="list-style-type: none"> the Contracting Authority may request the following requirements at any stage of the Procurement: <ul style="list-style-type: none"> Submission of insurance documents from the Bidder Request for evidence of documents / accreditations referenced in the / Invitation to Quote response / Bid and / or Clarifications from the Bidder Taking up of Bidder references from the Bidders Customers. Financial Credit check for the Bidder
Validation of unsuccessful Bidders	<ul style="list-style-type: none"> To confirm contents of the letters to provide details of scoring and meaningful feedback on the unsuccessful Bidders Bid in comparison with the successful Bidders Bid.

Section 6 – Evaluation Response Questionnaire

Bidders should note that the evaluation response questionnaire is located within the **Jaggaer eSourcing Portal**.

Guidance on how to register and use the Jaggaer eSourcing portal is available at

<https://beisgroup.ukp.app.jaggaer.com/>

PLEASE NOTE THE QUESTIONS ARE NOT NUMBERED SEQUENTIALLY

Section 7 – General Information

What makes a good bid – some simple do's 😊

DO:

- 7.1 Do comply with Procurement document instructions. Failure to do so may lead to disqualification.
- 7.2 Do provide the Bid on time, and in the required format. Remember that the date / time given for a response is the last date that it can be accepted; we are legally bound to disqualify late submissions. Responses received after the date indicated in the Section 3 of the ITQ shall not be considered by the Contracting Authority, unless the Bidder can justify that the reason for the delay is solely attributable to the Contracting Authority
- 7.3 Do ensure you have read all the training materials to utilise the eSourcing portal prior to responding to this Bid. If you send your Bid by email or post it will be rejected.
- 7.4 Do use Microsoft Word, PowerPoint Excel 97-03 or compatible formats, or PDF unless agreed in writing by the Buyer. If you use another file format without our written permission, we may reject your Bid.
- 7.5 Do ensure you utilise the Jaggaer eSourcing messaging system to raise any clarifications to our ITQ. You should note that we will release the answer to the question to all Bidders and where we suspect the question contains confidential information, we may modify the content of the question to protect the anonymity of the Bidder or their proposed solution
- 7.6 Do answer the question, it is not enough simply to cross-reference to a 'policy', web page or another part of your Bid, the evaluation team have limited time to assess bids and if they can't find the answer, they can't score it.
- 7.7 Do consider who the Contracting Authority is and what they want – a generic answer does not necessarily meet every Contracting Authority's needs.
- 7.8 Do reference your documents correctly, specifically where supporting documentation is requested e.g. referencing the question/s they apply to.
- 7.9 Do provide clear, concise and ideally generic contact details; telephone numbers, e-mails.
- 7.10 Do complete all questions in the evaluation response questionnaire or we may reject your Bid.
- 7.11 Do ensure that the Response and any documents accompanying it are in the English Language, the Contracting Authority reserve the right to disqualify any full or part responses that are not in English.
- 7.12 Do check and recheck your Bid before dispatch.

What makes a good bid – some simple do not's Ⓜ

DO NOT

- 7.13 Do not cut and paste from a previous document and forget to change the previous details such as the previous buyer's name.
- 7.14 Do not attach 'glossy' brochures that have not been requested, they will not be read unless we have asked for them. Only send what has been requested and only send supplementary information if we have offered the opportunity so to do.
- 7.15 Do not share the Procurement documents, they are confidential and should not be shared with anyone without the Buyers written permission.
- 7.16 Do not seek to influence the procurement process by requesting meetings or contacting UK SBS or the Contracting Authority to discuss your Bid. If your Bid requires clarification the Buyer will contact you. All information secured outside of formal Buyer communications shall have no Legal standing or worth and should not be relied upon.
- 7.17 Do not contact any UK SBS staff or the Contracting Authority staff without the Buyers written permission or we may reject your Bid.
- 7.18 Do not collude to fix or adjust the price or withdraw your Bid with another Party as we will reject your Bid.
- 7.19 Do not offer UK SBS or the Contracting Authority staff any inducement or we will reject your Bid.
- 7.20 Do not seek changes to the Bid after responses have been submitted and the deadline for Bids to be submitted has passed.
- 7.21 Do not cross reference answers to external websites or other parts of your Bid, the cross references and website links will not be considered.
- 7.22 Do not exceed word counts, the additional words will not be considered.
- 7.23 Do not make your Bid conditional on acceptance of your own Terms of Contract, as your Bid will be rejected.
- 7.24 Do not unless explicitly requested by the Contracting Authority either in the procurement documents or via a formal clarification from the Contracting Authority send your response by any way other than via the Jaggaer eSourcing portal. Responses received by any other method than requested will not be considered for the opportunity.

Some additional guidance notes

- 7.25 All enquiries with respect to access to the eSourcing portal and problems with functionality within the portal must be submitted to Jaggaer eSourcing Helpdesk

Phone 08000 698 632

Email customersupport@jaggaer.com

Please note; Jaggaer is a free self-registration portal. Bidders can complete the online registration at the following link:

<https://beisgroup.ukp.app.jaggaer.com/>

- 7.26 Bidders will be specifically advised where attachments are permissible to support a question response within the eSourcing portal. Where they are not permissible any attachments submitted will not be considered as part of the evaluation process.
- 7.27 Question numbering is not sequential and all questions which require submission are included in the Section 6 Evaluation Response Questionnaire.
- 7.28 Any Contract offered may not guarantee any volume of work or any exclusivity of supply.
- 7.29 We do not guarantee to award any Contract as a result of this procurement
- 7.30 All documents issued or received in relation to this procurement shall be the property of the Contracting Authority / UK SBS.
- 7.31 We can amend any part of the procurement documents at any time prior to the latest date / time Bids shall be submitted through the Jaggaer eSourcing Portal.
- 7.32 If you are a Consortium you must provide details of the Consortiums structure.
- 7.33 Bidders will be expected to comply with the Freedom of Information Act 2000, or your Bid will be rejected.
- 7.34 Bidders should note the Government's transparency agenda requires your Bid and any Contract entered into to be published on a designated, publicly searchable web site. By submitting a response to this ITQ Bidders are agreeing that their Bid and Contract may be made public
- 7.35 Your bid will be valid for 90 days or your Bid will be rejected.
- 7.36 Bidders may only amend the contract terms during the clarification period only, only if you can demonstrate there is a legal or statutory reason why you cannot accept them. If you request changes to the Contract terms without such grounds and the Contracting Authority fail to accept your legal or statutory reason is reasonably justified, we may reject your Bid.
- 7.37 We will let you know the outcome of your Bid evaluation and where requested will provide a written debrief of the relative strengths and weaknesses of your Bid.

- 7.38 If you fail mandatory pass / fail criteria we will reject your Bid.
- 7.39 Bidders are required to use IE8, IE9, Chrome or Firefox in order to access the functionality of the Jaggaer eSourcing Portal.
- 7.40 Bidders should note that if they are successful with their proposal the Contracting Authority reserves the right to ask additional compliancy checks prior to the award of any Contract. In the event of a Bidder failing to meet one of the compliancy checks the Contracting Authority may decline to proceed with the award of the Contract to the successful Bidder.
- 7.41 All timescales are set using a 24-hour clock and are based on British Summer Time or Greenwich Mean Time, depending on which applies at the point when Date and Time Bids shall be submitted through the Jaggaer eSourcing Portal.
- 7.42 All Central Government Departments and their Executive Agencies and Non-Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-Government role delivering overall Government policy on public procurement - including ensuring value for money and related aspects of good procurement practice.

For these purposes, the Contracting Authority may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to the Contracting Authority during this Procurement. The information will not be disclosed outside Government. Bidders taking part in this ITQ consent to these terms as part of the competition process.

- 7.43 The Government revised its Government Security Classifications (GSC) classification scheme on the 2nd April 2014 to replace the previous Government Protective Marking System (GPMS). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC. The link below to the Gov.uk website provides information on the new GSC:

<https://www.gov.uk/government/publications/government-security-classifications>

The Contracting Authority reserves the right to amend any security related term or condition of the draft contract accompanying this ITQ to reflect any changes introduced by the GSC. In particular where this ITQ is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.

USEFUL INFORMATION LINKS

- [Contracts Finder](#)
- [Equalities Act introduction](#)
- [Bribery Act introduction](#)
- [Freedom of information Act](#)

8.0 Freedom of information

- 8.1 In accordance with the obligations and duties placed upon public authorities by the Freedom of Information Act 2000 (the 'FoIA') and the Environmental Information Regulations 2004 (the 'EIR') (each as amended from time to time), UK SBS or the Contracting Authority may be required to disclose information submitted by the Bidder to the to the Contracting Authority.
- 8.2 In respect of any information submitted by a Bidder that it considers to be commercially sensitive the Bidder should complete the Freedom of Information declaration question defined in the Question FOI1.2.
- 8.3 Where a Bidder identifies information as commercially sensitive, the Contracting Authority will endeavour to maintain confidentiality. Bidders should note, however, that, even where information is identified as commercially sensitive, the Contracting Authority may be required to disclose such information in accordance with the FoIA or the Environmental Information Regulations. In particular, the Contracting Authority is required to form an independent judgment concerning whether the information is exempt from disclosure under the FoIA or the EIR and whether the public interest favours disclosure or not. Accordingly, the Contracting Authority cannot guarantee that any information marked 'confidential' or "commercially sensitive" will not be disclosed.
- 8.4 Where a Bidder receives a request for information under the FoIA or the EIR during the procurement, this should be immediately passed on to UK SBS or the Contracting Authority and the Bidder should not attempt to answer the request without first consulting with the Contracting Authority.
- 8.5 Bidders are reminded that the Government's transparency agenda requires that sourcing documents, including ITQ templates such as this, are published on a designated, publicly searchable web site, and, that the same applies to other sourcing documents issued by UK SBS or the Contracting Authority, and any contract entered into by the Contracting Authority with its preferred supplier once the procurement is complete. By submitting a response to this ITQ Bidders are agreeing that their participation and contents of their Response may be made public.

9.0. Timescales

- 9.1 [Section 3](#) of the ITQ sets out the proposed procurement timetable. The Contracting Authority reserves the right to extend the dates and will advise potential Bidders of any change to the dates.

10.0. The Contracting Authority's Contact Details

- 10.1 Unless stated otherwise in these Instructions or in writing from UK SBS or the Contracting Authority, all communications from Bidders (including their sub-contractors, consortium members, consultants, and advisers) during the period of this

procurement must be directed through the eSourcing tool to the designated UK SBS contact.

- 10.2 Bidders should be mindful that the designated Contact should not under any circumstances be sent a copy of their Response outside of the Jaggaer eSourcing portal. Failure to follow this requirement will result in disqualification of the Response.
