

- Key:**
- 100mmØ Surface water drainage pipe to BS EN 13476-2
 - Surface water inspection chamber
 - Soakaway crates
 - Drained area extents
 - Proposed lift shaft foundation extents
 - Flow exceedance arrow
 - Proposed Levels

- Residual Hazards and Maintenance:**
- Unknown locations of buried service apparatus; contractor to trace and carry out trial pits prior to commencing main excavation works.
 - No allowance has been made in the design for managing site run-off during construction.
 - Work to be carried out around adjacent services and foundations.
 - Periodic inspection of sump chambers and removal of silt/debris where required.
