Where the Parties include two or more Joint Controllers as identified in Schedule 1, in accordance with GDPR Article 26 those Parties shall enter into a Joint Controller Agreement based on the terms outlined in Schedule [X] in replacement of Clauses 13.1 to 13.14 for the Personal Data in respect of which they are Joint Controllers.

## 14. Liability

- 14.1 The Contractor shall not be responsible for any injury, loss, damage, cost or expense suffered by the Customer if and to the extent that it is caused by the negligence or wilful misconduct of the Customer or by breach by the Customer of its obligations under the Agreement.
- 14.2 Subject always to clauses 14.3 and 14.4:
  - 14.2.1 the aggregate liability of the Contractor in respect of all defaults, claims, losses or damages howsoever caused, whether arising from breach of the Agreement, the supply or failure to supply of the Services, misrepresentation (whether tortious or statutory), tort (including negligence), breach of statutory duty or otherwise shall in no event exceed a sum equal to 125% of the Charges paid or payable to the Contractor; and
  - 14.2.2 except in the case of claims arising under clauses 9.4 and 18.3, in no event shall the Contractor be liable to the Customer for any:

- a) loss of profits;

14.3.1 death or personal injury caused by its negligence or that of its Staff;

14.3.2 fraud or fraudulent misrepresentation by it or that of its Staff; or

14.3.3 any other matter which, by law, may not be excluded or limited.

14.4 The Contractor's liability under the indemnity in clause 9.4 and 18.3 shall be unlimited.

## 15. Force Majeure

15.1 Neither Party shall have any liability under or be deemed to be in breach of the Agreement for any delays or failures in performance of the Agreement which result from circumstances beyond the reasonable control of the Party affected. Each Party shall promptly notify the other Party in writing when such circumstances cause a delay or failure in performance and when they cease to do so. If such circumstances continue for a continuous period of more than two months, either Party may terminate the Agreement by written notice to the other Party.

## 16. Termination

16.1 The Customer may terminate the Agreement at any time by notice in writing to the Contractor to take effect on any date falling at least 1 month (or, if the Agreement is less than 3 months in duration, at least 10 Working Days) later than the date of service of the relevant notice.

16.2 Without prejudice to any other right or remedy it might have, the Customer may terminate the Agreement by written notice to the Contractor with immediate effect if the Contractor:

- 16.2.1 (without prejudice to clause 16.2.5), is in material breach of any obligation under the Agreement which is not capable of remedy;
- 16.2.2 repeatedly breaches any of the terms and conditions of the Agreement in such a manner as to reasonably justify the opinion that its conduct is inconsistent with it having the intention or ability to give effect to the terms and conditions of the Agreement;
- 16.2.3 is in material breach of any obligation which is capable of remedy, and that breach is not remedied within 30 days of the Contractor receiving notice specifying the breach and requiring it to be remedied;
- 16.2.4 undergoes a change of control within the meaning of section 416 of the Income and Corporation Taxes Act 1988;
- 16.2.5 breaches any of the provisions of clauses 7.2, 11, 12, 13 and 17;
- 16.2.6 becomes insolvent, or if an order is made or a resolution is passed for the winding up of the Contractor (other than voluntarily for the purpose of solvent amalgamation or reconstruction), or if an administrator or administrative receiver is appointed in respect of the whole or any part of the Contractor's assets or business, or if the Contractor makes any composition with its creditors or takes or suffers any similar or analogous action (to any of the actions detailed in this clause 16.2.6) in consequence of debt in any jurisdiction; or
- 16.2.7 fails to comply with legal obligations in the fields of environmental, social or labour law.
- 16.3 The Contractor shall notify the Customer as soon as practicable of any change of control as referred to in clause 16.2.4 or any potential such change of control.
- 16.4 The Contractor may terminate the Agreement by written notice to the Customer if the Customer has not paid any undisputed amounts within 90 days of them falling due.
- 16.5 Termination or expiry of the Agreement shall be without prejudice to the rights of either Party accrued prior to termination or expiry and shall not affect the continuing rights of the Parties under this clause and clauses 2, 3.2, 6.1, 6.2, 6.6, 6.7, 7, 9, 10.2, 11, 12, 13, 14, 16.6, 17.4, 18.3, 19 and 20.7 or any other provision of the Agreement that either expressly or by implication has effect after termination.
- 16.6 Upon termination or expiry of the Agreement, the Contractor shall:
  - 16.6.1 give all reasonable assistance to the Customer and any incoming Contractor of the Services; and

16.6.2 return all requested documents, information and data to the Customer as soon as reasonably practicable.

## 17. Compliance

17.1 The Contractor shall promptly notify the Customer of any health and safety hazards which may arise in connection with the performance of its obligations under the Agreement. The Customer shall promptly notify the Contractor of any health and safety hazards which may exist or arise at the Customer's premises and which may affect the Contractor in the performance of its obligations under the Agreement.

17.2 The Contractor shall:

17.2.1 comply with all the Customer's health and safety measures while on the Customer's premises; and

17.2.2 notify the Customer immediately in the event of any incident occurring in the performance of its obligations under the Agreement on the Customer's premises where that incident causes any personal injury or damage to property which could give rise to personal injury.

17.3 The Contractor shall:

17.3.1 perform its obligations under the Agreement in accordance with all applicable equality Law and the Customer's equality and diversity policy as provided to the Contractor from time to time; and

17.3.2 take all reasonable steps to secure the observance of clause 17.3.1 by all Staff.

17.4 The Contractor shall supply the Services in accordance with the Customer's environmental policy as provided to the Contractor from time to time.

17.5 The Contractor shall comply with, and shall ensure that its Staff shall comply with, the provisions of:

17.5.1 Official Secrets Acts 1911 to 1989; and

17.5.2 Section 182 of the Finance Act 1989.

## 18. Prevention of Fraud and Corruption

18.1 The Contractor shall not offer, give, or agree to give anything, to any person an inducement or reward for doing, refraining from doing, or for having done or refrained from doing, any act in relation to the obtaining or execution of the

Agreement or for showing or refraining from showing favour or disfavour to any person in relation to the Agreement.

- 18.2 The Contractor shall take all reasonable steps, in accordance with good industry practice, to prevent fraud by the Staff and the Contractor (including its shareholders, members and directors) in connection with the Agreement and shall notify the Customer immediately if it has reason to suspect that any fraud has occurred or is occurring or is likely to occur.
- 18.3 If the Contractor or the Staff engages in conduct prohibited by clause 18.1 or commits fraud in relation to the Agreement or any other contract with the Crown (including the Customer) the Customer may:
- 18.3.1 terminate the Agreement and recover from the Contractor the amount of any loss suffered by the Customer resulting from the termination, including the cost reasonably incurred by the Customer of making other arrangements for the supply of the Services and any additional expenditure incurred by the Customer throughout the remainder of the Agreement; or
- 18.3.2 recover in full from the Contractor any other loss sustained by the Customer in consequence of any breach of this clause.

## 19. Dispute Resolution

- 19.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Agreement and such efforts shall involve the escalation of the dispute to an appropriately senior representative of each Party.
- 19.2 If the dispute cannot be resolved by the Parties within one month of being escalated as referred to in clause 19.1, the dispute may by agreement between the Parties be referred to a neutral adviser or mediator (the "Mediator") chosen by agreement between the Parties. All negotiations connected with the dispute shall be conducted in confidence and without prejudice to the rights of the Parties in any further proceedings.
- 19.3 If the Parties fail to appoint a Mediator within one month, or fail to enter into a written agreement resolving the dispute within one month of the Mediator being appointed, either Party may exercise any remedy it has under applicable law.

## 20. General

- 20.1 Each of the Parties represents and warrants to the other that it has full capacity and authority, and all necessary consents, licences and permissions to enter into

and perform its obligations under the Agreement, and that the Agreement is executed by its duly authorised representative.

- 20.2 A person who is not a party to the Agreement shall have no right to enforce any of its provisions which, expressly or by implication, confer a benefit on him, without the prior written agreement of the Parties.
- 20.3 The Agreement cannot be varied except in writing signed by a duly authorised representative of both the Parties.
- 20.4 The Agreement contains the whole agreement between the Parties and supersedes and replaces any prior written or oral agreements, representations or understandings between them. The Parties confirm that they have not entered into the Agreement on the basis of any representation that is not expressly incorporated into the Agreement. Nothing in this clause shall exclude liability for fraud or fraudulent misrepresentation.
- 20.5 Any waiver or relaxation either partly, or wholly of any of the terms and conditions of the Agreement shall be valid only if it is communicated to the other Party in writing and expressly stated to be a waiver. A waiver of any right or remedy arising from a breach of contract shall not constitute a waiver of any right or remedy arising from any other breach of the Agreement.
- 20.6 The Agreement shall not constitute or imply any partnership, joint venture, agency, fiduciary relationship or other relationship between the Parties other than the contractual relationship expressly provided for in the Agreement. Neither Party shall have, nor represent that it has, any authority to make any commitments on the other Party's behalf.
- 20.7 Except as otherwise expressly provided by the Agreement, all remedies available to either Party for breach of the Agreement (whether under the Agreement, statute or common law) are cumulative and may be exercised concurrently or separately, and the exercise of one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.
- 20.8 If any provision of the Agreement is prohibited by law or judged by a court to be unlawful, void or unenforceable, the provision shall, to the extent required, be severed from the Agreement and rendered ineffective as far as possible without modifying the remaining provisions of the Agreement, and shall not in any way affect any other circumstances of or the validity or enforcement of the Agreement.

## 21. Notices

- 21.3 Notices under clauses 15 (Force Majeure) and 16 (Termination) may be served by email only if the original notice is then sent to the recipient by personal delivery or recorded delivery in the manner set out in clause 21.1.

## **22. Governing Law and Jurisdiction**

## 2 THE CLIENT REQUEST

Campden BRI has undertaken two previous studies on behalf of Defra in the area of hidden/critical inputs to food and drink manufacturing processes.

The first (ecm\_5349 Resilience of the supply chains for key hidden inputs into food and drink manufacturing processes) was undertaken in November 2018 in light of the fallout from the recent CO<sub>2</sub> supply interruption whereby Defra was seeking a better understanding of the key 'hidden' (e.g. preservatives) inputs into, and intermediate products used in, food and drink manufacturing processes, where an interruption to the supply of those 'hidden' products would cause an interruption of supply from the food and drink manufacturing sector.

The second study was undertaken in April 2019 (ECM55199, Project 26294 The resilience of supply chains for key hidden inputs into food and drink manufacture). On this occasion Defra requested that Campden BRI consider approximately thirty food and drink ingredients and additives (as advised by industry) within the scenario whereby the import of these products is subject to significant delay or disruption at UK ports and the potential impact this may have on UK food and drink manufacturing processes. This study also considered other aspects such as transport requirements.

On both occasions the Defra contact was [REDACTED] Economic Adviser – Food Chain Analysis Team.

Campden BRI was invited to a meeting at Defra on 4 July 2019 to discuss the previous two projects with the Policy Team, Food Supply and Engagement Team, Critical Dependencies, following which Campden BRI was requested to submit a proposal to undertake a further study as indicated below

### 2.1 Objectives and deliverables

Defra has outlined the following requirements.

**Definitions:** Critical inputs to include

- Ingredients
- Additives
- Inputs not present at the point of consumption (e.g. cleaning chemicals and chemicals used to facilitate packaging and transportation of final product).

This definition does not include machinery and agricultural inputs (pesticides, seeds and so on) or key ingredients where those are imported into the UK via bulk vessel (e.g. grains).

**Scope:**

Critical inputs into food and drink manufacturing processes, where food and drink products within scope are confined to the essential food and drink product categories listed below, including those critical inputs which are only vulnerable when EU Exit-related supply friction coincides with wider supply issues (the "perfect storm" scenario).

## Objectives

- To identify the most vulnerable\* critical inputs into production processes of essential food items;
- To assess the impact on the UK food and drink manufacturing sector of a reduced supply of those critical inputs in an October 'No Deal' EU Exit scenario.

\*Vulnerability is defined as susceptibility to supply interruption with the potential for 'downstream' impacts on supply from the food and drink manufacturing sector

In particular the following areas are to be addressed

- i) Identify vulnerable critical inputs
- ii) Map vulnerable critical inputs across the below essential food and drink products, as well as non-essential food and drink products, manufactured using those critical inputs, in order to further Defra's understanding of the overall impact of supply interruption:
  - Milk and dairy products
  - Cheese
  - Carcase meat
  - Meat products
  - Fish
  - Eggs
  - Fats and oils
  - Processed fruit and vegetables
  - Bread
  - Flour
  - Cereal products, including rice, pasta, breakfast cereal.
- iii) Identify the most vulnerable of those critical inputs for an October 31<sup>st</sup> 'No Deal' EU Exit.

The final deliverable should include a 'per vulnerable critical dependency' risk assessment, informed by the consideration of the following parameters:

- Source countries of critical inputs.
- The scale of supply interruption that the 'downstream' could bear without effecting impacts (price and availability) on the supply of essential food and drink products.
- Key manufacturers of critical inputs.
- Significance of UK production, and, where possible, the production to supply ratio.
- The implications of perishability for storage and switched transportation routes and modes.
- Preferred transportation modes and routes.
- Scope to switch transportation route and mode.

## Deliverables

### Deliverable 1: Preliminary report

A meeting to present a preliminary report in order to confirm methodology, discuss progress and agree the final output.

The proposed date is 29<sup>th</sup> July 2019 at Defra offices.

### Deliverable 2: Final report

The final report will be in the form of a Power Point presentation and discussion.

In particular Defra has indicated that the slide pack should include:

“Some narrative and explanation of findings; risk assessment in tabular form (showing the ranking of critical inputs, and impacted essential food and drink items, by vulnerability). Final version should include an annexed discussion of data sources, methodology, limitations of analysis undertaken, scope of analysis and quality assurance undertaken”.

### **3 PROPOSAL**

The following information describes the approaches and methods being proposed.

#### **3.1 Approaches and/or methods**

The approaches and methods will be similar to those adopted in the previous two studies including:

- Desk based research
  - utilising Campden BRI internal resources, subscription databases as appropriate and publicly available information (Open access).
- Collaboration with technical colleagues
- Risk evaluation (Combination of methods from the previous two studies)

The product categories provided are quite broad and potentially include a number of variants. As the time scale for this project is quite short, in the case of broad categories focus may be limited to a ‘typical’ product, for example individual flavours of yoghurt (dairy product) will not be considered. Focus will be on products produced in the UK.

The steps involved include:

- Knowledge based generation of the production flow and critical dependencies for each product category (as above)
- Peer review by technical experts
- Development of matrices to map food categories vs input types vs list of critical inputs (e.g. Food improvement agents; Processing aids; Ingredients; Packaging; Cleaning materials)
- Performance of risk evaluation to determine sensitivity to disruption. This will include modification of existing risk-ranking strategies and performance of PESTLE (Political, Economic Social, Technological, Legal Environmental) analyses.

#### **3.2 Campden BRI staff**

The following Campden BRI staff will be the main contributors to the project, although they will also discuss and collaborate with other Campden BRI staff as appropriate for additional technical expertise and product awareness.
