(a) the end user as: Her Britannic Majesty's Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter "HM Government"); and

(b) the end use as: For the Purposes of HM Government; and

- (2) include in the submission for the licence or authorisation a statement that "information on the status of processing this application may be shared with the Ministry of Defence of the United Kingdom".

c. If the Contractor or any subcontractor in the performance of the Contract needs to export materiel not previously supplied by or on behalf of the Authority for which an export licence or import licence or authorisation from a foreign government is required, the responsibility for instituting expeditious action to apply for and obtain the licence shall rest with the Contractor or that subcontractor. For the purposes of this Condition materiel shall mean

information, technical data and items, including Contractor Deliverables, components of Contractor Deliverables and software.

d. Where the Contract performance requires the export of materiel for which a foreign export licence or import licence or authorisation is required, the Contractor shall include the dependencies for the export licence or import licence or authorisation application, grant and maintenance in the Contract risk register and in the risk management plan for the Contract, with appropriate review points. Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.

e. During the term of the Contract and for a period of up to 2 years from completion of the Contract, the Authority may make a written request to the Contractor to seek a variation to the conditions to a foreign export licence or import licence or authorisation to enable the Authority to re-export or re-transfer a licensed or authorised item or licensed or authorised information from the UK to a non-licensed or unauthorised third party. If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:

(1) the Contractor shall, or procure that the Contractor's subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and

(2) the Authority shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the application for the requested variation.

f. Where the Authority determines that it is best placed to make such request the Contractor shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the Authority to make the application for the requested variation.

g. Where the Authority invokes clause 33.e or 33.f the Authority will pay the Contractor a fair and reasonable charge for this service based on the cost of providing it.

h. Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, import control or both the Contractor shall use reasonable endeavours to incorporate in each subcontract equivalent obligations to those set out in this Condition. Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.

i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.

j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.

k. The Contractor shall use reasonable endeavours to

identify whether any Contractor Deliverable is subject to:

(1) a non-UK export licence, authorisation or exemption; or

(2) any other related transfer or export control,

that imposes or will impose end use, end user or re-transfer or re-export restrictions, or restrictions on disclosure to individuals based upon their nationality. This does not include the Intellectual Property-specific restrictions of the type referred to in condition 34 (Third Party Intellectual Property – Rights and Restrictions).

l. If at any time during the term of the Contract the Contractor becomes aware that all or any part of the Contractor Deliverables are subject to Clause 33.k(1) or 33.k(2), it shall notify the Authority of this as soon as reasonably practicable by providing details in the DEFFORM 528 or other mutually agreed alternative format. Such notification shall be no later than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.

m. If the information to be provided under Clause 33.l has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of Clause 33.l.

n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 33.l or 33.m of which it becomes or is aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those Clauses by issuing an updated DEFFORM 528 to the Authority.

o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under Clause 33.l or 33.m of which it becomes aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those Clauses by issuing an updated DEFFORM 528 to the Authority.

p. Where following receipt of materiel from a subcontractor or any of its other suppliers restrictions are notified to the Contractor by that subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within [X] days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within [X] days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in accordance with its terms to implement the proposal.

q. If the restrictions prevent the Contractor from performing its obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with condition 6 or 7 or as otherwise may be provided by the Contract, or to terminate the Contract. Except as set out in clause 33.r, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer

the matter to dispute resolution in accordance with the provisions in the Contract.33.r, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.

r. In the event that the restrictions notified to the Authority pursuant to Clause 33.l were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 33.n or 33.p were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with Clause 33.l, termination under Clause 33.t will be in accordance with condition 43 (Material Breach) and the provisions of clause 33.v will not apply.

s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of Clause 33.k, the Authority shall provide a completed DEFFORM 528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such materiel to the Contractor.

t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such materiel is identified then the Authority shall provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any materiel to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure.

u. Where:

- (1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to Clauses 33.s or 33.t or both; or
- (2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate;

the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform its obligations under the Contract, the matter shall be handled under the terms of condition 6 (Amendments to Contract) or condition 7 (Variations to Specification) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract. Termination under these circumstances will be under the terms of condition 42 (Termination for Convenience) and as referenced in the

Contract

v. Pending agreement of any amendment of the Contract as set out in clause 33.q or 33.u, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved from its obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

#### **34. Third Party Intellectual Property – Rights and Restrictions**

a. The Contractor and, where applicable any Subcontractor, shall promptly notify the Authority as soon as they become aware of:

- (1) any invention or design the subject of patent or registered Design Rights (or application thereof) owned by a third party which appears to be relevant to the performance of the Contract or to use by the Authority of anything required to be done or delivered under the Contract;
- (2) any restriction as to disclosure or use, or obligation to make payments in respect of any other intellectual property (including technical Information) required for the purposes of the Contract or subsequent use by the Authority of anything delivered under the Contract and, where appropriate, the notification shall include such Information as is required by Section 2 of the Defence Contracts Act 1958;

Clause 34.a does not apply in respect of Contractor Deliverables normally available from the Contractor as a Commercial Off The Shelf (COTS) item or service.

b. If the Information required under clause 34.a has been notified previously, the Contractor may meet its obligations by giving details of the previous notification.

c. For COTS Contractor Deliverables patents and registered designs in the UK, in respect of any question arising (by way of an allegation made to the Authority or Contractor, or otherwise) that the manufacture or provision under the Contract of Contractor Deliverables normally available from the Contractor as a COTS item or service is an infringement of a UK patent or registered design not owned or controlled by the Contractor or the Authority, the Contractor shall, subject to the agreement of the third party owning such patent or registered design, be given exclusive conduct of any and all negotiations for the settlement of any claim or the conduct of any litigation arising out of such question. The Contractor shall indemnify the Authority, its officers, agents and employees against any liability and cost arising from such allegation. This condition shall not apply if:

d. The indemnity in clause 34.c does not extend to use by the Authority of anything supplied under the Contract

where that use was not reasonably foreseeable at the time of the Contract.

e. In the event that the Authority has entered into negotiation in respect of a claim for compensation, or legal proceedings in respect of the Crown Use have commenced, the Authority shall forthwith authorise the Contractor for the purposes of performing the Contract (but not otherwise) to utilise a relevant invention or design in accordance with Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949 and to use any model, document or information relating to any such invention or design which may be required for that purpose.

f. For all other Contractor Deliverables patents and registered designs in the UK, if a relevant invention or design has been notified to the Authority by the Contractor prior to the Effective Date of Contract, then unless it has been otherwise agreed, under the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, the Contractor is hereby authorised to utilise that invention or design, notwithstanding the fact that it is the subject of a UK Patent or UK Registered Design, for the purpose of performing the Contract.

g. If, under clause 34.a, a relevant invention or design is notified to the Authority by the Contractor after the Effective Date of Contract, then:

- (1) if the owner (or its exclusive licensee) takes or threatens in writing to take any relevant action against the Contractor, the Authority shall issue to the Contractor a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, and
- (2) in any event, unless the Contractor and the Authority can agree an alternative course of action, the Authority shall not unreasonably delay the issue of a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949.

h. The Authority shall assume all liability and shall indemnify the Contractor, its officers, agents and employees against liability, including the Contractor's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the United Kingdom in the performance of the Contract when such infringement arises from or is incurred by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

i. The Contractor shall assume all liability and shall indemnify the Authority, its officers, agents and employees against liability, including the Authority's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the UK in the performance of the Contract when such infringement arises from or is incurred otherwise than by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

j. The Contractor shall not be entitled to any reimbursement of any royalty, licence fee or similar expense incurred in respect of anything to be done under the Contract, where:

- (1) a relevant discharge has been given under Section 2 of the Defence Contracts Act 1958, or relevant authorisation in accordance with Sections 55 or 57 of the Patents Act 1977, Section 12 of the Registered Designs Act 1949 or Section 240 of the Copyright, Designs and Patents Act 1988 in respect of any intellectual property; or

- (1) released from payment whether by way of royalties, licence fees or similar expenses in respect of the Contractor's use of the relevant invention or design, or the use of any relevant model, document or information for the purpose of performing the Contract; and
- (2) authorised to use any model, document or information relating to any such invention or design which may be required for that purpose.

l. The Contractor shall assume all liability and indemnify the Authority and its officers, agents and employees against liability, including costs as a result of:

- (1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item to be supplied under the Contract or otherwise in the performance of the Contract;
- (2) misuse of any confidential information, trade secret or the like by the Contractor in performing the Contract;
- (3) provision to the Authority of any Information or material which the Contractor does not have the right to provide for the purpose of the Contract.

m. The Authority shall assume all liability and indemnify the Contractor, its officers, agents and employees against liability, including costs as a result of:

- (1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item provided by the Authority for the purpose of the Contract but only to the extent that the item is used for the purpose of the Contract;
- (2) alleged misuse of any confidential Information, trade secret or the like by the Contractor as a result of use of Information provided by the Authority for the purposes of the Contract, but only to the extent that Contractor's use of that Information is for the purposes intended when it was disclosed by the Authority.

n. The general authorisation and indemnity is:

- (3) a Party against whom a claim is made or action brought, shall promptly notify the other Party in writing if such claim or action appears to relate to an infringement which is the subject of an indemnity or authorisation given under this Condition by such other Party. The notification shall include particulars of the demands, damages and liabilities claimed or made of which the notifying Party has notice;
- (4) the party benefiting from the indemnity or authorisation shall allow the other Party, at its own expense, to conduct any negotiations for the settlement of the same, and any litigation that may arise therefrom and shall provide such information as

the other Party may reasonably require;

(5) following a notification under clause 34.n(3), the Party notified shall advise the other Party in writing within thirty (30) Business Days whether or not it is assuming conduct of the negotiations or litigation. In that case the Party against whom a claim is made or action brought shall not make any statement which might be prejudicial to the settlement or defence of such a claim without the written consent of the other Party;

(6) the Party conducting negotiations for the settlement of a claim or any related litigation shall, if requested, keep the other Party fully informed of the conduct and progress of such negotiations.

o. If at any time a claim or allegation of infringement arises in respect of copyright, database right, Design Right or breach of confidence as a result of the provision of any Contractor Deliverable by the Contractor to the Authority, the Contractor may at its own expense replace the item with an item of equivalent functionality and performance so as to avoid infringement or breach. The Parties will co-operate with one another to mitigate any claim or damage which may arise from use of third party IPR.

- (ii) the date of completion of the part of the Contract to which the request for approval of payment relates.

d. The approval for payment of a valid and undisputed invoice by the Authority shall not be construed as acceptance

by the Authority of the performance of the Contractor's obligations nor as a waiver of its rights and remedies under this Contract.

e. Without prejudice to any other right or remedy, the Authority reserves the right to set off any amount owing at any time from the Contractor to the Authority against any amount payable by the Authority to the Contractor under the Contract or under any other contract with the Authority, or with any other Government Department.

### **37. Value Added Tax**

a. The Contract Price excludes any UK output Value Added Tax (VAT) and any similar EU (or non-EU) taxes chargeable on the supply of Contractor Deliverables by the Contractor to the Authority.

b. If the Contractor is required by UK VAT law to be registered for UK VAT (or has registered voluntarily) in respect of his business activities at the time of any supply, and the circumstances of any supply are such that the Contractor is liable to pay the tax due to HM Revenue and Customs (HMRC), the Authority shall pay to the Contractor in addition to the Contract Price (or any other sum due to the Contractor) a sum equal to the output VAT chargeable on the tax value of the supply of Contractor Deliverables, and all other payments under the Contract according to the law at the relevant tax point.

c. The Contractor is responsible for the determination of VAT liability. In the event of any doubt about the applicability of the tax in such cases, the Authority may require the Contractor to obtain, and pass to the Authority, a formal ruling from HMRC. The Contractor shall comply promptly with any such requirement. Where the Contractor obtains a ruling from HMRC, it shall supply a copy to the Authority within three (3) Business Days of receiving that ruling unless it proposes to challenge the ruling. Where the Contractor challenges the ruling it shall supply to the Authority a copy of any final decisions issued by HMRC on completion of the challenge within three (3) Business Days of receiving the decision.

d. Where supply of Contractor Deliverables comes within the scope of UK VAT, but the Contractor is not required by UK VAT law to be registered for UK VAT (and has not registered voluntarily), the Authority shall be responsible for assessing and paying over directly to HMRC any UK output VAT due in respect of the Contractor Deliverables. The Contractor shall be responsible for ensuring it takes into account any changes in VAT law regarding registration.

e. Where Contractor Deliverables are deemed to be supplied to the Authority outside the UK, the Contractor may be required by the laws of the country where the supply takes place to register there for EU (or non-EU) turnover or similar tax. In that event, the Authority shall pay to the Contractor in addition to the Contract Price (and any other sum due to the Contractor under the Contract) a sum equal to the tax the Contractor is liable to pay to the tax authorities of the country in question in relation to the Contractor Deliverables within thirty (30) calendar days of a written request for payment of any such sum by the Contractor.

f. In relation to the Contractor Deliverables supplied under the Contract the Authority shall not be required to pay any sum in respect of the Contractor's input VAT (or similar EU or non-EU or both input taxes). However, these input taxes will be allowed where it is established that,

despite the Contractor having taken all reasonable steps to recover them, it has not been possible to do so. Where there is any doubt that the Contractor has complied with this requirement the matter shall be resolved in accordance with condition 40 (Dispute Resolution).

g. Should HMRC decide that the Contractor has incorrectly determined the VAT liability, in accordance with clause 37.b above, the Authority will pay the VAT assessed by HMRC. In the event that HMRC so determines, the Contractor shall pay any interest charged on any assessment or penalties or both directly to HMRC. Such interest or penalties or both shall not be recoverable from the Authority under this Contract or any other contract. The Contractor shall supply the Authority with a copy of all correspondence between HMRC and the Contractor's advisors regarding the VAT assessment within three (3) Business Days of a written request from the Authority for such correspondence.

Any assignment of the right to receive payment of the Contract Price (or any part thereof) under this condition 38 shall be subject to:

- (1) reduction of any sums in respect of which the Authority exercises its right of recovery under clause 36.e
- (2) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (3) the Authority receiving notification under both clauses 38.b and 38.c(2).

c. The Contractor shall ensure that the Assignee:  
(1) is made aware of the Authority's continuing rights under clauses 38.a(1) and 38.a(2); and  
(2) notifies the Authority of the Assignee's contact Information and bank account details to which the Authority shall make payment, subject to any reduction made by the Authority in accordance with clauses 38.a(1) and 38.a(2).

d. The provisions of condition 36 (Payment and Recovery of Sums Due) shall continue to apply in all other respects after the assignment and shall not be amended without the prior approval of the Authority.

### **39. Subcontracting and Prompt Payment**

a. Subcontracting any part of the Contract shall not relieve the Contractor of any of the Contractor's obligations, duties or liabilities under the Contract.

b. Where the Contractor enters into a Subcontract he shall cause a term to be included in such Subcontract:

- (1) providing that where the Subcontractor submits an invoice to the Contractor, the Contractor will consider and verify that invoice in a timely fashion;
- (2) providing that the Contractor shall pay the Subcontractor any sums due under such an invoice no later than a period of thirty (30) days from the date on which the Contractor has determined that the invoice is valid and undisputed;

(3) providing that where the Contractor fails to comply with clause 39.b(1) above, and there is an undue delay in considering and verifying the invoice, that the invoice shall be regarded as valid and undisputed for the purposes of clause 39.b(2) after a reasonable time has passed; and

(4) requiring the counterparty to that Subcontract to include in any Subcontract which it awards, provisions having the same effect as clauses 39.b(1) to 39.b(4).

## Termination

a. The Parties will attempt in good faith to resolve any dispute or claim arising out of or relating to the Contract through negotiations between the respective representatives of the Parties having authority to settle the matter, which attempts may include the use of any alternative dispute resolution procedure on which the Parties may agree.

b. In the event that the dispute or claim is not resolved pursuant to clause 40.a the dispute shall be referred to arbitration. Unless otherwise agreed in writing by the Parties, the arbitration and this clause 40.b shall be governed by the Arbitration Act 1996. For the purposes of the arbitration, the arbitrator shall have the power to make provisional awards pursuant to Section 39 of the Arbitration Act 1996.

c. For the avoidance of doubt, anything said, done or produced in or in relation to the arbitration process (including any awards) shall be confidential between the Parties, except as may be lawfully required in judicial proceedings relating to the arbitration or otherwise.

1.2 This document is intended as an outline specification detailing the engineering requirement to enable a company to apply their expertise to produce a compliant product that meets the in-service user requirements, which shall be acceptable to the Authority and for which a warranty shall be provided. The performance of completed assemblies shall meet or exceed that of the original equipment manufacturers (OEM) specification and the criteria contained in this specification. Should any differences exist between the OEM and MoD specifications, either in build or test criteria, the MoD will generally take precedence. Clarification should be sought from the Babcock DSG Repair Manager.

1.3 The demanding operational role of Armed Service equipment is significantly different to that of equivalent commercial equipment. It is essential to ensure that this equipment proves reliable when used and that the end user has the necessary confidence that it will survive the rigours of Service application.

1.4 It is a requirement of the MoD that contractors hold a current recognised third party Quality Accreditation Certification (UKAS or International equivalent). For the work requirement of this specification, the contractor shall be registered in accordance with the requirement of ISO 9001:2008 suitably scoped as a minimum.

1.5 There may be circumstances, such as urgent operational requirements (UOR) where it will be to the Authority's benefit to accept delivery of products that do not conform to contract requirements, as detailed in Defence Standard 05-61 (Part 1) (Concessions), but there must be a clear and demonstrable

benefit to the Authority and approval must be given by the Babcock DSG Repair Manager, (in writing), before this takes place.

1.6 Any quantities referred to are estimated quantities only. The Authority may order more or less than those referred to. Any figures are for guidance only and no guarantee can be given that any specific quantities of repairable items will become available.

## 2.0 Publications

2.1 Contractors are responsible for obtaining the latest OEM publications, parts lists and supersession lists for the equipment.

2.2 Publications produced by the MoD for service use are, in general, based upon the commercial publications but the format is specific to the service user. Contractors are responsible for obtaining and maintaining the latest issues of these publications.

2.3 Publications applicable to the assemblies within this requirement are covered in Table 2 below:

## 3.0 Documentation

3.1 A quality plan (QP) will be required at the ITT stage to demonstrate how equipment is to be managed. The QP should identify all risk areas and detail how they will be mitigated and managed throughout the duration of the contract. The QP shall reference procedures, developed in accordance with the Contractors Quality Registration, which detail how control of the repair relating to the Company Quality Assurance processes will be achieved. Inspection and test points shall be clearly indicated. Documentation relating to critical or safety related items and assemblies shall be highlighted.

3.2 Following the provision of equipment for repair under this contract<sup>1</sup>, the Contractor is required to submit a strip survey report to the Babcock DSG Repair Manager fully identifying the requirement for all work relating to the assembly, including costs. No work is to be undertaken by the Contractor until this strip survey report and the associated costs have been sanctioned by the Babcock DSG Repair Manager as 'fair and reasonable' and authority is given to proceed.

3.3 At the commencement of the Contract, and thereafter at reasonable intervals depending upon need arising and priorities, the Babcock DSG Repair Manager and Contractor shall agree a "production plan" for the repair. The Contractor shall provide a monthly report on the progress of the repair work against the plan to the Babcock DSG Repair Manager. This '*Contract Status Report*' must include expected delivery dates, financial accrual information and any mitigating factors to support repair and/or delivery variations.

3.4 Records, comprising repair, calibration, inspection, spares and test reports as applicable and defined in this specification, shall be maintained by the Contractor. Additionally the Contractor is to keep records of all visits/survey reports, approvals and costs incurred in the repair/manufacture of

<sup>1</sup> For the purposes of DEFCON 611 all contractor deliverables issued under the contract will be issued on as a Contract work Item (formerly Contract Loan) basis.

the Contractor deliverables. Where there is a legislative requirement, documents are to be kept for the period specified in that legal requirement. All records must be made available to the Authority as required.

## 4.0 Repair Policy

4.1 Assemblies submitted for repair will have been removed from service for a multitude of reasons<sup>2</sup>. The requirement for the remanufacture of these assemblies is to give an expected life of not less than eighty percent of that of a new assembly. This specification is not to be considered as comprehensive for the work requirement and is not to be used as a reason to limit any work on the assembly. It is the Contractor's responsibility to produce a comprehensive repair specification for each item and to ensure that the quality of the assembly returned after refurbishment shall meet the requirement of "as new" with the stated life requirement.

4.2 Fully priced estimates shall be required for any assembly not considered by the repairer as economic to repair. These must be submitted at the survey stage (before work commences) and not be a result of back stripping or cannibalisation. The Authority will only agree Beyond Economic Repair (BER) classification where the Contractor has been able to demonstrate that their cost to repair is greater than the eighty percent of new cost<sup>3</sup> as supplied to the MoD. Once BER has been agreed the Authority will issue disposal instructions for the scrapped carcass accordingly.

4.3 Any remanufacture of the assembly and its ancillaries shall be to the latest MoD approved OEM specification and modification state, using approved procedures in accordance with the current service/workshop manual for the item. Completed assemblies, including ancillaries, shall be tested to the OEM test specification. The performance and quality standard of the assembly shall meet or exceed the requirement of the OEM specification. Records of performance tests and results as applicable shall be supplied as stated in this specification. All assemblies and ancillaries shall be covered by a warranty as defined in the terms and conditions of the Contract.

4.4 Procurement of all replacement parts used in the repair shall be the responsibility of the Contractor. All parts shall meet or exceed the OEM specification and shall be purchased from approved suppliers. Certificates of conformity (COC) shall be obtained for all parts which have not been sourced through the OEM, and shall be made available to the Babcock DSG Repair Manager or a nominated representative when requested.

4.5 The following items are to be considered as mandatory 100% replacement components, regardless of their condition:

- a. All seals, 'O' rings and gaskets.
- b. All throw away locking devices, tab washers, nyloc nuts, split pins, retaining rings and locking wire.
- c. All flexible hoses.
- d. All 'P' clips.
- e. Screws, nuts, bolts and spacers.

---

<sup>2</sup> The contractor is advised that no guarantee can be given or responsibilities accepted by the Authority regarding the completeness or correctness of equipment issued for repair, or give any indications of the level of repair required.

<sup>3</sup> This is the general guide criteria but can be varied depending upon stock levels, new buy time limits and supply urgency, the Babcock DSG Repair Manager will advise in all BER requests.

f. Any shelf-life items.

4.6 The Contractor has an obligation towards safety. Any failures or incidents in relation to the equipment which affects safety shall be reported to the Babcock DSG Repair Manager without delay. The Babcock DSG Repair Manager shall be entitled to require action to be taken to correct the failure and to prevent reoccurrence.

4.7 All modifications approved by the OEM & MoD as defined in the latest technical documentation shall be incorporated as part of the repair. Unauthorised modifications shall not be incorporated.

## 5.0 Repair Requirement

5.1 Assemblies received for repair are to be checked for correct nomenclature and part number and a report produced detailing the modification status (if applicable), serial number, any significant damage and/or missing items.

5.2 Any discrepancies in the items delivered should be reported using MoD Form 445 (Discrepancy Report). These reports shall be completed in accordance with the criteria laid down in JSP 886, Volume 4, and Chapter 3 and distributed as required by the Contract with two copies to the issuing depot and one to the Babcock DSG Repair Manager.

5.3 All assemblies and ancillaries must be completely emptied, stripped and thoroughly cleaned and degreased. A detailed inspection of all components shall be carried out, with a full survey report raised to establish the extent of the work requirements (MPAS). The survey report shall be sent to the Babcock DSG Repair Manager for repair approval as per para 3.2.

5.4 The scope of the repairs to be carried out shall be determined from the survey against OEM specification. At this stage, all those components being replaced are to be disposed of using Contractor's formal quality control procedures. All remaining components shall be inspected to establish their suitability for re-use or reclamation. Those found not suitable are to be disposed of by the Contractor once approval for the repair has been given by the Babcock DSG Repair Manager.

5.5 Assemblies are to be rebuilt in accordance with the latest OEM specification using reclaimed and new components, incorporating all approved modifications where applicable.

5.6 The Contractor shall permanently fix an identification plate to the assembly indicating that they have been subject to repair. The plate shall record:

- a. Re-manufactured for MoD.
- b. Authority's Job Number (e.g. PR100012345).
- c. Date of re-manufacture.
- d. Assembly Serial Number (if applicable).
- e. Warranty period (as per the Contract).

## 6.0 Performance and Test Acceptance

6.1 On completion of repair the assembly shall be subjected to suitable Pressure, static and dynamic testing and acceptance by the Contractor.

6.2 Final testing of all assemblies shall be carried out in accordance with OEM/MoD procedures and standards. Where discrepancy exists between the OEM and MoD test specification the MoD specification will generally take precedence, but the Contractor shall ultimately seek clarification from the Babcock DSG Repair Manager. It is the responsibility of the Contractor to ensure that all test equipment is maintained and calibrated.

6.3 Inspection/test records shall be retained for all assemblies for a period of six years in accordance with contract condition A29 and made available for the Babcock DSG Repair Manager or nominated representatives of the Authority upon request.

## 7.0 Preservation & Packing

7.1 Completed assemblies shall be internally & externally preserved in accordance with DEF STAN 81-62 and DEF STAN 81-41.

[SECRETARY OF STATE FOR DEFENCE] (**MoD**).

[BABCOCK DSG LIMITED] incorporated and registered in England and Wales with company number [NUMBER] whose registered office is at [REGISTERED OFFICE ADDRESS] (**Babcock**).

#### **BACKGROUND**

The Continuing Party and the MoD are party to a contract for [DESCRIBE CONTRACT] dated [DATE] (the *Contract*).

The MoD and Babcock entered into a Land Equipment Service Provision and Transformation Contract dated 31 March 2015 (the **SPC**) in respect of which certain services transfer, on a phased basis, from the MoD to Babcock. The MoD wishes to transfer its rights and obligations under the Contract to Babcock as part of the transfer of services under the SPC.

The MoD shall continue to be liable for any failure by it to perform its obligations under the Contract before the Effective Date, with Babcock assuming responsibility for all other liabilities so arising in the MoD's place.

The parties have therefore agreed to novate the MoD's rights, obligations and liabilities under the Contract to Babcock on the terms of this agreement with effect from [DATE] (**Effective Date**).

#### **AGREED TERMS**

#### **NOVATION**

With effect from the Effective Date, the MoD transfers all its rights and obligations under the Contract to Babcock. Babcock shall enjoy all the rights and benefits of the MoD under the Contract, and all references to the MoD in the Contract shall be read and construed as references to Babcock.

Babcock agrees to perform the Contract and be bound by its terms in every way as if it were the original party to it in place of the MoD.

The Continuing Party agrees to perform the Contract and be bound by its terms in every way as if Babcock were the original party to it in place of the MoD.

#### **RELEASE OF OBLIGATIONS AND LIABILITIES**

The Continuing Party and the MoD release each other from all future obligations to the other under the Contract.

Nothing in this agreement shall affect or prejudice any claim or demand that the Continuing Party or the MoD may have against the other under or in connection with the Contract arising before the Effective Date.
