A General Contract Provisions

A1. Interpretation

- a. The defined terms in the Contract shall be as set out in Schedule 1.
- b. Unless the context otherwise requires:
 - (1) The singular includes the plural and vice versa, and the masculine includes the feminine and vice versa.
 - (2) The words “include”, “includes”, “including” and “included” are to be construed as if they were immediately followed by the words “without limitation”, except where explicitly stated otherwise.
 - (3) The expression “person” means any individual, firm, body corporate, unincorporated association or partnership, government, state or agency of a state or joint venture.
 - (4) References to any statute, enactment, order, regulation, or other similar instrument shall be construed as a reference to the statute, enactment, order, regulation, or instrument as amended, supplemented, replaced or consolidated by any subsequent statute, enactment, order, regulation, or instrument.
 - (5) The heading to any Contract provision shall not affect the interpretation of that provision.
 - (6) Any decision, act or thing which the Authority is required or authorised to take or do under the Contract may be taken or done only by the person (or their nominated deputy) authorised in Schedule 3 (Contract Data Sheet) to take or do that decision, act, or thing on behalf of the Authority.
 - (7) Unless excluded within the terms of the Contract or required by law, references to submission of documents in writing shall include electronic submission.

A2. Amendments to Contract

- a. All amendments to this Contract shall be serially numbered, in writing, issued only by the Authority's Representative (Commercial), and agreed by both Parties.
- b. Where the Authority or the Contractor wishes to introduce a change which is not Minor or which is likely to involve a change to the Contract Price, the provisions of Schedule 4 (Change Process) shall apply. The Contractor shall not carry out any work until any necessary change to the Contract Price has been agreed and a written amendment in accordance with clause A2.a above has been issued.

A3. Variations to Specification

- a. The Authority's Representative may, by Notice (following consultation with the Contractor as necessary), alter the Specification as from a date agreed by both Parties and to the extent specified by the Authority, provided that any such variations shall be limited to the extent that they do not alter the fit, form, function or characteristics of the Contractor Deliverables to be supplied under the Contract. The Contractor shall ensure that the Contractor Deliverables take

account of any such variations. Such variations shall not require formal amendment of the Contract in accordance with the process set out in condition A2 (Amendments to Contract) and shall be implemented upon receipt, or at the date specified in the Authority's Notice, unless otherwise specified.

- b. Any variations that cause a change to:
- (1) fit, form, function or characteristics of the Contractor Deliverables;
 - (2) the cost;
 - (3) Delivery Dates;
 - (4) the period required for the production or completion; or
 - (5) other work caused by the alteration,

shall be the subject to condition A2 (Amendments to Contract). Each amendment under condition A2 shall be classed as a formal change.

A4. Precedence

a. If there is any inconsistency between the different provisions of the Contract the inconsistency shall be resolved according to the following descending order of precedence:

- (1) Sections A - H (and J - L, if sections J - L are included in this Contract) of the Conditions of the Contract shall be given equal precedence with Schedule 1 (Definitions of Contract) and Schedule 3 (Contract Data Sheet);
- (2) Schedule 2 (Schedule of Requirements) and, where included, Schedule 8 (Acceptance Procedure);
- (3) the remaining Schedules; and
- (4) any other documents expressly referred to in the Contract.

b. If either Party becomes aware of any inconsistency, within or between the documents referred to in clause A4.a such Party shall notify the other Party forthwith and the Parties will seek to resolve that inconsistency on the basis of the order of precedence set out in clause A4.a. Where the Parties fail to reach agreement, and if either Party considers the inconsistency to be material to its rights and obligations under the Contract, then the matter will be referred to the dispute resolution procedure in accordance with condition A21 (Dispute Resolution).

A5. Severability

If any provision of the Contract is held to be invalid, illegal or unenforceable to any extent then:

- a. such provision shall (to the extent that it is invalid, illegal or unenforceable) be given no effect and shall be deemed not to be included in the Contract but without invalidating any of the remaining provisions of the Contract; and
- b. the Parties shall use all reasonable endeavours to replace the invalid, illegal or unenforceable provision by a valid, legal and enforceable substitute provision the effect of which is as close as possible to the intended effect of the invalid, illegal or unenforceable provision.

A6. Assignment of Contract

Neither Party shall be entitled to assign the Contract (or any part thereof) without the prior written consent of the other Party.

A7. Waiver

a. No act or omission of either Party shall by itself amount to a waiver of any right or remedy unless expressly stated by that Party in writing. In particular, no reasonable delay in exercising any right or remedy shall by itself constitute a waiver of that right or remedy.

b. No waiver in respect of any right or remedy shall operate as a waiver in respect of any other right or remedy.

A8. Third Party Rights

Notwithstanding anything to the contrary elsewhere in the Contract, no right is granted to any person who is not a Party to the Contract to enforce any term of the Contract in its own right and the Parties to the Contract declare that they have no intention to grant any such right.

A9. Governing Law

a. Subject to clause A9.d, the Contract shall be considered as a contract made in England and subject to English Law.

b. Subject to clause A9.d and A21 (Dispute Resolution) and without prejudice to the dispute resolution process set out therein, each Party submits and agrees to the exclusive jurisdiction of the Courts of England to resolve, and the laws of England to govern, any actions proceedings, controversy or claim of whatever nature arising out of or relating to the Contract or breach thereof.

c. Subject to clause A9.d any dispute arising out of or in connection with the Contract shall be determined within the English jurisdiction and to the exclusion of all other jurisdictions save that other jurisdictions may apply solely for the purpose of giving effect to this clause A9 and for the enforcement of any judgment, order or award given under English jurisdiction.

- (2) Clause A21.b shall be amended to read:

Each Party warrants to each other that entry into the Contract does not, and the performance of the Contract will not, in any way violate or conflict with any provision of law, statute, rule, regulation, judgement, writ, injunction, decree or order applicable to it. Each Party also warrants that the Contract does not conflict with or result in a breach or termination of any provision of, or constitute a default under, any mortgage, contract or other liability, charge or encumbrance upon any of its properties or other assets.

f. Each Party agrees with each other Party that the provisions of this clause A9 shall survive any termination of the Contract for any reason whatsoever and shall remain fully enforceable as between the Parties notwithstanding such a termination.

g. Where the Contractor's place of business is not in England or Wales (or Scotland where the Parties agree pursuant to this Contract that Scots Law should apply), the Contractor irrevocably appoints the solicitors or other persons in England and Wales (or Scotland where the Parties agree pursuant to the Contract that Scots Law should apply) detailed in Schedule 3 (Contract Data Sheet) as its agents to accept on its behalf service of all process and other documents of whatever description to be served on the Contractor in connection with any litigation or arbitration within the English jurisdiction (or Scottish jurisdiction where the Parties agree pursuant to this Contract that Scots Law should apply) arising out of or relating to the Contract or any issue connected therewith.

Where such a disclosure is made, the Party making the disclosure shall ensure that the recipient of the Information is made aware of and asked to respect its confidentiality. Such disclosure shall in no way diminish the obligations of the Parties under this condition.

f. The Authority may disclose the Information:

Electronic Communication, Telephony and Facsimile Services

13. Reportable OFFICIAL information may be emailed unencrypted to recipients over the internet when it is known that the recipient has been made aware of and can comply with the requirements of these Security Conditions. OFFICIAL-SENSITIVE information shall normally be transmitted over the internet encrypted using a Foundation Grade or equivalent product. Information about Foundation Grade products and the CESG Commercial Product Assurance scheme is available at: <http://www.cesg.gov.uk/servicecatalogue/Product-Assurance/Pages/Product-Assurance.aspx>. Exceptionally, in urgent cases, OFFICIAL-SENSITIVE information may be emailed unencrypted over the internet where there is a strong business need to do so and only with the prior approval of the Authority.
14. OFFICIAL-SENSITIVE information shall only be sent when it is known that the recipient has been made aware of and can comply with the requirements of these Security Conditions and subject to any explicit limitations that the authority shall require. Such limitations, including any regarding publication, further circulation or other handling instructions shall be clearly identified in the email sent with the material.

16. OFFICIAL-SENSITIVE information may be faxed to UK recipients.
17. Reportable OFFICIAL information may be discussed with and faxed to recipients located overseas.

Use of Information Systems

18. The detailed functions that must be provided by an IT system to satisfy the minimum requirements described below cannot be described here; it is for the implementers to identify possible means of attack and ensure proportionate security mitigations are applied to prevent a successful attack.
19. As a general rule, any communication path between an unauthorised user and the data can be used to carry out an attack on the system or be used to compromise or ex-filtrate data.
20. The following describes the minimum security requirements for processing and accessing OFFICIAL-SENSITIVE information on IT systems.
 - a. Access Physical access to all hardware elements of the IT system is to be strictly controlled. The principle of “least privilege” will be applied to System Administrators. Users of the IT System -Administrators should not conduct ‘standard’ User functions using their privileged accounts.
 - b. Identification and Authentication (ID&A). All systems shall have the following functionality:

- (1) Up-to-date lists of authorised users.
- (2) Positive identification of all users at the start of each processing session.
- c. Passwords. Passwords are part of most ID&A, Security Measures. Passwords shall be 'strong' using an appropriate method to achieve this, for example including numeric and "special" characters (if permitted by the system) as well as alphabetic characters.
- d. Internal Access Control. All systems shall have internal Access Controls to prevent unauthorised users from accessing or modifying the data.
- e. Data Transmission. Unless the Authority authorises otherwise, OFFICIAL-SENSITIVE information shall be transmitted or accessed electronically (e.g. point to point computer links) via a public network like the Internet, using a Foundation Grade product or equivalent as described in paragraph 13 above,
- f. Security Accounting and Audit. Security relevant events fall into two categories, namely legitimate events and violations.

(1) The following events shall always be recorded:

- (a) All log on attempts whether successful or failed,
- (b) Log off (including time out where applicable),
- (c) The creation, deletion or alteration of access rights and privileges,
- (d) The creation, deletion or alteration of passwords,

(2) For each of the events listed above, the following information is to be recorded:

- (e) Type of event,
- (f) User ID,
- (g) Date & Time,
- (h) Device ID,

The accounting records shall have a facility to provide the System Manager with a hard copy of all or selected activity. There shall also be a facility for the records to be printed in an easily readable form. All security records are to be inaccessible to users without a need to know.

If the operating system is unable to provide this then the equipment shall be protected by physical means when not in use i.e. locked away or the hard drive removed and locked away.

g. Integrity & Availability. The following supporting measures shall be implemented:

- 1. Provide general protection against normally foreseeable accidents/mishaps and known recurrent problems (e.g. viruses and power supply variations),
- 2. Defined Business Contingency Plan,
- 3. Data backup with local storage,
- 4. Anti Virus Software (Implementation, with updates, of an acceptable industry standard Anti-virus software),
- 5. Operating systems, applications and firmware should be supported,

6. Patching of Operating Systems and Applications used shall be in line with the manufacturers recommended schedule. If patches cannot be applied an understanding of the resulting risk will be documented,
- h. Logon Banners Wherever possible, a “Logon Banner” shall be provided to summarise the requirements for access to a system which may be needed to institute legal action in case of any breach occurring.
- A suggested format for the text (depending on national legal requirements) could be:
“Unauthorised access to this computer system may constitute a criminal offence”
- i. Unattended Terminals. Users are to be automatically logged off the system if their terminals have been inactive for some predetermined period of time, or systems must activate a password protected screen saver after 15 minutes of inactivity, to prevent an attacker making use of an unattended terminal.
- j. Internet Connections. Computer systems shall not be connected direct to the Internet or ‘untrusted’ systems unless protected by a firewall (a software based personal firewall is the minimum) which is acceptable to the Authority’s Principal Security Advisor.
- k. Disposal Before IT storage media (e.g. disks) are disposed of, an erasure product shall be used to overwrite the data. This is a more thorough process than deletion of files, which does not remove the data.

Laptops

21. Laptops holding any MOD supplied or contractor generated Reportable OFFICIAL and OFFICIAL-SENSITIVE information are to be encrypted using a Foundation Grade product or equivalent as described in paragraph 13 above.
22. Unencrypted laptops not on a secure site¹ are to be recalled and only used or stored in an appropriately secure location until further notice or until approved full encryption is installed. Where the encryption policy cannot be met, a Risk Balance Case that fully explains why the policy cannot be complied with and the mitigation plan, which should explain any limitations on the use of the system, is to be submitted to the Authority for consideration. Unencrypted laptops and drives containing personal data are not to be taken outside of secure sites. For the avoidance of doubt the term “drives” includes all removable, recordable media (e.g. memory sticks, compact flash, recordable optical media e.g. CDs and DVDs), floppy discs and external hard drives.
23. Any token, touch memory device or password(s) associated with the encryption package is to be kept separate from the machine whenever the machine is not in use, left unattended or in transit.
24. Portable CIS devices are not to be left unattended in any public location. They are not to be left unattended in any motor vehicles either in view or in the boot or luggage compartment at any time. When the vehicle is being driven the CIS is to be secured out of sight in the glove compartment, boot or luggage compartment as appropriate to deter opportunist theft.

Loss and Incident Reporting

25. The contractor shall immediately report any loss or otherwise compromise of Reportable OFFICIAL and OFFICIAL-SENSITIVE information to the Authority.

¹ Secure Sites are defined as either Government premises or a secured office on the contractor premises

26. Any security incident involving any MOD owned, processed, or contractor generated Reportable OFFICIAL or OFFICIAL-SENSITIVE information defined in the contract Security Aspects Letter shall be immediately reported to the MOD Defence Industry Warning, Advice and Reporting Point (WARP), within the Joint Security Co-ordination Centre (JSyCC). This will assist the JSyCC in formulating a formal information security reporting process and the management of any associated risks, impact analysis and upward reporting to the MOD's Chief Information Officer (CIO) and, as appropriate, the company concerned. The MOD WARP will also advise the contractor what further action is required to be undertaken.
