8. Severability

- a. If any provision of the Contract is held to be invalid, illegal or unenforceable to any extent then:
 - (1) such provision shall (to the extent that it is invalid, illegal or unenforceable) be given no effect and shall be deemed not to be included in the Contract but without invalidating any of the remaining provisions of the Contract; and
 - (2) the Parties shall use all reasonable endeavours to replace the invalid, illegal or unenforceable provision by a valid, legal and enforceable substitute provision the effect of which is as close as possible to the intended effect of the invalid, illegal or unenforceable provision.

9. Waiver

- a. No act or omission of either Party shall by itself amount to a waiver of any right or remedy unless expressly stated by that Party in writing. In particular, no reasonable delay in exercising any right or remedy shall by itself constitute a waiver of that right or remedy.
- b. No waiver in respect of any right or remedy shall operate as a waiver in respect of any other right or remedy.

10. Assignment of Contract

Neither Party shall be entitled to assign the Contract (or any part thereof) without the prior written consent of the other Party.

11. Third Party Rights

Notwithstanding anything to the contrary elsewhere in the Contract, no right is granted to any person who is not a Party to the Contract to enforce any term of the Contract in its own right and the Parties to the Contract declare that they have no intention to grant any such right.

- b. Subject to clause 12.c the Authority shall publish and maintain an up-to-date version of the Transparency Information and Publishable Performance Information in a format readily accessible and reusable by the general public under an open licence where applicable.

- c. If, in the Authority's reasonable opinion, publication of any element of the Transparency Information and Publishable Performance Information would be contrary to the public interest, the Authority shall be entitled to exclude such Information from publication. The Authority acknowledges that it would expect the public interest by default to be best served by publication of the Transparency Information and Publishable Performance Information in its entirety. Accordingly, the Authority acknowledges that it shall only exclude Transparency Information and Publishable Performance Information from publication in exceptional circumstances and agrees that where it decides to exclude Information from publication on that basis, it will provide a clear statement to the general public explaining the categories of information that have been excluded from publication and reasons for withholding that information.

- (2) taking account the Sensitive Information set out in Schedule 5, consult with the Contractor where the Authority intends to publish Information which has been identified as Sensitive Information. For the avoidance of doubt the Authority, acting reasonably, shall have absolute discretion to decide what information shall be published or be exempt from disclosure in accordance with the FOIA and/or the EIR; and
- (3) present information in a format that assists the general public in understanding the relevance and completeness of the information being published to ensure the public obtain a fair view on how this Contract is being performed.

Publishable Performance Information

- e. Within three (3) months of the effective date of Contract the Contractor shall provide to the Authority for its approval (such approval shall not be unreasonably withheld or delayed) a draft Publishable Performance Information KPI Data Report consistent with the content requirements of Schedule 9.
- f. If the Authority rejects any draft Publishable Performance Information the Contractor shall submit a revised version of the relevant KPI Data Report for further approval by the Authority with five (5) business days of receipt of any notice or rejection, taking account of any recommendations for revision and improvement to the report provided by the Authority. This process shall be repeated until the parties have an agreed version of the Publishable Performance Information.
- g. The Contractor shall provide an accurate and up-to-date version of the KPI Data Report to the Authority for each quarter at the frequency referred to in the agreed Schedule 9.
- h. Any dispute in connection with the preparation and/or approval of Publishable Performance Information, other than under clause 12.f, shall be resolved in accordance with the dispute resolution procedure provided for in this Contract.
- i. The requirements of this Condition are in addition to any other reporting requirements in this Contract.

13. Disclosure of Information

- a. Subject to clauses 13.d to 13.i and Condition 12 each Party:
 - (1) shall treat in confidence all Information it receives from the other;
 - (2) shall not disclose any of that Information to any third party without the prior written consent of the other Party, which consent shall not unreasonably be withheld, except that the Contractor may disclose Information in confidence, without prior consent, to such persons and to such extent as may be necessary for the performance of the Contract;
 - (3) shall not use any of that Information otherwise than for the purpose of the Contract; and
 - (4) shall not copy any of that Information except to the extent necessary for the purpose of exercising its rights of use and disclosure under the Contract.
- b. The Contractor shall take all reasonable precautions necessary to ensure that all Information disclosed to the Contractor by or on behalf of the Authority under or in connection with the Contract:
 - (1) is disclosed to their employees and Subcontractors, only to the extent necessary for the performance of the Contract; and
 - (2) is treated in confidence by them and not disclosed except with the prior written consent of the Authority or used otherwise than for the purpose of performing work or having work performed for the Authority under the Contract or any subcontract.
- c. The Contractor shall ensure that their employees are aware of the Contractor's arrangements for discharging the obligations at clauses 13.a and 13.b before receiving Information and shall take such steps as may be reasonably practical to enforce such arrangements.
- d. A Party shall not be in breach of Clauses 13.a, 13.b, 13.f, 13.g and 13.h to the extent that either Party:
 - (1) exercises rights of use or disclosure granted otherwise than in consequence of, or under, the Contract;
 - (2) has the right to use or disclose the Information in accordance with other Conditions of the Contract; or
 - (3) can show:
 - (a) that the Information was or has become published or publicly available for use otherwise than in breach of any provision of the Contract or any other agreement between the Parties;
 - (b) that the Information was already known to it (without restrictions on disclosure or use) prior to receiving the Information under or in connection with the Contract;
 - (c) that the Information was received without restriction on further disclosure from a third party which lawfully acquired the Information without any restriction on disclosure; or
 - (d) from its records that the same Information was derived independently of that received under or in connection with the Contract;

provided that the relationship to any other Information is not revealed.
- e. Neither Party shall be in breach of this Condition where it can show that any disclosure of Information was made solely and to the extent necessary to comply with a statutory, judicial or parliamentary obligation. Where such a disclosure is made, the Party making the disclosure shall ensure that the recipient of the Information is

made aware of and asked to respect its confidentiality. Such disclosure shall in no way diminish the obligations of the Parties under this Condition.

f. The Authority may disclose the Information:

- (1) to any Central Government Body for any proper purpose of the Authority or of the relevant Central Government Body, which shall include: disclosure to the Cabinet Office and/or HM Treasury for the purpose of ensuring effective cross-Government procurement processes, including value for money and related purposes. Where such a disclosure is made the Authority shall ensure that the recipient is made aware of its confidentiality;
- (2) to Parliament and Parliamentary Committees or if required by any Parliamentary reporting requirement;
- (3) to the extent that the Authority (acting reasonably) deems disclosure necessary or appropriate in the course of carrying out its public functions;
- (4) subject to clause 13.g below, on a confidential basis to a professional adviser, consultant or other person engaged by any of the entities defined in Schedule 1 (including benchmarking organisations) for any purpose relating to or connected with the Contract;
- (5) subject to clause 13.g below, on a confidential basis for the purpose of the exercise of its rights under the Contract; or
- (6) on a confidential basis to a proposed body in connection with any assignment, novation or disposal of any of its rights, obligations or liabilities under the Contract;

and for the purposes of the foregoing, references to disclosure on a confidential basis shall mean disclosure subject to a confidentiality agreement or arrangement containing terms no less stringent than those placed on the Authority under this Condition.

g. Where the Authority intends to disclose Information to a commercial entity which is not a Central Government Body in accordance with clauses 13.f.(4) or 13.f.(5) above, the Authority will endeavour to provide the Contractor with 3 Business Days' notice in advance of such disclosure. In relation to a disclosure of Information made under clause 13.f.(3) above, if reasonably requested by the Contractor within 2 Business Days of such notice being given, where the Authority has not already done so, it will endeavour to procure from the intended recipient of the Information an agreement containing confidentiality terms the same as, or substantially similar to, those placed on the Authority under this Condition.

h. Before sharing any Information in accordance with clause 13.f, the Authority may redact the Information. Any decision to redact Information made by the Authority shall be final.

i. The Authority shall not be in breach of the Contract where disclosure of Information is made solely and to the extent necessary to comply with the Freedom of Information Act 2000 (the "Act") or the Environmental Information Regulations 2004 (the "Regulations"). To the extent permitted by the time for compliance under the Act or the Regulations, the Authority shall consult the Contractor where the Authority is considering the disclosure of Information under the Act or the Regulations and, in any event, shall provide prior notification to the Contractor of any decision to disclose the Information. The Contractor acknowledges and accepts that their representations on disclosure during consultation may not be determinative and that the decision whether to disclose Information in order to comply with the Act or the Regulations is a matter in which the Authority shall exercise its own discretion, subject always to the provisions of the Act or the Regulations.

j. Nothing in this Condition shall affect the Parties' obligations of confidentiality where Information is disclosed orally in confidence.

14.Publicity and Communications with the Media

The Contractor shall not and shall ensure that any employee or Subcontractor shall not communicate with representatives of the press, television, radio or other media on any matter concerning the Contract unless the Authority has given its prior written consent.

 - (1) as soon as practicable of any intended, planned or actual change in control of the Contractor and/or their First-Tier Sub-contractor; and
 - (2) Immediately on the Contractor being aware of any actual change of control of any Lower-Tier Sub-Contractor.
- b. The Contractor shall include in any such notification any concerns the Contractor may have with the change of control. Such concerns may include but are not limited to potential threats to national security and security of supply. The Contractor shall not be required to submit any notice which is unlawful or is in breach of either any pre-existing non-disclosure agreement or any regulations governing the conduct of the Contractor in the UK or other jurisdictions where the Contractor may be subject to legal sanction arising from issuing such a notice.
- c. Each notice of change of control shall be taken to apply to all contracts with the Authority. Notices shall be submitted to:

- d. The Representative of the Authority shall consider the notice of change of control and advise the Contractor in writing of any concerns the Authority may have. Such concerns may include but are not limited to potential threats to national security, the ability of the Authority to comply with its statutory obligations or matters covered by the declarations made by the Contractor prior to the Effective Date of Contract. The Contractor shall be required to submit a response to the concerns raised by the Authority, including any plans to mitigate those concerns, within 14 calendar days (or as agreed by the parties) of receipt of the Authority's written concerns, for the Authority's consideration.
- e. To the extent that the Authority considers that it is reasonable to do so, the Authority shall work with the Contractor to seek to resolve the Authority's concerns. The Contractor agrees to answer the Authority's questions or requests for clarification promptly.
- f. Where the Authority considers, in its absolute discretion, that the risk may be appropriately mitigated, the Contractor shall implement any agreed mitigations promptly and, in any case, within the timescales required by the Authority. Where the Contractor fails to do so, clause 15.g. shall apply.
- g. The Authority may, acting reasonably, terminate the Contract by giving written notice to the Contractor (and/or request the Contractor to terminate any relevant First-Tier or Lower-Tier Sub-Contractor's contract) within six months of the Authority being notified in accordance with clause 15.a. The Authority shall act reasonably in exercising its right of termination, including, but not limited to, taking into account the Contractor's own assessment of the change of control.
- h. Where the Authority terminates the Contract in accordance with clause 15.g, subject to clause 15.i, the Contractor may request payment for any unavoidable commitments, liabilities or expenditure incurred by the Contractor in connection with the Contract up to the point of termination. The Authority shall act reasonably when assessing the Contractor's request for payment although the parties agree that the Authority shall retain the sole discretion, acting reasonably, to decide whether to make such requested payment in accordance with clause 15.i.
- i. Any requests for payment by the Contractor must be submitted promptly and the Contractor shall demonstrate to the reasonable satisfaction of the Authority that such request for payment:
- (1) is reasonable and properly chargeable;
 - (2) would otherwise represent an unavoidable loss by the Contractor by reason of the termination of the Contract; and
 - (3) is fully supported by documentary evidence.
- j. In the event that the Contractor fails to demonstrate any of the conditions set out at 15.i.(1)-(3), the Authority may reject such request for payment.
- k. Notification by the Contractor of any intended, planned or actual change of control shall not prejudice the existing rights of the Authority or the Contractor under the Contract nor create or imply any rights of either the Contractor or the Authority additional to the Authority's rights set out in this Condition.
- l. The Contractor shall include provisions equivalent to those set out in this Condition in all relevant sub-contracts.

16.Environmental Requirements

The Contractor shall in all their operations to perform the Contract, adopt a sound proactive environmental approach that identifies, considers, and where possible, mitigates the environmental impacts of their supply chain. The Contractor shall provide evidence of so doing to the Authority on demand.

17.Contractor's Records

- a. The Contractor and their Subcontractors shall maintain all records specified in and connected with the Contract (expressly or otherwise) and make them available to the Authority when requested on reasonable notice.
- b. The Contractor and their Subcontractors shall also permit access to relevant records that relate to the contractual obligations to supply goods or services under the Contract, held by or controlled by them and reasonably required by the Comptroller and Auditor General, their staff and any appointed representative of the National Audit Office, and provide such explanations and information as reasonably necessary for the following purposes:
- (1) to enable the National Audit Office to carry out the Authority's statutory audits and to examine and/or certify the Authority's annual and interim report and accounts; and
 - (2) to enable the National Audit Office to carry out an examination pursuant to Part II of the National Audit Act 1983 of the economy, efficiency and effectiveness with which the Authority has used its resources.
- c. With regard to the records made available to the Authority under clause 17.a of this Condition, and subject to the provisions of Condition 13 (Disclosure of Information), the Contractor shall permit records to be examined and if necessary copied, by the Authority, or Representative of the Authority, as the Authority may require.
- d. Unless the Contract specifies otherwise the records referred to in this Condition shall be retained for a period of at least 6 years from:
- (1) the end of the Contract term;

 - (3) the final payment,
- whichever occurs latest.

- b. Rejection of any of the Contractor Deliverables under clause 30.a shall take place by the time limit for rejection specified in Schedule 3 (Contract Data Sheet), or if no such period is specified, the Contractor Deliverables shall be deemed to be accepted within a reasonable period of time.

Counterfeit Materiel:

- c. Where the Authority suspects that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall:
 - (1) notify the Contractor in writing of its suspicion and reasons therefore;
 - (2) where reasonably practicable, and if requested by the Contractor within 10 Business Days of such notification, (at the Contractor's own risk and expense and subject to any reasonable controls specified by the Authority) afford the Contractor the facility to (i) inspect the Contractor Deliverable or consignment and/or (ii) obtain a sample thereof for validation or testing purposes.
 - (3) at its discretion, provide the Contractor with a sample of the Contractor Deliverable or consignment for validation or testing purposes by the Contractor (at the Contractor's own risk and expense);

- d. Where the Authority has determined that the Contractor Deliverable, part or consignment of Contractor Deliverables contain Counterfeit Material then it may reject the Contractor Deliverable, part or consignment under

30.a and 30.b (Rejection), and provide written notification to the Contractor of the rejection.

e. In addition to its rights under 30.a and 30.b (Rejection), where the Authority has determined that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall be entitled to:

- (1) retain any Counterfeit Materiel; and/or
- (2) retain the whole or any part of such Contractor Deliverable or consignment where it is not possible to separate the Counterfeit Materiel from the rest of the Contractor Deliverable, or consignment; and such retention shall not constitute acceptance under Condition 29 (Acceptance).

f. Where the Authority intends to exercise its rights under clause 30.e, the Contractor may, subject to the agreement of the Authority (and at the Contractor's own risk and expense and subject to any reasonable controls and timeframe agreed), arrange for:

- (1) the separation of Counterfeit Materiel from any Contractor Deliverable or part of a Contractor Deliverable; and/or
- (2) the removal of any Contractor Deliverable or part of a Contractor Deliverable that the Authority is reasonably satisfied does not contain Counterfeit Materiel.

g. In respect of any Contractor Deliverable, consignment or part thereof that is retained in accordance with clause 30.e, including where the Authority permits the Contractor to remove non-Counterfeit Materiel under clause 30.f but the Contractor fails to do so within the period agreed and subject to clause 30.k, the Authority shall be entitled to exercise any, all, or any combination of, the following rights:

If the value of the scrap or other disposal payment exceeds the amount due to the Authority under clause 30.g.(4) then the balance shall accrue to the Contractor.

i. The Authority shall not use a retained Contractor Deliverable or consignment other than as permitted in clauses 30.c – 30.k.

j. The Authority may report a discovery of Counterfeit Materiel and disclose information necessary for the identification of similar materiel and its possible sources.

k. The Contractor shall not be entitled to any payment or compensation from the Authority as a result of the Authority exercising the rights set out in clauses 30.c – 30.k except:

- (1) in relation to the balance that may accrue to the Contractor in accordance with clause 30.h; or

c. The Authority reserves the right to cancel the Diversion Order.

d. If the terms of the Diversion Order are unclear, the Contractor shall immediately contact the Representative of the Authority who issued it for clarification and/or further instruction.

e. If the Diversion Order increases the quantity of Contractor Deliverables beyond the scope of the Contract, it is to be returned immediately to the Authority's Commercial Officer with an appropriate explanation.

f. The Contractor shall be entitled to reasonable additional delivery and packaging costs incurred in complying with the Diversion Order or cancellation. Claims are to be submitted by the Contractor to the Authority's Commercial Officer together with applicable receipts and agreed as an amendment to the Contract in accordance with Condition 6 (Formal Amendments to the Contract). The Contractor shall comply with the requirements of the Diversion Order upon receipt of the Diversion Order.

Licences and Intellectual Property

33.Import and Export Licences

- a. If, in the performance of the Contract, the Contractor needs to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, the responsibility for applying for the licence shall rest with the Contractor. The Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance in obtaining any necessary UK import or export licence.
- b. When an export licence or import licence or authorisation either singularly or in combination is required from a foreign government for the performance of the Contract, the Contractor shall as soon as reasonably practicable consult with the Authority on the licence requirements. Where the Contractor is the applicant for the licence or authorisation the Contractor shall:
 - (1) ensure that when end use or end user restrictions, or both, apply to all or part of any Contractor Deliverable (which for the purposes of this Condition shall also include information, technical data and software), the Contractor, unless otherwise agreed with the Authority, shall identify in the application:
 - (a) the end user as: His Britannic Majesty's Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter "HM Government"); and
 - (b) the end use as: For the Purposes of HM Government; and
 - (2) include in the submission for the licence or authorisation a statement that "information on the status of processing this application may be shared with the Ministry of Defence of the United Kingdom".
- c. If the Contractor or any Subcontractor in the performance of the Contract needs to export materiel not previously supplied by or on behalf of the Authority for which an export licence or import licence or authorisation from a foreign government is required, the responsibility for instituting expeditious action to apply for and obtain the licence shall rest with the Contractor or that Subcontractor. For the purposes of this Condition materiel shall mean information, technical data and items, including Contractor Deliverables, components of Contractor Deliverables and software.
- d. Where the Contract performance requires the export of materiel for which a foreign export licence or import licence or authorisation is required, the Contractor shall include the dependencies for the export licence or import licence or authorisation application, grant and maintenance in the Contract risk register and in the risk management plan for the Contract, with appropriate review points. Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.
- e. During the term of the Contract and for a period of up to 2 years from completion of the Contract, the Authority may make a written request to the Contractor to seek a variation to the conditions to a foreign export licence or import licence or authorisation to enable the Authority to re-export or re-transfer a licensed or authorised item or licensed or authorised information from the UK to a non-licensed or unauthorised third party. If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:
 - (1) the Contractor shall, or procure that the Contractor's Subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the Contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and
 - (2) the Authority shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the application for the requested variation.
- f. Where the Authority determines that it is best placed to make such request the Contractor shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the Authority to make the application for the requested variation.
- g. Where the Authority invokes clause 33.e or 33.f the Authority will pay the Contractor a fair and reasonable charge for this service based on the cost of providing it.
- h. Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, import control or both the Contractor shall use reasonable endeavours to incorporate in each subcontract equivalent obligations to those set out in this Condition. Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.
- i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.
- j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.
- k. The Contractor shall use reasonable endeavours to identify whether any Contractor Deliverable is subject to:
 - (1) a non-UK export licence, authorisation or exemption; or
 - (2) any other related transfer or export control,that imposes or will impose end use, end user or re-transfer or re-export restrictions, or restrictions on disclosure to individuals based upon their nationality. This does not include the Intellectual Property-specific restrictions of the type referred to in Condition 34 (Third Party Intellectual Property – Rights and Restrictions).
- l. If at any time during the term of the Contract the Contractor becomes aware that all or any part of the

Contractor Deliverables are subject to clause 33.k.(1) or 33.k.(2), they shall notify the Authority of this as soon as reasonably practicable by providing details in the DEFFORM 528 or other mutually agreed alternative format.

Such notification shall be no later than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.

m. If the information to be provided under clause 33.l has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of clause 33.l.

n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 33.l or 33.m of which they become or are aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clause 33.l or 33.m of which they become aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

p. Where following receipt of materiel from a Subcontractor or any of their other suppliers restrictions are notified to the Contractor by that Subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within [X] days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within [X] days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in accordance with its terms to implement the proposal.

q. If the restrictions prevent the Contractor from performing their obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with Condition 6 or as otherwise may be provided by the Contract, or to terminate the Contract. Except as set out in clause 33.r, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.

r. In the event that the restrictions notified to the Authority pursuant to clause 33.l were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 33.n or 33.p were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with clause 33.l, termination under clause 33.q will be in accordance with Condition 43 (Material Breach) and the provisions of clause 33.v will not apply.

s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of clause 32.k, the Authority shall provide a completed DEFFORM 528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such materiel to the Contractor.

t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such materiel is identified then the Authority shall provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any material to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure.

u. Where:

- (1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to clauses 33.s or 33.t or both; or
- (2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate;

the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform their obligations under the Contract, the matter shall be handled under the terms of Condition 6 (Formal Amendments to the Contract) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract.

Termination under these circumstances will be under the terms of Condition 42 (Termination for Convenience) and as referenced in the Contract.

v. Pending agreement of any amendment of the Contract as set out in clause 33.q or 33.u, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved from their obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

clause 34.a does not apply in respect of Contractor Deliverables normally available from the Contractor as a Commercial Off The Shelf (COTS) item or service.

b. If the Information required under clause 34.a has been notified previously, the Contractor may meet their obligations by giving details of the previous notification.

c. For COTS Contractor Deliverables patents and registered designs in the UK, in respect of any question arising (by way of an allegation made to the Authority or Contractor, or otherwise) that the manufacture or provision under the Contract of Contractor Deliverables normally available from the Contractor as a COTS item or service is an infringement of a UK patent or registered design not owned or controlled by the Contractor or the Authority, the Contractor shall, subject to the agreement of the third party owning such patent or registered design, be given exclusive conduct of any and all negotiations for the settlement of any claim or the conduct of any litigation arising out of such question. The Contractor shall indemnify the Authority, its officers, agents and employees against any liability and cost arising from such allegation. This Condition shall not apply if:

- (1) the Authority has made or makes an admission of any sort relevant to such question;
- (2) the Authority has entered or enters into any discussions on such question with any third party without the prior written agreement of the Contractor;
- (3) the Authority has entered or enters into negotiations in respect of any relevant claim for compensation in respect of Crown Use under Section 55 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949;

d. The indemnity in clause 34.c does not extend to use by the Authority of anything supplied under the Contract where that use was not reasonably foreseeable at the time of the Contract.

e. In the event that the Authority has entered into negotiation in respect of a claim for compensation, or legal proceedings in respect of the Crown Use have commenced, the Authority shall forthwith authorise the Contractor for the purposes of performing the Contract (but not otherwise) to utilise a relevant invention or design in accordance with Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949 and to use any model, document or information relating to any such invention or design which may be required for that purpose.

f. For all other Contractor Deliverables patents and registered designs in the UK, if a relevant invention or design has been notified to the Authority by the Contractor prior to the Effective Date of Contract, then unless it has been otherwise agreed, under the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, the Contractor is hereby authorised to utilise that invention or design, notwithstanding the fact that it is the subject of a UK Patent or UK Registered Design, for the purpose of performing the Contract.

g. If, under clause 34.a, a relevant invention or design is notified to the Authority by the Contractor after the Effective Date of Contract, then:

- (1) if the owner (or its exclusive licensee) takes or threatens in writing to take any relevant action against the Contractor, the Authority shall issue to the Contractor a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, and
- (2) in any event, unless the Contractor and the Authority can agree an alternative course of action, the Authority shall not unreasonably delay the issue of a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949.

h. The Authority shall assume all liability and shall indemnify the Contractor, their officers, agents and employees against liability, including the Contractor's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the United Kingdom in the performance of the Contract when such infringement arises from or is incurred by reason of the Contractor

i. The Contractor shall assume all liability and shall indemnify the Authority, its officers, agents and employees against liability, including the Authority's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the UK in the performance of the Contract when such infringement arises from or is incurred otherwise than by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

j. The Contractor shall not be entitled to any reimbursement of any royalty, licence fee or similar expense incurred in respect of anything to be done under the Contract, where:

(1) a relevant discharge has been given under Section 2 of the Defence Contracts Act 1958, or relevant authorisation in accordance with Sections 55 or 57 of the Patents Act 1977, Section 12 of the Registered Designs Act 1949 or Section 240 of the Copyright, Designs and Patents Act 1988 in respect of any intellectual property; or

(2) any obligation to make payments for intellectual property has not been promptly notified to the Authority under clause 34.a.

(1) released from payment whether by way of royalties, licence fees or similar expenses in respect of the Contractor's use of the relevant invention or design, or the use of any relevant model, document or information for the purpose of performing the Contract; and

(2) authorised to use any model, document or information relating to any such invention or design which may be required for that purpose.

l. The Contractor shall assume all liability and indemnify the Authority and its officers, agents and employees against liability, including costs as a result of:

(1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item to be supplied under the Contract or otherwise in the performance of the Contract;

(2) misuse of any confidential information, trade secret or the like by the Contractor in performing the Contract;

(3) provision to the Authority of any Information or material which the Contractor does not have the right to provide for the purpose of the Contract.

m. The Authority shall assume all liability and indemnify the Contractor, their officers, agents and employees against liability, including costs as a result of:

(1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item provided by the Authority for the purpose of the Contract but only to the extent that the item is used for the purpose of the Contract;

(2) alleged misuse of any confidential Information, trade secret or the like by the Contractor as a result of use of Information provided by the Authority for the purposes of the Contract, but only to the extent that Contractor's use of that Information is for the purposes intended when it was disclosed by the Authority.

n. The general authorisation and indemnity is:

(3) a Party against whom a claim is made or action brought, shall promptly notify the other Party in writing if such claim or action appears to relate to an infringement which is the subject of an indemnity or authorisation given under this Condition by such other Party. The notification shall include particulars of the demands, damages and liabilities claimed or made of which the notifying Party has notice;

(4) the Party benefiting from the indemnity or authorisation shall allow the other Party, at its own expense, to conduct any negotiations for the settlement of the same, and any litigation that may arise therefrom and shall provide such information as the other Party may reasonably require;

(5) following a notification under clause 34.n.(3), the Party notified shall advise the other Party in writing within thirty (30) Business Days whether or not it is assuming conduct of the negotiations or litigation. In that case the Party against whom a claim is made or action brought shall not make any statement which might be prejudicial to the settlement or defence of such a claim without the written consent of the other Party;

(6) the Party conducting negotiations for the settlement of a claim or any related litigation shall, if requested, keep the other Party fully informed of the conduct and progress of such negotiations.

o. If at any time a claim or allegation of infringement arises in respect of copyright, database right, Design Right or breach of confidence as a result of the provision of any Contractor Deliverable by the Contractor to the Authority, the Contractor may at their own expense replace the item with an item of equivalent functionality and performance so as to avoid infringement or breach. The Parties will co-operate with one another to mitigate any

claim or damage which may arise from use of third party IPR.

p. Nothing in Condition 34 shall be taken as an authorisation or promise of an authorisation under Section 240 of the Copyright, Designs and Patents Act 1988.

q. Notwithstanding any other provisions of the Contract and for the avoidance of doubt, award of the Contract by the Authority and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Contractor acknowledges that any such authorisation by the Authority under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific intellectual property involved.

36.Payment and Recovery of Sums Due

a. Payment for Contractor Deliverables will be made by electronic transfer and prior to submitting any claims for payment under clause 36.b the Contractor will be required to register their details (Supplier on-boarding) on the Contracting, Purchasing and Finance (CP&F) electronic procurement tool.

b. Where the Contractor submits an invoice to the Authority in accordance with clause 36.a, the Authority will consider and verify that invoice in a timely fashion.

c. The Authority shall pay the Contractor any sums due under such an invoice no later than a period of 30 days from the date on which the Authority has determined that the invoice is valid and undisputed.

d. Where the Authority fails to comply with clause 36.a and there is undue delay in considering and verifying the invoice, the invoice shall be regarded as valid and undisputed for the purpose of clause 36.c after a reasonable time has passed.

e. The approval for payment of a valid and undisputed invoice by the Authority shall not be construed as acceptance by the Authority of the performance of the Contractor's obligations nor as a waiver of its rights and remedies under the Contract.

f. Without prejudice to any other right or remedy, the Authority reserves the right to set off any amount owing at any time from the Contractor to the Authority against any amount payable by the Authority to the Contractor under the Contract or under any other contract with the Authority, or with any other Government Department.

37. Value Added Tax and other Taxes

a. The Contract Price excludes any UK output Value Added Tax (VAT) chargeable on the supply of Contractor Deliverables by the Contractor to the Authority.

b. If the Contractor is required by UK VAT law to be registered for UK VAT (or has registered voluntarily) in respect of their business activities at the time of any supply, and the circumstances of any supply are such that the Contractor is liable to pay the tax due to HM Revenue and Customs (HMRC), the Authority shall pay to the Contractor in addition to the Contract Price (or any other sum due to the Contractor) a sum equal to the output VAT chargeable on the tax value of the supply of Contractor Deliverables, and all other payments under the Contract according to the law at the relevant tax point.

c. The Contractor is responsible for the determination of VAT liability. The Contractor shall consult their Client Relationship Manager or the HMRC Enquiries Desk (and not the Authority's Representative (Commercial)) in cases of doubt. The Contractor shall notify the Authority's Representative (Commercial) of the Authority's VAT liability under the Contract, and any changes to it, within twenty (20) Business Days of becoming aware the liability is other than at the standard rate of VAT. In the event of any doubt about the applicability of the tax in such cases, the Authority may require the Contractor to obtain, and pass to the Authority, a formal ruling from HMRC. The Contractor shall comply promptly with any such requirement. Where the Contractor obtains a ruling from HMRC, they shall supply a copy to the Authority within three (3) Business Days of receiving that ruling unless they propose to challenge the ruling. Where the Contractor challenges the ruling they shall supply to the

Authority a copy of any final decisions issued by HMRC on completion of the challenge within three (3) Business Days of receiving the decision.

d. Where supply of Contractor Deliverables comes within the scope of UK VAT, but the Contractor is not required by UK VAT law to be registered for UK VAT (and has not registered voluntarily), the Authority shall be responsible for assessing and paying over directly to HMRC any UK output VAT due in respect of the Contractor Deliverables. The Contractor shall be responsible for ensuring they take into account any changes in VAT law regarding registration.

e. Where Contractor Deliverables are deemed to be supplied to the Authority outside the UK, the Contractor may be required by the laws of the country where the supply takes place to register there for tax purposes. In that event, it is the Contractor's responsibility to ensure the Contract Price captures this tax.

f. In relation to the Contractor Deliverables supplied under the Contract the Authority shall not be required to pay any sum in respect of the Contractor's input VAT (or similar non-UK input taxes). However, these input taxes will be allowed where they were included in the Contract Price and it is established that, despite the Contractor having taken all reasonable steps to recover them, it has not been possible to do so. Where there is any doubt that the Contractor has complied with this requirement the matter shall be resolved in accordance with Condition 40 (Dispute Resolution).

g. Should HMRC decide that the Contractor has incorrectly determined the VAT liability, in accordance with clause 37.b above, the Authority will pay the VAT assessed by HMRC. In the event that HMRC so determines, the Contractor shall pay any interest charged on any assessment or penalties or both directly to HMRC. Such interest or penalties or both shall not be recoverable from the Authority under the Contract or any other contract. The Contractor shall supply the Authority with a copy of all correspondence between HMRC and the Contractor's advisors regarding the VAT assessment within three (3) Business Days of a written request from the Authority for such correspondence.

38. Debt Factoring

a. Subject to the Contractor obtaining the prior written consent of the Authority in accordance with Condition 10 (Assignment of Contract), the Contractor may assign to a third Party ("the Assignee") the right to receive payment of the Contract Price or any part thereof due to the Contractor under the Contract (including interest which the Authority incurred through late payment under the Late Payment of Commercial Debts (Interest) Act 1998 ("the Act")). Any assignment of the right to receive payment of the Contract Price (or any part thereof) under this Condition 38 shall be subject to:

- (1) reduction of any sums in respect of which the Authority exercises its right of recovery under clause 36.f;
- (2) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (3) the Authority receiving notification under both clauses 38.b and 38.c.(2).

b. In the event that the Contractor obtains from the Authority the consent to assign the right to receive the Contract Price (or any part thereof) under clause 38.a, the Contractor shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

c. The Contractor shall ensure that the Assignee:

- (1) is made aware of the Authority's continuing rights under clauses 38.a.(1) and 38.a.(2); and
- (2) notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment, subject to any reduction made by the Authority in accordance with clauses 38.a.(1) and 38.a.(2).

d. The provisions of Condition 36 (Payment and Recovery of Sums Due) shall continue to apply in all other respects after the assignment and shall not be amended without the prior approval of the Authority.

39. Subcontracting and Prompt Payment

a. Subcontracting any part of the Contract shall not relieve the Contractor of any of the Contractor's obligations, duties or liabilities under the Contract.

b. Where the Contractor enters into a subcontract, they shall cause a term to be included in such subcontract:

- (1) providing that where the Subcontractor submits an invoice to the Contractor, the Contractor will consider and verify that invoice in a timely fashion;
- (2) providing that the Contractor shall pay the Subcontractor any sums due under such an invoice no later than a period of thirty (30) days from the date on which the Contractor has determined that the invoice is valid and undisputed;
- (3) providing that where the Contractor fails to comply with clause 39.b.(1) above, and there is an undue delay in considering and verifying the invoice, that the invoice shall be regarded as valid and undisputed for the purposes of clause 39.b.(2) after a reasonable time has passed; and
- (4) requiring the counterparty to that subcontract to include in any subcontract which it awards, provisions having the same effect as clauses 39.b.(1) to 39.b.(4).

Termination

40. Dispute Resolution

a. The Parties will attempt in good faith to resolve any dispute or claim arising out of or relating to the Contract through negotiations between the respective representatives of the Parties having authority to settle the matter,

which attempts may include the use of any alternative dispute resolution procedure on which the Parties may agree.

b. In the event that the dispute or claim is not resolved pursuant to clause 40.a the dispute shall be referred to arbitration. Unless otherwise agreed in writing by the Parties, the arbitration and this clause 40.b shall be governed by the Arbitration Act 1996. For the purposes of the arbitration, the arbitrator shall have the power to make provisional awards pursuant to Section 39 of the Arbitration Act 1996.

c. For the avoidance of doubt, anything said, done or produced in or in relation to the arbitration process (including any awards) shall be confidential between the Parties, except as may be lawfully required in judicial proceedings relating to the arbitration or otherwise.

The Contractor and/or Contractor personnel shall return any Authority Property (including passes and laptops) within 7 calendar days of a request from the Authority, unless otherwise agreed. Where Contractor personnel still hold any Authority Property which contains sensitive information (including passes and laptops), beyond the requested date of return, this may be considered a security breach.

46.6 Options

In addition to the requirement for Core Services as detailed in the Statement of Requirements for a period of 30 months, the Contractor hereby grants to the Authority the following irrevocable options to purchase the same services for up to 2 further option periods, in accordance with the terms and conditions set out in this contract or any such subsequent contract or contracts where such options are taken up, it being agreed that the Authority has no obligation to exercise such options.

- a. of delay in the delivery programme whether constituting any breach of the Contract or resulting from any force majeure event, or
- b. for the duration of which the Authority is prevented from exercising any such option due to any other breach of the Contract by the Contractor.

The Authority shall not be obliged to exercise the options.

Where:

The replacement index or indices shall cover, to the maximum extent possible, the same economic activities as the original index or indices.

d. In the event that any material changes are made to the indices (e.g. a revised statistical base date) during the period of the contract and before final adjustment of the final contract price, then the re-basing methodology outlined by the Office for National Statistics (ONS, the series providers) to match the original index to the new series shall be applied.

e. In the event the agreed index or indices cease to be published (e.g. because of a change in the Standard Industrial Classification) the Authority and the Contractor shall agree an appropriate replacement index or indices, which shall cover to the maximum extent possible the same economic activities as the original index or indices. The methodology outlined by the Office for National Statistics used for rebasing indices (as in Clause d above) shall then be applied.

f. Notwithstanding the above, any extant index / indices agreed in the Contract shall continue to be used as long as it is / they are available and subject to ONS revisions policy. Payments calculated using the extant index /

indices during its / their currency shall not be amended retrospectively as a result of any change to the index or indices.

g. The Contractor shall notify the Authority of any significant changes in the purchasing / manufacturing plan on the basis of which these provisions were drawn up and agreed, or of any other factor having a material bearing on the operation of these provisions such as to cause a significant divergence from their intended purpose, in order that both parties may consider whether any change in this provision would be appropriate.

h. Prices shall be adjusted taking into account the effect of the above formula as soon as possible after publication of the relevant indices or at a later date if so agreed between the Authority and the Contractor. Where an index value is subsequently amended, the Authority and the Contractor shall agree a fair and reasonable adjustment to the price, as necessary.

Schedule 11 – Statement of Requirements

Introduction

1. Navy Digital (ND) requires a support service to ensure effective planning, management, budget allocation, delivery and, decision making across the Digital portfolio to deliver Digital services and capabilities to the Royal Navy (RN) in support of Operational outputs and Business as Usual (BAU) in line with the Digital and Data (DD) plan.

Deliverables Background

2. The MDA Navy Digital PfO and BRM is responsible for the coordination and coherence of all investments and Business as usual (BAU) activity delivered by Navy Digital. This output is vital for the detail and understanding necessary for Chief Digital Information Officer (CDIO) to act as head of Portfolio, budget manager, and lead responsible owner for the assurance of all Digital initiatives across Navy Commands wider portfolio.

3. The BRM digital enabling service manages the process that tracks all requirements that ND are responsible for as the DLOD. These requirements are funded by the 1* Directorate, but some are from external organisations that require digital support in delivery to enable operational requirements, Operational Support and Projects. From this tracker, the BRM Service can inform the relevant parties (CDIO, finance and commercial) at the required stages to ensure all requirements are approved in line with policy. Without this service we would return to incoherent submissions of Business cases, with no clear alignment to strategy, plans, or affordability resulting in inefficient investment approaches, and siloed working.

4. Without the proposed service, there would be a failure to provide CDIO with the correct information to inform effective decision making. CDIO would be unable to track risks, requirements, and contracts. Without the BRM function, given the high volume of business cases and transactional activity, there would be major impact to the investment and enabling process, with incoherence generated across submissions to finance. Without a PMO, Digital would not have the portfolio planning, management, analysis, and enabling expertise to manage its digital portfolio. In addition, Navy Command HQ would lose all resource and budgetary control of In-Service ICT Support, Budgetary, Repair and Programme/Portfolio Management. The subsequent impact would reduce the effectiveness of all services provided through the business resource service, resulting in Navy Command HQ experiencing severe delays in the passing through and gaining the correct approvals for new and BAU requirements. This incoherence would also lead ND to have insufficient evidence to effectively prioritise demands and create further incoherence for investment and planning purposes.

5. Without an effective BRM team, ND would be unable to provide dedicated financial or commercial effort to SMEs which would result in the steady loss of critical services, support and equipment being provided to maritime platforms. This would result in them being unable to deliver operational effect due to a loss of C2, Networking, SatCom, Maritime Domain Awareness amongst a raft of other enablers. Key strategic activities such as the delivery of CSG25 and Dreadnought would be severely compromised. This service has an indirect, but critical effect on the delivery of operations and Defence Outputs.

6. Navy Digital has a high volume of low value transactions on a monthly basis. These transactions are all cohered and endorsed by SMEs via direct engagement with the BRM team. A failure of this service would not only immediately cease Navy Digital's ability to meet

the minimum payment timeline, but would also damage our management information when responding to queries from the National Audit Office (NAO). All auditable information is currently monitored and recorded by the BRM, failure to meet this NAO standard opens up the department to legal challenge and reputational damage.

7. The Navy Digital and Data Plan (NDDP) states that a service-based model that enables defined operational and business decision making processes is required. The BRM service ensures ND resources requirements are forecasted, budgeted, invoiced, and supported through the approvals process and duration of the lifecycle in support of CDIO mandated outputs in accordance with the NDDP. The wider PfO tracking and management of the NDDP produces the foundational work on which the 2* Navy Digital Board (NDB) is constructed, which forms the coherence and strategy meeting for all 2* Digital investments and initiatives.

8. ND has matured the PfO significantly over the past 24 months, and as a result has generated an Outreach service that dovetails into the Information Defence Lines of Development (IDLod) strands of work across the HQ. This work generates the key Level 0 and Level 1 assumptions and dependencies on ND from wider projects and programmes, giving clear structure and prioritisation to ND activity. Without this Outreach activity, there would continue to be wider incoherence across programmes with insufficient understanding to articulate the tangible dependencies on ND projects. As a result, not only would the Command plan gain incoherence, it risks failing to deliver key outputs of the integrated plan, if critical dependencies of the transitional programmes are not suitably articulated and documented within the shared PfO functions.

9. The PMO service requirement will include the capabilities to introduce advanced analytical capabilities which will generate actionable insights, predictions, or explicit recommendation for senior leadership within ND and CDIO. This directly follows the NDDP, as the PMO service will allow dependencies and risk factors to be understood readily, this will allow the prioritisation of resources to those areas that will deliver the most meaningful, impactful and best VFM changes to operational and business performance.

10. CDIO is responsible on behalf of Defence Digital (DD) and the Central Digital and Data Office (CDDO) for assuring all of the Digital initiatives and investments across Navy Command. This assurance is dependent on the Outreach service for identifying the programmes with Digital dependencies, but also the assurance activity conducted within the PfO. This assurance activity completes a maturity assessment of programmes to ensure they meet wider Cabinet office and CDDO assurance criteria. Failure to deliver this assurance function would result in a loss of ownership of our approvals process, with CDDO taking full control of our Digital investments to ensure wider Government coherence.

11. This requirement now incorporates and synergises with the digital strategy, policy and governance service as a key component within the digital headquarters, responsible for bringing coherence and direction to a broad range of digital projects and capabilities both planned and underway to support the Royal Navy's journey to become a fully digital organisation by 2025. The service is responsible for delivering against the strategy, leading on the coordination and underpinning an effective Navy Digital Board (NDB); as well as inputs to NEC and CDIO dashboards.

12. Failure to sustain the strategy service would impact the momentum achieved to date and disrupt Navy Digital as it moves to full operating capability. The impact would be especially significant for the Navy Digital Board which is recognised by 2SL, and MOD CIO as providing essential governance over digital transformation and manages the coherence of investment in transformative digital initiatives. This risk could undermine much of the navy's

existing accomplishments and deliver financial and reputational damage to both the department and navy as we no longer align from top down.

Overview of Requirement Outputs

13. This requirement has two functional outputs. The service will provide functional delivery of these outputs:

- a. **Business Resource Management (BRM)**
- b. **Portfolio Management Office (PMO)**
- c. **Information Management and Internal Media (IMIM)**

14. **Resource estimate:** It is estimated that the total service volume will be in the order of 5300-5400 service days per service year.

15. **Business Resource Management (BRM) Overview of Requirement** – Ensure ND resource requirements are forecast, budgeted, invoiced and supported through the approvals process and duration of the lifecycle in support of CDIO mandated outputs in accordance with the DD plan.

- a. **BRM Planning** – the development, implementation and management of related processes and standards and providing support, guidance and reviews to ensure adherence to these.
- b. **BRM Operations** – provide decision making support by assessing and refining the benefits of investments in business processes, Digital services and Digital assets, while maintaining and supporting the Forecast Of Outturn (FOO) and Annual Budget cycle (ABC) processes.
- c. **BRM Enablers** – Ensure the value in effective contract requirements principles and enhancing delivery of business resources to support ND requirements.

16. **Resource estimate:** It is estimated that this output service volume will be in the order of 1600-1700 service days per service year.

17. **Portfolio Management Office (PMO) Overview of Requirement** – The aim of the PMO is to manage the pipeline of Run, Change and BAU activities, to aid decision making and ensuring their alignment and contribution to the organisational strategies and objectives through understanding, categorising, prioritising, balancing, and planning.

- a. **Portfolio Planning Services** – Centrally implement and co-ordinate ND prioritisation, investment strategy and measurement of initiatives to meet ND objectives.
- b. **Portfolio Management Services** – Enable governance and assurance of digital projects and programmes establishing an effective approach to generating and presenting Management Information (MI) and subsequent reporting. Provide a single source of truth to inform effective decision making to respond to change. Provide robust integration of Change initiatives alongside BAU using appropriate portfolio management principles.

c. **Portfolio Analysis and Enabling Services** – Provide qualitative analysis techniques across the collective Portfolio of Run, Change and BAU initiatives round both internal and external RAIDO¹ and Assurance. Enable effective integration between internal ND pillars and external NCHQ stakeholders and building a tailored master data set and tooling provision to support ND, The organisation's portfolio, Defence Digital/Cabinet Office, Commercial and Financial Governance.

18. **Resource estimate:** It is estimated that this output service volume will be in the order of 3100-3200 service days per service year.

19. **Information Management and Internal Media IMIM** – Ensure delivery of Information Management, application of digital security and internal media communications for Navy Digital are delivered in line with MOD policy and CDIO's priorities.
