 - (b) less than the Projected JAC Staff Amount, the Contractor shall apply a credit for an amount equal to the JAC Staff Adjustment Amount (expressed as a positive figure) as a separate line item on the Contractor's Subsequent Invoice.

Where:

A = the Actual WAV for the First Contract Year or the Final Contract Year, as the case may be; and

B = the number of days in the First Contract Year or the Final Contract Year, as the case may be.

6.3 If paragraph 6.1(b) applies, the Authority may, in its discretion and by written notice to the Contractor, decrease the Fee for Service for the remaining months of that Applicable Contract Year so that the Fee for Service for those remaining months is the amount that the Authority would have paid had the Predicted WAV for the Applicable Contract Year fallen into the Adjusted WAV Band.

By way of example only:

If:

- (a) *the Predicted WAV Band is band 5;*
- (b) *during the Calculation Period, the annualised Actual WAV would fall within band 7 or any higher band then the Authority may, at its discretion, increase the Fee for Service in accordance with paragraph 6.1(a) for the remaining months of that Applicable Contract Year; or*

- 6.8 In accordance with Clause 31 of this Agreement, the Authority may deduct from each Fee for Service the amount invoiced to the Contractor for the Contractor's use of the Accredited Programmes and Authority IPRs in accordance with Clause 3.8 of this Agreement in the month to which that Fee for Service relates.

Redundancy Reconciliation

- 6.9 Promptly following the Amendment Date and, in any event, prior to the end of the second month following the Amendment Date, the Authority shall notify the Contractor in writing of the number and grade of people (a) made redundant by the Authority in the Contractor's Contract Package Area and whose effective date of termination is between 1 June 2014 and the Amendment Date (both dates inclusive); and (b) who have, prior to the Amendment Date, been given notice that they are to be made redundant but their effective date of termination will not be until after the Amendment Date and accordingly the amount of their redundancy payment is included in the calculation of the Statement of Financial Position (as defined in the Sale and Purchase Agreement) (together, the **Redundant Persons**). The **Redundancy Adjustment Amount** shall be the sum of:

- (a) the amounts paid or to be paid to the Redundant Persons in each case calculated in accordance with the Voluntary Redundancy Terms as defined in Clause 30 (and as set out in Part 2 of Schedule 25);
- (b) the amount of: (i) any payment made to an administering authority of the Local Government Pension Scheme pursuant to regulation 68(2) of the Local Government Pension Scheme Regulations 2013 resulting from retirement benefits becoming immediately payable to a member under regulation 30(7) of those Regulations in respect of Redundant Persons, including any costs arising as a result of a waiver of any reduction under regulation 30(8) of those Regulations; and (ii) any payment made to any section of the Principal Civil Service Pension Scheme or the Civil Service Compensation Scheme that is payable as a result of the redundancy of the Redundant Persons; and
- (c) the amounts of Fully Loaded Payroll Costs that would otherwise have been paid to each of those Redundant Persons during:
 - (i) the maximum redundancy consultation period that the Contractor would have been required to observe in respect of the Redundant Person in accordance with its

contractual obligations, any applicable collective agreement and/or applicable law, and;

- (ii) the longer of the Redundant Person's contractual notice period or statutory notice period.

In this paragraph 6.9, **Fully Loaded Payroll Costs** means gross salary and any other gross remuneration or other payments processed through payroll such as bonus and compensation, overtime costs, employee expenses, the costs of providing employee benefits (whether contractual or discretionary) and any other staff related costs but excluding any applicable statutory or contractual redundancy or severance payments that are included under paragraph (a).

- 6.10 The Fee for Service for the Adjustment Month shall be reduced by an amount equal to the Redundancy Adjustment Amount. In this paragraph 6.10, **Adjustment Month** means the month immediately after the month during which the Authority notifies the Contractor of the Redundancy Adjustment Amount under paragraph 6.9.
- 6.11 If the Termination Date occurs for any reason before the full amount of the Redundancy Adjustment Amount has been applied as a credit to invoices that have been paid or become payable on or before the Termination Date, the Authority may issue an invoice (in accordance with paragraph 16) for the remaining amount of the Redundancy Adjustment Amount.

Staff Changes Adjustment

- 6.12 The parties acknowledge that the figures in the Fixed FFS column in each of the tables in Appendix 3 are, with respect to staff costs, each calculated on the basis of:
 - (a) the information set out in the People Data Template in respect of Expected Authority Employees; and
 - (b) the staff related information set out in the relevant sections of the Contractor's Financial Response Documents(with (a) and (b) together being the **Expected Staff Information**).
- 6.13 At any time within the first two months after the Amendment Date, either the Contractor or the Authority can:
 - (a) prepare an updated version of the information set out in the People Data Template identifying, as at the Amendment Date:
 - (i) which Expected Authority Employees from the People Data Template have become Transferred Employees;
 - (ii) which Expected Authority Employees from the People Data Template have not become Transferred Employees; and
 - (iii) any Additional Employees,(this updated version, the **Updated People Data Template**); and

- (b) require by written notice to the other that the parties meet (at a time to be mutually agreed by the parties acting reasonably) to discuss and agree a Staff Adjustment Amount (as defined in paragraph 6.14(b) below).

6.14 If a notice is given in accordance with paragraph 6.13:

- (a) the party giving that notice shall include a copy of the Updated People Data Template; and
- (b) the parties shall (each acting reasonably) meet to discuss and agree:
 - (i) an amount which reflects the impact of the change in Staff Costs between the position set out in the Expected Staff Information and the position set out in the Updated People Data Template which, if paid by one party to the other achieves, so far as is reasonably practicable, a position in which, in respect of the First Contract Year, neither the Authority nor the Contractor is in a better or worse position as a result of that payment than that party would have been had the information in the Updated People Data Template been the same as the information in the Expected Staff Information (the **Staff Adjustment Amount**); and
 - (ii) a change to the figures in Band 6 of the Fixed FFS column of each table in Appendix 3 other than for the First Contract Year (and, accordingly, a corresponding change to the figures in each of the other Bands in the Fixed FFS column of those tables) which achieves, so far as is reasonable practicable, a position in which, in respect of each Contract Year (other than the First Contract Year), neither the Authority nor the Contractor is in a better or worse position as a result of the changes to the figures in the Fixed FFS columns than either party would have been had the information in the Updated People Data Template been the same as the information in the Expected Staff Information (the **Fixed FFS Staff Adjustments**).

For the avoidance of doubt, no Staff Adjustment Amount or Fixed FFS Staff Adjustments will be made in respect of any individuals who are not engaged pursuant to a contract of employment.

6.15 If the parties cannot agree the Staff Adjustment Amount or the Fixed FFS Staff Adjustments (or any element of the Fixed FFS Staff Adjustments) within one month after the date on which the notice provided under paragraph 6.13 is received, the matter shall be dealt with in accordance with paragraph 18.

6.16 For the avoidance of doubt, the parties agree that Redundant Persons will not be taken into account as part of the determination of the Staff Adjustment Amount or the Fixed FFS Staff Adjustments.

Application of the Staff Adjustment Amount

6.17 Once the Staff Adjustment Amount is agreed between the parties or determined by the Adjudicator (as the case may be), the Contractor shall:

- (a) if the final Staff Adjustment Amount is a positive figure, include an amount equal to that agreed or determined final Staff Adjustment Amount divided by the number of whole calendar months remaining in the then current Contract Year (**Monthly Staff Adjustment Amount**) (expressed as a positive figure); or
- (b) if the final Staff Adjustment Amount is a negative figure, apply a credit for an amount equal to the Monthly Staff Adjustment Amount;

in each case, as a separate line item on each Fee for Service invoice issued during the remainder of that Applicable Contract Year.

- 6.18 If the Termination Date occurs for any reason before the full amount of the final Staff Adjustment Amount has been included (either as an additional amount or as a credit) on invoices that have been paid or become payable on or before the Termination Date:
- (a) in the case of paragraph 6.17(a), the Contractor may issue an invoice (in accordance with paragraph 16) for the amount of the remaining Staff Adjustment Amount; or
 - (b) in the case of paragraph 6.17(b), the Authority may issue an invoice (in accordance with paragraph 16) for the amount of the remaining Staff Adjustment Amount.

Application of the Fixed FFS Staff Adjustments

- 6.19 Once the Fixed FFS Staff Adjustments are agreed between the parties or determined by the Adjudicator (as the case may be), the parties shall, notwithstanding the definition of Change, agree an amendment to this Agreement in accordance with Clause 42.8 to reflect the Fixed FFS Staff Adjustments.

7. PAYMENT BY RESULTS – BINARY

Quarterly Binary Calculation

- 7.1 Within five months after the Quarterly Binary Calculation Date for a Quarterly Cohort (**Applicable Quarterly Cohort**), the Authority shall, for that Applicable Quarterly Cohort use the Actual Quarterly Binary Rate to determine the consequence for the Contractor in accordance with the relevant band of the Quarterly Binary Metric Table for the Contract Year in which the Applicable Quarterly Cohort was established. The relevant band for that Applicable Quarterly Cohort shall be the band which represents the percentage range into which the Actual Quarterly Binary Rate falls (**Quarterly Binary Band**).

Consequences of Quarterly Binary Calculation

- 7.2 If the Actual Quarterly Binary Rate for the Applicable Quarterly Cohort:
- (a) is less than the percentage that is in the “Lower Boundary” column of Band 1 of the Quarterly Binary Metric Table for the Contract Year in which the Applicable Quarterly Cohort was established (**Quarterly Boundary Percentage**), the Actual Quarterly Binary Rate shall be deemed to be that Quarterly Boundary Percentage and paragraph 7.2(b) shall apply;

By way of example only:

If the percentage that is in the “Lower Boundary” column of Band 1 is 50% and the Actual Quarterly Binary Rate is 47% (or lower), the Actual Quarterly Binary Rate shall be deemed to be 50% and paragraph 7.2(b) shall apply.

- (b) falls into **Band 1**: the Authority shall pay to the Contractor, subject to paragraph 7.9, an amount equal to the Binary PbR Amount in accordance with paragraph 7.6;
- (c) falls into **Band 2**:

- (i) the Contractor shall not be entitled to charge and the Authority shall have no obligation to pay a Binary PbR Amount; and
- (ii) there shall be no adjustment to the Corresponding Fee for Service; or
- (d) falls into **Band 3**: the Corresponding Fee for Service shall be reduced by an amount equal to the Binary PbR Amount in accordance with paragraph 7.7.

Calculation of the Binary PbR Amount

7.3 The **Binary PbR Amount** for each Applicable Quarterly Cohort shall, subject to paragraph 7.9 be an amount in pounds sterling calculated as follows:

$$A * B * C$$

Where:

A = the Quarterly Reduction in Binary Re-Offending Rate for the Applicable Quarterly Cohort, calculated in accordance with paragraphs 7.4 and 7.5;

B = the Per Offender Amount; and

C = the number of Allocated Persons who Enter into a Cohort during the Quarter in which the Applicable Quarterly Cohort was established.

Quarterly Reduction in Binary Re-Offending Rate

7.4 The **Quarterly Reduction in Binary Re-Offending Rate** shall be calculated as follows:

$$D - E$$

Where:

D = 47.77%; and

E = the Actual Quarterly Binary Rate.

7.5 The Quarterly Reduction in Binary Re-Offending Rate shall be expressed as a decimal.

Accordingly, by way of example only, if, in the calculation above:

D = 50% and E = 48%, the Quarterly Reduction in Binary Re-Offending Rate shall be 0.02.

Quarterly Reduction in Binary Re-Offending Rate Example

By way of example only:

If 100 Allocated Persons Enter into a Cohort during the Quarter in which the Applicable Quarterly Cohort was established and the Actual Quarterly Binary Rate for the Applicable Quarterly Cohort is 48%, the Quarterly Reduction in Binary Re-offending Rate is 0.02 (i.e. 50% - 48%).

The Binary PbR Amount would be:

$$0.02 * £4,000 * 100 = £8,000.$$

Application of the Binary PbR Amount

- 7.6 If paragraph 7.2(b) applies, the Contractor shall, subject to paragraph 7.9, add an amount equal to the Binary PbR Amount to the invoice for the Corresponding Fee for Service, as a separate line item.
- 7.7 If paragraph 7.2(d) applies, the Contractor shall apply an amount equal to the Binary PbR Amount (expressed as a positive figure) as a credit to the Contractor's invoice for the Corresponding Fee for Service.

By way of example only:

If the Corresponding Fee for Service is £10,000 and the Binary PbR Amount is -£1,000 then the Contractor shall apply a credit of £1,000 to the Contractor's invoice for the Corresponding Fee for Service.

- 7.8 If the Termination Date occurs for any reason and, accordingly, for any Binary PbR Amount there is no Corresponding Fee for Service:
- (a) where paragraph 7.2(b) applies, the Contractor may issue a separate invoice (in accordance with paragraph 16) for an amount equal to the Binary PbR Amount; or
 - (b) where paragraph 7.2(d) applies, the Authority may issue an invoice (in accordance with paragraph 16) for an amount equal to the Binary PbR Amount.

Limitations on the Binary PbR Amount

- 7.9 Notwithstanding any other provision of this Agreement, the Contractor shall not be entitled to charge, and the Authority shall have no obligation to pay, the Binary PbR Amount if that Binary PbR Amount would be more than the Maximum Quarterly Binary Amount for the Contract Year in which the Applicable Quarterly Cohort was established. In these circumstances paragraph 7.10 will apply.
- 7.10 If paragraph 7.9 applies, the amount of the Binary PbR Amount for the Applicable Quarterly Cohort shall be reduced to an amount equal to the Maximum Quarterly Binary Amount for the Contract Year in which the Applicable Quarterly Cohort was established.

Notification of the PbR Amount

- 7.11 Within five months after the end of each Quarterly Binary Calculation Date, the Authority shall notify the Contractor in writing of the Quarterly Binary Band that applies to that Applicable Quarterly Cohort and:
- (a) the amount (if any) of the Binary PbR Amount that is to be paid by the Authority; or
 - (b) the amount (if any) of the credit that the Contractor shall apply to the Contractor's invoice for the Corresponding Fee for Service,

(PbR Notification).

8. ANNUAL BINARY RECONCILIATION

Annual Binary Calculation

- 8.1 Within five months after each Annual Binary Calculation Date, the Authority shall, for each Annual Cohort (**Applicable Annual Cohort**) use the Actual Annual Binary Rate to determine whether the Authority shall pay a Binary PbR Top-up Amount to the Contractor, in accordance with the relevant band of the Annual Binary Metric Table for the Contract Year in which the Applicable Annual Cohort was established. The relevant band for that Applicable Annual Cohort shall be the band which represents the percentage range into which the Actual Annual Binary Rate falls (**Actual Annual Band**).

Consequences of the Annual Binary Calculation

- 8.2 If the Actual Annual Binary Rate for the Applicable Annual Cohort:
- (a) is less than the percentage that is in the “Lower Boundary” column of Band 1 of the Annual Binary Metric Table for the Contract Year in which the Annual Quarterly Cohort was established (**Annual Boundary Percentage**), the Actual Annual Binary Rate shall be deemed to be that Annual Boundary Percentage and paragraph 8.2(b) shall apply;

By way of example only:

If the percentage that is in the “Lower Boundary” column of Band 1 is 50% and the Actual Annual Binary Rate is 47% (or lower), the Actual Annual Binary Rate shall be deemed to be 50% and paragraph 8.2(b) shall apply.
 - (b) falls into **Band 1**: the Authority shall pay to the Contractor; subject to paragraph 8.10, an amount equal to the Binary PbR Top-up Amount in accordance with paragraph 8.7;
 - (c) falls into **Band 2**: the Contractor shall not be entitled to charge and the Authority shall have no obligation to pay a Binary PbR Top-up Amount;
 - (d) falls into **Band 3**:
 - (i) the Contractor shall not be entitled to charge and the Authority shall have no obligation to pay a Binary PbR Top-up Amount; and
 - (ii) Paragraph 8.8 shall apply; or
 - (e) falls into **Band 4**:
 - (i) the Contractor shall not be entitled to charge and the Authority shall have no obligation to pay a Binary PbR Top-up Amount; and
 - (ii) Paragraph 8.9 shall apply.

Calculation of the Binary PbR Top-up Amount

- 8.3 The **Binary PbR Top-up Amount** for each Applicable Annual Cohort shall, subject to paragraph 8.10, be an amount in pounds sterling calculated as follows:

A – B

Where:

A = the Annual Binary Amount calculated in accordance with paragraph 8.4; and

B = the total aggregate of the Binary PbR Amounts for each of the Quarterly Cohorts that comprise the Applicable Annual Cohort.

Annual Binary Amount

8.4 The **Annual Binary Amount** for each Applicable Annual Cohort shall be an amount in pounds sterling calculated as follows:

$$C * D * E$$

Where:

C = the Annual Reduction in Binary Re-Offending Rate for each Applicable Annual Cohort calculated in accordance with paragraphs 8.5 and 8.6;

D = the Per Offender Amount; and

E = the number of Allocated Persons who Enter into a Cohort during the Contract Year in which the Applicable Annual Cohort was established.

Annual Reduction in Binary Re-Offending Rate

8.5 The **Annual Reduction in Binary Re-Offending Rate** for the Applicable Quarterly Cohort shall be calculated as follows:

$$F - G$$

Where:

F = 47.77%; and

G = the Actual Annual Binary Rate.

8.6 The Annual Reduction in Binary Re-Offending Rate shall be expressed as a decimal.

Accordingly, by way of example only, if, in the calculation above:

F = 50% and G = 48%, the Annual Reduction in Binary Re-Offending Rate shall be 0.02.

Annual Reduction in Binary Re-Offending Rate Example

By way of example only:

If:

(a) *the PbR Amounts for each of the Quarterly Cohorts that comprise the Applicable Annual Cohort are: (i) £0, (ii) £0, (iii) £10,000, and (iv) £20,000 (giving a total of £30,000); and*

(b) *the Annual Binary Amount is £40,000,*

the Binary PbR Top-up Amount is £10,000 (i.e. £40,000 - £30,000).

Application of the Binary PbR Top-up Amount

- 8.7 If paragraph 8.2(b) applies, the Contractor shall, subject to paragraph 8.10, include an amount equal to the Binary PbR Top-up Amount as a separate line item on the invoice on which the Binary PbR Amount for the final Quarterly Cohort in the Applicable Annual Cohort (if any) would also be invoiced in accordance with paragraph 7.6 or 7.8(a) (as appropriate).

Termination on Increase in Re-Offending

- 8.8 Without prejudice to the Authority's other rights and remedies under this Agreement, subject to paragraph 8.13, if for any two consecutive Contract Years, the Actual Annual Band is Band 3, the Authority shall be entitled to terminate this Agreement by notice in writing to the Contractor pursuant to Clause 33.5.
- 8.9 Without prejudice to the Authority's other rights and remedies under this Agreement, subject to paragraph 8.13, if in any Contract Year, the Actual Annual Band, is Band 4 the Authority shall be entitled to terminate this Agreement by notice in writing to the Contractor pursuant to Clause 33.5.

Limitations on the Binary PbR Top-up Amount

- 8.10 Notwithstanding any other provision of this Agreement, the Contractor shall not be entitled to charge, and the Authority shall have no obligation to pay, the full Binary PbR Top-up Amount if that Binary PbR Top-up Amount, when added to the Previous Binary PbR Amount would be more than the Maximum Annual Binary Amount for the Applicable Contract Year. In these circumstances paragraph 8.11 will apply.
- 8.11 If paragraph 8.10 applies, the amount of the Binary PbR Top-up Amount for the Applicable Annual Cohort shall be reduced to an amount equal to the difference between the Previous Binary PbR Amount and the Maximum Annual Binary Amount for the Applicable Annual Cohort.

Notification of the Binary PbR Top-up Amount

- 8.12 The Authority shall specify in the PbR Notification for the final Quarterly Cohort in the Applicable Annual Cohort details of the Binary PbR Top-up Amount (if any) for the Applicable Annual Cohort.

First Annual Cohort

- 8.13 If the first Annual Cohort is not comprised of four Quarterly Cohorts then:
- (a) the Contractor shall not be entitled to charge and the Authority shall have no obligation to pay a Binary PbR Top-up Amount in the First Contract Year; and
 - (b) that first Annual Cohort shall be disregarded for the purpose of paragraphs 8.8 and 8.9.

9. PAYMENT BY RESULTS – FREQUENCY

- 9.1 Subject to paragraph 9.10, within five months after each Annual Binary Calculation Date, the Authority shall, for the Applicable Annual Cohort, calculate the Frequency PbR Amount in accordance with paragraph 9.2 (if any) that it will pay to the Contractor.

Calculation of the Frequency PbR Amount

OFFICIAL SENSITIVE
CPA 19, ESSEX, BIDDER 382
FINAL

9.2 Subject to paragraph 9.6, the **Frequency PbR Amount** for each Applicable Annual Cohort shall be calculated as follows:

$$A * B * C * D$$

Where:

A = the number of Allocated Persons who Enter into a Cohort during the Contract Year in which the Applicable Annual Cohort is established;

$$B = 47.77\%$$

C = the Change in Re-Offending Frequency for that Applicable Annual Cohort calculated in accordance with paragraphs 9.3; and

D = the Per Offence Amount.

Change in Re-Offending Frequency

9.3 The Change in Re-Offending Frequency shall be calculated as follows:

$$E - F$$

Where:

$$E = 4.12; \text{ and}$$

F = the Actual Re-Offending Frequency.

By way of example only, to calculate a Frequency PbR Amount:

If:

(a) *there are 4,000 Allocated Persons who Enter into a Cohort during the Contract Year in which the Applicable Annual Cohort was established; and*

(b) *the Change in Re-Offending Frequency is 0. 2;*

the Frequency PbR Amount for the Applicable Annual Cohort shall, subject to paragraph 9.6, be:

$$4,000 * 0.4777 * 0. 2 * £1,000 = £382,160$$

Consequences of the Frequency PbR Amount

9.4 If the Frequency PbR Amount is:

(a) a positive figure, the Contractor shall, subject to paragraph 9.6, include an amount equal to the Frequency PbR Amount as a separate line item on the invoice on which the Binary PbR Amount (if any) for the final Quarterly Cohort in the Applicable Annual Cohort would also be invoiced in accordance with paragraph 7.6; or

(b) a negative figure, the Contractor shall include a credit for an amount equal to the Frequency PbR Amount (expressed as a positive figure) as a separate line item on the Contractor's invoice for the Corresponding Fee for Service.

**OFFICIAL SENSITIVE
CPA 19, ESSEX, BIDDER 382

- 9.5 If the Termination Date occurs for any reason and, accordingly, for any Frequency PbR Amount, there is no Corresponding Fee for Service:
- (a) in the case of paragraph 9.4(a), the Contractor may issue an invoice (in accordance with paragraph 16) for an amount equal to the Frequency PbR Amount; or
 - (b) in the case of paragraph 9.4(b), the Authority may issue an invoice (in accordance with paragraph 16) for an amount equal to the Frequency PbR Amount.

Limitations on the Frequency PbR Amount

- 9.6 Notwithstanding any other provision of this Agreement the Contractor shall not be entitled to charge, and the Authority shall have no obligation to pay:

Binary Hurdle

- (a) any Frequency PbR Amount for an Applicable Annual Cohort if the Annual Reduction in Binary Re-Offending Rate for that Applicable Annual Cohort is 0 (zero) or a negative number; and

Maximum Frequency Payment

- (b) the full Frequency PbR Amount for any Applicable Annual Cohort which is more than the Maximum Frequency Amount for that Applicable Annual Cohort. In these circumstances paragraph 9.7 will apply.

- 9.7 If paragraph 9.6(b) applies, the amount of the Frequency PbR Amount for the Applicable Annual Cohort shall be reduced to an amount equal to the Maximum Frequency Amount.

Notification of the Frequency PbR Amount

- 9.8 The Authority shall specify in the PbR Notification for the final Quarterly Cohort in the Applicable Annual Cohort, details of the Frequency PbR Amount (if any) for the Applicable Annual Cohort.

Frequency PbR Amount – Termination

- 9.9 Without prejudice to the Authority's other rights and remedies under this Agreement, the Authority shall be entitled to terminate this Agreement by notice in writing to the Contractor pursuant to Clause 33.5 if any Change in Re-Offending Frequency is -0.33 or any higher negative number (ie the Actual Re-Offending Frequency is at least 0.33 higher than the baseline in paragraph 9.3) provided that this shall not apply in respect of the first Annual Cohort if that first Annual Cohort does not consist of four Quarterly Cohorts.

First Annual Cohort

- 9.10 If the first Annual Cohort is only comprised of one Quarterly Cohort then:
- (a) subject to paragraph 9.10(b) the Contractor shall not be entitled to charge and the Authority shall have no obligation to pay a Frequency PbR Amount for that first Annual Cohort; and
 - (b) the Actual Re-Offending Frequency that is published by the Authority for the next Annual Cohort shall aggregate that Quarterly Cohort together with the four Quarterly Cohorts for that next Contract Year.

OFFICIAL SENSITIVE
CPA 19, ESSEX, BIDDER 382
FINAL

9.11 If the first Annual Cohort is comprised of only two or three Quarterly Cohorts then the Actual Re-Offending Frequency for that Annual Cohort shall relate only to those two or three Quarterly Cohorts.

10. MATERIAL RE-OFFENDING CHANGE – CHANGE IN POLICY OR LAW

10.1 If, with respect to a Contract Year, a Change in Law (on its own or in combination with another Change in Law) and/or a change in any or all of the policies of the Authority, an Authority Related Party or a Relevant Authority (each a **Re-Offending Rate – Change in Policy or Law**) occurs, which, in the reasonable opinion of the Authority, has resulted or is likely to result (by itself, regardless of any other factor) in an increase or decrease in:

- (a) the Actual Annual Binary Rate which is equal to or more than 3 percentage points above or below 47.77%; and/or
- (b) the Actual Quarterly Binary Rate which is equal to or more than 3 percentage points above or below 47.77%

the Authority may, at its discretion, amend: (i) the basis on which the PbR Amount or PbR Top-up Amount is calculated; and (ii) the percentage figures set out in each of the tables in Appendix 4, in each case to reflect the impact of that Re-Offending Rate – Change in Policy or Law. If the Authority intends to exercise its discretion under this paragraph 10, it will notify the Contractor in writing in advance (**Re-Offending Rate Change Notice**). The Contractor may make representations to the Authority in writing and request that these be taken into account by the Authority when exercising its discretion under this paragraph 10. The Authority will include in each Re-Offending Rate Change Notice a date by which the Contractor's representations must be received by the Authority. The Authority shall reasonably consider any representations made by the Contractor under this paragraph 10 on or before that date in good faith and shall provide its reasons to the Contractor for its decision.

10.2 Without prejudice to paragraph 10.1, if at any time, the Contractor reasonably believes that paragraph 10.1(a) or 10.1(b) applies, the Contractor may make representations to the Authority in writing and request that the Authority exercises its discretion under paragraph 10.1(a) or 10.1(b), as the case may be. The Authority shall reasonably consider any representations made by the Contractor under this paragraph 6.5 in good faith and shall provide its reasons to the Contractor for its decision.

By way of example only:

If the baseline annual re-offending rate is 48.25% and, in the opinion of the Authority, the Re-Offending Rate – Change in Policy or Law has or is likely to increase the Actual Annual Binary Rate to 51.25% or above or to decrease the Actual Annual Binary Rate to 45.25% or below then this paragraph 10 shall apply.

11. PBR ALLOCATION FOLLOWING CONTRACT EXPIRY

11.1 Notwithstanding any other provision of this Schedule, if a Quarterly Assessment Period End Date or an Annual Assessment Period End Date falls after the last day of the Exit Period (each an **Expired Date**) then the Binary PbR Amount, the Binary PbR Top-up Amount or the Frequency PbR Amount (as relevant) that is to be paid following an Expired Date shall be calculated in accordance with paragraph 11.2.

Quarterly Binary

11.2 If paragraph 11.1 applies:

- (a) in the case of an Expired Date which is a Quarterly Assessment Period End Date, if the Quarterly Cohort to which that Expired Date relates:
 - (i) was formed during a three month period each day of which occurred on or prior to the last day of the Exit Period, the Binary PbR Amount shall be calculated in accordance with paragraph 11.3; or
 - (ii) was formed during a period which is less than three calendar months, the Binary PbR Amount shall be calculated in accordance with paragraph 11.4; and

Annual Binary or Annual Frequency

- (b) in the case of an Expired Date which is an Annual Assessment Period End Date, if the Annual Cohort to which that Expired Date relates:
 - (i) was formed during a 12 month period each day of which occurred on or prior to the last day of the Exit Period, the Binary Top-up Amount or the Frequency PbR Amount (as the case may be) shall be calculated in accordance with paragraph 11.5; or
 - (ii) was formed during a period which is less than 12 calendar months, paragraph 11.6 shall apply.

Quarterly Cohort formed before last day of Exit Period

11.3 If paragraph 11.2(a)(i) applies, the Authority shall, when determining the Binary PbR Amount, apply the following formula:

$$(A/456) * B$$

Where:

A = the number of days between the first day of the period during which the relevant Quarterly Cohort was established and the last day of the Exit Period (both dates inclusive); and

B = the Binary PbR Amount.

Quarterly Cohort formed in less than 3 month period

11.4 If paragraph 11.2(a)(ii) applies, the Authority shall, when determining the Binary PbR Amount, apply the following formula:

$$(D/E) * F$$

Where:

D = the number of days between the first day of the period during which the relevant Quarterly Cohort was established and the last day of the Exit Period (both dates inclusive);

**OFFICIAL SENSITIVE

E = D plus 365; and

F = the Binary PbR Amount.

Annual Cohort formed before the last day of the Exit Period

- 11.5 If paragraph 11.2(b)(i) applies, the Authority shall, when determining the Binary PbR Top-up Amount or the Frequency Amount (as the case may be) apply the following formula:

$(G/730) * H$

Where:

G = the number of days between the first day of the period during which the relevant Annual Cohort was established and the last day of the Exit Period (both dates inclusive); and

H = the Binary PbR Top-up Amount or the Frequency Amount (as the case may be).

Annual Cohort formed in less than 12 month period

- 11.6 If paragraph 11.2(b)(ii) applies, the Authority shall, when determining the Binary PbR Top-up Amount or the Frequency Amount (as the case may be) apply the following formula:

$(J/K) * L$

Where:

J = the number of days between the first day of the period during which the relevant Annual Cohort was established and the last day of the Exit Period (both dates inclusive);

K = J plus 365; and

L = the Binary PbR Top-up Amount or the Frequency Amount (as the case may be).

12. FEE FOR USE

Monthly Fee

- 12.1 The Authority shall pay to the Contractor for the Applicable Contract Year monthly amounts calculated in accordance with paragraph 12.3 (**Fee for Use**).
- 12.2 The Contractor shall issue invoices to the Authority, monthly in arrears, for the Fee for Use in accordance with paragraph 16 (and these shall be separate invoices to those issued under paragraph 2.2).
- 12.3 The Fee for Use shall, other than for the First Contract Year (when paragraph 12.5 shall apply), be calculated by dividing the Projected FFU for the Applicable Contract Year into 12 equal monthly instalments. The Projected FFU for the Applicable Contract Year shall be the amount notified to the Contractor by the Authority in accordance with paragraph 12.4.

Projected FFU Calculation

- 12.4 Subject to paragraph 12.5, during the three month period prior to the commencement of each Applicable Contract Year (other than the First Contract Year), the Authority shall:
- (a) determine, at its discretion, its estimate of the total amount it will spend on services for Designated Retained Persons, purchased from the Contractor in that Applicable Contract Year (the **Projected FFU**); and
 - (b) include in the Predicted WAV Notification provided to the Contractor under paragraph 2.6(b) the Projected FFU for the Applicable Contract Year.
- 12.5 For the First Contract Year:

in each case which has been recorded as part of the WAV Data.

For the avoidance of doubt, in the case of (a), (b), (d), (f), (g), (h), and (m), the Actual WAV calculation will use the date of sentence and not the date of allocation to determine the Applicable Year into which a unit falls. By way of example, where a new Community Order or Suspended Sentence Order is imposed on 31 March 2016 and that case is allocated on 2 April 2016, that unit for “Manage the Community Order or Suspended Sentence Order Service Requirement” will be included in Contract Year 2, which spans 1 April 2015 to 31 March 2016, for the purposes of calculating the Actual WAV for that Year.

WAV Weighting Table means the table set out in Appendix 2; and

Weighting means, for each Service Requirement, the amount set out in the “Weighting” column of the WAV Weighting Table.

2. WAV CALCULATION

WAV Calculation

- 2.1 The Authority shall calculate the WAV in accordance with paragraph 2.2 of this Appendix.
- 2.2 Subject to any adjustments required to implement or take account of the principles in paragraphs 2.3 to 2.8 of this Appendix, the WAV shall be equal to the aggregate of the WAV for each Service Requirement, for the Applicable Contract Year. The WAV for a Service Requirement shall be:

$$A * B$$

Where:

A = the Weighting for the Service Requirement; and

B = the number of Units.

Unpaid Work Requirement

- 2.3 Subject to paragraph 2.7, for the Unpaid Work Service Requirement the entire number of hours for which an Unpaid Work Requirement has been ordered for an Allocated Person will be included in the calculation of the WAV for the Applicable Contract Year in which that Allocated Person Enters into a Cohort.

Transfer of Cases – WAV Calculation

- 2.4 Without prejudice to the generality of paragraph 2.8, other than for the Unpaid Work Service Requirement, if the Contractor cannot demonstrate to the satisfaction of the Authority (acting reasonably) that it has actually undertaken meaningful activities aimed at fulfilling the relevant Service Requirement in respect an Allocated Person who:
- (a) transfers out of the Contractor's Contract Package Area (for any reason including if the Allocated Person moves out of England and Wales or transfers to another Community Rehabilitation Company); or

- (b) transfers in to the Contractor's Contract Package Area (for any reason including if the Allocated Person moves into England and Wales or transfers from another Community Rehabilitation Company);

(each a **Transferring Person**) that Allocated Person or the sentence imposed on that Allocated Person (as the case may be) shall not be included in the calculation of the number of Units for that Service Requirement for the purposes of calculating the Actual WAV for the Contract Year during which the Transferring Person transfers.

2.5 Subject to paragraph 2.7, if:

- (a) a Transferring Person transfers out of the Contractor's Contract Package Area and the Contractor has not provided the entire number of hours for which Unpaid Work has been ordered for that Transferring Person; or
- (b) a Transferring Person transfers into the Contractor's Contract Package Area and the Contractor is not required to provide the entire number of hours for which Unpaid Work has been ordered for that Transferring Person,

the number of hours of Unpaid Work that have not been provided or are not required to be provided (as the case may be) shall be deducted from the number of Units for the Unpaid Work Service Requirement for the purposes of calculating the Actual WAV for the Contract Year during which the Transferring Person transfers.

2.6 For the avoidance of doubt, any activities that the Contractor may have undertaken in relation to the provision of a Service Requirement (including the Unpaid Work Service Requirement) generally but which do not specifically relate to the relevant Allocated Person shall not be taken into consideration for the purpose of paragraph 2.4.

Reallocated Persons – WAV Calculation

2.7 Notwithstanding any other provision of this Schedule, if an Allocated Person is reallocated by the Authority under Clause 3.1(c) and accordingly, is transferred out of the Contractor's Contract Package Area, that Allocated Person shall be disregarded for the purposes of all Service Requirements other than the Reallocated Person Service Requirement, when calculating the Actual WAV for the Contract Year during which that Allocated Person is reallocated.

WAV Calculation Principles

2.8 The Contractor shall ensure that at all times during the Contract Period:

- (a) the Contractor acts honestly and in good faith in connection with this Schedule 11;
- (b) the Charges for the Services properly reflect reasonable value for money to the Authority for those Services; and
- (c) it acts within the spirit and intentions of this Schedule 11 and it shall:
 - (i) not be entitled to be paid for any Charges under this Agreement for the provision of any Service to the extent that it has already been paid or will be paid for that Service; and

- (ii) not be entitled to be paid for any Charges that would otherwise be due under this Agreement for the provision of any Service where, other than as a result of a Force Majeure Event or a Relief Event, the Contractor cannot demonstrate to the satisfaction of the Authority (acting reasonably) that it has actually undertaken meaningful activities aimed at fulfilling the relevant Service Requirement in respect of an Allocated Person.

2.9 For the avoidance of doubt, any activities that the Contractor may have taken in relation to the provision of a Service Requirement generally but which do not specifically relate to an Allocated Person shall not be taken into account for the purposes of paragraph 2.8.

APPENDIX 5

PBR AMOUNTS

1. DEFINITIONS

Base PbR Amount has the meaning given to it in paragraph 2.2 of this Appendix 5;

Projected PbR Starts has the meaning given to it in paragraph 2.2 of this Appendix 5; and

Total PbR Amount means the amount calculated under paragraph 2.1 of this Appendix 5.

2. MAXIMUM PBR AMOUNTS

2.1 The **Total PbR Amount** for each Applicable Contract Year shall be calculated as follows:

$$(A/B) * C$$

Where:

A = the number of Allocated Persons who Enter into a Cohort during the Contract Year in which the Applicable Annual Cohort was established;

B = the number of Projected PbR Starts for the Applicable Contract Year; and

C = the Base PbR Amount for the Applicable Contract Year.

2.2 The number of Projected PbR Starts and the Base PbR Amount shall each be the amount set out in the relevant column of the table below for the Contract Year in which the Annual Cohort was established:

Contract Year	Projected PbR Starts	Base PbR Amount
1 (First Contract Year)	[REDACTED]	[REDACTED]
2	[REDACTED]	[REDACTED]
3	[REDACTED]	[REDACTED]
4	[REDACTED]	[REDACTED]
5	[REDACTED]	[REDACTED]
6	[REDACTED]	[REDACTED]
7	[REDACTED]	[REDACTED]
8	[REDACTED]	[REDACTED]
9	[REDACTED]	[REDACTED]
10	[REDACTED]	[REDACTED]
11	[REDACTED]	[REDACTED]
12	[REDACTED]	[REDACTED]
13	[REDACTED]	[REDACTED]
14	[REDACTED]	[REDACTED]

2.3 Subject to paragraph 9 of this Schedule and paragraph 2.4 of this Appendix 5:

- (a) the **Maximum Quarterly Binary Amount** shall be the Maximum Annual Binary Amount for the Contract Year in which the relevant Quarterly Cohort was established, divided by 4;
- (b) the **Maximum Annual Binary Amount** shall be the Total PbR Amount for the Contract Year in which the relevant Annual Cohort was established, divided by 2; and
- (c) the **Maximum Frequency Amount** shall be the Total PbR Amount for the Contract Year in which the relevant Annual Cohort was established, divided by 2.

2.4 If the number of Allocated Persons in an Annual Cohort is more than 150% of the Projected PbR Starts for the Contract Year in which that Annual Cohort was established, then when calculating the Total PbR Amount, 'A' in the calculation set out in paragraph 1.2 of this Appendix shall be the number that is equal to 150% of 'B' in that calculation.

By way of example only:

*If, in the Annual Cohort established in Contract Year 4, (i) the Base PbR Amount is £1,000,000; (ii) the Projected PbR Starts is 4,000; and (iii) there are 5,000 Allocated Persons then the Total PbR Amount is: £1,250,000 (i.e. $(5,000/4,000 * 1,000,000)$).*

Therefore:

(i) the Maximum Annual Binary Amount in relation to the Annual Cohort established in Contract Year 4 is £625,000 (i.e. $£1,250,000/2$) which determines the maximum amount of any Binary PbR Top-up Amount in accordance with paragraph 8.10 of this Schedule and so the maximum amount that may be added to the Contractor's invoice in accordance with paragraph 8.7 of this Schedule (which invoice shall actually be issued during Contract Year 6);

(ii) the Maximum Quarterly Binary Amount in relation to any Quarterly Cohort established in Contract Year 4 is £312,500 (i.e. $£1,250,000/4$) which determines the maximum amount of any Binary PbR Amount in accordance with paragraph 7.9 of this Schedule and so the maximum amount that may be added to the Contractor's invoices in accordance with paragraph 7.6 of this Schedule (which invoices shall actually be issued during Contract Year 6); and

(iii) the Maximum Annual Frequency Amount in relation to the Annual Cohort established in Contract Year 4 is £625,000 (i.e. $£1,250,000/2$) which determines the maximum amount of any Frequency PbR Top-up Amount in accordance with paragraph 9.6(b) of this Schedule and so the maximum amount that may be added to the Contractor's invoice in accordance with paragraph 9.4(a) of this Schedule (which invoice shall actually be issued during Contract Year 6).
