SCHEDULE 3: INSURANCE REQUIREMENTS

1.OBLIGATION TO MAINTAIN INSURANCES

- 1.1 Without prejudice to its obligations to FCDO under this Contract, including its indemnity obligations, the Supplier shall for the periods specified in this Schedule 2 take out and maintain, or procure the taking out and maintenance of the insurances as set out in Annex 1 (Required Insurances) and any other insurances as may be required by applicable Law (together the “**Insurances**”). The Supplier shall ensure that each of the Insurances is effective no later than the Commencement Date.
- 1.2 The Insurances shall be maintained in accordance with Good Industry Practice and (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent Contractor in respect of risks insured in the international insurance market from time to time.
- 1.3 The Insurances shall be taken out and maintained with insurers who are of good financial standing and of good repute in the international insurance market.
- 1.4 The Supplier shall ensure that the public and products liability policy shall contain an indemnity to principals clause under which FCDO shall be indemnified in respect of claims made against FCDO in respect of death or bodily injury or third party property damage arising out of or in connection with the Services and for which the Supplier is legally liable.

2.GENERAL OBLIGATIONS

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to the Services as it would be reasonable to expect of a prudent Contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
 - 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
 - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

3.FAILURE TO INSURE

- 3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.
- 3.2 Where the Supplier has failed to purchase any of the Insurances or maintain any of the Insurances in full force and effect, FCDO may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances, and FCDO shall be entitled to recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4.EVIDENCE OF POLICIES

- 4.1 The Supplier shall upon the Commencement Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to FCDO, that the Insurances are in force and effect and meet in full the requirements of this Framework Schedule 2. Receipt of such evidence by FCDO shall not in itself constitute acceptance by FCDO or relieve the Supplier of any of its liabilities and obligations under this Agreement.

5.AGGREGATE LIMIT OF INDEMNITY

- 5.1 Where the minimum limit of indemnity required in relation to any of the Insurances is specified as being "in the aggregate":
 - 5.1.1 if a claim or claims which do not relate to this Contract are notified to the insurers which, given the nature of the allegations and/or the quantum claimed by the third party(ies), is likely to result in a claim or claims being paid by the insurers which could reduce the level of cover available below that minimum, the Supplier shall immediately submit to FCDO:
 - (a) details of the policy concerned; and

- (b) its proposed solution for maintaining the minimum limit of indemnity specified; and
- 5.1.2 if and to the extent that the level of insurance cover available falls below that minimum because a claim or claims which do not relate to this Contract are paid by insurers, the Supplier shall:
 - (a) ensure that the insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified for claims relating to this Contract; or
 - (b) if the Supplier is or has reason to believe that it will be unable to ensure that insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified, immediately submit to FCDO full details of the policy concerned and its proposed solution for maintaining the minimum limit of indemnity specified.

6.CANCELLATION

- 6.1 The Supplier shall notify FCDO in writing at least five (5) Working Days prior to the cancellation, suspension, termination or non-renewal of any of the Insurances.

In the event that FCDO receives a claim relating to or arising out of the Services or this Contract, the Supplier shall co-operate with FCDO and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.
- 7.2 Except where FCDO is the claimant party, the Supplier shall give FCDO notice within twenty (20) Working Days after any insurance claim in excess of £10,000 relating to or arising out of the provision of the Services or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by FCDO) full details of the incident giving rise to the claim.
- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. FCDO Supply Partner Code of Conduct

Principles

The FCDO aims to create an inclusive culture of best practice with the delivery partners with whom it engages and which receive UK taxpayers’ funds. All Supply Partners should adhere to the overarching principles of the Supply Partner Code of Conduct (hereafter “the Code”).

Overarching Principles for Supply Partners

- ✓ **Act responsibly and with integrity**
- ✓ **Be transparent and accountable**
- ✓ **Seek to improve value for money**
- ✓ **Demonstrate commitment to poverty reduction and FCDO priorities¹**
- ✓ **Demonstrate commitment to wider HMG priorities²**

FCDO Supply Partner responsibilities

Supply Partners and their subcontractors (delivery chain partners) should ensure they have read and understood the Code and their required compliance level and seek clarification from FCDO where necessary. In particular, it is important that the Supply Partners and their subcontractors (delivery chain partners) understand any risks and have systems in place to manage them. The 3 compliance levels are:

Compliance Level 1 - Supply Partners with an individual contract value of £1m or above, or two or more contracts/grants with FCDO with a combined value of £5m or above;

Compliance Level 2 - Supply Partners with an individual contract value below £1m, or two or more contracts /grants with FCDO with a value of less than £5m;

Compliance Level 3 - Supply Partners with an individual Contract value, or component of a Contract/Grant, with a value below the EU contracting threshold. At this level Supply Partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks. These Supply Partners will not be monitored against the contractual KPIs.

Scope

This Code forms part of the FCDO’s standard contractual terms and conditions and full compliance and annual verification via a signed declaration, to be found at Annex 1b, is mandatory for contracted Supply Partners.

Adherence to the Code at the appropriate level is also a requirement for FCDO direct and delivery chain Supply Partners in receipt of funding. The FCDO will monitor Supply Partners in six priority areas as set out below using a set of Key Performance Indicators (KPIs) as referenced in Annex 1a and 1b.

1. Value for Money and Governance

Key Performance Indicators KPI 1 a - c

Value for Money and financial transparency is an essential requirement of all FCDO commissioned work. All Supply Partners must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Supply Partners must demonstrate that they are pursuing continuous improvement and applying stringent financial management and governance to reduce waste and improve efficiency in their internal operations and within the delivery chain. FCDO expects Supply Partners to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

Specific requirements include:

- ✓ Provision of relevant VfM and governance policies and a description of how these are put into practice to meet FCDO requirements (e.g. Codes on fraud and corruption, due diligence);
- ✓ A transparent, open book approach, which enables scrutiny of value for money;
- ✓ Strict adherence to all UK and in-country government tax requirements;
- ✓ Processes for timely identification and resolution of issues and for sharing lessons learned which might be requested by FCDO at any time.

2. Ethical Behaviour

Key Performance Indicators KPI 2 a- f

FCDO Supply Partners and their delivery chain partners act on behalf of the UK government and interact globally with country governments, other aid donors and their delivery partners, many stakeholders including citizens and directly and indirectly with aid beneficiaries. These interactions must therefore meet the highest standards of ethical and professional behaviour in order to uphold the reputation of the UK government.

Arrangements and relationships entered into, whether with or on behalf of FCDO, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by Supply Partner and delivery chain staff who:

- a) are directly involved in the management of a programme or procurement of services; or
- b) who engage with i) frontline FCDO staff ii) other deliverers of aid iii) beneficiaries (of aid)

Where those in a) and b) could be susceptible to undue negative or detrimental influence.

Supply Partners and their delivery chain partners must declare to FCDO where there may be instances or allegations of previous unethical behaviour by an existing or potential staff member or where there is a known or suspected conflict of interest. Where a potential or existing staff member has been employed by FCDO or the Crown in the

² <https://www.gov.uk/government/organisations/hm-treasury/about#priorities>

preceding two years Supply Partners and their delivery chain partner must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Supply Partners and their delivery chain partners must have the following policies and procedures in place:

- ✓ Development and proof of application and embedding of a Staff Recruitment, Management and Retention policy (which must address circumstances where there may be potential or actual conflict of interest and embedding of a Whistleblowing Policy)
- ✓ Ongoing monitoring of potential or existing personal, business or professional conflict of interest and their mitigation and management
- ✓ Ethical training for every staff member and staff updates in ethical working practices suitable to the development sector (e.g. UN Global Compact principles) including awareness of modern day slavery and human rights abuses
- ✓ Procedures setting out how, staff involved in FCDO funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance and any suspicions/allegations/concerns which relate to safeguarding to the FCDO Investigations Department at reportingconcerns@fcdo.gov.uk or on +44(0)1355 843747.

3. Transparency and Delivery Chain Management
Key Performance Indicators KPI 3 a – f

The FCDO requires full delivery chain transparency from all Supply Partners. All direct Supply Partners and their delivery chain partners must adhere to wider HMG policy initiatives including the support and capacity building of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

The FCDO recognises the critical value that downstream delivery partners contribute. Direct Supply Partners must engage their delivery chain partners in a manner that is consistent with FCDO’s treatment of its direct Supply Partners. This includes, but is not limited to: appropriate pricing of services; fiduciary and financial risk management processes; applying transparent and responsive measures where delivery chain partners underperform against the KPI areas; taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements. Direct Supply Partners must cascade the principles of the Code throughout their delivery chain to ensure FCDO ethical behaviour standards are embedded and maintained.

Specific requirements for direct Supply Partners include:

- ✓ Provide assurance to the FCDO that the policies and practices of their delivery chain Supply Partners and affiliates comply with the Code;
- ✓ Maintaining and sharing with FCDO up-to-date and accurate records of all downstream partners in receipt of FCDO funds and/or FCDO funded inventory or assets. This should map how funds flow from them to end beneficiaries and identify risks and potential risks along the delivery chain;
- ✓ Ensuring delivery chain partner employees are expressly notified of the FCDO ‘reporting concerns’ mailbox³ found on FCDO’s external website and of the circumstances in which this should be used;
- ✓ Publication of FCDO funding data in accordance with the International Aid Transparency Initiative (IATI)⁴
- ✓ Supply Partners shall adhere to HMG prompt payment policy and not use restrictive exclusivity agreements with sub-partners.

³ <https://www.gov.uk/government/organisations/department-for-international-development/about#reporting-fraud>

⁴ <http://www.aidtransparency.net/>

4. Environmental issues
Key Performance Indicators KPI 4 a – b

FCDO Supply Partners must be committed to high environmental standards, recognising that FCDO activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions. Supply Partners must demonstrate they have taken sufficient steps to protect the local environment and community they work in, and to identify environmental risks that are imminent, significant or could cause harm or reputational damage to the FCDO.

Commitment to environmental sustainability may be demonstrated by:

- ✓ Formal environmental safeguard policies in place;
- ✓ Publication of environmental performance reports on a regular basis
- ✓ Membership or signature of relevant environmental Codes, both directly and within the delivery chain such as conventions, standards or certification bodies (e.g. the Extractive Industries Transparency Initiative⁵).

5. Terrorism and Security
Key Performance Indicators KPI 5 a – d

FCDO Supply Partners must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of the Terrorism Act 2000, and any subsequent regulations pursuant to this Act.

FCDO Supply Partners must maintain high levels of data security in accordance with the Data Protection Act 1998 and any subsequent regulations pursuant to this Act, or new Act and with the General Data Protection Regulation (Directive 95/46/EC).

Specific requirements:

- ✓ Development and proof of application and embedding of a comprehensive Terrorism and Security Policy
- ✓ Development and proof of application and embedding of personal data processing processes within a Data Protection Policy
- ✓ FCDO Supply Partners must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme⁶. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All FCDO Supply Partners who manage aid programmes with a digital element must adhere to the global Principles for Digital Development⁷, which sets out best practice in technology-enabled programmes
- ✓ Ensure that FCDO funding is not linked to terrorist offences, terrorist activities or financing.

6. Safeguarding, Social Responsibility and Human Rights
Key Performance Indicators: KPI 6 a – d

Safeguarding, social responsibility and respect for human rights are central to FCDO’s expectations of its Supply Partners. Supply Partners must ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within complex delivery chain environments funded by FCDO. These practices include sexual exploitation, abuse and harassment; all forms of child abuse and inequality or discrimination on the basis of

⁵ <https://eiti.org/>
⁶ <https://www.gov.uk/government/publications/cyber-essentials-scheme-overview>
⁷ <http://digitalprinciples.org/>

race, gender, age, religion, sexuality, culture or disability. Supply Partners must place an emphasis on the control of these and further unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers and aid recipients. FCDO will expect a particular emphasis on the management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

Specific requirements:

- ✓ Development and proof of application and embedding of a Safeguarding Policy;
- ✓ Delivery of Social Responsibility, Human Rights and Safeguarding training throughout the delivery chain;
- ✓ Compliance level 1 Supply Partners must be fully signed up to the UN Global Compact⁸;
- ✓ Practices in line with the International Labour Organisation (ILO) 138⁹ and the Ethical Trading Initiative (ETI) Base Code¹⁰ are to be encouraged throughout the delivery chain;
- ✓ Policies to embed good practice in line with the UN Global Compact Guiding Principles 1 & 2 on business and human rights throughout the delivery chain are required, as detailed in Annex 2;
- ✓ Compliance level 1 Supply Partners to submit a Statement of Compliance outlining how the organisation's business activities help to develop local markets and institutions and further how they contribute to social and environmental sustainability, whilst complying with international principles on Safeguarding and Human Rights labour and ethical employment, social inclusion and environmental protection;
- ✓ Overarching consideration given to building local capacity and promoting the involvement of people whose lives are affected by business decisions.

Compliance KPIs and contractual checking mechanisms - FCDO Contracts

Supply Partner and delivery chain compliance checking processes will take place in accordance with the agreed compliance levels and the specific contractual clauses down the delivery chain, the FCDO shall undertake compliance checks.

Where appropriate, a plan setting out the Code of Conduct delivery methodology for the Supply Partner arrangements during the contract term may be jointly developed with the FCDO during Contract mobilisation.

Contractual Annual Compliance Declaration

Prior to Contract Award and thereafter on an annual basis at the end of each financial year, the Supply Partner is required to submit a Compliance Declaration in connection with the management of any FCDO Contract in place and on behalf of their delivery chain partners. Supply Partners should be aware that spot check compliance monitoring will take place to verify responses.

Supply Partner Compliance Declaration

Key:

Contractual Requirement:

X denotes full compliance 1 required
O denotes reduced compliance level 2, unless otherwise stipulated in contractual Terms of Reference

- Compliance Level 1**
Supply Partners with an individual contract value of £1m or above, or two or more contracts funded by FCDO with a combined value of £5m or above.
- Compliance Level 2**
Supply Partners with an individual contract value below £1m, or two or more contracts funded by FCDO with a value of less than £5m.

Compliance Level 3
Supply Partners with an individual contract value or component of a contract funded by FCDO with a value below the EU Threshold. At this level Supply Partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks but will not be monitored against the contractual KPIs.

UN Global Compact – Human Rights

Principle 1: businesses should support and respect the protection of internationally proclaimed Human Rights

Principle 2: businesses should ensure they are not complicit in Human Rights abuse

Organisations should do this by giving attention to vulnerable groups including women, children, people with disabilities, indigenous groups, migrant workers and older people.

Organisations should comply with all laws, honouring international standards and giving particular consideration to high risk areas with weak governance.

Examples of how suppliers and partners should do this are set out below:

<p>In the workplace</p> <ul style="list-style-type: none">• by providing safe and healthy working conditions• by guaranteeing freedom of association• by ensuring non-discrimination in personnel practices• by ensuring that they do not use directly or indirectly forced labour or child labour• by providing access to basic health, education and housing for the workers and their families, if these are not provided elsewhere• by having an affirmative action programme to hire victims of domestic violence• by making reasonable accommodations for all employees' religious observance and practices
<p>In the community</p> <ul style="list-style-type: none">• by preventing the forcible displacement of individuals, groups or communities• by working to protect the economic livelihood of local communities• by contributing to the public debate. Companies interact with all levels of government in the countries where they operate. They therefore have the right and responsibility to express their views on matters that affect their operations, employees, customers and the communities of which they are a part• through differential pricing or small product packages create new markets that also enable the poor to gain access to goods and services that they otherwise could not afford• by fostering opportunities for girls to be educated to empower them and also helps a company to have a broader and more skilled pool of workers in the future, and• perhaps most importantly, a successful business which provides decent work, produces quality goods or services that improve lives, especially for the poor or other vulnerable groups, is an important contribution to sustainable development, including human rights• If companies use security services to protect their operations, they must ensure that existing international guidelines and standards for the use of force are respected

1. Introduction

FCDO pursues our national interests and projects the UK as a force for good in the world. We promote the interests of British citizens, safeguard the UK's security, defend our values, reduce poverty and tackle global challenges with our international partners.

Against a backdrop of continued slow growth, capital market uncertainty, and worsening debt positions for many developing countries, the International Finance Division's (IFD) objective is to support countries on the path to sustainable financing;

Public Finance Resource Centre Terms of Reference

breaking the cycles of unsustainable debt and need for debt relief and developing green and resilient capital markets.

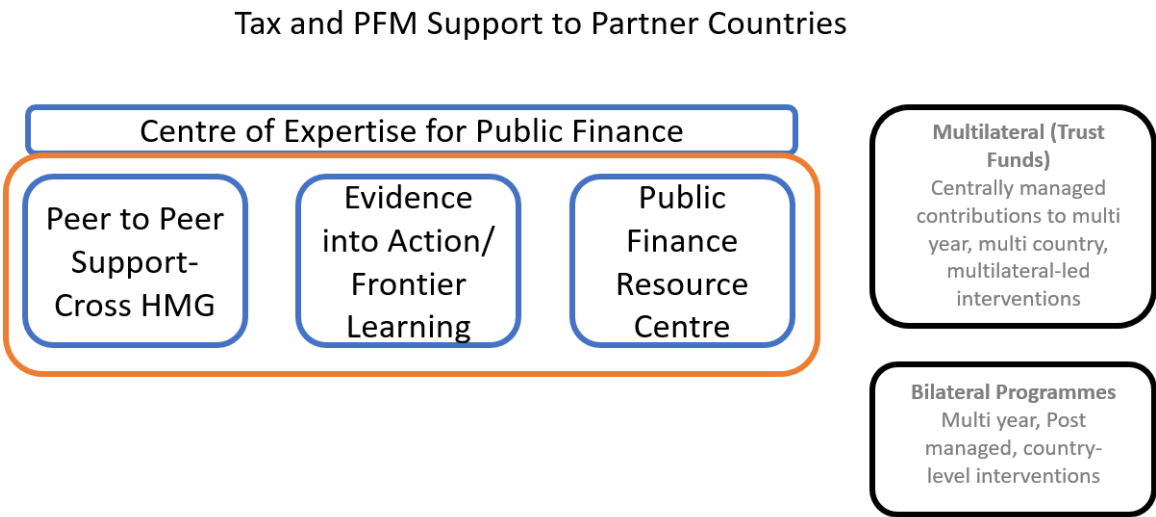

We will do this by supporting countries to improve revenue mobilisation and strengthening responsible private sector and international financing. We also seek a step change in the way public finances are transparently managed and accounted for - from debt management to expenditure and procurement, through to greater financial preparedness for major disasters.

In support of this objective the Public Finance and Tax Department (PFTD) within IFD is establishing a UK Centre of Expertise for Public Finance to help partner countries access technical expertise as part of HMG’s broader offer to developing countries. The Centre will provide access to world class peer-to-peer support, such as from HMRC, through to expertise from globally recognised UK institutions.

A new advisory offer, the ‘**Public Finance Resource Centre**’ has been developed as part of this Centre of Expertise (fig. 1). The Resource Centre is intended to mobilise flexible technical assistance more quickly than is currently available, responding to clear demand for such support from partner countries.

The programme budget is likely to fall within the range of £24 million to £65 million over a period of 7 years depending on demand and funding availability.

fig. 1

2. Objective

2.1 Windows of opportunity (e.g. associated with change of government or a peace settlement) can open rapidly and current delivery models struggle to respond in a

Public Finance Resource Centre Terms of Reference

timely way. The Resource Centre will enable the FCDO to respond quickly and flexibly to deliver high quality technical advice on tax, public financial management and broader macro-fiscal and debt management support in response to demand identified by FCDO Posts.

2.2 While responding fast to capitalise on windows of opportunity is a unique and important characteristic, there are other critical drivers that are needed for impact, including understanding the political economy context and the principal underlying causes of weak fiscal capacity, provision of deep context-specific expertise, and ongoing support on capacity and implementation. Therefore, some of the short-term interventions will be to increase our understanding of the underlying causes of weak fiscal capacity through scoping studies and political economy analysis, informing the development of longer-term interventions.

2.3 The desired Outcomes of Resource Centre are:

- More effective and equitable tax policy and administration, including:
 - More effective revenue administration systems
 - More evidence-informed policy decisions
 - More equitable tax collection
- More effective public financial management, including:
 - Increased debt management capacity in government
 - More effective public expenditure management systems
 - More effective management of public investments
 - Increased revenues are spent in an equitable and sustainable manner, consider inclusion and accessibility, and do not create or exacerbate barriers to inclusion.
 - Transparent and open procurement processes
- Improved transparency and accountability in public expenditure

3. The Recipient

3.1 Recipients of support will be:

- Partner country governments (e.g. Ministries of Finance, Public Procurement Agencies, Revenue Authorities and Supreme Audit Institutions) including sub-national government; and
- FCDO Posts (political economy analysis and scoping studies); and
- Regional organisations working on tax and public financial management.

3.2 It should be noted, at this point that the country/regional focus is not finalised as the model is designed to be responsive to demand and the Supplier must be capable of delivering the service to any chosen location at any point during the life of the Contract. The aim is for a global offer but with a more intensive offer in a few priority countries. An indicative list of priority countries, whilst not exhaustive, is as follows: Ethiopia, Ghana, Kenya, Nepal, Nigeria, Pakistan, Rwanda, Sierra Leone, Somalia. Written proposals will need to meet a range of criteria to assess whether

Public Finance Resource Centre Terms of Reference

a country should be supported with any technical assistance and capacity building interventions.

4 Scope

- 4.1** The scope of the Contract is wide ranging given the responsive nature of the programme. The Supplier will manage the delivery arm of the Resource Centre – identifying and mobilising flexible, demand-led technical assistance to ODA-eligible countries, in the form of short-term (up to 6 months), medium (6 to 12 months) and longer-term (including multiyear interventions) advisory support in the fields of tax, public financial management and broader macro-fiscal work, including debt management.
- 4.2** The Contract will include the delivery of interventions – made up of short-term, medium-term and long-term.
- 4.3** The Supplier will deliver the short-term interventions.
- 4.4** The Supplier will run competitions to select the sub-contractor who will deliver the medium and long-term interventions. The Supplier can participate in these competitions, subject to the conflict of interest provisions, outlined in [section 7](#) below, being adhered to.
- 4.5** The demand-led nature of the programme means that the Supplier will be required to be prepared to scale up and/or down throughout the Contract. This will apply to the number of live interventions, as well as the geographic coverage of interventions across the lifetime of the programme.

5 How the Resource Centre will operate in practice

The following is the current end-to-end process for the implementation of interventions, but it is expected that this will evolve over the life of the Contract [See also [Annex 1 Delivery Model](#)]

- 5.1** STEP ONE: Requests for Resource Centre support will be submitted by FCDO Posts through the Centres of Expertise email address or to the FCDO Resource Centre Team directly. The FCDO Resource Centre Team will engage with Post and the Regional Adviser (from the Public Finance and Tax Department) to ensure the request is fully understood and consider how best to support it.
- 5.2** STEP TWO: Where requests are deemed viable, Post will develop a written proposal using a standard template outlining the type of support required. This should include an estimate of the maximum cost of the work. FCDO Regional Advisers will support the development of the written proposal and quality-assure it from a technical perspective. The Development Director or Head of Mission will be required to give their approval to the written proposal before it is presented to the FCDO Resource Centre decision-making group. Proposed interventions must fit with the Post business plan.

Public Finance Resource Centre Terms of Reference

- 5.3 STEP THREE:** The FCDO Resource Centre decision-making group will consider the written proposal against assessment criteria (indicative criteria are set out in the business case and will be further developed by the FCDO Resource Centre Team). The FCDO Resource Centre Team will advise the Supplier to go forward with next steps once the decision to support the intervention in the written proposal is made. This will include agreement of the indicative maximum budget or a decision to change the indicative maximum budget.
- 5.4 STEP FOUR:** The Resource Centre Regional Advisers and Post will develop a draft Intervention Terms of Reference (Intervention ToR) with advice and support from the Supplier and the partner country government. Templates and processes to be used will be developed by the FCDO Resource Centre Team and the Supplier working together and be agreed upon by both parties during the Inception Period of this Contract (described below at 19.2). Each Intervention ToR will include specific results to be achieved, milestones, KPIs, duration, expertise required and indicate the budget for the intervention.
- 5.5 STEP FIVE (a):** For medium and long-term interventions the Supplier will provide draft competition documents including the Intervention ToR to the FCDO Resource Centre SRO (or their nominated representative) at least 10 days prior to the expected start of the competition. The SRO will review the documents and will raise any material concerns – such as, unclear or inadequately drafted Intervention ToR, exceeding agreed budget, criteria that predetermines a winner or if there is perceived bias. In cases where the SRO has concerns, the competition will be paused until these are addressed.
- 5.6 STEP FIVE (b):** For short term interventions the Supplier will provide an Intervention ToR to the FCDO Resource Centre SRO (or their nominated representative) at least 15 working days prior to the expected start of the intervention (unless a shorter timeline is agreed with the SRO). The SRO will review the Intervention ToR and will raise any material concerns – such as, unclear or inadequately drafted Intervention ToR, exceeding agreed budget, or if there is perceived bias. In cases where the SRO has concerns, the process will be paused until these are addressed. The Supplier will also provide a fully costed proposal using either the standard commercial cost proforma or an agreed template, including milestone payments, to the SRO. The SRO can request that the costed proposal is reworked until such time as it is capable of acceptance, and this must be finalised and agreed before the intervention can commence. Once accepted by the SRO, the Supplier will mobilise the intervention and the process for short term interventions can move to STEP EIGHT.
- 5.7 STEP SIX:** For medium and long-term interventions, the Supplier runs a fair competition across the network and compliant with the provisions in [sections 7 and 8](#) of this ToR.
- 5.8 STEP SEVEN:** Following evaluation of bids, the SRO will then be informed of the identity of the winner and the reasons for winning by the Supplier. The SRO is not required to approve the winning competitor. The SRO can, however, require the competition to be re-run if the SRO strongly suspects wrongdoing, bias or actual conflict of interest. A perceived conflict of interest would not be sufficient to

Public Finance Resource Centre Terms of Reference

require a re-run but can trigger a pause on the award of intervention and a review of whether the conflict is only perceived or actual. The SRO may take advice and views from the Post representative, partner country government, the Regional Adviser or other FCDO representatives as they see fit in their review of the result. If the SRO has no concerns, the Supplier will mobilise the intervention.

5.9 STEP EIGHT: Throughout the lifetime of each intervention, the Supplier will:

- Be responsible for effective and high-quality delivery of services which are either delivered directly or by its subcontractors;
- Lead Monitoring Evaluation Research and Learning (MERL) activities;
- Apply an inclusion lens to ensure all interventions consider gender and people with disabilities, applying the ‘do no harm’ principle and identifying entry points for strengthening inclusion.
- For medium- and long-term interventions, the Supplier will deliver formal progress reports to FCDO against an agreed timetable. At country-level, Post will maintain oversight of interventions for FCDO. The Regional Adviser will stay up to date on progress but has no formal oversight responsibility; and
- Make payment to subcontractors, in arrears, against pre-agreed milestones/payment schedule.

5.10 STEP NINE: On conclusion of each intervention, the Supplier will deliver Intervention Completion Reports to FCDO (meaning to the FCDO Resource Centre Team and colleagues at Post), within an agreed timeframe. Format of formal reporting will be finalised during the Inception Phase, and Intervention Completion Reports should include, at a minimum, results achieved against the Intervention ToR and lessons learned. For more information on Reporting, please see [section 22](#), below.

6 The Requirements

The expectation is that the Supplier will:

- 6.1** Undertake rapid mobilisation of in-house experts for short-term interventions – ideally within a period of 6 weeks of the Intervention ToR being approved.
- 6.2** Establish and manage a network of suppliers to respond to requests for medium and long-term interventions (6 months or longer), based in-country¹ as appropriate. Procuring and mobilising medium and long-term interventions, ideally from the already established network or outside of the network if there is insufficient experience or competition from the network, within a period of 12 weeks of the Intervention ToR being approved.

The Supplier will:

- Propose a dynamic sourcing approach to establish a network of suppliers to be subcontracted to deliver interventions for the Resource Centre. The approach will allow new suppliers to be appointed to join the network at any point during the Contract. The network should collectively be able to cover all geographical

¹ Longer term and multi-year support will be provided to a relatively small group of countries.

Public Finance Resource Centre Terms of Reference

areas of interest and all areas of expertise and be prepared to respond to requests for work as these arise. FCDO encourages maximising the use of advisory support from suppliers from partner countries and regions through inclusion of local suppliers and consultants in the network.

- Propose a transparent and objective approach for identifying subcontractors within the network for each medium/long term intervention. We expect the Supplier to maintain competitiveness across the network, although we do recognise that on occasion direct award may be appropriate². The Supplier will not be excluded from bidding for Resource Centre medium/longer-term interventions nor TA procurements outside of the Resource Centre that may be influenced by short term Resource Centre interventions. However, we require the Supplier to put in place specific measures, controls and governance to manage the conflict of interest as detailed in section 7. The Supplier must also consider restrictions placed by section 8 as well as paragraph 12.1012.10 and the Supplier must ensure subcontractors are made aware of this.
- The FCDO Resource Centre SRO will be involved in endorsing the sourcing approach. Typically, this may include having a representative on the evaluation panel, observing moderation, or auditing the final result but this list is not exhaustive.
- Seek FCDO Resource Centre SRO ratification/ no-objection of chosen subcontractors for individual interventions prior to confirmation of outcome and contracting. The FCDO reserves the right to request a re-run of the competitive process (almost certainly with modifications to the process) or a cancellation of the award, in circumstances where it has reason to believe that the process has been deficient. Although not exhaustive this would likely be due to evidence or appearance of bias, clear conflict of interest, poor value for money, change in priorities, change in budgets, or another reason which renders the competition defective in a material respect. If the reason for a requirement to re-run or cancel the competition is out of control of the Supplier, the Supplier will still be reimbursed for the work undertaken at that point.
- Complete the supplier due diligence assessment, contract and hold responsibility for the performance of subcontractors within the network, making payments to subcontractors based on satisfactory performance against agreed Intervention ToR and results frameworks.

6.3 Work effectively with the FCDO Resource Centre Team (including Regional Advisers) and FCDO Posts in refining Intervention ToR and through reporting, monitoring, evaluation and learning in the delivery of each intervention.

6.4 Work flexibly, being prepared to scale up and down at short notice while maintaining quality of delivery - responding quickly to country level opportunities as they arise and equally to downsize/pause/withdraw should this be deemed appropriate by the FCDO Resource Centre Team.

² Direct award may rarely be appropriate where specific technical expertise is held by one individual / organisation only or where the government or Post makes a specific and reasonable request for a particular supplier.

Public Finance Resource Centre Terms of Reference

6.5 Monitor and report on the gender balance in its teams and take reasonable actions to promote participation of women throughout interventions, including in technical assistance teams and through meaningful engagement with women's organisations to strengthen outputs.

6.6 Monitor and report on disability inclusion in its teams and take reasonable actions to promote participation of people with disabilities throughout interventions, including in technical assistance teams and through meaningful engagement with Organisations of Persons with Disabilities (OPDs)/ people with disabilities to strengthen outputs.

7 Supplier Conflict of Interest

7.1 In recognition that the Supplier is allowed under the terms of the Contract to compete for medium- and long-term interventions, whilst also running the competitions, there is an inherent risk of a potential, perceived or actual conflict of interest. This section along with the Suppliers proposals at tender stage are to mitigate against all conflicts of interest to the satisfaction of FCDO and failure to do so would be a material breach of the Contract.

7.2 The Supplier must put in place safeguards to protect against conflict of interest, and these must be in place prior to the Supplier commencing work on the first Intervention ToR. This includes any safeguards proposed by the Supplier that enhance the minimum requirements specified in this section.

7.3 The Supplier must review these safeguards on at least an annual basis and make proposals to improve them wherever possible.

7.4 The Supplier must ensure robust ethical walls are put in place between the Core Team running any procurement for the Contract and any potential entity from their organisation (to include all sister companies and parent companies) who may be bidding for the work. These must be presented to the SRO prior to the Supplier starting work on the first Intervention ToR and must be maintained throughout the term of this Contract.

7.5 The Supplier is required to monitor for any actual, potential or perceived conflict of interest, notifying FCDO where such conflict arises, submitting a proposal on how this conflict will be managed, agreeing with FCDO how to manage the conflict, and managing the conflict as agreed. Additionally, an indicative matrix of issues and proposed approaches is to be agreed during the Inception Phase.

7.6 The Supplier must enter into an agreement to comply with this Conflict of Interest provision and failing to do so would be considered a material breach.

8 Capping of Supplier Delivered Interventions

8.1 To further safeguard against perceived bias in the Supplier running competitions and also being capable of bidding for the interventions, a cap or maximum

Public Finance Resource Centre Terms of Reference

threshold will be in place measured against the total value of live medium and long-term interventions. For clarity, this excludes short term interventions.

- 8.2** The total value of all medium and long-term live interventions that are delivered by the Supplier (this includes any value the Supplier receives whilst working as a subcontractor and any sister or parent company to the Supplier), must not exceed 20% of the total value of all live medium and long-term interventions at any one time (to be known as the “Supplier Portfolio Ceiling”). A live intervention is defined as an intervention that has commenced and is not concluded. An intervention is considered to be closed and therefore no longer live when there is an accepted Intervention Completion Report. Accepted here means that it has been approved by FCDO in line with the process at 22.1.
- 8.3** The Supplier Portfolio Ceiling will not be invoked until 9 months after the Contract Commencement Date to allow a portfolio of interventions to build.
- 8.4** If the Supplier Portfolio Ceiling is breached the FCDO will invoke the following, which will be reviewed on at least an annual basis;
- a) The Supplier will not be allowed to bid for any medium- and long-term interventions until they are below the ceiling; or
 - b) The FCDO, by considering the nature of the live and future medium- and long-term interventions, may increase the Supplier Portfolio Ceiling for a period to be decided solely by the FCDO. FCDO has sole discretion on reducing or increasing the threshold.
- 8.5** At no stage will the Supplier Portfolio Ceiling be lower than 20% of the value of all live medium- and long-term interventions.

9 The Technical Assistance

The Technical Assistance (TA) will be delivered across a range of tax, PFM, macro-fiscal and debt management areas. While FCDO cannot foresee all interventions that the Supplier will be required to deliver, a non-exhaustive list of interventions that the Supplier is expected to be capable of delivering, is set out in Table 1 below:

Public Finance Resource Centre Terms of Reference

Table 1

Thematic area	Examples of interventions that the Supplier is expected to be capable of delivering. The actual range of interventions will be wider than this and it is likely some interventions will not fall into one of these categories. The supplier and subcontractors should be prepared to deliver all reasonable interventions.

10 Core Team Structure and Human Resources

10.1 The Supplier's Core Team will be responsible for day-to-day leadership and management of the delivery arm of the Resource Centre. The skills and experience provided by the Core Team will be required throughout the Resource Centre's implementation, regardless of the current portfolio of interventions.

10.2 The Core Team operational inputs will include:

- Delivery of interventions: Understanding the political economy context
- Supporting the drafting of Intervention ToR for centrally approved interventions alongside the Post team, regional advisers and partner governments.
- Sourcing a VfM solution for the intervention that meets the Intervention ToR.
- Contracting with intervention delivery partners as required, dependent on sourcing route.
- Setting appropriate incentive mechanisms to drive the overall outcomes for the performance of the Contract as the Supplier is ultimately responsible for the successful delivery of each intervention.
- Monitoring and evaluation for each intervention.
- Intervention Completion Reports.

Establishing and maintaining a global network of technical experts and specialist subcontractors to deliver interventions, recognising the extensive country coverage and niche requirements of the various interventions.

10.3 The Core Team strategic inputs will include:

- Understanding FCDO policy priorities and specialist sectoral and legal frameworks at international and country levels, that impact public finance, tax, macro-fiscal and debt management regimes. Using this understanding to deliver appropriate interventions and value for money at all times
- Support to FCDO on a strategic level through MERL/knowledge management work, contributing to focussed discussions on strategic direction at both broader programme and country levels as part of the Programme Board and Country Oversight Committees and/or other governance boards and groups. Representing the Resource Centre – as a pillar of the Centre of Expertise for Public Finance. The detail of this representation will be agreed with FCDO during the Inception Period and reviewed on an ongoing basis and at least annually.

10.4 We would expect the Core Team to consist of, but not be restricted to:

Public Finance Resource Centre Terms of Reference

- **Project Director** holding ultimate contractual responsibility to FCDO, including overall quality assurance of deliverables. The Project Director should have proven expertise and experience of successful leadership, direction and quality assurance for international development programmes, with demonstrable results and experience in some of the fields of PFM, tax, macro-fiscal and debt management.
- **Team Leader** to lead the Core Team and be responsible for Network management, for deliverables, and for achieving value for money throughout the Contract. The Team Leader must have a strong track record in leading and delivering contracts in some of the fields of PFM, tax, macro-fiscal and debt management in developing countries with demonstrable results. This will include, but not limited to, knowledge and experience of working with international development programmes and developing country Revenue Authorities and/or Ministries of Finance. They must have experience and expertise in the successful delivery of projects - mobilising at pace and running competitive processes, with agile delivery through a broad range of subcontractors, responding and adapting to stakeholder priorities across multiple countries. They should have clear knowledge and understanding of political and economic context for the indicative priority countries/regions detailed in this Terms of Reference.
- **Programme Management** support to the broader delivery and reporting throughout the Contract.
- **Monitoring, Evaluation, Research and Learning personnel** to support MERL of individual interventions, and adaptive management/reporting/learning at the broader programme (as set out in Section **Error! Reference source not found.**5 [Monitoring, Evaluation, Research and Learning](#)). The MERL personnel should have relevant experience in developing MERL and knowledge management processes in comparable programmes, where technical assistance and capacity development are the main programme outputs.
- **Technical Expert Personnel** to provide Tax and PFM advisory inputs for setting up the Network of suppliers, Intervention ToR development and sub-contractor identification. Across the Technical Expert Personnel must have: relevant experience of what works, and doesn't, in terms of technical assistance/capacity development of PFM, tax, macro-fiscal and debt management through programmes in developing countries; an understanding and awareness of the different thematic areas where support might be required; knowledge of or access to knowledge/experience of gender and disability inclusion and public finance; experience and understanding of approaches to political economy analysis and how to use this analysis in interventions; and, ideally, a wide network of subcontractors.
- **Commercial Delivery Personnel** with the requisite skills and experience to undertake commercial processes to appropriately compete interventions, have market and category expertise and contract management expertise.

10.5 For clarity, the Leadership Team consists of the Project Director and the Team Leader, and these individuals will be regarded as Key Personnel. Other Key

Public Finance Resource Centre Terms of Reference

Personnel will be defined as other members of the Core Team that lead the disciplines set out above.

10.6 Given the Resource Centre is demand led, and we cannot at this point specify how many interventions will go forward for the Supplier to procure and manage on behalf of the FCDO, we recognise that the size and structure of the Supplier's Core Team will vary to ensure Value for Money over the Contract lifetime. We would therefore expect the Supplier to draw on additional people with relevant expertise - referred to here as the **Flexible Resource Pool** - as and when the volume and complexity of work in the Core Team requires this.

10.7 It should be noted that in-house **Deployable Technical Delivery Personnel** brought in to deliver short-term interventions will be treated as separate to the Core Team and costed against individual interventions.

11 Network Management

11.1 The Resource Centre delivery arm will be implemented by the Supplier who will set-up and manage a network of specialist subcontractors and consultants.

11.2 The Supplier will be responsible for ensuring the effective management and implementation of the delivery arm of the Resource Centre, awarding contracts to the network, primarily through a competitive process to deliver the programme's interventions.

11.3 The Supplier will be solely accountable to FCDO for the delivery of each Intervention ToR and responsible for subsequent payment to the subcontractors. For the duration of each intervention, the Supplier will be responsible for management of subcontractors in terms of timeliness and quality of delivery. The payments that the Supplier makes to its subcontractors for interventions will be on the basis of the subcontractors meeting agreed milestones to the standard expected. FCDO will pay the Supplier based on agreement that a payment milestone has been achieved successfully.

12 Term

12.1 The initial term of this Contract will be for 48 months from the Commencement Date with options of two extensions of up to 36 months each.

12.2 Extensions: Each extension option of up to 36 months will be at FCDO's sole discretion. In deciding whether the Contract should be extended, FCDO will have regard to the following non-exhaustive list of considerations:

- (a) performance based on the Review Points in line with [12.4](#);
- (b) ongoing future demand for interventions;
- (c) interventions continuing to be live at the end of the term;
- (d) the programme continuing to be an FCDO priority and aligned to geographic and thematic strategies;
- (e) FCDO affordability assessment;

Public Finance Resource Centre Terms of Reference

- (f) Any other scale up considerations listed at [17.2](#)
- (g) available funds.

The second extension will also be subject to a business case addendum being approved.

The first extension will be a time only extension, whilst the second extension may have additional funding of up to £28 million. FCDO will seek costed proposals from the Supplier (technical/commercial) should FCDO decide to implement any extension.

12.3 All costed proposals must not breach the maximum rate cards and the day rates of staff in the Core Team must be no greater than those tendered, save for any agreed increases in line with [12.9](#).

12.4 Review Points: FCDO or their independent reviewer will conduct a review of the Supplier's performance and operation of the Contract at the following points in time (to be known as Review Points):

- **Contract** Mid-term review point, 24 months after Contract commencement;
- Pre-First Extension – at around 42 months from the commencement date following an independent **Programme** mid-term review which will inform whether the FCDO takes up the first extension;
- Pre-Second Extension – up to 6 months prior to the first extension expiring the FCDO will conduct a further review which will inform if the FCDO takes up the option for the second extension.

12.5 Without prejudice to FCDO's rights to terminate the Contract at any time pursuant to clause 43 of Section 2, FCDO shall consider whether to exercise its right to terminate this Contract pursuant to clause 43 of Section 2 (and, if appropriate, clause 44 of Section 2), or to scale up or scale down the Contract in accordance with Section 17 below, following each Review Point.

12.6 Continuation of the services after the Review Points will be at FCDO's sole discretion based on the following non-exhaustive list of considerations:

- a. agreement between FCDO and the Supplier on the deliverables; and
- b. satisfactory performance of the Supplier to date; and
- c. progress of the Supplier against the specified outputs; and
- d. ongoing demand for interventions; and
- e. the Contract and programme remain aligned to FCDO priorities; and
- f. availability of funding.

12.7 A recommendation on the continuation of services will be made by the SRO to the Senior Management Team in PFTD who will take the final decision.

12.8 In the event the FCDO chooses to terminate the Contract pursuant to the T&Cs following a Review Point, the Suppliers Exit Plan will be implemented, and costs must be in accordance with clause 46 of Section 2 and relate to the Exit Plan where

Public Finance Resource Centre Terms of Reference

clause 43 or 45 apply or where this would be the natural expiration of the Contract the costs of the Exit Plan only will apply.

- 12.9** At each formal Review Point there will be an opportunity for both parties to review the impact of external factors on cost – typically this will be inflation and exchange rate fluctuations. Any increase or decrease must be fully justified by either party. Failure to agree a change may result in termination of the Contract. To ensure consistency – inflation and exchange rates will be baselined on the published rates against widely recognised and published indices at the time of the Supplier submitting their tender proposal.
- 12.10** The independent programme review at the mid-term of the Programme (42 months) and, potentially prior to the utilisation of the second extension period, will be delivered by a third-party MERL supplier who will be appointed separately to this Contract. The Supplier and “Key Subcontractors” (those who have benefited from more than 5% of the spend of the Contract at that moment in time) will be excluded from the competitive process to select the MERL supplier. The Supplier and its subcontractors will be expected to work collaboratively with the third-party MERL supplier and not withhold information from them unreasonably.
- 12.11** Any auditor appointed to this programme will be appointed in the same manner as described above or they will be an internal HMG resource. The Supplier and its subcontractors will be expected to work collaboratively with any auditors and not withhold information from them unreasonably.

13 Budget

- 13.1** The Programme has business case approval for a budget of up to £65 million over 84 months (being the initial Contract term of 48 months and a possible first extension of 36 months); this will include all costs associated with this Contract (including interventions and local taxes), but also other programme related costs such as external legal advice, independent reviews and audit (this list is not exhaustive). The expectation is that a lower proportion of this budget will be spent in the initial term (48 months).
- 13.2** The budget for the potential second extension of 36 months is expected to be up to £28 million and will be subject to approval of a Business Case Addendum.
- 13.3** As this programme is demand-driven from Posts and partner countries it is very difficult to predict activity beyond 24 months in most cases. Indicative budgets for 23/24 – 24/25 are set out in the table below. Outer year budgets will be subject to future funding availability.

Financial Year	Apr 23 – Mar 24	Apr 24 – Mar 25
Indicative budget (Including Supplier Core Team costs and Interventions)	£2m	£4m

14 Core Team Costing

Public Finance Resource Centre Terms of Reference

- 14.1** Given the Resource Centre is demand led, and we cannot at this point be firm on how many interventions will go forward for the Supplier to procure and manage on behalf of the FCDO, the size and structure of the Suppliers Core Team will need to vary to ensure Value for Money over the Contract lifetime. We are therefore proposing that bidders present Core Team resources and costs that will deliver the requirements of this ToR against the initial pipeline of work at Annex 6 (Year One Indicative Pipeline). For absolute clarity, the Core Team resource and costs will not include those required for the interventions themselves. The size and structure of the Core Team and any associated costs will consider the volume, complexity and Supplier inputs required to deliver the requirements outlined in this ToR.
- 14.2** For evaluation purposes and for year one, the resource and costings provided at tender proposal stage will be assumed to be the same for the entirety of the Contract. These costs and core team structure will also form the baseline for future annual reviews – no Core Team gross day rate can be increased other than in line with [12.9](#) and all future proposals must be set against the original baseline gross day rates provided.
- 14.3** On an annual basis the FCDO will provide the Supplier with a pipeline of work. Based on this and the performance of the current year, the Supplier will provide the FCDO with a costed proposal for the Core Team. This must be evidenced against the current and future year along with a full resource plan. The FCDO will review the proposal and revert with expected changes within two weeks of receiving the proposal until such point as all parties are in agreement. Failure to agree may lead to early termination of the Contract.

15 Core Team Flexible Pool and Changes in the Pipeline

- 15.1** The FCDO recognises that the pipeline is subject to change both up and down. In the event the pipeline reduces, in either number of interventions or complexity, during the year in question, the Supplier will provide a revised costed proposal for a reduction in Core Team resource and cost.
- 15.2** If demand increases, either in number of interventions or complexity, the Supplier will bring in additional resource from their Core Team Flexible Pool following agreement on a costed proposal. The day rates of individuals must comply with the Core Team Flexible Pool Maximum Rate Card in that the gross day rates must be less than or equal to the rates submitted at the time of the tender proposal.
- 15.3** The timelines and process for making these changes will be expected to be agreed within one month with each party responding within one week with proposals and counter proposals. Failure to reach agreement may lead to termination of this Contract.
- 15.4** ‘Intervention’ is defined as an activity that requires delivery by the Supplier/sub-contractor, against a single set of Intervention ToR. Interventions will be costed on a case-by-case basis, following a competitive process for medium and long-term interventions, and on a costed proposal from the Supplier for short term

Public Finance Resource Centre Terms of Reference

interventions. These interventions (long-term, medium-term or short-term) do not form part of the Core Team costs. The costs will be a pass-through cost and no other costs, such as management costs, profit or NPAC, will be added by the Supplier as these will be included in the Core Team costs as described above.

16 Costing of Interventions

- 16.1** For each region in which interventions are to be delivered, there will be a maximum rate card ("Regional Maximum Rate Card") in operation that will be used to ensure day rates maintain value for money. Day rates are expected to be generally lower than the maximum rates, but cannot go above the Regional Maximum Rate Card, and these will be presented to FCDO for each intervention in a transparent manner.
- 16.2** All Regional Maximum Rate Cards are to be set at the gross level and there will be no management fees or other costs added by the Supplier.
- 16.3** Short term interventions will be delivered by the Supplier or their chosen subcontractor. The Supplier must provide the FCDO PRO with a costed proposal which must be agreed by the SRO.
- 16.4** Medium- and long-term interventions will be subject to competition by the Supplier across the supplier network and the most competitive (quality and cost) costed proposal, that complies with the relevant regional rate card, will be presented to the SRO for approval.
- 16.5** Each intervention must include a number of payment milestones throughout the life of the intervention that are clear and measurable. FCDO suggests having at least one payment milestone every two months for regular reporting, financial forecasting and cashflow for the supplier network.

17 Scale Up, Scale Down and Change of Scope

- 17.1** The Supplier shall commit to being fully prepared in the event any decision is made to scale up (increase) or scale down (decrease) or change the scope of the Contract. This is vital for the Resource Centre programme as the Supplier may be required to operate in a range from approximately £25 million up to £65 million over 7 years of the programme (being the original Contract term and the possible first extension period). The Supplier will also need to be prepared to scale up in the event the second extension period is utilised.
- 17.2** Scale up or down and change of scope will be triggered by a range of circumstances in addition to 17.11. The following is not an exhaustive list of examples:
- a) Examples of reasons for scale up: (i) significant increase in the volume of approved written proposals from Posts, (ii) the increase of the number of live interventions, (iii) increasing focus on specific countries, (iv) additional funding being made available, (v) the programme is having a strong impact and has the potential to yield better results (determination

Public Finance Resource Centre Terms of Reference

- at FCDO's discretion), (vi) a change in FCDO and/or HMG priorities (such as a change in geographic or thematic focus), (vii) the scale up is in line with the aims of the programme, (viii) the scale up is shown to be deliverable (determination at FCDO's discretion).
- b) Examples of reasons for scale down: (i) significant decrease in the volume of approved written proposals from Post, (ii) the decrease of the number of live interventions, (iii) the decrease in the range of countries covered or reduction in focus on specific countries, (iv) budgeting constraints, (v) a change in political landscape, (vi) a change in FCDO and/or HMG priorities (such as a change in geographic or thematic focus), (vii) dissatisfaction with supplier performance (determined at FCDO's discretion). Note that T&Cs provisions relating to underperformance will be applicable in parallel), etc.
- c) Examples of reasons for a change of scope: (i) there is a change in FCDO and/or HMG priorities (such as a change in geographic or thematic focus), (ii) the supplier underperforming (determined at FCDO's discretion), (iii) due to political sensitives in some countries, (iv) opportunities not foreseen but still in the wider scope of the programme. Scale up and scale down and change of scope will also trigger a review of the Core Team size.

17.3 The Supplier will be capable of scaling interventions up or down and changing scope, as required by the FCDO. This will trigger a review of the milestones and budget of the intervention and a review of the Core Team costs.

17.4 All scale up, scale down or change of scope decisions will be at the sole discretion of FCDO, and no compensation or damages will be due. FCDO will give at least 14 days notice of any scale up, scale down or change of scope decision and during this time the Supplier will agree a proposal for the scale up or down to be enacted immediately following this period or at a time and date agreed with the SRO.

18 Constraints and dependencies

The number of interventions and value of the Contract will be dependent on/constrained by:

- In-country/ Post demand for Resource Centre services – we are confident that there is significant demand for services from outreach to FCDO Posts during the design phase of the programme.
- The number of requests meeting criteria for support – detailed criteria are set out in the [Business Case Annex](#). These criteria will be further developed by the FCDO Resource Centre Team.
- Availability of FCDO funding could be a constraint. As set out in [section 13](#) above, the budget is dependent on securing funds across and during Spending Review periods.

19 Inception Phase:

Public Finance Resource Centre Terms of Reference

19.1 We envisage a short, 2-month, inception phase for the Supplier to build the pre-approved supplier network; for the Supplier and FCDO to confirm the final KPI measurable indicators against which progress will be reported to Cabinet Office on a quarterly basis; and to take forward development of Intervention ToR for the initial set of pre-approved proposals.

19.2 During the Inception Phase FCDO and the Supplier will agree how competitions, for medium- and longer-term interventions, will be run, including how competition documents will be drafted, by whom, typical key criteria and reporting requirements. This will then be reviewed at least annually.

20 Mobilisation requirements

We envisage that FCDO will have pre-approved written proposals ready by Contract commencement. Therefore, as part of the bidding process, suppliers are required to identify the specific Team Leader and core project team members who would be responsible for delivery and quality assurance of Contract outputs and financial management.

21 Payment and Performance.

21.1 The supplier will be contracted under a performance-based payment model.

21.2 Key Performance Indicators (KPIs): KPIs will be used to monitor the performance of the Supplier on a quarterly basis, and will include assessment of the amount, quality, timeliness, and relevance of the outputs. Some of the information required for the KPIs will require feedback from recipients. FCDO and the Supplier will agree methods of assessment against indicators that require further clarity during the Inception Period. Agreement must be in place by the end of the inception period otherwise FCDO will have the right to terminate this Contract. These will then be reviewed on an annual basis and agreement on any changes must be reached within the first month of each Contract year.

21.3 100% of Supplier Core Team costs (fees and expenses) will be paid quarterly in arrears based on satisfactory performance against key performance indicators. FCDO reserves the right to withhold up to 25% of the Core Team's fees where KPIs are not being met unless resolved to FCDO satisfaction within 10 days of receiving feedback from FCDO on the KPI assessment.

21.4 The core framework for the KPIs is set out in the [KPI Annex \(Annex 2\)](#). Each KPI will be assessed on a scale of 1-6 (as defined in Annex 2) and multiplied by the relevant weighting for a total score out of 600 (as outlined in the table in Annex 2). The KPI sub criteria will carry equal weight for each KPI unless a sub criterion is not applicable in a particular quarter, in which case the weighting will be distributed proportionately across the remaining sub criteria – these may be further refined as defined at 21.2. The [KPI Payment Mechanism](#) (in Annex 2) details the proportion of the 25% fees at risk to be paid based on the outcome of quarterly KPI assessments. An illustrative example is provided at Figure 2 in Annex 2.

Public Finance Resource Centre Terms of Reference

- 21.5** In such cases where a proportion of fees is to be withheld following KPI assessment of the previous quarter, and where the fees have already been paid, subsequent months fee payments will be adjusted down accordingly.
- 21.6** If the **Supplier is scored at Underperformance (score of 100-299) or Serious Underperformance (score of 0-99) against the KPI Payment Mechanism Table in Annex 2, they must agree a Remedial Action Plan with FCDO** to address the poor performance against the KPIs. In the event that the Supplier is scored in the Underperformance or Serious Underperformance level against the KPI Payment Mechanism Table for two consecutive quarters, this will be a material breach and FCDO will have the right to terminate this Contract.
- 21.7** If the Supplier is scored at a 3 or below against the KPI Scoring Methodology in Annex 2 for any individual KPI for two consecutive quarters, they must agree a Remedial Action Plan with FCDO to address the poor performance against the specific KPI(s). In the event that the Supplier is scored at a 3 or below against the KPI Scoring Methodology in Annex 2 for any individual KPI for three consecutive quarters, this will be a material breach and FCDO will have the right to terminate this Contract.
- 21.8 Reimbursement for individual interventions**, fees and expenses will be made in arrears to the Supplier, within 30 days, on receipt of invoice and on the basis of satisfactory performance against agreed **Payment Milestones**, as set out in each Intervention ToR.³ FCDO reserves the right to withhold payment of up to 100% of these costs until any performance-based issues are resolved.
- 21.9** Intervention outputs will take the form of milestones which will be submitted in a format similar to the table below. Payment will be made on the completion of milestones (“Payment Milestones”) which meet the agreed Milestone Acceptance Criteria to be determined before each quarter commences:

Mile-stone No.	Deliverables	Milestone Acceptance Criteria	Milestone Date	Customer Responsibilities	Milestone Payments
		<i>[Criteria to be agreed prior to delivery on a quarterly basis for Workstream activities to be delivered]</i>	<i>[Deadline to be agreed prior to delivery commencement]</i>		

22 Reporting

22.1 For each intervention:

- The Supplier will provide quarterly progress reports for all interventions over 3 months.
- The Supplier will provide an Intervention Completion Report (format to be agreed with FCDO during the Inception Period) within 1 month after the end of each intervention which will be reviewed by FCDO within two weeks and either

³ Including where delivery falling short of milestones is justified (e.g. limited access to government held data)

Public Finance Resource Centre Terms of Reference

accepted or feedback provided for rework. Any rework timescales will be agreed on a case-by-case basis but either party will take no longer than two weeks to rework or review and feedback.

22.2 Recipients (as set out in clause 3) will also be given the opportunity to provide feedback as part of the reporting process at the same time as Supplier reporting is due.

22.3 The Supplier will be expected to provide significant input to the Resource Centre annual reviews across the Contract lifetime, specifically on results reporting against the programme Logframe and how they feed into the overall success of the programme.

23 Financial Management:

23.1 The Supplier must ensure full compliance with the latest FCDO policy and procedures for any third-party expenditure, which could be updated at any time during the contractual period.

23.2 All fees proposed should cover the cost of salaries, overseas allowances, leave allowances, bonuses and relevant insurance policies.

23.3 It is expected that the Supplier may be required to provide advance funding from their own resources (for mobilisation/set up costs etc.) which will be reimbursed by FCDO based on the payment methodology.

23.4 The Supplier will be responsible for monitoring and forecasting all spending and be fully accountable to FCDO for all expenditure:

- The Supplier will provide updated forecasts for the subsequent 3 months when providing quarterly Core Team invoices for payment.
- The expectation is that variance between forecasts and actuals will fall within 5% and not exceed £50,000 in any given month. The Supplier will notify FCDO of any forecast adjustments that exceed this expectation as soon as identified. The supplier will not be scored down where such forecast adjustments are justified within the parameters of the Contract.

23.5 The Supplier must operate within the financial plan as per their proposal and subsequent reviews as set out at 12.9. No unauthorised deviation will be accepted, and any overspends will be met by the Supplier.

24 Value for Money

24.1 The Supplier must allow for development of a Value for Money (VfM) framework in its bid and for its use throughout the Contract.

24.2 The VfM framework will cover both Supplier and Subcontractor costs, and will include indicators covering economy, efficiency, effectiveness, equity, and cost effectiveness, as defined in FCDO's Approach to Value for Money (see **Annex 7**). The VfM framework should be co-created alongside the logical framework. This

Public Finance Resource Centre Terms of Reference

will help ensure they are complementary, do not overlap and together provide a strong basis for managing performance.

24.3 VfM indicators will be a combination of quantitative metrics and qualitative indicators. Milestones and targets will be set for indicators and reported on in Annual Reviews.

25 Monitoring, Evaluation, Research and Learning (MERL)

25.1 The Supplier is required to design and start implementation of a robust and comprehensive Monitoring, Evaluation, Research and Learning (MERL) process in the first 6 months of the Contract. The purpose of the MERL approach will be to support:

- Learning both within individual interventions and also across stakeholders involved in the centre to meet stakeholders' needs;
- Provide evidence of performance and what is and isn't working well to allow FCDO and any third-party to complete annual and mid-term reviews; and
- Adaptive management by FCDO and the Supplier aimed at enhancing effective operationalisation of the Delivery Model found at Annex 1.

25.2 Design of the MERL approach in the first six months should include:

- Developing the Centre's overall logframe, or similar results framework, and ensuring that reporting against it will adequately support FCDO's annual and midterm reviews. The logframe should include objectively verifiable indicators, baselines for the indicators, means of verification against indicators, milestones, and verifying assumptions with FCDO. It should also be supported by an agreed schedule for reporting against the logframe.
- An approach to be used as part of Intervention ToR development (see Delivery Model at Annex 1) to ensure MERL needs within individual interventions are systematically considered and MERL plans are funded and realistic.
- Collating a library of: (i) information around partner government tax and public finance regimes; and (ii) what works, and doesn't, and in which contexts given the Centre's Delivery Model; and (iii) inclusion evidence base (e.g. thematic briefs). Evidence collated should then be used to identify key evidence gaps that could be filled through the MERL approach at Centre level and in the overall learning strategy.
- The learning and evaluation strategy that will be implemented. This strategy should draw on both evidence generated by the Centre's own MERL work but also wider research and facilitate information sharing with both key stakeholders within FCDO and identified domestic and international audiences.
- A Learning and dissemination plan.

26 Risk Management

26.1 Bids should include details of how risks will be managed. Types of risks considered should include fiduciary, operational and delivery, reputational

Public Finance Resource Centre Terms of Reference

(including to HMG), safeguarding, external context and political risk, as well as risks to achieving VfM.

- 26.2** Risk and mitigation activities should be set out in a Risk Register, to be updated on a quarterly basis at a minimum. A sample Risk Register is included at Annex 8.

27 Exit Plan/Contract Close Activities

- 27.1** A draft Exit Plan will be produced/developed by the Supplier and delivered to the SRO within 3 months of the Contract Commencement Date (as defined in Volume 7 Contract Section 2). The contents of the Exit Plan will be as outlined in clause 16 of the FCDO standard Terms & Conditions (Volume 7) and agreed with the SRO and PFTD Senior Management Team within 20 Working Days of its submission (as per Volume 7 – the standard Terms & Conditions).
- 27.2** The Exit Plan must be refreshed annually and costed accordingly. A final Exit Plan must be agreed prior to the final 6 months of the Contract and in accordance with FCDO Standard Terms & Conditions.

28 Governance

- 28.1** As part of the wider Centre of Expertise planning, a common approach to oversight and accountability will be agreed so the arrangements proposed here may be superseded and should be considered indicative at this stage.
- 28.2** The following groups are likely to be established for the Resource Centre:
- i. Resource Centre Decision-Making Group consisting of the SRO, PRO and relevant team leader or technical adviser appointed by them will consider and approve or decline the written proposals. The group will also approve the final Intervention ToR for each intervention.
 - ii. Resource Centre Programme Board, chaired by the Head of PFTD will involve the Supplier, SRO, PRO, Regional Advisers and representatives from Posts. It will initially meet every 6 months to review progress and strategic direction of the programme and manage any new or emerging risks. The Board will be responsible for approving changes to prioritisation criteria and ensuring resources are well targeted and results are being delivered.
 - iii. Country Oversight Committee in countries where there are multi-year interventions. The Resource Centre SRO will co-chair with Post, a six-monthly meeting with the Supplier and subcontractors to review progress and strategic direction at the country level and identify any issues or risks. The Regional Adviser will attend.

All Governance meetings will be hybrid, to ensure full attendance and VfM.

29 Other requirements

29.1 Safeguarding/Do No Harm Considerations

Public Finance Resource Centre Terms of Reference

All organisations that work with or come into contact with children, women and other vulnerable groups should have safeguarding policies and procedures to ensure that every person, regardless of their age, gender, religion or ethnicity, can be protected from harm through involvement, directly or indirectly, with FCDO programmes. This includes sexual exploitation and abuse but should also be understood as all forms of physical or emotional violence or abuse and financial exploitation.

The Supplier must demonstrate a sound understanding of the ethics of working in this area and must apply these principles throughout the lifetime of the programme to avoid doing harm to beneficiaries. In particular, the Supplier should recognise and mitigate the risk of negative consequences for women, children, and other vulnerable groups.

The Supplier should include a statement that they have duty of care to other programme stakeholders, and their own staff, and that they will comply with the ethics principles in all programme activities. Their adherence to this duty of care, including the immediate reporting to FCDO and addressing of incidents, should be summarised in both regular and annual reporting to FCDO.

NOTE:

- FCDO does not expect the Supplier or its subcontractors to be engaging with children as part of delivering these services.

29.2 FCDO Ethical Guidance for Research, Evaluation and Monitoring Guidance

- The Supplier shall adhere to the ethical principles and standards specified in “FCDO ethical guidance for research, evaluation and monitoring guidance” when undertaking research and any other forms of data collection and analysis on FCDO funded projects.
- For research studies, the Supplier shall align with these principles and standards and shall provide assurance of this (as detailed in the tender) to the FCDO Programme Manager by submission of evidence of approval of relevant protocols, prior to research commencing, by the researchers’ Institutional Review Board (IRB)/Research Ethics Committee (REC) and the relevant regulatory authority in the country where the research is to be completed.
- For evaluations, monitoring and other activities (where research protocols are not required to be submitted for approval by the IRB or REC) the Supplier shall **be responsible for ensuring ethical issues are given prompt consideration** throughout the project cycle of research, monitoring and evaluation activities.
- The Supplier must inform the Senior Responsible Owner and Contract Manager at FCDO immediately, in writing, of any issues arising that may be in breach of FCDO’s ethical standards and principles and shall fully investigate and document all actual and potential cases of a breach. Failure by the Supplier to report any breach(es) to FCDO may be a material default to the Contract and may entitle FCDO to terminate the Contract.

29.3 Disability Considerations

Public Finance Resource Centre Terms of Reference

For FCDO disability inclusive development means that people with disabilities are systematically and consistently included in and benefit from international development. Furthermore, in line with the Social Value Considerations below FCDO considers Disability Considerations under the Equal Opportunity theme in the UK [Social Value Model](#). This will be confirmed and covered in more detail within the KPIs and ITT Award criteria section.

29.4 Environment/Do No Harm Considerations

FCDO does not envisage the necessity to conduct any environmental impact assessment for the implementation of this programme. However, it is important to adhere to principles of “Do No Harm” to the environment in the execution of this work.

29.5 Social Value Considerations

The Cabinet Office have proposed new measures to ensure that money spent by Government on buying goods and services benefits society more widely as well as delivering value for money. The Social Value Act requires contracting authorities to consider how the services being procured might improve the economic, social and environmental well-being of the relevant area. In the FCDO context, social value is delivered to overseas beneficiaries through the programmes we deliver and also in the sustainable legacy that we aim to leave behind. As overseas development aid is also in the UK national interest, benefit ultimately also flows back to the UK.

The government is committed to awarding contracts based on social value, ensuring that contracts are awarded based on more than just value for money – considering a company’s values too, so that their actions in society are rightly recognised and rewarded. Social Value outcomes are already embedded and evaluated within the programmes that FCDO deliver, however application of the Public Services (Social Value) Act 2013 will be extended to ensure that all government departments explicitly evaluate social value when commissioning services. This will help create and nurture innovative, competitive and diverse marketplaces of suppliers that include and encourage small businesses, charities and social enterprises.

29.6 UK Aid Branding

Partners that receive funding from FCDO must use the UK aid logo on their development and humanitarian programmes to be transparent and acknowledge that they are funded by UK taxpayers. Partners should also acknowledge funding from the UK government in broader communications, but no publicity is to be given to this Contract without the prior written consent of FCDO. Further advice on new Centre of Expertise branding will be provided to the Supplier in due course.

If any press releases on work which arises wholly or mainly from the project are planned, this should be in collaboration with FCDO’s Communications Department. Country-facing and UK-facing branding guidelines will be provided by the respective FCDO Programme Teams.

Any specific branding terms for the programme will be agreed between the Supplier and FCDO Communications Department.

29.7 Digital

FCDO expects all partners and suppliers who manage aid programmes with a digital element to adhere to the global Principles for Digital Development. If any proposal contains a digital element this must be costed separately within the proformas and will be subject to approval by FCDO's digital service team. Suppliers are advised to take account of FCDO's "Guidance on digital spend advice and controls for partners and suppliers" If your project or programme has a digital element (either directly created by FCDO or by a partner using FCDO funding), you must get this reviewed and approved at the earliest possible stage in the process (normally prior to going out to tender) by FCDO's Digital Service Team.

29.8 Transparency

FCDO has transformed its approach to transparency, reshaping our own working practices and pressuring others across the world to do the same. FCDO requires Suppliers receiving and managing funds, to release open data on how this money is spent, in a common, standard, re-usable format and to require this level of information from immediate sub-contractors, sub-agencies and partners.

It is a contractual requirement for all Suppliers to comply with this, and to ensure they have the appropriate tools to enable routine financial reporting, publishing of accurate data and providing evidence of this to FCDO – further IATI information is available from <http://www.aidtransparency.net/>

29.9 Delivery Chain Mapping

Delivery Chain Mapping is a process that identifies and captures, usually in visual form, the name of all partners involved in delivering a specific good, service or charge, ideally down to the end beneficiary. Bidders should provide details of their supply chain (if any) that will be involved in delivering this work.

In line with the FCDO Supplier Code of Conduct, the Supplier shall provide and maintain an up to date and accurate record of named downstream delivery partners in receipt of FCDO funds and/or FCDO funded inventory or assets. This record must demonstrate how funds/Assets flow from the initial source to end beneficiaries. This record needs to be updated regularly by the Supplier and when there are material changes to the delivery chain. As a minimum, delivery chain data should be submitted to FCDO on an annual basis as part of the annual programme report. Delivery Chain Mapping should be included as a standing agenda item in the regularly scheduled progress meetings with FCDO, for discussion and review.

29.10 Procurement of Goods and Equipment

Where procurement is undertaken as part of programme activities, this must be done using robust systems which ensure best value for money for the programme. The Supplier must ensure that programme assets are accurately tracked, reach their

Public Finance Resource Centre Terms of Reference

intended beneficiary, and are used for their intended purpose. Any goods and equipment procurement must be carried out in accordance with FCDOs standard T&Cs.

29.11 FCDO co-ordination

As set out in more detail in the Business Case Annex:

- The Supplier will report to the Resource Centre’s Senior Responsible Owner (SRO) – the overall coordinator of the work.
- The Supplier will also deliver work for which a representative at Post acts as a client. Each Intervention ToR will need to be agreed by the Resource Centre’s Senior Responsible Owner (SRO).
- The Supplier is also expected to work closely with the broader FCDO Resource Centre Team, including Regional Advisers (See [Annex 3](#) for breakdown).

29.12 Duty of Care

The Supplier is responsible for the safety and wellbeing of their personnel and third parties affected by their activities under this Contract, including appropriate security arrangements. The Supplier will coordinate with relevant FCDO Posts prior to any travel being undertaken as part of this work. The FCDO will share available information with the Supplier on security status and developments in-country where appropriate (in the form of Duty of Care Risk Assessments provided by FCDO Posts).

The Supplier will confirm that:

- They fully accept responsibility for security and duty of care.
- They understand the potential risks and have the knowledge and experience to develop an effective risk plan.
- They have capability to manage their Duty of Care responsibilities throughout the life of the Contract.

Acceptance of responsibility must be supported with evidence of capability and FCDO reserves the right to clarify any aspect of this evidence.

Travel advice is available on the foreign-travel-advice website and the Supplier must ensure they and their personnel are up to date with the latest position.

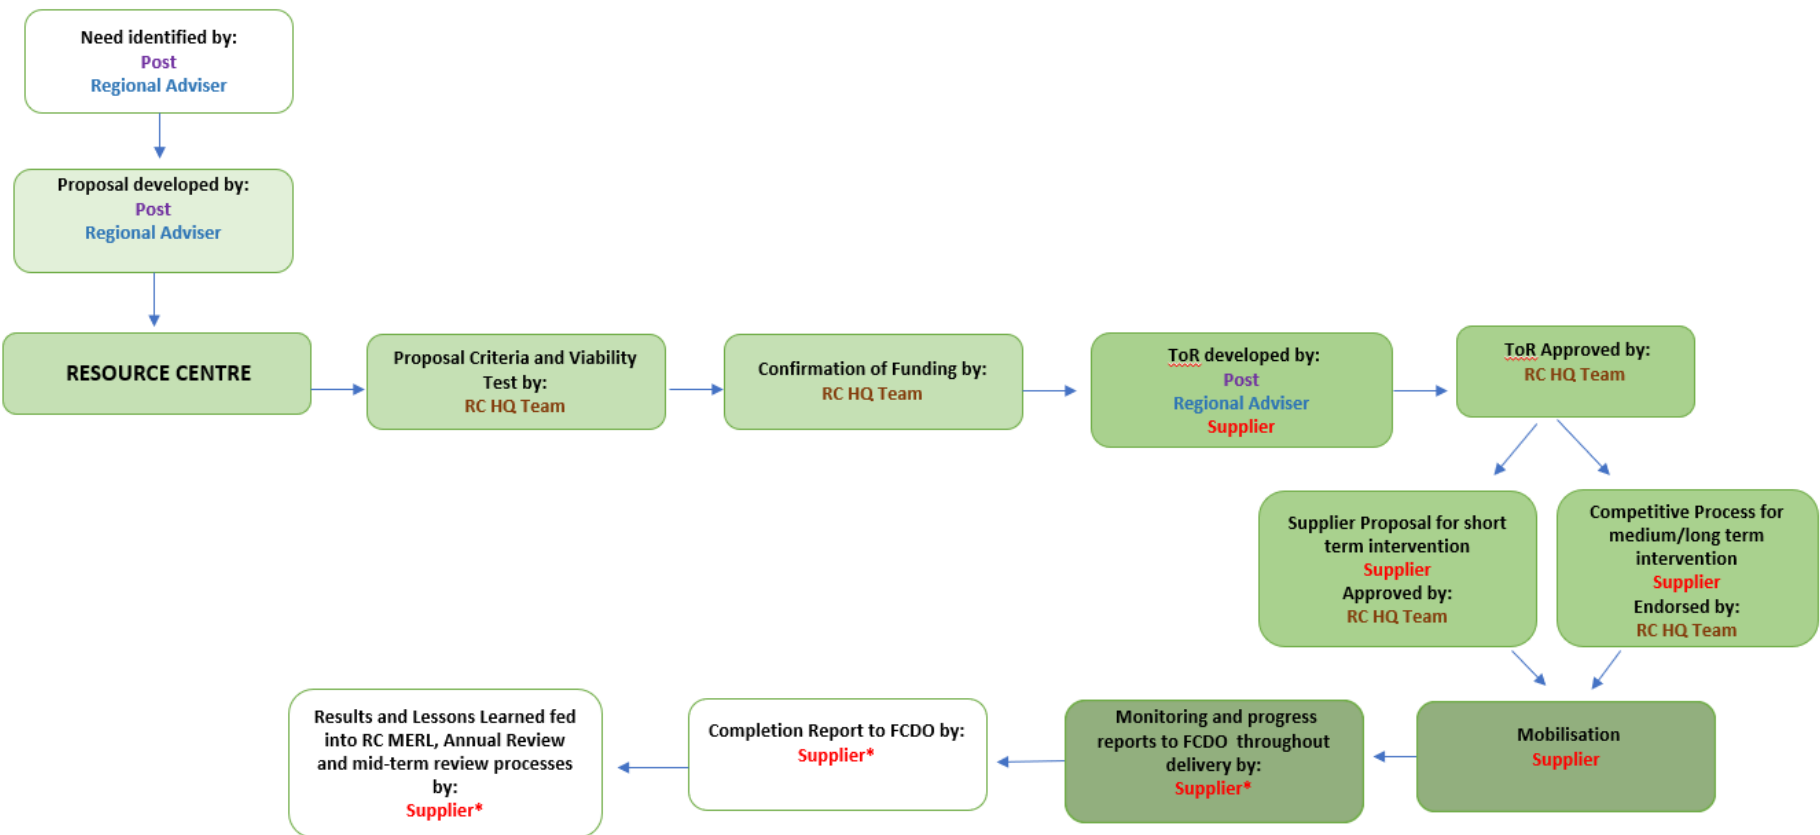

29.13 General Data Protection Regulations (GDPR)

Please refer to the details of the GDPR relationship status and personal data (where applicable) for this project as detailed in Annex 4 and the standard clause 33 in Section 2 of the Contract.
