Procure Plus are a value focused, not for profit company that specialises in the procurement of goods and services related to both the new build, repair, and maintenance of social housing.

Procure Plus wishes to procure and enter into a framework agreement for the completion of planned installation and repair works. The works will predominantly be undertaken in social housing properties but may also be carried out in other public buildings. The framework agreement operates in such a way as to separate the completion of the works covered by the framework, from the procurement of the materials required, as described within the procurement documents. Contractors appointed to the framework agreement will be required to interact with and source certain materials from the suppliers who are appointed to other Procure Plus framework agreements (which are each subject to a separate procurement and contract notice).

Contractors appointed to the framework agreement will also be expected to share Procure Plus's commitment to social value, and specifically the creation of training and employment opportunities for individuals who are furthest from the labour market, groups that are underrepresented within the construction industry or individuals that may otherwise be overlooked or marginalised within the labour market.
