WCHAR Exemption Form	
<b>Scheme Number:</b>	W245 – 617813 Area 12 Broughton Resurfacing
<b>Scheme Location:</b>	495630, 406996
<b>Scheme Description</b>	<i>The surfacing in Broughton depot is showing signs of deterioration due to the age of the surfacing and because of winter maintenance activities. Surfacing defects are evident around the depot which are becoming hazardous. These could lead to slips, trips and/or falls. Maintenance costs will increase if improvements are not carried out. It is proposed to resurface the affected areas with a suitable material to ensure the longevity of the surfacing</i>

Exemption Statement	
In accordance with GG 142 Walking, Cycling and Horse-Riding Assessment and Review I have reviewed the potential presence of pedestrians, cyclists and equestrians within the extents of the activity and any potential impact on pedestrians, cyclists and equestrians resulting from construction of the activity, outside the activity extents.	
For the reasons set out below, the activity [insert VMID Number] is considered exempted from the application of GG 142 WCHAR.	
<b>Justification</b>	<ul style="list-style-type: none"> <li><i>Due to the location of the works being within a National Highways Depot the only people there will have had to be given permission to be there. No unauthorized personnel will be there so cycling, and horse riding will not be present.</i></li> </ul>
