Sub-contracting any part of the Contract does not relieve the Supplier of any of its obligations or duties under the Contract.
- F3.2 The Supplier is responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Supplier shall provide each Sub-Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Services fully in accordance with the Contract.

- (a) reduction of any sums in respect of which the Authority exercises its right of recovery under clause C2 (Recovery of Sums Due);
- (b) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (c) the Authority receiving notification under both clauses F3.10 and F3.11.

F3.10 If the Supplier assigns the right to receive the Price under clause F3.9, the Supplier or the Assignee shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

F3.15 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F3.13 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the “**Transferee**”):

- (a) the rights of termination of the Authority in clauses H1 and H2 are available to the Supplier in respect of the Transferee; and
- (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Supplier.

F3.16 The Authority may disclose to any Transferee any Confidential Information of the Supplier which relates to the performance of the Supplier's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Supplier's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.

F3.17 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the Contract.

If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).
- F4.4 A Change takes effect only when it is recorded in a CCN validly executed by both Parties.
- F4.5 The Supplier is deemed to warrant and represent that the CNN has been executed by a duly authorised representative of the Supplier in addition to the warranties and representations set out in clause G2.
- F4.6 Clauses F4.4 and F4.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Change in order to address the emergency. In an emergency, Changes may be approved by a different representative of the Authority. However, the Authorised Representative may review such a Change and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Change.

F5 Audit

- F5.1 The Supplier shall:
- (a) keep and maintain for 6 years after the end of the Term, or as long a period as may be agreed between the Parties, full and accurate records of its compliance with, and discharge of its obligations under the Contract including the Services supplied under it, all expenditure reimbursed by the Authority, and all payments made by the Authority;

- (e) the tribunal shall consist of a sole arbitrator to be agreed by the Parties;
- (f) if the Parties fail to agree the appointment of the arbitrator within 10 days of the Arbitration Notice being issued by the Authority under clause I1.7 (a) or if the person appointed is unable or unwilling to act, the arbitrator shall be appointed by the LCIA;

I2 Force Majeure

- I2.1 Subject to this clause I2, a Party may claim relief under this clause I2 from liability for failure to meet its obligations under the Contract for as long as and only to the extent that the performance of those obligations is directly affected by a Force Majeure Event. Any failure or delay by the Supplier in performing its obligations under the Contract which results from a failure or delay by an agent, Sub-Contractor or supplier is regarded as due to a Force Majeure Event only if that agent, Sub-Contractor or supplier is itself impeded by a Force Majeure Event from complying with an obligation to the Supplier.
- I2.2 The Affected Party shall as soon as reasonably practicable issue a Force Majeure Notice, which shall include details of the Force Majeure Event, its effect on the obligations of the Affected Party and any action the Affected Party proposes to take to mitigate its effect.
- I2.3 If the Supplier is the Affected Party, it is not entitled to claim relief under this clause I2 to the extent that consequences of the relevant Force Majeure Event:
 - (i) are capable of being mitigated by any of the Services, but the Supplier has failed to do so; and/or
 - (ii) should have been foreseen and prevented or avoided by a prudent provider of services similar to the Services, operating to the standards required by the Contract.
- I2.4 Subject to clause I2.5, as soon as practicable after the Affected Party issues the Force Majeure Notice, and at regular intervals thereafter, the Parties shall consult in good faith and use reasonable endeavours to agree any steps to be taken and an

appropriate timetable in which those steps should be taken, to enable continued provision of the Services affected by the Force Majeure Event.

- 12.5 The Parties shall at all times following the occurrence of a Force Majeure Event and during its subsistence use their respective reasonable endeavours to prevent and mitigate the effects of the Force Majeure Event. Where the Supplier is the Affected Party, it shall take all steps in accordance with Good Industry Practice to overcome or minimise the consequences of the Force Majeure Event.
- 12.6 If, as a result of a Force Majeure Event:
- (a) an Affected Party fails to perform its obligations in accordance with the Contract, then during the continuance of the Force Majeure Event:
 - (i) the other Party is not entitled to exercise its rights to terminate the Contract in whole or in part as a result of such failure pursuant to clause H2.1 or H2.3; and
 - (ii) neither Party is liable for any Default arising as a result of such failure;
 - (b) the Supplier fails to perform its obligations in accordance with the Contract it is entitled to receive payment of the Price (or a proportional payment of it) only to the extent that the Services (or part of the Services) continue to be performed in accordance with the Contract during the occurrence of the Force Majeure Event.
- 12.7 The Affected Party shall notify the other Party as soon as practicable after the Force Majeure Event ceases or no longer causes the Affected Party to be unable to comply with its obligations under the Contract.
- 12.8 Relief from liability for the Affected Party under this clause 12 ends as soon as the Force Majeure Event no longer causes the Affected Party to be unable to comply with its obligations under the Contract and is not dependent on the serving of a notice under clause 12.7.

13 Notices and Communications

- 13.1 Subject to clause 13.3, where the Contract states that a notice or communication between the Parties must be “written” or “in writing” it is not valid unless it is made by letter (sent by hand, first class post, recorded delivery or special delivery) or by email or by communication via Bravo.
- 13.2 If it is not returned as undelivered a notice served in:
- (a) a letter is deemed to have been received 2 Working Days after the day it was sent; and

- (b) an email is deemed to have been received 4 hours after the time it was sent provided it was sent on a Working Day

or when the other Party acknowledges receipt, whichever is the earlier.

13.3 Notices pursuant to clauses I1, I2 or I7 or to terminate the Contract or any part of the Services are valid only if served in a letter by hand, recorded delivery or special delivery.

13.4 Notices shall be sent to the addresses set out below or at such other address as the relevant Party may give notice to the other Party for the purpose of service of notices under the Contract:

I4 Conflicts of Interest

- I4.1 The Supplier shall take appropriate steps to ensure that neither the Supplier nor any Staff is placed in a position where, in the reasonable opinion of the Authority, there is or may be an actual conflict, or a potential conflict, between the pecuniary or personal interests of the Supplier and the duties owed to the Authority under the Contract. The Supplier will notify the Authority immediately giving full particulars of any such conflict of interest which may arise.
- I4.2 The Authority may terminate the Contract immediately by notice and/or take or require the Supplier to take such other steps it deems necessary if, in the Authority's reasonable opinion, there is or may be an actual conflict, or a potential conflict, between the pecuniary or personal interests of the Supplier and the duties owed to the Authority under the Contract. The actions of the Authority pursuant to this clause I4 shall not prejudice or affect any right of action or remedy which shall have accrued or shall thereafter accrue to the Authority.

I5 Rights of Third Parties

- I5.1 Clauses B10.5 and E1.3 confer benefits on persons named in them (together "**Third Party Provisions**" and each person a "**Third Party Beneficiary**") other than the Parties and are intended to be enforceable by Third Party Beneficiaries by virtue of the Contracts (Rights of Third Parties) Act 1999 ("**CRTPA**").
- I5.2 Subject to clause I5.1, a person who is not a Party has no right under the CRTPA to enforce the Contract but this does not affect any right or remedy of any person which exists or is available otherwise than pursuant to the CRTPA and does not apply to the Crown.
- I5.3 No Third-Party Beneficiary may enforce or take steps to enforce any Third-Party Provision without Approval.
- I5.4 Any amendments to the Contract may be made by the Parties without the consent of any Third-Party Beneficiary.

I6 Remedies Cumulative

I7 Waiver

- I7.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy do not constitute a waiver of that right or remedy and do not cause a diminution of the obligations established by the Contract.
- I7.2 No waiver is effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause I3 (Notices and Communications).
- I7.3 A waiver of any right or remedy arising from a breach of the Contract does not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

I8 Severability

- I8.1 If any part of the Contract which is not of a fundamental nature is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such part shall be severed and the remainder of the Contract shall continue in full effect as if the Contract had been executed with the invalid, illegal or unenforceable part eliminated.

I9 Entire Agreement

- I9.1 The Contract constitutes the entire agreement between the Parties in respect of the matters dealt with therein. The Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any fraudulent misrepresentation.

I10 Change in Law

- I10.1 The Supplier is neither relieved of its obligations to supply the Services in accordance with the terms and conditions of the Contract nor entitled to an increase in the Price as the result of:
 - (a) a General Change in Law; or
 - (b) a Specific Change in Law where the effect of that Specific Change in Law on the Services is reasonably foreseeable at the Commencement Date.

I10.2 If a Specific Change in Law occurs or will occur during the Term (other than as referred to in clause I10.1(b)), the Supplier shall:

(a) notify the Authority as soon as reasonably practicable of the likely effects of that change, including whether any:

(i) Change is required to the Services, the Price or the Contract; and

(ii) relief from compliance with the Supplier's obligations is required; and

(b) provide the Authority with evidence:

(i) that the Supplier has minimised any increase in costs or maximised any reduction in costs, including in respect of the costs of its Sub-Contractors; and

(ii) as to how the Specific Change in Law has affected the cost of providing the Services.

I10.3 Any variation in the Price or relief from the Supplier's obligations resulting from a Specific Change in Law (other than as referred to in clause I10.1(b)) shall be implemented in accordance with clause F4.

I11 Counterparts

I11.1 The Contract may be executed in counterparts, each of which when executed and delivered constitute an original but all counterparts together constitute one and the same instrument.

I12 Governing Law and Jurisdiction

I12.1 Subject to clause I1 (Dispute Resolution) the Contract, including any matters arising out of or in connection with it, are governed by and interpreted in accordance with English Law and are subject to the jurisdiction of the Courts of England and Wales. 1. Introduction

His Majesty's Prison and Probation Service (HMPPS) is an executive agency of the Ministry of Justice (MoJ). It carries out sentences given by the courts, in custody and the community, and rehabilitates people in its care through education and employment.

HMPPS and the MoJ are working to deliver the Government's ambition to reduce reoffending.

Employment on release can reduce the chance of reoffending – by up to nine percentage points compared to those without a job on release. We want to increase the number of prisoners entering employment on release by ensuring they have the skills needed to secure jobs, thereby supporting more prison leavers to rebuild their lives.

The Prisons Strategy White Paper committed to establishing the Employability Innovation Fund. The fund will enable prison governors to work with more employers and training providers to repurpose workshops and deliver sector-specific skills training. This in turn will meet the changing needs of the economy and smooth the path from prison to employment. The Future Skills Programme is one strand of the Employability Innovation Fund and is focused on sector-specific training.

Our vision is that the Future Skills Programme will equip prisoners approaching the end of their sentence with the necessary skills and employer relationships to secure sustainable employment on release. Skills training will be delivered across multiple prisons in England and Wales between 2023 and 2025 to support prison leavers into employment.

We want to develop innovative approaches to equipping prison leavers with skills to obtain and sustain jobs for the future. Any programme will include, as a minimum, a guaranteed interview and ideally a job commitment for those that complete the course.

The Future Skills Programme is separate to the Prisoner Education Service (PES) and the HMP Academies programme. PES will deliver future Adult Prisoner Education Services in England. HMP Academies is investing in fixed prison training spaces that will be hosted and branded by employers for prisoners to learn 'on the job training'. All three programmes form part of our overarching ambition to ensure prisoners can access the skills and qualifications they need to get into employment on release.

2. Explanation of specification

The specification follows the structure set out below and is outcome focused.

| | |
|---------------------------|---|
| Purpose | A summary of service to be commissioned. |
| Outcome | The outcomes to be achieved in this specific area by the Supplier. |
| Service elements in scope | Elements of the service requirement that the Supplier has full responsibility for as outlined in paragraph 4.3. |

| | |
|-------------------------------|---|
| Service elements out of scope | Elements of the service requirement that the Supplier has limited responsibility for as outlined in paragraph 4.4. |
| Operational requirements | The minimum requirements of the Supplier achieving each outcome. The Supplier has the flexibility, and is encouraged, to deliver innovative solutions that will achieve, but may go over and above, the minimum requirements specified in this section. |

3. Operational specification

The Future Skills Programme will provide short, sector-specific skills training courses that result in an employment opportunity for prison leavers. The Supplier is expected to develop an engaging training programme to equip prisoners with the necessary skills to fill a genuine job vacancy on release.

We know that it can be challenging for people to resettle back into the community on release from prison. We are keen to see bids that understand the issues the prison leavers face and that propose innovative ideas to address these, in a holistic way, to best support resettlement. Bids should ensure that those who secure a job are fully supported into work in a way that is sustainable, and where they can progress.

4. Specification for The Future Skills Programme

4.1 Purpose

The Future Skills Programme will deliver sector-specific skills training courses linked to employers with job opportunities. Programmes will be 2 to 12 weeks long and include a guaranteed interview or job commitment.

These courses will:

- deliver sector-specific training to develop prisoners with the skills and confidence to secure related, local employment on release
- be innovative in their delivery design and resources (for example, interactive training sessions, employers meeting with participants throughout the course, use of new technologies etc)
- align with employer needs
- target 'job ready' prisoners in the last 6 months of their sentence
- offer prisoners the opportunity to meet and learn from people working in the sector
- create a pipeline of future employees with industry-recognised skills
- be delivered in available spaces in prisons (for example, prison grounds, classroom-based learning, or workshops), and

- offer training providers and employers the opportunity to collaborate in a new and innovative way.

The Future Skills Programme offers a range of potential benefits to employers, including:

- access to a diverse talent pool from which to cost-effectively recruit
- the ability to deliver bespoke sector-specific training to meet business needs
- the opportunity to upskill people who are motivated, ready to work, and who are proven to have high levels of retention, reliability, and performance
- dedicated support from the skills and work teams in prisons, and
- an opportunity to test and shape innovative approaches to rehabilitation in partnership with HMPPS.

The Future Skills Programme will run in up to 29 prisons over 17 lots. A breakdown of lots and details of the specific prisons is below:

- existing provision, and
- activities that would not be suitable.

All programmes should be tailored to and reflect the needs of individual lots. If you are bidding for multiple lots, please ensure you check the data packs and tailor each bid for the relevant lot.

4.2 Outcome

Through the Future Skills Programme, we want to support prisoners to develop the skills and employer relationships to secure sustainable employment on release. The programme will fund projects across a variety of different prisons and sectors/job roles. This will allow us to gather evidence about the effectiveness of the courses and whether they could be rolled out in more prisons or nationally.

HMPPS will develop a set of core KPIs which all suppliers will be required to monitor the delivery and success of their project against.

4.3 Service elements in scope

The Supplier is responsible for:

- Planning, setting up and delivering the courses:
 - Develop an understanding of the prison context to inform the course design so that it is appropriate and deliverable.
 - Design and delivery of a Future Skills Programme for groups of prisoners, which includes providing appropriate resources, support, materials and equipment.
 - Ensure the successful set-up and delivery of the offer in the prison(s). This includes working alongside HMPPS, prison education leads, tutors, peer mentors, any newly recruited staff, and prisoners, to ensure successful implementation of the courses.
 - Ensure any digital elements of the courses can be delivered in the specific prison(s) the course is being delivered in.
 - Advertise the courses and ensure those enrolled participate and remain engaged in the programme.
 - Follow set prisoner selection criteria consistently (to enable robust analysis of outcomes). Inform HMPPS of any intended additional selection criteria and agree with HMPPS analysts before proceeding.
 - Contingency planning for setbacks (for example, a Covid outbreak in the prison(s)).
 - Provide an overview of the programme for existing prison staff to ensure they understand the intervention and how it fits with the wider prison education landscape and the current offer in place in the prison.
- Providing staff to deliver the courses:
 - Provide staff to deliver all elements of the course (for example, classroom learning, practical activities, interview preparation etc).

- Ensure any new staff are appropriately trained to work with prisoners, to deliver the course, and have the required security clearances. This should include performance monitoring to ensure staff are delivering on project aims.
- Set clear expectations of behaviour and codes of practice relevant to the services being provided. Prisons will have authority to instruct suppliers to remove staff members from programmes for reasons relating to poor conduct which may jeopardise operations.
- Collecting data and reporting:
 - Data sharing (such as, but not limited to, information about the learners enrolled, their attendance and outcomes, and whether they receive a job offer and remain in that employment) with HMPPS analysts.
 - Monitor the success of the project against the KPIs every three months.
 - Report back to HMPPS in regular meetings on the progress of the courses. This includes providing a RAG (Red, Amber, Green) rating to indicate whether the courses are on track to achieve the intended employment outcomes.

4.4 Service elements out of scope

The following services are excluded from the scope of the Future Skills Programme:

- managing and providing services within the existing curriculum
- delivery of services which are already provided under contract (BAU)
- escorting to education settings, and
- screening and assessment (formal).

4.5 Operational mandatory requirements

Course design

The Supplier will design an innovative training course that:

- is linked to an employer with job vacancies that match the skills taught during the course
- includes a minimum of a guaranteed interview for a genuine job vacancy for everyone who completes the course (the interviews should take place prior to release)
- ensures job vacancies are either:
 - a permanent position (full time and part time offers are both accepted, zero-hour contracts are unlikely to be suitable for the Future Skills Programme), or
 - an apprenticeship role (this should be paid at a minimum of the national minimum wage, and any arrangements required for appointment to an apprenticeship role should be part of a supplier's course design and completed in readiness for a participant's release), or

- a self-employment opportunity that is linked to an identified employer (for example, a skilled labourer working self-employed with an identified business in the sector). Self-employment opportunities must be supported with training about tax and accounting responsibilities
- provides sufficient technical knowledge and practical training that a prison leaver is work-ready for the target job role/industry – this should include:
 - 2 to 12 weeks of training with a variety of delivery elements including:
 - classroom-based learning
 - practical skills training
 - employer-engagement activities (for example, employer candidate selection, employee mentorship, expert guest speakers including local employers and those with lived experience, day-in-the-life talks etc)
 - sector-specific CVs and disclosure letters
 - sector-specific application and interview training (including how to disclose criminal convictions at interview)
 - mentoring activities
 - an interview for a genuine vacancy with the linked employer
 - an event to mark the success of those completing the course
 - feedback and support services for anyone completing the course who does not secure a job offer
 - ensuring participants who complete the course achieve any necessary sector-specific accreditation(s) if required for employment in a particular role/sector
- meets the needs of the specific prison (prison details can be found in the accompanying data pack) by ensuring:
 - the course reflects the training and future employment needs of the specific prison's population
 - there are appropriate jobs available in the release area
 - the training can be delivered entirely on site in the prison
 - the training can be delivered in one of the prison's spaces detailed in the data pack
 - the class size is between 8 and 12 people (and does not exceed the capacity for the space detailed in the data pack)
 - course training times/days match those available within the prison's regime
 - the job vacancies that are linked to the course are in the same areas as the prison's population are typically released to
- meets the needs of prison leavers by supporting them with some of the challenges they may face when resettling into the community (this should include ensuring that those who secure a job are fully supported into work in a way that is sustainable), and
- can be mobilised in time for the first course to start no later than 29th September 2023 (subject to vetting and prison induction), and for the course to run a minimum of once every three months thereafter until the conclusion of the contract.

Course delivery

The Supplier shall set up and deliver the programme by:

- working with the prison to promote the course and attract learners for each cohort including:
 - providing potential participants with details of the specific employer(s) that will form part of the programme
 - using links with the employer(s) to motivate and engage participants, and
 - arranging creative employer information visits to meet with potential candidates and give an overview of the sector and available opportunities/progression routes
- working with the prison's education, skills and work teams to identify candidates that meet the criteria for the course for each individual prison (which will be set out post-award)
- liaising with the activities team, and learning and skills manager to:
 - ensure relevant security checks are carried out before allocating participants to the programme, and
 - ensure the allocation aligns with information gathered from Personal Learning Plans (PLP) (each prisoner has their own PLP, which aims to ensure prisoners have the required qualifications and soft skills for their chosen career path)
- providing any equipment, materials and PPE required to deliver the course – any service costs or damage costs shall be met by the supplier
- recruiting, training, paying and managing staff to deliver this service – this should include:
 - ensuring staff have the skills and competence to be able to deliver training to the required industry standard,
 - for roles that require accreditation, ensuring staff are qualified to the expected awarding body standard, and
 - ensuring staff complete any mandatory HMPPS training required to work in the prison the course is delivered in.
- operating in a flexible way in times of operational regime difficulties or changes – this should include:
 - building resilience into the training programme
 - being flexible around regime times due to any COVID or other restrictions that might prevent face-to-face delivery (for example, providing in-cell learning materials, making provision for participants that may need to miss a session)
 - planning staff leave in advance and ensuring cover is in place
 - planning for and covering any ad hoc staff sickness, and
 - preparing remote learning activities and/or access to digital resources to complement in person delivery and ensuring continuity during times of regime restriction

- working with relevant prison staff to ensure all necessary support is in place to allow course participants to take up an offer of employment on release – this should include:
 - updating case history notes
 - liaising with keyworkers (as directed by the prison)
 - working with pre-release teams and community probation practitioners (CPP) to:
 - consider participants' licence conditions, and
 - deliver any pre- and post-release support necessary to ensure participants are work ready
- putting in place quality assurance processes to monitor teaching, learning and assessment – this should include:
 - alignment with Ofsted Education Inspection Framework standards
 - facilitating prison staff undertaking learning walks, audits and observations of training of the supplier's staff at any time
 - creating and sharing with the prison an improvement plan for all staff graded less than good, and
 - attending the prison's quality improvement group meetings.

Data Collection

To evaluate the implementation, impact and value for money of this publicly funded intervention, The Authority will require the Suppliers to share some data with the Authority on a monthly basis. This will include information about the training courses and course participants. Templates and guidance will be provided beforehand.

Because this information will contain some personal data about course participants (prisoners), the Authority requires the Supplier to implement the following measure to safeguard the prisoner's information and minimise the risk of data breaches:

Suppliers shall ensure data is shared with the FSP team via encrypted Criminal Justice Secure eMail (CJSM) only. Suppliers will need to sign up for the service before course start following the steps outlined here: [CJSM - Homepage. Secure, seamless communication for the justice community](#)

Equalities

The Supplier shall ensure the materials and teaching style are inclusive and uphold the statutory duties under the Equalities Act 2010 at all times. This should include:

- keeping under review the reasonable adjustments made under the Equality Act 2010 and being able to demonstrate that relevant barriers have been removed for learners where reasonably possible
- considering any adjustments or support that may be needed for prisoners enrolled who have been identified as having an educational learning need – any additional

support provided should be aimed at promoting independence and enabling the prisoner to make good progress

- not disadvantaging any prisoner due to their background
- ensuring staff are appropriately trained in working with vulnerable adults with learning needs, including an awareness of reasonable adjustments
- understanding that many prisoners have negative previous experiences of education and may be reluctant to engage in formal assessment and classroom-based education, and adapt materials and programmes accordingly
- minimising the need for 'formal' assessment where possible by building light-touch progress conversations and surveys into the programme, and
- complying with the Welsh Language Act 1993 by enabling everyone who receives a service from HMPPS in Wales to do so through the medium of Welsh or English, according to their personal choice.

Data sharing

The Supplier will ensure that the following data are shared with the HMPPS analysts:

- detail of each course (on a one-off basis) – including (but not limited to):
 - length
 - number of participants
 - inclusion criteria, and
 - description of training content
- details of participants and their attendance (on a monthly basis) – including (but not limited to):
 - participant ID
 - participant attendance and engagement, and
 - any withdrawals
- details of each participants outcomes (on a monthly basis where applicable) – including (but not limited to):
 - interview outcome, and
 - employment outcomes (such as after 6 weeks and 6 months).

Additionally, HMPPS will seek information from Suppliers (for example, satisfaction with the programme and procurement process, delivery in prison) via optional interviews, focus groups or surveys for which separate consent will be obtained beforehand.

4.6 Desirable criteria

Desirable elements include but are not limited to:

- use of candidate peer workers should be maximised to support positive outcomes
- a guaranteed job offer for everyone who completes the course

- extra-curricular activities to contribute to prison leaver resettlement (for example, a staff 5 aside team or allotment project that would provide social, development, learning opportunities)
- support in finding a more suitable role within the sector for those who do not secure a job offer at the conclusion of the course
- a welcome package for all prison leavers starting work as a result of the course (for example, canteen vouchers, workwear, transport costs, and an advance on wages with a sensible repayment plan), and
- policies in place that encourage a supportive and inclusive work culture.

4.7 Other requirements

Security

The Suppliers shall be required to comply with all local security policies and procedures that apply in the prison they are delivering a Future Skills Programme course in. Further details can be found in the accompanying Future Skills Programme data pack.

Standards

The Suppliers will need to understand and adhere to any applicable policies and standards.

Social value

As part of the Contract's social value reporting metric, the Suppliers will need to commit to tackling workforce inequality.

The Suppliers will need to demonstrate how they will support the transition from prison to work and encourage in-work progression to help prisoners sustain employment and move into higher-paid work.

4.8 Constraints

Timing

The Future Skills Programme will run until 31 March 2025. HMPPS may extend the contract by up to twelve months.

Courses must be mobilised in time to start delivering training no later than 29th September 2023 (subject to vetting and prison induction).

Budget limitations

The Future Skills Programme has a total fund in the region of **£5,769,507** available.

- 4.1 The ISMS and Security Plan shall be reviewed in full and tested by the Supplier at least annually throughout the Term (or more often where there is a significant change to the Supplier System or associated processes or where an actual or potential Breach of Security or weakness is identified) to consider and take account of:
- 4.1.1 any issues in implementing the Security Policy Framework and/or managing information risk;
 - 4.1.2 emerging changes in Good Industry Practice;
 - 4.1.3 any proposed or actual change to the ICT Environment and/or associated processes;
 - 4.1.4 any new perceived, potential or actual security risks or vulnerabilities;
 - 4.1.5 any ISO27001: 2013 audit report or equivalent produced in connection with the Certification Requirements which indicates concerns; and
 - 4.1.6 any reasonable change in security requirements requested by the Authority.
- 4.2 The Supplier shall give the Authority the results of such reviews as soon as reasonably practicable after their completion, which shall include without limitation:

- 4.2.1 suggested improvements to the effectiveness of the ISMS, including controls;
 - 4.2.2 updates to risk assessments; and
 - 4.2.3 proposed modifications to respond to events that may affect the ISMS, including the security incident management processes, incident response plans and general procedures and controls that affect information security.
- 4.3 Following the review in accordance with paragraphs 4.1 and 4.2 or at the Authority's request, the Supplier shall give the Authority at no additional cost a draft updated ISMS and/or Security Plan which includes any changes the Supplier proposes to make to the ISMS or Security Plan. The updated ISMS and/or Security Plan shall, unless otherwise agreed by the Authority, be subject to clause F4 (Change) and shall not be implemented until Approved.
- 4.4 If the Authority requires any updated ISMS and/or Security Plan to be implemented within shorter timescales than those set out in clause F4, the Parties shall thereafter follow clause F4 for the purposes of formalising and documenting the relevant change for the purposes of the Contract.

5. CERTIFICATION REQUIREMENTS

- 5.1 The Supplier shall ensure that any systems, including the ICT Environment, on which Information Assets and Authority Data are stored and/or processed are certified as compliant with:
- 5.1.1 ISO/IEC 27001:2013 or equivalent by a UKAS approved certification body or are included within the scope of an existing certification of compliance with ISO/IEC 27001:2013 or equivalent unless otherwise Approved; and
 - 5.1.2 the Government's Cyber Essentials Scheme at the BASIC level unless otherwise agreed with the Authority
- and shall provide the Authority with evidence:
- 5.1.3 of certification before the Supplier accessed the ICT Environment and receives, stores, processes or manages any Authority Data; and
 - 5.1.4 that such certification remains valid and is kept up to date while the Supplier (as applicable) continues to access the ICT Environment and receives, stores, processes or manages any Authority Data during the Term.
- 5.2 The Supplier shall ensure that it:
- 5.2.1 carries out any secure destruction of Information Assets and/or Authority Data at Supplier sites which are included within the scope of an existing certificate

of compliance with ISO/IEC 27001:2013 or equivalent unless otherwise Approved; and

5.2.2 is certified as compliant with the CESG Assured Service (CAS) Service Requirement Sanitisation Standard or equivalent unless otherwise Approved

5.2.3 and the Supplier shall provide the Authority with evidence of its compliance with the requirements set out in this paragraph 5.2 before the Supplier may carry out the secure destruction of any Information Assets and/or Authority Data.

5.3 The Supplier shall notify the Authority as soon as reasonably practicable and, in any event within 2 Working Days, if the Supplier ceases to be compliant with the certification requirements in paragraph 5.1 and, on request from the Authority, shall:

5.3.1 immediately cease access to and use of Information Assets and/or Authority Data; and

5.3.2 promptly return, destroy and/or erase any Authority Data in accordance with the Baseline Security Requirements and failure to comply with this obligation is a material Default.

6. SECURITY TESTING

6.1 The Supplier shall, at its own cost, carry out relevant Security Tests from the Commencement Date and throughout the Term, which shall include:

6.1.1 a monthly vulnerability scan and assessment of the Supplier System and any other system under the control of the Supplier on which Information Assets and/or Authority Data are held;

6.1.2 an annual IT Health Check by an independent CHECK qualified company of the Supplier System and any other system under the control of the Supplier on which Information Assets and/or Authority Data are held and any additional IT Health Checks required by the Authority and/or any accreditor;

6.1.3 an assessment as soon as reasonably practicable following receipt by the Supplier of a critical vulnerability alert from a provider of any software or other component of the Supplier System and/or any other system under the control of the Supplier on which Information Assets and/or Authority Data are held; and

6.1.4 such other tests as are required:

6.1.4.1 by any Vulnerability Correction Plans;

- 6.1.4.2 by ISO/IEC 27001:2013 certification requirements or equivalent Approved;
- 6.1.4.3 after any significant architectural changes to the ICT Environment;
- 6.1.4.4 after a change to the ISMS (including security incident management processes and incident response plans) or the Security Plan; and
- 6.1.4.5 following a Breach of Security.

6.2 In relation to each IT Health Check, the Supplier shall:

- 6.2.1 agree with the Authority the aim and scope of the IT Health Check;
- 6.2.2 promptly, following receipt of each IT Health Check report, give the Authority a copy of the IT Health Check report; and
- 6.2.3 if the IT Health Check report identifies any vulnerabilities:
 - 6.2.3.1 prepare a Vulnerability Correction Plan for Approval which sets out in respect of each such vulnerability:
 - 6.2.3.1.1 how the vulnerability will be remedied;
 - 6.2.3.1.2 the date by which the vulnerability will be remedied;
 - 6.2.3.1.3 the tests which the Supplier shall perform or procure to be performed (which may, at the Authority's discretion, include a further IT Health Check) to confirm that the vulnerability has been remedied;
 - 6.2.3.2 comply with the Vulnerability Correction Plan; and
 - 6.2.3.3 conduct such further Security Tests as are required by the Vulnerability Correction Plan.

6.3 Security Tests shall be designed and implemented by the Supplier so as to minimise any adverse effect on the Services and the date, timing, content and conduct of Security Tests shall be agreed in advance with the Authority.

6.4 The Authority may send a representative to witness the conduct of the Security Tests. The Supplier shall provide the Authority with the results of Security Tests (in a form to be Approved) as soon as practicable and in any event within 5 Working Days after completion of each Security Test.

- 6.5 Without prejudice to any other right of audit or access granted to the Authority pursuant to the Contract, the Authority and/or its authorised representatives, including any accreditor, may at any time to carry out Security Tests (including penetration tests) as it may deem necessary as part of any accreditation process and/or to verify the Supplier's compliance with the ISMS and the Security Plan:
- 6.5.1 upon giving reasonable notice to the Supplier where reasonably practicable to do so; and
 - 6.5.2 without giving notice to the Supplier where, in the Authority's view, the provision of such notice may undermine the Security Tests to be carried out
- and, where applicable, the Authority shall be granted access to the Supplier's premises for the purpose of undertaking the relevant Security Tests.
- 6.6 If the Authority carries out Security Tests in accordance with paragraphs 6.5.1 or 6.5.2, the Authority shall (unless there is any reason to withhold such information) notify the Supplier of the results of the Security Tests as soon as possible and in any event within 5 Working Days after completion of each Security Test.
- 6.7 If any Security Test carried out pursuant to paragraphs 6.1 or 6.4 reveals any:
- 6.7.1 vulnerabilities during any accreditation process, the Supplier shall track and resolve them effectively; and
 - 6.7.2 actual or potential Breach of Security or weaknesses (including un-patched vulnerabilities, poor configuration and/or incorrect system management), the Supplier shall promptly notify the Authority of any proposed changes to the ICT Environment (to the extent that this is under the control of the Supplier) and/or to the ISMS and/or to the Security Plan (and the implementation thereof) which the Supplier intends to make in order to correct such failure or weakness. Subject to Approval and paragraphs 4.3 and 4.4, the Supplier shall implement such changes to the ICT Environment (to the extent that this is under the control of the Supplier) and/or the ISMS and/or the Security Plan and repeat the relevant Security Tests in accordance with an Approved timetable or, otherwise, as soon as reasonably practicable.
- 6.8 If the Authority unreasonably withholds its approval to the implementation of any changes to the ICT Environment and/or to the ISMS and/or to the Security Plan proposed by the Supplier in accordance with paragraph 6.7, the Supplier is not in breach of the Contract to the extent that it can be shown that such breach:
- 6.8.1 has arisen as a direct result of the Authority unreasonably withholding Approval to the implementation of such proposed changes; and

6.8.2 would have been avoided had the Authority Approved the implementation of such proposed changes.

6.9 If a change to the ISMS or Security Plan is to address any non-compliance with ISO/IEC 27001:2013 requirements or equivalent, the Baseline Security Requirements or any obligations in the Contract, the Supplier shall implement such change at its own cost and expense.

6.10 If any repeat Security Test carried out pursuant to paragraph 6.7 reveals an actual or potential breach of security or weakness exploiting the same root cause failure, such circumstance shall constitute a material Default.

6.11 On each anniversary of the Commencement Date, the Supplier shall provide to the Authority a letter from the individual appointed or identified in accordance with paragraph 1.3 confirming that having made due and careful enquiry:

6.11.1 the Supplier has in the previous year carried out all Security Tests in accordance with this Schedule 8 and has complied with all procedures in relation to security matters required under the Contract; and

6.11.2 the Supplier is confident that its security and risk mitigation procedures in relation to Information Assets and Authority Data remain effective.

7. SECURITY AUDITS AND COMPLIANCE

7.1 The Authority and its authorised representatives may carry out security audits as it reasonably considers necessary in order to ensure that the ISMS is compliant with the principles and practices of ISO 27001: 2013 or equivalent (unless otherwise Approved), the requirements of this Schedule 8 and the Baseline Security Requirements.

7.2 If ISO/IEC 27001: 2013 certification or equivalent is provided; the ISMS shall be independently audited in accordance with ISO/IEC 27001: 2013 or equivalent. The Authority and its authorised representatives shall, where applicable, be granted access to the Supplier Sites and Sub-contractor premises for this purpose.

7.3 If, on the basis of evidence resulting from such audits, it is the Authority's reasonable opinion that ISMS is not compliant with any applicable principles and practices of ISO/IEC 27001: 2013 or equivalent, the requirements of this Schedule 8 and/or the Baseline Security Requirements is not being achieved by the Supplier, the Authority shall notify the Supplier of this and provide a reasonable period of time (having regard to the extent and criticality of any non-compliance and any other relevant circumstances) for the Supplier to implement any necessary remedy. If the Supplier does not ensure that the ISMS is compliant within this period of time, the Authority may obtain an independent audit of the ISMS to assess compliance (in whole or in part).

- 7.4 If, as a result of any such independent audit as described in paragraph 7.3 the Supplier is found to be non-compliant with any applicable principles and practices of ISO/IEC 27001:2013 or equivalent, the requirements of this Schedule 8 and/or the Baseline Security Requirements the Supplier shall, at its own cost, undertake those actions that are required in order to ensure that the ISMS is complaint and shall reimburse the Authority in full in respect of the costs obtaining such an audit.

8. SECURITY RISKS AND BREACHES

- 8.1 The Supplier shall use its reasonable endeavours to prevent any Breach of Security for any reason, including as a result of malicious, accidental or inadvertent behaviour.

- 8.2 If either Party becomes aware of a Breach of Security or an attempted Breach of Security it shall act in accordance with the agreed security incident management processes and incident response plans as set out in the ISMS.

- 8.3 Without prejudice to the security incident management processes and incident response plans set out in the ISMS, upon becoming aware of any Breach of Security or attempted Breach of Security, the Supplier shall:

- 8.3.1 immediately notify the Authority and take all reasonable steps (which shall include any action or changes reasonably required by the Authority) that are necessary to:

- 8.3.1.1 minimise the extent of actual or potential harm caused by any Breach of Security;

- 8.3.1.2 remedy any Breach of Security to the extent that is possible and protect the integrity of the ICT Environment (to the extent that this is within its control) and ISMS against any such Breach of Security or attempted Breach of Security;

- 8.3.1.3 mitigate against a Breach of Security or attempted Breach of Security; and

- 8.3.1.4 prevent a further Breach of Security or attempted Breach of Security in the future resulting from the same root cause failure;

- 8.3.2 provide to the Authority and/or the Computer Emergency Response Team for UK Government ("GovCertUK") or equivalent any data that is requested relating to the Breach of Security or attempted Breach of Security within 2 Working Days of such request; and

- 8.3.3 as soon as reasonably practicable and, in any event, within 2 Working Days following the Breach of Security or attempted Breach of Security, provide to the Authority full details (using the reporting mechanism defined by the ISMS)

of the Breach of Security or attempted Breach of Security, including a root cause analysis if required by the Authority

and the Supplier recognises that the Authority may report significant actual or potential losses of Personal Data to the Information Commissioner or equivalent and to the Cabinet Office.

- 8.4 If any action is taken by the Supplier in response to a Breach of Security or attempted Breach of Security which occurred as a result of non-compliance of the ISMS with any ISO/IEC 27001: 2013 requirements or equivalent (as applicable), the Baseline Security Requirements and/or the requirements of this Schedule 8, any such action and change to the ISMS and/or Security Plan as a result shall be implemented at the Supplier's cost.

IT Environment

- 8.5 The Supplier shall ensure that the Supplier System:
- 8.5.1 functions in accordance with Good Industry Practice for protecting external connections to the internet;
 - 8.5.2 functions in accordance with Good Industry Practice for protection from malicious code;
 - 8.5.3 provides controls to securely manage (store and propagate) all cryptographic keys to prevent malicious entities and services gaining access to them, in line with the Authority's Cryptographic Policy as made available to the Supplier from time to time;
 - 8.5.4 is patched (and all of its components are patched) in line with Good Industry Practice, any Authority patching policy currently in effect and notified to the Supplier and any Supplier patch policy that is agreed with the Authority; and
 - 8.5.5 uses the latest versions of anti-virus definitions, firmware and software available from industry accepted anti-virus software vendors.
- 8.6 Notwithstanding paragraph 8.5, if a Breach of Security is detected in the ICT Environment, the Parties shall co-operate to reduce the effect of the Breach of Security and, if the Breach of Security causes loss of operational efficiency or loss or corruption of Information Assets and/or Authority Data, assist each other to mitigate any losses and to recover and restore such Information Assets and Authority Data.
- 8.7 All costs arising out of the actions taken by the Parties in compliance with paragraphs 8.2, 8.3 and 8.6 shall be borne by:

- 8.7.1 the Supplier if the Breach of Security originates from the defeat of the Supplier's security controls or Information Assets and/or Authority Data is lost or corrupted whilst under the control of the Supplier or its Sub-contractor; or
- 8.7.2 the Authority if the Breach of Security originates from the defeat of the Authority's security controls or Information Assets and/or Authority Data is lost or corrupted whilst under the control of the Authority

and each Party shall bear its own costs in all other cases.

9. VULNERABILITIES AND CORRECTIVE ACTION

- 9.1 The Parties acknowledge that from time to time vulnerabilities in the ICT Environment and ISMS will be discovered which, unless mitigated, will present an unacceptable risk to Information Assets and/or Authority Data.
- 9.2 The severity of any vulnerabilities shall be categorised by the Supplier as '*Critical*', '*Important*' and '*Other*' according to the agreed method in the ISMS and using any appropriate vulnerability scoring systems.
- 9.3 The Supplier shall procure the application of security patches to vulnerabilities categorised as '*Critical*' within 7 days of public release, vulnerabilities categorised as '*Important*' within 30 days of public release and vulnerabilities categorised as '*Other*' within 60 days of public release, except where:
 - 9.3.1 the Supplier can demonstrate that a vulnerability is not exploitable within the context of the Services being provided, including where it resides in a software component which is not being used, provided that, where those vulnerabilities become exploitable, they are remedied by the Supplier within the timescales in paragraph 9.3;
 - 9.3.2 the application of a security patch in respect of a vulnerability categorised as '*Critical*' or '*Important*' adversely affects the Supplier's ability to deliver the Services, in which case the Supplier shall be granted an extension to the timescales in paragraph 9.3 of 5 days, provided that the Supplier continues to follow any security patch test plan agreed with the Authority; or
 - 9.3.3 the Authority agrees a different timescale after consultation with the Supplier in accordance with the processes defined in the ISMS.
- 9.4 The ISMS and the Security Plan shall include provision for the Supplier to upgrade software throughout the Term within 6 months of the release of the latest version unless:
 - 9.4.1 upgrading such software reduces the level of mitigation for known threats, vulnerabilities or exploitation techniques, provided always that such software

is upgraded by the Supplier within 12 months of release of the latest version;
or

9.4.2 otherwise agreed with the Authority in writing.

9.5 The Supplier shall:

- 9.5.1 implement a mechanism for receiving, analysing and acting upon threat information provided by GovCertUK, or any other competent central Government Body;
- 9.5.2 ensure that the ICT Environment (to the extent that this is within the control of the Supplier) is monitored to facilitate the detection of anomalous behaviour that would be indicative of system compromise;
- 9.5.3 ensure that it is knowledgeable about the latest trends in threat, vulnerability and exploitation that are relevant to the ICT Environment (to the extent that this is within the control of the Supplier) by actively monitoring the threat landscape during the Term;
- 9.5.4 pro-actively scan the ICT Environment (to the extent that this is within the control of the Supplier) for vulnerable components and address discovered vulnerabilities through the processes described in the ISMS;
- 9.5.5 from the Commencement Date and within 5 Working Days of the end of each subsequent month during the Term provide a report to the Authority detailing both patched and outstanding vulnerabilities in the ICT Environment (to the extent that this is within the control of the Supplier) and any elapsed time between the public release date of patches and either the time of application or, for outstanding vulnerabilities, the time of issue of such report;
- 9.5.6 propose interim mitigation measures in respect of any vulnerabilities in the ICT Environment (to the extent this is within the control of the Supplier) known to be exploitable where a security patch is not immediately available;
- 9.5.7 remove or disable any extraneous interfaces, services or capabilities that are no longer needed for the provision of the Services (in order to reduce the attack surface of the ICT Environment to the extent this is within the control of the Supplier); and
- 9.5.8 inform the Authority when it becomes aware of any new threat, vulnerability or exploitation technique that has the potential to affect the security of the IT Environment (to the extent this is within the control of the Supplier) and provide initial indications of possible mitigations.

9.6 If the Supplier is unlikely to be able to mitigate any vulnerability within the timescales in paragraph 9.3, the Supplier shall notify the Authority immediately.

9.7 Any failure by the Supplier to comply with paragraph 9.3 shall constitute a material Default.

10. SUB-CONTRACTS

10.1 The Supplier shall ensure that all Sub-Contracts with Sub-Contractors who have access to Information Assets and/or Authority Data contain equivalent provisions in relation to information assurance and security that are no less onerous than those imposed on the Supplier under the Contract.

ANNEX 1 – BASELINE SECURITY REQUIREMENTS

1 Security Classifications and Controls

- 1.1 The Supplier shall, unless otherwise Approved in accordance with paragraph 6.2 of this Annexe 1, only have access to and handle Information Assets and Authority Data that are classified under the Government Security Classifications Scheme as OFFICIAL.
- 1.2 There may be a specific requirement for the Supplier in some instances on a limited 'need to know basis' to have access to and handle Information Assets and Authority Data that are classified as 'OFFICIAL-SENSITIVE.'
- 1.3 The Supplier shall apply the minimum security controls required for OFFICIAL information and OFFICIAL-SENSITIVE information as described in Cabinet Office guidance, currently at:
https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/251480/Government-Security-Classifications-April-2014.pdf.
- 1.4 The Supplier shall be able to demonstrate to the Authority and any accreditor that it has taken into account the "Technical Controls Summary" for OFFICIAL (in the above guidance) in designing and implementing the security controls in the Supplier System, which shall be subject to assurance and accreditation to Government standards.
- 1.5 Additional controls may be required by the Authority and any accreditor where there are aspects of data aggregation.

2 End User Devices

- 2.1 Authority Data shall, wherever possible, be held and accessed on paper or in the ICT Environment on secure premises and not on removable media (including laptops, removable discs, CD-ROMs, USB memory sticks, PDAs and media card formats) without Approval. If Approval is sought to hold and access data by other means, the Supplier shall consider the second-best option and third best option below and record the reasons why a particular approach should be adopted when seeking Approval:
 - 2.1.1 second best option means: secure remote access so that data can be viewed or amended over the internet without being permanently stored on the remote device, using products meeting the FIPS 140-3 standard or equivalent, unless Approved;
 - 2.1.2 third best option means: secure transfer of Authority Data to a remote device at a secure site on which it will be permanently stored, in which case the Authority Data and any links to it shall be protected at least to the FIPS 140-3 standard or equivalent, unless otherwise Approved, and noting that protectively marked Authority Data must not be stored on privately owned devices unless they are protected in this way.

- 2.2 The right to transfer Authority Data to a remote device should be carefully considered and strictly limited to ensure that it is only provided where absolutely necessary and shall be subject to monitoring by the Supplier and Authority.
- 2.3 Unless otherwise Approved, when Authority Data resides on a mobile, removable or physically uncontrolled device, it shall be:
- 2.3.1 the minimum amount that is necessary to achieve the intended purpose and should be anonymised if possible;
 - 2.3.2 stored in an encrypted form meeting the FIPS 140-3 standard or equivalent and using a product or system component which has been formally assured through a recognised certification process of CESG to at least Foundation Grade, for example, under the CESG Commercial Product Assurance scheme (“**CPA**”) or equivalent, unless otherwise Approved;
 - 2.3.3 protected by an authentication mechanism, such as a password; and
 - 2.3.4 have up to date software patches, anti-virus software and other applicable security controls to meet the requirements of this Schedule 8.
- 2.4 Devices used to access or manage Authority Data shall be under the management authority of the Supplier and have a minimum set of security policy configurations enforced. Unless otherwise Approved, all Supplier devices shall satisfy the security requirements set out in the CESG End User Devices Platform Security Guidance (“**CESG Guidance**”) (<https://www.ncsc.gov.uk/guidance/end-user-device-security>) or equivalent.
- 2.5 Where the CESG Guidance highlights shortcomings in a particular platform the Supplier may wish to use, then these should be discussed with the Authority and a joint decision shall be taken on whether the residual risks are acceptable. If the Supplier wishes to deviate from the CESG Guidance, this should be agreed in writing with the Authority on a case by case basis.

3 Data Storage, Processing, Management, Transfer and Destruction

- 3.1 The Parties recognise the need for Authority Data to be safeguarded and for compliance with the Data Protection Legislation. To that end, the Supplier shall inform the Authority the location within the United Kingdom where Authority Data is stored, processed and managed. The import and export of Authority Data from the Supplier System must be strictly controlled and recorded.
- 3.2 The Supplier shall inform the Authority of any changes to the location within the United Kingdom where Authority Data is stored, processed and managed and shall not transmit, store, process or manage Authority Data outside of the United Kingdom without Approval which shall not be unreasonably withheld or delayed provided that the transmission, storage, processing and management of Authority Data offshore is within:

- 3.2.1 the EEA; or
 - 3.2.2 another country or territory outside the EEA if that country or territory ensures an adequate level of protection by reason of its domestic law or of the international commitments it has entered into which have been defined as adequate by the European commission.
- 3.3 The Supplier System shall support the requirement of the Authority to comply with Government policy and Cabinet Office guidance on Offshoring
- by assessing, as required, any additional security risks associated with the storage, processing and/or transmission of any data and/or information offshore, including by an offshore Supplier (which may include the use of 'landed resources'), taking account of European Union requirements to confirm the 'adequacy' of protection of Personal Data in the countries where storage, processing and/or transmission occurs. No element of the Supplier System may be off-shored without Approval.
- 3.4 The Supplier shall ensure that the Supplier System provides internal processing controls between security domains to prevent the unauthorised high domain exporting of Authority Data to the low domain if there is a requirement to pass data between different security domains.
- 3.5 The Supplier shall ensure that any electronic transfer of Authority Data:
- 3.5.1 protects the confidentiality of the Authority during transfer through encryption suitable for the impact level of the data;
 - 3.5.2 maintains the integrity of the Authority Data during both transfer and loading into the receiving system through suitable technical controls for the impact level of the data; and
 - 3.5.3 prevents the repudiation of receipt through accounting and auditing.
- 3.6 The Supplier shall:
- 3.6.1 protect Authority Data, including Personal Data, whose release or loss could cause harm or distress to individuals and ensure that this is handled as if it were confidential while it is stored and/or processed;
 - 3.6.2 ensure that any OFFICIAL-SENSITIVE information, including Personal Data is encrypted in transit and when at rest when stored away from the Supplier's controlled environment;
 - 3.6.3 on demand, provide the Authority with all Authority Data in an agreed open format;

- 3.6.4 have documented processes to guarantee availability of Authority Data if it ceases to trade;
- 3.6.5 securely destroy all media that has held Authority Data at the end of life of that media in accordance with any requirements in the Contract and, in the absence of any such requirements, in accordance with Good Industry Practice;
- 3.6.6 securely erase any or all Authority Data held by the Supplier when requested to do so by the Authority;
- 3.6.7 ensure that all material used for storage of Confidential Information is subject to controlled disposal and the Supplier shall:
 - 3.6.7.1 destroy paper records containing Personal Data by incineration, pulping or shredding so that reconstruction is unlikely; and
 - 3.6.7.2 dispose of electronic media that was used for the processing or storage of Personal Data through secure destruction, overwriting, erasure or degaussing for re-use.

4 Networking

- 4.1 Any Authority Data transmitted over any public network (including the Internet, mobile networks or un-protected enterprise network) or to a mobile device shall be encrypted using a product or system component which has been formally assured through a certification process recognised by CESG, to at least Foundation Grade, for example, under CPA or through the use of Public Sector Network (“**PSN**”) compliant encrypted networking services or equivalent unless none are available in which case the Supplier shall agree the solution with the Authority.
- 4.2 The Supplier shall ensure that the configuration and use of all networking equipment in relation to the provision of the Services, including equipment that is located in secure physical locations, shall be at least compliant with Good Industry Practice.
- 4.3 The Supplier shall ensure that the ICT Environment (to the extent this is within the control of the Supplier) contains controls to maintain separation between the PSN and internet connections if used.

5 Security Architectures

- 5.1 When designing and configuring the ICT Environment (to the extent that this is within the control of the Supplier) the Supplier shall follow Good Industry Practice and seek guidance from recognised security professionals with the appropriate skills and/or those with a CESG Certified Professional certification or equivalent for all bespoke or complex components.

- 5.2 The Supplier shall provide to the Authority and any accreditor sufficient design documentation detailing the security architecture of the ICT Environment and data transfer mechanism to support the Authority's and any accreditor's assurance that this is appropriate, secure and compliant with the Authority's requirements.
- 5.3 The Supplier shall apply the '*principle of least privilege*' (the practice of limiting systems, processes and user access to the minimum possible level) to the design and configuration of the ICT Environment used for the storage, processing and management of Authority Data. Users should only be granted the minimum necessary permissions to access Information Assets and Authority Data and must be automatically logged out of the Supplier System if an account or session is inactive for more than 15 minutes.

6 Digital Continuity

- 6.1 The Supplier shall ensure that each Information Asset is held in an appropriate format that is capable of being updated from time to time to enable the Information Asset to be retrieved, accessed, used and transferred to the Authority, including in accordance with any information handling procedures set out in the Information Security Policy Framework or its replacements.

7 Personnel Vetting and Security

- 7.1 All Staff shall be subject to pre-employment checks that include, as a minimum, their employment history for at least the last 3 years, identity, unspent criminal convictions and right to work (including nationality and immigration status) and shall be vetted in accordance with:
- 7.1.1 the BPSS or BS7858 or equivalent; and
 - 7.1.2 PSI 07/2014, if applicable, based on their level of access to Information Assets and/or Authority Data.
- 7.2 If the Authority agrees that it is necessary for any Staff to have logical or physical access to Information Assets and/or Authority Data classified at a higher level than OFFICIAL (such as that requiring 'SC' clearance), the Supplier shall obtain the specific Government clearances that are required for access to such Information Assets and/or Authority Data.
- 7.3 The Supplier shall prevent Staff who are unable to obtain the required security clearances from accessing Information Assets and/or Authority Data and/or the ICT Environment used to store, process and/or manage such Information Assets or Authority Data.
- 7.4 The Supplier shall procure that all Staff comply with the Security Policy Framework and principles, obligations and policy priorities stated therein, including requirements to manage and report all security risks in relation to the provision of the Services.

- 7.5 The Supplier shall ensure that Staff who can access Information Assets and/or Authority Data and/or the ICT Environment are aware of their responsibilities when handling such information and data and undergo regular training on secure information management principles. Unless otherwise Approved, this training must be undertaken annually.
- 7.6 If the Supplier grants Staff access to Information Assets and/or Authority Data, those individuals shall be granted only such levels of access and permissions that are necessary for them to carry out their duties. Once Staff no longer require such levels of access or permissions or leave the organisation, their access rights shall be changed or revoked (as applicable) within one Working Day.

8 Identity, Authentication and Access Control

- 8.1 The Supplier shall operate a robust role-based access control regime, including network controls, to ensure all users and administrators of and those maintaining the ICT Environment are uniquely identified and authenticated when accessing or administering the ICT Environment to prevent unauthorised users from gaining access to Information Assets and/or Authority Data. Applying the '*principle of least privilege*', users and administrators and those responsible for maintenance shall be allowed access only to those parts of the ICT Environment they require. The Supplier shall retain an audit record of accesses and users and disclose this to the Authority upon request.
- 8.2 The Supplier shall ensure that Staff who use the Authority System actively confirm annually their acceptance of the Authority's acceptable use policy.

9 Physical Media

- 9.1 The Supplier shall ensure that all:
- 9.1.1 OFFICIAL information is afforded physical protection from internal, external and environmental threats commensurate with the value to the Authority of that information;
 - 9.1.2 physical components of the Supplier System are kept in secure accommodation which conforms to the Security Policy Framework and CESG standards and guidance or equivalent;
