- 42.7 Relief from liability for the Affected Party under this Clause 42 shall end as soon as the Force Majeure Event no longer causes the Affected Party to be unable to comply with its obligations under this Contract and shall not be dependent on the serving of notice under Clause 42.6.

- 2.4 The indemnities in Paragraph 2.3 shall not apply to the extent that the Employee Liabilities arise or are attributable to an act or omission of the Replacement Supplier and/or any Replacement Sub-Contractor whether occurring or having its origin before, on or after the Service Transfer Date, including any Employee Liabilities:

2.8 Subject to the Replacement Supplier and/or Replacement Sub-Contractor acting in accordance with the provisions of Paragraphs 2.5 to 2.7, and in accordance with all applicable proper employment procedures set out in applicable Law, the Supplier shall indemnify the Replacement Supplier and/or Replacement Sub-Contractor against all Employee Liabilities arising out of the termination of employment pursuant to the provisions of Paragraph 2.7 provided that the Replacement Supplier takes, or shall procure that the Replacement Sub-Contractor takes, all reasonable steps to minimise any such Employee Liabilities.

 - 2.13.5 any statement communicated to or action undertaken by the Replacement Supplier or Replacement Sub-Contractor to, or in respect of, any Transferring Supplier Employee identified in the Supplier's Final Supplier Personnel List on or before the Service Transfer Date regarding the Relevant Transfer which has not been agreed in advance with the Supplier in writing;

The Supplier shall ensure that each of the Insurances is effective no later than the Commencement Date.
- 1.2 The Insurances shall be maintained in accordance with Good Industry Practice and (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent Contractor in respect of risks insured in the international insurance market from time to time.
- 1.3 The Insurances shall be taken out and maintained with insurers who are of good financial standing and of good repute in the international insurance market.
- 1.4 The Supplier shall ensure that the public and products liability policy shall contain an indemnity to principals clause under which DFID shall be indemnified in respect of claims made against DFID in respect of death or bodily injury or third party property damage arising out of or in connection with the Services and for which the Supplier is legally liable.

2.GENERAL OBLIGATIONS

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to the Services as it would be reasonable to expect of a prudent Contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
 - 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
 - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

3.FAILURE TO INSURE

- 3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.
- 3.2 Where the Supplier has failed to purchase any of the Insurances or maintain any of the Insurances in full force and effect, DFID may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances, and DFID shall be entitled to recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4.EVIDENCE OF POLICIES

- 4.1 The Supplier shall upon the Commencement Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to DFID, that the Insurances are in force and effect and meet in full the requirements of this Framework Schedule 2. Receipt of such evidence by DFID shall not in itself constitute acceptance by DFID or relieve the Supplier of any of its liabilities and obligations under this Agreement.

5.AGGREGATE LIMIT OF INDEMNITY

- 5.1 Where the minimum limit of indemnity required in relation to any of the Insurances is specified as being "in the aggregate":
 - 5.1.1 if a claim or claims which do not relate to this Contract are notified to the insurers which, given the nature of the allegations and/or the quantum claimed by the third party(ies), is likely to result in a claim or claims being paid by the insurers which could reduce the level of cover available below that minimum, the Supplier shall immediately submit to DFID:
 - (a) details of the policy concerned; and

(b) its proposed solution for maintaining the minimum limit of indemnity specified; and

5.1.2 if and to the extent that the level of insurance cover available falls below that minimum because a claim or claims which do not relate to this Contract are paid by insurers, the Supplier shall:

(a) ensure that the insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified for claims relating to this Contract; or

(b) if the Supplier is or has reason to believe that it will be unable to ensure that insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified, immediately submit to DFID full details of the policy concerned and its proposed solution for maintaining the minimum limit of indemnity specified.

6.CANCELLATION

6.1 The Supplier shall notify DFID in writing at least five (5) Working Days prior to the cancellation, suspension, termination or non-renewal of any of the Insurances.

In the event that DFID receives a claim relating to or arising out of the Services or this Contract, the Supplier shall co-operate with DFID and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.

7.2 Except where DFID is the claimant party, the Supplier shall give DFID notice within twenty (20) Working Days after any insurance claim in excess of **£1,000,000** relating to or arising out of the provision of the Services or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by DFID) full details of the incident giving rise to the claim.

7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.

7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. DFID Supply Partner Code of Conduct

Principles

DFID aims to create an inclusive culture of best practice with the delivery partners with whom it engages and which receive UK taxpayers' funds. All Supply Partners should adhere to the overarching principles of the Supply Partner Code of Conduct (hereafter "the Code").

Overarching Principles for Supply Partners

- ✓ **Act responsibly and with integrity**
- ✓ **Be transparent and accountable**
- ✓ **Seek to improve value for money**
- ✓ **Demonstrate commitment to poverty reduction and DFID priorities¹**
- ✓ **Demonstrate commitment to wider HMG priorities²**

DFID Supply Partner responsibilities

Supply Partners and their subcontractors (delivery chain partners) should ensure they have read and understood the Code and their required compliance level and seek clarification from DFID where necessary. In particular, it is important that the Supply Partners and their subcontractors (delivery chain partners) understand any risks and have systems in place to manage them. The 3 compliance levels are:

Compliance Level 1 - Supply Partners with an individual contract value of £1m or above, or two or more contracts/grants with DFID with a combined value of £5m or above;

Compliance Level 2 - Supply Partners with an individual contract value below £1m, or two or more contracts /grants with DFID with a value of less than £5m;

Compliance Level 3 - Supply Partners with an individual Contract value, or component of a Contract/Grant, with a value below the EU contracting threshold. At this level Supply Partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks. These Supply Partners will not be monitored against the contractual KPIs.

Scope

This Code forms part of DFID's standard contractual terms and conditions and full compliance and annual verification via a signed declaration, to be found at Annex 1b, is mandatory for contracted Supply Partners.

¹ <https://www.gov.uk/government/organisations/department-for-international-development/about#priorities>

² <https://www.gov.uk/government/organisations/hm-treasury/about#priorities>

Adherence to the Code at the appropriate level is also a requirement for DFID direct and delivery chain Supply Partners in receipt of funding. DFID will monitor Supply Partners in six priority areas as set out below using a set of Key Performance Indicators (KPIs) as referenced in Annex 1a and 1b.

1. Value for Money and Governance

Key Performance Indicators KPI 1 a - c

Value for Money and financial transparency is an essential requirement of all DFID commissioned work. All Supply Partners must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Supply Partners must demonstrate that they are pursuing continuous improvement and applying stringent financial management and governance to reduce waste and improve efficiency in their internal operations and within the delivery chain. DFID expects Supply Partners to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

Specific requirements include:

- ✓ Provision of relevant VfM and governance policies and a description of how these are put into practice to meet DFID requirements (e.g. Codes on fraud and corruption, due diligence);
- ✓ A transparent, open book approach, which enables scrutiny of value for money;
- ✓ Strict adherence to all UK and in-country government tax requirements;
- ✓ Processes for timely identification and resolution of issues and for sharing lessons learned which might be requested by DFID at any time.

2. Ethical Behaviour

Key Performance Indicators KPI 2 a- f

DFID Supply Partners and their delivery chain partners act on behalf of the UK government and interact globally with country governments, other aid donors and their delivery partners, many stakeholders including citizens and directly and indirectly with aid beneficiaries. These interactions must therefore meet the highest standards of ethical and professional behaviour in order to uphold the reputation of the UK government.

Arrangements and relationships entered into, whether with or on behalf of DFID, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by Supply Partner and delivery chain staff who:

- a) are directly involved in the management of a programme or procurement of services; or
- b) who engage with i) frontline DFID staff ii) other deliverers of aid iii) beneficiaries (of aid)

Where those in a) and b) could be susceptible to undue negative or detrimental influence.

Supply Partners and their delivery chain partners must declare to DFID where there may be instances or allegations of previous unethical behaviour by an existing or potential staff member or where there is a known or suspected conflict of interest. Where a potential or existing staff member has been employed by DFID or the Crown in the preceding two years Supply Partners and their delivery chain partner must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Supply Partners and their delivery chain partners must have the following policies and procedures in place:

- ✓ Development and proof of application and embedding of a Staff Recruitment, Management and Retention policy (which must address circumstances where there may be potential or actual conflict of interest and embedding of a Whistleblowing Policy)
- ✓ Ongoing monitoring of potential or existing personal, business or professional conflict of interest and their mitigation and management
- ✓ Ethical training for every staff member and staff updates in ethical working practices suitable to the development sector (e.g. UN Global Compact principles) including awareness of modern day slavery and human rights abuses
- ✓ Procedures setting out how, staff involved in DFID funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance to the DFID Counter Fraud and Whistleblowing Unit (CFWU) at reportingconcerns@dfid.gov.uk or on +44(0)1355 843747.

3. Transparency and Delivery Chain Management

Key Performance Indicators KPI 3 a – f

DFID requires full delivery chain transparency from all Supply Partners. All direct Supply Partners and their delivery chain partners must adhere to wider HMG policy initiatives including the support and capacity building of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

DFID recognises the critical value that downstream delivery partners contribute. Direct Supply Partners must engage their delivery chain partners in a manner that is consistent with DFID's treatment of its direct Supply Partners. This includes, but is not limited to: appropriate pricing of services; fiduciary and financial risk management processes; applying transparent and responsive measures where delivery chain partners underperform against the KPI areas; taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements. Direct Supply Partners must cascade the principles of the Code throughout their delivery chain to ensure DFID ethical behaviour standards are embedded and maintained.

Specific requirements for direct Supply Partners include:

- ✓ Provide assurance to DFID that the policies and practices of their delivery chain Supply Partners and affiliates comply with the Code;
- ✓ Maintaining and sharing with DFID up-to-date and accurate records of all downstream partners in receipt of DFID funds and/or DFID funded inventory or assets. This should map how funds flow from them to end beneficiaries and identify risks and potential risks along the delivery chain;
- ✓ Ensuring delivery chain partner employees are expressly notified of the DFID 'reporting concerns' mail box³ found on DFID's external website and of the circumstances in which this should be used;
- ✓ Publication of DFID funding data in accordance with the International Aid Transparency Initiative (IATI)⁴
- ✓ Supply Partners shall adhere to HMG prompt payment policy and not use restrictive exclusivity agreements with sub-partners.

³ <https://www.gov.uk/government/organisations/department-for-international-development/about#reporting-fraud>

⁴ <http://www.aidtransparency.net/>

4. Environmental issues

Key Performance Indicators KPI 4 a – b

DFID Supply Partners must be committed to high environmental standards, recognising that DFID's activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions. Supply Partners must demonstrate they have taken sufficient steps to protect the local environment and community they work in, and to identify environmental risks that are imminent, significant or could cause harm or reputational damage to DFID.

Commitment to environmental sustainability may be demonstrated by:

- ✓ Formal environmental safeguard policies in place;
- ✓ Publication of environmental performance reports on a regular basis
- ✓ Membership or signature of relevant environmental Codes, both directly and within the delivery chain such as conventions, standards or certification bodies (e.g. the Extractive Industries Transparency Initiative⁵).

5. Terrorism and Security

Key Performance Indicators KPI 5 a – d

DFID Supply Partners must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of the Terrorism Act 2000, and any subsequent regulations pursuant to this Act.

DFID Supply Partners must maintain high levels of data security in accordance with the Data Protection Act 1998 and any subsequent regulations pursuant to this Act, or new Act and with the General Data Protection Regulation (Directive 95/46/EC).

Specific requirements:

- ✓ Development and proof of application and embedding of a comprehensive Terrorism and Security Policy
- ✓ Development and proof of application and embedding of personal data processing processes within a Data Protection Policy
- ✓ DFID Supply Partners must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme⁶. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All DFID Supply Partners who manage aid programmes with a digital element must adhere to the global Principles for Digital Development⁷, which sets out best practice in technology-enabled programmes
- ✓ Ensure that DFID funding is not linked to terrorist offences, terrorist activities or financing.

6. Safeguarding, Social Responsibility and Human Rights

Key Performance Indicators: KPI 6 a – d

Safeguarding, social responsibility and respect for human rights are central to DFID's expectations of its Supply Partners. Supply Partners must ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within complex delivery chain environments funded by DFID. These practices include

⁵ <https://eiti.org/>

⁶ <https://www.gov.uk/government/publications/cyber-essentials-scheme-overview>

⁷ <http://digitalprinciples.org/>

sexual exploitation, abuse and harassment; all forms of child abuse and inequality or discrimination on the basis of race, gender, age, religion, sexuality, culture or disability. Supply Partners must place an emphasis on the control of these and further unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers and aid recipients. DFID will expect a particular emphasis on the management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

Specific requirements:

- ✓ Development and proof of application and embedding of a Safeguarding Policy;
- ✓ Delivery of Social Responsibility, Human Rights and Safeguarding training throughout the delivery chain;
- ✓ Compliance level 1 Supply Partners must be fully signed up to the UN Global Compact⁸;

Compliance KPIs and contractual checking mechanisms - DFID Contracts

Maintaining standards of assurance and driving sustainable improvements, in connection with the Code's principles through Supply Partner relationships is a key focus for DFID.

Supply Partner and delivery chain compliance checking processes will take place in accordance with the agreed compliance levels and the specific contractual clauses down the delivery chain, DFID shall undertake compliance checks.

Where appropriate, a plan setting out the Code of Conduct delivery methodology for the Supply Partner arrangements during the contract term may be jointly developed with DFID during Contract mobilisation.

UN Global Compact – Human Rights

Principle 1: businesses should support and respect the protection of internationally proclaimed Human Rights

Principle 2: businesses should ensure they are not complicit in Human Rights abuse

Organisations should do this by giving attention to vulnerable groups including women, children, people with disabilities, indigenous groups, migrant workers and older people.

Organisations should comply with all laws, honouring international standards and giving particular consideration to high risk areas with weak governance.

Examples of how suppliers and partners should do this are set out below:

In the workplace

- by providing safe and healthy working conditions
- by guaranteeing freedom of association
- by ensuring non-discrimination in personnel practices
- by ensuring that they do not use directly or indirectly forced labour or child labour
- by providing access to basic health, education and housing for the workers and their families, if these are not provided elsewhere
- by having an affirmative action programme to hire victims of domestic violence
- by making reasonable accommodations for all employees' religious observance and practices

In the community

- by preventing the forcible displacement of individuals, groups or communities
- by working to protect the economic livelihood of local communities
- by contributing to the public debate. Companies interact with all levels of government in the countries where they operate. They therefore have the right and responsibility to express their views on matters that affect their operations, employees, customers and the communities of which they are a part
- through differential pricing or small product packages create new markets that also enable the poor to gain access to goods and services that they otherwise could not afford
- by fostering opportunities for girls to be educated to empower them and also helps a company to have a broader and more skilled pool of workers in the future, and
- perhaps most importantly, a successful business which provides decent work, produces quality goods or services that improve lives, especially for the poor or other vulnerable groups, is an important contribution to sustainable development, including human rights
- If companies use security services to protect their operations, they must ensure that existing international guidelines and standards for the use of force are respected

INTRODUCTION

1. DFID is seeking a supplier¹ to undertake independent monitoring and provide a rapid research and evidence facility from approximately **October 2018 to March 2021** to support DFID's Safety, Support and Solutions Phase II programme (SSS II). The contract is expected to run for 2.5 years (depending on date of contract award) and will deliver against **four core outputs**. It will have built in flexibility to deliver additional outputs as negotiated through periodic work plans to be agreed between the supplier and DFID.
2. DFID's Safety, Support and Solutions Phase II (SSS II) programme is a new migration programme which aims to make migration safer and more orderly and provide critical humanitarian support, resulting in fewer deaths and less suffering along the Central Mediterranean Route². Over the period 2018-2020, DFID will allocate £75 million worth of funding to specialist partners to deliver the programme. Formal agreements have been signed with IOM, UNICEF, British Red Cross, and a consortium of INGOs led by the Danish Refugee Council. Partners will take a **route-based approach** (working across fourteen countries of origin, transit and destination, of which nine are focus countries to be covered by this Terms of Reference) to respond to the complex needs of mixed migrant populations including refugees, asylum seekers, economic migrants and victims of trafficking, in a wide range of countries (see next section) along the Central Mediterranean Route.

OBJECTIVE

3. The purpose of this contract is to deliver an **independent monitoring and rapid research and evidence function** on behalf of DFID that will deliver the following four outputs:
 - I. Verify and triangulate partner results and undertake additional data collection to gather evidence in **two countries (Libya and Mali)**, potentially expanding to a third country if required;
 - II. Assess the strength of lead partner M&E systems across the nine focus countries;
 - III. Provide rapid research and evidence **across the nine focus countries** of the SSS II programme (Burkina Faso; Guinea; Libya; Mali; Niger, Senegal; Egypt; Algeria; and Morocco) through a **rapid research and evidence facility**. Deliver **up to eight primary rapid research studies** during this contract to fill priority evidence and information gaps regarding route-based programming through primary research;
 - IV. Deliver **three learning forums/workshops to support lesson learning** between DFID, implementing partners and key external stakeholders.
4. **Independent monitoring (IM)** is expected to provide SSS II and DFID with a greater assurance of the results being achieved by partners in Libya and Mali (at activity and output levels), highlight key risks and improve programme design and learning. Critically, the IM will provide access to places which are largely inaccessible to DFID staff (Libya, Mali and potentially Niger).
5. The SSS II programme views independent monitoring as a mechanism to triangulate and verify programme monitoring and results data in remote programming environments. It

¹ The term "supplier" is used throughout this ToR to represent the company, NGO, or group of companies/NGOs/individuals who might bid for this contract. Tenders can be made by single organisations or groups.

² We use CMR to denote migratory transit routes through Africa, both from the Horn and West and Central Africa towards North Africa (with Libya being a key transit point and destination country in its own right for some migrants) and the Mediterranean Sea.

is **not** designed to replace project level monitoring and evaluation activity which is the responsibility of the programme implementer **nor** will it replace DFID staff conducting due diligence assessment follow up visits and routine monitoring visits in environments where this is possible. It will be proportionate to the overall size, spend, complexity and risk of the SSS II programme and is prioritised to fill specific gaps in monitoring coverage in remote programming contexts (Libya and Mali). The independent monitoring mechanism is not designed to investigate or highlight fraud³ and is instead a tool to support the management of overall portfolio and programme risk.

6. The **Rapid Research and Evidence Facility** is expected to provide SSS II and DFID with a mechanism to fill priority evidence and information gaps which support programme adaptation and learning. The aim of the research and evidence component is to provide insights into factors affecting the decisions and experiences of irregular migrants and potential irregular migrants, and contribute towards filling critical evidence gaps surrounding migration interventions. This is particularly focused on developing evidence to support **route based programming** and providing evidence towards some of the assumptions in the theory of change in order to support programme learning and adaption.
7. The Supplier will undertake a series of rapid primary research studies (2-6 months), focused on a particular topic of interest and will develop up to **8 short research reports** during the length of the contract. Reports should draw on desk research, evidence syntheses and primary field research and have a length of 10-20 pages (although this is flexible in discussion with DFID and depending on subject). It is expected that this facility will have the ability to conduct small-scale rapid primary research studies **across the nine focus countries**: Burkina Faso; Guinea; Libya; Mali; Niger, Senegal; Egypt; Algeria; and Morocco.
8. This activity will be guided by an evidence strategy which will be developed by DFID for this component in conjunction with the Supplier and will identify priority questions to form the basis for a detailed research plan. It is expected that the work plan will be revisited at regular points during the contract to ensure that rapid research is responding to the needs of the programme and is effectively supporting programme adaption and learning.
9. The expected **impact** of the independent monitoring and rapid research and evidence facility is: Improved performance of the SSS II programme. The expected **outcomes** are:
 - I. Improved programme delivery and accountability through robust results reporting, verification and a greater understanding of the quality of programme delivery by DFID staff and partners in Libya and Mali.
 - II. Improved programme adaptation and learning informed by evidence from the rapid research and mechanisms for lesson learning across the nine focus countries
10. The supplier will not be held accountable for the delivery of the outcomes or impact, rather DFID will assess the extent to which the Supplier contributes to them. The selected Supplier for the Independent Monitoring and Rapid Research and Evidence Facility (hereafter the Supplier) **will be responsible for delivering the outputs presented in the 'requirements' section of this TOR and for reporting against an agreed log frame and regular work plans.**
11. DFID is encouraging bids from a consortium of actors (with one lead supplier), involving actors with a proven track record of independent monitoring in fragile and conflict-

³ If fraud is suspected the supplier would have a duty to report it to DFID.

affected states, institutions with experience of working in and with well-developed research and knowledge networks in North and West Africa, and university departments or specialist institutes with experience of researching irregular migration. It is expected that this service will combine international monitoring expertise with local expertise in Libya and Mali to overcome access constraints, ensuring strong understanding of the local context and collecting reliable data from a population of beneficiaries on the move. However, the services described in this TOR will be provided under a single contract. Should the selected bid be provided by a consortium, the contract will be with the lead supplier, who will be responsible for the performance and delivery of services provided by consortium members and/or downstream partners.

BACKGROUND TO SSS II PROGRAMME

Context:

12. 2015 and 2016 saw a big spike in the number of people moving towards Europe; one million refugees and migrants arrived on European shores, mostly from Syria and the surrounding region. This increase can be attributed in part to the protracted war in Syria, limited opportunities in neighbouring countries, increasing instability in Iraq and Afghanistan and relative ease of travel.
13. Since 2013, there has been an increase in the number of migrants travelling on the Central Mediterranean route and 2017 saw an increase on the Western Mediterranean route. The situation has put pressure on asylum systems throughout Europe as well as on communities in transit and destination countries, with both refugees and migrants increasingly having undertaken perilous journeys. Migration into Europe however still represents a comparatively small number of people compared to the number of people moving internally in Africa.
14. The number of people dying or going missing crossing the Mediterranean has increased year on year since the peak of 2015, with a slight dip in 2017. The majority of incidents occur in the central Mediterranean, where a record number of 4,578 died or were recorded missing in 2016, and 2,856 in 2017. Although the most common cause of death is drowning many have passed away due to poor conditions on boats (fuel inhalation, fires on board, hunger, dehydration and hypothermia), reflecting the risks smugglers are willing to take with people's lives. While deaths at sea are the subject of media coverage, migrant accounts suggest that an even larger number of people lose their life during the gruelling land journey across the desert⁴.
15. Humanitarian agencies are particularly concerned by the vulnerability of migrants travelling along the CMR. Migrants often find themselves vulnerable to forms of modern slavery. While the drivers of migration are complex, it is a known risk factor for vulnerability to modern slavery precisely because people are exposed to numerous dangers while at the same time lacking the protections that might mitigate or eliminate those risks. For example, the IOM estimates that 70% of migrants travelling overland through North Africa to Europe along the central Mediterranean migration route were found to have been victims of human trafficking, forced labour and other forms of exploitation such as organ and blood trafficking during their journey⁵.

SSS II Programme:

16. The evidence tells us that irregular migration towards Europe too often involves journeys being taken by very vulnerable people along very risky routes. The SSSII programme therefore aims to make migration safer and more orderly and provide critical humanitarian support, resulting in fewer deaths and less suffering along migration routes.
17. The programme takes a **route based approach**, responding to the complex needs of migrating populations consisting of refugees, asylum seekers, and economic migrants, in both source and transit countries along the Central Mediterranean Route. The programme will implement directly along migration transit routes through West Africa and the Sahel towards the central Mediterranean, with a watching brief on alternatives routes (e.g. Horn of Africa countries through Sudan and Egypt). Programming activity is anticipated in source, transit and destination countries in North and West Africa and the Horn of Africa, namely Burkina Faso; Cote D'Ivoire; Gambia; Guinea; Libya; Mali; Niger, Nigeria; Senegal; Algeria; Sudan; Tunisia; Egypt; and Morocco.
18. The expected impact of the SSS II programme is that migration is safer and more orderly, resulting in fewer deaths and less suffering along migration routes towards Europe (**see annex 2** for the theory of change). The expected outcomes are:
 - I. Migrants and refugees in vulnerable situations at key points along the CMR are better protected from harm
 - II. Increased access to solutions, including reintegration initiatives and strengthened protection systems, that meet migrants needs.
 - III. Key actors have greater understanding of who moves and where they move as well as migrant vulnerabilities and protection concerns along the journey and use this information to make migrant journeys safer
 - IV. SSSII contributes to the evidence base on migration decision-making (regular and irregular) and the influence that interventions may have on this.
19. Specific activities under the SSSII programme will include:
 - I. **Providing life-saving assistance along migration routes** such as improved shelter facilities, access to medical assistance (primary care, sexual and reproductive health, mental health and disease prevention and secondary referrals), food and other basic relief items.
 - II. **Protection services** for the most vulnerable migrants and refugees travelling along transit routes, including cash assistance (where appropriate), psychosocial support and referrals to NGO and state services, targeted support for vulnerable groups, including violence prevention activities and Best Interest Determination (BID) case management of unaccompanied minors.
 - III. **Support** for assisted voluntary return for migrants who decide to return home, sustainable reintegration assistance based on a piloted case management approach, and capacity building to strengthen asylum procedures in transit countries as well as **social cohesion** in host communities to encourage integration;
 - IV. **Innovative pilot programme looking at the drivers of irregular migration, including cultural as well as socio-economic factors in key source countries.** For example, this might be through community-led programmes, individual and collective livelihoods programmes and skills exchanges. The aim of this intervention will not be to have an overall impact on peoples' decisions to migrate, but to understand how interventions can influence decision making and test what constitutes "meaningful alternatives" to risky irregular journeys with a view to building the evidence base on "what works" to address root causes.

- V. **High quality data and evidence that improves migration management** and makes it safer, by ensuring governments have accurate **information about migration trends** and humanitarian actors are informed about the risks to people on the move, leading to better targeting of their responses.
 - VI. **Technical assistance for the scale up of effective migration programming in source countries – delivered through DFID's country network - through support on** scoping, evidence gathering, technical advice and programme design.
20. The partners selected for implementation under this programme are **International Organisation for Migration (IOM), United Nations Children's Fund (UNICEF), the British Red Cross (with IFRC and Partner National Societies) and an NGO consortium led by Danish Refugee Council (DRC)**. As of **June 2018**, all partners had started inception phase activities and **full implementation is expected to start in September 2018.**
21. The table below summarises the lead and downstream partners (as currently known) and planned districts/provinces to be targeted by DFID funded projects as part of the SSS II programme. **This list will be revised during the inception phase as more downstream partners are contracted.**

⁶ Note: project activities will be targeted to specific areas. Full project data will be shared with the supplier during the inception period.

The Recipient:

22. The **recipient of these services** is the DFID Migration and Modern Slavery Department. The Supplier will report their findings to DFID in the first instance and may subsequently be required to present their findings and recommendations to partners.
23. The **primary target audience** for the products from this contract are the SSS II programme team and the DFID Migration and Modern Slavery Department and implementing partners.
24. The **secondary audiences** for the products from this contract are as follows:
 - I. For independent monitoring: DFID implementing partners under the SSS II, DFID and other donors.
 - II. For the rapid research, evidence and learning components a wider audience will be relevant including: DFID country offices; (where relevant) other Government departments working on migration; independent bodies and research organisations including DFID's External Reference Group (independent group of academics).
 - III. Where outputs are expected to be published the secondary audience would include the UK public.

SCOPE OF WORK

25. The Supplier will deliver independent monitoring services in two countries and a rapid research and evidence facility for the SSSII programmes across up to fourteen countries. The work of the Supplier will be divided into four key components namely:
 - I. Independent monitoring to verify and triangulate partner reporting in Libya and Mali (with the potential to expand to Niger if required)
 - II. A rapid research and evidence facility to ensure that the programme learns from and builds the evidence base on route-based programming
 - III. Assessments of lead partner M&E systems in each of the nine focus countries.
 - IV. Convening of 3 learning forums.
26. The Supplier bids should set out proposed approaches and methodology that will be used to deliver each of the four components and meet the outputs as outlined in the next section (requirements).
27. Proposed methodologies should take into account the **multi-sited nature of the programme activities** and the difficulties with accessing verifiably accurate statistics on irregular migration and the complex nature of migrant decision making. This should include considerations of how to incorporate the views of migrants and affected communities using innovative design methodologies and local implementing partners.
28. The use of technology (mobile, tablet) for data collection should be considered given the transient populations involved. Photographic and geo-referenced evidence of project implementation of the field monitoring visits will also need to be collected by the supplier in-line with security considerations, ethical principles and in consultation with partners being monitored.
29. The use of other partner data (such as the European Union Trust Funds (EUTF) and IOM) should also be considered to both contextualise and triangulate the data collected through independent monitoring and the rapid research and evidence facility.

Requirements:

Outputs

30. The outputs and milestones of the contract, to be achieved by the Supplier over the programme period (**October 2018-March 2021**) are outlined in the table below. The final outputs and their delivery will be agreed between the supplier and DFID, and will be agreed and documented in work plans during the inception phase.
31. Outputs included are **core and potential**. Please note that year two and three milestones are indicative.

Note: Expansion of output 1 and 2 could potentially include partners working in other countries (i.e Niger) if required and agreed with sufficient notice (circa three months). This expansion may or may not fall under the indicative results stipulated above.

32. The milestones for year one stipulated above are the minimum expected from the supplier. However, DFID requires flexibility to be built into the contract to allow for an increase in milestones or additional outputs agreed within a reasonable lead time.

Core outputs:

Independent monitoring in Libya and Mali

⁷ **Note:** these are based on the current number of projects and planned locations of operation and is subject to change. Projects with high risk, high results and high spend will be prioritised for inclusion in the independent monitoring contract. It assumes visiting each project site at least once annually. Where provision of different services (eg. information provision, direct assistance and protection monitoring) is delivered through one place one monitoring visit is expected to cover range of services.

⁸ Assumes an assessment of the MEL systems of all lead implementing partners in each of the 9 countries including where possible an assessment of the quality of downstream partners data.

Output 1: Independent verification and triangulation of results through documented field monitoring and additional data collection in Libya and Mali

Documented field visits with verification and triangulation of results with beneficiaries, non-beneficiaries and key stakeholders

33. Independent monitoring will involve working with SSSI partners (IOM, UNICEF, Red Cross, and DRC) in the following countries of implementation: **Libya and Mali**. This contract must also have the potential to undertake independent monitoring for projects in Niger. Partners have been made aware and have positively engaged with the proposed approach to independent monitoring.
34. It is expected that projects with high risk, high spend and a high proportion of overall results will be prioritised for independent monitoring visits. The methodological approach, tools and the sampling approach for independent monitoring visits, wider data collection will be signed off by DFID during the inception phase.
35. The independent monitoring approach will require **verification of partner results data at the activity and output level** as well as **undertaking additional data collection including real-time observations and beneficiary feedback mechanisms**. Real time observations are likely to be required given the nature of the migrant populations that are being supported and the type of interventions (eg. mobile support units) that are being delivered.
36. The proposed methodology for independent monitoring must include qualitative and quantitative monitoring techniques. The proposals should set out an approach to **verifying** the quality of reported data, quality of outputs, and collecting a wide range of beneficiary and non-beneficiary feedback including:
- I. Verifying partner quantitative results reporting, including opportunities and challenges for data disaggregation by sex, age, disability and location;
 - II. Verifying the quality of outputs and of targeting approaches;
 - III. Collecting a wide range of beneficiary, non-beneficiary and key stakeholder feedback through the use of focus groups and key informant interviews and other methods;
 - IV. Analysing, triangulating and synthesising the information into standardised reports and actionable summaries which include the use of dashboards and data visualisation.
37. It is envisaged that a suite of monitoring tools will be used to meet the needs for independent monitoring services including, but not limited to, **field observations, focus group discussions, beneficiary interviews, key informant interviews, and monitoring system assessments**. The independent monitoring approach is expected to include a substantial component of **beneficiary feedback**⁹ including from irregular migrants, communities in source and transit communities and to explore the perspectives of a wide demographic, including vulnerable, groups. Proposed approaches to beneficiary feedback must ensure approaches take into account gender, age, disability and location and ensure that beneficiary engagement is used not only to verify results but also to hold DFID and its partners accountable to affected populations where feasible. **Non-beneficiary feedback** to triangulate results might include key informant

⁹ Suppliers will be expected to outline their approach to beneficiary feedback, ethical protocols and data management procedures to ensure data collection does not put field monitors, partners and/or beneficiaries at risk, and ensures DFID's safeguarding standards are met.

interviews with programme delivery staff, government officials and other key stakeholders as well as those who have not been exposed to the programme.

38. The Supplier will be expected to propose the sampling frame for field monitoring schedule and this will be signed off by DFID. Agreement on what is included as part of the field visits and monitoring reports will also be agreed with the supplier during the inception period and signed off by DFID.
39. The supplier must produce short, high quality independent monitoring reports after each field visit which provides actionable recommendations in an accessible manner which will be used to strengthen the programme. It is expected that all IM reports include a **dashboard** assessing progress against key outputs and indicators in the log frame.
40. DFID will use the insights gathered through independent monitoring to improve understanding of implementing partners' activities and performance, and facilitate learning and improve accountability.
41. The recommendations from independent monitoring will be taken on board by DFID programme staff and used as points for discussion with programme implementers. As a result, we expect partners to learn and adapt implementation and strengthen their accountability systems. Programme implementers will also be required to respond to the findings highlighted by the independent monitoring. Where relevant, the insights and lessons from independent monitoring will also be shared more broadly within DFID.
42. In addition, the supplier will need to produce **seven reports** throughout the duration of the programme, consolidating findings from field monitoring and ongoing assessments of partner progress. At the end of the programme, reports from the independent monitoring and rapid research facility will feed into the programme level evaluation (alongside other data sources). The detailed requirement of the progress report will be agreed with the Supplier during the inception phase.

Output 2: Assessment of lead partner monitoring & evaluation systems across the nine countries to ensure coherent monitoring, evaluation and learning systems

41. In year one and two of the contract, the supplier will complete assessments of the lead partners M&E systems across the nine countries. This will involve meeting with lead partners and a selected number of their downstream partners and making recommendations for improvement. This is to support the coherence of monitoring, evaluation and learning for the programme as a whole and strengthen partner approaches to this.
42. Key parameters to assess partner monitoring systems must be developed and recommendations formulated against each one of these parameters to enable partners able to improve their monitoring. In addition to the key monitoring parameters, the supplier will also look at how social inclusion, gender and conflict sensitivity is considered and monitored by partner as well as the extent to which partners are able to sufficiently **disaggregate data** on gender, disability¹⁰, age, location and direction of travel.

¹⁰ Using the Washington group question set <http://www.washingtongroup-disability.com/washington-group-question-sets/short-set-of-disability-questions/>

43. It is important the assessments are able to highlight where MEL systems could be further harmonised with DFID reporting systems as well as assessing data quality and providing DFID with an assurance of the strength of MEL.
44. DFID will prioritise the partners that will need to be assessed by the supplier in year one of the contract and the supplier will set the initial and follow up schedule in consultation with DFID and partners.
45. Each M&E assessment of a partner is expected to last for an average of four to five days. This will include, pre-reading¹¹ (of business cases, projects' proposals, log frames, reports and other partner specific monitoring related documents selected by DFID), travelling, interviews with partners/downstream partners and writing the partner specific assessment report. It is expected that partner assessments also include a review of partners' complaints and feedback mechanisms for lesson learning and accountability, including verification at the field level (where this is proportionate and required). Suppliers are invited to offer an alternative methodology but are advised to consider DFID's current approach as indicative of the level of depth required. DFID will sign off the approach proposed by the Supplier to assessing partner MEL systems during the inception phase.

Output 2.2: Follow up on partner M&E assessment recommendations

46. In year two and three of the contract, the supplier will follow up with the partners on the recommendations made in year one. The assumption is that most assessments will generate recommendations that the supplier will be able to follow up remotely and which will not require face-to-face meetings.

Output 3: Development of rapid research and evidence reports to support programme adaption and learning

Rapid research and evidence facility to support adaptive programming across the nine focus countries

47. The rapid research and evidence facility will involve undertaking primary and secondary research on key evidence issues to inform programme delivery. The supplier must have the ability to undertake primary field research focused **on any of the nine focus countries** the programme is operating in and/or along the migration route the programme is targeting.
48. The aim of the research component will be to provide insights into factors affecting the successful delivery of migration-focussed programming by filling critical evidence gaps surrounding these interventions, including some of the key assumptions underpinning the SSS II Theory of Change. The Supplier is expected to outline an approach which ensures that the programme learns from and builds the evidence base for programmatic approaches aimed at protecting people on the move via route based, multi-sectoral programme interventions.
49. The Supplier must have the ability to undertake a series of rapid (2-6 months) research studies, and develop up to 8 short research reports during the lifetime of the contract.

¹¹ Through this background work the supplier will develop a good understanding of project activities, aims and objectives, implementation modalities, project site locations, and the project delivery chain that can be cross checked through field visits and interviews.

50. DFID will produce an evidence plan to identify and provide a rationale for key research topics and work with the supplier to identify key gaps in knowledge, to create and agree a detailed research plan in order to fill these gaps. This will be supported by a work plan for each of the rapid research studies developed in collaboration with the supplier. Mini TORs will be created for each study. DFID expects to sign off on the research questions, proposed methodological approach and data analysis plans for each study.
51. **The rapid research reports** will be used by DFID staff and partners to help answer key evidence issues which affect programme delivery; fill key evidence gaps on route-based programming and support programme adaptation. Rapid research reports should be no more than 20 pages in length and written to an externally publishable standard. They are expected to include primary field research, secondary data, synthesised findings and an impactful executive summary and actionable recommendations. Where possible they should include data visualisations. It is likely that the rapid research reports will be **published externally**.
52. DFID recognises that there are significant weaknesses and limitations of available data on migration. The supplier should therefore both use and contribute to existing data sources, including:
- I. IOM's displacement tracking matrix (DTM) which tracks and monitors displacement and population mobility
 - II. MHub – regional knowledge hub and secretariat for the North Africa Mixed migration task force
 - III. The Regional Mixed Migration Secretariat (RMMS) Horn of Africa and RMMS West Africa support agencies, institutions and forums to improve management of protection and assistance response to mixed migration flows. It produces a range of information, research and analysis
 - IV. The Mixed Migration Monitoring Mechanism Initiative (4Mi) addresses the need for data on mixed migration movements by collecting information directly from migrants on the move as well as smugglers.

Output 4: Supporting lesson learning across partners: delivery of 3 learning workshops

53. The Supplier will assist DFID to individually and collectively share information and lessons, identify best practice and ensure coherence and learning across partner activities.
54. This work will involve co-convening learning forums with DFID and partners for SSS II to share insights and evidence from the rapid research reports, independent monitoring and wider monitoring, evaluation and learning data. We envisage this taking place every year of the contract with a focus on learning to support adaptive programming and culminating in a short lessons synthesis for use by all partners.
55. This is likely to involve synthesising data and producing products to support learning, leading on MEL capacity building and facilitating structured learning sessions to ensure evidence is guiding approach to adaptive programming.
56. DFID will work with the supplier to agree the timing, agenda and format of these learning forums. To note it is likely that these will need to be held regionally to ensure partner engagement.

Other Specific Requirements:

Relationship between the Supplier, DFID and partners

57. Prospective Suppliers should be clear that the SSS II implementing partners are responsible for managing the SSS II programme and monitoring progress against the agreed log frame. The Supplier is not expected to substitute or replace the partners' own reporting systems. Rather, as detailed above they are expected to assess partners' systems, verify reported data using a sampling approach and collect supplementary data from beneficiaries, non-beneficiaries and other key stakeholders.
58. The relationship between the Supplier and the partners will be key to the success of the independent monitoring and rapid research and evidence components. DFID will be responsible for ensuring that partners agree in principle to cooperate with monitoring and vice versa, while the Supplier will need to put that cooperation into a practice. In the proposal, prospective Suppliers should describe in detail how they would approach this, and what governance arrangements should be put in place.

Ethical considerations

59. Significant ethical issues may arise from efforts to monitor and research the situation of refugees and irregular migrants (see risks section for further elaboration). The Supplier and partners must follow the do no harm approach and researchers must follow the ethical guidelines developed by the Refugee Studies Centre's Research Committee.
60. Supplier bids must include reference to how the contract will identify and manage these considerations, including when dealing with very vulnerable groups in high risk environments and with sensitive personal data and provide their own organisational protocols to mitigate ethical risks.

Consideration of other actors

61. There are many donors active in funding migration-targeted activities in North Africa, West Africa and the Horn of Africa regions. Any monitoring and evaluation activities therefore need to take into account and be coordinated with other relevant actors.
62. Most significantly, the EU Emergency Trust Fund for Africa (EUTF) was launched at the November 2015 Valletta Summit at the height of movement of refugees and irregular migrants into Greece and up the Western Balkans route. The EUTF is aimed at addressing the root causes of irregular migration, by building stability and improving better migration management in three regions seen as central to Europe's migration challenge: North Africa; The Sahel and Lake Chad; and the Horn of Africa. Over € 2.9 billion has so far been pledged and allocated for the most part on large scale economic stimulus (livelihoods, food security and financial assistance) along the key routes. A large proportion of the EUTF budget is programmed via EU countries development agencies and international organisations. The EUTF is therefore a very significant actor providing migration-targeted funding in the same geographical areas as the SSS II.
63. DFID's SSS II is focussed on making migration 'safer and more orderly' rather than the wider objectives of EUTF. However, given the scale of the EUTF and the significant overlap between the EUTF's implementing partners and those of the SSS II, the monitoring approach and findings of the EUTF and other migration programming need to be considered.

REPORTING

64. The Supplier is required to submit formal reporting against output 1, 2, 3 and 4, and attend periodic meetings to discuss progress and future workplans with DFID.
65. The table below sets these indicative deliverables within a provisional timeframe, the exact dates of which will be finalised between the supplier and DFID at the contract award stage.

SKILLS AND EXPERIENCE

66. Bids are encouraged from consortia involving actors with a proven track record of independent monitoring in fragile and conflict environments; institutions with well-developed research and knowledge networks in North and West Africa; and university departments or specialist institutes with experience of researching irregular migration.
67. More specifically the **independent monitoring team** should have a range of skills and expertise in order to effectively deliver the required outputs, including:

- I. Extensive expertise in and strong track record of designing, coordinating and delivering complex independent monitoring systems for humanitarian or development programmes in fragile and conflict-affected states;
- II. Technical expertise and experience of monitoring humanitarian or development programmes related to or involving migration, refugees, assisted voluntary return/resettlement and re-integration and delivering monitoring to support adaptive programming;
- III. Strong field management, ability to manage workflow, and plan visits and tasks across projects and across sites efficiently;
- IV. Operational monitoring expertise in North Africa and West Africa contexts, ideally from a mixed migration perspective, including command of languages.
- V. Strong track record of delivering a flexible and adaptable approach to a changing environment and workload (e.g. being able to expand and contract the geographic spread and scope of work);
- VI. Good understanding of institutional donor demands alongside expertise of consolidating and analysing information, and producing and presenting high quality reports to DFID and others;
- VII. Strong track record of convening learning mechanisms to support adaptive programming;
- VIII. Strong understanding of value for money, gender, and capacity to address these issues, as well as capacity to manage financial and fraud risks, is essential.

Local field monitoring staff

- I. Representative of the migrant communities that the projects are targeted towards (and a mixture of gender, ages and social groups);
- II. Trained in monitoring good practice including conflict sensitivity, gender, social inclusion and the specific monitoring approaches to be used under this contract;
- III. Investment in training is expected, to establish the skill set of staff, ensure a uniform approach and support the security and wellbeing of field monitors. Great efforts must be taken to ensure that standardised methods and principles are understood and adhered to. The supplier should develop a recruitment and training plan as part of their tender. The plan should include a staff retention strategy.

68. The **rapid research and evidence facility team** should demonstrate a range of skills and expertise needed to meet delivery of the outputs including:

- I. Extensive expertise of delivering primary and secondary research and research/evidence syntheses of issues such as migration, refugees, assisted voluntary return/resettlement and re-integration;
- II. Extensive expertise of producing externally published research papers in support of programme adaptation and learning;
- III. Operational research expertise in North Africa and West Africa contexts, ideally from a mixed migration perspective.

BUDGET

69. The maximum budget currently available for this contract is **£3 million**. This will cover all the activities and travel costs of the Supplier. It is envisaged that the split of costs will be as follows: i) **Independent monitoring of projects in Libya and Mali** (up to £1m); ii) **Rapid Research facility across the nine focus countries and co-convening of 3**

learning forums (up to £1.5m) and iii) **Assessment of partner M&E systems** (up to £500k).

70. In their bids, suppliers should propose a suitable approach and indicative division of the budget for this engagement, including suggested payment dates.
71. DFID reserves the right to scale back or discontinue this contract at any point (in line with our Terms and Conditions) if it is not achieving the results anticipated or on grounds of fraud and/or corruption.

TIMEFRAME AND BREAK POINTS

72. The contract will commence approximately **October 2018 and is anticipated to run up to March 2021** – the *anticipated* end date of the SSS II programme implementation. The SSS II programme is currently scheduled to end in March 2020, but may be extended to March 2021. If the SSS II programme is not extended, this contract will terminate in March 2020. There will be a short **inception period** from October to December 2018 before implementation starts. Bidders are requested to submit technical and commercial proposals which cover activities, outputs and costs under both timeframes.
73. There will be a break point for this contract in **December 2019** to enable DFID to review progress, including whether to continue to March 2021 if this has not been confirmed before then.

GOVERNANCE ARRANGEMENTS

74. The Supplier will report to the DFID Migration Department's Evaluation Adviser and Senior Programme Manager (SPM) and DFID will have unlimited access to the material produced by the Supplier.
75. To ensure independence, effective governance and technical rigour the methodological approach and design for each component of the independent monitoring and the rapid research facility will be signed off by the DFID evaluation adviser and a **reference group** organised by DFID will provide technical input and transparency to this contract.
76. DFID will agree a work plan with the Supplier, including the proposed sampling of site visits. DFID will sign off on the methodological approach, tools and sampling approach proposed for independent monitoring, partner assessments and the rapid research and evidence facility during the inception phase. It is expected that the Supplier will independently manage the implementation plan, but will consult the DFID Evaluation Adviser and SPM before decisions are taken. Regular progress meetings will be held monthly.
77. DFID will support the selected Supplier in understanding the programme and the standard tools used in monitoring activities and outputs. DFID will also ensure that necessary connections are made between the Supplier, implementing partners, local implementers and their field staff; but does not expect to play the role of relationship manager/ liaison, nor will we hold any duty of care responsibility for the successful suppliers of this ToR.
78. In line with the International Aid Transparency Initiative (IATI), DFID requires partners receiving and managing funds to release open data on how this money is spent, in a common, standard, re-usable format and to require this level of information from immediate sub-contractors, sub-agencies and partners. Further information is available

from: <http://www.aidtransparency.net/>. The supplier should submit copies of its supply chain (sub-contractor) invoices and evidence of payment when invoicing DFID for its actual costs of procurement of local services and applicable management fee.

CONTRACTUAL ARRANGEMENTS

79. The services described above will be provided under a single contract. Should the selected bid be provided by a consortium, the contract will be with the lead supplier, who will be responsible for the performance and delivery of services provided by consortium members and/or downstream partners.
80. This will be an **output based** contract and payment will be based on satisfactory delivery of the outputs. Indicators will be included in the log frame to assess both the quantity and quality of deliverables. Bidders will be expected to outline the Methodology for ensuring the requirement will be delivered on time and in line with agreed costs, with financial risks identified and mitigated. Bidders should also be able to demonstrate a clear and effective financial approach, methodology and plan to deliver key outputs within the prescribed timeframe. Payments should be clearly linked to outputs/milestones within the ToR with an appropriate level of risk being accepted by the Supplier.

RISKS AND CONSTRAINTS

81. The **multi-site nature** of activities some of which in difficult areas for humanitarian and research actors to access, the complexity and fluidity of both the context and nature of migrant decisions and multiplicity of trajectories and the availability and questionable accuracy of data makes this a uniquely challenging programme to monitor.
82. Suppliers should include in their bids the **key risks** that they perceive and how they plan to manage and mitigate them. These risks should be presented in a risk matrix, including the level of risk and how partners plan to identify, monitor and respond to these challenges. Some of the key risks and challenges that DFID has already identified and which suppliers are expected to address in addition to other risks, include:
 - I. Delivery – Challenges include:
 - i. Identifying and engaging with migrant populations and assessing and responding to the rapidly changing needs.
 - ii. Risk of arrest and/or charges brought by authorities towards persons perceived to be conducting non-sanctioned research, criticising government or assisting migrants in any way.
 - iii. Risk of causing harm to migrants and refugees from association, (e.g. drawing attention to their status or aspects of vulnerability), inability to offer support/services in impartial monitor role, managing expectations.
 - iv. Inability to access areas to conduct research, or need to work through local actors on the ground who may not have the skills and tools required to achieve minimum standards of monitoring/ research etc.
 - v. Risk of psychological distress from working with people with complex needs and protection issues (either realised or potential).
 - vi. Risk of death or injury (inherent in conflict affected and fragile environments where monitoring will take place, e.g. in Northern and Central Mali, Northern Niger, Libya);
 - vii. Additionally, programme activities and initiatives in source countries could fail to impact movement as predicted.

- II. External – Challenges include:
 - i. The programme will be working in a complex and rapidly changing context. Changes in political inertia/incapacity in source and transit countries, as well as changes in the international migration policy framework e.g. the EU Turkey deal, could lead to changes to the flows and trajectories of migrants and their needs. Mitigating and responding to these challenges will require strong coordination with key stakeholders e.g. local and national authorities and flexibility to change course throughout the programme duration.
- III. Data – Challenges include:
 - i. The limitations in available, reliable and comparable data present a key challenge to identifying, tracking and assisting people on the move.
 - ii. Risks to data confidentiality, transportation and security.
 - iii. Risks of identifying migrants and beneficiaries in data analysis and reporting,
- I. Safeguards – Challenges include:
 - i. Any intervention risks harm to both the migrant and service provider arising from the interaction or negative perceptions related to funded activities. Partners must follow the do no harm to migrants and include in proposals how they plan to incorporate this into their programming.

DUTY OF CARE

83. All supplier personnel (including their employees, sub-contractors or agents) engaged under a DFID contract will come under the duty of care of the lead supplier. The supplier is responsible for the safety and well-being of their personnel and any third parties affected by their activities, including appropriate security arrangements. The supplier will also be responsible for the provision of suitable security arrangements for their domestic and business property. DFID will share available information with the supplier on security status and developments in-country where appropriate. Travel advice is also available on the FCO website and the supplier must ensure they (and their personnel) are up to date with the latest position.

Do No Harm

84. DFID requires assurances regarding protection from violence, exploitation and abuse through involvement, directly or indirectly, with DFID suppliers and programmes. This includes sexual exploitation and abuse, but should also be understood as all forms of physical or emotional violence or abuse and financial exploitation.
85. This programme is targeting a highly sensitive area of work. The Supplier must demonstrate a sound understanding of the ethics in working in this area and applying these principles throughout the lifetime of the programme to avoid doing harm to beneficiaries. In particular, the design of interventions including research and programme evaluations should recognise and mitigate the risk of negative consequence for women, children and other vulnerable groups. The supplier will be required to include a statement that they have duty of care to informants, other programme stakeholders and their own staff, and that they will comply with the ethics principles in all programme activities. Their adherence to this duty of care, including reporting and addressing incidences, should be included in both regular and annual reporting to DFID.

86. A commitment to the ethical design and delivery of evaluations including the duty of care to informants, other programme stakeholders and their own staff must be demonstrated.
87. This contract will require the supplier to operate in conflict-affected areas and parts of it are highly insecure. The security situation is volatile and subject to change at short notice. The supplier should be comfortable working in such an environment. It is not expected that the supplier would put staff at risk or send them to the most insecure areas, but the supplier must have the ability to monitor projects in the programme implementation locations.
88. The supplier is responsible for ensuring that appropriate arrangements, processes and procedures are in place for their personnel, taking into account the environment they will be working in and the level of risk involved in delivery of the contract. The supplier must ensure their personnel receive the required level of training prior to deployment (where applicable).
89. The supplier must comply with the general responsibilities and duties under relevant health and safety law including appropriate risk assessments, adequate information, instruction, training and supervision, and appropriate emergency procedures. These responsibilities must be applied in the context of the specific requirements the supplier has been contracted to deliver (if successful in being awarded the contract).
90. DFID will not award a contract to a supplier who cannot demonstrate they are willing to accept and have the capability to manage their duty of care responsibilities in relation to the specific procurement. Please refer to the Supplier Information Note on the DFID website for further information on our Duty of Care to Suppliers Policy¹².
