<b>Can we define your available and ideal budgets?</b>	In the region of £25,000 per year, with the potential for additional budget for ad-hoc digital campaigns
<b>Do you have a current hosting provider and any preferred vendors for hosting or are you vendor agnostic?</b>	Currently, our site is hosted by AWS (Amazon web services) but technically it can be hosted anywhere with Windows and internet connectivity. We are open to suggestions, however our top preferences are either AWS or Microsoft Azure.
<b>Do you have a preferred Content Management System (CMS) or are you technology neutral and open to discovery deciding the best fit for your users requirements?</b>	Our site uses Sitefinity therefore in the immediate future we would require a provider who has good experience of the Sitefinity CMS. We are not opposed to moving away from Sitefinity in the future if a business case can be made to do so. However, this could not take place immediately.
<b>What are your current average monthly visits for the site?</b>	Page views across the site average 55-60k per month
