3.6 If the Client terminates a Lot Contract, the Client may remove that Delivery Contractor from the Allocation Order and it shall be entitled to enter into a Lot Contract with a replacement contractor (a "**Replacement Delivery Contractor**"). Where a Replacement Delivery Contractor is appointed, then that Replacement Delivery Contractor shall be added to the bottom of the Allocation Order and the Client shall issue a revised Allocation Order to each Delivery Contractor and such revised Allocation Order shall supersede any previous version for the purposes of the Rotational Procedure.

3.7 The Rotational Procedure shall not apply to a Task Order issued following the allocation of a Services Task Order to a Delivery Contractor or any Task Order to which the Extraordinary Identification Procedure or the Run Off Identification Procedure applies.

4 Extraordinary Identification Procedure and Run Off Identification Procedure

4.1 Where an Extraordinary Event arises the Client shall, at its discretion, be entitled to identify the Delivery Contractor it considers to be the most suitable for the procurement irrespective of the Allocation Order.

4.2 Where a Task Order relates to Run Off Works, the Client may, at its discretion, be entitled to allocate the Run Off Works to the appropriate Run Off Delivery Contractor provided that:

4.2.1 the Client can demonstrate that this may be of benefit to the Client (including but not limited to enable the Client to receive the benefit of cost savings); and

4.2.2 the Identification Procedure for the relevant Task Order takes place on or before the Run Off Longstop Date.

5 Alternative Lot Contracts

5.1 For any Extraordinary Event and/or Task Order where:

5.1.1 no Delivery Contractor wishes to be selected for the Pricing Process or to undertake the Works that are the subject of the Extraordinary Event; and/or

5.1.2 the Client determines that each applicable Delivery Contractor:

(i) is an Ineligible Delivery Contractor; and/or (ii) has

received a YELLOW score and/or a RED score,

so that they are excluded from participating in the Rotational Procedure for that Task Order,

the parties agree that the Client, at its discretion, shall be entitled to select a delivery contractor from an alternative Lot Contract and the Client shall apply the applicable identification procedure set out within that Lot Contract.

5.2 For any extraordinary event and/or task order which occurs under another Lot Contract where:

5.2.1 no delivery contractor under that other Lot wishes to be selected to undertake the works that are the subject of the extraordinary event; and/or

5.2.2 the Client determines that each applicable delivery contractor appointed under a Lot Contract in relation to that other Lot: (i) is an ineligible delivery contractor; and/or

(ii) has received a YELLOW score and/or a RED score,

so that they are excluded from participating in the rotational procedure under that other Lot Contract for that Task Order,

the parties agree that the Client, at its discretion, shall be entitled to use the applicable identification procedure under this Lot to select a Delivery Contractor to deliver the applicable works.

6 Pricing Process

- 6.1 Following the completion of the relevant Identification Procedure which results in a Delivery Contractor being eligible to participate in the Pricing Process, the Client shall undertake the Pricing Process with that Delivery Contractor.

Part B

1 Preparation of Task Order Proposal

- 1.1 The Client shall submit a written request (the “**Project Instruction**”) for the Delivery Contractor to produce outline proposals for the Proposed Task. The Client shall provide such information (including arrangements to access the Site) as may be reasonably required by the Delivery Contractor to enable it to develop a Task Order Proposal, provided that the Client shall not be obliged to provide such information where this may cause the Client to be in breach of Law and/or where such information is otherwise confidential to the Client.

- 1.2 Within ten (10) Business Days (or such other period as is agreed by the Parties) of receipt by the Delivery Contractor of a Project Instruction, the Delivery Contractor shall submit a Task Order Proposal in respect of the Proposed Task together with such additional information/documentation as is required.

2 Approval of Task Order Proposals and the Proposed Task

- 2.1 Following receipt of a Task Order Proposal issued pursuant to paragraph 1, the Client shall be entitled to request any reasonable additional information and/or any reasonable assistance (as the case may be) from the Delivery Contractor which the Client considers appropriate to enable it to decide whether to approve the relevant Task Order Proposal and the Delivery Contractor shall provide such information and/or any assistance (as the case may be) within three (3) Business Days of receipt of the relevant request for such further information and/or and assistance (as the case may be). The Delivery Contractor acknowledges and agrees that the costs incurred by the Contractor in responding to such requests and/or entering into any communications with the Client and/or incurring any expenditure of whatever nature in relation to such requests shall not entitle the Delivery Contractor to any payment of whatever nature and any such costs shall be borne by the Delivery Contractor unless the Client agrees otherwise in writing.

- 2.2 In deciding whether to approve a Task Order Proposal the Client shall be entitled to take into account all relevant factors which it considers would affect whether the relevant Task Order Proposal is acceptable, including, without limitation:

2.2.1 whether the Task Order Proposal is, in the sole opinion of the Client, affordable and/or offers value for money;

2.2.2 whether the Task Order Proposal, in the sole opinion of the Client, contains sufficient information to enable the Client to approve the relevant Task Order Proposal; and/or

- 2.2.3 whether the potential impact of the implementation of the Task Order Proposal would, in the sole opinion of the Client, adversely impact on the business and/or activities of the Client (including, without limitation, any of the Client's statutory duties); and/or
 - 2.2.4 whether the implementation of the Task Order Proposal would breach any Law, any Client's Policies or any wider government strategy or government policy.
- 2.3 Within ten (10) Business Days (or such longer period to be agreed by the Parties) of the later of the submission to the Client of a Task Order Proposal and the receipt by the Client of any additional information requested by the Client pursuant to paragraph 2.1, the Client shall notify the Delivery Contractor whether:
- 2.3.1 the Client approves the Task Order Proposal, whereupon the provisions of paragraph 2.7 shall apply and the Delivery Contractor shall carry out the Proposed Task as part of a Task Order in accordance with the terms of the approved Task Order Proposal; or
 - 2.3.2 the Client rejects the Task Order Proposal and the provisions of paragraph 2.4 shall apply.
- 2.4 The Delivery Contractor acknowledges and agrees that where the Client elects to reject any Task Order Proposal then the Delivery Contractor's costs in relation to the proposal shall be borne by the Delivery Contractor unless the Client agrees otherwise in writing.
- 2.5 The Client may appoint a third party, any other Delivery Contractor and/or any other delivery contractor from an alternative Lot Contract to provide the whole or any part of the Task Order where the Delivery Contractor:
- 2.5.1 is in material breach of its obligations under this Contract or any Task Order;
 - 2.5.2 fails to provide and/or the Client rejects a Task Order Proposal;
 - 2.5.3 confirms that it does not intend to submit a Task Order Proposal or fails to submit a Task Order Proposal following receipt of a Project Instruction within the time period specified in and in accordance with the provisions of this paragraph 2;
 - 2.5.4 the Parties have been unable to agree the whole or any part of a Task Order Proposal; and/or
 - 2.5.5 where the Delivery Contractor has not and/or all of the Delivery Contractors have not selected the relevant NUTS Codes for the whole or any part of a Task Order.
- 2.6 The Client may appoint any Delivery Contractor from this Lot Contract to provide the whole or any part of a task order which occurs under another Lot Contract where the delivery contractor under that Lot Contract:
- 2.6.1 is in material breach of its obligations under that Lot Contract or any task order occurring under that Lot Contract;

- 2.6.2 fails to provide and/or the Client rejects a task order proposal provided under that Lot Contract;
- 2.6.3 confirms that it does not intend to submit a task order proposal or fails to submit a task order proposal following receipt of a project instruction within the time period specified in and in accordance with the provisions of that Lot Contract;
- 2.6.4 the Parties have been unable to agree the whole or any part of a task order proposal; and/or
- 2.6.5 where, under that Lot Contract, the delivery contractor has not and/or all of the delivery contractors have not selected the relevant NUTS codes for the whole or any part of a task order.
- 2.7 The Delivery Contractor acknowledges and agrees that the Delivery Contractor shall not be entitled to any payment, compensation, damages, costs, losses and/or expenses arising out of or in connection with the circumstances set out in paragraph 2.5.
- 2.8 Where a Task Order Proposal has been approved by the Client (to incorporate any amendments the Client deems necessary), the Client may sign the Task Order Proposal (as amended, if necessary) and issue to the Delivery Contractor and such signed Task Order Proposal shall be deemed to form the Task Order. On receipt of a Task Order pursuant to this paragraph, the works to be carried out and performed by the Delivery Contractor as set out in the Task Order shall be deemed to become part of the Works.
- 2.9 The parties agree that if the Task Order Proposal is approved and any Task Order is issued by the Client and accepted by the Delivery Contractor under this paragraph 2, then the provisions of:
- 2.9.1 this Contract; and 2.9.2 the
- relevant Task Order,
- shall together govern the carrying out of any Works to be performed by the Delivery Contractor. In the event of any conflict between the documents referred to in this paragraph 2.8, then the order of precedence shall be:
- 2.9.3 the relevant Task Order; and
- 2.9.4 this Contract.
- 2.10 This Contract shall be binding on the parties for the Delivery Term and shall govern any Works provided to the Client in relation to any Task Order for the entire duration of the Delivery Term, regardless of whether such Works were performed prior to the date of this Contract.
- 2.11 At any time, the Client may set off any liability of the Delivery Contractor to the Client against any liability of the Client to the Delivery Contractor, whether either liability:
- 2.11.1 is liquidated or unliquidated; or

2.11.2 arises under this Contract and/or any Task Order.

2.12 Without prejudice to any other rights or remedies which the Client may have, whether under this Contract or under any Task Order, the obligations for the Client and/or the Delivery Contractor to make payments in respect of any Task Orders shall be continuing obligations notwithstanding the termination of this Contract or any individual Task Order.

Part A - Management Services

1 Working together

- 1.1 In relation to the carrying out of the Works and any obligations under this Contract, the Parties shall work together in order to achieve the Objectives. To that end the Client and the Contractor agree they shall each give to, and welcome from, the other, and the other Project Participants, feedback on performance and shall draw each other's attention to any difficulties and shall share information openly, at the earliest practicable time. They shall support collaborative behaviour and address behaviour that does not comply with the Objectives.
- 1.2 During the Delivery Term the Contractor shall:
- 1.2.1 collaborate with the Client and the Project Team to achieve the Objectives;
 - 1.2.2 work with the Client in a supportive manner;
 - 1.2.3 produce such reports and documentation as may reasonably be requested from time to time by the Client;
 - 1.2.4 work collectively with the Client and the Project Team to support the delivery of the Works on a best for project basis;
 - 1.2.5 work collectively with the Client and the Project Team to discuss the Pipeline Programme and whether certain works and/or packages should be bundled into appropriate Task Orders;
 - 1.2.6 develop and use common systems and processes with the Client and the Project Participants;
 - 1.2.7 discuss costings of the Works on an open-book basis;
 - 1.2.8 work with the Client to determine whether the Contractor should select additional NUTS Codes to those NUTS Codes initially selected by the Contractor;
 - 1.2.9 work with the Client to agree acceptable processes for demonstrating value for money and understand the key drivers for value for money; and
 - 1.2.10 give advice, information and opinion fully, openly and objectively to the Client and the Project Team.
- 1.3 The role of the Project Team is to guide the successful delivery of the Project and the Works. The Project Team will meet at regular intervals and on the first anniversary of the Delivery Term to share information relating to the Project and the Works, to consider the risks and opportunities affecting the Project and the Works, to consider how best to coordinate and manage the Project and the Works, to review progress and to make any decisions necessary for the

successful delivery of the Project and the Works which are then communicated to all relevant Project Participants.

1.4 In the event of any dispute between the Parties and/or the members of the Project Team, it is the intention that any court or adjudicator or other forum to which the dispute is referred shall take account of the Objectives and of the Parties' adherence to it when making any award.

1.5 The Client and the Contractor shall co-operate with the other members of the Project Team in the provision of information with a view to ensuring that relevant information is provided to all Project Participants needing this information in a timely fashion.

1.6 Subject always to the terms of any Task Order, if the Contractor identifies any ambiguities or discrepancies in any information provided by the Client or any other member of the Project Team, the Contractor shall agree how to resolve them after consultation, if appropriate, with the Project Team. If no agreement is reached, the Client shall issue an instruction.

1.7 The Client hereby elects to be treated as the only client in respect of the Works for the purposes of the CDM Regulations.

1.8 The Contractor shall act as "principal contractor" in respect of the Works for the purposes of the CDM Regulations.

2 Continuous Improvement

2.1 The Contractor shall, throughout the Delivery Term, adopt a policy of continuous improvement in relation to the Works pursuant to which it will regularly review with the Client the Works and the manner in which it is providing the Works with a view to reducing the Client's costs (including the Prices and/or the Price List) and/or improving the quality and efficiency of the Works. The Contractor and the Client will provide to each other any information which may be relevant to assisting in fulfilling these objectives.

2.2 Without limiting paragraph 2.1 and if the Client so requires at any point during the Delivery Term, the Contractor shall produce a plan for improving the provision of Works and/or reducing the Prices and/or the Price List (without adversely affecting the performance of this Contract and/or any Task Order) ("**Continuous Improvement Plan**") for the Client's approval. The Continuous Improvement Plan shall be in the format agreed between the Parties and shall contain, as a minimum, proposals in respect of the following:

2.2.1 identifying the emergence of relevant new and evolving technologies;

2.2.2 changes in business processes of the Contractor or the Client and ways of working that would provide cost savings and/or enhanced benefits to the Client (such as methods of interaction, supply chain efficiencies, reduction in energy consumption and methods of sale);

2.2.3 new or potential improvements to the provision of the Works including the quality, responsiveness, procedures, benchmarking methods, likely performance mechanisms and Client support services in relation to the Works; and

- 2.2.4 measuring and reducing the sustainability impacts of the Contractor's operations and supply-chains pertaining to the Works and identifying opportunities to assist the Client in meeting their sustainability objectives.
- 2.3 The initial Continuous Improvement Plan for the first Service Quarter is attached at Part B of this Appendix 4. As and when required, but at least once each Service Quarter, the Contractor shall review the Continuous Improvement Plan and submit any updates or changes to the Client for the Client's approval.
- 2.4 The Client shall notify the Contractor of its approval or rejection of the proposed Continuous Improvement Plan or any updates to it within twenty (20) Business Days of receipt. If it is rejected then the Contractor shall, within ten (10) Business Days of receipt of notice of rejection, submit a revised Continuous Improvement Plan reflecting the changes required. If this revised Continuous Improvement Plan is also rejected the Contractor shall provide a second revised Continuous Improvement Plan for approval. Should this second revised Continuous Improvement Plan be rejected ("**Second Rejection**") the Parties may escalate this to the Senior Representatives who shall meet to discuss the Second Rejection within ten (10) Business Days of the notice of rejection. Where such meeting achieves a solution acceptable to the Client and the Contractor, such solution shall be implemented by the Client and the Contractor. Where such meeting does not achieve a solution acceptable to the Client and the Contractor, the process used in W2 shall be followed.
- 2.5 Where a Continuous Improvement Plan is approved, it shall constitute the Continuous Improvement Plan for the purposes of this Contract.
- 2.6 The Contractor shall provide sufficient information with each suggested improvement to enable a decision on whether to implement it. The Contractor shall provide any further information as requested.
- 2.7 All costs relating to the compilation or updating of the Continuous Improvement Plan and the costs arising from any improvement made pursuant to it and the costs of implementing any improvement, shall have no effect on and are included in the Prices and/or the Price List.
- 2.8 Should the Contractor's costs in providing the Works to the Client be reduced as a result of any changes implemented, all of the cost savings shall be passed on to the Client by way of a consequential and immediate reduction in the Prices and/or the Price List.

3 Allocation of risks

- 3.1 The Project Team shall carry out, complete and populate the Project Risk Register to identify:
- 3.1.1 potential risks relating to the delivery of the Project, the occurrence of which are capable of adversely affecting the time for completion, cost or quality of the Project;
- 3.1.2 the probability of these risks occurring;

3.1.3 a financial estimate of the most likely consequences of each risk occurring;
and

3.1.4 the actions agreed to be taken to mitigate, manage or remove each risk
and the individual responsible for reporting on the progress of the
actions agreed.

3.2 The Project Team shall regularly update and amend the Project Risk Register
(seeking the assistance of other Project Participants as considered
appropriate) and shall arrange regular meetings with the Client and members
of the Project Team to review and update the Project Risk Register and to
consider:

3.2.1 any new risks that have arisen since the date of the last review;

3.2.2 the steps taken to prevent/mitigate previously identified risks;

3.2.3 risks which have been successfully prevented/mitigated (which can
be removed from the Project Risk Register); and

3.2.4 the prioritisation of all continuing risks and agreement of an action plan in
respect of, and risk owners for, all risks prioritised as serious risks.

4 Problem solving

4.1 Without prejudice to option W2, as soon as a Party is aware of any difference or
dispute with the Client and the Contractor arising out of or in connection with
the Works (a “**Difference**”) such Party will give notice to the other.

4.2 Upon receipt of the notice in paragraph 4.1, there shall be a meeting between
respective representatives of the Client and the Contractor having authority to
settle the matter. Where such meeting achieves a solution acceptable to the
Client and the Contractor, such solution shall be implemented by the Client and
the Contractor.

4.3 If such meeting fails to achieve a solution acceptable to the Client and the
Contractor, the Difference shall be escalated to the Senior Representatives and
within ten (10) Business Days of the meeting referred to in paragraph 7.2 the
Senior Representatives shall meet to discuss the Difference. Where such
meeting achieves a solution acceptable to the Client and the Contractor, such
solution shall be implemented by the Client and the Contractor. Where such
meeting does not achieve a solution acceptable to the Client and the
Contractor, the process used in W2 shall be followed.

5 Fee

5.1 The Contractor agrees that the fee for the Management Services shall be nil.

Schedule of Amendments

STANDARD 'BOILERPLATE' AMENDMENTS

NEC4

JANUARY 31, 2019

CABINET OFFICE

Crown Commercial Service The standardised 'boilerplate' amendments project addresses a need to simplify the inclusion of government-specific clauses to the NEC, JCT and PPC2000 contracts. Centrally mandated government policies and some legislative requirements were being applied by a range of government departments, but as separate operations and with differing approaches. Scope was identified for a simple and standard set of terms which

provide a unified front to implement policy and reduce the need for excessive additional drafting, creating a more efficient standardised approach. These terms would be applied across government construction contracts.

In order to bring about this situation, a cross-governmental review of construction contract amendments was undertaken by the Crown Commercial Service (CCS) and the Infrastructure and Projects Authority (IPA). Eighteen clauses were identified as those which would benefit most from the standardisation described above. These clauses were reviewed and redrafted to enhance their ease of comprehension, with the core wording translated to NEC, JCT and PPC2000 terminology.

These eighteen clauses are replicated within the NEC, JCT and PPC2000 boilerplate documents. This is the **NEC4 version**.

The clauses should be **unamended** save for those instances with an additional guidance note. Not all will be relevant to each project, and additional clauses may be required where not covered by this document. Those 'boilerplate' clauses not required can be removed and additional, project specific clauses may be added.

Process

The clauses are amended to the contract by way of an additional Schedule of Amendments. This must be referred to in the base contract. The following segment indicates the modification which must be made to the base contract, as well as the steps needed to incorporate the Boilerplate Amendments.

NEC4 Engineering & Construction Contract

- In Contract Data Part One, complete the clause headed "If Option Z is used" to read:

The *additional conditions of contract* are as detailed in the appended Schedule of Amendments which is to be read and construed accordingly.

- Append pages 8 to 42 of this Standard 'Boilerplate' Amendments document to the standard contract document as this Schedule of Amendments.
- Remove or strikethrough those clauses which do not apply to the current project and amend terms as provided by guidance notes.
- Add additional, project specific amendments in the normal way.

SUMMARY OF CLAUSES

The following descriptions are of all the clauses addressed by the Standard 'Boilerplate' Amendments project. It should be noted that some of the clauses differ from document to document.

1. Definitions

A list of additional definitions must be included as an amendment to help explain the meaning of subsequent Boilerplate clauses.

2. Admittance to Site

This clause specifies additional provisions around how individual people may be admitted to the site, and the considerations which must be taken. This includes (but is not limited to) the provision of a list of employee names, obligations as to security passes, and the prevention of unauthorised access or taking of photographs.

3. Prevention of Fraud and Bribery

The Boilerplate clause expands the coverage of the standard contract Fraud and Bribery provisions. It introduces a 'Prohibited Act', also defined in the Boilerplate document, which must not be committed and which must be subject to suitable caution and management. The Contractor must hold subcontractors to the same standards, keep appropriate records of compliance, and immediately notify the Client of potential breaches and work with them to rectify the situation.

4. Official Secrets Act

Contractors are often required to abide by this Act due to the sensitive nature of some public sector projects. The Boilerplate clause saves Clients from drafting this themselves if required, creating an obligation to comply with this Act and, where appropriate, section 11 of the Atomic Energy Act 1946.

5. Freedom of Information

As government departments are usually required to comply with Freedom of Information Act requests, extra clauses detailing how this obligation is to be respected must be included. The Boilerplate clause obliges the Contractor to work with the Client in satisfying these requests in certain ways. Among other considerations, this involves the retention and transferral of relevant information, communicating requests for information to the Client in a timely manner, and generally helping the Client in responding to the request.

6. Confidentiality and Information Sharing

Some public sector information is sensitive and cannot be shared, while at other times organisation must share details about its processes in the interest of transparency. As such, this clause provides obligations for both parties to safeguard confidential information, exceptions where that obligation does not apply, and additional restrictions on the Contractor and further rights for the Client.

7. Security Requirements

This clause is a preface to a schedule requiring the Contractor to create and maintain a comprehensive Information Security Management System. This must be agreed with the Client, contain measures sufficient to ensure security on the project in question, and be regularly reviewed to reflect changes in good practice or project details. It must be tested appropriately and be fully compliant with ISO 27001, subject to audits as required. The schedule also indicates some of the steps to be taken in the event of a security breach.

8. Tax Compliance

With the inclusion of this clause, the Contractor is under an obligation to notify the Client of relevant Tax Non Compliance. The Contractor must provide more information if the Occasion of Tax Non Compliance occurs prior to the end of the defects correction period (NEC) / Rectification Period (JCT and PPC).

9. Contract (Rights of Third Parties) Act 1999

Excluding third party rights is a common clause in all manner of contracts. The Boilerplate clause removes that exclusion in the case of collateral warranties – a common and often necessary provision in public sector construction. It should be noted that this does not apply to the NEC4 Boilerplate document as the contract directly deals with this under Option X8.

10. Fair Payment

This is a clause also aimed at improving how subcontractors are paid, similarly endorsed in the Government Construction Strategy 2016. Obligations are placed on the Contractor to assess and promptly pay subcontractors, and to ensure that these obligations are also included in their contracts with subcontractors. It should be noted that Fair Payment is a separate clause with the NEC Boilerplate document, whereas within JCT and PPC it is combined with the SME provisions to form 'Conditions of Sub-Contracting' (JCT) or 'Supply Chain' (PPC).

11. Building Information Modelling (BIM)

Promoting and spreading the use of BIM techniques is a major government construction objective, as identified in the three main policy documents – the Government Construction Strategy 2016, Construction 2025, and the Construction Sector Deal. It has been mandated for all central government departments and is aimed at enhancing efficiency and reducing costs across the industry. This clause provides a mechanism for BIM Protocols to be applied as indicated in the Employer's Information Requirements, as well as an option to incorporate a specific type of Protocol, namely the CIC (Construction Industry Council) BIM Protocol. This clause is not replicated in NEC4, which has overlapping mechanisms with the Boilerplate BIM Provision.

12. The Housing Grants, Construction and Regeneration Act 1996 ('Construction Act 2011')

This is an NEC-only clause which expands on an existing provision. If NEC Option Y(UK)2 applies, then the Construction Act also applies to this contract even if the project is in Northern Ireland.

13. Intellectual Property Rights

This indicates that the Contractor provides to the Client an irrevocable, royalty free and nonexclusive licence to use the Intellectual Property of the Contractor. The Client may transfer these rights in a variety of circumstances, and the Contractor is subject to a number of additional obligations.

14. MOD DEFCONs

This provision is applicable only to Ministry of Defence projects and contracts. It incorporates their special terms and conditions.

15. Small and Medium Enterprises (SMEs)

Government policy dictates that SMEs should be encouraged and brought into public sector projects, as reinforced in the Government Construction Strategy 2016, Construction Sector Deal and Construction 2025. There is a general target for 33% of central government

procurement spend going to SMEs by 2022. This Boilerplate clause requires Contractors to employ a certain amount of SMEs as subcontractors, and to respect a number of other obligations regarding reporting and how they manage these SMEs.

16. Apprenticeships

In a similar way to SMEs, there is an overarching government policy for public sector organisations to promote the creation and use of apprenticeship schemes, as per the Government Construction Strategy 2016, the Construction Sector Deal and Construction 2025. In particular, a 2015 Procurement Policy Note describes the steps that public sector organisations must take to ensure they are meeting the government's apprentice aims. This Boilerplate provides a way for Clients to ensure that Contractors do this by creating an obligation to employ certain amounts of apprentices. They must also provide further training opportunities and information about the Government Apprenticeship programme, and engage with the Project Manager to review and discuss a number of measures relating to Apprenticeships.

17. GDPR

With the recent advent of the General Data Protection Regulation, every construction project is required to include provisions within their contracts to ensure compliance. The Boilerplate document includes a Schedule so these regulations can be complied with, with areas for the parties to fill in to reflect project specific data protection requirements.

18. Cyber Essentials

This clause provides a way to include the Government Cyber Essentials scheme into construction projects. This scheme provides for a number of controls which organisations should implement to reduce the risk of common internet based threats. The clause lists obligations on the Contractor to provide proof of the required certification at certain stages of the project, and to apply the same obligations to its sub-Contractors.

19. Project Bank Accounts

The Project Bank Accounts scheme is a government policy aimed at enhancing the speed with which payment progresses down the construction supply chain. The scheme has been promoted in the Government Construction Strategies and should be used within central government projects unless there are compelling reasons not to do so. Amended provisions have not been included within this boilerplate document, however their use is encouraged. They should be incorporated using the standard facilities within NEC, JCT and PPC documents.

If the Security Management Plan is not accepted by the *Project Manager* the *Contractor* shall amend it within 10 Working Days or such other period as the parties may agree in writing of a notice of non- acceptance from the *Project Manager* and re-submit to the *Project Manager* for accepted. The parties will use all reasonable endeavours to ensure that the acceptance process takes as little time as possible and in any event no longer than 15 Working Days (or such other period as the parties may agree in writing) from the date of its first submission to the *Project Manager*. If the *Project Manager* does not accept the Security Management Plan following its resubmission, the matter will be resolved in accordance with the Dispute Resolution Procedure. No acceptance to be given by the *Project Manager* pursuant to this paragraph 1.4.2.2 of this schedule may be unreasonably withheld or delayed. However any failure to accept the Security Management Plan on the grounds that it does not comply with the requirements set out in paragraph 1.4.3.4 shall be deemed to be reasonable.

1.4.3 Content of the Security Management Plan:

1.4.3.2 The Security Management Plan (including the draft version) should also set out the plans for transiting all security arrangements and responsibilities from those in place at the Contract Date to those incorporated in the *Contractor's* ISMS at the date notified by the *Project Manager* to the *Contractor* for the *Contractor* to meet the full obligations of the Security Requirements.

1.4.3.3 The Security Management Plan will be structured in accordance with ISO/IEC27001 and ISO/IEC27002, crossreferencing if necessary to other schedules of this contract which cover specific areas included within that standard.

1.4.4.4 Any change or amendment which the *Contractor* proposes to make to the ISMS or Security Management Plan (as a result of a *Project Manager's* request or change to the *works* or otherwise) shall be subject to the early warning procedure and shall not be implemented until accepted in writing by the *Project Manager*.

1.4.5 Testing

1.4.5.1 The *Contractor* shall conduct Security Tests of the ISMS on an annual basis or as otherwise agreed by the parties. The date, timing, content and conduct of such Security Tests shall be agreed in advance with the *Project Manager*.

1.4.5.2 The *Project Manager* shall be entitled to witness the conduct of the Security Tests. The *Contractor* shall provide the *Project Manager* with the results of such tests (in a form accepted by the *Client* in advance) as soon as practicable after completion of each Security Test.

The *Project Manager* may notify the *Contractor* of the results of such tests after completion of each such test. Security Tests shall be designed and implemented so as to minimise the impact on the carrying out of the *works*. If such tests adversely affect the *Contractor's* ability to carry out the *works* in accordance with the Scope, the *Contractor* shall be

granted relief against any resultant under-performance for the period of the tests.

1.4.5.4 Where any Security Test carried out pursuant to paragraphs 1.4.5.2 or 1.4.5.3 above reveals any actual or potential Breach of Security, the *Contractor* shall promptly notify the *Project Manager* of any changes to the ISMS and to the Security Management Plan (and the implementation thereof) which the *Contractor* proposes to make in order to correct such failure or weakness. Subject to the *Project Manager's* acceptance in accordance with paragraph (i), the *Contractor* shall implement such changes to the ISMS and the Security Management Plan in accordance with the timetable agreed with the *Project Manager* or, otherwise, as soon as reasonably possible. Where the change to the ISMS or Security Management Plan is made to address a noncompliance with the Security Policy or Security Requirements, the change to the ISMS or Security Management Plan is Disallowed Cost.

1.5 Compliance with ISO/IEC 27001

1.5.1 Unless otherwise agreed by the parties, the *Contractor* shall obtain independent certification of the ISMS to ISO/IEC 27001 within 12 months of the Contract Date and shall maintain such certification until the Defects Certificate or a termination certificate has been issued.

1.5.2 In the event that paragraph 1.5.1 above applies, if certain parts of the ISMS do not conform to Good Industry Practice, or controls as described in

ISO/IEC 27002 are not consistent with the Security Policy, and, as a result, the *Contractor* reasonably believes that it is not compliant with ISO/IEC 27001, the *Contractor* shall promptly notify the *Project Manager* of this and the *Client* in its absolute discretion may waive the requirement for certification in respect of the relevant parts.

1.5.3 The *Project Manager* shall be entitled to carry out such regular security audits as may be required and in accordance with Good Industry Practice, in order to ensure that the ISMS maintains compliance with the principles and practices of ISO 27001.

1.5.4 If, on the basis of evidence provided by such audits, it is the *Project Manager's* reasonable opinion that compliance with the principles and practices of ISO/IEC 27001 is not being achieved by the *Contractor*, then the *Project Manager* shall notify the *Contractor* of the same and give the *Contractor* a reasonable time (having regard to the extent and criticality of any non-compliance and any other relevant circumstances) to become compliant with the principles and practices of ISO/IEC 27001. If the *Contractor* does not become compliant within the required time then the *Project Manager* has the right to obtain an independent audit against these standards in whole or in part.

1.5.5 If, as a result of any such independent audit as described in paragraph 1.5.4 the *Contractor* is found to be non-compliant with the principles and practices of ISO/IEC 27001 then the *Contractor* shall, at its own expense, undertake those actions required in order to achieve the necessary compliance and shall reimburse in full the costs incurred by the *Client* in obtaining such audit.

1.6 Breach of Security

1.6.1 Either party shall give an early warning to the other in accordance with the agreed security incident management process as defined by the ISMS upon becoming aware of any Breach of Security or any potential or attempted Breach of Security.

1.6.2 Without prejudice to the security incident management process, upon becoming aware of any of the circumstances referred to in paragraph 1.6.1, the *Contractor* shall:

1.6.2.1 immediately take all reasonable steps necessary to:

- (a) remedy such breach or protect the integrity of the ISMS against any such potential or attempted breach or threat; and
- (b) prevent an equivalent breach in the future.

such steps shall include any action or changes reasonably required by the *Project Manager*; and

1.6.2.2 as soon as reasonably practicable provide to the *Project Manager* full details (using such reporting mechanism as

defined by the ISMS) of the Breach of Security or the potential or attempted Breach of Security.

Performance KPIs

PART A

1 Performance Levels

1.1 The objectives of the Performance KPIs and Performance Failure Points are to:

1.1.1 ensure that the Works carried out under a Task Order meet the requirements of the Client and that each Task Order is administered in accordance with the provisions of that Task Order;

1.1.2 provide a mechanism whereby the Client can attain meaningful recognition of inconvenience resulting from the Contractor's failure to deliver the Works² for which it has contracted to deliver and/or administer the Task Order in accordance with the provisions of that Task Order; and

1.1.3 incentivise the Contractor to meet and exceed the requirements set out in a Task Order and to remedy any Performance Failure expeditiously.

1.2 Without prejudice to the Client's other rights and remedies under this Contract and/or any Task Order, if the level of performance of the Contractor of any element of a Task Order during a Service Period:

1.2.1 achieves the Performance Level in respect of each Performance KPI, no Performance Failure Points will accrue to the Contractor in respect of that Performance KPI; or

1.2.2 is below the Performance Level in respect of each Performance (i.e. a Performance Failure arises), the appropriate number of Performance Failure Points will accrue to the Contractor in respect of that Performance KPI.

1.3 If a Performance Failure occurs for two (2) or more Task Orders, the second such failure shall be a "**Repeat Failure**". Any subsequent failure by the Contractor to achieve that same Performance Level shall also be a Repeat Failure.

1.4 If any Repeat Failure occurs, the number of Performance Failure Points that shall accrue to the Contractor in respect of such Repeat Failure shall be the number of Performance Failure Points that would normally accrue in respect of an initial failure of that Performance Level multiplied in accordance with the following:

1.4.1 initial failure: 1;

1.4.2 1st Repeat Failure: 1.5;

1.4.3 2nd Repeat Failure: 2.0; and

1.4.4 3rd and subsequent Repeat Failures: 2.5.

2 Performance Failure Points

2.1 Subject to paragraph 3.2, in any Service Quarter, where the Contractor accrues 100 or more Performance Failure Points, the Contractor shall receive a YELLOW Score for the purposes of the Contract.

2.2 Subject to paragraph 3.2, in any Service Quarter, where the Contractor accrues 150 or more Performance Failure Points, the Contractor shall receive a RED Score for the purposes of the Contract.

2.3 Where the Contractor receives a YELLOW or RED Score, without limitation to the Client's other rights and remedies which are available to it under this Contract, the Client may suspend and/or exclude (as applicable) the Contractor from participating in the Identification Procedure as set out in Part A of Appendix 1.

3 Earn Back Points

3.1 Subject to paragraph 4, in any Service Period, where the Contractor meets and/or exceeds the relevant Performance Level, the Contractor shall receive Earn Back Points for the purposes of the Contract.

3.2 At the end of each Service Quarter, any Earn Back Points shall be taken into account when determining the amount of Performance Failure Points accrued by the Contractor for any Task Order completed by the Contractor in any Service Quarter.

4 Performance Monitoring Reports

4.1 Within twenty (20) Business Days of the end of each Service Quarter, the Contractor shall provide a Performance Monitoring Report to the Client. The Performance Monitoring Report shall be in the format agreed between the Parties and shall contain, as a minimum, the following information in relation to each Task Order in respect of the Service Quarter just ended:

4.1.1 a scorecard summarising the Contractor's level of performance in relation to each Performance Level and setting out the detail in relation to the underlying figures;

4.1.2 a summary of all Performance Failures that occurred during the Service Quarter;

4.1.3 which Performance Failures remain outstanding and progress in resolving them;

4.1.4 for any Performance Failure, the cause of the fault and any action being taken to reduce the likelihood of recurrence;

4.1.5 for any Repeat Failures, actions taken to resolve the underlying cause and prevent recurrence;

4.1.6 the number of Performance Failure Points awarded to each Performance Failure in that Service Quarter;

4.1.7 any Earn Back Points that the Contractor considers should be taken into account as part of ongoing performance monitoring;

4.1.8 a rolling total of the number of Performance Failure Points that have occurred; and

4.1.9 such other details as the Client may reasonably require from time to time.

4.2 The draft Performance Monitoring Report shall be reviewed and its contents agreed by the parties at the Performance Review Meeting which immediately follows the issue of such report.

4.3 The parties shall attend Performance Review Meetings in each Service Quarter (unless otherwise agreed). The Performance Review Meetings will be the forum for the review by the Contractor and the Client of the Performance Monitoring Reports. The Performance Review Meetings shall take place at a date and time agreed by the Contractor and Client in the Service Quarter following the Service Quarter to which the Performance Monitoring Report pertains and shall be fully minuted.

4.4 The Contractor shall provide to the Client such supporting documentation as the Client may reasonably require in order to verify the level of the performance by the Contractor and the calculations of the amount of Performance Failure Points for any specified period.

4.5 If the Contractor fails to provide any Performance Monitoring Report in accordance with this paragraph 4 then it shall receive a RED Score.

5 Changes to KPIs

5.1 The Client may (acting reasonably):

5.1.1 change the weighting of one or more of Performance KPIs; and/or 5.1.2

change one or more of the Performance KPIs,

and the Contractor shall not be entitled to object to, or increase the Prices, as a result of such changes provided that:

- (i) the Client gives the Contractor at least one (1) Service Quarter's notice (or such shorter notice period as may be agreed with the Contractor); and
- (ii) it is reasonable to make such changes, including (without limitation) where:
 - (A) it becomes apparent that a Performance KPI is failing to accurately capture the required output; and/or
 - (B) where it is necessary to reflect changes in the Client's business requirements and/or priorities; and/or
 - (C) where it is necessary to reflect changing industry standards.

5.2 Where a Performance KPIs is changed in accordance with paragraph 5.1, the change shall be effective from the expiry of the notice referred to in paragraph 5.1, or such later date as the parties may agree.
