BUYER CORE GOODS AND/OR SERVICES REQUIREMENTS

Goods and/or Services

- 1 The following requirements shall take priority above all terms, conditions and specifications set out in this Call-Off Contract (including without limitation any embedded documents and terms), and the Supplier shall ensure that the software licences meet and conform with the following requirements:
 1. The Buyer shall be entitled, free of charge, to sub licence the software to any contractor and/or sub-contractor of the Buyer who is working towards and/or is providing services to the Buyer.
 2. The Buyer's role as national information and technology partner to the NHS and social care bodies involves the Buyer buying services for or on behalf of the NHS and social care entities. Nothing in the licences for any of the software shall have the effect of restricting the Buyer from discharging its role as the national information and technology partner for the health and care system, which includes the ability of the Buyer to offer software and services to the NHS and social care entities. Specifically, any software licensing clause prohibiting 'white labelling', 'provision of outsourcing services' or similar, shall not be interpreted as prohibiting the Buyer's services.
 3. The Buyer shall be entitled to deploy the software at any location from which the Buyer and/or any contractor and/or sub-contractor of the Buyer is undertaking services pursuant to which the software is being licenced.
 4. Any software licenced to the Buyer on a named users basis shall permit the transfer from one user to another user, free of charge provided that the Supplier is notified of the same (including without limitation to a named user who is a contractor and/or Subcontractor of the Buyer).
 5. The Supplier shall ensure that the Buyer shall be entitled to assign or novate all or any of the software licences free of charge to any other central government entity, by giving the licensor prior written notice.
 6. The Supplier shall notify the Buyer in advance if any software or service permits the Supplier or any third party remote access to the software or systems of the Buyer.
 7. Where the Supplier is responsible for the calculation of the appropriate number of users for software, and it is later shown there is a shortfall of licences, the Supplier shall be responsible for all costs of the Buyer.]
