13. INSURANCE

- 13.1 Subject to Clauses 13.2 and 13.3, without prejudice to the Call-off Terms and Conditions and unless otherwise confirmed in writing by the Commissioner, as a minimum level of protection the Provider shall put in place and/or maintain in force

at its own cost Indemnity Arrangements in respect of employer's liability, public liability and professional indemnity and clinical negligence in accordance with Good Industry Practice with the minimum cover per claim of five million pounds (£5,000,000).

- 13.2 The terms of any Indemnity Arrangements or the amount of cover shall not relieve the Provider of any liabilities under this Framework Agreement. It shall be the responsibility of the Provider to determine the amount of indemnity cover that will be adequate to enable it to satisfy its potential liabilities under this Framework Agreement. Accordingly, the Provider shall be liable to make good any deficiency if the proceeds of any indemnity cover are insufficient to cover the settlement of any claim.
- 13.3 The Provider warrants that it shall not take any action or fail to take any reasonable action or (in so far as it is reasonable and within its power) allow others to take action or fail to take any reasonable action, as a result of which any Indemnity Arrangements put in place in accordance with Clause 13.1 may be rendered wholly or partly void, voidable, unenforceable, or be suspended or impaired or which may otherwise render any sum paid out under those Indemnity Arrangements wholly or partly repayable.
- 13.4 Within five (5) Operational Days following written request from the Commissioner, the Provider must provide documentary evidence that Indemnity Arrangements required under Clause 13.1 are fully maintained and that any premiums on them and/or contributions in respect of them (if any) are fully paid.
- 13.5 If the proceeds of any Indemnity Arrangements are insufficient to cover the settlement of any claim relating to this Framework Agreement the Provider must make good any deficiency.
- 13.6 Upon the expiry or earlier termination of this Framework Agreement, the Provider shall ensure that any ongoing liability it has or may have arising out of this Framework Agreement shall continue to be the subject of appropriate Indemnity Arrangements for the period of twenty one (21) years from termination or expiry of this Framework Agreement or until such earlier date as that liability may reasonably be considered to have ceased to exist.
- 13.7 The Parties agree that the requirements in respect of Indemnity Arrangements set out in this Clause 13 do not extend or apply in any way to a Contract. To avoid all doubt, requirements in respect of indemnity arrangements under or in connection with a Contract are set out in that Contract.

14. **TERM AND TERMINATION**

- 14.1 This Framework Agreement shall commence on the Commencement Date and, unless terminated earlier in accordance with the terms of this Framework Agreement or the general law, shall continue until the end of the Term.
- 14.2 The Commissioner shall be entitled to extend the Term on one or more occasions by giving the Provider written notice no less than three (3) months prior to the date on which this Framework Agreement would otherwise have expired, provided that the duration of this Framework Agreement shall be no longer than four (4) years in total.
- 14.3 The Commissioner shall have the right to terminate this Framework Agreement any time after the Commencement Date by giving at least three (3) months' written notice to the Provider.
- 14.4 In the case of a breach of any of the terms of this Framework Agreement by either Party that is capable of remedy, the non-breaching Party shall, without prejudice to its other rights and remedies under this Framework Agreement, issue notice of the breach and allow the Party in breach the opportunity to remedy such breach in the

first instance via a remedial proposal put forward by the Party in breach (“**Remedial Proposal**”) before exercising any right to terminate this Framework Agreement in accordance with Clause 14.5.1(b). Such Remedial Proposal must be agreed with the non-breaching Party (such agreement not to be unreasonably withheld or delayed) and must be implemented by the Party in breach in accordance with the timescales referred to in the agreed Remedial Proposal. Once agreed, any changes to a Remedial Proposal must be approved by the Parties in writing. Any failure by the Party in breach to:

- 14.4.1 put forward and agree a Remedial Proposal with the non-breaching Party in relation to the relevant default or breach within a period of ten (10) Operational Days (or such other period as the non-breaching Party may agree in writing) from written notification of the relevant default or breach from the non-breaching Party;
- 14.4.2 comply with such Remedial Proposal (including, without limitation, as to its timescales for implementation, which shall be thirty (30) days unless otherwise agreed between the Parties); and/or
- 14.4.3 remedy the default or breach notwithstanding the implementation of such Remedial Proposal in accordance with the agreed timescales for implementation,

shall be deemed, for the purposes of Clause 14.5.1(b), a material breach of this Framework Agreement by the Party in breach which has not been remedied in accordance with an agreed Remedial Proposal.

- 14.5 Either Party may terminate this Framework Agreement forthwith by notice in writing to the other Party if such other Party:

- 14.5.1 commits a material breach of any of the terms of this Framework Agreement which is:

- (a) not capable of remedy; or
- (b) in the case of a breach capable of remedy, which is not remedied in accordance with a Remedial Proposal; or

- 14.5.2 has been served with at least two (2) previous notices of breach as a result of any material breaches which are capable of remedy within any twelve (12) month rolling period whether or not the Party in breach has remedied the breach in accordance with a Remedial Proposal. The twelve (12) months rolling period is the twelve (12) months immediately preceding the date of the third breach.

- 14.6.1 an Insolvency Event affecting the Provider occurs;
- 14.6.2 the Provider undergoes a change of control within the meaning of sections 450 and 451 of the Corporation Tax Act 2010 (other than for an intra-group change of control) without the prior written consent of the Commissioner and the Commissioner shall be entitled to withhold such consent if, in the reasonable opinion of the Commissioner, the proposed change of control will have a material impact on the performance of this Framework Agreement or the reputation of the Commissioner;
- 14.6.3 the Provider purports to assign, sub-contract, novate, create a trust in or otherwise transfer or dispose of this Framework Agreement in breach of Clause 26.1;

- 14.6.4 pursuant to and in accordance with Clauses 14.7, 17.9.1, 20.8, 22.2, 22.4 and 27.2; or
- 14.6.5 the warranty given by the Provider pursuant to Clause 10.4 is materially untrue, the Provider commits a material breach of its obligation to notify the Commissioner of any Occasion of Tax Non-Compliance as required by Clause 10.4, or the Provider fails to provide details of proposed mitigating factors as required by Clause 10.4 that in the reasonable opinion of the Commissioner are acceptable;
- 14.6.6 pursuant to paragraph 2.2 of Schedule 6;
- 14.6.7 the Provider fails to accept an Order pursuant to paragraph 5.2 of Schedule 6;

- 14.6.9 if the Provider has procured a Guarantee pursuant to Clause 7A.1 and:
 - (a) the Guarantor withdraws the Guarantee for any reason whatsoever;
 - (b) the Guarantor is in breach or anticipatory breach of the Guarantee;
 - (c) an Insolvency Event occurs in respect of the Guarantor; or
 - (d) the Guarantee becomes invalid or unenforceable for any reason whatsoever,

- 14.6.14 there has been a failure by the Provider and/or one of its Sub-Contractors to comply with legal obligations in the fields of environmental, social or labour Law. Where the failure to comply with legal obligations in the fields of environmental, social or labour Law is a failure by one of the Provider's Sub-Contractors, the Commissioner may request the replacement of such Sub-Contractor and the Provider shall comply with such request as an alternative to the Commissioner terminating this Framework Agreement under this Clause 14.6.14; or

14.6.15 the Provider has been issued with any enforcement or penalty notice under the Data Protection Legislation or member of staff is found guilty or admits guilt in respect of an offence under the Data Protection Legislation, in relation to any matter connected with this Framework Agreement or the Services.

14.7 If the Commissioner, acting reasonably, has good cause to believe that there has been a material deterioration in the financial circumstances of the Provider and/or any Guarantor and/or any Material Sub-Contractor of the Provider when compared to any information provided to and/or assessed by the Commissioner as part of any procurement process or other due diligence leading to the award of this Framework Agreement to the Provider or the entering into a Material Sub-Contract by the Provider, the following process shall apply:

14.7.1 the Commissioner may (but shall not be obliged to) give notice to the Provider requesting adequate financial or other security and/or assurances for due performance of its material obligations under this Framework Agreement on such reasonable and proportionate terms as the Commissioner may require within a reasonable time period as specified in such notice;

14.7.3 a failure to resolve such breach in accordance with such Dispute Resolution Procedure by the end of the escalation stage of such process (as set out in Clause 19.3) shall entitle, but shall not compel, the Commissioner to terminate this Framework Agreement in accordance with Clause 14.5.1(a).

14.8 In order that the Commissioner may act reasonably in exercising its discretion in accordance with Clause 14.7, the Provider shall provide the Commissioner with such reasonable and proportionate up-to-date financial or other information relating to the Provider or any relevant third party entity upon request.

14.9 If the Commissioner novates this Framework Agreement to any body that is not a Contracting Authority, from the effective date of such novation, the rights of the Commissioner to terminate this Framework Agreement in accordance with Clause 14.6.1 to Clause 14.6.3 shall be deemed mutual termination rights and the Provider may terminate this Framework Agreement forthwith by notice in writing to the entity assuming the position of the Commissioner if any of the circumstances referred to in such Clauses apply to the entity assuming the position of the Commissioner.

15. **CONSEQUENCES OF EXPIRY OR EARLIER TERMINATION OF THIS FRAMEWORK AGREEMENT**

15.1 Upon expiry or earlier termination of this Framework Agreement, the Commissioner and the Provider agree that all Contracts entered into under this Framework Agreement will continue in full force and effect unless otherwise terminated under the terms and conditions of such Contracts.

15.2 The Provider shall cooperate fully with the Commissioner or, as the case may be, any replacement supplier during any re-procurement and handover period prior to and following the expiry or earlier termination of this Framework Agreement. This cooperation shall extend to providing access to all information relevant to the operation of this Framework Agreement, as reasonably required by the

Commissioner to achieve a fair and transparent re-procurement and/or an effective transition without disruption to routine operational requirements. Any Personal Data Processed by the Provider on behalf of the Commissioner shall be returned to the Commissioner or destroyed in accordance with the relevant provisions of the Schedule 2 (Information Governance Provisions).

16. **SUSPENSION OF PROVIDER'S APPOINTMENT**

- 16.1 Without prejudice to the Commissioner's rights to terminate this Framework Agreement, if:

- 16.1.1 a right for the Commissioner to terminate this Framework Agreement arises (irrespective of whether the circumstances leading to such right are capable of remedy) in accordance with Clause 14; and/or
- 16.1.2 the Commissioner exercises its rights under any Contract between the Commissioner and the Provider to:
 - (a) terminate in full or in part the provision of any Services due to the provider's breach of that Contract; or

- 16.3 The Parties acknowledge that suspension shall not affect the Provider's obligation to perform any Contracts entered into prior to the suspension notice.
- 16.4 For the avoidance of doubt, no period of suspension under this Clause 16 shall result in an extension of the Term.

20.5 If either Party is prevented or delayed in the performance of its obligations under this Framework Agreement by a Force Majeure Event, that Party shall as soon as reasonably practicable serve notice in writing on the other Party specifying the nature and extent of the circumstances giving rise to its failure to perform or any anticipated delay in performance of its obligations.

20.6 Subject to service of such notice, the Party affected by such circumstances shall have no liability for its failure to perform or for any delay in performance of its obligations affected by the Force Majeure Event only for so long as such circumstances continue and for such time after they cease as is necessary for that

Data Protection

- 2.8 The Provider must have in place a communications strategy and implementation plan to ensure that Service Users are provided with, or have made readily available to them, Privacy Notices, and to disseminate nationally-produced patient information materials. Any failure by the Provider to inform Service Users as required by Data Protection Legislation or Data Guidance about the uses of Personal Data that may take place under this Framework Agreement cannot be relied on by the Provider as evidence that such use is unlawful and therefore not contractually required.

The Provider as a Data Controller

1.1 National / local context and evidence base

1.1.1 Introduction to the NHS Diabetes Prevention Programme

The Healthier You NHS Diabetes Prevention Programme (NDPP) is a joint initiative between NHS England & Improvement (NHSE&I), Public Health England and Diabetes UK. It delivers services across the whole of England for people with non-diabetic hyperglycaemia or women with a previous history of gestational diabetes and normoglycaemia, who are at high risk of developing Type 2 diabetes. Eligible individuals are offered a behavioural intervention which will continue for a period of 9 months (the "**Service**") to support and motivate them to reduce their risk of developing Type 2 diabetes through weight loss and/or a reduction in their blood glucose parameters, as a result of improved diet and increased levels of physical activity.

Diabetes constitutes a major burden on public health and preventative action is necessary to prevent the onset of the condition for those at high risk. A recent report published by Diabetes UK (2021)¹ estimates that the number of individuals at increased risk of type 2 diabetes could now be as high as 13.6 million people across the whole of the UK; a report published by the National Cardiovascular Intelligence Network (NCVIN)² suggests that the average prevalence of non-diabetic hyperglycaemia in England is 10.7%, which equates to approximately five million people. The report describes how prevalence is higher among Black, Asian and Minority Ethnic groups (and onset is often at a younger age in these groups), and that prevalence increases with age and obesity.

The NDPP is modelled on proven UK and international models. The first NDPP Framework Agreement was implemented in 2016 becoming the first national evidence-based diabetes prevention programme. By 2018 in-person group-based services were being offered across the whole of England and in 2019 the second NDPP Framework Agreement, comprising of improved in-person services and new digital services, was implemented and rolled out across England by 2020. The NHS Long Term Plan, published in 2019, made a commitment

to double the size of the NDPP to support 200,000 people every year by 2023/24.

In January 2020 early outcomes from the NDPP were [published](#) in Diabetes Care (American Diabetes Association)³. Reductions in weight and HbA1c compare favourably to those reported in recent meta-analyses of pragmatic studies and suggest likely future reductions in participant type 2 diabetes incidence.

NDPP services are procured under the NDPP Framework Agreement by the Commissioner for local health economies, and the geographical scope of the Services under individual call-off contracts are based on Integrated Care System (“**ICS**”) areas. ICS partnerships and primary care are responsible for identifying and referring eligible participants and until March 2020 successfully generated sufficient referrals to meet Long Term Plan targets. In 2019/20 this resulted in 170,000 referrals and circa.120,000 people supported on the NDPP.

In March 2020 in response to the COVID-19 pandemic, all in-person delivery was paused and the NDPP converted to remote video and teleconference delivery to continue to support those already participating in the NDPP, as well as continuing to accept new referrals for those at risk of developing Type 2 diabetes.

The Commissioner has expanded the scale of the NDPP following the first two NDPP Framework Agreements and is building on learning in order to offer improved in-person group-based services (the “**Face to Face Service**”) and online and app based digital services (the “**Digital Service**”) as the primary intervention offer, along with tailored remote group-based sessions for those cohorts of Service Users that are more likely to experience health inequalities (the “**Tailored Remote Service**”). Remote sessions will also be available for participants in the Face to Face Service who require a remote catch-up in place of a missed in-person session.

For the avoidance of doubt, in this Service Specification references to the delivery of “remote” sessions means with Service Users and the Staff delivering the sessions not being physically present at the same location but having face to face contact through a suitable videoconferencing and teleconferencing platform such as MS Teams, Zoom or Skype or other similar platform.

Analysis undertaken on the NDPP minimum dataset has concluded that where an element of choice had been offered to participants with regards to delivery channels, uptake rates for the NDPP were evidently higher for both younger and older age groups. Similarly, the analysis also detailed good completion rates and outcomes across digital, remote and face to face delivery channels with regards to the mean weight change, with an average of 3.2kg weight loss amongst participants who went on to complete the NDPP.

Evidence from diabetes structured education management shows that people learn in different ways and offering more flexible ways to learn has been shown to increase engagement in self-management and to deliver increased knowledge and confidence (Kings Fund level 2 review, Diabetes UK 2016).

In line with NICE guidance (NG183, October 2020) and based on analysis of previous delivery of the NDPP, and in order to support Service User choice and widened access, the overriding principle of the Service will be that all Service Users must be given unconstrained choice between the Face to Face Service and Digital Service, with a remote service offered to Service Users in the Face to Face Service who miss a session and require a catch-up on content prior to their next scheduled in-person group meeting.

The Tailored Remote Service must also be offered to Service Users upfront as an alternative to the Face to Face Service and the Digital Service but only to particular cohorts or groups who are at higher risk of experiencing health inequalities as set out in this Service Specification, paragraph 3.2.6.

Where the Provider is not providing the Digital Service, the term “Service” relates only to the

Face to Face Service and Tailored Remote Service.

2. Outcomes**2.1 Expected outcomes of the NDPP**

- Reduction in incidence of Type 2 diabetes among Service Users as a result of the intervention;
- Reduction in weight of Service Users where they are overweight or obese, and the maintenance of a healthy weight; and
- To reduce blood glucose parameters (HbA1c or Fasting Plasma Glucose (FPG)) in Service Users at 12 months from referral and beyond.

3. Scope**3.1 Aims of the Service**

The primary aim of the Service is to prevent Type 2 diabetes. All aspects of the Service must be delivered by the Provider in accordance with the NDPP outcomes and with the aim of achieving three core aims:

- Support people to achieve or maintain a healthy body weight, having appropriate regard to achievement of UK dietary recommendations related to fibre, fruit and vegetables, oily fish, saturated fat, salt and free sugars;⁴
- Support people to increase their physical activity and reduce sedentary behavior, and wherever appropriate achieve the England Chief Medical Officer's (CMO) physical activity recommendations;
- To maximise completion rates of Service Users, including across groups that share a protected characteristic.

The above goals are for the Service as a whole, and at an individual Service User level goals must be tailored to suit individual Service User requirements.

A secondary aim of the Service is to establish sound data collection mechanisms to ensure that the effectiveness of the Service in reducing the long term microvascular and cardiovascular complications of Type 2 diabetes, as well as to reduce the associated higher mortality risk, can be assessed over time. It is also to establish the evidence base for the effectiveness of the Service in delivering outcomes.

The tertiary aims of the Service are to continue to build the evidence base around the effectiveness of remote or digital approaches to diabetes prevention and to develop and build an evidence base around the effectiveness of tailored approaches for harder to reach cohorts and other specific groups.

3.2 Service description / care pathway**3.2.1 Principles**

The Provider will deliver the Services in accordance with the following principles:

- The Provider must provide the Services in accordance with this Schedule 2A and the Annexes and Appendices to this Schedule 2A;
- The content of the sessions must aim to empower people at risk of Type 2 diabetes to take a leading role in establishing and maintaining long-term behaviour changes;

⁴ Full references for government dietary guidelines are provided in Annex 1

- Delivery of the Services will be tailored to the individual circumstances of all Service Users, including age, physical wellbeing or frailty, weight, personal goals, cultural considerations and culinary traditions;
- The Service must aim to ensure equal access by all Service User groups, reduce health inequalities and promote inclusion, tailoring the Services to support and target those with greatest need through a proportionate universalism approach and equality of access for people with protected characteristics under the Equality Act 2010;
- Access to Services will accommodate the diverse needs of the target population in terms of availability (including any out of hours provision), accessibility, customs and location (where relevant), as far as possible;
- The Provider must build effective working relationships with relevant local stakeholders (including local health economies and community sector organisations) to plan and support referral generation and deliver an inclusive programme;
- The Provider must maximise the flexibility of their offering in order to increase reach for all, including communities who face the most barriers to access;
- The Provider must ensure Service User involvement in the co-production/co-design of the Service;
- The Provider must ensure Service User involvement and engagement in the evaluation and improvement of Services;
- The Service interventions must be developed in consultation with behaviour change specialists;
- The Provider must engage proactively with primary care services whilst ensuring that the impact on workload for existing providers of primary care services is minimised;
- All individuals must be treated with courtesy, respect and an understanding of their needs;
- All individuals invited to participate in the Service must be offered the Face to Face Service in line with NICE Guideline NG183 (October 2020);
- All individuals invited to participate in Services must be provided with adequate information and full transparency on the delivery channels available and their associated benefits and risks, in a format which is accessible to them. This information must allow an informed decision to be made by the individual on which delivery intervention is most appropriate to their personal circumstances and preference, in order to maximise NDPP uptake.
- Ongoing improvements and adjustments will be made to the delivery of the Services as new evidence, standards and/or guidance emerges. The Provider acknowledges and agrees that the Services may be adjusted to respond to best available evidence, including (by way of example only) as a result of planned innovation-testing evaluation (e.g. a research project or time-limited pilot of an innovation to improve the Services). Any such adjustments would be effected as a variation to this Contract in accordance with the variation procedure set out in General Condition 13 (Variations).

Subject to the bullet point immediately below, in the event and to the extent only of a conflict between any of the provisions of this Service Specification and Appendix 1 (Tender Response Document) and/or Appendix 2 (Local Service Requirements) of this Schedule 2A, the conflict shall be resolved in accordance with the following descending order of precedence:

- this Service Specification;
- Appendix 1 of Schedule 2A (Tender Response Document);
- Appendix 2 of Schedule 2A (Local Service Requirements).

Where Appendix 1 of Schedule 2A (Tender Response Document) or Appendix 2 of Schedule 2A (Local Service Requirements) contains provisions which are more favourable to the Commissioner in relation to the Service Specification and/or Appendix 1 of Schedule 2A (Tender Response Document) as relevant, such provisions of Appendix 1 of Schedule 2A (Tender Response Document) or Appendix 2 of Schedule 2A (Local Service Requirements) shall prevail.

The Commissioner shall in its absolute and sole discretion determine whether any provision in Appendix 1 of Schedule 2A (Tender Response Document) or Appendix 2 of Schedule 2A (Local Service Requirements) is more favourable to it in relation to the Service Specifications and/or Appendix 1 of Schedule 2A (Tender Response Document) as relevant.

3.2.2 Eligibility

The Services are available to the following:

- individuals aged 18 years or over, up to and including eighty years old. Individuals who are over eighty years old are eligible to access the Service if their GP provides written confirmation to the Provider that the GP perceives the benefits of the NDPP to outweigh any potential risks of participating in a weight loss programme for that individual;
- individuals who have 'non-diabetic hyperglycaemia', defined as having an HbA1c of 42 – 47 mmol/mol (6.0 – 6.4%) or an FPG of 5.5 – 6.9 mmol/l within the 12 months prior to the date of referral into the Service. This excludes individuals with a previous diagnosis of Type 2 diabetes from any time in the past, regardless of whether their latest blood reading is within the non-diabetic hyperglycaemic range;
- individuals who have a previous history of Gestational Diabetes Mellitus (GDM) and 'normoglycaemia', defined as having an HbA1c lower than 42 mmol/mol or an FPG of less than 5.5 mmol/l within the 12 months prior to date of referral into the Service.
- where an additional self-referral pathway is required in accordance with paragraph 3.2.5, individuals who achieve a qualifying risk score [to be defined by the Commissioner] when completing the Know Your Risk assessment tool will be eligible for the NDPP.

Where both HbA1c and FPG blood readings are provided on referral, if all readings are NDH (or normal for women with previous GDM) the individual is eligible for the NDPP. Where any reading is in the diabetic range (HbA1c ≥ 48 mmol/mol or FPG ≥ 7 mmol/l) the individual is not eligible for the NDPP and must be referred back to their GP for further diagnostic clarification. Where one reading is normal and the other is in the non-diabetic hyperglycaemic range the individual is eligible for the Service.

Oral Glucose Tolerance Testing (OGTT) is rarely used now clinically for diagnosis of hyperglycaemia outside pregnancy; in pregnancy it is used to assess for gestational diabetes. However, it is acknowledged that there may be circumstances where impaired glucose tolerance has been identified in an individual through OGTT (2 hour post 75 gram glucose load glucose value ≥ 7.8 and < 11.1 mmol/l), and such individuals are eligible for the Service.

3.2.3 Exclusion criteria

The following individuals must be excluded from the Service:

- Individuals with an existing or previous diagnosis of Type 2 diabetes at any time in

the past;

- Individuals with an active eating disorder;
- Individuals on referral who do not meet the eligibility criteria as defined in paragraph 3.2.2 above;
- Individuals with severe/moderate frailty as recorded on a frailty register;
- Individuals who have undergone bariatric surgery in the last two years;
- Individuals aged under 18 years; and/or
- Pregnant women.

If a Service User becomes pregnant whilst participating in the Service, the Provider must tailor the Service accordingly, following the specification set out in NICE Guideline PH27, for example adjusting any weight loss goals. This guidance stipulates recommendations for diet, physical activity and weight management during pregnancy.

3.2.4 Referral pathway

The principal referral routes into the Service will be through General Practice and Health Checks. For General Practice these include identification of eligible Service Users and referral via opportunistic direct referrals of patients, centralised searches of GP systems or through annual glycaemic reviews for eligible cohorts.

The Provider must be able to receive and accept eligible referrals from all agreed pathways and will collaborate with local health economies to develop and agree additional referral routes in to the NDPP and associated protocols.

3.2.5 Self-referral pathway

The Commissioner may require the Provider to implement a self-referral pathway as part of the Service to widen access to the NDPP, improve equity of access and increase referral volumes. If the Commissioner so requires, it shall notify the Provider and will indicate from when, for how long, and for whom self-referrals must be accepted alongside any additional financial arrangements.

This referral route into the Service will be additional to, and will not replace the principal referral routes through GP Practices and Health Checks listed in paragraph 3.2.4.

Eligibility for self-referral will be based upon a threshold score generated through completion of an online 'Know Your Risk' tool by potential Service Users. The Commissioner may require the Provider to embed a version of this tool upon their website or to accept self-referrals directed to the Provider via an NHS operated or NHS commissioned online 'Know Your Risk' tool host.

The 'Know Your Risk' tool, which is currently available at <https://riskscore.diabetes.org.uk/start>, asks a series of basic questions including: age, weight, Body Mass Index (BMI), family history of diabetes and ethnicity to generate a risk score. The Commissioner may require the Provider to accept referrals based on any risk score and will notify the Provider what risk score to use as the basis for eligibility to the NDPP.

Self-referrals will not require a blood test eligibility as described in paragraph 3.2.2, but all Service Users must be informed of the importance of seeking a blood test from their GP. All other eligibility criteria described in paragraph 3.2.2 and exclusion criteria described in paragraph 3.2.3 will apply to self-referrals.

The Commissioner may market the self-referral pathway nationally through online and other means to promote uptake of the service (subject always to the Intervention Cap, as defined in paragraph 3.11). The Commissioner reserves the right to require the Provider to

undertake additional marketing of the self-referral pathway and this must be delivered as described in paragraph 3.3.

Where the Commissioner requires the Provider to implement a self-referral pathway, the Provider must put in place arrangements to invite eligible participants that are self-referred via the self-referral pathway to participate in the Service as described in paragraph 3.2.6.

3.2.6 Invitation to participate

Subject to the Intervention Cap and Intervention Period (referred to in paragraph 3.11 of this Service Specification), the Provider will invite all referred individuals to participate in the Face to Face or Digital Service. The Provider will initiate contact with all individuals referred to them in accordance with paragraphs 3.2.4 or 3.2.5, within 5 Operational Days of receipt of the referral, inviting them to participate in either the Face to Face Service or the Digital Service and the individual will be entitled to choose whether to participate in the Face to Face Service or the Digital Service.

The Tailored Remote Service can be delivered on a cross-contract basis and will only be offered alongside the Face to Face Service and the Digital Service to individuals whom the Provider has identified as requiring tailored or specific support. These groups include, but are not limited to, the following:

- Those with a hearing impairment requiring British Sign Language;
- Those with a visual impairment;
- Women with a previous diagnosis of Gestational Diabetes;
- Service Users from Bangladeshi or Pakistani backgrounds who require a specific cultural and language tailored Service.

The Provider can request from the Commissioner agreement to deliver the provision of a Tailored Remote Service to support additional cohorts alongside those listed above, in line with local needs as identified across particular contract areas.

The Provider will work with local health economies to manage the trajectory of referrals in line with the volume of contracted interventions and work together with the local health economy and with the Commissioner to match supply and demand across the duration of the Contract.

The invitation and all follow-up contact will contain basic, accessible information about Type 2 diabetes and information about how to reduce the risk of developing Type 2. All contact made with potential Service Users must be grounded in theory and evidence from behavioural insights and the Provider must make use of templates provided by the Commissioner.

Where there is no response from the initial invitation to the potential Service User, the Provider must make additional attempts to contact the potential Service User via at least two of the following methods: letter, phone call, text message or email; within a period of one calendar month from the date of referral into the Service.

Where contact has not been established after one month

If it has not been possible to make contact after a minimum of three attempts and through different channels after one calendar month, the individual must be discharged back to their GP. A discharge notice to the individual must also be communicated, signposting them to NHS Better Health website, the NHS Live Well website, the Diabetes UK website and to any other locally available resources for supporting weight loss, healthy eating and physical activity.

Where contact has been established

Where contact has been established with referred individuals, the Provider must explain the

differences between the Face to Face Service and the Digital Service and offer the individual a choice between the Face to Face Service and the Digital Service as part of the same conversation. The Provider must support individuals to make appropriate choices, but should not influence choice for commercial or operational reasons. Where an individual is identified as requiring tailored support as listed in paragraph 3.2.6, the Provider must offer the option to partake in the Tailored Remote Service intervention as an alternative to the Face to Face Service or Digital Service.

The Commissioner may require the Provider to use an approved script and set of criteria for this purpose in which case the Commissioner will notify the Provider of the script and criteria and the Provider shall use that script and criteria. This also applies to all further references in this Service Specification to the Provider offering individuals a choice between the Face to Face Service and the Digital Service (and where applicable the Tailored Remote Service).

Where contact has been established and an individual accepts an invitation to participate in the Service, the Provider must offer a choice of appropriate dates and times for the Service User's Individual Assessment (as set out in paragraph 3.2.7 below).

If the individual declines the invitation to participate in the Service on three separate occasions, they must be discharged back to their GP.

If the individual accepts the invitation to participate in the Service, the individual will become a Service User and the Provider must notify the Service User's GP that the Service User has agreed to participate in the Service once Milestone 1 has been Achieved (as those terms are defined in Schedule 3A (Local Prices) of the Contract) in relation to that Service User. The Provider must comply with any template letters or discharge communication content that the Commissioner notifies the Provider must be used.

The Provider must comply with relevant clinical codes associated with data items and include clinical codes in all notifications as specified by the Commissioner under the Contract.

The Provider will work closely with local health economies to identify and implement a feasible and locally appropriate mechanism for ensuring data is fed back to the GP in read coded format and can be integrated within GP clinical systems; ideally by electronic transfer. The Provider will also work with the local health economies to ensure that there is a monthly update on referral and uptake rates, waiting list size and outcomes at CCG level.

Additionally the Commissioner may require the Provider to notify GPs about progression of Service Users through the Service. The Commissioner will notify the Provider if this is required and the Provider shall comply with such notification.

Where contact has been established but an individual indicates that they do not accept the Service then the individual must be discharged back to their GP. A discharge notice to the individual must also be communicated, signposting them to NHS Better Health website, the NHS Live Well website, the Diabetes UK website and to any other locally available resources for supporting weight loss, healthy eating and physical activity.

3.2.7 Individual assessments

Individual assessments of Service Users ("Individual Assessments") form the first stage of the Service. The Provider will conduct Individual Assessments with all Service Users who accept the invitation to participate in the Service. The Provider will use Individual Assessments to confirm whether Service Users are eligible for the Service and to gather baseline data as specified in Schedule 6A. Data must be gathered at all points of Service delivery in accordance with the requirements of this Service Specification and Schedule 6A.

The Provider will also use the Individual Assessment to deliver a brief intervention in line with NICE guidelines (see NICE PH38 and PH49). The Individual Assessment may also be used as an opportunity to assess an individual's motivation for behaviour change. Motivational interviewing must be used to support Service Users in setting appropriate goals and if a desire to set unhealthy goals is identified during this process, the Service User may require additional advice on the risks of some elements of the Service (see paragraph 3.2.9).

Elements of the Individual Assessment might be conducted through remote or digital channels. Weight measurements need to be taken through calibrated and objective mechanisms for the Face to Face Service. For the Digital Service, the Tailored Remote Service and any remote catch-up sessions delivered as part of the Face to Face Service, weight measurements may be self-reported by Service Users.

If an individual has previously accepted the Service but fails to attend a scheduled and agreed Individual Assessment, the Provider must make at least two further attempts to offer an Individual Assessment at times and, where delivered in-person, venues appropriate to the individual. If the individual does not attend any of the offered Individual Assessments, the Provider must discharge the individual back to their GP, sign posting the individual to the NHS Better Health website, the NHS Live Well website, the Diabetes UK website and to any other locally available resources for supporting weight loss, healthy eating and physical activity.

Attendance at Face to Face Service or Tailored Remote Service

If, following the Individual Assessment as part of the Face to Face Service or Tailored Remote Service, a Service User:

- does not attend the first group session after the Provider has offered the first group session on 3 separate occasions at times and, for the Face to Face Service, venues appropriate to the Service User;
- defers attendance at the first group session after the Provider has offered the first group session on 3 separate occasions at times and, for the Face to Face Service, venues appropriate to the Service User; or
- declines the Face to Face Service or Tailored Remote Service,

the Provider must discharge the Service User back to their GP, signposting the Service User to the NHS Better Health website, the NHS Live Well website, the Diabetes UK website and to any other locally available resources for supporting weight loss, healthy eating and physical activity.

Where a Service User misses an in-person group session as part of the Face to Face Service, the Provider must offer a choice of either a remote catch-up session or alternative Face to Face group session to support the Service User in catching up on missed course content.

Attendance at Digital Service

If, following the Individual Assessment as part of the Digital Service, the Service User:

- has not registered for the Digital Service within the first calendar month post Individual Assessment; or
- does not have any recorded activity for the first calendar month post Individual Assessment,

the Provider must make a minimum of three attempts to contact the Service User, using at least two of the following means of communication: letter, phone call, text message or email.

Where the Service User cannot be contacted or declines the Digital Service, the provider must discharge the Service User back to their GP, signposting the Service User to the NHS Better Health website, the NHS Live Well website, the Diabetes UK website and to any other locally available resources for supporting weight loss, healthy eating and physical activity.

The Provider must record details about the number of contact attempts made to offer the Face to Face Service, including date and method of contact as set out in this section. The Provider is not required to record all of this information under Schedule 6A but must share this information with the Commissioner if requested.

The Commissioner may, from time to time, require the Provider to offer a person the Services under other circumstances alongside those listed in paragraph 3.2.6, for example tailored remote and digital Services for specific characteristics, demographics, languages or population needs. Where the Commissioner so requires, it shall notify the Provider in writing.

Service Users who smoke

The Provider must conduct a very brief intervention (offering very brief advice) with Service Users who are smokers, as detailed in training provided by the National Centre for Smoking Cessation and Training and recommended in NICE guidance NG92. This will involve the following steps: i) Ask – if the Service User smokes (yes/no); If yes, ii) Advice – the best way to quit is with a combination of medication and support. Would you be interested in this? If yes: Act – refer to stop smoking service. The Provider will establish an appropriate referral mechanism with local health economies and systems. The Provider must maintain a record about Service Users who were screened for smoking, offered advice and referred to stop smoking services.

3.2.8 Intensity and duration of the Face to Face Service and Tailored Remote Service

The Provider must deliver the Face to Face Service and Tailored Remote Service in accordance with the following requirements:

- The Service must consist of a series of 'sessions' as opposed to minimal ('one-off') contact;
- The Service must be spread across a 9 month duration;
- 13 sessions must be provided to each Service User; each session must last between 1 and 2 hours;
- The minimum total contact time must be 16 hours;
- Additional contact outside of the 13 sessions and minimum of 16 hours, to further engage and support Service Users, to encourage retention and, where a Service User has missed sessions, to re-engage them to attend face to face is encouraged, and for the Face to Face Service, remote catch-up sessions must be offered to support session catch-up where appropriate. The Provider must consider how it ensures that Service Users are given appropriate individual support, including dedicated 1:1 time as required;
- The Provider will ensure that sessions are delivered in a format and at times that are appropriate to a range of diverse groups in the community and must include evening and weekend sessions to facilitate access for working people. Sessions must be offered at a range of times, days and, for the Face to Face Service, venues and accessible locations in order to maximise access to (and therefore uptake of) the Service, particularly for those of working age, BAME groups and more socially deprived communities;
- The design of the Service must allow Service Users to make behavioural changes gradually and throughout the 9 month duration of the Service;
- The Individual Assessment does not count towards intervention hours but the final session does. The Individual Assessment is counted outside of the minimum 13 sessions. Weigh-ins do not count towards session time in isolation although they could be part of a session.

3.2.9 Underpinning theory and approach for the Service

- The Provider must ensure that the Service is grounded in and delivered in accordance with behavioural theory. The Provider must be explicit regarding the behavioural change theory and techniques that are being used, and the expected

mechanism of action of their intervention. The Provider must use a systematic method to identify links between the components of the intervention, the mechanism of action and the intended behavioural outcomes, to ensure that interventions are adapted for the target behaviours, population and context. This must be reflected in a logic model or theory of change, to clearly specify which techniques they are using and how they expect their interventions to produce the desired behavioural changes.

- Interventions must be developed in consultation with behaviour change specialists and Service Users, to increase engagement. Methods for developing and implementing behaviour change interventions are set out in Public Health England guidance "Achieving behaviour change: a guide for local government and partners".
- The Provider must utilise a behavior change framework which is evidence based, such as the COM-B model - see Michie et al (2011a)⁵.
- The Provider must demonstrate which behavior change techniques from the Behaviour Change Technique Taxonomy Michie et al (2011b)⁶ are met by their intervention. As a minimum the intervention must include all the behaviour change techniques set out in NICE PH38 recommendations 1.9.2, 1.9.3 and 1.9.4⁷.
- The Provider must ensure that all sessions and communications incorporate clear, targeted, and high quality communication of risk, which optimise understanding of the risk of developing Type 2 diabetes and how this can be prevented. Application of behavioural science approaches to behaviour change must be demonstrated; particularly in relation to promoting recruitment and retention/reengagement of Service Users, and session attendance. The Provider must comply with any materials and templates provided by the Commissioner.
- The Service must not be designed in a way which increases health anxiety, discourages face to face consulting, encourages inappropriate self-management and/or encourages the adoption of unhealthy behaviours, such as excessive exercise or disordered eating.
- The Provider must be explicit about the intended action expected of Service Users in response to non-face to face contact (marketing, invitation letters, leaflets, referral forms, text messages etc.) and the mechanism of action by which that is expected to occur (with reference to behavioural change frameworks as described above). Evidence and best practice must be considered and described by the Provider when producing these materials and communication channels.
- The Provider must ensure that family or peer support is accommodated where this would be helpful to a Service User.

3.2.10 Content of the Service

- The Provider must develop detailed content for the Service.
- The content must cover information about Type 2 diabetes, including long-term effects, risk factors and benefits of behaviour change. The intervention must provide

information and practical tools on nutrition, physical activity and weight management based on national guidance set out below and detailed more fully in Annex 1 of this Service Specification.

- Providers must ensure that interventions do not rely solely on information-giving and encourage interactive engagement with Service Users.
- The Provider must consider the extent to which the intervention is delivered in a logical progression in line with behavioural change techniques as described in paragraph 3.2.9 above. The intervention must aim for steady progress on Service Users' goals.
- The distribution of content across the intervention must seek to maximise continued engagement by the Service User across the duration of the Service.
- The content of interventions must be tailored to individual Service Users where possible and must consider the social and psychological support needed to implement behaviour changes in environments which promote unhealthy behaviours.
- The Provider must advise Service Users that some individuals may be at risk of setting unhealthy goals and must avoid aspects of an intervention that could encourage this. For example, Service Users with a history of disordered eating may decide to avoid aspects of an intervention that they feel might worsen this tendency.
- The risks and benefits of remote or digital interventions that involve the use of adverts and social media must be considered by the Provider when designing the Service. The Provider must ensure that no unregulated content or adverts via social media or other platforms encourages the use of goals, methods or content which fall outside of the evidence and this Service Specification.
- The Provider must be aware of the risks of digital exclusion in the use of the Digital Service or digital components of a Face to Face Service or Tailored Remote Service and take steps to mitigate it.
- Across all Services, use of the Provider's own platform or a moderated platform is preferred for online interactions such as chat rooms, and in instances where third party forums are being used, Service Users must be made aware of risks and the need to only rely on recommendations from the Provider.

3.2.11 Delivery of sessions for the Face to Face Service (including remote catch-up sessions)

The Provider must deliver the Face to Face Service (including remote catch-up sessions) in accordance with the following minimum requirements:

- The Provider must ensure that the Face to Face Service is delivered using predominantly group sessions designed to be delivered to up to 20 Service Users in each group. Individual contact, in addition to the 13 sessions (either in person or remotely) may also be included to enhance delivery and retention. Larger group sizes may be used by exception (for example, a group exceeds 20 people where a Service User is bringing a family member or carer or where a Service User from another group has missed a session and attends to catch up either in-person or remotely). Sessions must be held within a reasonable timeframe and the Provider must ensure that these are not unduly delayed due to lower than anticipated group sizes. A record of group numbers must be kept and made available on request by the Commissioner.
- Group sessions, within the required 13 sessions, will be delivered face to face (in person) unless the Service User does not attend their planned in-person session and accepts a remote catch-up session.
- Service Users must be offered a choice of dates and times for each and any session to encourage attendance and also to offer the opportunity to catch up (either face to

face or via remote means) where they have missed a session. This choice must be available throughout the duration of the intervention. The Provider must consider the extent to which the intervention is delivered in a logical progression.

- Service Users will not be able to formally transition from the Face to Face Service to the Tailored Remote Service once they have commenced on the Face to Face Service (but for the avoidance of doubt this will not prevent the Provider from offering remote catch-up sessions to Service Users on the Face to Face Service but only in instances where a session is missed and a remote session to catch-up on content is required and the Provider must ensure these Service Users are booked on to the next appropriate face to face session).
- The Provider must consider how it ensures that Service Users are given appropriate individual support, in particular with self-regulatory and cognitively demanding behaviour change techniques. This must include dedicated 1:1 time as required.
- If a group size diminishes as the Service progresses due to non-attendance, there is no minimum group size; a Service User who wishes to continue on the Service (if they haven't already attended the final session) must be allowed to do so regardless of group size. However, the Provider may introduce mechanisms for joining together groups if numbers of attendees in a group are small.

3.2.12 Delivery of Sessions for the Digital Service

The Provider must deliver the Digital Service in accordance with the following minimum requirements:

- Engagement with the Digital Service by the Service User shall be monitored and reported to the Commissioner. Effective engagement should be defined by the Provider "in relation to the purpose of a particular intervention" (Yardley et al 2016)⁸ and engagement data collected accordingly.
- Engagement shall be characterised by the interest and subjective experience of using the intervention, combined with objective measures of the amount, frequency, duration and depth of usage. Examples of engagement might include: viewing materials, completing any active elements, engaging directly with human coaches, inputting self-monitoring data, or participating in moderated group sessions. Engagement would not include passive receipt of emails and other communications unless it could be demonstrated that these have been actively read through Service User feedback mechanisms embedded into the communication. Schedule 3A sets out the specific types of engagement methods that the Provider must ensure are used for payments to be claimed and this may include engagement methods proposed by the Provider where this is agreed with the Commissioner.
- The Provider must be able to demonstrate that their curricula/modules are designed to deliver engagement of Service Users for a minimum of nine months and must aim to deliver the same objectives and the same course content as the Face to Face Service and the Tailored Remote Service.
- To ensure engagement is spread over nine months, the Provider must promote and ensure that there is active engagement activity each month. Payment for the Digital Service is dependent on monthly engagement. Schedule 3A (Local Prices) sets out the specific requirements that need to be met for payment.
- The programme material for the Digital Service must be designed to allow Service Users with different levels of knowledge and different approaches to learning to progress at different paces. This must include promoting self-directed learning.

- The Service must comply with NHS guidance on push notifications to Service Users (if used) (see “Notifications and messaging guidance and restrictions”, NHS Digital 2021).
- Access to the Digital Service must be flexible to accommodate Service User preferences about accessing the Digital Service at a time of their choosing and to work through content flexibly at their own pace.
- The Provider must consider how it ensures that Service Users are given appropriate individual support, in particular with self-regulatory and cognitively demanding behaviour change techniques. This must include dedicated 1:1 time as required.
- The Provider must ensure that Service Users are able to adjust their level of interaction with digital systems, for example adjust the frequency of prompts, to their preferred settings.
- The Provider will inform Service Users how to check and set preferences for how their personal information and Personal Data may be used. The Provider will inform Service Users about when digital interventions are likely to use mobile data, and provide an indication of how much data may be used (for example an average, or information on the size of an app). The Provider will inform Service Users that they may therefore incur costs related to data usage depending on how they access the internet and their internet service provider's charges.

3.2.13 Delivery of Sessions for the Tailored Remote Service

The Provider must deliver the Tailored Remote Service in accordance with the following minimum requirements:

- The Provider must ensure that the Tailored Remote Service is offered as an intervention option to specific identified cohorts as set out in paragraph 3.2.6 alongside the Face to Face Service and the Digital Service.
- The Provider must offer a platform for the Tailored Remote Service which can support both videoconferencing and teleconferencing which is free at the point of access for Service Users.
- Service Users must be offered a choice of dates and times for each and any session to encourage attendance. This choice must be available throughout the duration of the intervention. The Provider must consider the extent to which the intervention is delivered in a logical progression.
- Where a Service User misses a session, the Provider must ensure that they are given the opportunity to catch-up before booking the Service User onto the next appropriate Tailored Remote Service session.
- Where the Tailored Remote Service is being delivered to a cohort of Service Users which requires specific tailoring, the Provider must ensure that the necessary requirements are fulfilled to ensure that Service User needs are met e.g. BSL interpreters, visually aided workbooks.
- The Provider must deliver the Tailored Remote Service using predominantly group sessions designed to be delivered to up to 20 Service Users in each group; these Service Users may span across multiple areas in which the Provider provides the Service under Contracts pursuant to the NDPP Framework Agreement.
- Individual contact, in addition to the 13 remote group sessions may also be included to enhance delivery and retention.
- Group sessions, within the required 13 sessions, should not exceed the recommended time limit for each session in order to maintain the effectiveness of the intervention.

- As per paragraph 3.2.7 and paragraph 3.2.9, Providers must ensure that sessions delivered as part of the Tailored Remote Service appropriately mirror the intensity, theory and content as delivered across the Face to Face Service.

3.2.14 Delivery of Services in extraordinary circumstances

The Provider must ensure that they have comprehensive business continuity plans in place in order to support continued access to and delivery of the Service during periods of disruption.

It is recognised that, due to unforeseen circumstances, there may be situations in which the delivery of the Face to Face Service cannot be facilitated in-person and the Commissioner requires the Provider to suspend the provision of the Face to Face Service. At any time during the Contract Term, on one or more occasions the Commissioner may at its absolute discretion require the Provider to suspend the provision of the Face to Face Service. If the Commissioner requires the Provider to suspend the provision of the Face to Face Service, the Commissioner will notify the Provider in writing. Upon receipt of such notification, the Provider will suspend the provision of the Face to Face Service and the Commissioner will work with the Provider to support with Service User management and continued the delivery of the Service in line with the principles set out in this paragraph 3.2.14 below.

Transition between in-person and remotely delivered Face to Face Service

- In circumstances where the Commissioner notifies the Provider that the in-person Face to Face Service is to be suspended in accordance with this paragraph 3.2.14, the Provider must offer affected Service Users the choice to transition to a remote mode of delivery. For the avoidance of doubt, this is not the Tailored Remote Service.
- Where Service Users accept this offer, the Provider must ensure that the Service User is given the appropriate information and guidance to support a smooth transition to remote delivery of the Face to Face Service.
- The Service must be delivered at all times in line with paragraph 3.2.10 and the Provider is responsible for ensuring the appropriate and successful integration of the Service User into the alternative provision.
- The Provider is responsible for ensuring that affected Service Users are appropriately recorded as having transitioned to a remote alternative of the Face to Face Service, and must ensure that affected Service Users are given the option to transfer back to in-person delivery once the Commissioner notifies the Provider that it may resume the Face to Face Service.

Pausing existing Service Users on the Service

- Only in instances where the Commissioner notifies the Provider that the delivery of the Face to Face Service is to be suspended in accordance with this paragraph 3.2.14 should existing Service Users be given the option to pause their participation in the Service until the Commissioner notifies the Provider that in-person delivery of the Service is to resume.
- The Provider must ensure that they have contacted all affected Service Users to discuss the alternative delivery of the Service and transition to the remote delivery of the Services in accordance with this paragraph 3.2.14 prior to Service Users confirming they wish to pause their participation in the Service and that Service Users are offered appropriate support in the interim prior to the resumption of the Face to Face Service.
- The Provider must ensure that Service Users who have chosen to pause their participation in the Service continue to receive reminders regarding the importance of annual glycaemic reviews.

- The Provider must ensure that Service Users who have chosen to pause their participation in the Service are accurately reflected in reporting requirements as outlined in Schedule 6A.
- Where a Service User chooses to pause their participation in the Face to Face Service, the timescales used for the purposes of calculating the relevant Milestone periods (as defined in Schedule 3A) will also temporarily pause until the Service User resumes their participation in the Face to Face Service. Once a Service User formally resumes their participation in the Face to Face Service, the relevant Milestone period will recommence.

Deferring new Service Users on the Service

- Where the Commissioner notifies the Provider that the delivery of the Face to Face Service is to be suspended in accordance with this paragraph 3.2.14 and new potential Service Users are being referred into the Service during suspension of the in-person Face to Face Service, the Provider must ensure that the individuals are offered the remote alternative of the Face to Face Service, the Digital Service and, for applicable cohorts as outlined in paragraph 3.2.6, the Tailored Remote Service before giving them the option to defer their place on the Service. The Provider must consider how it ensures that Service Users are given appropriate support during their period of deferral from the Service.
- The Provider must ensure that Service Users who have deferred their place on the Service continue to receive reminders regarding the importance of annual glycaemic reviews.
- Where Service Users are deferred on the Service, the Provider must notify their GP via a format as agreed with the Commissioner.
- The Provider must ensure that Service Users who have deferred their place on the Service are accurately reflected in reporting requirements as outlined in Schedule 6A.

Resuming the Face to Face Service following suspension

The Commissioner will notify the Provider in writing when the Face to Face Service is to resume. Following such notification, the Commissioner will work in collaboration with ICS's and the Provider to provide appropriate guidance and support in relation to the resumption of the Face to Face Service following the period of suspension.

3.2.15 Training and Competencies for the design and delivery of the Services

- The Provider acknowledges and agrees that the Services involve training, teaching, instruction, assistance, advice and guidance provided wholly or mainly for adults receiving healthcare. The Commissioner therefore considers the Services to be regulated activity for the purposes of regulations governing the use of Enhanced DBS & Barred List Checks and the Provider must carry out Enhanced DBS & Barred List Checks in respect of all members of Staff engaged in the Services who are eligible for such checks and must not engage any such person in the Services who is barred from working with vulnerable adults or is otherwise unsuitable for working with vulnerable adults. The Provider must ensure that any Sub-contractor is subject to similar obligations.
- The Provider will ensure that the Services are delivered or, where there is no human coaching element, developed, by suitably trained and competent individuals who are trained in delivery of behaviour change. The Provider will specify the type and level of qualification, training and / or competence to be required aligning with, for example, the Association for Nutrition 'wider workforce' training, Chartered Institute for the Management of Sport and Physical Activity accreditation, City & Guilds qualifications, and the Royal Society of Public Health qualifications. The Provider needs to demonstrate that these qualifications will ensure that front-line staff are appropriately selected and trained to deliver interventions in line with NICE PH49 for

both overall behaviour change and for group based delivery. Providers may use the Health Education England Behaviour Change Development Framework (<https://behaviourchange.hee.nhs.uk>) to guide workforce development.

- The Provider must ensure that training focuses on behaviour change technique delivery, group management, communication and rapport. Training must demonstrate delivery of behaviour change techniques and allow front-line staff the opportunity to practice using them. Processes must be in place for assessing Staff competence and for ongoing monitoring of behaviour change technique delivery by a behaviour change specialist, including giving feedback to Staff.
- The Provider must ensure that all individuals involved in the delivery of the Services have sufficient and appropriate training and competencies required to deliver the actions and content of the Services and to manage confidential and sensitive personal identifiable data. This must include training in delivery of the Services. The Provider must also consider the creation of apprenticeships as a means of developing and maintaining skills. Training must be routinely monitored and updated as necessary, and suitable continued professional development strategies must be in place.
- The Provider will ensure that all Staff adopt a person-centred, empathy-building approach in delivering the Services. This includes finding ways to help Service Users make gradual changes by understanding their beliefs, needs and preferences and building their confidence over time. The health coaching approach may be suitable, as detailed in NHS guidance: <https://www.england.nhs.uk/publication/health-coaching-summary-guide-and-technical-annexes/>.
- The Provider must ensure that a multi-disciplinary team of health professionals or specialists relevant to the core components of the Services (i.e. diabetes, behaviour change, weight loss, diet, physical activity and mental wellbeing) is involved in development of the Services and the training of Staff. These must include, for example, a registered dietitian or a registered nutritionist (registered with the Association for Nutrition), a registered health psychologist trained in the application of the COM-B model or other suitable tools and a qualified physical activity instructor.
- There is not a requirement for health professionals to deliver content of group sessions, nor be involved in every session. In discussions about physical activity it would be beneficial to involve a qualified physical activity instructor who has been trained in understanding and communicating the considerations involved with being more active.
- Access to the Service will accommodate the diverse needs of the target population in terms of availability, accessibility and customs as far as possible. The Service must be flexible and tailored to individual Service Users' needs, ability and cultural requirements. The Service must also provide culturally sensitive services and ensure access for people who have a physical or mental impairment. The Service must have access to appropriate interpreter services. The Provider must ensure that the Service complies with the Equality Act 2010 and would be accessible to wheelchair users and others with a physical disability. It must be available for people with low literacy levels, sensory impairment and learning disability and must welcome carers where needed.
- Staff delivering the Services will reflect the diversity of the population accessing the Services.
- In addition to in-depth behaviour change training, Providers where relevant, can draw on resources provided or recommended by Public Health England, for example:
 - Physical activity: applying All Our Health. PHE 2015.

- Changing Behaviour: Techniques for Tier 2 Adult Weight Management Services. PHE 2017.
- Health matters: physical activity - prevention and management of long term conditions. PHE 2020.
- Helping older people stay active at home, Chartered Society of Physiotherapists (<https://www.csp.org.uk/public-patient/keeping-active-and-healthy/staying-healthy-you-age/staying-strong-you-age/strength>).

3.2.16 Weight Loss and Measurement

In relation to weight loss:

- The Service must involve collecting weight data for all Service Users. For the Face to Face Service and Tailored Remote Service, this must include a weigh-in or recording of a self-reported weight at every session. Where a Service User attends a remote catch-up session as part of the Face to Face Service in place of a missed in-person session, they will be required to self-report their weight as part of the session.
- Data collection of weight measurements for the Face to Face Service must be objective and must not be self-reported (except where it is being taken at a remote catch-up session) and taken using appropriately calibrated scales. Scales must meet Class III criteria for levels of accuracy as per UK Weighing Federation guidance (<http://www.ukwf.org.uk/res/medicalguidancenotes.pdf>) and “Weight Management Interventions: Standard Evaluation Framework” (PHE 2018).
- For the Digital Service: the Provider must request that Service Users undertake baseline, 3 month, 6 month and 9 month weigh-ins to monitor progress.
- Where weight is self-reported by Service Users as part of the Digital Service and the Tailored Remote Service, steps to ensure consistency of measurement must be encouraged, for example, using the same scales for each measurement taken. The Provider must also encourage Service Users to use regular weigh-ins as part of self-monitoring.
- The Commissioner will work with the Provider to ensure that people are given advice on options for weighing themselves where they do not have access to scales. There are likely to be a number of options for how people can access scales, including through their GP practice, pharmacy, or through other local services and retail outlets. The Provider must ensure that any Service User that this may affect is made aware of any options that the Commissioner deems appropriate.
- Body mass index (BMI) and waist circumference thresholds must be used as specified in NICE guideline PH46 (see Annex 2). See “Weight Management Interventions: Standard Evaluation Framework” (PHE 2018) for details of measurement of height and weight.
- Motivational interviewing must be used to support Service Users in setting appropriate goals. The Provider must ensure that achievable goals for weight loss (for people who are overweight or obese) are agreed for different stages of the Service for example, within the first few weeks, at three months and at completion of the Service. Service Users must be encouraged to work towards their behaviour change goals as well as weight loss goals, for example, increased physical activity or eating more fruit and vegetables.
- The Provider must ensure that Service Users who are not overweight or obese are not encouraged to lose weight but are supported to maintain a healthy weight, and that weight loss advice for older participants manages any risk of Sarcopenia.
- The Provider must, wherever possible, work with Service Users to assess their dietary intake and support Service Users to plan sustainable dietary changes,

aligned with the balance of food groups in the Eatwell Guide (refer to paragraph 3.2.14 below for further information), to achieve weight loss and help with weight maintenance.

- The Provider must design approaches to support individuals who are overweight or obese at baseline (as defined in Annex 2) to reduce their calorie intake. A calorie limit of no more than 1,900kcal for men and 1,400kcal for women should support weight loss at a rate of 0.5kg-1kg each week but calorie limits must take into account individual Service Users' circumstances, such as physical activity level. Weight loss of 5-10% of baseline weight should be used to support individuals who are overweight or obese to understand how much weight loss is required to achieve health benefits and to set achievable targets. Approaches need to support longer term sustainable behaviour change in order to maintain target weight.
- The Provider must design approaches to support individuals who are a healthy weight at baseline to maintain a healthy weight in line with NICE Guideline NG7.
- The Provider must consider making reasonable adjustments for Service Users with a learning disability. Public Health England guidance (Obesity and weight management for people with learning disabilities. PHE, 2020) states that people with learning disabilities may require alternative methods of weight measurement due to chronic constipation and/or atypical body shape. The Provider must work with the local health system to determine the best process for measuring weight where the mainstream method is not appropriate.

3.2.17 Dietary content

The design and delivery of the syllabus must be underpinned by the UK Government dietary recommendations as detailed in the Eatwell Guide⁹ and support weight loss for Service Users who are overweight or obese, or the maintenance of a healthy weight in Service Users of healthy weight. The Eatwell Guide shows the proportions on the main food groups that form a healthy balanced diet. This involves increased intake of fibre, fruit and vegetables and oily fish, and decreased intake of saturated fat, sugar, salt and energy:

- Eat at least 5 portions of a variety of fruit and vegetables every day;
- Base meals on potatoes, bread, rice, pasta or other starchy carbohydrates; choosing wholegrain versions where possible;
- Have some dairy or dairy alternatives (such as soya drinks); choosing lower fat and lower sugar options;
- Eat some beans, pulses, fish, eggs, meat and other proteins (including 2 portions of fish every week, one of which should be oily);
- Choose unsaturated oils and spreads and eat in small amounts;
- Drink 6-8 cups/glasses of fluid a day;
- If consuming foods and drinks high in fat, salt or sugar have these less often and in small amounts.

The Provider must support Service Users towards achieving the Government's dietary recommendations:

- Use dietary approaches that are evidence based and sustainable in the longer term;
- Use motivational interviewing to support Service Users in setting appropriate goals.

⁹ Information about the Eatwell Plate can be accessed at www.nhs.uk/Livewell/Goodfood/Pages/eatwell-plate.aspx.

- Service Users must be encouraged to set tailored and achievable short, medium and long term goals which help them to achieve their aims.
- The Service must encourage self-monitoring to help Service Users review their progress.
- The Service must inform Service Users about how to effectively utilise self-monitoring to ensure healthy goals are set. This is applicable for the Face to Face Service and the Tailored Remote Service, but particularly for the Digital Service.
- Service Users must be supported to consume wholegrain and higher fibre starchy carbohydrates in line with the Eatwell Guide (about a third of food eaten).
- For Service Users who are overweight or obese and therefore need to lose weight through calorie reduction, the Provider must ensure that this is achieved through the promotion of the balance of food groups as set out in the Eatwell Guide.
- Dietary advice must reflect the culinary traditions of the communities in which the Service is being provided, without making assumptions about what Service Users eat.

3.2.18 Physical activity content

- The Provider will support those Service Users who are not physically active, to aim to become active daily and minimise time spent being sedentary, with an aim of meeting or exceeding the England CMO recommendations for adults, older adults, disabled adults and pregnant and postpartum women (see Annex 1).¹⁰ The Provider will tailor the support provided as part of the Service to meet the needs, goals and capabilities of individual Service Users. Care must be taken to set achievable goals bearing in mind the principle set out by the CMO recommendations that any physical activity is better than none: even light activity and activity in short bursts is better than being sedentary.
- The Provider will promote strength, balance and flexibility activities as set out in the CMO recommendations, particularly for older adults.
- The Provider will take a graded and structured approach to setting, monitoring and reviewing goals to ensure that those who have a very low baseline level of physical activity are supported to aim for the CMO recommendations within a personalised timeframe. Motivational interviewing must be used to support Service Users in setting appropriate goals.
- The Provider will support Service Users to reduce the amount of sedentary activity in their leisure and working time, by promoting and demonstrating the use of breaks after a prolonged period of sitting or other sedentary activity.
- The Provider will support Service Users to incorporate active travel into their daily routine either through walking or cycling skills and group activities; the Provider can use tools which encourage the incorporation of walking into daily routines such as those applied through the Public Health England Active 10 app. Active 10 promotes graded increases and encourages brisk walking. Providers may also use the NHS Better Health and NHS Live Well websites, which include interventions such as Couch to 5k.
- The Provider is required to measure physical activity for the Face to Face, Tailored Remote and the Digital Service using a standard self-reporting tool as determined by the Commissioner and when required by the Commissioner. Self-monitoring and reliable data capture to understand individual-level change in weight, diet, and physical activity are key behavior change techniques. Services must include

¹⁰ UK Chief Medical Officers' physical activity guidelines. Department of Health and Social Care. September 2019.

methods to allow Service Users to accurately and regularly self-monitor their diet and physical activity behaviours.

- The Provider must encourage self-monitoring of physical activity by regularly liaising with Service Users about the number of steps undertaken in the previous week using objective measurement such as use of pedometers, activity trackers, or smart phone step counters. The Provider must promote self-monitoring in a way which ensures that healthy goals and patterns of exercise are embedded. Data on absolute step counts will be required over a measurement period of the previous seven days.
- The Provider must also encourage self-monitoring of activities that do not provide 'steps' (for example, cycling), strength, balance and flexibility activities and activities to reduce sedentary time. The Provider will be required to provide data on physical activity including calculation and reporting of step counts, e.g. by calculating percentage change, to allow comparison of Service User and Provider physical activity changes relating to the Service as determined by the Commissioner and as notified by the Commissioner to the Provider. The Recent Physical Activity Questionnaire (RPAQ) is the tool currently in use for this purpose.
- The Service may include supervised exercise and when used must build gradually to increase exercise capacity of the Service User. It is the Provider's responsibility to ensure that Staff providing supervised exercise are suitably qualified.
- The Provider must provide a choice of physical activities to accommodate as wide a range of Service Users as possible and must measure health inequalities in access and outcomes.

The Provider must ensure that content of the Service is regularly reviewed and adjusted to stay up to date with government standards, recommendations, guidance and new evidence.

3.2.19 Final Session

The "Final Session" is defined as the last session delivered by the Provider as part of the planned Service (for those Service Users still attending).

As part of the Final Session, the Provider must conduct a post intervention assessment of weight, wellbeing and achievement of individual goals for all Service Users who attend. For the Face to Face Service, the weight must be taken via objective means (unless the Final Session is delivered remotely). BMI must also be calculated and arrangements for collection of Service User feedback / customer satisfaction survey must be agreed. Details of the data to be reported are provided in Schedule 6A.

The Provider must again ensure that links are made with local or national activities and services, in order to provide support for Service Users to continue with improvements made to dietary and physical activity behaviours and weight loss.

The Provider must ensure that Service Users are reminded about key sources of information and advice, such as NHS Choices.

The Provider must make available support and advice post intervention to Service Users to encourage the maintenance of improved lifestyles.

3.2.20 Discharge from the Service

The Service User is "Discharged" from the Service in the following circumstances:

- If after the Provider contacts an individual following referral, the individual does not respond to the Provider after one calendar month from referral provided that the Provider has made a minimum of three attempts to contact the individual, and used various different communications channels as set out in paragraph 3.2.5 above;
- If, after the Provider contacts an individual following referral, the individual indicates

that they do not accept the Face to Face Service;

- If, after the Provider contacts an individual following referral, the individual indicates that they accept the Face to Face Service, and have either declined, deferred or did not attend an Individual Assessment and/or a first intervention session for the Face to Face Service or the Tailored Remote Service where the Provider has offered the session on 3 separate occasions (including a remote catch-up option for participants on Face to Face Service) at times and, for the Face to Face Service, venues suitable to the individual;
- When a Service User misses three consecutive Face to Face Service or Tailored Remote Service sessions for no known reason, and for the Face to Face Service the Provider has offered appropriate remote catch-up sessions, and the Provider has made a minimum of three attempts to contact the Service User since the last attended session, using at least two of the following means of communication: letter, phone call, text message or email;
- For the Digital Service, where there is no recorded activity for three consecutive calendar months;
- When a Service User informs the Provider that they no longer wish to participate in the Service; and/or
- On completion of the Final Session (or once the Final Session has been delivered) . Once the Final Session is completed then the Service User is discharged automatically regardless of the number (or percentage) of sessions attended.

Discharge Requirements

The Provider must provide each Service User's GP and the Service User themselves, with notification of Discharge via template letters or discharge communication content as notified by the Commissioner and as included within Schedule 6A.

The letter of discharge must encourage the Service User to contact their GP to confirm a date for their annual review, including a blood test to confirm whether HbA1c or FPG levels have reduced.

The letter of discharge to the GP must advise that clinical guidelines recommend follow up of people with non-diabetic hyper-glycaemia and/or women with a previous history of gestational diabetes every 12 months, where follow up includes measurement of weight and HbA1c, as well as assessing and addressing cardiovascular risk consistent with standard clinical practice.

The Provider must comply with relevant clinical codes associated with data items and include clinical codes in all notifications as specified by the Commissioner under the Contract.

The Provider will work closely with local health economies to identify and implement a feasible and locally appropriate mechanism for ensuring data is fed back to the GP in read coded format and can be integrated within GP clinical systems; ideally by electronic transfer. The Provider will also work with the local health economies to ensure that there is a monthly update on referral and uptake rates, waiting list size and outcomes at ICS level.

3.2.21 Links to Tier 2 Weight Management and other services

The Provider must ensure that links are made with existing local networks and partnerships (for example, physical activity providers) throughout the development and delivery of the Service. This could include, for example, leisure and public health services, departments within Local Authorities, NHS Choices, and local physical activity schemes.

Alongside this, the Provider must ensure that they are aware of Tier 2 weight management services operating across the relevant geographical area applicable to the Service. These Tier 2 weight management services form part of the obesity pathway and they are

commissioned either locally, mainly by local authorities, or on a national basis for the NHS 12-week Digital Weight Management Programme ("NHS DWMP").

Typically, Tier 2 weight management services are multi-component lifestyle interventions that include diet, physical activity and behaviour change components. These services are typically delivered in group settings over 12 weeks and target overweight individuals, defined as having a BMI >25, although variation does exist across local authority delivered services.

The NHS DWMP is limited to individuals who have a BMI of $\geq 30\text{kg/m}^2$ (adjusted to ≥ 27.5 for people from Black, Asian and ethnic minority backgrounds) and a current diagnosis of either diabetes and/or hypertension.

The NDPP is more intensive than most existing weight management services. Where an individual has been identified as having non-diabetic hyperglycaemia but is also eligible for a Tier 2 weight management service, they will be referred into the Service if they meet all other eligibility criteria as set out within this Service Specification.

3.3 Marketing of the Service

The Provider must undertake marketing and promotional activity in conjunction with the local health economy to advertise the existence of the Service, with a view to raising awareness about the availability and benefits of the Service amongst local primary care and to people in the geographical area covered by the Contract who may benefit from participating in a diabetes prevention programme. Any marketing or promotional activity must be designed to target groups in the community which are currently less likely to access services, or which are at a disproportionately higher risk of developing diabetes encouraging them to find out more about the Service.

In marketing the Service, the Provider must conform to any guidelines on social marketing of the Service under the Contract, for example to ensure alignment of messaging with any wider social marketing campaigns being undertaken in relation to diabetes, or health promotion more generally. This includes using any branding guidelines developed by the Commissioner specifically for the NDPP.

Where it is required that the self-referral pathway is stood up in accordance with paragraph 3.2.5, the Provider must ensure any marketing requirements that are required by the Commissioner are complied with. Additional support for marketing activity related to the self-referral pathway will be discussed with the Provider should it be required that this pathway be made available across the Service.

3.4 Intellectual Property

For the avoidance of doubt, notwithstanding General Condition 1.2, the Parties expressly agree that this paragraph 3.4 shall take precedence over General Condition 22 in respect of Intellectual Property.

Except as set out expressly in this Contract, no Party will acquire the IPR of the other Party.

The Provider grants the Commissioner a fully paid-up non-exclusive licence to use Provider IPR for the purposes of the exercise of its functions and obtaining the full benefit of the Services under this Contract, which will include the dissemination of best practice to commissioners and providers of health and social care services.

The Commissioner grants the Provider a fully paid-up non-exclusive licence to use Commissioner IPR under this Contract for the sole purpose of providing the Services.

In the event that the Provider or the Commissioner at any time devise, discover or acquire rights in any Improvement it or they must promptly notify the owner of the IPR to which that Improvement relates giving full details of the Improvement and whatever information and explanations as that Party may reasonably require to be able to use the Improvement effectively and must assign to that Party all rights and title in any such Improvement without charge.

Any IPR created by the Commissioner in the exercise of its licence rights under this Contract will be owned by the Commissioner.

The Provider must disclose all documents and information concerning the development of Best Practice IPR to the Commissioner at Review Meetings and must grant the Commissioner a fully paid-up, non-exclusive perpetual licence to use Best Practice IPR for the purpose of the exercise of its functions together with the right to grant sub-licences to Public Health England and any Participating Commissioner for the purpose of the exercise of their respective functions.

"Best Practice IPR" in this paragraph 3.4 means any IPR developed by the Provider including Improvements to such IPR in connection with or as a result of the Services.

"Improvement" in this paragraph 3.4 means any improvement, enhancement or modification to Commissioner IPR, Provider IPR or Best Practice IPR (as the case may be) which cannot be used independently of such IPR.

"IPR" in this paragraph 3.4 means inventions, copyright, patents, database right, domain names, trade marks, module names, rights in computer software, database rights, rights in get-up, goodwill and the right to sue for passing off, designs and confidential know-how and any similar rights anywhere in the world whether registered or not, including applications and the right to apply for any such rights.

"Participating Commissioner" in this paragraph 3.4 means a clinical commissioning group (including any successor or replacement body), an Integrated Care Board or local authority in relation to whose geographical area the Services are delivered.

"Provider IPR" in this paragraph 3.4 means any IPR owned by or licensed to the Provider (other than by the Commissioner) that will be used by the Provider in the delivery of the Services (as set out in Appendix 3 of this Schedule 2A), including Improvements to such IPR.

The Provider shall ensure and procure that the availability, provision and use of the Service and the performance of the Provider's responsibilities and obligations hereunder shall not infringe any Intellectual Property Rights of any third party.

The Provider shall during and after the Contract Term indemnify the Commissioner against all Losses incurred by, awarded against or agreed to be paid by the Commissioner (whether before or after the making of the demand pursuant to the indemnity hereunder) arising from an IPR Claim. An IPR Claim is defined as any claim of infringement or alleged or threatened infringement by a third party (including the defence of such infringement or alleged or threatened infringement) of any IPR, used to provide the Services or as otherwise provided and/or licensed by the Provider (or to which the Provider has provided access) to the Commissioner in the fulfilment of its obligations under this Contract.

If an IPR Claim is made, or the Provider anticipates that an IPR Claim might be made, the Provider may, at its own expense and sole option, either:

- procure for the Commissioner the right to continue using the relevant IPR which is subject to the IPR Claim; or
- replace or modify the relevant deliverable with non-infringing substitutes provided that:
 - the performance and functionality of the replaced or modified deliverable is at least equivalent to the performance and functionality of the original deliverable; and
 - there is no additional cost to the Commissioner.

If the Provider elects to procure a licence or to modify or replace a deliverable pursuant to the provision above but this has not avoided or resolved the IPR Claim, then:

- the Commissioner may terminate this Contract by written notice with immediate effect; and
- without prejudice to the indemnity set out above, the Provider shall be liable for all reasonable and unavoidable costs of the substitute deliverables and/or services including the additional costs of procuring, implementing and maintaining the substitute deliverables.

3.5 Cyber Essentials

The Provider has and will maintain certification under the HM Government Cyber Essentials Scheme (basic level) until such time as the Provider obtains Cyber Essentials Plus certification in accordance with the provision below.

The Provider shall, as soon as is reasonably practicable after the Services Commencement Date, obtain certification under the HM Government Cyber Essentials Scheme to the level of Cyber Essentials Plus and maintain such certification for the Contract Term.

3.6 Digital Technology Assessment Criteria

The Provider must ensure that the Digital Service is compliant with the requirements of the Digital Technology Assessment Criteria ("DTAC") and ensure that the Digital Service is updated if requirements of the DTAC are updated.

Where a Provider is intending to use an existing product as part of the Digital Service and has completed a Digital Assessment Questionnaire ("DAQ") previously in relation to that product, they must still undertake and complete a DTAC review in relation to that product.

The DTAC should be used alongside the latest version of the NICE Evidence standards framework (ESF) for digital health technologies, to assess clinical safety, data protection, technical assurance, interoperability, usability and accessibility. The Service fits within Tier C of the ESF and evidence must be provided that the intended technology for the Digital Service:

- Has involved user groups within the design, development and/or testing phases;
- Demonstrates effectiveness for preventative behaviour change or self-manage functions;
- Uses appropriate behaviour change techniques (as outlined within this Service Specification);
- Can support and monitor reliable information content;
- Supports ongoing data collection to validate usage and value;
- Has appropriate quality and safeguarding measures in place; and
- Promotes equality and can be utilised to support hard-to-reach populations.

Please refer to the ESF for further information on the required evidence and how to apply the framework, which is currently available at:

<https://www.nice.org.uk/about/what-we-do/our-programmes/evidence-standards-framework-for-digital-health-technologies>

3.7 Government Digital Service Technology Code of Practice

The Provider must ensure that the Service adheres to the requirements of the Government Digital Service Technology Code of Practice, which is currently available at:

<https://www.gov.uk/government/publications/technology-code-of-practice/technology-code-of-practice>

3.8 Identity Verification and Authentication Standard for Digital Health and Care Services

If the Provider's Digital Service is by its nature a service to which NHS Digital's "Identity Verification and Authentication Standard for Digital Health and Care Services" applies, then

the Provider is required to ensure it adheres to this standard. Please refer to the Standard for applicability:

<https://digital.nhs.uk/data-and-information/information-standards/information-standards-and-data-collections-including-extractions/publications-and-notifications/standards-and-collections/dcb3051-identity-verification-and-authentication-standard-for-digital-health-and-care-services>.

The Provider agrees to provide evidence of adherence to the standard to the Commissioner on request.

3.9 Cyber Requirements for Remote Service Delivery

The Provider must ensure that any videoconferencing and teleconferencing platform that it intends to use to deliver the Tailored Remote Service or remote catch-up sessions for the Face to Face Service has undergone the appropriate risk assessment and adheres to all other security and information governance requirements as set out in this Service Specification.

A Data Protection Impact Assessment must be completed and be in place before any videoconferencing and teleconferencing platform is used to deliver any sessions remotely to comply with the Data Protection Legislation.

Further information on the use of video conferencing tools in relation to Service User engagement can be found here: <https://www.nhsx.nhs.uk/information-governance/guidance/using-video-conferencing-and-consultation-tools/>

3.10 Information Governance

The Provider will submit the "Data Output Specification" document in Schedule 6A to the commissioning support service specified by the Commissioner and in the manner specified by the Commissioner.

The Provider will invite all individuals they have contacted following referral and all Service Users to agree be contacted for the purpose of service evaluation and record their consent where given. The Commissioner will specify this proportion of Service Users and also the timing and manner of the invitation.

The Provider will respect any request by a Service User not to disclose information that identifies them in the documents indicated above.

For the avoidance of doubt, the requirements above are in addition to the information governance requirements set out elsewhere in this Contract.

3.11 Additional Service Delivery Requirements

The Provider must:

- provide the Service in the following geographical area – [to be defined at call-off]
- ensure that the number of Service Users who achieve Milestone 1 (as defined in Schedule 3A) for the Service does not exceed [number to be defined at call-off] during the Contract Term. This number is the "Intervention Cap" for the purposes of Schedule 3A;
- work with the Local Health Economy to agree and implement a strategy for managing demand within the Intervention Cap;
- ensure that no Service User is invited to participate in the Service after a period of [to be defined at call-off] years has elapsed since the Service Commencement Date. This period is the "Intervention Period" for the purposes of Schedule 3A;
- actively monitor and report to the Commissioner and Local Health Economies, the number of Service Users who achieve Milestone 1 across the Service throughout

the Contract Term; and

- notify the Commissioner as soon as reasonably practicable where the number of Service Users achieving Milestone 1 (as defined in Schedule 3A) is predicted to exceed the Intervention Cap.

The Commissioner may at its discretion either:

- vary the Intervention Cap and/or the Intervention Period; and/or
- introduce a specific “Digital Service Cap” and/or “Tailored Remote Service Cap” (which it may subsequently vary), to require the Provider to ensure that the number of Service Users who have achieved Milestone 1 (as defined in Schedule 3A) and are participating in the Digital Service and/or the Tailored Remote Service does not exceed a figure that is equal or more than the specified cap; and/or
- notify the Provider that it will not vary the Intervention Cap and/or the Intervention Period.

Where the Commissioner varies the Intervention Cap, introduces (or subsequently varies) a specific Digital Service Cap and/or Tailored Remote Service Cap, and/or varies Intervention Period it will notify the Provider and the Provider shall comply with the variation.

For the avoidance of doubt:

- the Provider's consent is not required for any variations referred to in this paragraph 3.11 and General Condition 13 does not apply to such variations; and
- varying the figures for the purpose of this paragraph 3.10 includes increasing or decreasing the relevant figure.

The Provider will not be paid for the Service provided to any additional Service Users:

- invited to participate in the Service once the Intervention Cap has been reached in accordance with paragraph 2 of Part 1 of Schedule 3A;
- invited to participate in the Service once the Intervention Period has expired in accordance with paragraph 2 of Part 1 of Schedule 3A; and/or
- invited to participate in the Tailored Remote Service or the Digital Service once any specific Digital Service Cap and/or Tailored Remote Service Cap introduced by the Commissioner has been reached in accordance with paragraph 2 of Part 1 of Schedule 3A.

The Contract Term will be the period from the Effective Date to the day after which the Provider submits the data submission for the last Service User on the NDPP who completed the Final Session or other such day as agreed in writing between the Parties.

3.12 Transition

This Contract may require the Provider to provide the Service in an area where, at commencement of this Contract, there is an existing provider providing services under a contract that the Commissioner has previously called off. In such a situation, there will be a period during which the Provider is commencing delivery of the Service and the existing provider is winding down its delivery of services (i.e. it will not be accepting any new referrals to its service).

Prior to expiry or termination of this Contract, the Provider may be required to provide the Service in an area where there is a new provider preparing to deliver services under a contract that the Commissioner has newly called off. In such a situation, there will be a period during which the Provider is winding down its delivery of services (i.e. it will not be accepting any new referrals to its service) and a new provider is commencing delivery of their service.

These periods are referred to as "Transition Periods". This paragraph 3.12 sets out obligations on the existing provider and/or the incoming provider. During a Transition Period, the Provider may be the existing provider or the incoming provider depending on the nature of the Transition Period. Where the Provider is the existing provider or the incoming provider, the Provider will comply with the relevant obligations set out below.

The aim during the Transition Period is that:

- Primary care engagement is maintained and a steady flow of referrals into NDPP service continues;
- A high quality of service is provided to Service Users regardless of which provider's service they are referred to, or enrolled on; and
- There is an orderly wind down by the existing provider and mobilisation and commencement of delivery of the service by the incoming provider.

The existing provider is responsible for delivering the full intervention to all Service Users who have reached milestone one as defined in that contract, within the intervention cap and the Intervention Period specified in that contract. The existing provider needs to maintain high levels of engagement of Service Users throughout the Transition Period, and ensure that there is a sustainable workforce and delivery model to manage the Transition Period.

During the Transition Period, there will likely be individuals who have been referred to the existing provider but who have not yet progressed to milestone one as defined in that contract prior to the Intervention Period expiring. Such individuals will be transferred, in compliance with the Data Protection Legislation, by the existing provider to the incoming provider.

The incoming provider must ensure that the approach adopted to enable such transfers between programmes is agreed with the local health economy and the existing provider. The incoming provider and the existing provider are responsible for complying with relevant data protection legislation and the duty of confidentiality throughout this process.

The existing provider shall provide to the incoming provider details on waiting lists of individuals and current session delivery locations to support sustainability of service delivery and the incoming provider is required to attend joint planning meetings through the Transition Period to support operational delivery. The existing provider will continue to provide data to the local health economy and will provide an operational point of contact until all Service Users being provided with the service by the existing provider have either completed the NDPP or have been discharged.

The incoming provider must support the local health economy and the existing provider in the delivery of a communications and engagement approach across local stakeholders to support a smooth transition of patient flow and service delivery.

The incoming provider must ensure it is able to provide the service to persons referred by the existing provider as if such persons were referred to the service by their GP and in accordance with all requirements in this Schedule 2A.

3.13 Review meetings

Review meetings between the Provider and the Commissioner in accordance with General Condition 8 of this Contract shall be conducted on behalf of the Commissioner by any person nominated by the Commissioner to act on its behalf. References to the "Commissioner" in the context of Review Meetings shall be construed accordingly.

The Provider shall attend monthly meetings (whether in person, by telephone or via videoconference) with the Commissioner Representative to discuss progress of the delivery of the Services and any key issues arising. Such meetings shall be held in addition to Quarterly Review Meetings. The Commissioner will provide a written record of the key outputs from such meetings to the Provider who will review and agree these within one

month of the relevant meeting.

Unless agreed otherwise by the Parties, at least one week in advance of the monthly and quarterly Contract Review Meeting the Provider will deliver to the Commissioner the performance reports detailed in Schedule 6A in the format described as well as any additional reports notified to the provider in advance of the meeting.

The Provider shall attend meetings (whether in person, by telephone or via videoconference) as determined by local lead partner organisations, in whose areas the Service is being delivered, to review any specific local issues relating to the delivery of the Service including the level of referrals to the Services and any other matters as either the Provider or the relevant local partner organisations considers relevant to the Service. Local lead partner organisations may require a written record from such meetings with the Provider, and these should be agreed within one month of the relevant meeting. Such meeting records will be reviewed at Review Meetings between the Provider and the local lead partner organisations.

At least one week in advance of these meetings, the Provider will deliver to the local lead partner, the data and performance reports detailed in Schedule 6A, in the format described

3.14 Evaluation and Quality Assurance

The Provider will participate fully in any Quality Assurance processes as defined by the Commissioner and co-operate in undertaking ad-hoc audits and reviews as requested by commissioners in a timely manner. This will include the submission to commissioners of:

- Agreed data and reports from external quality assurance schemes
- Self-assessment questionnaires / tools and associated evidence.

The Provider will also participate in evaluations of the Service commissioned by or approved by the Commissioner.

4. Applicable Service Standards

4.1 Applicable national standards (e.g. NICE)

5. Applicable quality requirements

5.1 Applicable Quality Requirements

The Quality Requirements applicable to the Service are set out in Schedule 4 .

5.2 Equity and access

- In the delivery of the Service the Provider must comply with the obligations placed on the Commissioner by section 13G of the NHS Act 2006 (due regard to the need to reduce health inequalities) and section 149 of the Equality Act 2010 as if those obligations applied directly to the Provider;
- The Provider must promptly provide such co-operation to the Commissioner as the Commissioner reasonably requests regarding the Commissioner's discharge of its duties under section 13G of the NHS Act 2006 and section 149 of the Equality Act 2010; and
- The Provider will complete an annual Equality and Health Inequalities Impact Assessment (E&HIIA) and action plan to challenge discrimination, promote equality, respect Service Users' human rights and to reduce health inequalities in access to services and outcomes. The E&HIIA and action plan shall be provided to the Commissioner on the Effective Date and each anniversary of the Effective Date. Progress against the action plan will be reported by the Provider to the Commissioner on a Quarterly basis at the relevant Review Meeting.

The Provider must at all times adhere to all relevant health and safety and security Law in providing the Services.

These could include heavy gardening, carrying heavy shopping, or resistance exercise. Muscle strengthening activities should be done on at least two days a week, but any strengthening activity is better than none. • Each week, adults should accumulate at least 150 minutes (2 1/2 hours) of moderate intensity activity (such as brisk walking or cycling); or 75 minutes of vigorous intensity activity (such as running); or even shorter durations of very vigorous intensity activity (such as sprinting or stair climbing); or a combination of moderate, vigorous and very vigorous intensity activity. • Adults should aim to minimise the amount of time spent being sedentary, and when physically possible should break up long periods of inactivity with at least light physical activity. <p>Older Adults (65 years and over)</p> <ul style="list-style-type: none"> • Older adults should participate in daily physical activity to gain health benefits, including maintenance of good physical and mental health, wellbeing, and social functioning. Some physical activity is better than none: even light activity brings some health benefits compared to being sedentary, while more daily physical activity provides greater health and social benefits. • Older adults should maintain or improve their physical function by undertaking activities aimed at improving or maintaining muscle strength, balance and flexibility on at least two days a week. These could be combined with sessions involving moderate aerobic activity or could be additional sessions aimed specifically at these components of fitness. • Each week older adults should aim to accumulate 150 minutes (two and a half hours) of moderate intensity aerobic activity, building up gradually from current levels. Those who are already regularly active can achieve these benefits

- using lower thresholds (23 kg/m² to indicate increased risk and 27.5 kg/m² to indicate high risk) for BMI to trigger action to prevent type 2 diabetes among Asian (South Asian and Chinese) populations
- identifying people at risk of developing type 2 diabetes using a staged (or stepped) approach
- providing those at high risk with a quality-assured, evidence-based, intensive lifestyle-change programme to prevent or delay the onset of type 2 diabetes.

Ordering Procedure

1. Ordering Procedure

1.1 If the Commissioner decides to call-off Services and enter into a Contract under this Framework Agreement, it will award the Contract in accordance with the procedures in this Schedule 6. For the avoidance of doubt, the Commissioner will not award a Contract to a Framework Provider that has not met the requirements of:

- 1.1.1 the DSPT;
- 1.1.2 the Digital Technology Assessment Criteria (as defined in paragraph 3.6 of the Specification);
- 1.1.3 the Identity Verification and Authentication Standard for Digital Health and Care Services (as defined in paragraph 3.8 of the Specification); and
- 1.1.4 paragraph 3.2.15 of the Specification in relation to Enhanced DBS & Barred List Checks.

Additionally, the Commissioner will not award a Contract to a Framework Provider where the Commissioner, acting reasonably, has unresolved concerns relating to the financial sustainability of the Framework Provider. Where the Commissioner has concerns relating to the financial sustainability of the Framework Provider, it will outline these concerns to the Framework Provider and provide an opportunity for the Framework Provider to resolve those concerns to the satisfaction of the Commissioner prior to the Commissioner making a decision to not award the Framework Provider a Contract.

1.2 Subject to paragraph 1.1 of this Schedule 6, the Commissioner may award a Contract without holding a Mini-Competition in accordance with the procedure set out in paragraph 2 of this Schedule 6 in the following circumstances:

- 1.2.1 if the Commissioner can determine that:
 - (a) its requirements can be met by the Framework Provider's description of the Services as set out in the Tender Response Document;
 - (b) all of the terms of the proposed Contract are laid down in this Framework Agreement; and
 - (c) the Call-off Terms and Conditions do not require material amendments or any supplementary terms and conditions (other than the inclusion of optional provisions already provided for in the Call-off Terms and Conditions); or
- 1.2.2 where no tenders or no suitable tenders (in the opinion of the Commissioner acting reasonably) have been submitted in response to an invitation to submit a tender in accordance with the Mini-Competition Procedure set out in paragraph 3 below; or

Part 2

1. In Part 2 of this Schedule 4C (*Local Quality Requirements*) the following definitions are used:

“Core KPIs” means the following KPIs: KPI 1a to KPI 1e (inclusive), KPI 2a, KPI 2b, KPI 3b, KPI 3c, and KPI 5, as set out in the table in Part 1 of this Schedule 4C (*Local Quality Requirements*);

“KPIs” means the KPIs set out in the table in Part 1 of this Schedule 4C (*Local Quality Requirements*), which are also known as the Local Quality Requirements;

“KPI Periods” means the periods within which the Provider’s performance against each KPI is to be measured, as set out in the column headed “Period over which the Requirement is to be achieved” in the table in Part 1 of this Schedule 4C (*Local Quality Requirements*);

“Lower Threshold” means the Lower Threshold applicable to each of the Core KPIs, as set out in Part 1 of this Schedule 4C (*Local Quality Requirements*);

“Mid Threshold” means the Mid Threshold applicable to each of the Core KPIs, as set out in Part 1 of this Schedule 4C (*Local Quality Requirements*);

“Target” means the Target applicable to each of the Core KPIs, as set out in Part 1 of this Schedule 4C (*Local Quality Requirements*); and

“Threshold” means the threshold(s) applicable to each of the KPIs that are not Core KPIs, as set out in Part 1 of this Schedule 4C (*Local Quality Requirements*).

2. Subject to paragraph 7 of Part 2 of this Schedule 4C (*Local Quality Requirements*), if the Provider fails to meet or exceed the Mid Threshold applicable to any of the Core KPIs for the relevant KPI Period, the Commissioner may, by notice to the Provider, immediately and permanently retain a reasonable and proportionate sum of:

- 2.1. up to 1% of the Actual Monthly Value applicable to the relevant KPI Period, where the relevant KPI Period is monthly; or

- 2.2. up to 1% of the Actual Quarterly Value applicable to the relevant KPI Period, where the relevant KPI Period is Quarterly.

3. Subject to paragraph 7 of Part 2 of this Schedule 4C (*Local Quality Requirements*), if the Provider exceeds the Lower Threshold applicable to any of the Core KPIs but fails to meet or exceed the Target applicable to that Core KPI for the relevant KPI Period, the Commissioner may, by notice to the Provider:

- 3.1. withhold a reasonable and proportionate sum of:

- 3.1.1. up to 1% of the Actual Monthly Value applicable to the relevant KPI Period, where the relevant KPI Period is monthly; or

- 3.1.2. up to 1% of the Actual Quarterly Value applicable to the relevant KPI Period, where the relevant KPI Period is Quarterly; and

- 3.2. require that the Provider submits, within 10 Operational Days of the notice, a remedial action plan to the Commissioner that sets out the actions that the Provider will take prior to the end of the next KPI Period applicable to the

relevant Core KPI to remedy the failure to meet or exceed the Target in relation to that Core KPI.

4. Where the Provider does not provide a remedial action plan to the Commissioner within the relevant timescale in accordance with paragraph 3.2 of Part 2 of this Schedule 4C (*Local Quality Requirements*), the Commissioner may, by notice to the Provider, immediately and permanently retain the sum withheld in accordance with paragraph 3.1 of Part 2 of this Schedule 4C (*Local Quality Requirements*), subject to paragraph 7 of Part 2 of this Schedule 4C (*Local Quality Requirements*).
5. Where the Provider has provided a remedial action plan to the Commissioner within the relevant timescale in accordance with paragraph 3.2 of Part 2 of this Schedule 4C (*Local Quality Requirements*), then if the Provider:
 - 5.1. fails to meet or exceed the Target applicable to that Core KPI for the next KPI Period applicable to that Core KPI, the Commissioner may, by notice to the Provider, permanently retain the sum withheld in accordance with paragraph 3.1 of Part 2 of this Schedule 4C (*Local Quality Requirements*), subject to paragraph 7 of Part 2 of this Schedule 4C (*Local Quality Requirements*); or
 - 5.2. meets or exceeds the Target applicable to that Core KPI for the next KPI Period applicable to that Core KPI, the Commissioner will pay the Provider the sum withheld in accordance with paragraph 3.1 of Part 2 of this Schedule 4C (*Local Quality Requirements*) and no interest will be payable on that sum.
6. For the avoidance of doubt, nothing in paragraphs 4 or 5 of Part 2 of this Schedule 4C (*Local Quality Requirements*) will prevent the Commissioner from retaining or withholding any further sums in relation to the next (or any subsequent) KPI Period for the relevant Core KPI in accordance with paragraphs 2 or 3 of Part 2 of this Schedule 4C (*Local Quality Requirements*), subject to paragraph 7 of Part 2 of this Schedule 4C (*Local Quality Requirements*).
7. The Commissioner will not withhold or retain more than 10% of the Actual Monthly Value applicable to any individual month pursuant to Part 2 of this Schedule 4C (*Local Quality Requirements*).
8. Without prejudice to any other rights or remedies that may be available to the Commissioner under Part 2 of this Schedule 4C (*Local Quality Requirements*), if for any KPI Period the Provider fails to meet or exceed any Target (in relation to any Core KPI) or any Threshold (in relation to any KPI that is not a Core KPI), the Commissioner will be entitled to issue a Contract Performance Notice to the Provider in accordance with GC9.4 (*Contract Management*). For the avoidance of doubt:
 - 8.1. the Commissioner's exercise of any rights or remedies available to it under Part 2 of this Schedule 4C (*Local Quality Requirements*) will not prevent the Commissioner from also exercising its right to issue a Contract Performance Notice to the Provider in accordance with GC9.4 (*Contract Management*) in relation to the same failure to meet the relevant requirement; and
 - 8.2. the Commissioner's exercise of its right to issue a Contract Performance Notice to the Provider in accordance with GC9.4 (*Contract Management*) will not prevent the Commissioner from also exercising any rights or remedies that may be available to it under Part 2 of this Schedule 4C (*Local Quality Requirements*) in relation to the same failure to meet the relevant requirement.
9. The parties acknowledge and agree that for the purposes of GC17.10.4 the Provider will be deemed to be in persistent or repetitive breach of the Quality Requirements if, in

the Commissioner's reasonable opinion, the Provider has repeatedly failed to meet or exceed:

9.1. the Targets applicable to any of the Core KPIs; and/or

9.2. the Thresholds applicable to any of the KPIs that are not Core KPIs,

in such a manner as to reasonably justify the Commissioner's opinion that the Provider's conduct is inconsistent with it having the intention or ability to meet or exceed the relevant requirements over a reasonable period of the remaining Contract Term.

A cancelled session means one that has not been rearranged to take place at another time. Digital: This field indicates whether the required amount of engagement activities have been completed during the relevant period. If the required amount of engagement activities have been completed during the period this should be 1. If the required amount of engagement activities have not been achieved then this should be 2. For digital engagement months and for milestone months (other than milestone 1) two engagement activities are required. For milestone 1, just one engagement activity is required.
DPP32	Location of session (Postcode)	max a8			Req'd	Assessment / Each intervention session	The postcode of the location of the session. If this is a remote session, the participants postcode should be used. This field is not applicable to digital so should be left blank.

DPP71	Date of Digital Time Stamped Log In	DATE					For individuals on the digital DPP, this repeating session field should indicate the earliest date of the log in that is within the relevant milestone period. As this refers to just digital milestones and not the monthly engagement opportunities, this field would only be populated in session fields IV_02, IV_05, IV_08 and IV_11 (those that correspond to milestone periods). If there is no digital log in during the milestone period this would be physical or other personal reasons. It is expected that most weights submitted will fall within the range 35 kg - 300kg. Values outside of this range may not be used in analysis.
DPP42	Provider weight measurement	Kg n3.n3	333	Individual declined or is not able to be measured	Req'd (see supporting information)	Assessment and each intervention session (F2F) / each of 4 milestones periods (digital)	The weight of the person taken by the provider. 333 should only be used when a person has declined to be measured, or a measure is not possible for physical or other personal reasons. It is expected that most weights submitted will fall within the range 35 kg - 300kg. Values outside of this range may not be used in analysis.
DPP47	Date of provider weight measurement	DATE			Req'd if DPP42 completed.	Assessment and each intervention session (F2F) / each of 4 milestones periods (digital)	The date of the weight in DPP42.
DPP38	Consent for future contact for evaluation	n1	Y N	Yes No	Req'd	Assessment	For digital, weights should be objective and are only required during milestone periods. Therefore in the MDS for digital weights and weight dates would be completed for IV_02, IV_05, IV_08 and IV_11 as these sessions correspond to the digital milestone periods.

DPP72	Physical Activity Questionnaire completed	n1	Y N (blank)	Yes No Times period in which questionnaire expected has not yet elapsed	Req'd twice during the programme, once at Milestones 1 and once at Milestones 3	Milestones 1, Milestones 3	An RPAQ is required to be completed by the participant at two points in this programme. At Milestone 1 this should be completed ideally at the IA to provide the most accurate baseline reading. One further RPAQ should be completed by the end of the Milestone 3 period. In the MDS we require the provider to indicate that this questionnaire has been completed - so each field will be blank until the relevant timeframe has elapsed. Once the timeframe has elapsed eg for MST if the IA has been completed, then the Physical Activity Questionnaire Completed_MST field should be Y if completed, or N if not completed. This should be completed for both F2F and digital participants.
DPP41	Height	m n1.n2	333	Individual declined or is not able to be measured	Req'd	Assessment	The height of the person. It is expected that most heights submitted will fall within the range 1m - 2.5 m. Values outside of this range may not be used in analysis.

DPP64	Referral weight measurement	Kg n3.n3			Req'd if provided	Referral	If a weight measurement is provided by the referrer this should be recorded. 999 should only be used when a person has declined to be measured, or a measure is not possible for physical or other personal reasons. It is expected that most weights submitted will fall within the range 35 kg - 300kg. Values outside of this range may not be used in analysis.
DPP65	Date of referral weight measurement	DATE DD/MM/YYYY n2.n1 (HbA1c)	353	Not known / provided	Req'd if provided	Referral	The date of the weight in DPP64 if provided.
DPP68	Referral HbA1c reading	DATE DD/MM/YYYY n2.n1 (HbA1c)			Req'd	Referral	HbA1c reading provided at referral. All referrals should have a referral HbA1c / FPG reading within 12 months prior to referral to the DPP. It is expected that submitted HbA1c will fall within the range 10 - 150mmol/mol (although obviously not all of these would be considered eligible for the service). Values outside of this range may not be used in analysis.
DPP69	Date of referral HbA1c	DATE n1	Y	Yes	Req'd	Referral	Only referrals with an eligible HbA1c reading in the 12 months prior to the referral date should be submitted as part of the MDS. Any ineligible referrals may be monitored and discussed separately.
DPP69	Previous GDM diagnosis	n1	N	No	Req'd	Referral	Date of HbA1c reading provided at referral. All referrals should have a referral HbA1c / FPG reading within 12 months prior to referral to the DPP. If 'Yes' then HbA1c/FPG blood reading can either be in the normal range or in the MCH range as the aim is to capture GDM data where an individual would be eligible on their MCH status as well as having a diagnosis of GDM.
DPP66	Risk Score	n2			Req'd	Referral	Eligible risk score of all referrals received via the Direct to Consumer referral route.
DPP60	Referral FPG reading	max n2.max n1			Req'd	Referral	FPG reading provided at referral. All referrals should have a referral HbA1c / FPG reading within 12 months prior to referral to the DPP. It is expected that submitted FPG will fall within the range 0 - 100 mmol/l (although obviously not all of these would be considered eligible for the service). Values outside of this range may not be used in analysis.
DPP61	Date of referral FPG reading	DATE n2.n1 (HbA1c) max n2.max n1 (FPG)			Req'd (see supporting information).	Referral	Only referrals with an eligible FPG reading in the 12 months prior to the referral date should be submitted as part of the MDS. Any ineligible referrals may be monitored and discussed separately.
DPP62	Provider HbA1c or FPG reading	DATE DD/MM/YYYY			Req'd (see supporting information).	Referral and/or Assessment and Last session (further detail in definitions / additional information column)	Date of FPG reading provided at referral. All referrals should have a referral HbA1c / FPG reading within 12 months prior to referral to the DPP. A baseline blood test value should be provided - all referrals should have a referral HbA1c / FPG reading within 12 months prior to referral to the DPP. The assumption is that this will be a venous test provided by primary care. If providers plan to use POCT then a POCT baseline reading is required and this should be entered in the provider blood test field. If providers plan to use venous testing then as long as a referral value is provided this will be considered as the baseline value, and the provider does not need to provide a provider blood reading at IA. This criteria is currently to be confirmed - please refer to the service specification and any additional guidelines from NHS England.
DPP63	Date of provider HbA1c or FPG reading	DATE DD/MM/YYYY			Req'd (see supporting information).	Referral and/or Assessment and Last session (further detail in definitions / additional information column)	Follow-up HbA1c or FPG may be required to be taken at the last session. This should be the same type of test that is captured at baseline to allow for accurate outcomes analysis. Again, please refer to the service specification and any other guidelines from NHS England. It is expected that any submitted HbA1c will fall within the range 10 - 150mmol/mol (although obviously not all of these would be considered eligible for the service). Values outside of this range may not be used in analysis. It is expected that submitted FPG will fall within the range 0 - 100 mmol/l (although obviously not all of these would be considered eligible for the service). Values outside of this range may not be used in analysis.

Digital Engagement Report Template

Information

Digital Engagement Template (DET)

Purpose of the Digital Engagement Template

The purpose of the Digital Engagement Template is to collect data that will inform learning from the digital element of the National Diabetes Prevention Programme, particularly in terms of better understanding the behaviour of digital service users, and identifying which behaviours are associated with better outcomes. The need for this additional data collection was indicated in the original contract requirements, and much of the information required in the Digital Engagement Template is already being collected in the invoicing audit data collected by the CSU.

The 'DET (Example)' tab helps to give an example of the data with some explanation, and the 'DET (submission template)' tab is the template that should be used for the submission.

How does this differ to the digital data already collected?

The NDPP MDS currently only records data to indicate whether a service user has fulfilled the digital engagement criteria for an engagement period, or not. The audit data template provides slightly more information, but only sufficient to verify that payment should or should not be made. This Digital Engagement Template builds on the audit template to gather more detailed information about digital service users, and about service users that may have not engaged.

How regularly does this need to be submitted?

Submission will be required 6-monthly, on the 20th working day of every February (reporting on data from the previous August-January) and the 20th working day of every August (reporting on data from the previous February-July).

Which service users should be included in this collection? *UPDATED 20/08/2021*

Submissions should be cumulative, including data from 1st August 2019 to the latest submission cut off. For example, the submission made in August 2021 should include engagements from 1st August 2019 - 31st July 2021 (inclusive).

Data for each submission should include any service users that had a digital clock start in the period 1st August 2019 to the latest submission cut off and had at least one complete (elapsed) engagement period within this time period.

Only data for completed engagement periods should be submitted. Any data for engagement periods which were incomplete at the time of submission should not be included until the next submission.

Note that engagement periods that have elapsed with no engagement by the service user should also be included. For example, if by the 31st July 2021 a service user was in the middle of engagement period 3, then data for engagement period 1 and 2 should be submitted. Data should be included for all completed (elapsed) engagement periods, regardless of whether the service user engaged at all in engagement period.

The digital pathway clock should not be affected by the face to face adjustments made due to covid.

NOTE: For all fields that record engagement, please insert a '0' if no engagement took place.

How should this be submitted?

The completed Digital Engagement Template should be emailed as an excel spreadsheet to the CSU, ensuring that the filename is saved using the format provider_code_X24_DET0000_YYYYMMDD_UUUUUUUU_NDPP_P00_V01 (with the provider code being the organisation_code_provider that is submitted in the MDS, and the YYYYMMDD date indicating the 1st of the submission month, so for example, the date in the filename of the first submission would be 20200901).

Who should any queries be addressed to?

There is some information below to address some of the questions you may have about the template, but if you have any other questions please email

Explanation of Digital Engagement Template Sections

NOTE: For all fields that record engagement, please insert a '0' if no engagement took place.

Submission_month		This should be in the format DD/MM/YYYY and show the 1st of either September or March (e.g. for the September 2020 submission, this column should show 01/09/2020)
Organisation_Code_Provider		This should be the Organisation_Code_Provider (Provider code) used in the MDS submission by the NDPP provider
Unique_referral_ID		This is the Unique_referral_ID that would be used in the MDS
Engagement_Period		This is the engagement period that the data across the row relates to, as per the Framework 2 Digital Timeline (see 'F2 Digital timeline' tab for reference). As the example data suggests, you could have up to 9 rows of data for the same service user, with each row displaying the data for each engagement period
Clock_start_date		This is the digital clock start date for the service user in the format DD/MM/YYYY
Communication with health coach	a) Number of phone/video call conversations with coach (>=30 mins)	This is the number of phone/video call conversations in the engagement period that took place between the coach and the service user that lasted 30 minutes or more. If your programme design does not include phonecalls between the health coach and service user, this can be recorded as 0
	b) Number of phone/video call conversations with coach (<30 mins)	This is the number of phone/video call conversations in the engagement period that took place between the coach and the service user that lasted less than 30 minutes. If your programme design does not include phonecalls between the health coach and service user, this can be
	c) Number of messages to coach that have been responded to	This is the number of messages from the health coach that have been responded to by the service user. If your programme design does not include messages between the health coach and service user, this can be recorded as 0

Accessing Educational Content		The definition of an 'Article' is the same as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing, so this is generally an article of written educational content, or it could include videos or defined coaching instructions that the service user accesses. 'Access' of an article should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing.
	a) Number of times articles were accessed	As this is a measure of 'the number of times' an article is accessed, this could include instances where the service user accesses an 'article' more than once within the engagement period (e.g. if one article was accessed once and another article was accessed twice during an engagement period, then the count in this column should be 3).
	b) Number of unique articles that were accessed	As this is a measure of 'the number of unique articles' accessed, this should only include the first instance that a service user accesses an 'article' within the engagement period (e.g. if one article was accessed once and another article was accessed twice during an engagement period, then the count in this column should be 2). This is typically how the number of articles would be counted to qualify for MDS reporting purposes. Although the same article should not contribute more than once to an engagement within a 30 day engagement period (regardless of number of times accessed), outside of a single 30 day engagement period, the same article can contribute multiple times.
	c) Number of different days on which articles have been accessed	This measure is to help identify the spread of engagement across the month. If a service user accesses one article on the 3rd of the month and three articles on the 8th of the month, then the count in this column should be 2 to count the 2 different days that these articles were accessed on. These do not need to be unique articles.
3. Tracking events	a) Number of events where food was logged	The definition of an event where food was logged should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Logging information against active goals' area regarding food.
	b) Number of events where weight measurement was entered	The definition of an event where weight measurement was entered should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Logging information against active goals' area regarding weight.
	c) Number of events where physical activity was logged	The definition of an event where physical activity was logged should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Logging information against active goals' area regarding activity.
	d) Number of events where a goal was set or amended	This measure should count the number of times where a goal (e.g. in relation to weight, food or activity) has been set or amended within the engagement period (e.g. if a service user sets a goal of 10,000 steps a day and then amends it to 15,000 steps a day within an engagement period, then the count in this column should be 2).
	e) Number of different days a food/ weight/physical activity or goal was logged/ entered/ set or amended	This measure is to help identify the spread of engagement across the month. If a service user logs food on the 2nd of the month, sets an activity goal and sets a weight target on the 4th of the month, and then amends their activity goal on the 10th of the month, the count in this column should be 3, to reflect the 3 different days that these 4 activities took place.

4. Peer Support	a) Number of messages sent	The definition of a message sent by the service user should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Peer Support forum/group chat (message/post/comment/like)' area regarding messages.
	b) Number of posts made	The definition of a post made by the service user should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Peer Support forum/group chat (message/post/comment/like)' area regarding posts made.
	c) Number of comments on posts made	The definition of a comment by the service user on a post should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Peer Support forum/group chat (message/post/comment/like)' area regarding comments.
	d) Number of likes on posts	The definition of 'likes' by the service user on a post should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Peer Support forum/group chat (message/post/comment/like)' area regarding 'like'.
	e) Number of days a message was sent/post was made/comment was made/post was liked	This measure is to help identify the spread of engagement across the month, and the definition of a message being sent, post made, comment made, or 'liking' a post should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Peer Support forum/group chat (message/post/comment/like)' area. If a service user sends a message on the group chat/forum on the 2nd of the month, makes a post and comments on someone else's post on the 4th of the month, and then 'likes' a post on the 10th of the month, the count in this column should be 3, to reflect the 3 different days that these 4 activities took place.
5. Interactive Tool	a) Number of quizzes/games/other interactive tool attempted	This should be a count of the number of times that a quiz, game or other interactive tool has been attempted. The definition of these attempts should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Use of interactive tool (quiz/game/risk calculator)' area.
	b) Number of days quizzes/games/other interactive tool was attempted	This measure is to help identify the spread of engagement across the month, and the definition of these attempts should be based on the same definition as that used for satisfying the Audit file (see 'Audit file' tab) for invoicing in the 'Use of interactive tool (quiz/game/risk calculator)' area. If a service user completes a quiz on the 2nd of the month, played a game and carried out a risk tool on the 4th of the month, and then played another game on the 10th of the month, the count in this column should be 3, to reflect the 3 different days that these 4 different activities took place.
6. Time spent on app	a) Number of days where app was used between >= 30 seconds and < 20 minutes	This should be a count of the number different days that the app was used for between 30 seconds but less than 20 minutes. This does not need have been in one continuous period of time (e.g. if a service user accessed the app for 10 minutes on the 3rd of the month and then 8 minutes on the same day, and then also accessed the app for 16 minutes on the 10th of the month, then the count in this column should be 2).
	b) Number of days where app was used for >= 20 minutes	This should be a count of the number different days that the app was used for 20 minutes or more. This does not need have been in one continuous period of time (e.g. if a service user accessed the app for 10 minutes on the 3rd of the month and then 20 minutes on the same day, and then also accessed the app for 35 minutes on the 10th of the month, then the count in this column should be 2).
	c) Number minutes spent on app	This should be the total number of minutes that the service user spent on the app during the engagement period.

1) Letter to patient - Final invitation to join the programme after three unsuccessful contact attempts

Dear XXXXXX

This is your final invitation to join the Healthier You programme. To accept your place please call XXXXXXXX (between Xam-Xpm weekdays or Xam-Xpm Saturdays).

We have already sent you an invitation letter and tried to make contact by telephone about your place on the Healthier You: the NHS Diabetes Prevention Programme. Unfortunately, we have been unable to reach you so far.

You have been referred to the Healthier You programme because your blood test results showed that you're at high risk of developing type 2 diabetes.

Type 2 diabetes can lead to long-term problems but can often be prevented through making simple changes to your diet and lifestyle. The Healthier You programme can support you to make these lasting changes along with over 100,000 people who have started the programme this year.

What is the Healthier You: NHS Diabetes Prevention Programme?

Healthier You is funded by the NHS. Based on research from across the world about diabetes prevention, it provides individual support to help you make lasting changes and stop you developing type 2 diabetes. Most people like you who have been referred to Healthier You have started the programme.

The group sessions are delivered at local venues and are designed to be interactive and enjoyable. Group numbers are small enough to make sure that everyone gets individual support.

If attending group sessions isn't right for you, we can offer you a digital alternative. Please get in touch with us if this would interest you.

How do I join the programme?

To join and reduce your risk of developing type 2 diabetes, please call XXXXXXXX (between Xam-Xpm weekdays or Xam-Xpm Saturdays) and we will arrange for you to get started.

If we do not hear from you within 7 days of the date of this letter then you will lose your place on the programme and be discharged back to your GP.

For more information about Healthier You, please visit our website XXXXXX

For more information about how to reduce your risk of developing type 2 diabetes, please visit www.diabetes.org.uk/preventing-type-2-diabetes

Dear XXXXXX

As we didn't receive a response from you, your place on the Healthier You: NHS Diabetes Prevention Programme has now been offered to another person at risk of developing type 2 diabetes.

You were referred to the Healthier You: NHS Diabetes Prevention Programme because your blood test results showed that you're at high risk of developing type 2 diabetes. We have contacted you in writing and by telephone but unfortunately we have not been able to reach you to help get you started on the programme. We are therefore discharging you.

For a new place on the programme please contact your GP Practice to be re-referred.

Type 2 diabetes can lead to long-term problems but can often be prevented by making simple changes to your diet and lifestyle and avoiding excess body weight.

What do I need to do now?

This will help you to see your progress in avoiding developing diabetes and give you access to support to make changes to your lifestyle. Getting checked regularly will also enable you to take action early if you've developed diabetes and help avoid long-term problems.

Can I still join the Healthier You: NHS Diabetes Prevention Programme?

We would be delighted to welcome you to the programme following another referral. Please contact your GP practice to be re-referred. If attending group sessions isn't right for you, we can offer you a digital alternative.

Where else can I get support for reducing my risk of type 2 diabetes?

The key steps for avoiding developing type 2 diabetes are having a healthy diet, keeping physically active and getting to a healthy weight.

You can find additional information and resources on the following websites: NHS Better Health (<https://www.nhs.uk/better-health>), NHS Live Well (<https://www.nhs.uk/live-well>) and Diabetes UK (<https://diabetes.org.uk>).

16) Letter to GP informing them of participant starting the programme:

Dear XXXXXX

We are pleased to inform you that [[FirstName]] [[Surname]], [[DOB]] has started the Healthier You: NHS Diabetes Prevention Programme. They self-referred after completing the Diabetes UK Know Your Risk tool (also known as the Leicester Diabetes Risk Score) and being identified as having increased risk of developing Type 2 diabetes.

For your information, their starting weight on [date of initial weight] was [initial weight] kg.

Their Diabetes UK Know Your Risk score (also known as Leicester Diabetes Risk Score) was [score].

4. **Please code the above score in their clinical record as the Leicester Diabetes Risk Score** (SNOMED 1025601000000108)
5. **Please code NHS Diabetes Prevention Programme Started** (SNOMED 1025271000000103)
6. **Please arrange a blood test** (either HbA1c or fasting plasma glucose [FPG]) to check glycaemic status
7. **Based on the results of the blood test, please discuss next steps and set up appropriate recall:**

HbA1c < 42 mmol/mol / FPG < 5.5 mmol/l - If the blood test reveals normoglycaemia, please inform them that they have moderate risk of Type 2 diabetes. NICE Guidance PH38 recommends that people with moderate risk of Type 2 diabetes should be offered a reassessment of glycaemic status at least every 3 years.

Although they have normoglycaemia at present, they have risk factors for Type 2 diabetes and are therefore likely to benefit from Healthier You

HbA1c 42 – 47 mmol/mol / FPG 5.5 – 6.9 mmol/l - if the blood test reveals non-diabetic hyperglycaemia (NDH), please inform them that they are at high risk of Type 2 diabetes and should be reviewed every year with repeat glycaemic check, and please set up appropriate recall.

NICE Guideline PH38 recommends an annual review for people with NDH including blood testing, assessment of weight / BMI and review of lifestyle changes and risk factors. The annual glycaemic review for people with NDH is also included in QOF. **If NDH is detected, it is important that it is coded (SNOMED 700449008)** as this is essential for the National Diabetes Audit data extraction, tracking of long-term outcomes and supporting QOF achievement.

The Healthier You Programme has been shown to reduce glycaemia and body weight, with greater impact associated with greater engagement with the programme

HbA1c \geq 48 mmol/mol / FPG \geq 7.0 mmol/l (needs repeating to diagnose diabetes if asymptomatic; if repeat is in NDH-range then identify as NDH and ensure regular follow-up) - if they are found to have previously undetected Type 2 diabetes, full usual care should be initiated as for any new diagnosis of diabetes, including referral for structured education, completion of diabetes care processes, lifestyle advice and discussion regarding treatment

If they are found to have Type 2 diabetes, they may continue on Healthier You provided they appreciate that messaging around preventing diabetes will no longer be applicable for them. The support offered by the programme regarding improving nutrition, increasing physical activity and achieving a healthy weight may be beneficial

If you have any questions, please call XXXXXXXXX (between Xam - Xpm weekdays or Xam -Xpm Saturdays). For further information on Healthier You (including eligibility criteria and details of the programme schedule, curriculum and session content, or to provide us with any feedback) please visit our website XXXXXX

<p>Information Breaches</p> <p>28.18 If the Co-ordinating Commissioner becomes aware of an Information Breach it must notify the Provider accordingly. The notice must specify:</p> <p>28.18.1 the nature of the Information Breach; and</p> <p>28.18.2 the sums (if any) which the Co-ordinating Commissioner intends to instruct the Commissioners to withhold, or itself withhold (on behalf of all Commissioners), under SC28.19 if the Information Breach is not rectified within 5 Operational Days following service of that notice.</p>	All

9.12.2 the improvements in outcomes and/or other key indicators required, the date by which each improvement must be achieved and for how long it must be maintained; and

9.12.3 any agreed reasonable and proportionate financial sanctions or other consequences for any Party for failing to complete any agreed action and/or to achieve and maintain any agreed improvement (any financial sanctions applying to the Provider not to exceed in aggregate 10% of the Expected Monthly Value or of the Actual Monthly Value in any month, as applicable, in respect of any Remedial Action Plan).

If a Remedial Action Plan is agreed during the final Contract Year, that Remedial Action Plan may specify a date by which an action is to be completed or an improvement is to be achieved or a period for which an improvement is to be maintained falling or extending after the Expiry Date, with a view to that Remedial Action Plan being incorporated in an SDIP under a subsequent contract between one or more of the Commissioners and the Provider for delivery of services the same or substantially the same as the Services.

- 9.13 The Provider and each relevant Commissioner must implement the actions and achieve and maintain the improvements applicable to it within the timescales set out in, and otherwise in accordance with, the Remedial Action Plan.

- 9.14 The Co-ordinating Commissioner and the Provider must record progress made or developments under the Remedial Action Plan in accordance with its terms. The Co-ordinating Commissioner and the Provider must review and consider that progress on an ongoing basis and in any event at the next Review Meeting.

Withholding Payment for Failure to Engage or Agree

- 9.15 If:

9.15.1 either the Co-ordinating Commissioner or the Provider fails to attend a Contract Management Meeting within 20 Operational Days following the date of the Contract Performance Notice to which it relates; or

9.15.2 at a Contract Management Meeting the Co-ordinating Commissioner and the Provider fail to agree a course of action in accordance with GC9.7, and subsequently fail to agree within 20 Operational Days following the Contract Management Meeting the terms of reference and timescale for a Joint Investigation in accordance with GC9.8; or

9.15.3 on completion of a Joint Investigation, the Co-ordinating Commissioner and the Provider fail to agree a JI Report in accordance with GC9.9 before the next Review Meeting; or

9.15.4 it has been agreed that a Remedial Action Plan is to be implemented, but the Co-ordinating Commissioner and the Provider have not agreed a Remedial Action Plan within the relevant period specified in GC9.11,

then, unless the Contract Performance Notice has been withdrawn, they must immediately and jointly notify the Governing Body of both the Provider and the relevant Commissioners accordingly (and if one Party refuses to do so, the other may do so on behalf of both Parties).

9.16 If, 10 Operational Days after notifying the Governing Bodies, and due wholly or mainly to unreasonableness or failure to engage on the part of the Provider:

9.16.1 the Co-ordinating Commissioner and the Provider have still not both attended a Contract Management Meeting; or

9.16.2 the Co-ordinating Commissioner and the Provider have still not agreed either a course of action or the terms of reference and timescale for a Joint Investigation; or

9.16.3 the Co-ordinating Commissioner and the Provider have still not agreed a JI Report; or

9.16.4 the Co-ordinating Commissioner and the Provider have still not agreed a Remedial Action Plan,

as the case may be, the Co-ordinating Commissioner may recommend the Commissioners to withhold, or itself withhold (on behalf of all Commissioners), a reasonable and proportionate sum up to 2% of the Expected Monthly Value or of the Actual Monthly Value, as applicable, for each further month that the particular failure to attend or agree, as referred to in GC9.16.1 - 9.16.4 continues.

9.17 The Commissioners or the Co-ordinating Commissioner (as appropriate) must pay the Provider any sums withheld under GC9.16 within 10 Operational Days of receiving the Provider's agreement to a Remedial Action Plan (or, if earlier, of the withdrawal of the relevant Contract Performance Notice). Unless GC9.23 applies, those sums are to be paid without interest.

Implementation and Breach of Remedial Action Plan

9.18 If, following implementation of a Remedial Action Plan, the agreed actions have been completed and the agreed improvements achieved and maintained, it must be noted in the next Review that the Remedial Action Plan has been completed.

9.19 If either the Provider or any Commissioner fails to complete an action required of it, or to deliver or maintain the improvement required, by a Remedial Action Plan in accordance with that Remedial Action Plan, then the Co-ordinating Commissioner or the Provider (as appropriate) may, at its discretion, apply any financial or other sanction agreed in relation to that failure.

Exception Report

9.20 If a Party fails to complete an action required of it, or to deliver or maintain the improvement required, by a Remedial Action Plan in accordance with that Remedial Action Plan and does not remedy that failure within 5 Operational Days following receipt of notice requiring it to do so, the Provider or the Co-ordinating Commissioner (as the case may be) may issue an Exception Report:

9.20.1 to the relevant Party's chief executive and/or Governing Body; and/or

9.20.2 (if it reasonably believes it is appropriate to do so) to any appropriate Regulatory or Supervisory Body,

in order that each of them may take whatever steps they think appropriate.

Withholding of Payment at Exception Report for Breach of Remedial Action Plan

9.21 If the Provider fails to complete an action required of it, or to deliver the improvement required, by a Remedial Action Plan in accordance with that Remedial Action Plan:

9.21.1 (if the Remedial Action Plan does not itself provide for a withholding or other financial sanction in relation to that failure) the Co-ordinating Commissioner may, when issuing an Exception Report, instruct the Commissioners to withhold, or itself withhold (on behalf of all Commissioners), in respect of each action not completed or improvement not met, a reasonable and proportionate sum of up to 2% of the Expected Monthly Value or of the Actual Monthly Value, as applicable, from the date of issuing the Exception Report and for each month the Provider's breach continues and/or the required improvement has not been achieved and maintained, subject to a maximum monthly withholding in relation to each Remedial Action Plan of 10% of the Expected Monthly Value or of the Actual Monthly Value, as applicable; and

9.21.2 the Commissioners or the Co-ordinating Commissioner (as appropriate) must pay the Provider any sums withheld under GC9.19 or GC9.21.1 within 10 Operational Days following the Coordinating Commissioner's confirmation that the breach of the Remedial Action Plan has been rectified and/or the required improvement has been achieved and maintained. Subject to GC9.23, no interest will be payable on those sums.

Retention of Sums Withheld for Breach of Remedial Action Plan

9.22 If, 20 Operational Days after an Exception Report has been issued under GC9.20, the Provider remains in breach of a Remedial Action Plan, the Co-ordinating Commissioner may notify the Provider that any sums withheld under GC9.19 or GC9.21.1 are to be retained permanently. If it does so having withheld those sums itself on behalf of all Commissioners, the Co-ordinating Commissioner must distribute the sums withheld between the Commissioners in proportion to their respective shares of the Expected Monthly Value or of the Actual Monthly Value, as applicable, for each month in respect of which those sums were withheld.

Unjustified Withholding or Retention of Payment

9.23 If the Commissioners withhold, or the Co-ordinating Commissioner withholds on behalf of all Commissioners, sums under GC9.16, GC9.19 or GC9.21.1 or the Commissioners retain sums under GC9.22, and within 20 Operational Days of the date of that withholding or retention the Provider produces evidence satisfactory to the Co-ordinating Commissioner that the relevant sums were withheld or retained unjustifiably, the Co-ordinating Commissioner or the Commissioners (as appropriate) must pay those sums to the Provider within 10 Operational Days following the date of the Co-ordinating Commissioner's acceptance of that evidence, together with interest for the period for which the sums were withheld or retained. If the Co-ordinating Commissioner does not accept the Provider's evidence the Provider may refer the matter to Dispute Resolution.

Retention of Sums Withheld on Expiry or Termination of this Contract

9.24 If the Provider does not agree a Remedial Action Plan:

9.24.1 within 6 months following the expiry of the relevant time period set out in GC9.11; or

9.24.2 before the Expiry Date or earlier termination of this Contract,

whichever is the earlier, the Co-ordinating Commissioner may notify the Provider that any sums withheld under GC9.16 are to be retained permanently. If it does so having withheld those sums itself on behalf of all Commissioners, the Co-ordinating Commissioner must

distribute the sums withheld between the Commissioners in proportion to their respective shares of the Expected Monthly Value or of the Actual Monthly Value, as applicable, for each month in respect of which those sums were withheld.

- 9.25 If the Provider does not rectify a breach of a Remedial Action Plan before the Expiry Date or earlier termination of this Contract, the Co-ordinating Commissioner may notify the Provider that any sums withheld under GC9.19 or GC9.21.1 are to be retained permanently. If it does so having withheld those sums itself on behalf of all Commissioners, the Co-ordinating Commissioner must distribute the sums withheld between the Commissioners in proportion to their respective shares of the Expected Monthly Value or of the Actual Monthly Value, as applicable, for each month in respect of which those sums were withheld.

GC10 Co-ordinating Commissioner and Representatives

- 10.1 The Commissioners have appointed the Co-ordinating Commissioner to exercise certain functions in relation to this Contract as set out in Schedule 5C (*Commissioner Roles and Responsibilities*).
- 10.2 In relation to those functions and this Contract generally the Co-ordinating Commissioner will act for itself and as agent for the Commissioners (who are separate principals) but sums payable to the Provider are to be severally attributed to the relevant Commissioner as appropriate.
- 10.3 The Commissioner Representatives and the Provider Representative will be the relevant Party's respective key points of contact for day-to-day communications.

GC11 Liability and Indemnity

- 11.1 Without affecting its liability for breach of any of its obligations under this Contract, each Commissioner will be severally liable to the Provider for, and must indemnify and keep the Provider indemnified against:
- 11.1.1 any loss, damages, costs, expenses, liabilities, claims, actions and/or proceedings (including the cost of legal and/or professional services) whatsoever in respect of:
- 11.1.1.1 any loss of or damage to property (whether real or personal); and
- 11.1.1.2 any injury to any person, including injury resulting in death; and
- 11.1.2 any Losses of the Provider,
- that result from or arise out of the Commissioner's negligence or breach of contract in connection with the performance of this Contract except insofar as that loss, damage or injury has been caused by any act or omission by or on the part of, or in accordance with the instructions of, the Provider, any Sub-Contractor, their Staff or agents.
- 11.2 Without affecting its liability for breach of any of its obligations under this Contract, the Provider will be liable to each Commissioner for, and must indemnify and keep each Commissioner indemnified against:
- 11.2.1 any loss, damages, costs, expenses, liabilities, claims, actions and/or proceedings (including the cost of legal and/or professional services) whatsoever in respect of:
- 11.2.1.1 any loss of or damage to property (whether real or personal); and
- 11.2.1.2 any injury to any person, including injury resulting in death; and
- 11.2.2 any Losses of the Commissioner,
- that result from or arise out of the Provider's or any Sub-Contractor's negligence or breach of contract in connection with the performance of this Contract or the provision of the Services

(including its use of Equipment or other materials or products, and the actions or omissions of Staff or any Sub-Contractor in the provision of the Services), except insofar as that loss, damage or injury has been caused by any act or omission by or on the part of, or in accordance with the instructions of, the Commissioner, its employees or agents.

- 11.3 The Provider must put in place and maintain in force (and procure that its Sub-Contractors put in place and maintain in force) at its (or their) own cost (and not that of any employee) appropriate Indemnity Arrangements in respect of:
 - 11.3.1 employers' liability;
 - 11.3.2 clinical negligence, where the provision or non-provision of any part of the Services (or any other services under this Contract) may result in a clinical negligence claim;
 - 11.3.3 public liability; and
 - 11.3.4 professional negligence.
- 11.4 Within 5 Operational Days following written request from the Co-ordinating Commissioner, the Provider must provide documentary evidence that Indemnity Arrangements required under GC11.3 are fully maintained and that any premiums on them and/or contributions in respect of them (if any) are fully paid.
- 11.5 If the proceeds of any Indemnity Arrangements are insufficient to cover the settlement of any claim relating to this Contract the Provider must make good any deficiency.
- 11.6 The Provider must not take any action or fail to take any reasonable action nor (in so far as it is reasonable and within its power) allow others to take action or fail to take any reasonable action, as a result of which any Indemnity Arrangements put in place in accordance with GC11.3 may be rendered wholly or partly void, voidable, unenforceable, or be suspended or impaired, or which may otherwise render any sum paid out under those Indemnity Arrangements wholly or partly repayable.
- 11.7 On and following expiry or termination of this Contract, the Provider must (and must use its reasonable endeavours to procure that each of its Sub-Contractors must) procure that any ongoing liability it has or may have in negligence to any Service User or Commissioner arising out of a Service User's care and treatment under this Contract will continue to be the subject of appropriate Indemnity Arrangements for 21 years following termination or expiry of this Contract or (if earlier) until that liability may reasonably be considered to have ceased.
- 11.8 No later than 3 months prior to the expiry of this Contract, or within 10 Operational Days following the date of service of notice to terminate or of agreement to terminate this Contract (as appropriate), the Provider must provide to the Co-ordinating Commissioner satisfactory evidence in writing of its (and its Sub-Contractors') arrangements to satisfy the requirements of GC11.7. If the Provider fails to do so the Commissioners may themselves procure appropriate Indemnity Arrangements in respect of such ongoing liabilities and the Provider must indemnify and keep the Commissioners indemnified against the costs incurred by them in doing so.
- 11.9 Unless the Co-ordinating Commissioner and the Provider otherwise agree in writing, the Provider will not require, and must ensure that no other person will require, any Service User to sign any document whatsoever containing any waiver of the Provider's liability (other than a waiver in reasonable terms relating to personal property) to that Service User in relation to the Services, unless required by medical research procedures approved by the local research ethics committee and the Service User has given consent in accordance with the Provider's Service User consent policy.
- 11.10 Nothing in this Contract will exclude or limit the liability of either Party for death or personal injury caused by negligence or for fraud or fraudulent misrepresentation.

- 11.11 Except where expressly stated to the contrary, an indemnity under this Contract will not apply and there will be no right to claim damages for breach of this Contract, in tort or on any other basis whatsoever, to the extent that any loss claimed by any Party under that indemnity or on that basis is for Indirect Losses.
- 11.12 Each Party will at all times take all reasonable steps to minimise and mitigate any Losses or other matters for which one Party is entitled to be indemnified by or to bring a claim against the other under this Contract.

GC12 Assignment and Sub-contracting

Obligations relating to the Provider

- 12.1 The Provider must not novate this Contract nor assign, delegate, sub-contract, transfer, charge or otherwise dispose of all or any of its rights or obligations or duties under this Contract without the prior written approval of the Co-ordinating Commissioner.
- 12.2 The Co-ordinating Commissioner may require, as a condition of the approval of any assignment or novation, the assignee or novatee to provide a guarantee from its parent or other party acceptable to the Co-ordinating Commissioner (acting reasonably), in such form as the Co-ordinating Commissioner may reasonably require.
- 12.3 The approval of any sub-contracting arrangement may:
 - 12.3.1 include approval of the terms of the proposed Sub-Contract (such approval not to be unreasonably withheld or delayed); and
 - 12.3.2 require, as a condition of that approval, that appropriate Indemnity Arrangements are in place in relation to the proposed Sub-Contractor.
- 12.4 The Co-ordinating Commissioner has designated the Sub-Contracts listed in Schedule 5B (*Provider's Material Sub-Contracts*) as Material Sub-Contracts and may (at its discretion but acting reasonably) designate any further sub-contracting arrangement approved by it as a Material Sub-Contract.
- 12.5 The Provider must not:
 - 12.5.1 terminate a Material Sub-Contract; or
 - 12.5.2 make any material changes to the terms of a Material Sub-Contract; or
 - 12.5.3 replace a Material Sub-Contractor under a Material Sub-Contract (and must ensure that a replacement does not otherwise occur), including by delivering all or part of a Service itself; or
 - 12.5.4 enter into a new Material Sub-Contract with an existing Material Sub-Contractor, without the prior written approval of the Co-ordinating Commissioner. Schedule 5B (*Provider's Material Sub-Contracts*) must be updated as appropriate to reflect any designation made, or termination, change or replacement approved, by the Co-ordinating Commissioner.
- 12.6 If the Provider enters into a Sub-Contract it must:
 - 12.6.1 ensure that a provision is included in that Sub-Contract which requires payment to be made of all sums due by the Provider to the Sub-Contractor within a specified period not exceeding 30 days from the receipt of a valid invoice;
 - 12.6.2 not vary any such provision referred to in GC12.6.1 above;

- 12.6.3 ensure that the Sub-Contractor does not further sub-contract its obligations under the Subcontract without the approval of the Co-ordinating Commissioner (such approval not to be unreasonably withheld or delayed).
- 12.7 Sub-contracting any part of this Contract will not relieve the Provider of any of its obligations or duties under this Contract. The Provider will be responsible for the performance of and will be liable to the Commissioners for the acts and/or omissions of all Sub-Contractors as though they were its own.
- 12.8 Any positive obligation or duty on the part of the Provider under this Contract includes an obligation or duty to ensure that all Sub-Contractors comply with that positive obligation or duty. Any negative duty or obligation on the part of the Provider under this Contract includes an obligation or duty to ensure that all Sub-Contractors comply with that negative obligation or duty.
- 12.9 The Provider will remain responsible for the performance and will be liable to the Commissioners for the acts and omissions of any third party to which the Provider assigns or transfers any obligation or duty under this Contract, unless and until:
- 12.9.1 the Provider has obtained the prior written approval of the Co-ordinating Commissioner in accordance with this GC12; and
- 12.9.2 the terms of that assignment, transfer or disposal have been accepted by the third party so that the third party is liable to the Commissioners for its acts and omissions.

Obligations relating to the Commissioner

- 12.10 The Commissioners may not transfer or assign all or any of their rights or obligations under this Contract except:
- 12.10.1 to NHS England, or
- 12.10.2 to a CCG; or
- 12.10.3 to a Local Authority pursuant to a Partnership Agreement or to arrangements pursuant to regulations made under the Cities and Local Government Devolution Act 2016 or to an order under section 105A of the Local Democracy, Economic Development and Construction Act 2009; or
- 12.10.4 otherwise with the prior written approval of the Provider.
- 12.11 The Commissioners may delegate or sub-contract or (subject to GC12.10 above) otherwise dispose of all or any of their rights or obligations under this Contract without the approval of the Provider.
- 12.12 Sub-contracting any part of the Contract will not relieve the Commissioners of any of their obligations or duties under this Contract. Commissioners will be responsible for the performance of and will be liable to the Provider for the acts and/or omissions of their sub-contractors as though they were their own.

Replacement of Sub-Contractors

- 12.13 If any Suspension Event occurs, or if the Co-ordinating Commissioner is entitled to terminate this Contract in accordance with GC17.10, wholly or partly in connection with any Sub-Contract or as a result of any act or omission on the part of a Sub-Contractor, the Co-ordinating Commissioner may (without prejudice to any other rights the Co-ordinating Commissioner may have in relation to that event) by serving written notice upon the Provider, require the Provider to remove or replace the relevant Sub-Contractor within:
- 12.13.1 5 Operational Days; or

12.13.2 whatever period may be reasonably specified by the Co-ordinating Commissioner (taking into account any factors which the Co-ordinating Commissioner considers relevant in its absolute discretion, including the interests of Service Users and the need for the continuity of Services),

and the Provider must remove or replace the relevant Sub-Contractor (as required) within the period specified in that notice.

Disclosure of Information

12.14 Notwithstanding GC20 (*Confidential Information of the Parties*), a Commissioner which assigns, transfers, delegates or sub-contracts all or any of its rights or obligations under this Contract to any person may disclose to such person any information in its possession that relates to this Contract or its subject matter, the negotiations relating to it, or the Provider, provided always that this is in accordance with Data Protection Legislation and Data Guidance.

Tender Documentation, Publication of Contracts and E-Procurement

12.15 The Provider must comply with Transparency Guidance if and when applicable.

12.16 The Provider must comply with e-Procurement Guidance if and when applicable.

General Provisions

12.17 This Contract will be binding on and will be to the benefit of the Provider and each Commissioner and their respective successors and permitted transferees and assigns.

GC13 Variations

13.1 This Contract may not be amended or varied except in accordance with this GC13.

13.2 The Parties:

13.2.1 may agree to vary any of the Variable Elements; and

13.2.2 may not vary any provision of this Contract that is not a Variable Element except in order to implement a National Variation.

13.3 Subject to GC13.2, the provisions of this Contract may be varied at any time by a Variation Agreement signed by the Co-ordinating Commissioner on behalf of the Commissioners and by the authorised signatory of the Provider.

13.4 If a Party wishes to propose a Variation, the Co-ordinating Commissioner must serve on the Provider, or the Provider must serve on the Co-ordinating Commissioner, (as appropriate) a draft Variation Agreement.

13.5 The Parties acknowledge that any National Variation may be mandated by NHS England, in which case the Provider will be deemed to have received a draft Variation Agreement from the Co-ordinating Commissioner requesting the National Variation on the date that NHS England mandates the National Variation.

13.6 The Proposer must have regard to the impact of the proposed Variation on other Services, and in particular any CRS or Essential Services.

13.7 Any draft Variation Agreement must set out the Variation proposed and the date on which the Proposer (or, in the case of a National Variation, NHS England) requires it to take effect.

- 13.8 The Recipient must respond to a draft Variation Agreement in writing within 10 Operational Days following receipt, setting out whether:
 - 13.8.1 it accepts the Variation; and/or
 - 13.8.2 it has any concerns with the contents of the draft Variation Agreement.
- 13.9 If necessary, the Parties must meet within 10 Operational Days following the date of the Recipient's response (or as otherwise agreed in writing) to discuss the draft Variation Agreement and the Recipient's response and must use reasonable endeavours to agree the Variation.
- 13.10 As soon as reasonably practicable and in any event within 10 Operational Days following the meeting which takes place pursuant to GC13.9, the Recipient must serve a written notice on the Proposer confirming either:
 - 13.10.1 that it accepts the draft Variation Agreement (and whether or not that acceptance is subject to any amendments to the draft Variation Agreement agreed between the Parties in writing); or
 - 13.10.2 that it refuses to accept the draft Variation Agreement, and setting out its reasonable grounds for that refusal.
- 13.11 If a proposed Variation would or might have the effect of changing the Expected Annual Contract Value and/or any Price, the Co-ordinating Commissioner and the Provider must seek to agree that change in accordance with the National Tariff.
- 13.12 If a proposed Variation would or might have a cost implication for any Commissioner, including additional activity, new treatments, drugs or technologies:
 - 13.12.1 (in respect of any Variation proposed by the Provider) the Provider must provide a full and detailed cost and benefit analysis of the proposed Variation; and
 - 13.12.2 subject to Law and Guidance, the Co-ordinating Commissioner will have absolute discretion to refuse or withdraw the proposed Variation; and
 - 13.12.3 the Commissioners will have no liability to the Provider for any costs arising from the proposed Variation if the Provider implements it other than in accordance with this Contract.
- 13.13 If, the Parties having followed the procedure in GC13.2 to 13.12, the Provider refuses to accept a National Variation, the Co-ordinating Commissioner may terminate this Contract by giving the Provider not less than 3 months' written notice following the issue of a notice that that National Variation is refused.
- 13.14 If, the Parties having followed the procedure in GC13.2 to 13.12, the Provider refuses to accept a Service Variation, the Co-ordinating Commissioner may terminate the Service affected by the proposed Service Variation by giving the Provider not less than 3 months' written notice (or 6 months' written notice where such termination is likely to have a material adverse effect on Staff) following the issue of a notice that the proposed Service Variation is refused or not accepted.
- 13.15 The right of the Co-ordinating Commissioner to terminate a Service under GC13.14 will not apply if:
 - 13.15.1 the proposed Service Variation is substantially a proposal that a Service should be performed for a different price to that agreed under this Contract and without material change to the delivery of that Service justifying that proposed change in price; or
 - 13.15.2 the proposal does not meet the requirements of a Service Variation.

- 13.16 If the Parties fail to agree a proposed Variation which is neither a National Variation nor a Service Variation the Proposer must withdraw the draft Variation Agreement.

GC14 Dispute Resolution

- 14.1 The provisions of GC14.2 to 14.21 will not apply when any Party in Dispute seeks an injunction relating to a matter arising out of GC20 (*Confidential Information of the Parties*).

Escalated Negotiation

- 14.2 If any Dispute arises, the Parties in Dispute must first attempt to settle it by any of them making a written offer to negotiate to the others. During the Negotiation Period each of the Parties in Dispute must negotiate and be represented:
- 14.2.1 for the first 10 Operational Days, by a senior person who where practicable has not had any direct day-to-day involvement in the matter and has authority to settle the Dispute; and
 - 14.2.2 for the last 5 Operational Days, by their chief executive, director, or member of its Governing Body who has authority to settle the Dispute.
- 14.3 Where practicable, no Party in Dispute should be represented by the same individual under GC14.2.1 and 14.2.2.

Mediation

- 14.4 If the Parties in Dispute are unable to settle the Dispute by negotiation, they must, within 5 Operational Days after the end of the Negotiation Period, submit the Dispute:
- 14.4.1 to mediation arranged by NHS England and NHS Improvement, where the Commissioners are CCGs and/or NHS England and the Provider is an NHS Trust or an NHS Foundation Trust; or
 - 14.4.2 to mediation by CEDR or other independent body or organisation agreed between the Parties and set out in the Particulars, in all other cases.
- 14.5 Mediations under GC14.4.1 will follow the mediation process agreed between NHS England and NHS Improvement from time to time.
- 14.6 Mediations under GC14.4.2 will follow the mediation process of CEDR or other independent body or organisation named in the Particulars.

Expert Determination

- 14.7 If the Parties in Dispute are unable to settle the Dispute through mediation, the Dispute must be referred to expert determination, by one Party in Dispute giving written notice to that effect to the other Parties in Dispute following closure of the failed mediation. The Expert Determination Notice must include a brief statement of the issue or issues which it is desired to refer, the expertise required in the expert, and the solution sought.
- 14.8 Where the Commissioners are CCGs and/or NHS England and the Provider is an NHS Trust or NHS Foundation Trust, the Expert will be an independent person with relevant expertise nominated by NHS England and NHS Improvement and deemed appointed by the Parties in Dispute.
- 14.9 Where GC14.8 does not apply:

- 14.9.1 if the Parties in Dispute have agreed upon the identity of an expert and the expert has confirmed in writing their readiness and willingness to embark upon the expert determination, then that person will be appointed as the Expert; and
- 14.9.2 if the Parties in Dispute have not agreed upon an expert, or where that person has not confirmed their willingness to act, then any Party in Dispute may apply to CEDR for the appointment of an expert. The request must be in writing, accompanied by a copy of the Expert Determination Notice and the appropriate fee and must be copied simultaneously to the other Parties in Dispute. The other Parties in Dispute may make representations to CEDR regarding the expertise required in the expert. The person nominated by CEDR will be appointed as the Expert.
- 14.10 The Party in Dispute serving the Expert Determination Notice must send to the Expert and to the other Parties in Dispute within 5 Operational Days of the appointment of the Expert a statement of its case, including a copy of the Expert Determination Notice, the Contract, details of the circumstances giving rise to the Dispute, the reasons why it is entitled to the solution sought, and the evidence upon which it relies. The statement of case must be confined to the issues raised in the Expert Determination Notice.
- 14.11 The Parties in Dispute not serving the Expert Determination Notice must reply to the Expert and to the other Parties in Dispute within 5 Operational Days of receiving the statement of case, giving details of what is agreed and what is disputed in the statement of case and the reasons why.
- 14.12 The Expert must produce a written decision with reasons within 30 Operational Days of receipt of the statement of case referred to in GC14.11, or any longer period as is agreed by the Parties in Dispute after the Dispute has been referred.
- 14.13 The Expert will have complete discretion as to how to conduct the expert determination, and will establish the procedure and timetable.
- 14.14 The Parties in Dispute must comply with any request or direction of the Expert in relation to the expert determination.
- 14.15 The Expert must decide the matters set out in the Expert Determination Notice, together with any other matters which the Parties in Dispute and the Expert agree are within the scope of the expert determination.
- 14.16 The Parties in Dispute must bear their own costs and expenses incurred in the expert determination and are jointly liable for the costs of the Expert.
- 14.17 The decision of the Expert is final and binding, except in the case of fraud, collusion, bias, manifest error or material breach of instructions on the part of the Expert, in which case a Party will be permitted to apply to Court for an Order that:
 - 14.17.1 the Expert reconsider his decision (either all of it or part of it); or
 - 14.17.2 the Expert's decision be set aside (either all of it or part of it).
- 14.18 If a Party in Dispute does not abide by the Expert's decision the other Parties in Dispute may apply to Court to enforce it.
- 14.19 All information, whether oral, in writing or otherwise, arising out of or in connection with the expert determination will be inadmissible as evidence in any current or subsequent litigation or other proceedings whatsoever, with the exception of any information which would in any event have been admissible or disclosable in any such proceedings.
- 14.20 The Expert is not liable for anything done or omitted in the discharge or purported discharge of their functions, except in the case of fraud or bad faith, collusion, bias, or material breach of instructions on the part of the Expert.

- 14.21 The Expert is appointed to determine the Dispute or Disputes between the Parties in Dispute and the Expert's decision may not be relied upon by third parties, to whom the Expert will have no duty of care.

GC15 Governance, Transaction Records and Audit

- 15.1 The Provider must comply with regulation 17 of the 2014 Regulations.
- 15.2 The Provider must comply with all reasonable written requests made by any relevant Regulatory or Supervisory Body (or its authorised representatives), a Local Auditor or any Authorised Person for entry to the Provider's Premises and/or the Services Environment and/or the premises of any Sub-Contractor for the purposes of auditing, viewing, observing or inspecting those premises and/or the provision of the Services, and for information relating to the provision of the Services.
- 15.3 Subject to Law, an Authorised Person may enter the Provider's Premises and/or the Services Environment and/or the premises of any Sub-Contractor without notice for the purposes of auditing, viewing, observing or inspecting those premises and/or the provision of the Services, and for information relating to the provision of the Services. During those visits, subject to Law and Good Practice (also taking into consideration the nature of the Services and the effect of the visit on Services Users), the Provider must not restrict access and will give all reasonable assistance and provide all reasonable facilities.

- 24.1 This GC24 applies to any Provider Change in Control and/or any Material Sub-Contractor Change in Control, but not to a Change in Control of a company which is a Public Company.

- 24.3 If the Provider indicates in the Change in Control Notification an intention or proposal to make any consequential changes to its operations then, to the extent that those changes require a change to the terms of this Contract in order to be effective, they will only be effective when a Variation is made in accordance with GC13 (*Variations*). The Co-ordinating Commissioner will not and will not be deemed by a failure to respond or comment on the Change in Control Notification to have agreed to or otherwise to have waived its rights under to GC13 (*Variations*) in respect of that intended or proposed change.
- 24.4 The Provider must specify in the Change in Control Notification any intention or proposal to make a consequential change to its operations which would or would be likely to have an adverse effect on the Provider's ability to provide the Services in accordance with this

Contract. If the Provider does not do so it will not be entitled to propose a Variation in respect of that for a period of 6 months following the date of that Change in Control Notification, unless the Co-ordinating Commissioner agrees otherwise.

- 24.5 If (and subject always to GC24.3) the Provider does not specify in the Change in Control Notification an intention or proposal to sell or otherwise dispose of any legal or beneficial interest in the Provider's Premises as a result of or in connection with the Change in Control then, unless the Co-ordinating Commissioner provides its written consent to the relevant action, the Provider must:
- 24.5.1 ensure that there is no such sale or other disposal which would or would be likely to have an adverse effect on the Provider's ability to provide the Services in accordance with this Contract; and
 - 24.5.2 continue providing the Services from the Provider's Premises, in each case for at least 12 months following the date of that Change in Control Notification. The provisions of this GC24.5 will not apply to an assignment by way of security or the grant of any other similar rights by the Provider consequent upon a financing or re-financing of the transaction resulting in Change of Control.
- 24.6 The Provider must supply (and must use its reasonable endeavours to procure that the relevant Material Sub-Contractor supplies) to the Co-ordinating Commissioner, whatever further information relating to the Change in Control the Co-ordinating Commissioner may, within 20 Operational Days after receiving the Change in Control Notification, reasonably request.
- 24.7 The Provider must use its reasonable endeavours to ensure that the terms of its contract with any Material Sub-Contractor include a provision obliging the Material Sub-Contractor to inform the Provider in writing on, and in any event within 5 Operational Days following, a Material Sub-Contractor Change in Control in respect of that Material Sub-Contractor.
- 24.8 If:
- 24.8.1 there is a Material Sub-contractor Change in Control; and
 - 24.8.2 following consideration of the information provided to the Co-ordinating Commissioner in the Change in Control Notification or under GC24.6, the Co-ordinating Commissioner reasonably concludes that, as a result of that Material Sub-Contractor Change in Control, there is (or is likely to be) an adverse effect on the ability of the Provider and/or the Material Sub-Contractor to provide Services in accordance with this Contract (and, in reaching that conclusion, the Coordinating Commissioner may consider any factor, in its absolute discretion, that it considers relevant to the provision of Services),
- then:
- 24.8.3 the Co-ordinating Commissioner may, by serving a written notice upon the Provider, require the Provider to replace the relevant Material Sub-Contractor within 10 Operational Days (or other period reasonably specified by the Co-ordinating Commissioner taking into account the interests of Service Users and the need for the continuity of Services); and
 - 24.8.4 the Provider must replace the relevant Material Sub-Contractor within the period specified under GC24.8.3; and
 - 24.8.5 for the avoidance of doubt, the provisions of GC12 (*Assignment and Sub-Contracting*) will apply in relation to the replacement Material Sub-Contractor and, on the granting of the approval referred to in GC12 (*Assignment and Sub-Contracting*), the provisions of Schedule 5B (*Provider's Material Sub-Contracts*) will be amended accordingly.
- 24.9 Notwithstanding any other provision of this Contract:

- 24.9.1 a Restricted Person must not hold, and the Provider must not permit a Restricted Person to hold, at any time 5% or more of the total value of any Security in the Provider or in the Provider's Holding Company or any of the Provider's subsidiaries (as defined in the Companies Act 2006); and
- 24.9.2 a Restricted Person must not hold, and the Provider must not permit (and must procure that a Material Sub-Contractor must not at any time permit) a Restricted Person to hold, at any time 5% or more of the total value of any Security in a Material Sub-Contractor or in any Holding Company or any of the subsidiaries (as defined in the Companies Act 2006) of a Material SubContractor.
- 24.10 If the Provider breaches GC24.9.2, the Co-ordinating Commissioner may by serving written notice upon the Provider, require the Provider to replace the relevant Material Sub-Contractor within:
- 24.10.1 5 Operational Days; or
- 24.10.2 whatever period may be reasonably specified by the Co-ordinating Commissioner (taking into account any factors which the Co-ordinating Commissioner considers relevant in its absolute discretion, including the interests of Service Users and the need for the continuity of Services),
- and the Provider must replace the relevant Material Sub-Contractor within the period specified in that notice.
- 24.11 Nothing in this GC24 will prevent or restrict the Provider from discussing with the Co-ordinating Commissioner a proposed Change in Control before it occurs. In those circumstances, all and any information provided to or received by the Co-ordinating Commissioner in relation to that proposed Change in Control will be Confidential Information for the purposes of GC20 (*Confidential Information of the Parties*).
- 24.12 Subject to the Law and to the extent reasonable the Parties must co-operate in any public announcements arising out of a Change in Control.

- 2.1 The Guarantor irrevocably and unconditionally guarantees and undertakes to the Beneficiary to procure that the Provider duly and punctually performs all of the Guaranteed Obligations now or hereafter due, owing or incurred by the Provider to the Beneficiary.
- 2.2 The Guarantor irrevocably and unconditionally undertakes upon demand to pay to the Beneficiary all monies and liabilities which are now or at any time hereafter shall have become payable by the Provider to the Beneficiary under or in connection with the Guaranteed Agreements or in respect of the Guaranteed Obligations as if it were a primary obligor.
- 2.3 If at any time the Provider shall fail to perform any of the Guaranteed Obligations, the Guarantor, as primary obligor, irrevocably and unconditionally undertakes to the Beneficiary that, upon first demand by the Beneficiary it shall, at the cost and expense of the Guarantor:
 - 2.3.1 fully, punctually and specifically perform such Guaranteed Obligations as if it were itself a direct and primary obligor to the Beneficiary in respect of the Guaranteed Obligations and liable as if the Guaranteed Agreements had been entered into directly by the Guarantor and the Beneficiary; and
 - 2.3.2 as a separate and independent obligation and liability, indemnify and keep the Beneficiary indemnified against all losses, damages, costs and expenses (including VAT thereon, and including, without limitation, all court costs and all legal fees on a solicitor and own client basis, together with any disbursements), of whatever nature which may result or which such Beneficiary may suffer, incur or sustain arising in any way whatsoever out of a failure by the Provider to perform the Guaranteed Obligations save that, subject to the other provisions of this Deed of Guarantee, this shall not be construed as imposing greater obligations or liabilities on the Guarantor than

are purported to be imposed on the Provider under the Guaranteed Agreements.

- 2.4 As a separate and independent obligation and liability from its obligations and liabilities under Clauses 2.1 to 2.3 above, the Guarantor as a primary obligor irrevocably and unconditionally undertakes to indemnify and keep the Beneficiary indemnified on demand against all losses, damages, costs and expenses (including VAT thereon, and including, without limitation, all legal costs and expenses), of whatever nature, whether arising under statute, contract or at common law, which such Beneficiary may suffer or incur if any obligation guaranteed by the Guarantor is or becomes unenforceable, invalid or illegal as if the obligation guaranteed had not become unenforceable, invalid or illegal provided that the Guarantor's liability shall be no greater than the Provider's liability would have been if the obligation guaranteed had not become unenforceable, invalid or illegal.

3. **OBLIGATION TO ENTER INTO A NEW CONTRACT**

- 3.1 If a Guaranteed Agreement is terminated for any reason, whether by the Beneficiary or the Provider, or if a Guaranteed Agreement is disclaimed by a liquidator of the Provider or the obligations of the Provider are declared to be void or voidable for any reason, then the Guarantor will, at the request of the Beneficiary enter into a contract with the Beneficiary in terms mutatis mutandis the same as the Guaranteed Agreement and the obligations of the Guarantor under such substitute agreement shall be the same as if the Guarantor had been original obligor under the Guaranteed Agreement or under an agreement entered into on the same terms and at the same time as the Guaranteed Agreement with the Beneficiary.

4. **DEMANDS AND NOTICES**

- 4.1 Any demand or notice served by the Beneficiary on the Guarantor under this Deed of Guarantee shall be in writing, addressed to:
- 4.1.1 [Address of the Guarantor in England and Wales]
- 4.1.2 For the Attention of [insert details],

- 4.3 In proving service of a notice or demand on the Guarantor or the Beneficiary it shall be sufficient to prove that delivery was made, or that the envelope containing the notice or demand was properly addressed and posted as a prepaid first class recorded delivery letter, as the case may be.
- 4.4 Any notice purported to be served on the Beneficiary under this Deed of Guarantee shall only be valid when received in writing by the Beneficiary.

5. **BENEFICIARY'S PROTECTIONS**

- 5.1 The Guarantor shall not be discharged or released from this Deed of Guarantee by any arrangement made between the Provider and the Beneficiary (whether or not such arrangement is made with or without the assent of the Guarantor) or by any amendment to or termination of a Guaranteed Agreement or by any forbearance or

indulgence whether as to payment, time, performance or otherwise granted by the Beneficiary in relation thereto (whether or not such amendment, termination, forbearance or indulgence is made with or without the assent of the Guarantor) or by the Beneficiary doing (or omitting to do) any other matter or thing which but for this provision might exonerate the Guarantor.

- 5.2 This Deed of Guarantee shall be a continuing security for the Guaranteed Obligations and accordingly:
 - 5.2.1 it shall not be discharged, reduced or otherwise affected by any partial performance (except to the extent of such partial performance) by the Provider of the Guaranteed Obligations or by any omission or delay on the part of the Beneficiary in exercising its rights under this Deed of Guarantee;
 - 5.2.2 it shall not be affected by any dissolution, amalgamation, reconstruction, reorganisation, change in status, function, control or ownership, insolvency, liquidation, administration, appointment of a receiver, voluntary arrangement, any legal limitation or other incapacity, of the Provider, the Beneficiary, the Guarantor or any other person;
 - 5.2.3 if, for any reason, any of the Guaranteed Obligations shall prove to have been or shall become void or unenforceable against the Provider for any reason whatsoever, the Guarantor shall nevertheless be liable in respect of that purported obligation or liability as if the same were fully valid and enforceable and the Guarantor were principal debtor in respect thereof; and
 - 5.2.4 the rights of the Beneficiary against the Guarantor under this Deed of Guarantee are in addition to, shall not be affected by and shall not prejudice, any other security, guarantee, indemnity or other rights or remedies available to the Beneficiary.
- 5.3 The Beneficiary shall be entitled to exercise its rights and to make demands on the Guarantor under this Deed of Guarantee as often as it wishes and the making of a demand (whether effective, partial or defective) in respect of the breach or non-performance by the Provider of any Guaranteed Obligation shall not preclude the Beneficiary from making a further demand in respect of the same or some other default in respect of the same Guaranteed Obligation.
- 5.4 The Beneficiary shall not be obliged before taking steps to enforce this Deed of Guarantee against the Guarantor to obtain judgment against the Provider or the Guarantor or any third party in any court, or to make or file any claim in a bankruptcy or liquidation of the Provider or any third party, or to take any action whatsoever against the Provider or the Guarantor or any third party or to resort to any other security or guarantee or other means of payment. No action (or inaction) by the Beneficiary in respect of any such security, guarantee or other means of payment shall prejudice or affect the liability of the Guarantor hereunder.
- 5.5 The Beneficiary's rights under this Deed of Guarantee are cumulative and not exclusive of any rights provided by law and may be exercised from time to time and as often as the Beneficiary deems expedient.
- 5.6 Any waiver by the Beneficiary of any terms of this Deed of Guarantee, or of any Guaranteed Obligations shall only be effective if given in writing and then only for the purpose and upon the terms and conditions, if any, on which it is given.
- 5.7 Any release, discharge or settlement between the Guarantor and the Beneficiary shall be conditional upon no security, disposition or payment to the Beneficiary by the Guarantor or any other person being void, set aside or ordered to be refunded pursuant to any enactment or law relating to liquidation, administration or insolvency or for any other reason whatsoever and if such condition shall not be fulfilled the Beneficiary shall be entitled to enforce this Deed of Guarantee subsequently as if such release, discharge or settlement had not occurred and any such payment had

not been made. The Beneficiary shall be entitled to retain this security after as well as before the payment, discharge or satisfaction of all monies, obligations and liabilities that are or may become due owing or incurred to the Beneficiary from the Guarantor for such period as the Beneficiary may determine.

6. GUARANTOR INTENT

- 6.1 Without prejudice to the generality of Clause 5 (Beneficiary's Protections), the Guarantor expressly confirms that it intends that this Deed of Guarantee shall extend from time to time to any (however fundamental) variation, increase, extension or addition of or to a Guaranteed Agreement and any associated fees, costs and/or expenses.

7. RIGHTS OF SUBROGATION

- 7.1 The Guarantor shall, at any time when there is any default in the performance of any of the Guaranteed Obligations by the Provider and/or any default by the Guarantor in the performance of any of its obligations under this Deed of Guarantee, exercise any rights it may have:

7.1.1 of subrogation and indemnity;

7.1.2 to take the benefit of, share in or enforce any security or other guarantee or indemnity for the Provider's obligations; and

only in accordance with the Beneficiary's written instructions and shall hold any amount recovered as a result of the exercise of such rights on trust for the Beneficiary and pay the same to the Beneficiary on first demand. - The Guarantor hereby acknowledges that it has not taken any security from the Provider and agrees not to do so until the Beneficiary receives all monies payable hereunder and will hold any security taken in breach of this Clause 7 on trust for the Beneficiary.

8. DEFERRAL OF RIGHTS

- 8.1 Until all amounts which may be or become payable by the Provider under or in connection with a Guaranteed Agreement have been irrevocably paid in full, the Guarantor agrees that, without the prior written consent of the Beneficiary, it will not:

8.1.2 claim any contribution from any other guarantor of the Provider's obligations under a Guaranteed Agreement;

8.1.4 demand or accept repayment in whole or in part of any indebtedness now or hereafter due from the Provider; or

8.1.5 claim any set-off or counterclaim against the Provider;

- 8.2 If the Guarantor receives any payment or other benefit or exercises any set off or counterclaim or otherwise acts in breach of this Clause 8, anything so received and any benefit derived directly or indirectly by the Guarantor therefrom shall be held on trust for the Beneficiary and applied in or towards discharge of its obligations to the Beneficiary under this Deed of Guarantee.
