- h. Before sharing any Information in accordance with clause 13.f, the Authority may redact the Information. Any decision to redact Information made by the Authority shall be final.
- i. To the extent permitted by the time for compliance under the Act or the Regulations, the Authority shall consult the Contractor where the Authority is considering the disclosure of Information under the Act or the Regulations and, in any event, shall provide prior notification to the Contractor of any decision to disclose the Information. The Contractor acknowledges and accepts that their representations on disclosure during consultation may not be determinative and that the decision whether to disclose Information in order to comply with the Act or the Regulations is a matter in which the Authority shall exercise its own discretion, subject always to the provisions of the Act or the Regulations.

- a. If any of the Contractor Deliverables Delivered to the Authority do not conform to the Specification or any other terms of the Contract, then (without limiting any other right or remedy that the Authority may have) the Authority may reject the Contractor Deliverables (in whole or in part). The Authority shall return these Contractor Deliverables to the Contractor at the Contractor's risk and cost.
- b. Rejection of any of the Contractor Deliverables under clause 30.a shall take place by the time limit for rejection specified in Schedule 3 (Contract Data Sheet), or if no such period is specified, the Contractor Deliverables shall be deemed to be accepted within a reasonable period of time. **Counterfeit Materiel:**
- c. Where the Authority suspects that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall:
 - (1) notify the Contractor in writing of its suspicion and reasons therefore;
 - (2) where reasonably practicable, and if requested by the Contractor within 10 Business Days of such notification, (at the Contractor's own risk and expense and subject to any reasonable controls specified by the Authority) afford the Contractor the facility to (i) inspect the Contractor Deliverable or consignment and/or (ii) obtain a sample thereof for validation or testing purposes.
 - (3) at its discretion, provide the Contractor with a sample of the Contractor Deliverable or consignment for validation or testing purposes by the Contractor (at the Contractor's own risk and expense);
 - (4) give the Contractor a further 20 Business Days or such other reasonable period agreed by the Authority, from the date of the inspection at 30.c.(2).(i) or the provision of a sample at 30.c.(2).(ii), to comment on whether the Contractor Deliverable or consignment meets the definition of Counterfeit Materiel; and
 - (5) determine, on the balance of probabilities and strictly on the evidence available to it at the time, whether the Contractor Deliverable or consignment meets the definition of Counterfeit Materiel.
- d. Where the Authority has determined that the Contractor Deliverable, part or consignment of Contractor Deliverables contain Counterfeit Material then it may reject the Contractor Deliverable, part or consignment under 30.a and 30.b (Rejection) and provide written notification to the Contractor of the rejection.
- e. In addition to its rights under 30.a and 30.b (Rejection), where the Authority has determined that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall be entitled to:
 - (1) retain any Counterfeit Materiel; and/or
 - (2) retain the whole or any part of such Contractor Deliverable or consignment where it is not possible to separate the Counterfeit Materiel from the rest of the Contractor Deliverable, or consignment;

and such retention shall not constitute acceptance under Condition 29 (Acceptance).

- f. Where the Authority intends to exercise its rights under clause 30.e, the Contractor may, subject to the agreement of the Authority (and at the Contractor's own risk and expense and subject to any reasonable controls and timeframe agreed), arrange for:
 - (1) the separation of Counterfeit Materiel from any Contractor Deliverable or part of a Contractor Deliverable; and/or

Contract 712522451

- (2) the removal of any Contractor Deliverable or part of a Contractor Deliverable that the Authority is reasonably satisfied does not contain Counterfeit Materiel.

g. In respect of any Contractor Deliverable, consignment or part thereof that is retained in accordance with clause 30.e, including where the Authority permits the Contractor to remove non-Counterfeit Materiel under clause 30.f but the Contractor fails to do so within the period agreed and subject to clause 30.k, the Authority shall be entitled to exercise any, all, or any combination of, the following rights:

- (1) to dispose of it responsibly, and in a manner that does not permit its reintroduction into the supply chain or market;
- (2) to pass it to a relevant investigatory or regulatory authority;
- (3) to retain, conduct or have conducted further testing including destructive testing, for further investigatory, regulatory or risk management purposes. Results from any such tests shall, at the discretion of the Authority, be shared with the Contractor; and/or
- (4) to recover the appropriate, attributable, and reasonable costs incurred by the Authority in respect of testing, storage, access, and/or disposal of it from the Contractor;

and exercise of the rights granted at clauses 30.g.(1) to 30.g.(3) shall not constitute acceptance under Condition 29 (Acceptance).

h. Any scrap or other disposal payment received by the Authority shall be off set against any amount due to the Authority under clause 30.g.(4). If the value of the scrap or other disposal payment exceeds the amount due to the Authority under clause 30.g.(4) then the balance shall accrue to the Contractor.

i. The Authority shall not use a retained Contract Deliverable or consignment other than as permitted in clauses 30.c – 30.k.

j. The Authority may report a discovery of Counterfeit Materiel and disclose information necessary for the identification of similar materiel and its possible sources.

k. The Contractor shall not be entitled to any payment or compensation from the Authority as a result of the Authority exercising the rights set out in clauses 30.c – 30.k except:

- (1) in relation to the balance that may accrue to the Contractor in accordance with clause 30.h; or
- (2) where it has been determined in accordance with Condition 40 (Dispute Resolution) that the Authority has made an incorrect determination in accordance with clause 30.c.(5). In such circumstances the Authority shall reimburse the Contractor's reasonable costs of complying with clause 30.c.

31. Diversion Orders

- a. The Authority shall notify the Contractor at the earliest practicable opportunity if it becomes aware that a Contractor Deliverable is likely to be subject to a Diversion Order.
- b. The Authority may issue a Diversion Order for the urgent delivery of the Contractor Deliverables identified in it. These Contractor Deliverables are to be delivered by the Contractor using the quickest means available as agreed by the Authority.
- c. The Authority reserves the right to cancel the Diversion Order.
- d. If the terms of the Diversion Order are unclear, the Contractor shall immediately contact the Representative of the Authority who issued it for clarification and/or further instruction.
- e. If the Diversion Order increases the quantity of Contractor Deliverables beyond the scope of the Contract, it is to be returned immediately to the Authority's Commercial Officer with an appropriate explanation.
- f. The Contractor shall be entitled to reasonable additional delivery and packaging costs incurred in complying with the Diversion Order or cancellation. Claims are to be submitted by the Contractor to the Authority's Commercial Officer together with applicable receipts and agreed as an amendment to the Contract in accordance with Condition 6 (Formal Amendments to the Contract). The Contractor shall comply with the requirements of the Diversion Order upon receipt of the Diversion Order.

32. Self-to-Self Delivery

Where it is stated in Schedule 3 (Contract Data Sheet) that any Contractor Deliverable is to be Delivered by the Contractor to their own premises, or to those of a Subcontractor ('self-to-self delivery'), the risk in such a Contractor Deliverable shall remain vested in the Contractor until such time as it is handed over to the Authority.

Licences and Intellectual Property**33. Import and Export Licences**

- a. If, in the performance of the Contract, the Contractor needs to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, the responsibility for applying for the licence shall rest with the Contractor. The Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance in obtaining any necessary UK import or export licence.
- b. When an export licence or import licence or authorisation either singularly or in combination is required from a foreign government for the performance of the Contract, the Contractor shall as soon as reasonably practicable consult with the Authority on the licence requirements. Where the Contractor is the applicant for the licence or authorisation the Contractor shall:
 - (1) ensure that when end use or end user restrictions, or both, apply to all or part of any Contractor Deliverable (which for the purposes of this Condition shall also include information, technical data and software), the Contractor, unless otherwise agreed with the Authority, shall identify in the application:
 - (a) the end user as: His Britannic Majesty's Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter "HM Government"); and
 - (b) the end use as: For the Purposes of HM Government; and
 - (2) include in the submission for the licence or authorisation a statement that "information on the status of processing this application may be shared with the Ministry of Defence of the United Kingdom".
- c. If the Contractor or any Subcontractor in the performance of the Contract needs to export materiel not previously supplied by or on behalf of the Authority for which an export licence or import licence or authorisation from a foreign government is required, the responsibility for instituting expeditious action to apply for and obtain the licence shall rest with the Contractor or that Subcontractor. For the purposes of this Condition materiel shall mean information, technical data and items, including Contractor Deliverables, components of Contractor Deliverables and software.
- d. Where the Contract performance requires the export of materiel for which a foreign export licence or import licence or authorisation is required, the Contractor shall include the dependencies for the export licence or import licence or authorisation application, grant and maintenance in the Contract risk register and in the risk management plan for the Contract, with appropriate review points. Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.
- e. During the term of the Contract and for a period of up to 2 years from completion of the Contract, the Authority may make a written request to the Contractor to seek a variation to the conditions to a foreign export licence or import licence or authorisation to enable the Authority to re-export or re-transfer a licensed or authorised item or licensed or authorised information from the UK to a non-licensed or unauthorised third party. If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:
 - (1) the Contractor shall, or procure that the Contractor's Subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the Contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail, the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and
 - (2) the Authority shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the application for the requested variation.

- f. Where the Authority determines that it is best placed to make such request the Contractor shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the Authority to make the application for the requested variation.
- g. Where the Authority invokes clause 33.e or 33.f the Authority will pay the Contractor a fair and reasonable charge for this service based on the cost of providing it.
- h. Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, import control or both the Contractor shall use reasonable endeavours to incorporate in each subcontract equivalent obligations to those set out in this Condition. Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.
- i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extraterritoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.
- j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.
- k. The Contractor shall use reasonable endeavours to identify whether any Contractor Deliverable is subject to:
 - (1) a non-UK export licence, authorisation or exemption; or
 - (2) any other related transfer or export control, that imposes or will impose end use, end user or re-transfer or reexport restrictions, or restrictions on disclosure to individuals based upon their nationality. This does not include the Intellectual Property-specific restrictions of the type referred to in Condition 34 (Third Party Intellectual Property – Rights and Restrictions).
- l. If at any time during the term of the Contract the Contractor becomes aware that all or any part of the Contractor Deliverables are subject to clause 33.k.(1) or 33.k.(2), they shall notify the Authority of this as soon as reasonably practicable by providing details in the DEFFORM 528 or other mutually agreed alternative format. Such notification shall be no later than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.
- m. If the information to be provided under clause 33.l has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of clause 33.l.
- n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 33.l or 33.m of which they become or are aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.
- o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clause 33.l or 33.m of which they become aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.
- p. Where following receipt of materiel from a Subcontractor or any of their other suppliers restrictions are notified to the Contractor by that Subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within [X] days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within [X] days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in accordance with its terms to implement the proposal.
- q. If the restrictions prevent the Contractor from performing their obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with Condition 6 or as otherwise may be provided by the

Contract 712522451

Contract, or to terminate the Contract. Except as set out in clause 33.r, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.

- r. In the event that the restrictions notified to the Authority pursuant to clause 33.l were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 33.n or 33.p were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with clause 33.l, termination under clause 33.q will be in accordance with Condition 43 (Material Breach) and the provisions of clause 33.v will not apply.
- s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of clause 32.k, the Authority shall provide a completed DEFFORM 528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such materiel to the Contractor.
- t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such materiel is identified then the Authority shall provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any material to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure. u. Where:
 - (1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to clauses 33.s or 33.t or both; or
 - (2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate; the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform their obligations under the Contract, the matter shall be handled under the terms of Condition 6 (Formal Amendments to the Contract) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract. Termination under these circumstances will be under the terms of Condition 42 (Termination for Convenience) and as referenced in the Contract.
- v. Pending agreement of any amendment of the Contract as set out in clause 33.q or 33.u, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved from their obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

34. Third Party Intellectual Property – Rights and Restrictions

- a. The Contractor and, where applicable any Subcontractor, shall promptly notify the Authority as soon as they become aware of:

Contract 712522451

- (2) any restriction as to disclosure or use, or obligation to make payments in respect of any other intellectual property (including technical Information) required for the purposes of the Contract or subsequent use by the Authority of anything delivered under the Contract and, where appropriate, the notification shall include such Information as is required by Section 2 of the Defence Contracts Act 1958;
- (3) any allegation of infringement of intellectual property rights made against the Contractor and which pertains to the performance of the Contract or subsequent use by the Authority of anything required to be done or delivered under the Contract.

Clause 34.a does not apply in respect of Contractor Deliverables normally available from the Contractor as a Commercial Off The Shelf (COTS) item or service.

- b. If the Information required under clause 34.a has been notified previously, the Contractor may meet their obligations by giving details of the previous notification.
- c. For COTS Contractor Deliverables patents and registered designs in the UK, in respect of any question arising (by way of an allegation made to the Authority or Contractor, or otherwise) that the manufacture or provision under the Contract of Contractor Deliverables normally available from the Contractor as a COTS item or service is an infringement of a UK patent or registered design not owned or controlled by the Contractor or the Authority, the Contractor shall, subject to the agreement of the third party owning such patent or registered design, be given exclusive conduct of any and all negotiations for the settlement of any claim or the conduct of any litigation arising out of such question. The Contractor shall indemnify the Authority, its officers, agents and employees against any liability and cost arising from such allegation. This Condition shall not apply if:

 - (2) the Authority has entered or enters into any discussions on such question with any third party without the prior written agreement of the Contractor;
 - (3) the Authority has entered or enters into negotiations in respect of any relevant claim for compensation in respect of Crown Use under Section 55 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949;
 - (4) legal proceedings have been commenced against the Authority or the Contractor in respect of Crown Use, but only to the extent of such Crown Use that has been properly authorised.
- d. The indemnity in clause 34.c does not extend to use by the Authority of anything supplied under the Contract where that use was not reasonably foreseeable at the time of the Contract.
- e. In the event that the Authority has entered into negotiation in respect of a claim for compensation, or legal proceedings in respect of the Crown Use have commenced, the Authority shall forthwith authorise the Contractor for the purposes of performing the Contract (but not otherwise) to utilise a relevant invention or design in accordance with Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949 and to use any model, document or information relating to any such invention or design which may be required for that purpose.
- f. For all other Contractor Deliverables patents and registered designs in the UK, if a relevant invention or design has been notified to the Authority by the Contractor prior to the Effective Date of Contract, then unless it has been otherwise agreed, under the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, the Contractor is hereby authorised to utilise that invention or design, notwithstanding the fact that it is the subject of a UK Patent or UK Registered Design, for the purpose of performing the Contract.
- g. If, under clause 34.a, a relevant invention or design is notified to the Authority by the Contractor after the Effective Date of Contract, then:
 - (1) if the owner (or its exclusive licensee) takes or threatens in writing to take any relevant action against the Contractor, the Authority shall issue to the Contractor a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, and
 - (2) in any event, unless the Contractor and the Authority can agree an alternative course of action, the Authority shall not unreasonably delay the issue of a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949.
- h. The Authority shall assume all liability and shall indemnify the Contractor, their officers, agents and employees against liability, including the Contractor's costs, as a result of infringement by the Contractor or their suppliers of

Contract 712522451

any patent, utility model, registered design or like protection outside the United Kingdom in the performance of the Contract when such infringement arises from or is incurred by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

- i. The Contractor shall assume all liability and shall indemnify the Authority, its officers, agents and employees against liability, including the Authority's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the UK in the performance of the Contract when such infringement arises from or is incurred otherwise than by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.
- j. The Contractor shall not be entitled to any reimbursement of any royalty, licence fee or similar expense incurred in respect of anything to be done under the Contract, where:
 - (1) a relevant discharge has been given under Section 2 of the Defence Contracts Act 1958, or relevant authorisation in accordance with Sections 55 or 57 of the Patents Act 1977, Section 12 of the Registered Designs Act 1949 or Section 240 of the Copyright, Designs and Patents Act 1988 in respect of any intellectual property; or
 - (2) any obligation to make payments for intellectual property has not been promptly notified to the Authority under clause 34.a.
- k. Where authorisation is given by the Authority under clause 34.e, 34.f or 34.g, to the extent permitted by Section 57 of the Patents Act 1977, Section 12 of the Registered Designs Act 1949 or Section 240 of the Copyright, Designs and Patents Act 1988, the Contractor shall also be:
 - (1) released from payment whether by way of royalties, licence fees or similar expenses in respect of the Contractor's use of the relevant invention or design, or the use of any relevant model, document or information for the purpose of performing the Contract; and
 - (2) authorised to use any model, document or information relating to any such invention or design which may be required for that purpose.
- l. The Contractor shall assume all liability and indemnify the Authority and its officers, agents and employees against liability, including costs as a result of:
 - (1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item to be supplied under the Contract or otherwise in the performance of the Contract;
 - (2) misuse of any confidential information, trade secret or the like by the Contractor in performing the Contract;
 - (3) provision to the Authority of any Information or material which the Contractor does not have the right to provide for the purpose of the Contract.
- m. The Authority shall assume all liability and indemnify the Contractor, their officers, agents and employees against liability, including costs as a result of:
 - (1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item provided by the Authority for the purpose of the Contract but only to the extent that the item is used for the purpose of the Contract;
 - (2) alleged misuse of any confidential Information, trade secret or the like by the Contractor as a result of use of Information provided by the Authority for the purposes of the Contract, but only to the extent that Contractor's use of that Information is for the purposes intended when it was disclosed by the Authority. n. The general authorisation and indemnity is:
 - (1) clauses 34.a – 34.m represents the total liability of each Party to the other under the Contract in respect of any infringement or alleged infringement of patent or other Intellectual Property Right (IPR) owned by a third party;
 - (2) neither Party shall be liable, one to the other, for any consequential loss or damage arising as a result, directly or indirectly, of a claim for infringement or alleged infringement of any patent or other IPR owned by a third party;

Contract 712522451

- (3) a Party against whom a claim is made, or action brought, shall promptly notify the other Party in writing if such claim or action appears to relate to an infringement which is the subject of an indemnity or authorisation given under this Condition by such other Party. The notification shall include particulars of the demands, damages and liabilities claimed or made of which the notifying Party has notice;
 - (4) the Party benefiting from the indemnity or authorisation shall allow the other Party, at its own expense, to conduct any negotiations for the settlement of the same, and any litigation that may arise therefrom and shall provide such information as the other Party may reasonably require;
 - (5) following a notification under clause 34.n.(3), the Party notified shall advise the other Party in writing within thirty (30) Business Days whether or not it is assuming conduct of the negotiations or litigation. In that case the Party against whom a claim is made, or action brought shall not make any statement which might be prejudicial to the settlement or defence of such a claim without the written consent of the other Party;
 - (6) the Party conducting negotiations for the settlement of a claim, or any related litigation shall, if requested, keep the other Party fully informed of the conduct and progress of such negotiations.
- o. If at any time a claim or allegation of infringement arises in respect of copyright, database right, Design Right or breach of confidence as a result of the provision of any Contractor Deliverable by the Contractor to the Authority, the Contractor may at their own expense replace the item with an item of equivalent functionality and performance so as to avoid infringement or breach. The Parties will co-operate with one another to mitigate any claim or damage which may arise from use of third party IPR.
 - p. Nothing in Condition 34 shall be taken as an authorisation or promise of an authorisation under Section 240 of the Copyright, Designs and Patents Act 1988.
 - q. Notwithstanding any other provisions of the Contract and for the avoidance of doubt, award of the Contract by the Authority and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Contractor acknowledges that any such authorisation by the Authority under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific intellectual property involved.

Where any of the conditions listed below (1 to 3) have been added to the Conditions of the Contract as project specific DEFCONs at Clause 45, or where required by Clauses 34.a. - 34.q., the Contractor warrants and confirms that all Intellectual Property Rights restrictions and associated export restrictions relating to the use or disclosure of the Contractor Deliverables that are notifiable under those Conditions, or of which the Contractor is or should reasonably be aware as at Effective Date of Contract, are disclosed in Schedule 10 (Notification of Intellectual Property Rights (IPR) Restrictions).

- e. The approval for payment of a valid and undisputed invoice by the Authority shall not be construed as acceptance by the Authority of the performance of the Contractor's obligations nor as a waiver of its rights and remedies under the Contract.
- f. Without prejudice to any other right or remedy, the Authority reserves the right to set off any amount owing at any time from the Contractor to the Authority against any amount payable by the Authority to the Contractor under the Contract or under any other contract with the Authority, or with any other Government Department.

- c. The Contractor is responsible for the determination of VAT liability. The Contractor shall consult their Client Relationship Manager or the HMRC Enquiries Desk (and not the Authority's Representative (Commercial)) in cases of doubt. The Contractor shall notify the Authority's Representative (Commercial) of the Authority's VAT liability under the Contract, and any changes to it, within twenty (20) Business Days of becoming aware the liability is other than at the standard rate of VAT. In the event of any doubt about the applicability of the tax in such cases, the Authority may require the Contractor to obtain, and pass to the Authority, a formal ruling from HMRC. The Contractor shall comply promptly with any such requirement. Where the Contractor obtains a ruling from HMRC, they shall supply a copy to the Authority within three (3) Business Days of receiving that ruling unless they propose to challenge the ruling. The Contractor shall be responsible for ensuring they take into account any changes in VAT law regarding registration.
- e. In that event, it is the Contractor's responsibility to ensure the Contract Price captures this tax.
- f. In relation to the Contractor Deliverables supplied under the Contract the Authority shall not be required to pay any sum in respect of the Contractor's input VAT (or similar non-UK input taxes). However, these input taxes will be allowed where they were included in the Contract Price and it is established that, despite the Contractor having taken all reasonable steps to recover them, it has not been possible to do so. Where there is any doubt that the Contractor has complied with this requirement the matter shall be resolved in accordance with Condition 40 (Dispute Resolution).

Contract 712522451

- g. Should HMRC decide that the Contractor has incorrectly determined the VAT liability, in accordance with clause 37.b above, the Authority will pay the VAT assessed by HMRC. In the event that HMRC so determines, the Contractor shall pay any interest charged on any assessment or penalties or both directly to HMRC. Such interest or penalties or both shall not be recoverable from the Authority under the Contract or any other contract. The Contractor shall supply the Authority with a copy of all correspondence between HMRC and the Contractor's advisors regarding the VAT assessment within three (3) Business Days of a written request from the Authority for such correspondence.

- (1) is made aware of the Authority's continuing rights under clauses 38.a.(1) and 38.a.(2); and

The Parties will attempt in good faith to resolve any dispute or claim arising out of or relating to the Contract through negotiations between the respective representatives of the Parties having authority to settle the matter, which attempts may include the use of any alternative dispute resolution procedure on which the Parties may agree.
- b. In the event that the dispute or claim is not resolved pursuant to clause 40.a the dispute shall be referred to arbitration. Unless otherwise agreed in writing by the Parties, the arbitration and this clause 40.b shall be governed by the

No waiver in respect of any right or remedy shall operate as a waiver in respect of any other right or remedy.

APPENDIX 3 TO ANNEX A (SoTR) – BACKUP AND RECOVERY FOR BUSINESS CONTINUITY

Business Continuity is not just the handling of “Disaster Recovery” but covers other scenarios, less serious perhaps, but which can still cause serious disruption that require pre-planning.

Structure

1. Level 1 - Three virtualised production servers replicated locally in near real time (30 sec).
2. Level 2 - Production servers replicated off-site with hourly snapshots retained for 24 hours.
3. Level 3 - Hourly server level off-line backup to local site maintained for with 400 + snapshots.
4. Level 4 - Rebuild recovery - Daily file level backup off-site.

Schedule 4 - Contract Change Control Procedure (i.a.w. clause 6.d) for Contract No 712522451

Authority Changes

1. The Authority shall be entitled to propose any change to the Contract (a "Change") or (subject to Clause 2) Changes in accordance with this Schedule 4.

2. Nothing in this Schedule shall operate to prevent the Authority from specifying more than one Change in any single proposal, provided that such changes are related to the same or similar matter or matters. The Tasking Process is further detailed in Clauses 15-16 below.

Notice of Change

3. If the Authority wishes to propose a Change or Changes, it shall serve a written notice (an "Authority Notice of Change") on the Contractor.

4. The Authority Notice of Change shall set out the Change(s) proposed by the Authority in sufficient detail to enable the Contractor to provide a written proposal (a "Contractor Change Proposal") in accordance with clauses 7 to 9 (inclusive).

5. The Contractor may only refuse to implement a Change or Changes proposed by the Authority, if such change(s):

- a. would, if implemented, require the Contractor to deliver any Contractor Deliverables under the Contract in a manner that infringes any applicable law relevant to such delivery; and/or
- b. would, if implemented, cause any existing consent obtained by or on behalf of the Contractor in connection with their obligations under the Contract to be revoked (or would require a new necessary consent to be obtained to implement the Change(s) which, after using reasonable efforts, the Contractor has been unable to obtain or procure and reasonably believes it will be unable to obtain or procure using reasonable efforts); and/or
- c. would, if implemented, materially change the nature and scope of the requirement (including its risk profile) under the Contract; and:
- d. the Contractor notifies the Authority within 10 (ten) Business Days (or such longer period as shall have been agreed in writing by the parties) after the date of the Authority Notice of Change that the relevant proposed Change or Changes is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c providing written evidence for the Contractor's reasoning on the matter; and e. further to such notification:
 - (1) either the Authority notifies the Contractor in writing that the Authority agrees, or (where the Authority (acting reasonably) notifies the Contractor that the Authority disputes the Contractor's notice under Clause 5.d) it is determined in accordance with Condition 40 (Dispute Resolution), that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c; and
 - (2) (where the Authority either agrees or it is so determined that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c) the Authority fails to make sufficient adjustments to the relevant Authority Notice of Change (and issue a revised Authority Notice of Change) to remove the Contractor's grounds for refusing to implement the relevant Change under Clauses 5.a, 5.b and/or 5.c within 10 (ten) Business Days (or such longer period as shall have been agreed in writing by the parties) after:
 - i) the date on which the Authority notifies in writing the Contractor that the Authority agrees that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c);
 - or ii) the date of such determination.

6. The Contractor shall at all times act reasonably, and shall not seek to raise unreasonable objections, in respect of any such adjustment.

Contractor Change Proposal

7. As soon as practicable, and in any event within:

- a. (where the Contractor has not notified the Authority that the relevant Change or Changes is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c in accordance with Clause 5) fifteen (15) Business Days (or such other period as the Parties agree (acting reasonably) having regard to the nature of the Change(s)) after the date on which the Contract shall have received the Authority Notice of Change; or
- b. (where the Contractor has notified the Authority that the relevant Change or Changes is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c in accordance with Clause 5 and:

(1) the Authority has agreed with the Contractor's conclusion so notified or it is determined under Condition 40 (Dispute Resolution) that the relevant Change(s) is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c and the Authority has made sufficient adjustments to the relevant Authority Notice of Change (and issued a revised Authority Notice of Change(s)) to remove the Contractor's grounds for refusing to implement the relevant Change(s) under Clauses 5.a, 5.b and/or 5.c fifteen (15) Business Days (or such other period as the parties shall have agreed (both parties acting reasonably) having regard to the nature of the Change(s)) after the date on which the Contractor shall have received such revised Authority Notice of Change; or

(2) the Authority has disputed such conclusion and it has been determined in accordance with Condition 40 (Dispute Resolution) that the relevant Change(s) is/are not a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c) fifteen (15) Business Days (or such other period as the parties shall have agreed (both parties acting reasonably) having regard to the nature of the Change(s)) after the date of such determination,

the Contractor shall deliver to the Authority a Contractor Change Proposal. For the avoidance of doubt, the Contractor shall not be obliged to deliver to the Authority a Contractor Change Proposal where the Contractor notifies the Authority, and the Authority agrees or it is determined further to such notification in accordance with Clause 5, that the relevant Change or Changes is/are a Change(s) falling within the scope of Clauses 5.a, 5.b and/or 5.c.

8. The Contractor Change Proposal shall comprise in respect of each and all Change(s) proposed:
 - a. the effect of the Change(s) on the Contractor's obligations under the Contract;
 - b. a detailed breakdown of any costs which result from the Change(s);
 - c. the programme for implementing the Change(s);
 - d. any amendment required to this Contract as a result of the Change(s), including, where appropriate, to the Contract Price; and
 - e. such other information as the Authority may reasonably require.
9. The price for any Change(s) shall be based on the prices (including rates) already agreed for the Contract and shall include, without double recovery, only such charges that are fairly and properly attributable to the Change(s).

Contractor Change Proposal – Process and Implementation

10. As soon as practicable after the Authority receives a Contractor Change Proposal, the Authority shall:
 - a. evaluate the Contractor Change Proposal; and
 - b. where necessary, discuss with the Contractor any issues arising (and (in relation to a Change(s) proposed by the Authority) following such discussions the Authority may modify the Authority Notice of Change) and the Contractor shall as soon as practicable, and in any event not more than ten (10) Business Days (or such other period as the Parties shall have agreed in writing) after receipt of such modification, submit an amended Contractor Change Proposal.

11. As soon as practicable after the Authority has evaluated the Contractor Change Proposal (amended as necessary) the Authority shall:
 - a. either indicate its acceptance of the Change Proposal by issuing a DEFFORM10B in accordance with Condition 6 (Formal Amendments to the Contract), whereupon the Contractor shall promptly sign and return to the Authority the Contractor's DEFFORM 10B indicating their unqualified acceptance of such amendment in accordance with, and otherwise discharge their obligations under, such Condition and implement the relevant Change(s) in accordance with such proposal; or
 - b. serve Notice on the Contractor rejecting the Contractor Change Proposal and withdrawing (where issued in relation to a Change or Changes proposed by the Authority) the Authority Notice of Change (in which case such notice of change shall have no further effect)
12. If the Authority rejects the Contractor Change Proposal, it shall not be obliged to give its reasons for such rejection.
13. The Authority shall not be liable to the Contractor for any additional work undertaken or expense incurred in connection with the implementation of any Change(s), unless a Contractor Change Proposal has been accepted by the Authority in accordance with Clause 11a. and then subject only to the terms of the Contractor Change proposal so accepted.

Contractor Changes

14. If the Contractor wishes to propose a Change or Change(s), they shall serve a Contractor Change Proposal on the Authority. Such proposal shall be prepared and reviewed in accordance with and otherwise be subject to the provisions of Clauses 8 to 13 (inclusive).

Tasking Process

15. Request for Change Process

15.1 All tasks under Line Items 2, 4 and 6 of Schedule 2 (Schedule of Requirements) to the Contract shall be initiated, defined and agreed using a Request for Change (RFC) Tasking Form (Annex A to Schedule 4) in accordance with the change process detailed in sections 5 and 6 of Annex A (SoTR) to Contract. A RFC Tasking Form shall only be considered valid following Commercial approval of the Tasking Form.

15.2 Tasking Forms must be priced using the Contract Daily Rate detailed in Schedule 2.1 (Pricing & Payment). The Contractor shall provide a firm price for each Tasking Form received from the Authority.

Performance Requirements in respect to Monthly Payments for SoR Line Items 1, 3 and Optional 5

16. If the Contractor fails to meet the core support requirements of sections 1-4 and 7-9 of Annex A (SoTR), and therefore Line Items 1, 3 and Optional 5 of Schedule 2 (Schedule of Requirements) to Contract, which demonstrates a substantial decline in contracted performance in any given Month, the Authority reserves the right to reasonably apply a 10% reduction to the Monthly Payment attributed to that period of performance as detailed in Annex 2.1 (Pricing & Payment).

DEFFORM 711 - PART B – System / Product Breakdown Structure (PBS)

The Contractor should insert their PBS here. For Software, please provide a Modular Breakdown Structure.

DEFFORM 711 Completion Notes Part A

If any information / technical data that is deliverable or delivered under the relevant Contract conditions is, or may be, subject to any IPR restrictions (or any other type of restriction which may include export restrictions) affecting the Authority's ability to use or disclose the information / technical data in accordance with the conditions of any resulting Contract, then the Contractor must identify this restricted information / technical data in this Part A. Otherwise, the Authority shall treat such information in accordance with the same rights under the Contract it would enjoy should no restrictions exist.

For example, any of the following must be disclosed:

- a) any restriction on the provision of information / technical data to the Authority; any restriction on disclosure or the use of information by, or on behalf of, the Authority; any obligations to make payments in respect of IPR, and any patent or registered design (or application for either) or other IPR (including unregistered design right) owned or controlled by you or a third party;
- b) any allegation made against the Contractor, whether by claim or otherwise, of an infringement of IPR (whether a patent, registered design, unregistered design right, copyright or otherwise) or of a breach of confidence, which relates to the performance of the Contract or subsequent use by or for the Authority of any Contract deliverables;
- c) the nature of any allegation referred to under sub-paragraph (b) above, including any request or obligation to make payments in respect of the IPR of any confidential information and / or;
- d) any action the Contractor needs to take, or the Authority is requested to take, to deal with the consequences of any allegation referred to under sub-paragraph (b) above.

Block 1	Enter the associated Invitation to Tender (ITT) or Contract number as appropriate.
Block 2	No action – This sequential numbering is to assist isolation and discussion of any line item
Block 3	Identify a unique reference number for the information / technical data (i.e. a Contractor's document or file reference number) including any dates and version numbers. Documents may only be grouped and listed as a single entry where they relate to the same Article and where the restrictions and IPR owner are the same.
Block 4	Identify the Article(s) associated with the information / technical data by entering a unique identification number / label for the Article(s). This may range from platform level down to subsystem level. This is to enable the Authority to quickly identify the approximate technical boundary to any user rights limitation (e.g. The RADAR or Defensive Aid Sub-System etc). This identification shall be at the lowest level of replaceability of the Article(s) or part of it to which the restrictions apply (i.e. if the restrictions apply to a sub-system the parent system should not be used to identify the restriction boundary). <u>Any entry without a unique identifier shall be treated as a nil entry.</u> NOTE: The Authority does not accept any IPR restrictions in respect of the physical Articles themselves. Block 4 is solely to provide an applied picture to any technical data stated under Block 3 as having IPR restrictions.
Block 5	This is a freeform narrative field to allow a short explanation justifying why this information / technical data has limited rights applying to it.
Block 6	Identify who is the owner of the IPR in the information / technical data (i.e. copyright, design right etc). If it is a sub-contractor or supplier, please identify this also.

Part B

If neither hardware nor software is proposed to be designed, developed or delivered as part of the Contract, Part B should be marked "NIL RETURN".

Otherwise, the Contractor must include a System / Product Breakdown Structure (PBS) in a format which is consistent with ISO 21511 and / or the configuration requirements of DEFSTAN 05-057, unless an alternative format better represents your design configuration. For software, a modular breakdown structure must be provided. For reasons of clarity, it is acceptable to provide several levels of breakdown if this assists in organising the configuration of the Articles.

Details provided under Part B shall not imply any restriction of use over the Contract Articles, nor any restriction on associated technical data to be delivered under the Contract. Any restrictions of such technical data must be identified within Part A.

Against each unique item within the PBS / module breakdown, one of the following categories shall be recorded:

- a) (PVF) - Private Venture Funded - where the article existed prior to the proposed Contract and its design was created through funding otherwise than from His Majesty's Government (HMG).
- b) (PAF) - Previous Authority Funded (inc. HMG Funded) - where the article existed prior to the proposed Contract and its design was created through Previous Authority Funding.
- c) (CAF) - Contract Authority Funded (inc. HMG Funded) - where the article did not exist prior to the Contract and its design will be created through Contract Authority Funding under this Contract.
- d) (DNM) Design Not Mature - where the article / design configuration is not yet fixed.

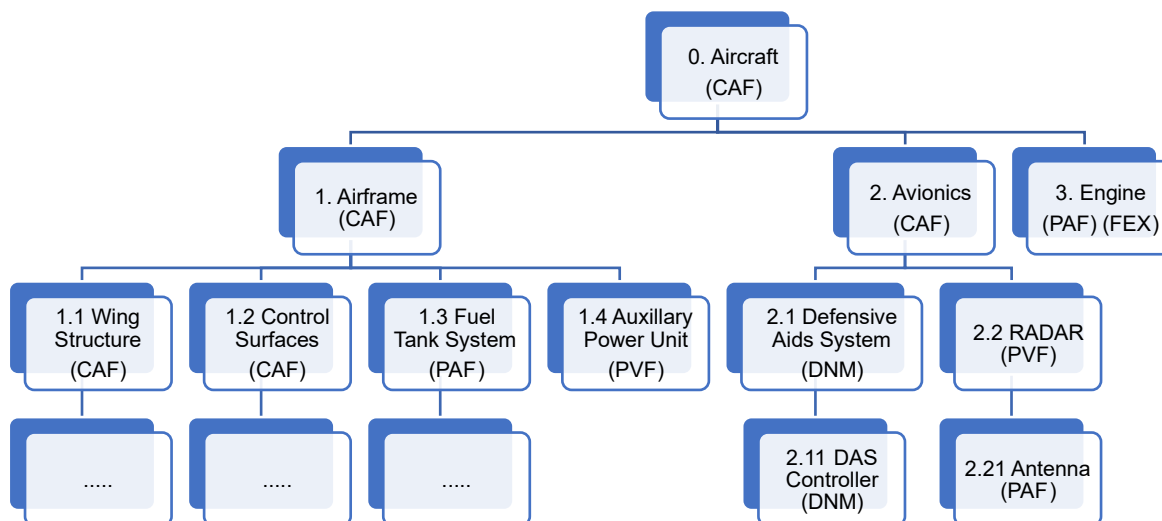

In combination with one of categories (a) to (d) above, the Contractor shall further identify where an item has, or will have, foreign export control applying to it, through use of the further following category: e) (FEX) Foreign Export Controlled

Notes:

- 1. During the term of the Contract the Contractor may transition any items identified as category (d) above into category (b) or (c). Transitions from category (d) into category (a) may only be made with the express written agreement of the Authority's Senior Commercial Officer, and by following the amendment process set out in the Contract.
- 2. It is acceptable to specify the highest level of structure to which the category (a), (b) or (c) applies (i.e. there is no need to specify each sub-system / componentry if the entirety of the parent system was for example, Private Venture Funded). See guidance examples overleaf.
- 3. For the avoidance of doubt, where a parent system did not exist prior to the Contract yet makes use of Private Venture Funded Articles, it must be identified as (CAF). The Private Venture Funded subcomponents / sub-systems can be identified as PVF.
- 4. Where items are identified as category (b), the Contractor should provide the number(s) of the previous Contract(s) under which the design was created and the Previous Authority Funding was applied.

Example PBS

A theoretical pictorial example is given below but it is to be noted that the configuration may equally be dealt with in a hierarchal tabularised format.

The diagram above indicates a highly simplified and hypothetical Contract scenario dealing with the procurement of a new air asset.

- i. The proposed new aircraft would be considered Contract Authority Funded (CAF) at its top level.
- ii. Items denoted as Private Venture Funded (PVF) would generally indicate that it and all of its subcomponents have been funded by sources other than HMG. In this instance there is no need to proceed down the product breakdown structure any further (see 1.4), except unusually where a generally PVF regarded item has incorporated a Previous Authority Funded (PAF) item (see 2.21).
- iii. The proposed design is making use of a PAF engine.
- iv. This engine has Foreign Export Control (FEX) applying to items within it.
- v. The Defensive Aids System at 2.1 is covered as part of the Contract but the exact configuration and design has not yet been fixed "Design Not Mature" (DNM).
- vi. It is not feasible for a parent PVF system to make use of a CAF item; the parent system configuration would not have existed prior to the Contract.

6. Contracts (Rights of Third Parties) Act 1999
- 6.1 A person who is not a Party to this Agreement has no right under the Contract (Rights of Third Parties) Act 1999 (as amended, updated or replaced from time to time) to enforce any term of this Agreement, but this does not affect any right or remedy of any person which exists or is available otherwise than pursuant to that Act.
7. Transparency

UK OFFICIAL AND UK OFFICIAL-SENSITIVE CONTRACTUAL SECURITY CONDITIONS**Purpose**

1. This document provides guidance for Defence Suppliers where classified material provided to or generated by the Defence Supplier is graded UK OFFICIAL or UK OFFICIAL-SENSITIVE. Where the measures requested below cannot be achieved or are not fully understood, further advice should be sought from the UK Designated Security Authority (Email: [REDACTED]).

Definitions

2. The term "Authority" for the purposes of this Annex means the UK MOD Contracting Authority.
3. The term "Classified Material" for the purposes of this Annex means classified information and assets.

Security Grading

4. The SENSITIVE marking is used to denote UK OFFICIAL material that is of a particular sensitivity and where there is a need to reinforce the 'need to know'. The Security Aspects Letter, issued by the Authority shall define the UK OFFICIAL-SENSITIVE material that is provided to the Defence Supplier, or which is to be developed by it, under this Contract. The Defence Supplier shall mark all UK OFFICIAL SENSITIVE documents which it originates or copies during the Contract with the applicable security grading. The Defence Supplier is not required to mark documents graded UK OFFICIAL unless they are transmitted overseas or generated by a Defence Supplier based outside the UK in a third-party country.

Security Conditions

5. The Defence Supplier shall take all reasonable steps to adhere to the provisions specified in the Contract or listed in this Annex. The Defence Supplier shall make sure that all individuals employed on any work in connection with the Contract have notice that these provisions apply to them and shall continue so to apply after the completion or earlier termination of the Contract.
6. Where a Defence Supplier is based outside the UK in a third-party country the national rules and regulations of the third-party country take precedence over these conditions only if the third-party country has an extant bilateral security agreement or arrangement with the UK.
7. The Authority shall state the data retention periods to allow the Defence Supplier to produce a data management policy.
8. If you are a Defence Supplier located in the UK, your attention is also drawn to the provisions of the Official Secrets Act 1989 and the National Security Act 2023.

Protection of UK OFFICIAL and UK OFFICIAL-SENSITIVE Classified Material

9. The Defence Supplier shall protect UK OFFICIAL and UK OFFICIAL-SENSITIVE material provided to or generated by it in accordance with the requirements detailed in this Security Condition and any other conditions that may be specified by the Authority. The Defence Supplier shall take all reasonable steps to prevent the loss or compromise of classified material whether accidentally or from deliberate or opportunist attack.

10. Once the Contract has been awarded, where the Defence Supplier is required to store or process UK MOD classified information electronically, they shall comply with the requirements specified in ISNs, Defence Condition 658 and Defence Standard 05-138. Details can be found at the links below:

<https://www.gov.uk/government/publications/industry-security-notice-isns>.

<https://www.dstan.mod.uk/toolset/05/138/000003000.pdf>

<https://www.gov.uk/government/publications/defence-condition-658-cyber-flow-down>

11. All UK classified material including documents, media and other assets shall be physically secured to prevent unauthorised access. When not in use UK classified material shall be handled with care to prevent loss or inappropriate access. As a minimum UK OFFICIAL-SENSITIVE material shall be stored under lock and key and shall be placed in a lockable room, cabinets, drawers or safe and the keys/combinations shall be controlled.

12. Disclosure of UK classified material shall be strictly controlled in accordance with the "need to know" principle. Except with the written consent of the Authority, the Defence Supplier shall not disclose the Contract or any provision thereof to any person other than to a person directly employed by the Defence Supplier or Subcontractor.

13. Except with the consent in writing of the Authority the Defence Supplier shall not make use of the Contract or any classified material issued or provided by or on behalf of the Authority otherwise than for the purpose of the Contract, and, same as provided for in paragraph 9 above, the Defence Supplier shall not make use of any article or part thereof similar to the articles for any other purpose.

14. Subject to any intellectual property rights of third parties, nothing in this Security Condition shall restrict the Defence Supplier from using any specifications, plans, drawings and other documents generated outside of this Contract.

15. Any samples, patterns, specifications, plans, drawings or any other documents issued by or on behalf of the Authority for the purposes of the Contract remain the property of the Authority and shall be returned on completion of the Contract or, if directed by the Authority, destroyed in accordance with paragraph 37.

Access

16. Access to UK classified material shall be confined to those individuals who have a "need-to-know", have been made aware of the requirement to protect the material and whose access is essential for the purpose of their duties.

17. The Defence Supplier shall ensure that all individuals requiring access to UK OFFICIAL and UK OFFICIAL-SENSITIVE material have undergone basic recruitment checks. This should include establishing proof of identity; confirming that they satisfy all legal requirements for employment by the Defence Supplier; and verification of their employment record. Criminal record checks should also be undertaken where permissible under national/local laws and regulations. This is in keeping with the core principles set out in the

UK Government (HMG) Baseline Personnel Security Standard (BPSS) which can be found at:

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/714002/HMG_Baseline_Personnel_Security_Standard_-_May_2018.pdf

Hard Copy Distribution

18. UK OFFICIAL and UK OFFICIAL-SENSITIVE documents may be distributed internally and externally of Defence Supplier premises. To maintain confidentiality, integrity and availability, distribution shall be controlled such that access to documents is only by authorised personnel. They may be sent by

ordinary post in a single envelope. The words UK OFFICIAL or UK OFFICIAL-SENSITIVE must not appear on the envelope. The envelope must bear a stamp or marking that clearly indicates the full address of the office from which it was sent. Commercial Couriers may be used.

19. Advice on the distribution of UK OFFICIAL-SENSITIVE documents abroad or any other general advice including the distribution of UK OFFICIAL-SENSITIVE shall be sought from the Authority.

Electronic Communication and Telephony and Facsimile Services

20. UK OFFICIAL information may be emailed unencrypted over the internet. UK OFFICIAL-SENSITIVE information shall normally only be transmitted over the internet encrypted using either a National Cyber Security Centre (NCSC) Commercial Product Assurance (CPA) cryptographic product or a UK MOD approved cryptographic technique such as Transmission Layer Security (TLS). In the case of TLS both the sender and recipient organisations must have TLS enabled. Details of the required TLS implementation and CPA scheme are available at:

<https://www.ncsc.gov.uk/guidance/tls-external-facing-services>

<https://www.ncsc.gov.uk/scheme/commercial-product-assurance-cpa>

21. Exceptionally, in urgent cases UK OFFICIAL-SENSITIVE information may be emailed unencrypted over the internet where there is a strong business need to do so, but only with the prior approval of the Authority. However, it shall only be sent when it is known that the recipient has been made aware of and can comply with the requirements of these Security Conditions and subject to any explicit limitations that the Authority require. Such limitations including any regarding publication, further circulation or other handling instructions shall be clearly identified in the email sent with the information.

22. UK OFFICIAL and UK OFFICIAL-SENSITIVE information may be discussed verbally on corporate telephones and other corporate electronic devices with persons located both within the country of the Defence Supplier and overseas. UK OFFICIAL-SENSITIVE information should only be discussed where there is a strong business need to do so.

23. UK OFFICIAL information may be faxed to recipients located both within the country of the Defence Supplier and overseas, however UK OFFICIAL-SENSITIVE information may be transmitted only where there is a strong business case to do so and only with the prior approval of the Authority.

Use of Information Systems

24. The detailed functions that must be provided by an IT system to satisfy the minimum requirements cannot all be described here in specific detail; it is for the implementers to identify possible means of attack and ensure proportionate security mitigations are applied to prevent a successful attack.

25. The Defence Supplier should ensure **10 Steps to Cyber Security** (Link below) is applied in a proportionate manner for each IT and communications system storing, processing or generating UK OFFICIAL or UK OFFICIAL-SENSITIVE information.

<https://www.ncsc.gov.uk/guidance/10-steps-cyber-security>

26. As a general rule, any communication path between an unauthorised user and the data can be used to carry out an attack on the system or be used to compromise or ex-filtrate data. Within the framework of the 10 Steps to Cyber Security, the following describes the minimum security requirements for processing and accessing UK OFFICIAL and UK OFFICIAL-SENSITIVE information on IT systems.

- a. Access. Physical access to all hardware elements of the IT system is to be strictly controlled. The principle of “least privilege” will be applied to System Administrators. Users of the IT System (Administrators) should not conduct ‘standard’ User functions using their privileged accounts.
- b. Identification and Authentication (ID&A). All systems are to have the following functionality:
- (1) Up-to-date lists of authorised users.
 - (2) Positive identification of all users at the start of each processing session
- c. Passwords. Passwords are part of most ID&A security measures. Passwords are to be “strong” using an appropriate method to achieve this, e.g., including numeric and “special” characters (if permitted by the system) as well as alphabetic characters.
- d. Internal Access Control. All systems are to have internal Access Controls to prevent unauthorised users from accessing or modifying the data.
- e. Data Transmission. Unless the Authority authorises otherwise, UK OFFICIAL-SENSITIVE information may only be transmitted or accessed electronically (e.g., point to point computer links) via a public network like the Internet, using a CPA product or equivalent as described in paragraph 20 above.
- f. Security Accounting and Audit. Security relevant events fall into two categories, namely legitimate events and violations.
- (1) The following events shall always be recorded:
 - (a) All log on attempts whether successful or failed,
 - (b) Log off (including time out where applicable), where technically feasible.
 - (c) The creation, deletion or alteration of access rights and privileges, (d) The creation, deletion or alteration of passwords.
 - (2) For each of the events listed above, the following information is to be recorded:
 - (a) Type of event, (b) User ID,
 - (c) Date & Time, (d) Device ID.
 - (3) The accounting records are to have a facility to provide the System Manager with a hard copy of all or selected activity. There also must be a facility for the records to be printed in an easily readable form. All security records are to be inaccessible to users without a need to know. If the operating system is unable to provide this, then the equipment must be protected by physical means when not in use i.e., locked away or the hard drive removed and locked away.
- g. Integrity & Availability. The following supporting measures are to be implemented:
- (1) Provide general protection against normally foreseeable accidents/mishaps and known recurrent problems (e.g., viruses and power supply variations),
 - (2) Defined Business Contingency Plan,
 - (3) Data backup with local storage,

- (4) Anti-Virus Software (Implementation, with updates, of an acceptable industry standard Anti-virus software),
 - (5) Operating systems, applications and firmware should be supported,
 - (6) Patching of Operating Systems and Applications used are to be in line with the manufacturers recommended schedule. If patches cannot be applied an understanding of the resulting risk will be documented.
- h. Logon Banners. Where considered necessary, a “Logon Banner” will be provided to summarise the requirements for access to a system which may be needed to institute legal action in case of any breach occurring. A suggested format for the text (depending on national legal requirements) could be: “Unauthorised access to this computer system may constitute a criminal offence”.
- i. Disposal. Before IT storage media (e.g., disks) are disposed of, an erasure product must be used to overwrite the data. This is a more thorough process than deletion of files, which does not remove the data.

Portable Electronic Devices

27. Portable Electronic Devices holding any UK OFFICIAL-SENSITIVE information shall be encrypted using a CPA product or equivalent as described in paragraph 20 above.

28. Unencrypted Portable Electronic Device and drives containing personal data are not to be taken outside of secure sites¹. For the avoidance of doubt the term “drives” includes all removable, recordable media e.g., memory sticks, compact flash, recordable optical media (CDs and DVDs), floppy discs and external hard drives.

29. Any token, touch memory device or password(s) associated with the encryption package is to be kept separate from the machine whenever the machine is not in use, left unattended or in transit. 30. Portable Electronic Devices holding the Authorities’ data are not to be left unattended in any public location. They are not to be left unattended in any motor vehicles either in view or in the boot or luggage compartment at any time. When the vehicle is being driven the Portable Electronic Device is to be secured out of sight in the glove compartment, boot or luggage compartment as appropriate to deter opportunist theft.

Loss and Incident Reporting

31. The Defence Supplier shall immediately report any loss or otherwise compromise of any Defence Related Classified Material to the Authority. The term Defence Related Classified Material includes any information or asset that has been given a security classification by the UK MOD. The term also includes classified information and assets held by UK Defence Suppliers which are owned by a third party e.g., NATO or another country for which the UK MOD is responsible.

32. In addition, any loss or otherwise compromise of Defence Related Classified Material is to be immediately reported to the UK MOD Defence Industry Warning, Advice and Reporting Point (WARP).

This will assist the UK MOD in formulating a formal information security reporting process and the management of any associated risks, impact analysis and upward reporting to the UK MOD’s Chief

Information Officer (CIO) and, as appropriate, the Defence Supplier concerned. The UK MOD Defence Industry WARP will also advise the Defence Supplier what further action is required to be undertaken.

Subcontracts

34. Where the Defence Supplier wishes to subcontract any elements of a Contract to Subcontractors within its own country or to Subcontractors located in the UK such subcontracts will be notified to the Authority. The Defence Supplier shall ensure that these Security Conditions are incorporated within the subcontract document.

35. The prior approval of the Authority shall be obtained should the Defence Supplier wish to subcontract any UK OFFICIAL-SENSITIVE elements of the Contract to a Subcontractor facility located in another (third party) country. The first page of MOD Form 1686 (F1686) is to be used for seeking such approval. The MOD Form 1686 can be found in the "Subcontracting or Collaborating on Classified MOD Programmes ISN" at the link below: <https://www.gov.uk/government/publications/industry-security-notices-isns>

36. If the subcontract is approved, the Defence Supplier shall flow down the Security Conditions in line with paragraph 34 above to the Subcontractor. Defence Suppliers located overseas may seek further advice and/or assistance from the Authority with regards the completion of F1686.

Physical Destruction

37. As soon as no longer required, UK OFFICIAL and UK OFFICIAL-SENSITIVE material shall be destroyed in such a way as to make reconstitution very difficult or impossible, for example, by burning, shredding or tearing into small pieces. Advice shall be sought from the Authority when the classified material cannot be destroyed or, unless already authorised by the Authority, when its retention is considered by the Defence Supplier to be necessary or desirable. Unwanted UK OFFICIAL-SENSITIVE classified material which cannot be destroyed in such a way shall be returned to the Authority.

Private Venture Activities

38. Private Venture (PV) funded (i.e., non-MOD funded) defence related projects and technology fall within one of the following three categories:

- a. Variants. Variants of standard defence equipment under research, development or in production, e.g., aircraft, military vehicles or ships, etc. with non-standard equipment or fitments, offered to meet special customer requirements or to avoid security or commercial difficulties associated with the sale of an item in-Service with UK Armed Forces.
- b. Derivatives. Equipment for military or civil use that is not based on standard Service designs but is dependent upon expertise or technology acquired in the course of defence contracts.
- c. Freelance. Equipment of defence importance that is in no way based on information gained from defence contracts.

39. UK Defence Suppliers shall ensure that any PV activity that falls into one of the above categories has been formally security graded by the MOD Directorate of Security and Resilience. Please see PV guidance on the following website further information:

<https://www.gov.uk/government/publications/private-venture-pv-grading-and-exhibition-clearanceinformation-sheets>

Publicity Material

40. Defence Suppliers wishing to release any publicity material or display assets that arises from a Contract to which these Security Conditions apply must seek the prior approval of the Authority. Publicity material includes open publication in the Defence Supplier's publicity literature or website or through the media; displays at exhibitions in any country; lectures or symposia; scientific or technical papers, or any other occasion where members of the general public may have access to the information even if organised or sponsored by the UK Government.

41. For UK Defence Suppliers where the exhibition assets relate to multiple Delivery Teams or for Private Venture defence related classified material where there is no defined Delivery Team, the Defence Supplier shall request clearance for exhibition from the Directorate of Security and Resilience. See the MOD Exhibition Guidance on the following website for further information:

<https://www.gov.uk/government/publications/private-venture-pv-grading-and-exhibition-clearanceinformation-sheets>

Export sales/promotion

42. The MOD Form 680 (F680) security procedure enables MOD to control when, how, and if defence related classified material is released by UK Defence Suppliers to foreign entities for the purposes of promotion or sales of equipment or services. Before undertaking any targeted promotion or demonstration or entering into any contractual commitments involving the sale or release of defence equipment, information or technology classified UK OFFICIAL-SENSITIVE or above to a foreign entity, a UK Defence Supplier shall obtain F680 approval from the Export Control Joint Unit (ECJU) MOD Team. This includes assets classified UK OFFICIAL-SENSITIVE or above either developed to meet a UK MOD requirement or Private Venture (PV) equipment, as formally advised in a Security Aspects Letter (SAL) issued by the relevant Authority, or PV Security Grading issued by the MOD Directorate of Security and Resilience. Guidance regarding the F680 procedure issued by ECJU can be found at:

<https://www.gov.uk/government/publications/ministry-of-defence-form-680-procedure-guidance>

43. If a Defence Supplier has received an approval to subcontract, under an MOD Form 1686 (F1686), for development/production of parts of an equipment, that approval also permits the production of additional quantities for supply to an export customer, when the Defence Supplier has MOD Form 680 approval for supply of the complete equipment, as long as:
- a. they are identical, except for component obsolescence, to items produced under the UK programme that the approval to subcontract relates to; and
 - b. no additional OFFICIAL-SENSITIVE or above material is required to be released to the overseas Subcontractor. **Interpretation/Guidance**
44. Advice regarding the interpretation of the above requirements should be sought from the Authority.
45. Further requirements, advice and guidance for the protection of UK classified material at the level of UK OFFICIAL and UK OFFICIAL-SENSITIVE may be found in Industry Security Notices at:

<https://www.gov.uk/government/publications/industry-security-notices-isns>

Audit

46. Where considered necessary by the Authority the Defence Supplier shall provide evidence of compliance with this Security Condition and/or permit the inspection of the Defence Supplier's processes and facilities by representatives of the Defence Supplier's National/Designated Security Authorities or the Authority to ensure compliance with these requirements.
