**General Terms**

  - 1.4. The Supplier shall only use the System to respond to an invitation to participate in a procurement exercise in accordance with this User Agreement and any further rules expressed and presented in the System. In the event that there is any conflict between this User Agreement and any such further rules, then the provisions of such further rules shall take precedence over this User Agreement.

  - 2.2. The Buyer may immediately deny access to the System by the Supplier and/or one or more Supplier Users by giving notice in writing to the Supplier if any of the following events occur:

Bidders can access RFx messages by clicking on the area below:

The screenshot shows the CCS eSourcing interface for a bid titled "UK SBS Supply of new boiler...". The top navigation bar includes "My Profile", "Bids", "Messages", and "Utilities". The "Messages" tab is active, showing a notification for "RFx Messages (1)". A red box highlights this notification. Below the messages, there is a "Questionnaires (5)" section with a table of sections to be answered. Each section has a "Place Response" button. A "Submit all Draft Responses >>" button is also visible.

All received messages are in the 'Received messages' folder.

All messages sent are in the 'Sent messages' folder.

All standard system related messages are in the 'Broadcast messages' folder.

It is **STRONGLY** recommended that Bidders review RFx messages before commencing with responding to the questionnaires.

Later in the training we will advise how to contact the UK SBS Category Manager for your procurement if you need to raise any clarifications or have any questions.

## 6. ANSWERING QUESTIONNAIRES

In order to answer a questionnaire Bidders need to click on the 'place response' button.

This screenshot is similar to the one above, but with a red box highlighting the "Place Response" button for the first questionnaire section. The button is labeled "Place Response" and "Place Create Response".

## Create Response

**Context**

RFI Name: UK SBS Supply of new boiler FM120051  
Questionnaire Name: SECTION 6 - LEAD  
TIME  
Questionnaire Description:

**Create Response(s)**

\*AW7.1 Please confirm you can meet a delivery date of 13/12/13.

Bidder Guidance - The Bidder shall answer yes or no.

Yes - Pass  
No - Fail

Scoring Criteria - Mandatory Pass/Fail

Please Select

\*AW7.2 Please provide details of the make and model of the proposed boiler.

Bidder Guidance - Please complete the table and add an attachment as an URL link detailing the specification.

Scoring Criteria - For Information Only

	Response
Make of boiler	
Model of boiler	

\*AW7.3 Please confirm you can improve on the delivery date of 13/12/13

Typically the questions will detail:

- The question number – these are NOT sequential so do not think there are questions missing.
- The question detail
- Bidder guidance – This usually advises if attachments are permissible, word count details, guidance to help with the bid response and any specific information about the evaluation model proposed. Where a question is pass or fail typically Bidders will see the criteria for a pass or a fail.
- Scoring criteria – This indicates if the question is pass / fail, scoring (and the maximum score available) or for information only.

**ALL REQUIRED (\*) QUESTIONS WILL NEED TO HAVE SOME TEXT ENTERED IN ORDER TO SAVE YOUR ANSWERS.**

Click on the various drop down boxes and complete the various text boxes to reply.

Where an attachment is permissible click on the question level  icon and you will see a pop up screen like this. Click on 'add' to add an attachment and then go to the bottom of the page and 'save'. After saving the question level  icon will show the number of attachments uploaded against the specific question.

Bidders can add an attachment by clicking on browse and finding their file on their local PC or shared drive. They can change the name presented to UK SBS. It is **STRONGLY** recommended the Name commences with the question reference (e.g. AW5.2) to ensure we can effectively cross refer answers.

When you have completed a questionnaire and added all the relevant attachments you **MUST** click on the 'save' button.

After saving the question level  icon will show the number of attachments uploaded against each specific question. Bidders must check their attachments have been correctly uploaded and embedded in the questionnaire response.

You will then see a message which says 'changes saved successfully' at the top of the page.

The screenshot shows a web browser window titled "Crown Commercial Service eSourcing - Windows Internet Explorer provided by ITC". The URL is "https://ukgps-sandbox.emptoris.com/e1/detail\_response.jsp?\_eps=Y8jspAction=68\_r\_id=17138508\_bid\_r\_param=true". The page displays a questionnaire form with three questions. Each question has a "Question Level" indicator with a pencil icon and a "(0)" next to it. The first question is "AW7.2 Please provide details of the make and model of the proposed boiler." and has a table for the response. The second question is "AW7.3 Please confirm you can improve on the delivery date of 13/12/13." and has a date selection dropdown. The "Save" button is highlighted with a red box.

	Response
Make of boiler	Baxi
Model of boiler	123

The screenshot shows the same web browser window. A red box highlights a message that says "Changes Saved Successfully." at the top of the page. Below the message, the "Create Response" button is visible. The questionnaire form is partially visible below the message.

If Bidders do not fill in the entire form you will receive a message which says:

The screenshot shows a "Message from webpage" dialog box with a blue title bar and a red close button. The message text reads: "There are one or more required fields on this form. Please fill in any field that has a red (\*) next to it." Below the message is an "OK" button.

Bidders should find the missing field and provide an answer otherwise all the answers will not be saved.

When complete save and close the questionnaire.

On the questionnaires page you will see the 'Respond' field has now gone green, but answers can still be modified until you submit the draft responses.

The screenshot shows the CCS eSourcing interface for an RFx titled "UK SBS Supply of new boil...". The page includes a navigation bar with "My Profile", "Bids", "Messages", and "Utilities". A "Submit all Draft Responses >>" button is visible. The main content area displays a table of questionnaires with columns for "Questionnaire / Question", "Respond", and "View History". The "Respond" column contains buttons labeled "Revise Response" or "Place Response". The "Place Response" button for the "SECTION 6 - QUALITY QUESTIONNAIRE" is highlighted with a red box.

Questionnaire / Question	Respond	View History
SECTION 1, 2, 3, 5 and 7 - Guidance Notes	Revise Response	View History (1)

SECTION 6 - PRICE QUESTIONNAIRE	Revise Response	View History (1)
SECTION 6 - QUALITY QUESTIONNAIRE	Place Response	View History (1)
SECTION 6 - LEAD TIME	Revise Response	View History (1)

Once all questionnaires are completed you can submit them.

## 7. RAISING CLARIFICATIONS

Clarifications can be raised easily in two ways, irrespective of the approach taken it is **crucial** that Bidders cross reference their clarification to the relevant question number.

Bidders can view the question in the sent messages.

They can also filter against all questions, last 30 days, 10 days or last day

Alternatively Bidders can raise clarifications through RFX messages:

In RFX messages the process is similar to the questionnaire clarifications. Click on 'create' to send a new message.

Bidders can upload their clarifications, remembering to send to 'All hosts' and including the question number (if relevant) in the subject.

In this example it is a general clarification and not associated to a specific question.

Remember Bidders can add attachments and must always 'send' the clarification.

The clarification can now be viewed in the sent messages folder.

Note the previous clarification raised at questionnaire level is also available to view.

The filtering of messages against 1, 10, 30 days or all is still available in this view.
