**SCHEDULE FOUR****Schedule 4 Processing, Personal Data and Data Subjects**

The Contractor shall comply with any further written instructions with respect to processing by the Department.

Any such further instructions shall be incorporated into this Schedule.

Description	Details
Subject matter of the processing	Analysis of secondary data on FE teachers and other occupations from the Labour Force Survey (LFS), Staff Individualised Record (SIR) and Annual Survey of Hours and Earnings (ASHE). The purpose is to identify occupations which are comparable to FE teaching (FE Teacher Comparators).
Duration of the processing	A final report is expected to be delivered on 8 <sup>th</sup> August, but the analysis should be completed by 19 <sup>th</sup> June, so that the results can be presented in a Headline findings workshop.
Nature and purposes of the processing	<p>The purpose of processing LFS, SIR and ASHE data is to provide the Department with high quality analysis about how roles in Further Education (FE) teaching may compare to other roles (that FE teachers would likely do) in industry in terms of skills, qualifications, experience, pay and conditions. Investigation is also needed into what roles in industry attract similar levels of pay to FE teaching and how they compare in terms of the skills, qualifications and experience expected for that salary. This work will help the department identify what other roles and sectors/industries may be comparable, and where disparities (e.g. on pay) may exist.</p> <p>LFS, SIRS and ASHE are pre-existing data sets, which Frontier (LFS and SIRS) and the Department have access to. The nature of processing will not involve changing or altering the datasets, but only analysing the datasets and bringing the analysis of the different datasets together to respond to the research purpose outlined in the paragraph above. Therefore, the aspects of the 'nature of processing' which apply are storage, dissemination or otherwise making available and erasure and destruction of data. These are addressed below.</p> <p>Frontier Economics will be conducting quantitative analysis on SIR and LFS and it will be supporting DfE in analysing the ASHE data, without accessing these directly. The DfE will provide Frontier with analysis of the ASHE data, this analysis will meet disclosure protocols around sharing such analysis i.e. no individual can be identified.</p> <p>All data storage will be in line with the standards set out in the contract. The SIR and LFS data will be stored on a secure drive and processed to generate descriptive statistics and conduct</p>
