DRAWING NOTES

1. All utility lines shown have been identified from a ground penetrating radar (GPR) survey conducted on 17/02/2017. The GPR survey was conducted in accordance with the standards set out in the 'Guidance for the use of GPR in the investigation of buried utilities and structures' published by the Institution of Civil Engineers (ICE) in 2010. The GPR survey was conducted by Cambridge Van Letten (CVL) and the results are shown on this drawing. The GPR survey was conducted in accordance with the standards set out in the 'Guidance for the use of GPR in the investigation of buried utilities and structures' published by the Institution of Civil Engineers (ICE) in 2010. The GPR survey was conducted by Cambridge Van Letten (CVL) and the results are shown on this drawing.

2. The GPR survey was conducted in accordance with the standards set out in the 'Guidance for the use of GPR in the investigation of buried utilities and structures' published by the Institution of Civil Engineers (ICE) in 2010. The GPR survey was conducted by Cambridge Van Letten (CVL) and the results are shown on this drawing.

3. The GPR survey was conducted in accordance with the standards set out in the 'Guidance for the use of GPR in the investigation of buried utilities and structures' published by the Institution of Civil Engineers (ICE) in 2010. The GPR survey was conducted by Cambridge Van Letten (CVL) and the results are shown on this drawing.

4. The GPR survey was conducted in accordance with the standards set out in the 'Guidance for the use of GPR in the investigation of buried utilities and structures' published by the Institution of Civil Engineers (ICE) in 2010. The GPR survey was conducted by Cambridge Van Letten (CVL) and the results are shown on this drawing.

5. The GPR survey was conducted in accordance with the standards set out in the 'Guidance for the use of GPR in the investigation of buried utilities and structures' published by the Institution of Civil Engineers (ICE) in 2010. The GPR survey was conducted by Cambridge Van Letten (CVL) and the results are shown on this drawing.
