- 30.1.2 The Contractor must use the Funding solely for the purpose of delivering the Services as set out in this Contract.
- 30.1.3 The Contractor will comply with the Funding Rules published by the Department as amended from time to time.
- 30.1.4 The Department reserves the right to impose additional Contract obligations where it considers it is necessary to do so to secure

the delivery of education and training of a reasonable quality by the Contractor, or to ensure that the resources provided by the Department are being used effectively and efficiently or to require the Contractor to address concerns about its financial viability.

- 30.1.5 The payment of Funding by the Department will be without prejudice to any claims or rights, which the Department may have against the Contractor and will not constitute any admission by the Department as to the performance by the Contractor of its obligations under this Contract. Prior to any such payment of Funding, the Department shall be entitled to make deductions or deferments in respect of any disputes or claims whatsoever with or against the Contractor, arising from this Contract or any other agreement between the Contractor and the Department.

- 30.1.8 Without prejudice to any other provisions in this Contract, such amounts as are identified as being recoverable under Clause 30.1.7, may be recovered by making adjustments to data submitted by the Contractor under the Contract, or by raising an invoice for payment by the Contractor, or by making deductions from future payments due to the Contractor under the Contract. Failure to settle such amounts by the Contractor will constitute a Serious Breach under Clause 39 (Minor and Serious Breach) of this Contract. The decision of the Department as to the amount of recovery under this Clause is final.
- 30.1.9 Where the Department, in accordance with Clause 30.1.7, identifies errors it may at its discretion review the controls and processes to gain assurance the errors will not occur again. Where further assurance work is required this will be at the Contractor's cost (or the Department will procure and recharge to the Contractor at its sole discretion). Where a full funding audit results in a "qualified" rating this will constitute a Minor Breach.
- 30.1.10 All payments by the Department will be made via BACS. **Tax**

38.2 The Contractor's attention is drawn to the criminal offences created by the Bribery Act 2010. Any offence by the Contractor or its employees or by anyone acting on its behalf under the Bribery Act 2010 in relation to this Contract or any contract with the Department or Her Majesty's Government will entitle the Department to terminate the Contract and recover from the Contractor the amount of any loss resulting from such termination and/or to recover from the Contractor the amount of value of any gift, consideration or commission.

38.3 The Contractor will not enter into any contract with any political or religious organisation using any funding provided by the Department under this Contract if the effect of that contract would be to promote a particular political or religious point of view.

38.4 The Contractor will not hold itself out as acting on behalf of the Department without the Department's permission.

PART 8: TERMINATION AND EXIT MANAGEMENT

39 MINOR AND SERIOUS BREACH

39.1 For the avoidance of doubt:

- (a) This Clause 39 is subject at all times to the provision of Clause 40 (Termination) below;
- (b) neither Party will be liable for any Minor Breach or Serious Breach under this clause, which occurs as a direct result of any act or omission by the other Party, its staff or agents;
- (c) in the event of a breach the Party not in breach may enforce the clauses in the Contract relating to breach even if it has not done so in the event of earlier breaches.

Minor Breach

39.2 Without prejudice to any other remedy, in the event of a Minor Breach, the Parties will adopt the following procedure:

39.2.1 The Party not in breach will be entitled to serve written notice on the Party in breach, giving full details of the breach and requiring the other Party to remedy the breach within a specified period. In addition, where the Contractor is in breach, the Department may require the Contractor to suspend the recruitment of Learners, and/or may cap any growth while the breach is being remedied.

39.2.2 If the Party in breach fails to remedy the Minor Breach within the time specified in a notice served under Clause 39.2.1 or such other period as may be agreed between the Parties it will constitute a Serious Breach by the Party in breach.

Serious Breach

39.3 Without prejudice to any other remedy, in the event of a Serious Breach, which is capable of remedy, the Parties will adopt the following procedure:

39.3.1 The Party not in breach will be entitled to serve written notice on the other Party giving full details of the breach and requiring the Party in breach to remedy the breach within a specified time period. In addition, where the Contractor is in breach, the Department may require the Contractor to suspend the recruitment of Learners, and/or may cap any growth while the breach is being remedied.

39.3.2 Where the Department has served a notice under Clause 39.3.1 the Department has the right to require the Contractor to suspend the recruitment of Learners and/or to suspend payments to the Contractor until the Department has confirmed that the breach has been remedied.

39.3.3 In the event that a Serious Breach of the Contract by the Contractor cannot be remedied within the period specified in the notice served under Clause 39.3.1 or such other period as may be agreed between the Parties the Department may cease funding the Contractor in respect of that part of the Service to which the Serious Breach relates.

39.3.4 In the event that any Serious Breach cannot be remedied at all or within the period specified in the notice served in accordance with Clause 39.3.1 or such other period as may be agreed between the Parties, the Party not in breach may at its sole discretion terminate

the Contract or that part of the Service to which the breach relates with immediate effect on notice in writing to the other Party.

- 40.6 This Contract will be voidable where, following an evaluation of the last three (3) years' Data Submissions relating to any other contract with the Department, the Department concludes that the Contractor was in Serious Breach of that contract or contracts and if the Department had known at the time of awarding and/or entering into this Contract that the Contractor had committed a Serious Breach, it would not have awarded and/or entered into this Contract.

In addition, the Contractor shall not recruit Learners from another contractor that has been issued with a notice of termination and/or in relation to whom an Insolvency Event has occurred, without the permission of the Department.

the Contractor's Exit Plan should reflect this. The Department will not be liable for any costs prior to or after incurred by the Contractor in complying with this Clause 42.2.

42.3 Unless the Department otherwise requires, during the time between service of a notice of termination of this Contract in whole or in part and such termination taking effect, the Contractor must take all steps, which are necessary and consistent with its continuing obligations, to mitigate any losses, costs, liabilities and expenses which the Contractor may incur as a result of the termination, including to:

42.3.3 reduce labour costs by the redeployment or release of Contractor's Personnel to the extent possible in the circumstances.

If the Contractor does not fulfil its obligations in accordance with Clause 42.3, the Department will not pay any sums in excess of those which the Department would have paid had such action been taken.

Scheme Rules

Introduction

This document is for the 20 specialist private dance and drama institutions that administer the Dance and Drama Awards Scheme (DaDA). It is designed to act as a reference for institutions to provide detailed points of practice and eligibility on the DaDA scheme rules and the income assessment of application forms.

Institutions are required to undertake income assessments for new starters (for both tuition fees and living costs) and for students who are returning for their second and third year (living costs only) using the [income bands](#) for the 2020 to 2021 academic year.

This document is designed to be read in conjunction with the [Dance and Drama Awards Scheme: Guide for the 2020 to 2021 academic year](#), which provides an overview of the DaDA scheme. The guide sets out the funding rules for the Dance and Drama Awards (DaDA) scheme and forms part of institutions’ ESFA funding agreements (contract).

The document is valid for the 2020 to 2021 academic year. This guide covers the period of 1 August 2020 to 31 July 2021 and is our current advice for the funding year. We know that providers are working through exceptional circumstances due to coronavirus (COVID-19). We may publish further updates to this guide about the impact of coronavirus (COVID-19) on our guidance as these become clear.

Institutions should note that any non-DaDA related queries, for example information about Advance Learner Loans, enquiries should be directed to the Education and Skills Funding Agency’s (ESFA’s) enquiry service email address:

enquiries.ESFA@education.gov.uk. They should **not** be sent to the DaDA team.

Student eligibility

1. Residency

1.1 Age

To be eligible to receive DaDA funding in the 2020 to 2021 academic year, students must be aged between 16 and 23 at the start of the academic year to apply for a dance course and aged between 18 and 23 at the start of the academic year to apply for an acting course.

1.2 Residency criteria

Full details of the residency criteria can be found on pages 25 to 29.

Institutions should check to ensure that the student is likely to fulfil the residency criteria for the duration of the course to be eligible for DaDA funding.

2. Valid Provision

2.1 Qualification

The DaDA scheme is intended to help enable students to achieve the vocational Trinity College London (TCL) Level 5 and 6 diplomas.

Only students enrolled on the Trinity College London (TCL) Level 5 and 6 Professional Diplomas in Dance, Acting and Musical Theatre are eligible for DaDA funding. Students must be studying one of these TCL diploma courses:

- Level 6 Diploma in Professional Acting (3 years)
- Level 5 Diploma in Professional Acting (1 year)
- Level 5 Diploma in Professional Dance (Classical Ballet or Contemporary Dance) (2 years)
- Level 6 Diploma in Professional Dance (3 years)
- Level 6 Diploma in Professional Musical Theatre (3 years)

DaDA funding cannot be used to support students undertaking Higher Education (HE) degree courses at institutions or any other qualifications the institution may deliver.

If an institution offers both vocational and HE provision and a student in receipt of DaDA funding wishes to register and complete a HE degree in addition to the TCL Diploma (Levels 5 & 6), the institution must make clear to the student:

- that the funding is given to the student to enable them to complete the TCL qualification (the DaDA offer letter must state clearly which Trinity qualification the student is studying for) and that any other study is voluntary and in addition to the Trinity qualification
- which parts of the course they must complete to receive the Trinity qualification and which part for the degree
- what the extra costs are for registering on the degree course
- that any work they undertake towards completing the degree must be secondary to the work towards the TCL Diploma, which is funded by the DaDA award.

2.2 HE Student loans

DaDA students are not eligible to apply for a student loan and it is very important they understand they must not receive financial support from both the DaDA scheme and from a HE student loan. Institutions must ensure that students are aware of this and that where double funding is identified, the student will be required to return any overpayments.

Institutions who offer HE provision must ensure that students applying for DaDA support understand the correct funding stream for their course. These institutions must ensure that all DaDA supported students sign a written declaration to say that they have read and understood these rules and that they cannot, under any circumstances, be varied.

This declaration should be retained for audit purposes for 6 years by the institution's administrator.

A copy of the letter to give to students is shown in Annex 1.

Allocation and payment of DaDA funding

3. Allocations

3.1 Methodology

DaDA allocations for each academic year are calculated using data on student numbers and spend from the full last year, taking into consideration projected spend to date in the current academic year.

For the 2020 to 2021 academic year, this means ESFA has used 2018 to 2019 academic year data (last full year) and projected figures for the 2019 to 2020 academic year (current year).

Institutions that did not fully utilise their funding in the 2018 to 2019 academic year, i.e. unspent funding of 5% or more, will see an adjustment to their allocation. This will ensure that the scheme continues to provide good value for public money and supports the maximum numbers of talented students it can. In some instances institutions may see a small increase in funding if they have

consistently fully utilised their DaDA allocation, however this approach is subject to the budget available, affordability and sustainability.

4. Payments

4.1 Payment of DaDA funding

Payments of DaDA funding will be made to institutions in two instalments: approximately two-thirds (70%) will be paid in August 2020 and the remaining one-third (30%) will be paid in April 2021.

Where institutions need to amend or change their bank details, this can be updated using the digital form via the link below.

<https://www.gov.uk/guidance/provide-information-about-your-banking-andpayments-to-dfe>

4.2 Reconciliation and business cases

ESFA will reconcile any underspent funds from institutions in the 2020 to 2021 academic year.

ESFA will continue to operate the reconciliation and business case process, if this is required in the 2020 to 2021 academic year.

This means that if the October 2020 data return identifies high level underspends, we will recover funds from institutions and re-distribute them to other institutions following the submission and moderation of business cases. As the amount of funding available for redistribution is dependent on the level of underspends, ESFA can make no guarantees about additional funding at this time.

Institutions should note that underspends cannot be carried forward into future years. Where institutions hold a 'contingency' fund that is unspent at the end of the academic year this funding will be reconciled in the August payment.

Administration of DaDA Funding

5. Allocation of funding

5.1 Notification of funding

Students must be informed in writing when they are offered a Provisional and Final DaDA Award. The notification to successful students must include information about:

- the qualification the funding relates to, i.e. the TCL Level 5 or Level 6 diploma
- the length of the course and the total amount of funding the student is entitled to

- any additional funding that will be provided by the institution, i.e. from their own resources
- details of when payments will be made

Some DaDA students may be required to make a contribution towards their tuition fees. They should be informed of the amount, and the required payment date(s) in writing, by the institution once their application form has been assessed.

Following completion of the Self Declaration of Income (by the student), institutions can offer **provisional** Awards.

However, no provisional Awards should be offered **before** 1st March each year in any circumstances.

Final confirmation of eligibility can only be given after the student has completed the Dance and Drama Award Application form and the institution has completed a full income assessment.

Institutions should also refer to the Application/Assessment flowchart and the clearing process managed by The Council for Dance, Drama and Musical Theatre (CDMT).

Institutions should also note that they must not make offers of Awards to students that exceed the amount of funding allocated to the institution. They must also make clear to any students if they are to be placed on a reserve list to receive DaDA support and where they have been placed on that list.

5.2 APL students

Institutions may, in accordance with any guidance issued by the accrediting body, offer DaDA funding to a student that is of shorter duration than the full length of the course they are undertaking where a student has prior learning through experience or training, which will allow them to gain the qualification in a shorter period of time. Institutions must satisfy TCL that students have appropriate prior learning.

5.3 Flexibility in providing 'part' funding

Institutions may use discretion and flexibility in their allocated DaDA funding to provide partial funding for talented students if they have insufficient funds to provide the full amount of DaDA support (based on the student's household income).

Institutions must ensure they communicate to students and parents how they are using this flexibility so that their use of DaDA funding is clear and transparent. **Institutions must ensure that they only give out partial funding awards after all successful students applying for DaDA have been fully income assessed and the full DaDA funding process has been completed.**

The institution should inform the student of the full amount they are entitled to and make it clear that they are providing partial funding only and the amount of partial funding they are offering.

Institutions are not required to offer partial funding to students – this flexibility is for use at their discretion – and institutions may choose to continue to keep a small contingency fund instead of offering partial funding.

5.4 Re-allocation of DaDA funding if a student leaves

If a student chooses to leave their course before the end of the agreed period of his or her DaDA funding, (or if the institution withdraws DaDA funding for any reason) the institution may offer the funding to another eligible student, as they deem appropriate.

Funding should be re-allocated to another student as soon as the outgoing student has left the course i.e. either part way during a term or from the start of the following term.

Students that are offered DaDA funding as substitutes for the original student must:

- a) have reached the minimum age for DaDA funding on the TCL diploma course at the date they are selected as a substitute student
- b) have been judged to have the most potential to succeed in the profession at audition

The institution must keep a record of the start and end dates of study for the original student and the date that he or she was replaced by the substitute student for MI, reconciliation and audit purposes.

Where DaDA funding is transferred to another eligible student, the Budget Monitoring spreadsheet should be kept up-to-date accordingly, for example to record the amount of funding the incoming student will receive. The incoming student will only be allowed to apply for living costs support from the DaDA institution from the beginning of the next academic term.

5.5 Second DaDA 'Awards'

Students can only receive support from DaDA funding once. However they **may** be eligible to apply for a second funding award if:

- a) they were prevented from completing the course for which they were selected due to circumstances outside their control, i.e. such as illness or injury; or
- b) it becomes apparent that after having been selected for one course e.g. a ballet course, a different course would be more beneficial to their continued development i.e. a musical theatre course.

In this case, the transfer would normally be expected to take place **in the first year of training**. Students may not transfer from their existing

institution to a new institution and remain/start on the same course and qualification.

For students to be offered a second DaDA funding award, institutions must ensure they adhere to the points below:

- the second award of DaDA funding must not be for a period which would provide more than **four** academic years in total of training with DaDA support
- any second award of DaDA funding that is approved and offered to students to re-start a course in the 2020 to 2021 academic year must come from the institution's allocation. No additional funding is available from ESFA and DaDA support does not transfer with students if they move to an another institution
- appropriate evidence should be retained by the institution to support any second funding awards made for audit purposes, e.g. medical documents
- a student should not normally be considered for a second award of DaDA funding if they have already completed a course with DaDA support, or have had DaDA support withdrawn from them

If institutions have any doubt about the appropriateness of making a second award of funding they should contact Emma Kershaw at ESFA for advice.

5.6 Withdrawal of DaDA funding

Students in receipt of DaDA funding are expected to make appropriate progress in their training, and to abide by the rules of their institution at all times.

Where students fail to meet these conditions, the institution may, after having discussed the situation with the student (verbal warning) and after issuing a formal written warning, withdraw DaDA support from them. However, students should be given the right to appeal the decision.

Where an institution does withdraw DaDA funding, they may re-allocate that funding to another student.

5.7 Unpaid contribution towards the tuition fees

If a student does not pay their contribution to fees in accordance with the institution's normal terms and conditions, the institution may expel them. In such cases, DaDA funding can be re-allocated to the next student on the talent list and monitored through the budget management sheet in the normal way. Institutions may wish to seek to recover any payments owed to them from the student.

5.8 Student charges

Audition Fees

One of the key criteria for DaDA funding is that it is intended to support the most talented students, identified as such, at audition. A high audition fee may prevent students from applying for courses and/or for DaDA support.

However, recognising that institutions do need to charge an audition fee in order to prevent large numbers of abortive applications, they are permitted to charge students an audition fee up to a maximum of £45 in the 2020 to 2021 academic year.

Registration Fees

Registration fees could act as a barrier to students from low-income families.

As a condition of DaDA funding, students who apply for DaDA support must not be charged a registration fee. Neither should institutions **charge** potential DaDA students to hold a place.

Miscellaneous

Institutions are not permitted to make extra charges to DaDA students for tuition and other expenses related to their course.

Payment of student contribution in lieu of notice

Where students leave without giving the appropriate period of notice required by the institution's rules, the following conditions determine whether institutions can claim fees in lieu of notice:

- if the institution can fill the place on the course then no claim for fees can be made
- if the institution is unable to fill the place, the institution may claim the student contribution directly from the student in the first instance. If no payment is received from the student, the institution may take the amount from their DaDA allocation for the remainder of the term in which the student left. This claim should be recorded on the Budget Management spreadsheet for audit purposes

5.9 Applying for help with living costs (maintenance)

Students can only apply for extra help with their living costs (maintenance) if they are ordinarily resident (i.e. a permanent United Kingdom (UK) citizen) in England, Scotland, Wales or Northern Ireland at the beginning of the academic year, and have been ordinarily resident for the last three years.

Where any part of the three-year period of residence has been wholly or mainly for the purpose of receiving full-time education, eligibility is limited to those who were ordinarily resident in the European Economic Area (EEA) immediately prior to that three-year period.

Students who are European Union (EU) citizens and resident in the UK under the EU laws relating to free movement rights are **not** eligible to apply for and receive living costs funding from the DaDA scheme.

Students living in other countries in the EU should be advised to contact their home country to find out what extra help is available to them.

5.10 Late DaDA applications

Applications for DaDA funding can only be backdated to the beginning of the term in which the application is received, provided the application is received in the correct academic year. If a student sends in an application form in Term 2 or 3 it should only be backdated to the beginning of Term 2 or 3 and not the beginning of the academic year. This applies to both tuition fees and any living costs payments.

5.11 Applications from students for the previous academic year

Institutions should not accept applications from a previous academic year once a new academic year has begun. Applications must be submitted and assessed in the academic year they relate to.

Only in very exceptional circumstances can a previous year's application be assessed in a new academic year. Once an institution's academic year has ended (in either July or August), no further fees and living costs applications should be assessed.

5.12 Disabled Students Allowance

Disabled Students Allowance (DSA) can provide support for the extra costs a student may incur as a direct result of a disability, mental health condition or specific learning difficulty. DSA does not cover disability-related costs a student may have if they were not attending a course, or costs that any student might have.

DSA will continue to be available in the 2020 to 2021 academic year. The rules remain the same and to apply for DSA, students must have been assessed as eligible for DaDA support (fees only or fees and living costs).

ESFA will assess all DSA applications from students.

Institutions are responsible for making payments:

- to all suppliers
- to Assessment Centres
- for the purchase of specialist equipment
- for study skills support for students
- for general allowances

Institutions are required to communicate the type and amount of DSA support that has been agreed to students and to maintain records of expenditure for each student to ensure that the agreed maximum amounts are not exceeded.

Where an institution reported historical DSA expenditure in the previous year, an additional amount of funding has been added to the DaDA allocation for the new academic year to accommodate this. The amount of any DSA funding was set out in the allocations letter (sent February 2020). Institutions should ensure this funding is only used for DSA purposes, it cannot be added to the main DaDA allocation for fees or living costs.

DSA application forms for the new academic year will be available from autumn 2020. ESFA will send them to DaDA institutions to distribute to eligible students.

Institutions must ensure students understand they must **not** arrange any DSA related support until the ESFA has assessed and approved their application. All students must have a completed Assessment of Needs report before confirmation of any support can be made.

Any DSA invoices that are received by the DaDA institution **prior** to approval and written confirmation being sent to the student should not be paid and should be returned to the student.

5.13 Benefits

The Department for Work and Pensions (DWP) has advised that only students who claim benefits in their own right may be affected by receipt of DaDA funding i.e. receipt of living costs support from DaDA may affect their entitlement to benefits.

If it is clear on the full DaDA application form that a student is in receipt of benefits in their own right, the institution should make them aware of this.

Students should seek advice from their DWP benefit office to establish if being in receipt of DaDA living costs support payments may affect any of their benefits.

Students enrolled on the TCL Level 5 and 6 diplomas are not eligible to receive housing benefit. DWP's Housing Benefit Regulations definition of higher education includes education at a higher level (defined as higher than Level 3) – the TCL diplomas are at Levels 5 and 6.

Income Assessment

6. Applications

6.1 Application process

Institutions assess the amount of financial support a student is entitled to based on nationally set income bands. Household income is used to determine the level of financial support for both fees and living costs (maintenance).

Institutions will normally use the income assessment undertaken at the beginning of the students' first academic year on the TCL diploma course to set

the amount of tuition fee support for the whole of their course. However, an income assessment must be undertaken each year to establish the amount of living costs support the student is entitled to receive

Institutions are required to undertake income assessments for new starters (for both tuition fees and living costs) and for students who are returning for their second and third year (for living costs only) using the [income bands](#) for the 2020 to 2021 academic year.

Where information provided by returning students shows a change in their circumstances that has significantly increased or decreased their household income, institutions may wish to use their discretion to reassess them for tuition fees.

[The DaDA Application & Assessment flowchart](#) at Annex 2 sets out in broad terms how ESFA envisages the application process works. The flowchart is for indicative purposes only and ESFA recognises that individual institutions' processes may vary in some measure from that process.

Institutions are reminded that CDMT will continue to manage the clearing process for the 2020 to 2021 academic year.

6.2 In-year reassessment (death and disability only)

In-year reassessments of income should **only** be considered in cases where death or disability of the responsible adult or partner occurs or where a student becomes estranged from their family. As such, the number of in-year reassessments is expected to be relatively small. **ESFA should be notified prior to the reassessment being carried out.**

If a dependant student becomes independent part way through their course a reassessment of their new status may be carried out. However, the student must be able to provide evidence that they meet one of the independent criteria set out in the table on pages 31 and 32.

In-year reassessments due to medical conditions covered by the Equality Act 2010 will continue to be undertaken by the DaDA institution.

In the event of a request for reassessment on medical grounds being made, the institution should email emma.kershaw@education.gov.uk in the first instance for details of the reassessment process.

General information on the Equality Act 2010 is given in Annex 3.

6.3 End of year reassessment

Institutions have the flexibility/discretion to reassess (for tuition fees only) at the end of an academic year (**not in-year**) where there has been a significant change of circumstances.

A significant change is a long-term change that will impact on the student's circumstances going forward and/or changes that occurred for the whole of the previous academic year.

Changes include both those that significantly decrease household income and changes that significantly increase household income. Examples include divorce or relationship breakdown, changes in employment, marriage or cohabitation.

Students and parents have a responsibility to report significant changes in their circumstances that may impact on the amount of DaDA funding they are eligible to receive.

We recommend that institutions **do not** reassess for instances of a parent being made redundant, as this is usually a temporary/short-term situation.

However, this may be taken into consideration if the redundancy was for a long enough period of time to affect income in the previous tax year.

ESFA has been made aware of some instances where change of circumstances reassessments have taken place in-year (rather than at the end of the academic year) and would like to remind institutions that this is not in line with DaDA administrative rules.

6.4 Budget Management tool for the 2020 to 2021 academic year

The Budget Management tool is an Excel spreadsheet that has been developed to assist institutions in managing their DaDA funding.

In the 2020 to 2021 academic year, the Budget Management spreadsheet should be used to monitor those students who start a course in September 2020 and students who are returning for a second or third year of study. A copy of the updated spreadsheet was sent to institutions in March 2020.

Guidance on how to use the spreadsheet is incorporated within it. Institutions may need to develop their own additional systems for monitoring their budget - the Budget Management spreadsheet may not cover every eventuality.

Institutions should not exceed the amount of DaDA funding they are allocated by ESFA. However, some institutions may wish to provide additional support to students from other resources they may have and should record this outside of the Budget Management tool.

6.5 Complaints and Appeals Process

All complaints from students or parents about DaDA must be made in writing.

Complaints should be dealt with in the following way:

- If the complaint/appeal concerns an institution's operational processes, the institution should deal with the case in the first instance according to their own operational complaints/appeals procedure.

Only when an institution's complaints procedure has been fully exhausted (including an appeal) should the complaint be forwarded to ESFA.

- If the complaint/appeal concerns DaDA policy, it must be referred to ESFA in the first instance.

The complaint can be sent to the following email address enquiries.ESFA@education.gov.uk

6.6 Fraud and whistleblowing

If it is identified or alleged that fraudulent details have been supplied on either the Self Declaration of Income form or the main DaDA income assessment application form, it is the responsibility of the institution to investigate and, if necessary, to take recovery action for any overpayments made.

ESFA take all concerns relating to financial irregularity or impropriety seriously and will instigate an investigation where it considers that concerns have been raised in good faith and there is sufficient evidence to warrant it.

Institutions may wish to refer to the GOV.UK website for useful information about concerns of financial irregularity or impropriety and whistleblowing.

<https://www.gov.uk/government/organisations/department-foreducation/about/complaints-procedure>

Communications, Governance and Monitoring

7. Communications

7.1 Websites

Institutions are expected to display information about the DaDA scheme on their websites. Content should include information to set out what the scheme is; how to apply for funding; and the level of funding a student may be eligible to receive. Institutions are expected to keep this information up to date to ensure it provides accurate information for students and parents.

8. Governance and monitoring

8.1 Office for Standards in Education (Ofsted) inspections

Institutions will be subject to governance and audit regimes, which include the requirement for Ofsted inspections and the publication of inspection reports.

They must also permit any person authorised by the Office for Standards in Education (Ofsted) to inspect the institution and afford to such person all the facilities they may reasonably require for making such an inspection as and when required in line with Ofsted powers of entry and access to documents and its Common Inspection Framework, in accordance with section 131 and 132 of the Education and Inspections Act 2006.

Only institutions whose provision is assessed as Outstanding (Grade 1) or Good (Grade 2) at Ofsted inspection will be eligible to offer DaDA funding. The ESFA will cease to fund current institutions if they do not maintain their levels of quality unless there are exceptional circumstances.

Ofsted inspections are undertaken in line with the Common Inspection Framework and other guidance current at that time. The [Education Inspection Framework](#) and the [handbook for inspections](#) can be viewed on the GOV.UK website. All inspection reports are published.

Institutions should ensure they are fulfilling their responsibilities for safeguarding all learners and also ensure they are aware of the Government's Prevent Strategy about safeguarding young people from extremism and radicalisation: [the prevent strategy](#).

8.2 Contracted Services

By entering into a contractual relationship with ESFA for DaDA funding, the institution is agreeing to deliver learning to the level of funding detailed in the Schedule 2 of the Contract for Services. For the avoidance of doubt the overall maximum values for the Learning Programme in the Payment Schedule may not be exceeded. If an institution exceeds the maximum Contract value, ESFA is under no obligation to provide any additional funding.

Where ESFA identifies that an institution is failing to deliver learning to the level of funding for the Learning Programme set out in the Schedule 2 of the Contract for Services, it reserves the right in its absolute discretion to reduce the overall maximum value for the Learning Programme.

8.3 Management Information (MI)

Institutions must have administrative procedures in place, which record the following:

- numbers of applications received and offers of places
- numbers of students auditioning for DaDA funding and places
- numbers of students offered DaDA funding
- numbers of students accepting DaDA funding
- course and qualification for which DaDA support has been given
- numbers of students in each of the living arrangements/income bands
- total spend for fees
- total spend for living costs
- total spend for admin costs
- student diversity (age, gender, disability and ethnicity)
- numbers of early leavers and substitutions
- completion rates of students awarded the TCL diploma
- completion rates of students not awarded the TCL diploma
- graduate destination data
- total number of students from England, Scotland, Wales, Northern Ireland and the EU.

Institutions will be expected to submit an in-year MI return in October 2020 and an end of year return in **June** 2021 for the 2020 to 2021 academic year.

To enable financial reconciliation to be undertaken in December 2020 and at the end of each academic year, institutions will be asked to submit details of actual total spend of DaDA funding when submitting their MI return.

8.4 Financial Information - Audit

The ESFA's Provider Risk and Assurance team (PRA) is responsible for providing assurance on DaDA institutions' internal controls and use of funds. All DaDA institutions that ESFA contracts with are subject to audit work on a risk assessment basis carried out by PRA auditors. A sample of DaDA institutions will be selected for audit each academic year.

For DaDA institutions, the audit work undertaken will normally involve a risk assessment of institutions' control systems for administering the programme and an element of detailed transaction testing.

Audit testing is normally carried out on a sample basis and ESFA may recover funds found to be in error, calculated on an actual or extrapolated basis.

This work will be carried out by PRA auditors who will visit the institution for one or two days on a cyclical basis. Where audit work identifies significant findings, more frequent visits may be made to support institutions in improving their control systems and to ensure that funding is used for the purposes for which it is given.

Institutions should have administrative procedures that record DaDA applications and the award of funding. These records should comprise a fully and accurately completed application form, including a residency selfdeclaration, copies of any evidence requested for the purposes of determining eligibility, a budget management spreadsheet or equivalent, details of the household income assessment and funding awarded, any relevant lodgings

evidence, and evidence of independent status if the student has been assessed as such.

For audit purposes, hard or scanned copies of all documentation should be kept for a period of **six** years in a safe and secure manner that meets Data Protection requirements. This documentation should include evidence of the application process, documents relating to how the student was assessed (including copies of any evidence presented for the purpose of determining eligibility and household income, and a **fully** completed application form) and the funds issued.

PRA auditors will also be carrying out checks to ensure that DaDA funding has been given to a student based on talent.

8.5 Financial Information - Financial Health Assessments

ESFA is required to carry out financial health assessments (FHA) of all of its institutions and this is a routine aspect of the contracting process. FHA are carried out by PRA auditors who will assess DaDA institutions' latest full (i.e. not abbreviated) annual financial statements.

Institutions will be expected to submit their latest returns to the ESFA in autumn 2020

Further details of the FHA will be sent out separately in summer 2020.

8.6 Equal Opportunities

Institutions will, in delivering provision under the DaDA scheme, demonstrate that they have had regard to the duties placed on the ESFA by The Equality Act 2010 (under Schedule 19). Legislation, regulation and policy provide a framework within which ESFA will strive to promote equality of opportunity for all students, irrespective of their age, race, gender, religion or belief, sexual orientation, disability including physical or learning abilities.

The delivery of provision should comply with the principles set out in the Equality Act 2010.

Institutions must take account of equality of opportunity across all aspects of their provision. ESFA expects that policies for equality of opportunity are in place and published in appropriate formats, available to both staff and students. Additionally, statements summarising these policies should be made available in all promotional marketing materials.

ESFA funded institutions are required to maintain records of student diversity including age, gender, disability and ethnicity. This information should be made available to ESFA or its agents upon request, in particular through ESFA's yearly MI collection. ESFA expects that institutions will analyse this data in respect of participation, retention and achievement.

Where there are areas of concern, institutions should take steps to address these, by setting up and monitoring performance.

8.7 Data protection

The Data Protection Act 2018 (DPA 2018) which incorporates the General Data Protection Regulation (GDPR) applies to all institutions which deal with students' applications for funding as the information is classed as sensitive personal data. The DaDA institutions will become Data Controllers and will therefore need to be registered with the Information Commissioner's Office (ICO) – further information can be found on the website - <https://ico.org.uk/>

The ICO provides guidance on GDPR - <https://ico.org.uk/for-organisations/guide-to-data-protection/guide-to-the-general-data-protectionregulation-gdpr/>

In this respect, institutions are responsible for ensuring that they comply with the DPA 2018. Data protection information can be found on the UK Legislation website - <http://www.legislation.gov.uk/ukpga/2018/12/contents/enacted> The data protection principals can be found on the following link - <http://www.legislation.gov.uk/ukpga/2018/12/part/3/chapter/2/enacted>

The institution will be responsible for compliance of the DPA 2018 and GDPR when transmitting personal data. Any sensitive and personal data that is transmitted via email should be encrypted beforehand and the password sent in a separate email.

Letter for institutions to give to students taking HE and FE courses

INFORMATION FOR STUDENTS WITH DANCE AND DRAMA AWARDS

Congratulations on being offered a Dance and Drama Award, to support you with the costs of participating in your chosen course.

The purpose of Dance and Drama Awards is to help enable students to achieve the vocational Trinity College London (TCL) Level 5 and 6 diplomas. The scheme offers students help, on an income-assessed basis, with tuition fees and living costs.

Your institution also offers Higher Education (HE) degree provision. Being in receipt of Dance and Drama Award funding does not stop you from entering into any other voluntary arrangement with your institution to study for a degree in addition to your TCL diploma. Therefore, if in addition to pursuing the TCL Diploma course, you also decide to register and complete a HE degree, you may do so providing that this remains secondary to your Dance and Drama Award supported training and diploma.

However, Government funding rules mean that you must not take up your Dance and Drama Award and receive any HE support at the same time. If you do, you will be required to immediately repay any HE student support that you have received. This includes any support from the HE Disabled Students Allowance (DSA).

STUDENT DECLARATION

I have read and understood that in accepting a Dance and Drama Award, I am not eligible to apply for HE student support (including DSA) from either my local authority or from Student Finance England. If I do claim or receive HE student support, I understand that I will be required to repay the student fees and loan.

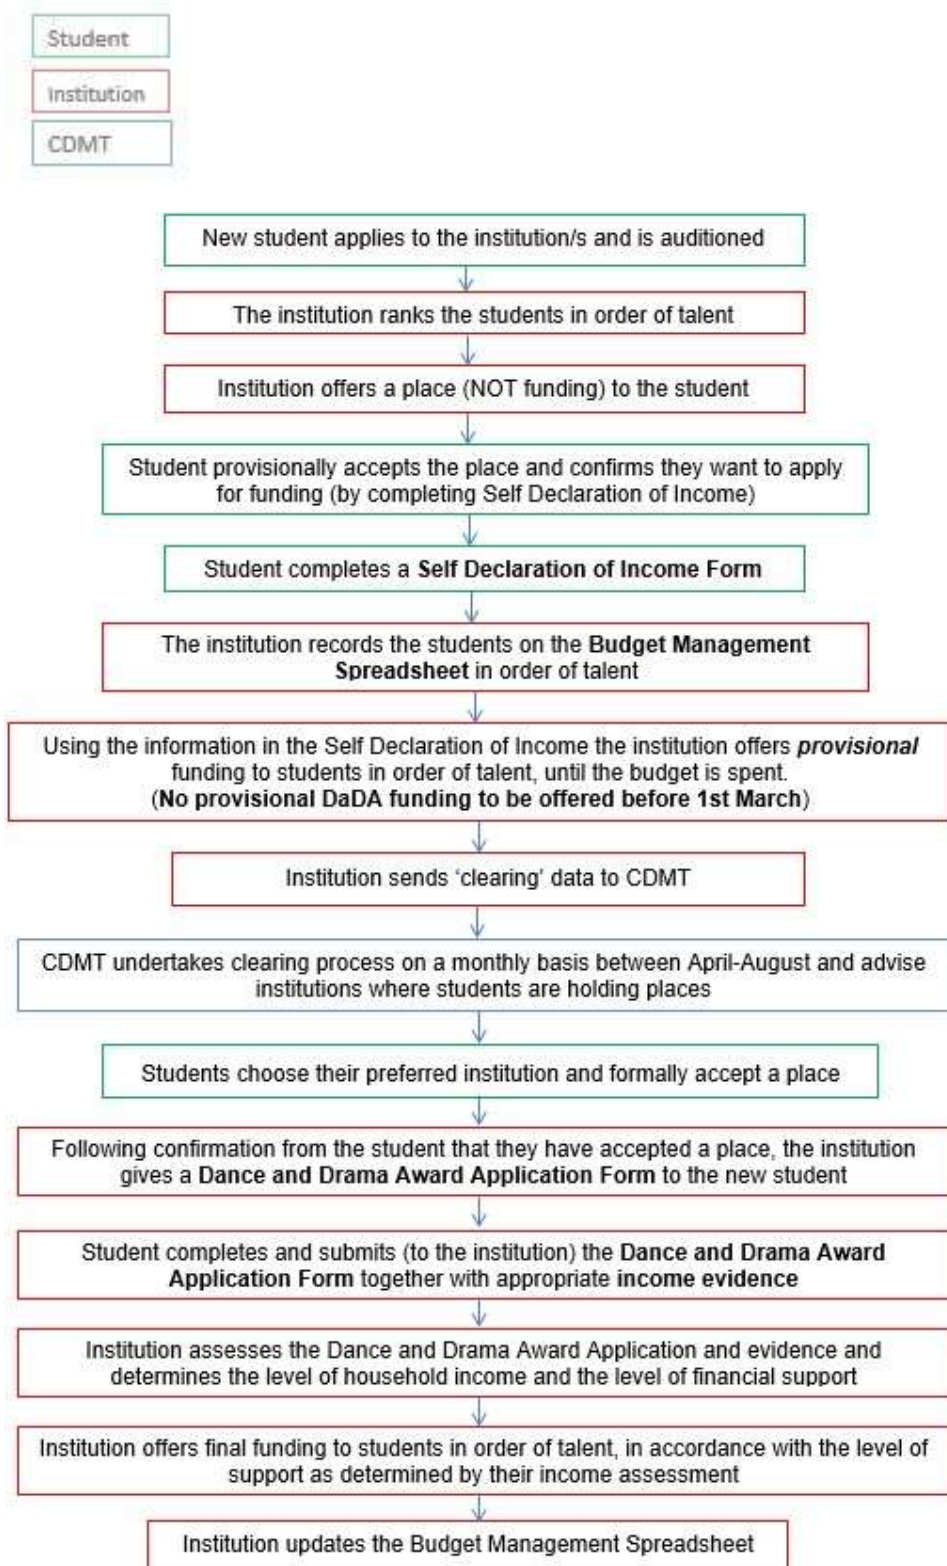

Signed: _____

Name (Block Capitals): _____

Date: _____

Please now return this declaration to your dance and drama institution. They will give you a copy and keep one for their records.

DaDA Application/Assessment Flowchart New Students only in academic year 2020 to 2021

Some basic information about the Equality Act 2010 (this has replaced the Disability Discrimination Act) which may help if you have a request about an in-year reassessment in the event of disability.

The Equality Act 2010 defines a disability as a physical or mental impairment which has a substantial and long term (that is more than 12 months) adverse effect on a person's ability to do normal daily activities.

If you would like to know more about the Equality Act and whether your medical condition is covered, then further information can be found at <https://www.equalityhumanrights.com/en/equality-act/equality-act-2010> The Act sets out the circumstances in which a person is 'disabled'. It says you are disabled if:

- you have a mental or physical impairment
- this has an adverse effect on your ability to carry out normal day-to-day activities
- the adverse effect is substantial
- the adverse effect is long-term (meaning it has lasted for 12 months, or is likely to last for more than 12 months or for the rest of your life).

There are some special provisions, for example:

- if your impairment has substantially affected your ability to carry out normal day-to-day activities, but doesn't any more, it will still be counted as having that effect if it is likely to do so again
- if you have a progressive condition and it will substantially affect your ability to carry out normal day-to-day activities in the future, you will be regarded as having an impairment which has a substantial adverse effect from the moment the condition has some effect on your ability to carry out normal day to day activities
- cancer, HIV infection and multiple sclerosis are covered effectively from the point of diagnosis
- people who have had a disability in the past but are no longer disabled are covered by certain parts of the Equality Act.

Income Assessment

Introduction

This section of the guide has been developed to aid DaDA institutions in the administrative process of assessing a student's application form for DaDA funding in the 2020 to 2021 academic year.

To be eligible to apply for DaDA funding, the student must be studying for the TCL Diploma (Level 5 or 6) in Professional Acting, Dance or Musical Theatre. No other qualifications are eligible for DaDA funding.

All applications will be assessed on a student's household income as follows:

- if they are a **Dependant Student**, the household income is their parent's income and that of any spouse or partner of their parent
- if they are an **Independent Student**, the household income is their spouse or partner's income if they have one.

Before completing the assessment, the institution must make sure that:

- all relevant questions in Section A have been fully answered
- all relevant questions in Section B have been fully answered and the appropriate household income evidence for the 2019 to 2020 tax year has been submitted
- where applicable, Section C – Benefit Income details has been completed and enclosed and the confirmation signed by the relevant benefits office
- if the term time address is different, their home address and evidence of living in lodgings has been submitted
- if they have applied as an Independent Student, the required supporting evidence has been submitted.

Assessment of the completed application form

Where an application submitted to the institution is incomplete i.e. it does not contain all the relevant income and/or the required evidence, such as proof of lodgings, the institution should request this from the student as soon as possible and should also send a reminder communication to the student requesting the outstanding information if it is not returned promptly. All forms must be signed.

Under no circumstances should the application be assessed and DaDA funding agreed until all the outstanding information has been received by the institution.

When chasing any outstanding evidence or information from students, the institution may wish to implement a deadline date. If they do, they must ensure the student is aware of this and of any consequences of not returning the information on time i.e. the application being placed on hold and therefore

unable to be assessed. The institution may also wish to issue a “final” reminder to the student.

Looked after Children by a Local Authority or in Foster Care

Where a child is looked after by foster parents and has been placed in care by the council who has retained financial responsibility for child, the income evidence required would not be the foster parents. In these circumstances, the student would be considered independent, and would be entitled to full support.

Institutions should ensure that they have written evidence from the social worker to confirm that the student is a looked after child for audit purposes and therefore does not have any parental income evidence to submit with the application form.

Where a looked after child is in foster care and the carers **do** have financial responsibility then it would be the carers' income evidence required to process the application.

Living Costs (maintenance) Assessment Rates

There are three different rates at which students can be assessed:

1. Students living at home

This is the rate for students living at home with their parents or living in their own home (including rented accommodation).

2. Students living in lodgings outside London

This is the rate for students living in lodgings where the institution is situated outside a London Borough.

3. Students living in lodgings inside London

This is the rate for students living in lodgings where the institution is situated in one of the 32 London Boroughs (listed below).

When calculating the student's living costs support, the correct rate must be applied. The Budget Monitoring tool contains a drop down box for the institution to select the appropriate rate.

The fees rate for students from the EU will depend on where they are living in lodging i.e. inside or outside of London. Students from the EU (even if resident in the UK due to freedom of movement) are not eligible to receive funding towards their living costs.

London Boroughs

Inner London*: Camden, Greenwich, Hackney, Hammersmith and Fulham, Islington, Royal Borough of Kensington and Chelsea, Lambeth, Lewisham, Southwark, Tower Hamlets, Wandsworth and Westminster.

*City of London - this is not a 'borough' - it is governed by the City of London Corporation, but is an inner London 'council'.

Outer London: Barking and Dagenham, Barnet, Bexley, Brent, Bromley,

Croydon, Ealing, Enfield, Haringey, Harrow, Havering, Hillingdon, Hounslow, Kingston-upon-Thames, Merton, Newham, Redbridge, Richmond-upon-Thames, Sutton and Waltham Forest.

Payments to students

Living costs payments should be paid directly to the student. It is recommended that the institution does not release the full amount of funding to the student at the beginning of the academic year but makes the payments on a termly basis. This will ensure that students will not receive funding that they are not entitled to. Where an institution issues high amounts of funding to a student, this payment is issued at the institution's own risk. Additional funding cannot be claimed from ESFA in the event that a student leaves prior to the end of the academic year.

It is recommended that the student should sign a declaration to confirm that they have received the living costs payment and that the institution should keep a record of this for audit purposes.

It is the responsibility of institutions to ensure that students are attending courses before payments are made. Institutions should inform students they could lose their entitlement to any fees and living costs funding if their attendance is unsatisfactory.

Recovery of Overpayments

Where any fees and living cost support funding is paid in error resulting in an overpayment, recovery action should be taken. The institution may wish to recoup the funding paid to the student or deduct the overpayment from any future payments to be made.

If the institution becomes aware that fees and living costs payments have been made incorrectly, for example because of failure to disclose information as part of the application process, recovery action should be taken.

Recovery action should also be undertaken where overpayments are made because of the student failing to notify the institution promptly of any relevant changes.

Changes of Circumstance/Details

The institution should be notified in writing where a student changes their details i.e. name, address (home or lodgings) or contact details.

Where a student moves from living at home with parents in to lodgings, then the application can be reassessed in-year, however the reassessment should only be carried out from the term after they moved into lodgings. No backdated payments can be made.

Students will need to complete a new application form to give updated details such as lodging address. If the student has supplied income details from the previous application, it is not necessary for the student to provide them again.

However, the student must provide proof of lodgings **before** any payments can be released.

Privacy Notice

This section is where a student and their parents or spouse/partners' are informed that the DaDA institution may need to talk to anyone named on the application form during the assessment process.

Because the form contains personal and sensitive data, for example name address, date of birth and financial details, the DaDA institution **must** not give out any information about a students' application or payments to anyone other than those named on the application, without their agreement.

Students are advised to read the privacy notice carefully.

Section A – Student's details

This should be completed by the student. You must ensure that all questions in this section have been answered on the application form.

A1 Name

This should contain the student's first name and surname.

A2 Date of birth

This should contain the student's date of birth.

Only students aged between 16 and 23 will be eligible for DaDA support in the 2020 to 2021 academic year.

A3 Permanent home address:

This should contain the student's full home address where they live when they are NOT studying.

A4 Contact details:

This should contain contact details for the student so that they can be contacted for further details relevant to their application if necessary.

A5 Residency

DaDA funding can only be offered to new students who meet the residency conditions.

This question must be completed.

The application form must not be assessed unless this question has been completed.

You may be required to contact the student for further evidence to prove that they meet the residency criteria for DaDA fees and living costs funding.

Students will not be eligible for DaDA funding if they are:

- an asylum seeker
- have discretionary leave to enter or remain
- have exceptional leave to enter or remain
- resident outside the EU e.g. USA, Australia, Japan
- resident in The Channel Islands (e.g. Jersey, Guernsey) or the Isle of Man.

The student should mark **one** box only to confirm their residency status.

Box A

Marked by a student who is a British Citizen and has lived in the UK for at least three years prior to the start of their course.

Box B

Marked by a student where:

- they have 'settled status' in the UK and have been ordinarily resident in the UK for at least three years prior to the start of their course. 'Settled status' means having either indefinite leave to enter or remain (ILE/R) or having the right of abode in the UK.
- they are British citizens and certain other people who have the right of abode in the UK
- they are British Overseas Territory Citizens (e.g. Falkland Islands, Bermuda)
- their passports have been endorsed to show they have Right of Abode in the UK
- they have a certificate of naturalisation or registration as a British Citizen.

Evidence of residency status

The DaDA Application Form enables students to self-declare their residency status. Should an institution have reason to suspect that the student has incorrectly declared their residency status, they should ask the student to present evidence (official) in support of their application, for example: **passport, Immigration Status Document or stamped Home Office Letter.**

EU nationals should complete box C only and not box B. Where an institution has reason to suspect that the student has incorrectly declared they have 'settled status' due to the freedom of movement, the institution should ask for clarification as EU nationals are **not** eligible to receive living costs even if they are resident in the UK.

EU students who start a DaDA funded course in the 2020 to 2021 academic year will remain eligible for DaDA support for the duration of their course (NB: this protection applies only to students whose eligibility is affected by the UK leaving the EU).

Box C

Marked by a student if they are a national of any EU country (including

Gibraltar) or the spouse or civil partner or child of an EU national, and have been ordinarily resident in the EEA or Switzerland for at least the three years prior to the start of their course.

Box D

Marked by a student if they are either:

- an EEA migrant worker with the right to work in the UK, or the spouse, civil
- partner or child of an EEA migrant worker, who is ordinarily resident in the UK at the start of the course and have been ordinarily resident in the EEA, or Switzerland, throughout the three year period prior to that
- the child of a Swiss national who is ordinarily resident in the UK at the start of the course, and have been ordinarily resident in the EEA or Switzerland for the three years prior to that
- the child of a Turkish migrant worker who has the right to work in the UK, and who is ordinarily resident in the UK at the start of the course, and have been ordinarily resident in the EEA, Switzerland or Turkey for the three year period prior to that

Box E

Marked by a student if they have been granted 'refugee status' by the UK Government, or the spouse or civil partner or child of someone with 'refugee status', or have been granted Humanitarian Protection or have EU Temporary Protection.

Box F

Marked by a student where they do not fit in to any of the categories given in A to E above. If a student has marked this box then they are not eligible for DaDA funding and you must **reject** their application for funding.

However, where a student marks more than one box, this does not make them ineligible, for example if the student does not fully understand which residency category they fit in to and as a result of this has marked more than one box.

Residency combinations

The following combinations of boxes are **eligible** therefore, the application form can be assessed. However, you may wish to ask the student to provide clarification on what their residency status actually is.

Evidence you should ask the student to present in support of their application is either a passport, Immigration Status Document or stamped Home Office Letter.

1. (A or B) + E
2. C + E
3. D + E

4. (A or B) + C + E
5. (A or B) + D + E
6. C + D + E
7. (A or B) + C + D + E

Where the following combination of boxes has been marked, the student is **ineligible** for a Dance and Drama Award.

1. F + (any combination A to E)

Temporary Absences

The three-year residency rule must be applied to all applications. However, in certain cases, temporary absences can be allowed.

Examples are given below:

- Absences totalling six months within three years are counted as temporary and disregarded for residency eligibility when determining if a student has been ordinarily resident in the UK or EEA for three years prior to the start of their course.
- Absences between six months and three years may be counted as temporary, provided the absence was always intended to be temporary and evidence is provided to support this for example details of a fixed-period working contract or continued maintenance of a family home in the UK.
- Applications from students whose family have been living overseas i.e. outside the UK or EEA for three years or more cannot be counted as a temporary absence.

Children of Military Personnel

If a student has been accompanying a parent or carer on an official overseas posting, they will be exempt from having to have been ordinarily resident in the UK or EEA for the three years prior to the start of the course.

EEA Countries

The EEA brings together the twenty-eight EU Members* and the three European Free Trade Association countries (Iceland, Liechtenstein and Norway).

The EEA countries are as follows:

Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia,

Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and the United Kingdom.

** Gibraltar is considered to be part of the EU and is therefore considered part of the EEA.*

A6 Term Time Address

The student must confirm where they will be living during term time by marking one of the three boxes on the application form, these are:

- **‘With parents’** box - if they will be continuing to live with their parent(s) during term time.
- **‘Student lodgings’** box - if they will be living away from their permanent home address in student lodgings.
- **‘Own home’** box - if they will **not** be living with parent(s) or in student lodgings but living in their own permanent or rented accommodation.

Details of the student’s term time address must be completed here if it is different from the permanent address given in question A3 even if they are not applying for living costs funding.

Where a student has ticked the box to state that they do not have a lodgings address, the institution should **ensure** that this information is provided by the student once they have confirmation of the lodgings.

If the student will be living in lodgings during term time then they must provide evidence of this by submitting a copy of the rental agreement or a signed letter from the landlord that confirms the following:

- the student’s name
- the address of their lodgings
- the dates they will be lodging there
- landlord’s name, address and signature

During term time, where a student is living in student accommodation provided by the DaDA institution, this information should be retained on file by the institution.

Living costs payments must not be made until all the evidence has been received from the student.

A7 Your course

The students must be studying for the TCL Diploma (Level 5 or 6) in Professional Acting, Dance or Musical Theatre.

The student must select in this section the course they are applying for and if they have had a previous award of DaDA funding at another DaDA institution including the reason why they left the course.

They should also provide details of the institution they attended and the dates they held DaDA funding. **Student status**

Dependant or Independent

This section provides information about whose income should be used to assess the application.

All students should be assessed as a Dependant Student i.e. using the parental household income as evidence unless they meet one of the criteria for independent status as set out in the table on pages 31 and 32.

If they are applying for DaDA support as an Independent Student, it is essential that independent status is **established** before their application is assessed.

If the required evidence is not fully provided, they should be assessed as a Dependant Student and details of their parents' income (and any spouse/partner the parent may have) will be required, even if they no longer live with them.

The table on pages 31 and 32, sets out the evidence required that must be submitted in order for a student's application to be assessed as independent status for DaDA fees and living costs funding.

If they are applying as an Independent Student:

- their parent's income is not taken into account
- if they are married, in a civil partnership or living with their partner, the level of support given will be based on their spouse/partner's income for the 2019 to 2020 tax year

Single independent students (not married or living with partner)

Students in this category do not need to provide their income details or income evidence as their income is not taken into account for the income assessment. They only need to complete question B1 on the application form.

Where the student has indicated in B1 that they are applying as an Independent Student and have confirmed that they are single, these students should be awarded the appropriate lodgings rate based on the location of the DaDA institution.

A8 Your previous student support

The student will have completed this section if they are applying as an Independent Student on the basis that they have supported themselves financially. They should give details of any funding they have received e.g. Higher Education student loans.

Where a student states that they have been in Higher Education for three years prior to applying for DaDA funding, this period cannot be counted towards evidence of self-support.

A9 Periods of self-support

The student will have completed this question if they are applying as an Independent Student on the basis that they have independently (no parental support) supported themselves financially for three years (36 months) or more prior to 1 September 2020.

Evidence of employment or benefits received must be provided i.e. P60s or letters from employers confirming employment dates or information from DWP.

The income that the student has received to support themselves for the preceding three years must match or be in excess of Income Support or the new Universal Credit benefit payments in place of Income Support. The figure for 2020 to 2021 is £57.90 per week. Information on Income Support can be found on the DWP's website <http://www.dwp.gov.uk/gov/>

This is to ensure that an individual was genuinely in gainful employment and therefore, genuinely financially independent from their family. The purpose is to establish that students are self-sufficient and to disregard those that are still dependent on parents/family but who had part-time jobs and may have submitted three years' worth of part-time pay slips.

Independent Status

The table below sets out the criteria and evidence required by the student for claiming Independent Status

Student's circumstances	Documentation required to establish Independent Status
Married, entered a Civil Partnership or living with someone as though you are married before 1 September 2020	Marriage or Civil Partnership Certificate. If they have since divorced or separated, evidence of your divorce or separation should be provided (photocopies only) . If you are living with someone as though you were married you should provide evidence to show joints names for example, a copy of your council tax bill.
The natural or adoptive parent of a child who lives with the student	Child's birth certificate or certificate of adoption and evidence that you receive child benefit for the child (photocopies only) .

Supported themselves financially for the three years prior to 1 September 2020	<p>P60s or letters from employers to confirm the dates they worked there and your level of earnings. Letter from DWP to confirm the dates you received benefits and the type of benefits claimed.</p> <p>Evidence must cover a period of three consecutive years (36 months) in total (full and complete photocopies only).</p> <p>Periods where they worked part time whilst in fulltime education will not be included when establishing independent status.</p> <p>For periods of part-time employment, earnings must be above Income Support levels in order to be included when establishing independent status.</p>
They have no living parents	<p>Parent(s) death certificate(s) or letter from an independent source confirming your circumstances (photocopies only)</p>
<p>Student is estranged from parents and has no contact with them</p> <p>Further information is given on page 32 in the estrangement section.</p>	<p>A letter from a social worker or a letter from the Department for Work and Pensions (DWP) Jobcentre Plus office indicating that they received benefits on the grounds of being estranged.</p>

Estrangement

If a student states they are estranged from their parent(s) and wishes to claim independent status on this basis, they **MUST** provide confirmation of their estrangement from an independent source. This confirmation must be from a professional person outside of their family who is aware of their circumstances.

Acceptable proofs include a letter from a social worker, if applicable, or evidence of claiming income support or new Universal Credit if aged under 18 e.g. a letter from DWP's Jobcentre Plus office indicating that they received benefits on the grounds of being estranged.

If their relationship with their parents broke down while they were at institution or attending a previous educational establishment, an advice worker or personal tutor may be able to provide additional evidence by sending in a comprehensive letter confirming the student's situation and circumstances to help support their claim. A doctor who is aware of the student's circumstances may also be able to provide evidence to confirm the situation.

A10 - Student Declaration

The student **must sign and date** the application for fees and if applicable, living costs and by submitting the application form, they are agreeing to:

- all of the conditions in each of the statements set out in the declaration
- the eligibility criteria for DaDA funding as outlined in the application form i.e. have understood and confirmed that their age and residency status given on the application form is eligible for DaDA funding
- have read and understood the DaDA application form guidance notes

If in receipt of DaDA funding they are also agreeing to the rules of the DaDA scheme and institution.

The student must sign the application form in to confirm that they have understood the student declaration. The student's funding application cannot be processed if the form has not been signed in the appropriate places.

Section B – Income details

This should be completed by:

- **the student's parent(s) or parent's spouse/partner, if the student is dependant; or**
- **the student and their spouse/partner (if they have one) if they are independent.**

Dependant students - this normally means where the student lives with their parent(s), but also where a student may live with one parent and a step-parent or parent's partner.

The amount of DaDA funding the student receives will depend on the student's household income. For the DaDA application process, this means the household income for the tax year **6 April 2019 to 5 April 2020**.

If the student does not live with their parents i.e. they live with their grandparents, you will still require the household income of their parents even though they are living with relatives because you must income assess those adults who have a caring responsibility for the student i.e. the student's parents.

Income Assessment evidence

To determine the total amount of fees and living costs support that the student will receive will depend on the student's household income.

For the DaDA application process, this means you must assess the application form using the household income for the tax year **6 April 2019 to 5 April 2020**.

Income evidence submitted should normally be a Tax Credit Award Notice (form TC602), copies of P60s, and P11D from employment or a SA302

selfassessment form for the correct financial year or a combination of types of evidence types that covers the whole of the correct tax year period.

Where evidence for the full tax year has not been submitted, the institution should request additional evidence to cover this period. **In cases where income evidence from EU applicants only covers part of the tax year i.e. January to December, further documentation should be requested to cover the remaining months of the correct tax year for January to March.**

B3 Tax Credit Award Notice (form TC602)

Where a Tax Credit Award Notice (Form TC602) has been submitted you must check that it correctly states the household income for the 2019 to 2020 tax year, and that the amount has been included in the box provided in question B3.

Award Notices are sent out to families who receive Child Tax Credit or Working Tax Credit. You must make sure that the Award Notice refers to the student's household income for the whole of the 2019 to 2020 tax year. An example of a Tax Credit Award notice is shown below.

You should not use a Review Notice (Form TC603R) form for income assessment purposes.

If an applicant does not have an Award Notice for the 2019 to 2020 tax year to send in or does not wish to wait for the Award Notice to be sent to them, they can apply using a P60 or other evidence of their income.

A week 52 payslip or payslip for the last month of the 2019 to 2020 tax year would also be acceptable. The application form asks for the household income amount to be rounded down to the nearest pound.

More information about Tax Credits can be found on the website, <https://www.gov.uk/browse/benefits/tax-credits> The Tax Credits Helpline number is 0345 300 3900.

B4 Benefits

If a student's parents/carers or spouse/partner received Income Support, Income-based Jobseeker's Allowance, Income-related Employment and Support Allowance, Pension Credit or received Universal Credit in place of these eligible benefits for the whole or part of the 2019 to 2020 tax year, they must have completed the Section C Benefits Income Details form.

You must make sure that Section C has been completed and signed by the DWP's Benefit office as well as the student's parents/carers. **If the parent/s received income from employment as well as any of the specified Benefits, they must also complete sections B5 to B7, where applicable.**

Where a student lives in the parental home during study and where the parents are in receipt of Income Support or the new Universal Credit in place of Income Support, the application should be assessed at the **'students' living at home'** rate.

B5 Total earnings as an employee

The total income from all paid employment in the tax year 6 April 2019 to 5 April 2020 should have been written on the application form. This figure is usually described as 'total pay' or 'total for year' on the P60 End of Year Certificate.

You will need to know the student's household total income for the year 2019 to 2020 **before** tax, National Insurance contributions and other deductions are taken off (don't include taxable fostering allowances). An example is below.

Where to find details of your pay from employment in the tax year 6 April 2019 to 5 April 2020.

All your employers in 2019-20 should have given you a record of your earnings. This will be a P60 or a P45 if you left before 5 April 2020.

If you had only one job in the year 2019-20 copy the figure labelled 'Total for year' on your P60. or 'Total pay to date' on your P45.

A snippet of a P60 form. The 'Total for year' field is circled in red and has a yellow arrow pointing to it from the text above. The value is £9,283.97.

A snippet of a P45 form. The 'Total pay to date' field is circled in red and has a yellow arrow pointing to it from the text above. The value is £9,283.97.

If you had more than one job, add together the 'in this employment' figures from all your P60s and P45s.

Where a parent/carer or spouse/partner has had more than one job in the previous tax year, either one after the other, or at the same time, you will need to ensure that this information has been included such as

- total pay from all employed work, including any tips and gratuities and Statutory Sick Pay
- payment from an employer because their job changed or ended. They should not have included the first £30,000 of any redundancy payment – they should only include any amount over this
- taxable gains from security options they got because of their job e.g. company shares or bonds
- strike pay which they received from a trade union • payment for work they did in prison or on remand.

A parent/carer or spouse/partner can **deduct**

- work expenses that they have paid out and that their employer has not paid back to them. However, the expenses must be wholly, exclusively and necessarily in the performance of their duties
- tax-deductible payments they have made and have not been paid back e.g. fees to professional bodies, indemnity insurance, agency fees
- flat-rate expenses agreed by their employer and HM Revenue & Customs (HMRC), to maintain or renew tools or special clothes (such as a uniform) that they need for their job
- any qualifying Gift Aid donations (gross amount).

Institutions should note that a parent may be required to provide evidence of the Gift Aid donation. This could be in the form of a letter or confirmation of donation from the recipient.

There is space in the student application form guidance notes (as indicated below) for the parents/carers or spouse/partner to work out earnings from more than one job - you may wish to look at these to help with the assessment process.

If you had more than one job, you may use the working sheet below to help you work out your total earnings.

	Adult 1	Adult 2
Job 1		
Job 2		
Job 3		
Job 4		
Total (round down to the nearest pound)		
	Enter this total on the form	Enter this total on the form

Where a parent/carer or spouse/partner gives figures for question B5, they must submit, with the application form copies of any P60, P60U or P45 form(s) they have relating to the 2019 to 2020 tax year. The photocopies should be clear and complete.

When sending application forms out to EU students, institutions can request that the form and evidence be submitted in English. Where financial details are not given in British Pounds institutions should use the latest HMRC exchange rates only to work out the total household income.

The institution should apply one rate only to all application forms throughout the academic year. This ensures consistency when assessing DaDA funding applications.

The exchange rates can be found on the HMRC website. Note that exchange rates for Euro zone countries are not included. <http://www.hmrc.gov.uk/exrate/>

B6 Benefits in kind from your employer

The student's parent/carer or spouse/partner may have received benefits from their employer which were not paid out in wages but are taxable. These are called benefits in kind.

If they received any benefits in kind during the tax year 6 April 2019 to 5 April 2020 the employer should inform them what their 'cash equivalent' is on a form P11D. This information must be recorded on the application form.

For DaDA funding purposes, the value of the following benefits in kind is taken into account:

- goods and assets from their employer (for example, gifts of food, fuel, cigarettes or clothes) - shown on form P11D section A.
- payments made by their employer on their behalf (for example, payment of rent or utility bills) - shown on P11D section B in the first box numbered 15
- cash or non-cash vouchers and credit tokens (for example, a company credit card) - shown on P11D section C, . They do not need to include the cash equivalent of childcare vouchers if they are used to pay for registered or approved childcare
- mileage allowance. They should include payments for using their own car and should enter the taxable amount shown on form P11D section E. Also include running costs the employer has paid for - shown on P11D section E or included in section N
- company car - shown on P11D in box 9 of section F
- car fuel benefit – shown on P11D in box 10 of section F
- payments of expenses made to them or on their behalf - shown on P11D in sections J, M or N.

Where a parent/carer or spouse/partner includes figures for question B6, they must send in with the application copies of any P11D forms they have relating to the 2019 to 2020 tax year. The photocopies should be clear and complete.

B7 Total income from self-employment

Where a parent/carer or spouse is self-employed (either on their own or in partnership) they must enter the **total** profit for the tax year to 5 April 2020.

The following points should be taken into consideration when they complete the application form

- if they have more than one business, they must include the adjusted profit from each of their self-employment pages; and add their share of the adjusted partnership profit from each of their Partnership (short or full) pages
- if their business had other income or profits they must include these in the amount – for example, rental income
- if they use averaging because they are a farmer, market gardener or creator of literary or artistic works, they cannot use averaging in the DaDA funding application claim, they will need to adjust their total profit figure to take out the averaging
- if they traded outside of the UK in 2019 to 2020 they should enter any profit in British pounds only and not foreign currency
- if they received taxable income from foster caring
- if they made Gift Aid payments or personal pension or retirement annuity contributions in 2019 to 2020 they need to deduct the gross amount
- if their business made a trading loss in the 2019 to 2020 tax year they can enter '0'. However, the DaDA rules on trading losses operate separately from those for Income Tax
- this means that for DaDA purposes they can deduct the trading loss from any other income they may have had for the year - in a joint claim, any other income which they and their spouse or partner may have had for the year.

Institutions should note that Gift Aid should be made from the company and not an individual i.e. the business has to have made the donation and evidence can be requested in the form of a letter or confirmation of donation from the recipient.

Example Self Assessment Tax Calculation

The image shows a sample of a Self Assessment Tax Calculation form. At the top, it says 'Mr Frank Peach'. Below that, it says 'Tax Calculation for 2019-20'. The form lists various income sources and their amounts:

Income	Amount
Employments and Directorships (PAYE) minus expenses	5,000
Self-Employment (as a sole trader)	5,000
Partnerships	1,000
UK Land and Property	5,000
UK Interest (before tax)	1,000
UK Dividends and tax credits	500
UK Pensions and benefits	1,000
Total income	18,500

If they have a Self-Assessment Tax Calculation form (for example, an SA302) for the 2019 to 2020 tax year (as shown) or self-served copies of the tax calculation from the HMRC online account, they should submit a copy with the application.

Photocopies are acceptable and can be sent in with the application, but it must be clear and complete.

Where income evidence is not readily available the institution can accept either a self-assessment summary for the correct financial year or the previous year's SA302 form providing there is sufficient evidence to support the earnings submitted. Provisional assessments of 'other' self-employed income evidence are not to be undertaken.

Income from Self-employment - Self-Assessment Tax Calculation Form (SA302)

These are only available when:

1. Self-assessment has been lodged **before 30 September**
2. The assessment has been verified by the HMRC
3. If self-assessment is lodged after this date it is unlikely that the parent will be able to supply an SA302 for the previous tax year as they have assessed their own income.

In the first instance you must ask for an SA302 or self-served copies of the tax calculation from the HMRC online account for 2019 to 2020 tax year. If this is not available you can accept an SA302 showing income for 2018 to 2019 tax year, but this must be as a last resort. Where a SA302 form for the previous tax year is used for assessment, a **specific** reason must be given as to why income details (evidence) from the correct tax year **cannot** be made available.

If the parent does not have an SA302 form or self-served copies of the tax calculation from the HMRC online account available from the 2018 to 2019 tax year, then you may ask if they have any other documentation verified by an accountant or HMRC for the 2018 to 2019 tax year.

A **Self-Assessment Summary** form is issued by HMRC in place of an SA302 if the parent did not submit their Tax Return before 30 September or when an accountant submitted the Tax Return.

This form should, wherever possible, be either stamped by HMRC or have an accompanying letter or compliments issued by HMRC.

In the first instance you must ask for a Self-Assessment Summary form for 2019 to 2020 tax year. If this is not available, then you can accept one showing income for 2018 to 2019 tax year.

The deadline date for submitting tax returns to HMRC is

- 31st October for paper returns
- 31st January for on-line returns

B8 Total other income

In addition to social security benefits and earnings from work, any other income received in the tax year 6 April 2019 to 5 April 2020 is taken into account. The parents/carers or spouse/partner must use the table on the application form to work out their total (example given below).

They should include any other income above £300, plus the full amount of any Adult Dependant's Grant and miscellaneous taxable income. This £300 deduction is an allowable deduction that HMRC apply when calculating total income received through 'other income'.

Do not include:

- maintenance payments received from a former partner
- Working Tax Credit and Child Tax Credit
- student loans - do not deduct student loan repayments from your income
- other student grants (except the Adult Dependant's Grant), such as those to meet the cost of tuition fees, childcare etc
- war pensions, or pensions or annuities payable under German or Austrian law to victims of Nazi persecution
- income your children may have had, unless it is taxable in your name or your partner's name.

Work out the total for both adults of any other income, including pensions, using the table below:

Annual amount of:	Adult 1	Adult 2
Income from savings and investments	3 0 0	
Income from property		
Trusts, settlements and estates	3 9 1	5 0 0
Foreign income		
Pensions (state, occupational or personal)	1 2 0 0 0	4 1 1 2
Notional income	1 6 0 4	
Now add together the totals	1 4 2 9 5	4 6 1 2
	+ = 1 2 9 0 7	
	Now deduct £300	
	- 3 0 0	
Total (if this makes a minus figure, just enter £0)	1 2 6 0 7	
Adult Dependant's Grant or miscellaneous taxable income (include the full amount)	5 0	
Total other income (round down to the nearest pound)	£ 1 2 6 5 7	

If they include any other income in question B8, they may be required to provide supporting evidence. Other income includes the following:

Income from savings and investments

- gross interest on savings, investments and dividends (including interest from any Bank or Building Society). Enter the gross amount (before tax is taken off)
- the full amount of any 'chargeable event gain' from a life insurance policy
- but should not include Individual Savings Accounts (ISAs) or other tax-free investments.

Income from property

- income from property or land in the UK that you let
- but should not include income from the 'rent a room' scheme (if they let a furnished room in their home for £7,500 a year or less). From **April 2019**, a new condition will mean that the lessor must be living in the property at the same time as their tenant for at least some of the letting period.
- should not include anything they have already included in box B7
- if their rental property made a loss in the 2019 to 2020 tax year they should enter '0'.

Where a parent contacts you about Income from Property, ordinarily you will be able to off-set the capital value of the loss against the household income for the tax year. The institution will have to request proof of the loss and also a covering letter to accompany the application to confirm the situation.

Household income solely from rental of property

Changes have been announced to the [treatment of tax relief for residential rental properties](#). EFA recognises that the change could, in some instances, impact on the outcome of the household income assessment. However, DaDA guidance will not be amended to take account of these changes since doing so could circumvent the intended tax relief changes and *institutions should continue to assess all applications for DaDA funding in the usual way.*

Trusts, settlements and estates

If they received income from a trust, settlement or estate, details will be given on the certificate R185, which the trustees or administrators should have sent to them. They should enter the **gross** amount i.e. add together the 'net' amounts and 'tax paid' or 'tax credit' amounts.

Foreign income

- foreign income, for example, income from investments and property overseas. They should include the full amount in **British pounds**, whether or not it was remitted to the UK. The gross amount should be entered in **British pounds**
- if they get a foreign pension, they should include 90% of it here (in **British pounds**). They should deduct any bank charge or commission they paid when converting foreign currency.
- If they were employed or self-employed outside of the UK in 2018 to 2019, they should enter this amount (in **British pounds**) in boxes **B5**, **B6** or **B7** as appropriate. They will need to submit the required income evidence.

Pensions (state, occupational or personal)

- state pensions (including Widow's Pension, Widowed Mother's Allowance, Widowed Parent's Allowance and Industrial Death Benefit). They should not include the Christmas bonus and winter fuel payment
- other UK pensions they are getting including occupational pensions or annuities (not war pensions)
- if their pension includes an extra amount for work-related illness or injury, they should exclude that extra amount.

Notional income

This includes things like stock dividends or income that they could have received but chose not to for whatever reason.

Adult Dependant's Grant or miscellaneous taxable income

If the parent/carer and their spouse/partner received Adult Dependant's Grant for being a student or miscellaneous taxable income it should not be included in the main total but in the bottom section. They will need to include the full amount.

Where a parent contacts the institution about the above sections, the institution should advise that they must include the total of any other taxable income that they have had in this section. Evidence of this is not required to be submitted with the application form however, the parent may wish to add a brief note explaining the source of the income on a separate sheet if necessary.

Allowable deductions**B9 Personal Pension Contributions**

Any personal pension contributions paid into a registered scheme should be included.

This includes Free-Standing Additional Voluntary Contributions and payments to Stakeholder pensions. They should enter the gross amount but not include 'occupational pension' contributions paid through their employer. They will have already had deductions made from the pay figure entered on their P60 or P45.

However, if the contributions are of a high level and after the income assessment has taken place a student is placed in to a lower income band and therefore becomes eligible to receive a higher level of DaDA support, institutions should request evidence of the personal pension contributions to support the application.

B10 Statutory Maternity, Ordinary or Additional Paternity or Adoption Pay

Examples are given in the application form guidance as to how to work out the total amount paid. The total will depend on the weekly allowance and the time they received it for.

If any payments were **more than** £100 a week, then multiply the number of weeks by £100 and enter this total in the box at **B12**, e.g. if they received them for 30 weeks, enter £3,000.

If any payments were **less than** £100 a week, then multiply the number of weeks by the amount received and enter this total in the box at **B12**, e.g. if they received £80 for 30 weeks, enter £2,400. They should not include Maternity Allowance.

B11 'Other' kinds of income

During the 2019 to 2020 tax year, the household may have received some 'other' kinds of income.

This could include types of income and or benefits that are not taken into account when assessing household income but you should know about them.

If they received any of these types of income or benefits for all of the 2019 to 2020 tax year, or just part of the year, this should have been included in the application form.

See examples below.

- Benefit paid for a period of incapacity that began before 1995 and for which Invalidity Benefit used to be payable or any child dependency increase with these payments
- Child Benefit
- Child Tax Credit
- Council Tax Benefit
- Disability Living Allowance
- Income your children may have had
- Maintenance payments received from a former partner
- Maternity Allowance
- Personal Independence Payment
- Pension Christmas Bonus
- Student loans or grants (except The Adult Dependant's Grant) to meet the cost of tuition fees, childcare etc
- Tax-free savings income
- War pensions
- Winter Fuel Payment
- Working Tax Credit

Child Tax Credits from 6 April 2019 to 30 September 2019 then got a job and this is shown in Income Details (Part B) and I've supplied my P60 as evidence.

Maintenance from ex-partner and child benefit for the whole tax year

Institutions should check that the other kind of income listed does fall in to the 'Other' category and is not a type of income that should have been listed under B8 – Total other income for example income from savings or investments (dividends).

Widowed Parent's Allowance

If a parent is in receipt of the allowance then this would need to be entered at

B11 on the main application form as this question covers any other types of income.

However, because it's taxable income it should be included in the household income assessment, performed to determine eligibility for support.

The applicant could potentially supply a DWP or HMRC letter evidencing the amount of Widowed Parent's Allowance received in 2019 to 2020 tax year.

B12 Privacy Notice and Declaration

This section is where a student's parents or spouse/partners are informed that the DaDA institution may need to talk to anyone named on the application form during the assessment process.

Because the form contains personal and sensitive data e.g. name, address, date of birth and financial details, the DaDA institution **must** not give out information about a students' application or payments to anyone other than those named on the application, without their agreement.

Declaration

The student's parents or spouse/partners are **required to sign and date** the application for fees and if applicable, living costs and by submitting the application form, they are agreeing to:

- all of the conditions in each of the statements set out in the declaration
- the eligibility criteria for DaDA funding as outlined in the application form i.e. confirmed that the student is eligible for DaDA funding on age and residency grounds
- have read and understood the DaDA application form Income Notes
- all of the information given in support of the application is correct and complete to the best of their knowledge and belief.

Section C - Benefits Income Details Form

The Section C Benefits Income Details Form should only be completed if the Student's parent(s) or parent's spouse/partner or the Student's spouse/partner received any of the following social security benefits at any point during the 2019 to 2020 tax year.

- Income Support
- Income-based Jobseeker's Allowance
- Income-related Employment and Support Allowance (ESA)
- Contribution based Employment and Support Allowance (ESA)
- Contribution based Jobseeker's Allowance

- Universal Credit
- Pension Credit
- Carer's Allowance
- Incapacity Benefit
- Bereavement Allowance

The Student should only enter their full name on form.

If more than one adult received any of the above benefits during the 2019 to 2020 tax year, the institution must check to make sure that information for both adults has been filled out.

The institution must make sure that the form has been fully completed and signed by the DWP Benefit office as well as the student's parents/carers.

Where a student lives in the parental home during study and where the parents are in receipt of Income Support, the application should be assessed at the **'students living at home'** rate.

Where a blank form has been submitted i.e. where the DWP officer has confirmed the amount of benefits a person was entitled to by ticking the **Yes, for the whole year** box, the student's application should be assessed as being in the Under £21,000 income band.

1.2 The Department will procure that each Former Supplier will comply with all its obligations under the Employment Regulations and will perform and discharge all its obligations in respect of all the Transferring Former Supplier Employees in respect of the period up to (but not including) the Relevant Transfer Date (including the payment of all remuneration, benefits, entitlements and outgoings, all wages, accrued but untaken holiday pay, bonuses, commissions, payments of PAYE, national insurance contributions and pension contributions which in any case are attributable in whole or in part in respect of the period up to (but not including) the Relevant Transfer Date) and the Supplier will make, and the Department will procure that each Former Supplier makes, any necessary apportionments in respect of any periodic payments.

2.1 Subject to Paragraph 2.2, the Department will procure that each Former Supplier will indemnify the Supplier and any Notified Sub-Contractor against any Employee Liabilities arising from or as a result of:

 - (ii) in relation to any employee who is not a Transferring Former Supplier Employee and in respect of whom it is later alleged or determined that the Employment Regulations applied so as to transfer his/her employment from the Former Supplier to the Supplier and/or any Notified Sub-Contractor as appropriate, to the extent that the proceeding, claim or demand by HMRC or other statutory Department relates to financial obligations in respect of the period to (but excluding) the Relevant Transfer Date;
- (d) a failure of the Former Supplier to discharge or procure the discharge of all wages, salaries and all other benefits and all PAYE tax deductions and national insurance contributions relating to the Transferring Former Supplier Employees in respect of the period to (but excluding) the Relevant Transfer Date;
- (e) any claim made by or in respect of any person employed or formerly employed by the Former Supplier other than a Transferring Former Supplier Employee for whom it is alleged the Supplier and/or any Notified Sub-Contractor as appropriate may be liable by virtue of this Contract and/or the Employment Regulations and/or the Acquired Rights Directive; and

2.2 The indemnities in Paragraph 2.1 will not apply to the extent that the Employee Liabilities arise or are attributable to an act or omission of the Supplier or any sub-contractor whether occurring or having its origin before, on or after the Relevant Transfer Date including, without limitation, any Employee Liabilities:

- (a) arising out of the resignation of any Transferring Former Supplier Employee before the Relevant Transfer Date on account of substantial detrimental changes to his/her working conditions proposed by the Supplier or any sub-contractor to occur in the period from (and including) the Relevant Transfer Date; or

(a) will not apply to:

(i) any claim for:

(A) discrimination, including on the grounds of sex, race, disability, age, gender reassignment, marriage or civil partnership, pregnancy and maternity or sexual orientation, religion or belief; or

(B) equal pay or compensation for less favourable treatment of part-time workers or fixed-term employees,

in any case in relation to any alleged act or omission of the Supplier and/or any sub-contractor; or

(ii) any claim that the termination of employment was unfair because the Supplier and/or Notified Sub-Contractor neglected to follow a fair dismissal procedure; and

(b) will apply only where the notification referred to in Paragraph 2.3(a) is made by the Supplier and/or any Notified Sub-Contractor (as appropriate) to the Department and, if applicable, the Former Supplier, within 6 months of the Effective Date.

2.8 If any such person as is described in Paragraph 2.3 is neither re-employed by the Former Supplier nor dismissed by the Supplier and/or any Notified SubContractor within the time scales set out in Paragraph 2.5, such person will be treated as having transferred to the Supplier or Notified Sub-Contractor and the Supplier will, or will procure that the Notified Sub-Contractor will, comply with such obligations as may be imposed upon it under the Law.

- (e) any statement communicated to or action undertaken by the Supplier or a sub-contractor to, or in respect of, any Transferring Former Supplier Employee before the Relevant Transfer Date regarding the Relevant Transfer which has not been agreed in advance with the Department and/or the Former Supplier in writing;

 - (i) a failure by the Supplier or any sub-contractor to comply with its obligations under Paragraph 2.8 above
- 3.2 The indemnities in Paragraph 3.1 will not apply to the extent that the Employee Liabilities arise or are attributable to an act or omission of the Former Supplier whether occurring or having its origin before, on or after the Relevant Transfer Date including, without limitation, any Employee Liabilities arising from the Former Supplier's failure to comply with its obligations under the Employment Regulations.

- 3.3 The Supplier will comply, and will procure that each sub-contractor will comply, with all its obligations under the Employment Regulations (including without limitation its obligation to inform and consult in accordance with regulation 13 of the Employment Regulations) and will perform and discharge, and will procure that each sub-contractor will perform and discharge, all its obligations in respect of all the Transferring Former Supplier Employees, on and from the Relevant Transfer Date (including the payment of all remuneration, benefits, entitlements and outgoings, all wages, accrued but untaken holiday pay, bonuses, commissions, payments of PAYE, national insurance contributions and pension contributions which in any case are attributable in whole or in part to the period from (and including) the Relevant Transfer Date) and any necessary apportionments in respect of any periodic payments will be made between the Supplier and the Former Supplier.

5 PROCUREMENT OBLIGATIONS

Notwithstanding any other provisions of this Part B, where in this Part B the Department accepts an obligation to procure that a Former Supplier does or does not do something, such obligation will be limited so that it extends only to the extent that the Department's contract with the Former Supplier contains a contractual right in that regard which the Department may enforce, or otherwise so that it requires only that the Department must use reasonable endeavours to procure that the Former Supplier does or does not act accordingly.

6 PENSIONS

The Supplier will, and will procure that each sub-contractor will, comply with the pensions provisions in the following Annex.

1.1. Where the Contractor will handle information at OFFICIAL on behalf of the Department, the requirements under Cabinet Office Procurement Policy Note

09/14 – Use of Cyber Essentials Scheme certification, or any subsequent updated document, are mandated; the Contractor will endeavour to meet the requirements of Cyber Essentials for the 2020/21 Funding Year and present the results to the Department on request. The scope must be relevant to the Services supplied to, or on behalf of, the Department.

- 1.2 The Contractor will follow the Cabinet Office guidance on Government Security Classifications in respect of any Department Data being handled in the course of providing this Service, and will handle this data in accordance with its security classification. (In the event where the Contractor has an existing Protective Marking Scheme then the Contractor may continue to use this but must map the HMG security classifications against it to ensure the correct controls are applied to the Department Data).
- 1.3 Processing of Department Data must be segregated from all other data on the Contractor's or sub-contractor's own IT equipment to protect the Department Data and enable the data to be identified and securely deleted when required. In the event that it is not possible to segregate any Department Data then the Contractor and any sub-contractor will be required to ensure that it is stored in such a way that it is possible to securely delete the data in line with Clause 1.13.
- 1.4 The Contractor will have in place and maintain physical security, in line with those outlined in ISO/IEC 27002 including, but not limited to, entry control mechanisms (e.g. door access) to premises and sensitive areas
- 1.5 The Contractor will have in place and maintain an access control policy and process for the logical access (e.g. identification and authentication) to ICT systems to ensure only authorised personnel have access to Department Data.
- 1.6 The Contractor will have in place and will maintain procedural, personnel, physical and technical safeguards to protect Department Data, including but not limited to: physical security controls; good industry standard policies and process; anti-virus and firewalls; security updates and up-to-date patching regimes for anti-virus solutions; operating systems, network devices, and application software, user access controls and the creation and retention of audit logs of system use.
- 1.7 Any data in transit using either physical or electronic transfer methods across public space or cyberspace, including mail and couriers systems, or third party provider networks must be protected via encryption which has been certified to FIPS 140-2 standard or a similar method approved by the Department prior to being used for the transfer of any Department Data.
- 1.8 Storage of Department Data on any portable devices or media will be limited to the absolute minimum required to deliver the stated business requirement and will be subject to Clauses 1.9 and 1.10 below.
- 1.9 Any portable removable media (including but not constrained to pen drives, flash drives, memory sticks, CDs, DVDs, or other devices) which handle, store or process Department Data to deliver and support the Service, will be under the control and configuration management of the Contractor or sub-contractors providing the Service, will be both necessary to deliver the Service and will be encrypted using a product which has been certified to FIPS140-2 standard or another encryption standard that is acceptable to the Department.

- 1.10 All portable ICT devices, including but not limited to laptops, tablets, smartphones or other devices, such as smart watches, which handle, store or process Department Data to deliver and support the Service, will be under the control and configuration management of the Contractor or sub-contractors providing the Service, and will be necessary to deliver the Service. These devices will be full-disk encrypted using a product which has been certified to FIPS140-2 standard or another encryption standard that is acceptable to the Department.
- 1.11 Whilst in the Contractor's care all removable media and hardcopy paper documents containing Department Data must be handled securely and secured under lock and key when not in use and will be securely destroyed when no longer required, using either a cross-cut shredder or a professional secure disposal organisation.
- 1.12 When necessary to hand carry removable media and/or hardcopy paper documents containing Department Data, the media or documents being carried will be kept under cover and transported in such a way as to ensure that no unauthorised person has either visual or physical access to the material being carried. This clause will apply equally regardless of whether the material is being carried inside or outside of company premises.
- 1.13 At the end of the contract or in the event of equipment failure or obsolescence, all Department Data, in either hardcopy or electronic format, that is physically held or logically stored on the Contractor's ICT infrastructure must be securely sanitised or destroyed and accounted for in accordance with the current HMG policy using a NCSC approved product or method. Where sanitisation or destruction is not possible for legal, regulatory or technical reasons, such as a Storage Area Network (SAN) or shared backup tapes, then the Contractor or sub-contractor will protect the Department Data until the time, which may be long after the end of the contract, when it can be securely cleansed or destroyed.
- 1.14 Access by Contractor or sub-contractor staff to Department Data will be confined to those individuals who have a "need-to-know" in order to carry out their role; and have undergone mandatory pre-employment screening, to a minimum of HMG Baseline Personnel Security Standard (BPSS). All Contractor or sub-contractor staff must complete this process before access to Department Data is permitted.
- 1.15 All Contractor or sub-contractor employees who handle Department Data must have annual awareness training in protecting information.
- 1.16 The Contractor will, as a minimum, have in place robust Business Continuity arrangements and processes including IT disaster recovery plans and procedures that conform to ISO 22301 to ensure that the delivery of the contract is not adversely affected in the event of an incident. An incident will be defined as any situation that might, or could lead to, a disruption, loss, emergency or crisis to the Services delivered. If an ISO 22301 certificate is not available the supplier will provide evidence of the effectiveness of their ISO 22301 conformant Business Continuity arrangements and processes including IT disaster recovery plans and procedures. This should include evidence that the Contractor has tested or exercised these plans within the last 12 months and produced a written report of the outcome, including required actions.

- 1.17 Any suspected or actual breach of the confidentiality, integrity or availability of Department Data being handled in the course of providing this Service, or any non-compliance with these Departmental Security Standards for Contractors, or other Security Standards pertaining to the solution, will be investigated immediately and escalated to the Department. The Contractor will inform their Contract Manager in writing as soon a breach is identified.
- 1.18 The Contractor will ensure that any IT systems and hosting environments that are used to handle, store or process Department Data will be subject to independent IT Health Checks (ITHC) using a NCSC approved ITHC provider before go-live and periodically (at least annually) thereafter. The findings of the ITHC relevant to the Service being provided are to be shared with the Department and all necessary remedial work carried out. In the event of significant security issues being identified, a follow up remediation test may be required.
- 1.19 The Contractor or sub-contractors providing the Service will provide the Department with full details of any storage of Department Data outside of the UK or any future intention to host Department Data outside the UK or to perform any form of ICT management, support or development function from outside the UK. The Contractor or sub-contractor will not go ahead with any such proposal without the prior written agreement from the Department.
- 1.20 The Department reserves the right to audit the Contractor or sub-contractors providing the Service within a mutually agreed timeframe but always within seven days of notice of a request to audit being given. The audit will cover the overall scope of the Service being supplied and the Contractor's, and any subcontractors, compliance with the clauses contained in this Section.
