GOVERNMENT FURNISHED ASSETS (GFA)

Government Furnished Assets (GFA) – Contract Support Items (CSI)

Ser	Category	Item	Brief synopsis of item	Date required	Location required	Caveats	PSA Ref
1	GFF	DTT Battle Laboratory (DBL)	Work location to be used in the development/delivery of DTT, and IMT software and performance of the support services for exercises (for example PEDX) * DEFCON 76 applies	From Contract Award for entire duration of PoP.	DBL Warminster, UK	DEFCON 76 applies	N/A
2	GFI	Standards documents (including NATO standards) and JSPs etc. not publicly available	Access to all standards and JSP required by the Contract and as they arise during the conduct of the Contract. Access via MODNET accounts * JSP 440 security constraints.	From Contract Award for entire duration of PoP.	Contractor's premises, Harlow, UK DBL Warminster, UK	JSP 440 security constraints	*
3	GFI	Information and Technical support for queries related to Target Infrastructures	Access to data, documentation (including technology roadmaps) and SMEs for Technical support in relation to all applicable target infrastructures for DTT	From Contract Award for entire duration of PoP.	UK Locations		N/A

Ser	Category	Item	Brief synopsis of item	Date required	Location required	Caveats	PSA Ref
4	GFI	Access to current Application Developers Guide (Online) for DTT's target Infrastructures	This is required for the provision of technical SME support to the Target Infrastructures so that Contractor staff can maintain currency and relevant knowledge of the most up to date approach and advice. *Subject to specific detail of what will be provided, when it is required and how long for being agreed during detailed planning of the task.	From Contract Award for entire duration of PoP.	DBL Warminster, UK	Subject to specific detail of what will be provided, when it is required and how long for being agreed during detailed planning of the task.	N/A
5	GFE	Representative test environment	A test environment located in the DTT Battle Laboratory that is representative of the Target infrastructures. The environment shall be analogous to the current target infrastructures with any necessary amendments to reflect different security environments, software configurations and interfaces.	From Contract Award for entire duration of PoP.	DBL Warminster, UK	The environment shall be analogous to the current target infrastructures with any necessary amendments to reflect different security environments, software configurations and interfaces.	N/A
6	GFE	Target Infrastructure security clamps	The maximum possible amount of details of the security hardening applied to the target infrastructures. The Contractor will utilise this information to create a representative test environment at Harlow.	From Contract Award for entire duration of PoP.	Contractor's premises, Harlow, UK	Complete details are unlikely but instructions for configuration of the	N/A

			Complete details are unlikely but instructions for configuration of the environment should be available. Any limitations in the information provided, will be reflected in the quality of what can be delivered.				environment should be available. Any limitations in the information provided, will be reflected in the quality of what can be delivered.
7	GFE	Access to Representative (ESB)	To support effective Integration and Testing of the DTT software Software licences must be able to be used by the Contractor on behalf of the Authority	From Contract Award for entire duration of PoP.	Contractor's premises, Harlow, UK	Software licences must be able to be used by the Contractor on behalf of the Authority	N/A
8	GFI	Access to fault / data logs	As part of Level 4 reach-back Support, the Contractor will require access to data/logs to investigate incidents	As required, throughout duration of PoP.	UK Locations	Recognised that access to information may be limited by security restrictions	N/A
9	GFI	NATO Joint Symbology APP-6(B)	Item is deposited by Sys Admin in DTT Repository at time of install. To support DTT users when annotating map marking on DTT map and overlays. Provides direction on NATO standards for map symbology. For inclusion by Contractor on Gold disk release(s) of the DTT software.	From Contract Award for entire duration of PoP.	Contractor's premises, Harlow, UK; DBL Warminster, UK	Softcopy files in .pdf or other non-editable format. Authority is responsible for providing correct/applicable version. Will no longer be required in Repository when DTT offers organic symbol generator.	GFA/DTT-123

							Will only be required as reference for Supplier.
10	GFI	MIL-STD-2525D Joint Military Symbology	Item is deposited by Sys Admin in DTT Repository at time of install. To support DTT users when annotating map marking on DTT map and overlays. Provides direction on indication of tactical manoeuvres and application of effects. For inclusion by Contractor on Gold disk release(s) of the DTT software.	From Contract Award for entire duration of PoP	Contractor's premises, Harlow, UK; DBL Warminster, UK	Softcopy files in .pdf or other non-editable format. Authority is responsible for providing correct/applicable version. version. Will no longer be required in Repository when DTT offers organic tactical manoeuvre tool. Will only be required as reference for Supplier.	GFA/DTT -124
11	GFE	Access to Legacy Blue Sustain (LBS) Infrastructure test node	To enable Contractor to support System Integration and on-boarding onto the LBS target infrastructure.	From Contract Award for entire duration of PoP	Corsham, UK		N/A
12	GFI	Access to Military Software: NIRIS 310; ICC v3.3; JTS v4.1.1, latest available versions of MIDB, JWS (2.2?), DIEE, DCiDE (1.2.2?) plus any emergent needs as identified in the	Access to serviced Military Software to facilitate assessment/development of DTT interoperability with other required Military Software Tools, including any subsequent updates qualified for infrastructure on which DTT resides.	From Contract Award for entire duration of PoP	Contractor's premises, Harlow, UK and/or DBL Warminster, UK		N/A

		Elective Candidate Change Board				
13	GFI	Interface Control Documents for Military Software identified in GFA Serial 16 above.	Access to Interface Control Documents for Military Software to facilitate assessment/development of DTT interoperability with other Military Software Tools	From Contract Award for entire duration of PoP	Contractor's premises, Harlow, UK and/or DBL Warminster, UK	
14	GFR	Information and Technical support for queries to Military Software identified in GFA Serial 16 above	Access to SMEs for Technical support in relation to Military Software and its related business process(es).	As required, throughout duration of PoP	DBL Warminster, UK (or via teleconference or similar virtual means)
