1 Scheme Type

This scheme is a value band B (£30k to £250k) Scheme.

2 Scheme Description

The purpose of this scheme is to replace three 'tiger tail' signs on the approach to a motorway junction.

The works will include but are not limited to:

- Provision of temporary accommodation or all necessary facilities to meeting health and safety requirements;
- Provide and install information boards;
- Remove and dispose of existing illuminated traffic signs including posts and associated disconnections;
- Replacement of existing tensioned safety barrier with single sided safety barrier including posts and associated works;
- Provision and installation split duct to accommodate existing lighting cables;
- Provision and installation of three 'tiger tail' informatory signs, including posts and foundations;
- Reinstatement of grassed area surrounding signs.

3 Road category on which the work is to be carried out

The works will take place on a dual three lane motorway.

4 Traffic Management

The traffic management layout to be utilised is closure of the hard shoulder and lane 1.

5 Period within which the work is to be carried out

The works are to be carried out within Time Band 10.

6 Site Restrictions and Constraints

The following restrictions and constraints exist at the works location:

- Foundations for the signs will be located near statutory undertakers apparatus. Where street lighting cables cannot be avoided they will be split ducted through the sign foundation.

7 Indicative Programme and Season within which the work is to be

carried out

The works are to be completed within 4 nights.

The majority of the works are to be constructed outside of British Summer Time.
