

Washing Instructions

Refuse Collection vehicles

Bin lifts and associated combs.

Hopper area including entire rear of sweep blade housing, especially the top of the carrier.

Rear of body and area around seals between tailgate and body.

Area around rear rave rail.

Locking hooks on rear of body/tailgate.

Two under-hopper waste traps – full body width jet out.

Area at the front of the ejector blade (ie behind cab) – access via locked side-entry door, including drainage pipe clearance to allow liquid run off.
