

THE NATIONAL ARCHIVES

DEVELOPMENT OF TRAINING RESOURCES FOR DIGITAL PRESERVATION IN THE ARCHIVE SECTOR: MODULES ON ACCESS TO DIGITAL ARCHIVES

OPEN COMPETITION

CLARIFICATION QUESTIONS AND RESPONSES

The National Archives has received a number of questions in relation to this opportunity. Those questions, and their associated responses, can be found below.

Q1: *Is there a particular format to follow when constructing the tender? Whether that be a template or questionnaire aside from the notes in the tender PDF.*

A1: No, no particular format.

Q2: *Will the course be assessed in any way, and who does the monitoring of learner progress?*

A2: No, it will not be assessed

Q3: *What is your stance on interactive activities such as text submissions or quizzes on learned material?*

A3: We hope the learning experience will be an interactive and stimulating one for participants and we're keen on approaches that support that aim.

Q4: *Will The National Archives provide an outline of learning outcomes and/or draft course material or will the course content be entirely considered by the contractor?*

A4: We expect to mutually agree learning outcomes but we are not expecting to provide large amounts of content to a provider.

Q5: *May I ask if there is a particular LMS that this course will be hosted on, aside from PDF export?*

A5: Moodle is a possible platform in the first instance but in the past we have had the content reused by other providers so other platforms are possible.
