II.1.3) Type of contract

Works

II.1.4) **Short description:**

Arc wishes to establish a framework agreement for the supply of Building Works and Services. Applications are invited from experienced providers of construction (building) works and services who can provide high quality works and services using a customer focused approach particularly in the public sector. It is anticipated that the works and services will be provided by the providers themselves and/or through their supply chain. Consortia bids will be accepted, in the case of group companies only one bid will be accepted from either the group company or one of subsidiaries, but not both. The specific works and services that may be procured under the Framework cannot be clearly defined at this stage, however the nature and types of works that may be required may include those services identified by CPV code on or in connection with any land or property and related asset owned, rented, leased or developed by any of the public sector bodies eligible to use the Framework.

The contracting authority are transforming the manner in which construction projects are procured and managed. The construction services may include design and other services as required for develop and construct works, design and build works, regeneration works or construction works. They will adopt the principles of partnering through the development of longer term relationships through the supply chain, integrated design and construction teams, shared risk/rewards and performance management. The partnering ethos will involve partners selected for their capability and commitment to these principles. It will include target cost setting, open book accounting, shared problem solving and a strong commitment to all aspects of

continuous improvement. A key feature of this approach will be to develop a spirit of mutual trust and teamwork throughout the supply chain. To achieve continuity in the availability of a framework arrangement, Arc will review future service requirements and capacity regularly to determine when to carry out its next parallel tender exercise in the range stipulated. Note that the PQQ contains important background information and contextual information, together with exclusion clauses relating to the fact that the contracting authority may terminate or suspend this procurement at any time, without cost or liability to the contracting authority. The contract conditions will be set out in the invitation to tender documents. Interested companies will be required to complete a pre-qualification questionnaire (PQQ) and companies must demonstrate commitment to partnering including working with clients and their partners, shared problem solving and continuous improvement. Any queries relating to the technical aspect of the works should be made to the contact in I.1) through Delta. A breakdown of the evaluation criteria will be detailed in the tender documents. An indicative procurement timetable is included in the PQQ.
