MOD SME Spend Data Collection - Financial Year 01 April - 31 March

The MOD needs to understand how the money it spends flows through the economy and specifically how much is being shared with Small and Medium Enterprises (SMEs). Please complete and return this template by 30 June, to report your spend. Guidance is provided below, but in summary, you are required to provide for contracts with an average price above £5M per annum: the value of revenue derived from contracts with MOD, the value of subcontracted revenue and the value of revenues that you have passed to Small and Medium Enterprises. This will enable the MOD to measure progress towards the government's prosperity agenda.

- 1) When answering the survey please answer every section in full to the best of your knowledge. Please answer all fields highlighted in yellow on the 'Supply Chain Data Survey' tab.
- 2) Percentages will populate automatically, once you have entered the requested revenue figures.
- 3) Please see the definition of an SME (under 'Definitions and Interpretations') below.
- 4) If you are not best placed within your organisation to complete this survey, please forward to the correct contact and inform the MOD so records can be updated accordingly.

Questions A1-A3: Please specify the numbers in full. All figures should be in GBP pounds sterling. Please see an example of how to complete the questions below.

A1. Total contract revenue (£) received directly from MOD					
---	--	--	--	--	--

Contractor X has received £[REDACTED] revenue directly from MOD within the requested financial reporting period. Enter £[REDACTED] for question A1.
