### 3. Service Requirements

#### A. Services Provided

Please detail the service(s) that will be provided by the Supplier to the Customer

LOT 1 - Senior Intervenor work packages in support of people with a Learning Disability and or Autistic people, who are inpatients in a mental health hospital

**Background:**

As a long-term plan for the future of senior intervenor work is developed an interim option allowing regions to directly commission work is being put in place. In order to support this model input is required from a senior intervenor to provide advice and input to individual cases for regions, in order to ensure any work commissioned meets the scope of the programme and framework.

**Requirements**

The key objective for this work package is to work with the regional Learning Disability and Autism programme and Specialised Commissioning teams to provide a series of discrete consultations.

The purpose of each consultation is to offer an expert opinion on the possible next steps or interventions to support the unblocking of barriers delaying the discharge of individuals from mental health hospital settings.

It will involve reviewing the situation with colleagues to establish the potential objectives of future Senior Intervenor involvement, define agreed outcomes or end points and ensure only work aligned to the agreed model is commissioned.

A regular update will be provided back to the national programme team, along with any themes.

**Time commitment and duration:**

The expected duration of this work is until the end of the life of the framework (to start ASAP by end August 2023). The estimated time commitment for this work would be 1-2 days per month, capped at 16 days.

**B. Price/Rates inc. estimated total value**

REDACTED

**C. Management Information (MI)**

Suppliers should provide Management Information as required on a case-by-case basis. Customers should detail any additional management information required and the frequency of provision here.
