

Invitation to Tender (ITT)

January 2024

Invitation to Tender (ITT) # MOBILIST-RFP-008
ITT name: Design Research on Index construction
Submission deadline: February 09, 2024, at 5pm EST time

Dear Tenderer,

Chemonics Group UK Ltd invites you to submit a Tender for the **Design Research on Index construction**

In addition to this Letter of Invitation, the ITT Pack includes:

Volume 1 – Key Procurement Information

Volume 2 - Instructions to Tenderers and Evaluation Criteria

Volume 3 - Terms of Reference (ToR)/Specifications

Volume 4 – Annexes

Annex 1 - Cover Letter (Declarations)

Annex 2 - Chemonics Tendering Requirements and Conditions

Annex 3- Example Firm Fixed Price Subcontract Template (Terms and Clauses)

Annex 4 – FCDO (DFID) Value for Money document.

Tenderers are required to read "Chemonics' Ethical and Business Conduct requirements" in Annex 2, Section 1 and declare they have understood and adhere to these conditions in the Cover Letter provided in Annex 1.

This ITT does not obligate Chemonics to execute a contract, nor does it commit Chemonics to pay any costs incurred in the preparation and submission of the proposals.

All inquiries or requests for clarifications relating to this ITT must be made through the Procurement Point of Contact (POC) listed in the Key Procurement Information in Volume 1. Please contact the POC immediately if any of the ITT documents are missing.

Sincerely,

Tara Sabre Collier
Team Leader, MOBILIST Research and Policy Platform programme

By submitting a Tender in response to this ITT, the Tenderer represents that they have read, acknowledge, understood, agree to, and will act in accordance with the terms set forth in this ITT, including the "Terms and Conditions of the Tender", as may be modified from time to time, which can be found in Annex 2, Section 3.

Volume 2: Instructions to Tenderers and Evaluation Criteria

1. Introduction:

The goal of the MOBILIST Research and Policy platform (Project) is to build sustainable finance in emerging markets and developing countries at scale through research, communications, advocacy, and monitoring, evaluation, and learning. The platform looks to create the evidence base to help guide the growth of sustainable finance and direct finance towards where it is needed most: developing countries. The Services to be procured under this ITT are required for the Project's implementation as further explained under Volume 3 -Terms of Reference. The Project anticipates issuing a fixed price Subcontract for this work.

Tenderers are responsible for ensuring that their offers are received by Chemonics in accordance with the instructions, terms, and conditions described in this ITT.

2. Submission Procedure for Tenders:

Tenderers shall submit their tenders electronically by the submission deadline and at the email address in Volume 1- Key Procurement Information. <u>The Technical and the Commercial tender must be submitted separately, and the technical proposal must not have any references to cost information.</u>

Electronic submission of the tender must not exceed 3 attachments (5 MB limit) per email compatible with MS Word, MS Excel, readable format, or Adobe Portable Document (PDF) format in a Microsoft XP environment. Tenderers must not submit zipped files. Those pages requiring original manual signatures should be scanned and sent in PDF format as an email attachment.

The font size chosen for your tenders must not be less than Arial font size 10.

3. Eligibility Requirements

- a. The Tenderer must be an organisation incorporated or legally organised under the laws of its place of business and must have proper licenses or registration to deliver the Commodities or Services in the Country of Performance.
- b. No commodities or services shall be eligible for payment if provided by a vendor included on any list of suspended, debarred, or ineligible bidders used by the United Kingdom or the United States Government.
- c. Any and all items that are made by Huawei Technology Company, ZTE Corporation, Hytera Communications Corporation, Hangzhou Hikivision Digital Technology Company, Dahua Technology Company will not be accepted. If tenders include items from these entities, please note that they will be deemed not technically responsive and excluded from competition.
- d. Tenderer must submit the self-declarations and representations included in Annex 1 and shall pass Chemonics due diligence process.

ITT No. MOBILIST-RFP-008 Page **3** of **25**

4. Evaluation and Award:

An award will be made to the Tenderer whose proposal is determined to be responsive to this solicitation document and represents value for money to the Project.

In evaluating proposals, Chemonics will use the following evaluation criteria and sub-criteria:

Technical Evaluation Criteria	Maximum Score
Technical Approach and Methodology:	50
a. Technical know-how – Does the proposal clearly explain and respond to the objectives of the Project as stated in the Terms of Reference?	
b. Approach and Methodology – Does the proposed approach and detailed activities fulfil the requirements of executing the Scope of Work effectively and efficiently? Is the proposed approach and methodology feasible within the Deliverable Schedule?	
c. Sector/ Market Knowledge – Does the proposal demonstrate the Offeror's policy, sector and market knowledge as required by the SOW? This policy/sector/market knowledge includes index construction focused on emerging and frontier markets; expertise in analysis of asset allocation and the role of market indices; environmental, social, and governance (ESG) considerations in the context of market index construction; network among asset owners, managers and intermediaries, including investment advisors; and network among financial and regulatory actors in developed, emerging and frontier economies.	
d. Research Quality – Does the proposal demonstrate understanding of, and alignment with principles of high-quality research and Value for Money?	
e. Communications/Dissemination – Does the proposal articulate a compelling approach to impactful dissemination, including requisite networks and track record in deploying research to influence market participants, institutional investors, asset managers and intermediaries, MDBs, DFIs, policymakers, and regulators? Does the proposal present a compelling approach for market engagement and how this Design research will be disseminated and tested and how learnings will be translated into new products in the future?	
2. Management, Key Personnel, and Staffing Plan (Team)	20
Personnel Qualifications – Do the proposed team members have necessary experience and capabilities to carry out the Scope of Work?	
3. Corporate Capability:	30
 a. Company background: Does the Tenderer have the corporate capabilities, technical and administrative capacity to perform the Work? b. Past performance: Does the company have a demonstrated track record of informing and engaging institutional investors? 	

Total Technical score	100	
Commercial Criteria		l
The commercial proposal (Price) will not be scored. Cost/Price will primarily be evaluated for realism and reasonableness. If technical scores are determined to be nearly equal, the commercial proposal will become the determining selection factor. Chemonics will award a contract to the Tenderer whose proposal represents the best possible value for money to Chemonics. Chemonics reserves the right to award to a higher priced Tenderer if a determination is made that the higher technical evaluation of that Tenderer merits the additional cost/price. See Annex 2 Section 2 for Chemonics' operational definition of value for money.	NA	

5. Tender details

The following is the information required to be considered a responsive tender:

5.1 Cover letter: All tenders without exception must include a cover letter using Annex 1 as a basis. The cover letter includes the Subcontractor's declaration and must include all documentation necessary for Chemonics to do its due diligence process. The declaration must be signed by an authorised representative of the company. Chemonics reserves the right to request additional documentation as part of its due diligence.

5.2 Technical Proposal

The technical proposal shall comprise the following parts:

Part 1: Technical Approach and Methodology. This part shall be between 5 and 15 pages long but may not exceed 15 pages. The Tenderer shall describe the company's approach to performing the services as described in the Scope of Work in Section II. This may include but not limited to demonstrating how the tenderer will align with principles of high-quality research, as well as Value for Money, which are delineated within this document. The Technical Approach should also demonstrate how the tenderer will ensure that their deliverables present and disseminate findings in a way that is rigorous and impactful in informing the intended audience of market participants, MDBs and DFIs responsible for financial/investment decisions and strategies, issuers, asset managers and other intermediaries.

Part 2: Management, Key Personnel, and Staffing Plan. This part shall be between 2 and 5 pages long but may not exceed 5 pages. CVs for key personnel may be included in an annex to the technical proposal and will not count against the page limit.

Tenderers shall propose staff for the following key personnel positions necessary for the implementation of the scope of work:

- Design Research Lead, who will be the single point of contact accountable for both timeliness and quality of the Tenderer's deliverables in the context of the FCDO's Principles of High-Quality Research.
- Quality Assurer, who will provide challenge and feedback to the Design Research Lead on draft deliverables and should have specialized expertise relevant to the Scope of Work. This may be an individual internal or external to the Offering entity.
- Design Research Team, including an appropriate mix of qualitative and quantitative research and investment expertise to deliver the Scope of Work.

Part 3: Corporate Capabilities and Past Performance. This part shall be between 2 and 7 pages long but may not exceed 7 pages. This section must include a description of the company and organization, with appropriate reference to any parent company and subsidiaries. Tenderers must include details demonstrating their experience and technical ability in implementing the proposed technical approach/methodology and the detailed work plan. Additionally, Tenderers must include 2 to 3 past performance references of similar work (under contracts, subcontracts or grants) previously implemented as well as contact information for the companies/donors for which such work was completed. Contact information must include at a minimum: name of point of contact who can speak to the Tenderer's performance, name and address of the company/donor for which the work was performed, and email and phone number of the point of contact.

Chemonics reserves the right to check additional references not provided by the Tenderer.

5.3 Commercial Proposal

The commercial proposal is used to determine which proposals represent value for money and serves as a basis of negotiation before award of an agreement.

The price of the Agreement to be awarded will be all-inclusive price. No profit, taxes, or additional costs can be added after award therefore these costs must be included in the proposal budget. For the commercial proposal, Tenderers must provide a detailed budget showing major line items, i.e., Fees (Gross Daily Rates) and Expenses. The Gross daily rates for productive days included under Fees shall include personnel remuneration and benefits, overhead and profit/margin, if applicable. Expenses may include travel costs, monitoring and evaluation, supplies or equipment, insurance, VAT, etc.

All items, services, etc. must be clearly labelled and included in the total offered price. All cost information must be expressed in the currency in the Key Procurement Information in Volume 1.

The cost proposal shall also include a budget narrative that explains the basis for the estimate of every cost element or line item. Supporting information must be provided in sufficient detail to allow for a complete analysis of each cost element or line item. Chemonics reserves the right to request additional cost information if the evaluation committee has concerns of the reasonableness, realism, or completeness of a Tenderer's proposed cost.

Under no circumstances may cost information be included in the technical proposal.

ITT No. MOBILIST-RFP-008 Page 6 of 25

Volume 3. Terms of Reference

1. BACKGROUND

Mobilising Institutional Capital Through Listed Product Structures' (MOBILIST) is a flagship FCDO programme, recently supported by the Norwegian Agency for Development Cooperation (Norad), to mobilise large scale investment flows to emerging market and developing economies (EMDEs) through public markets. Its overarching strategic objective is to address the Sustainable Development Goal (SDG) finance gap by targeting institutional capital through listed product structures.

The MOBILIST programme has two pillars:

- A Product Platform which sources, selects and supports relevant financial institutions through the listing process with equity capital, advisory and technical assistance
- A Research and Policy Platform with supports the EMDE sustainable finance ecosystem through research, monitoring evaluation and learning (MEL), and communications/advocacy.

MOBILIST continues to sponsor an ambitious programme of research to inform and influence market actors, filling knowledge gaps and correcting misperceptions to enhance the volume and efficiency of capital allocated to emerging and frontier markets. Combined with MOBILIST seed capital and technical support for high potential firms and fund managers, MOBILIST's research outputs will help demonstrate the potential of emerging and frontier market listed assets for international portfolios. Ultimately, MOBILIST research will help enhance the flow of capital into assets that contribute to sustainable economic development in emerging and frontier markets, contributing at scale to the SDGs and Climate Finance objectives.

The gap we have identified for this piece of design research surrounds potential innovations in equity indices to capture opportunities for growth and diversification by investing in EMDEs. This piece builds on prior MOBILIST research into information asymmetries affecting asset allocation to emerging and frontier markets and prior MOBILIST analysis of the existing landscape of available market indices. Prior MOBILIST research identified the critical role of market indices in shaping the flow of capital to EMDEs. These indices drive the allocation of passively managed assets and serve as benchmarks against which actively managed funds are measured.

For the first time it takes MOBILIST research into the design of practical new solutions – benchmarks and potentially investment products – with potential to mobilise private capital through listed structures. MOBILIST research highlights challenges facing providers and users of existing equity indices, particularly for the frontier markets. Market participants report issues around concentration, frequent turnover of constituents, and misalignment with allocators' portfolio objectives. The mainstreaming of ESG considerations into market benchmarks has also raised the question of subjectivity in index construction, in turn heightening the attention of regulators across the developed markets.

Despite recent revisions to flagship equity benchmarks, companies listed in developing countries and developing country companies listed internationally remain underrepresented. These are the markets and companies that offer greatest diversification potential for global allocators, as larger emerging markets have become increasingly integrated into, and so correlated with, the

ITT No. MOBILIST-RFP-008

developed markets. As importantly, market capitalisation weighting strategies favour large established companies – often state- or family-owned conglomerates in EMDEs – over those with the most promising growth prospects. Both features mean that established benchmarks fail to capture opportunities for growth and diversification by investing in EMDEs.

Building on prototyping of alternative market indices, MOBILIST is commissioning detailed design, backtesting, and piloting with market participants of new benchmarks and, ultimately, linked investment products. This design research will comprise a landscaping of current indices, analysis of their impact on emerging and frontier market flows, and reflecting learnings into the design and construction of a pilot EMDE-focused index. In addition to alternative inclusion criteria and weighting strategies, index innovations could include indices comprising derivatives of underlying securities, for example to separate currency risk from other drivers of hard currency performance among emerging and frontier market assets. Each new index will be designed for scale and with clear routes to adoption among market participants. In isolation, technically attractive indices that lack support from market participants will have no impact on capital flows.

The design research should result **in a pilot index** that would correct for potential issues with existing indices as they relate to investments in emerging and frontier markets. This solution should include a combination of (i) pilot index construction that is tested with market participants; and (ii) recommendations in relation to ensuring the uptake at scale of the index. MOBILIST's engagement with market participants to date confirms challenges with existing benchmarks, feasibility of alternatives, but also high switching costs that maintain the status quo. By generating a public good in the form of practical research and experimentation that reduces these costs, indices prepared through this project may be able to have systemic impact over time on EMDE capital flows.

2. SCOPE OF WORK

The proposed design research will review the existing indices and asset allocation to emerging and frontier markets. It will build on learnings from these indices and construct one or more index that addresses the risks and opportunities presented in EMDE and propose measures to ensure uptake and make the index commercially viable at scale.

The Tenderer's deliverables should provide current, original, actionable insights on the following Design Questions:

- 1. **Ideation**: Building from existing prototypes, what alternatives to mainstream benchmarks could increase the flow of capital into EMDEs by better meeting the objectives of managers' and allocators' emerging and frontier market portfolio strategies?
- 2. **Feasibility**: To what extent are high potential alternative indices feasible with existing data, and where data are missing how could they be collected? To what extent would these alternatives meet investors' demands?
- 3. **Backtesting**: How do alternative benchmarks perform relative to existing emerging and frontier market indices in the context of (i) dedicated emerging and frontier equity or cross-asset strategies and (ii) globally diversified portfolios? In addition to price and income performance, backtesting

ITT No. MOBILIST-RFP-008 Page 8 of 25

would consider volatility, liquidity, correlation with each portfolio and ultimately investability of each proposition.

- 4. **Piloting**: How do the most promising benchmarks perform in a pilot with one or more market participants? To what extent could these benchmarks augment asset allocation by both global institutional investors and emerging and frontier market portfolio managers?
- 5. **Scale:** What are the routes to adoption at scale of successful benchmarks?

Progressing through each stage of the design research would be dependent on the supplier's satisfactory performance of the preceding phase.

The Tenderer is expected to design a compelling methodology, which will follow the routine workflow associated with the development of a new market index. Findings would be made publicly available in a series of short briefing notes prepared at the end of each phase. This ensures that the wider market of index providers and investment managers benefits from the proposed design research and is able to build additional benchmarks and investment products based on this learning. The Tenderer will be supported by a Research Advisory Panel of experts from FCDO, from the practitioner community, and from the academic community.

The Final Design Research Report will be made available online on MOBILIST's website and through targeted dissemination with the intended audience at the discretion of MOBILIST and FCDO. The Tenderer will be required to contribute to and/or lead elements of this dissemination strategy. All relevant content produced should be MOBILIST branded and acknowledge FCDO funding. Cobranding or alternative branding requests will be made at the discretion of MOBILIST and FCDO. All core research and external communications materials including media engagements must be approved by MOBILIST's research and communication teams.

3. DELIVERABLES OR OUTPUTS DESCRIPTION

Deliverable No. 1: Inception Report

A 5–7-page Inception Report detailing:

- Finalised design plan
- Final methodology and workplan
- Risks and mitigants
- Dissemination plan

The report would be subjected to up to 2 rounds of review and feedback

Deliverable No. 2: Ideation Report

A short (8-10 page) briefing note summarising findings from the Ideation Phase and comprising:

- Executive Summary
- Research questions
- · Review of existing emerging and frontier market indices
- Assessment of fit with allocators' objectives based on existing evidence and expert insight

- Long-list of alternative index construction methods with potential to correct for any misalignment
- Short-list of most promising alternatives
- Recommendations for Feasibility and Backtesting Phases

The report would be subjected to up to 2 rounds of review and feedback.

Deliverable No. 3: Feasibility and Backtesting Report

A short (15-20 page) briefing note summarising findings from the Feasibility and Backtesting Phases and comprising:

- Executive Summary
- Feasibility analysis for short-list of alternative indices
- Backtesting analysis of feasible alternative indices
- Recommendations for Piloting Phase

The report would be subjected to up to 2 rounds of review and feedback.

Deliverable No. 4: Final Report

A full report summarising findings from the entire project and comprising:

- Executive Summary
- Research questions
- Methodology
- Ideation summary
- · Feasibility and backtesting summary
- Preferred index(es) construction methodology
- Piloting analysis
- Recommendations for uptake at scale and commercial sustainability

The report would be subjected to up to 3 rounds of review and feedback (including with the Research Advisory Panel).

Deliverable No. 5: Research Presentation

A summary Research Presentation in the form of a slide deck, comprising headlines from each section of the Final Report, including:

- Executive Summary
- Research questions
- Methodology
- Ideation summary
- Feasibility and backtesting summary
- Piloting analysis
- Recommendations for uptake at scale and commercial sustainability

This will be presented to an internal audience comprising the MOBILIST programme and FCDO.

Deliverable No. 6: Research Dissemination and Uptake

Working with MOBILIST's research and communication teams, the Tenderer will prepare and execute a dissemination plan and accompanying uptake monitoring plan. During inception, MOBILIST will work

ITT No. MOBILIST-RFP-008 Page **10** of **25**

with the Tenderer to agree on a key target audience and communication objectives. As the research progresses and before the research concludes, the Tenderer will prepare a communication plan that meets the agreed objective. MOBILIST will review and provide guidance to the awardee. At a minimum, this dissemination will include:

- An externally facing event (online or offline) to share findings with MOBILIST stakeholders and the development finance ecosystem
- An externally-facing abstract of the research and key findings
- An 800-word blog that summarises the findings and integrates into the news cycle

The team will also be expected to work closely with MOBILIST's communications and research teams who will sign off on all communications content. The Tenderer will be asked to sign off on select content that MOBILIST produces about the research itself, including, for example, blogs and social media.

4. PRICING AND DELIVERABLE SCHEDULE

Chemonics will make each payment in accordance to and as described in the table below, after Vendor's/Subcontractor's completion and Chemonics acceptance of the corresponding deliverable as indicated.

Deliverable Number	Deliverable Name	% Deliverable price (excluding VAT)	Due Date
1	Inception Report	~ 20%	March, 2024
2	Ideation Report	~ 10%	April, 2024
3	Feasibility and Backtesting Report	~ 15%	June 2024
4	Final Report	~ 40%	September 2024
5	Research Presentation	~10%	September 2024
6	Research Dissemination and Uptake	~5%	October 2024

Chemonics will pay invoices within thirty (30) calendar days after both a) Chemonics' approval of the Commodities or acceptance of Services, and b) Chemonics' receipt of a valid invoice.

5. DUTY OF CARE

The Vendor/Subcontractor will be responsible for their own safety and well-being and Third Parties affected by the Vendor/Subcontractor's activities under any resulting Agreement, including appropriate security arrangements. The Vendor/Subcontractor will also be responsible for providing suitable security arrangements for their domestic and business property.

[Tenderer: Insert date]

MOBILIST Research and Policy Platform

MOBILIST-RFP-008

Partner Selection Questionnaire

Potential Subcontractor Information and Exclusion Grounds: Part 1 and Part 2

This Partner Selection Questionnaire is a self-declaration, made by you (the Potential Subcontractor), that you do not meet any of the grounds for exclusion¹. If there are grounds for exclusion, there is an opportunity to explain the background and any measures you have taken to rectify the situation.

A completed declaration of Part 1 and Part 2 provides a formal statement that the organisation making the declaration has not breached any of the exclusion grounds. We require all subcontractors that we will rely on to meet the selection criteria set forth in the above-referenced Invitation to Tender to provide a completed Part 1 and Part 2.

If you seriously misrepresent any factual information in filling in the Partner Selection Questionnaire, and so induce Chemonics International Inc. to enter into a subcontract, you may be excluded from the procurement procedure and from partnering with Chemonics in the future. If a subcontract has been entered into, the subcontract may be terminated for default.

[letter headed notepaper] Subcontractor Declaration

To: Chemonics International Inc.

Date: [Date]

I confirm that:

- We have agreed in principle with Chemonics International Inc., to deliver the following elements of the service described in their tender:
 - Design Research on Index construction
- I have read and understood the specification for the elements of provision, which my organisation will deliver.
- I have agreed in principle with the terms of delivery for this provision and am content that reasonable and appropriate price and payment terms will be negotiated and agreed for delivery of these services at the Invitation to Tender stage.
- The agreement in principle allows for my organisation to implement the appropriate level of planning and investment to deliver the service.
- The agreement made is consistent with the general principles set out in the DFID Code of Conduct.

In relation to personnel nominated to work on this project, my organisation confirms that:

- All personnel will be available to provide the required services for the duration of the subcontract.
- If nominating a member of the Foreign, Commonwealth and Development Office (FCDO) staff who is in service, or on leave of absence, or has been a staff member of FCDO within the past 2 years, the individual shall obtain prior written agreement from FCDO's Human Resources Department. A copy of this agreement must be provided to Chemonics International Inc.
- If nominating an ex-UK Crown Servant who has left the service within the past 2 years, my organisation shall provide to Chemonics International Inc. a letter from their Crown Service employer granting permission for them to undertake the services.

I declare that:

- To the best of my knowledge the answers submitted, and information contained in this document are correct and accurate.
- Upon request and without delay I will provide the certificates or documentary evidence referred to in this document.

I understand that:

- The information contained in this document will be used in the selection process to assess my
 organisation's suitability to be invited to participate further in this procurement.
- Chemonics International Inc. may reject this submission in its entirety if there is a failure to answer all the relevant questions fully, or if false/misleading information or content is provided in any section.

I am aware of the consequences of serious misrepresentation.

By attaching this declaration, my organisation will be deemed to agree to their contents.

Annex 2 - Chemonics Tendering Conditions:

The following Ethical and Business Conduct requirements, Definitions and Terms form a material part of the ITT.

Section .1 Ethical and Business Conduct Requirements

Chemonics is committed to integrity in procurement, and only selects suppliers based on objective business criteria such as price and technical merit. Chemonics expects suppliers to comply with our Standards of Business Conduct, available at https://www.chemonics.com/our-approach/standards-business-conduct/ and the FCDO Supplier Code of Conduct available at: https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/9 26545/Supply-Partner-Code-of-Conduct-FCDO-oct20.pdf.

Chemonics does not tolerate fraud, collusion among Tenderers, falsified proposals/bids, bribery, or kickbacks. Any firm or individual violating these standards will be disqualified from this procurement, barred from future procurement opportunities, and may be reported to Chemonics' Client.

Tenderers will ensure they comply with all applicable laws and regulations in force of the country in which the Tenderers is registered and the country where the services are to be wholly or partially performed, including, but not limited to tax laws, environmental, legal and social obligations, anti-corruption laws, anti-bribery laws and anti-terrorism laws. The Tenderers also represents that neither it, nor to the best of its knowledge any of its personnel, servants or agents or any person acting on its behalf, have at any time prior to and during the term of this proposal appeared on the Home Office Proscribed Terrorist Organisations List and/or the Consolidated United Nations Security Council Sanctions List.

The Tenderers must certify that the Tenderers, or its principals, is not debarred, suspended, or proposed for debarment or declared ineligible for award by any UK department or agency or by the U.S. OFAC (Office of Foreign Assets Control List) of Specially Designated Nationals and Blocked Persons at http://www.treas.gov/offices/enforcement/ofac/sdn.

Chemonics takes a zero-tolerance approach towards human trafficking consistent with the United Kingdom Government's anti-trafficking and safeguarding efforts guided by Safeguarding Vulnerable Groups Act 2006. The Tenderers shall therefore comply with, all applicable anti-slavery and human trafficking laws, statutes, regulations and codes from time to time in force including the Modern Slavery Act 2015.

The Tenderers warrants that at the time of submitting this proposal they are not aware of any present or future matter that may give rise to any real or perceived conflict of interest with this proposal and/or the Project. If a real or perceived conflict of interest arise, the Tenderers will notify Chemonics immediately in writing.

Employees and agents of Chemonics are strictly prohibited from asking for or accepting any money, fee, commission, credit, gift, gratuity, object of value or compensation from current or potential vendors or suppliers in exchange for or as a reward for business. Employees and agents engaging in this conduct are subject to termination and will be reported to Chemonics' Client. In addition, Chemonics will inform its Client of any supplier offers of money, fee, commission, credit, gift, gratuity, object of value, or compensation to obtain business.

ITT No. MOBILIST-RFP-008 Page **20** of **25** Version: 29 December 2022 Please contact the Point of Contact or Chemonics Office of Business Conduct listed in the Key Procurement Information with any questions or concerns regarding the above information or to report any potential violations.

Section 2. ITT Definitions

The following definitions apply to Chemonics invitations to tender as applicable:

- a. "Agreement" refers to a contract that will be executed as a result of this tendering process between Chemonics (Buyer) and the selected Tenderer (Seller). It can be a Subcontract, or a Vendor Agreement as defined below.
- b. "Anticipated date of award" is the date that Chemonics expects to sign the Agreement with the Vendor/Subcontractor.
- c. "Anticipated date of mobilisation" is the date Chemonics expects the Vendor/Subcontractor to commence work.
- d. "Authority or Chemonics Client" means an entity that has contracted Chemonics to implement the Project referenced on the cover page.
- e. "Chemonics" acting as the "Buyer" means Chemonics Group UK Ltd. or a branch or subsidiary implementing the Project.
- f. "Commodities" means the supplies or items set out in Volume 3 and such other items as the parties may agree in writing from time to time to be delivered by the Vendor/Subcontractor.
- g. "Country of Performance" means the country(ies), identified in the Key Procurement Information, where the Services are rendered and/or Commodities will be used.
- h. "Eligible Vendor/Subcontractor" means an entity that complies with the ITT eligibility requirements and that has passed Chemonics due diligence process.
- i. "FCDO" means Foreign Commonwealth & Development Office and includes any successor departments of the U.K. Government.
- j. "Framework agreement or Blanket Purchase Agreement (BPA)" is a draw-down or umbrella type agreement that establishes the pricing, terms, and conditions for the as-needed purchases. This agreement allows the Project to issue specific purchase orders, on an as-needed basis, for the procurement of Commodities/Services over the Period of Performance. Chemonics is only obligated to pay for Commodities/Services ordered through purchase orders issued under this agreement and delivered by the Vendor in accordance with the terms & conditions. All unit prices included in the Tender must remain fixed for the initial Period of Performance of the Framework.
- k. "In-Person Presentations" means an invitation for the best ranked Tenderers to present their proposed technical proposal.
- I. "ITT Clarifications" is the opportunity Tenderers have to ask questions on the ITT. Questions or clarifications shall only be sent to the Point of Contact and no later than the date and time specified in the Key Procurement Information. To ensure equity, responses will be notified to all Tenderers (where deemed appropriate by Chemonics) without disclosure of the initiator. Only written answers from Chemonics will be considered official and carry weight in the tendering process and subsequent evaluation. Any answers received outside the official channel, whether received verbally or in writing, from employees or representatives of Chemonics or any other party, will not be considered official responses regarding this ITT.
- m. "ITT Conference day" means a conference set prior to the Submission deadline where Tenderers are invited to discuss the conditions of the ITT and the Terms of Reference.
- n. "Legal Services Agreement or LSA" constitutes a contract issued to provide legal advice for Project implementation on an as-needed basis.
- o. "Maximum Budget" is the maximum amount available or authorised for the total procurement. Tenders are expected to be below this amount unless specified in the ITT.

- p. "Plug Figure" is an amount of money that the Project expects to be budgeted or reflected in the proposed budget. i.e., travel costs for £25,000 or a programmatic audit for £5,000.
- q. "Proposal validity" means a period, expressed in calendar days, in which proposed prices must remain valid after the ITT deadline. If an evaluation process is delayed, Chemonics reserves the right to request extension of the offer validity period.
- r. "Project" is the project that Chemonics is engaged to deliver pursuant to the provisions of the Prime Contract.
- s. "Purchase Order or PO" constitutes an agreement issued which includes a description of the Commodities and/or Services and the Schedule of Prices stipulated for the individual order.
- t. "Services" means the services set out in Volume 3 to be delivered by the Vendor/Subcontractor.
- u. "Subcontract" means a contractual agreement for services or facilities which *are material* for the provision of services under the head contract with the Authority.
- v. "Subcontractor" means the entity selected by Chemonics to supply the Commodities and/or Services under a Subcontract resulting from this ITT.
- w. "Time and Materials Vendor Services Agreement or VSA" constitutes a contract issued which includes a description of the Services and the Workdays being Ordered. The Schedule of Prices is expressed in Time (Gross daily rates) and Materials (expenses).
- x. "Transportation Services Agreement or TSA" constitutes a contract issued to provide transportation (car plus driver) for Project implementation.
- y. "Tenderer" means the entity submitting a tender or bidding under this ITT.
- z. "U.K." means the United Kingdom including its provinces, states and territories.
- aa. "U.S." or "United States" means the United States of America, including any State(s) of the United States, the District of Columbia, and areas of U.S.-associated sovereignty, including commonwealths, territories and possessions.
- bb. "Value for Money or VfM" is defined as the "optimum combination of whole-life cost and quality to meet requirements in a fully transparent manner". The concept of VfM also includes the "4 E".
 - i. Economy: ensuring how teams will gather up-to-date information on cost drivers to deliver the most economical approach.
 - ii. Efficiency: project learning exercises reflect operational lessons to improve efficiency of the delivery strategy.
 - iii. Effectiveness: present Key \Performance Indicators (KPI) and project indicators that show how the project is achieving results.
 - iv. Equity: how the project is addressing gender equality, disability, and leaving no one behind.
- cc. "Vendor" means the entity selected by Chemonics to supply the Commodities and/or Services under a vendor agreement resulting from this ITT. Examples of vendor agreements are PO, VSA, TSA, LSA as defined herein.
- dd. "Vendor Agreement" means a contractual agreement for ancillary services or commodities which *are not material* for the provision of services under the head contract.

Section 3. Terms and Conditions of the Tender

The following terms and Conditions apply to this ITT

- a) This is an invitation to tender (ITT) only. Issuance of this ITT does not in any way obligate Chemonics, the Project, or Chemonics Client to make an award or nor does it commit Chemonics to pay any costs incurred in the preparation and submission of the proposals. *
- b) Chemonics may cancel this ITT at any time.
- c) Late tenders may be considered at the discretion of Chemonics.
- d) Chemonics reserves the right to reject any and all offers, if such action is considered to be in the best interest of Chemonics.
- e) If there are significant deficiencies regarding responsiveness to the requirements of this ITT, a tender may be deemed "non-responsive" and thereby disqualified from consideration. Chemonics reserves the right to waive immaterial deficiencies at its discretion.
- f) Complaints/Appeals: The Tenderer agrees that any complaint or appeal hereunder must be presented—in writing with full explanations—to the Point of Contact in the Key Procurement Information in Volume 1 for consideration. Chemonics, at its sole discretion, will make a final decision on the complaints/appeals for this procurement. By submitting a Tender hereunder, the Tenderer understands that the Authority/Chemonics Client is not a party to this solicitation and will not entertain appeals from Vendors/Subcontractors. *
- g) Tenders must provide their best offer. It is anticipated that award will be made solely based on these original offers. However, Chemonics reserves the right to conduct negotiations with and/or request clarifications from any Tenderer prior to award.
- h) The Agreement issued by Chemonics will contain provisions required by the Authority and will be subject to Chemonics' standard terms and conditions. <u>A copy of the full terms and conditions is attached separately to this RfP.</u>
- i) An Agreement resulting from this ITT will only be issued to the entity submitting the tender in response to this ITT; payments for Commodities or Services provided under such will not be issued to a third party. *
- j) For Framework agreements only: Any award resulting from this ITT will be in the form of a Framework Agreement (FA). The Project anticipates issuing a FA (or multiple FAs) under which specific purchase orders can be issued—on a demand driven basis—at the pricing levels established in the FA. When the need arises for the commodities/services described in the FA, the Project will issue a purchase order to the FA-holder. If there are multiple FA-holders as a result of this ITT, the purchase order will be issued to the FA-holder that presents value for money for that specific order, based on price and delivery time.
- k) Tenders are encouraged to view <u>Chemonics Data Privacy Policies</u> to see how we process your personal data. *
