1 Scheme Type

This scheme is a value band C (£250k to £1m) Road Renewal Scheme.

2 Scheme Description

The purpose of this scheme is to carry out localised full depth reconstruction of a continuous reinforced carriageway on a section of three lane motorway. The full depth reconstruction is primarily to pot holes in lane 1 wheel tracks.

The works will include:

- Provision of temporary accommodation or all necessary facilities to meeting health and safety requirements;
- Provision and installation of information boards;
- Renewal of no more than 3000m of safety barrier;
- Break out and reinstate full depth concrete pavement construction in no more than 30 areas with each area not greater than 20m² including reinstatement of sub-base, reinforcement and tie-bars as required;
- Reinstatement of carriageway road markings and road studs as required;

3 Road category on which the work is to be carried out

The works will take place on a dual three lane motorway

4 Traffic Management

The traffic management layout to be utilised to undertake the works is closure of the hard shoulder and lane 1 of a three-lane motorway.

5 Period within which the work is to be carried out

The works are to be carried out within Time Band 9.

6 Site Restrictions and Constraints

The following restrictions and constraints exist at the works location:

- Traffic flows are such that traffic management overnight is only likely to be feasible between 20.00hrs Friday and 6.00 Monday without incurring unacceptable delay

7 Indicative Programme

The works are to be completed within 3 weeks.
