All such documents shall be evidenced in writing and shown to the Authority on request. Sub-contracting any part of the Contract shall not relieve the Supplier of any of its obligations or duties under the Contract.
- F4.2 The Supplier shall be responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Supplier shall provide each Sub-Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Services fully in accordance with the Contract.
- F4.3 The Supplier shall ensure that its Sub-Contractors and suppliers retain all records relating to the Services for at least six (6) years from the date of their creation and make them available to the Authority on request in accordance with the provisions of Clause E9 (Audit). If any Sub-Contractor or supplier does not allow the Authority access to the records then the Authority shall have no obligation to pay any claim or invoice made by the Supplier on the basis of such documents or work carried out by the Sub-Contractor or supplier.
- F4.4 If the Authority has consented to the award of a Sub-Contract, the Supplier shall ensure that:

 - (b) the Sub-Contractor includes a provision having the same effect as set out in Clause F4.4(a) in any Sub-Contract which it awards; and
 - (c) copies of each Sub-Contract shall, at the request of the Authority, be sent by the Supplier to the Authority immediately.
- F4.5 If the Authority believes there are:
- (a) compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Supplier shall replace or not appoint the Sub-Contractor; or
 - (b) non-compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Authority may require the Supplier to replace or not appoint the Sub-Contractor and the Supplier shall comply with such requirement.

- F4.8 The Supplier shall ensure that the Assignee notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment.
- F4.9 The provisions of Clause C2 shall continue to apply in all other respects after the assignment and shall not be amended without Approval.
- F4.10 Subject to Clause F4.11, the Authority may assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof to:
- (a) any Contracting Authority;
 - (b) any other body established or authorised by the Crown or under statute in order substantially to perform any of the functions that had previously been performed by the Authority; or

- provided that any such assignment, novation or other disposal shall not increase the burden of the Supplier's obligations under the Contract.
- F4.11 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to Clause F4.12, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.
- F4.12 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to Clause F4.10 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the **"Transferee"**):
- (a) the rights of termination of the Authority in Clauses H1 and H2 shall be available to the Supplier in respect of the Transferee; and
 - (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Supplier.
- F4.13 The Authority may disclose to any Transferee any Confidential Information of the Supplier which relates to the performance of the Supplier's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Supplier's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.
- F4.14 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Contract.

F5 Waiver

- F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.
- F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with Clause A4 (Notices and Communications).
- F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6 Variation

- F6.1 If, at any time after the Commencement Date, the Authority's requirements change the Authority may request a Variation subject to the terms of this Clause F6.
- F6.2 The Authority may request a Variation by notifying the Supplier in writing of the Variation and giving the Supplier sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Supplier accepts the Variation it shall confirm it in writing.
- F6.3 If the Supplier is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:
- (a) allow the Supplier to fulfil its obligations under the Contract without the Variation to the Specification; or
 - (b) terminate the Contract immediately except where the Supplier has already delivered all or part of the Vaccines or where the Supplier can show evidence of substantial work being carried out to fulfil the requirements of the Specification; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in Clause I2 (Dispute Resolution).
- F6.4 No Variation will take effect unless and until it is recorded in a validly executed CCN. Execution of a CCN is made via electronic signature as described in Clause 1.2 of Section 1 of the Contract.
- F6.5 A CCN takes effect on the date on which the Parties communicate acceptance of the CCN via Bravo and, on the date it communicates its acceptance of the CCN in this way, the Supplier is deemed to warrant and represent that the CCN has been executed by a duly authorised representative of the Supplier in addition to the warranties and representations set out in Clause G2.
- F6.6 The provisions of Clauses F6.4 and F6.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Variation in order to address the emergency. In an emergency, Variations may be approved by a different representative of the Authority. However, the Authorised Representative shall have the right to review such a Variation and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Variation.

F7 Severability

- F7.1 If any provision of the Contract which is not of a fundamental nature is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision

shall be severed and the remainder of the provisions of the Contract shall continue in full force and effect as if the Contract had been executed with the invalid, illegal or unenforceable provision eliminated.

F8 Remedies Cumulative

F8.1 Except as expressly provided in the Contract all remedies available to either Party for breach of the Contract are cumulative and may be exercised concurrently or separately, and the exercise of any one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.

F9 Entire Agreement

F9.1 The Contract constitutes the entire agreement between the Parties in respect of the matters dealt with therein. The Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any fraudulent misrepresentation.

H10 Exit Procedures

- H10.1 Where the Authority requires a continuation of all or any of the supply of Vaccines on expiry or termination of this Contract by engaging a third party to supply them, the Supplier shall co-operate fully with the Authority and any such third party and shall take all reasonable steps to ensure the timely and effective transfer of the supply of the Vaccines without disruption to routine operational requirements.

- H10.2 The following commercial approach shall apply to the transfer of the supply of the Vaccines if the Supplier:

The submission to such jurisdiction shall not limit the right of the Authority to take proceedings against the Supplier in any other court of competent jurisdiction, and the taking of proceedings in any other court of competent jurisdiction shall not preclude the taking of proceedings in any other jurisdiction whether concurrently or not.

I2 Dispute Resolution

- I2.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Contract within 20 Working Days of either Party notifying the other of the dispute and such efforts shall involve the escalation of the dispute to the finance director of the Supplier and the commercial director of the Authority.

- 12.5 The procedure for mediation and consequential provisions relating to mediation are as follows:

UK	means the United Kingdom of Great Britain and Northern Ireland

2. Title of Contract and background

2.1. Purchase, storage and delivery of C-strain Vaccine against Classical Swine Fever.

2.2. Outbreaks of CSF in the UK are infrequent events, the last occurring in the year 2000 during which vaccination was not used. An assessment of the threat to the UK is kept under review and published regularly on GOV.UK. At the commencement of this Contract the threat to the UK is very low. A CSF disease control strategy is also published on GOV.UK indicating that vaccination is not a routine control measure. However, an outbreak could occur at any time which could be of a scale where Vaccine will be required and therefore the Authority must have rapid access to its Vaccine.

3. Purpose and overview of requirements

3.1. At all times during the Contract Period, the Supplier shall provide 150 000 (one hundred and fifty thousand) Doses of live attenuated C-strain Vaccine against CSF to the Authority. The Supplier shall manage this stock throughout the Contract Period such that at any time the Authority is able to Draw-down some or all of this stock for Delivery to the Authority's Premises.

3.2. Unless and until the Vaccine is Drawn-down by the Authority, the Supplier will remain responsible for the safe storage of the Vaccine at the Storage Facility in accordance with paragraph 5.

3.3. The Authority shall give not less than three (3) Working Days' notice that it requires some or all of the Vaccine to be Delivered to a location specified by the Authority in the UK. The Vaccine Delivered shall have at least 3 (three) months remaining shelf-life at the time of Delivery.

4. Requirements for the production of Vaccine

4.1. The Vaccine shall be a live attenuated C-strain for intramuscular injection of domestic pigs. The Vaccine shall not be a GMO.

4.2. The Vaccine shall have a valid Marketing Authorisation in the UK or an EU member state, or a Centralised Marketing Authorisation.

4.3. The Vaccine shall be produced according to the principles of the then-current Manual of Diagnostic Tests and Vaccines for Terrestrial Animals of the World Organisation for Animal Health (OIE) and the European Pharmacopoeia monographs and guidelines. The Vaccine shall be produced to Good Manufacturing Practice standards. The Vaccine shall meet all of the OIE's guidelines for CSF Vaccine. Chapter 2.8.3 of the OIE manual 'Classical Swine Fever: C. Requirements for Vaccine' is available here: http://www.oie.int/fileadmin/Home/eng/Health_standards/tahm/2.08.03_CSF.pdf

4.4. The Supplier shall produce and store 150,000 (one hundred and fifty thousand) Doses of the Vaccine by 29 March 2019.

4.5. The Vaccine shall be suitable for use in all adult domestic pigs (including pregnant sows) and shall be suitable for use in weaners from 6 [six] weeks of age. The Vaccine shall ensure (and the Supplier shall provide such data and evidence to the Authority to demonstrate) that onset of immunity is achieved in 14 days or less after inoculation and that it provides a duration of immunity of at least 6 [six] months following a single Dose of Vaccine. Where Vaccine is deployed suppressively the Vaccine shall act quickly to suppress the production of virus prior to culling of pigs. Where Vaccine is deployed protectively the Authority's strategy is to protect breeding pigs, in particular breeding sows.

The Vaccine shall be suitable for use in both male and female pigs and shall prevent trans-placental transmission of CSF and shall not result in trans-placental transmission of Vaccine virus.

5. Requirements for the storage of the Vaccine

5.1. The Supplier shall store the Vaccine according to the principles of the then-current update of the Manual of Diagnostic Tests and Vaccines for Terrestrial Animals of the World Organisation for Animal Health (OIE). The Supplier shall guarantee that the Vaccine is stored appropriately with consideration of other pathogens worked on at the site and in accordance with Good Manufacturing Practice standards. The Supplier shall provide the Authority with detailed information on:

- the place and conditions under which the Vaccine is stored;
- the date of expiry of the Vaccine under such conditions;
- the monitoring and testing protocols used to guarantee quality; and
- the guarantees offered as regards safety of storage.

5.2. The Supplier shall be responsible for guaranteeing that the Vaccines maintain their efficacy, safety, innocuity and sterility throughout their storage period and shall perform all agreed testing of the Vaccines to confirm this in case of any changing condition in storage that may alter these characteristics. The Supplier shall inform the Authority immediately about the time and conditions of such an incidence as well as about the tests that will be performed upon the stored Vaccines and the time required for their completion. Results of such tests shall be reported, in the form of a written report, to the Authority within 2 (two) weeks following their completion.

5.3. The Vaccine shall not be held in vials of more than 150 [one hundred and fifty] Doses. When new Vaccine is produced under this Contract, the vial sizes shall be agreed between the Authority and the Supplier at the time of manufacturing. Where the stock is to be drawn from Vaccine already manufactured, the Supplier shall state the vial sizes that can be provided and shall use its best endeavours to meet the required profile of vial sizes. The Authority and the Supplier shall agree the vial sizes to be Delivered to the Authority's Premises when the Authority requests Draw-down of Vaccine.

5.4. The Supplier shall provide a report to the Authority of the stock of Vaccine held: (i) when the Vaccine is initially placed into storage for the Authority; and (ii) whenever Vaccine is replaced or the stock levels are increased in accordance with paragraph 8. This report shall set-out the number of Doses held, their remaining shelf-life and the size of vial in which they are held.

5.5. The Supplier shall follow recommendations for labelling according to the European Pharmacopoeia guidelines for a full Marketing Authorisation, which will include information on the volume of the vials, the expiry of the Vaccine, and the number of Doses per vial. Labelling shall be appropriate, ensure accurate identification and ensure labels cannot be lost/mixed. All labels and accompanying product information of the Vaccines delivered shall be in the English language.

5.6. The Supplier shall send to the Authority the Batch Release protocols (detailing in-process and finished product tests) for all Vaccine held in storage on behalf of the Authority, as soon as these are available.

6. Testing (in addition to any tests already carried out by the Supplier).

- 6.1. Within 20 (twenty) calendar days of a request from the Authority the Supplier shall send a sample to the Assigned Laboratory of 3 (three) vials of between 25 (twenty-five) and 50 (fifty) Doses of Vaccine from the batch or batches held for the Authority at the Supplier's Storage Facility. This shall be accompanied by full information on the procedure used for their production, including production date and date of expiry, as well as a list of all biological materials used and their origin, results of efficacy, safety, innocuity, sterility tests and any other tests carried out in relation to this batch. The Supplier shall bear all relevant costs in relation to the above consignment. This may be requested a maximum of 3 (three) times during the Initial Contract Period, except that, in addition, it may also be requested by the Authority if the Supplier reports a change to conditions of storage as described in paragraph 5 (*Requirements for the Storage of Vaccine*).
- 6.2. The Authority or its agent may carry out tests on the above sample to assess the technical compliance of the Vaccine as described in paragraphs 4 and 5 above.
- 6.3. Where Vaccine vials are requested for testing under this paragraph 6, the total volume being held in stock is reduced accordingly.

7. Requirements for the Delivery of the Vaccine

- 7.1. The Supplier shall Deliver some or all (as the Authority may require) of the Vaccine stock held in store, within 3 (three) Working Days following notice by the Authority detailing the Vaccine to be delivered, to a UK location specified by the Authority.
- 7.2. In cases of emergency, where the quantity of Vaccines in stock at the Storage Facility are not sufficient to cover the Authority's assessed needs at that time, and where a further shipment of Vaccines to the UK is therefore required by the Authority, the Authority reserves the right to negotiate directly with the Supplier the specific terms and conditions of such a shipment using Vaccines from the Supplier's own reserves.
- 7.3. The relevant purchase and consignment costs of the Vaccines in the above exceptional shipments shall in any case not be higher than the price of Vaccines set out in part 1 of Schedule 2 of this Contract.

8. Requirements for the replenishment of Vaccine stock and/or supply of additional Vaccine stock

- 8.1. The Supplier shall ensure that 150,000 (one hundred and fifty thousand) Doses of Vaccine are available in stock to be Drawn down throughout the Contract Period (less any number of Doses already Drawn-down by the Authority and not replenished in accordance with paragraph 8.2 below, and subject to any increase in the Authority Stock level of Vaccine pursuant to paragraph 8.3 below). The Supplier shall ensure that such Vaccine shall always have a remaining shelf life of at least 3 (three) months at the point of Delivery to the Authority.
- 8.2. Where Vaccine stock is Drawn-down, the Supplier shall replenish Vaccine stock levels where requested by the Authority. Such replenishment shall take place within 90 (ninety) days of the Draw-down or such other period as the Authority may agree in writing on a case by case basis, at a price to be agreed between the parties (acting reasonably and in good faith) providing such price does not exceed the price per unit of Vaccine set out in part 1 of Schedule 2.
- 8.3. The Authority may request an increase to the Authority Stock level up to a maximum of 450,000 (four hundred and fifty thousand) Doses to be held at any one time, at a price to be agreed between the parties (acting reasonably and in good faith) providing such price does not exceed the price per unit of Vaccine set out in part 1 of Schedule 2.

9. Consequences of expiry/termination of Contract

- 9.1. On early termination of the Contract pursuant to any of clauses H1 to H4 (inclusive), the Supplier shall buy-back unused Vaccine which has not been Delivered to the Authority. The value of such buy-back shall be as set out in Schedule 2.
- 9.2. On termination or expiry of the Contract (howsoever arising) at the end of the Initial Contract Period or an Extension (as the case may be), any remaining Vaccine held in stock at the Storage Facility will revert to the ownership of the Supplier. The Supplier will be responsible for the destruction and disposal or redeployment of the Vaccine as it sees fit.

10. Documentation for Supplier's

- 10.1 The last existing update of the Manual of Diagnostic Tests and Vaccines for Terrestrial Animals of the World Organisation for Animal Health (OIE) is available on the organisation's website (English version): <http://www.oie.int/international-standard-setting/terrestrial-manual/access-online/>

11. Invoicing Schedule

- 11.1 Upon commencement of the Contract the Supplier shall submit an invoice for the "Vaccine Fee" as set out in Schedule 2 of the Contract.
- 11.2 six [6] months after the Contract start date, and every subsequent 6 [six] months the Supplier shall submit an invoice for the management, storage requirements specified, the "Management Fee" and set out in Schedule 2 of the Contract.
- 11.3 In the event of Draw-down of Vaccine by the Authority, the Supplier shall submit an invoice for Delivery charges as set out in Schedule 2 of the Contract.

12. Performance Management Framework (including Key Performance Indicators)

- 12.1 As part of the Authority's continuous drive to improve the performance of all Contracts, this Performance Management Framework (PMF) will be used to monitor, measure and control all aspects of the Supplier's performance of contract responsibilities.
- 12.2 The purpose of the PMF is to set out the obligations on the Supplier, to outline how the Supplier's performance will be evaluated and to detail the sanctions for performance failure. The Supplier is responsible for the performance of any sub-contractors.
- 12.3 Key Performance Indicators (KPIs) are essential to align Supplier performance with the requirements of the Authority and to do so in a fair and practical way. KPIs shall be realistic, achievable, and set to indicate where the Supplier's performance is failing if they are not achieved. Without the additional use of service credits, failure to meet KPIs will strain the relationship as delivery falls short of agreed performance standards. As a result, the only recourse would be to terminate the Contract and seek an alternative Supplier.
- 12.4 The use of a strong service credit regime accompanied by a proactive approach to correcting failures and addressing their cause improves the relationship and enables a partnership rather than a confrontational style of working. Its focus is on managing and improving performance. It is not about taking cost out of the Contract.

- 12.5 KPIs are set out at Table A below. They will be monitored on a monthly, quarterly or annual basis as appropriate to the Contract and will form part of the Contract performance review.
- 12.6 The Authority will be entitled to refine, vary or modify the KPIs, performance standards and service credits from time to time during the Contract Period through a variation to be agreed with the Supplier using a Contract Change Note (CCN).
- 12.7 Where a KPI has a percentage measure, the Supplier's performance will be rounded to the nearest whole number.
- 12.8 The Authority will produce a monthly and quarterly performance management report, to be sent to the Supplier, detailing the Supplier's performance against KPIs.
- 12.9 The Supplier will maintain their own management reports, including issues log, which will include detail on periodic checks to ensure quality.
- 12.10 Any performance issues highlighted in the monthly reports will be addressed by the Supplier, who will be required to provide an improvement plan to address all issues highlighted within a week of receipt of the report. Monthly performance management reports and KPI performance will be a key feature of Quarterly Contract Review meetings.
- 12.11 Where performance failure attributable to the Supplier is identified in the performance management report and relates to the KPIs then the service credit regime may apply, at the sole discretion of the Authority.

13. Service Credits

- 13.1 The use of service credits is governed by the following principles:
- 13.2 Service credits sit within the wider service management approach being pursued by the Supplier and the Authority. Use of service credits does not preclude any other remedy for failure of performance available to the Authority under the terms and conditions of the Contract
- 13.3 The service credit regime will be instigated on each occasion when there is a performance failure (i.e. where a KPI is identified as having a 'red status') within the performance monitoring period. Failure to meet a KPI may also give rise to a remediation plan.
- KPIs with a service credit rating of 0 will have no associated service credit
 - KPIs with a service credit rating of 1 will have a service credit of 3% of the invoice amount for the monitoring period (6 months between meetings), applied for each KPI failure
 - KPIs with a service credit rating of 2 will have a service credit of 5% of the invoice amount for the monitoring period, applied for each KPI failure
 - The maximum annual service credit to be applied will be no more than 10% of the total annual Contract value. For KPI 1 and 2, and for KPI 3 it is the value for the invoice for that monitoring period.

13.4 The Supplier will provide the Authority with the information listed in the Specification and such other supporting information as the Authority may reasonably request in order to determine the proper application of any service credits due.

13.5 Service credits will be paid to the Authority as a credit note to the next invoice.

13.6 The full, agreed service credit regime will operate from the Commencement Date until the end of the Contract Period. At the end of the first complete performance monitoring period, the Authority and the Supplier will enter into good faith discussions to review the KPIs and assess their effectiveness. The KPIs may be adjusted to ensure that they are appropriate and achievable.

- 14.8 Other ad hoc meetings may be held, at the discretion of APHA or the Authority or at the request of the Supplier, throughout the life of the Contract to discuss specific issues.
- 14.9 The Supplier will be responsible for travel and subsistence costs incurred as a result of attendance at any meeting. Meetings may also be held by teleconference with the agreement of all parties.
- 14.10 Six [6] monthly and annual meetings will be held at the most mutually convenient location, usually face-to-face, but with teleconference facilities available.
- 14.11 Six [6] monthly and annual meetings will be documented, with secretariat support and actions provided by APHA, with agreed dates for completion. The Supplier will maintain a joint register of risks, issues and actions.
- 14.12 The CM should ensure that all meeting minutes, risk registers and any other contract documentation is recorded against the Authority's contract records.

1. INTRODUCTION

This Schedule 7 covers:

- 1.1 principles of security for the Supplier System, derived from the Security Policy Framework, including without limitation principles of physical and information security;
- 1.2 wider aspects of security relating to the Vaccines;
- 1.3 the creation of the Security Plan;
- 1.4 audit and testing of the Security Plan; and
- 1.5 breaches of security.

2. PRINCIPLES OF SECURITY

- 2.1 The Supplier acknowledges that the Authority places great emphasis on confidentiality, integrity and availability of information and consequently on the security of the Supplier's premises and the security for the Supplier System. The Supplier also acknowledges the confidentiality of Authority Data.
- 2.2 The Supplier shall be responsible for the security of the Supplier System and shall at all times provide a level of security which:
 - 2.2.1 is in accordance with Good Industry Practice and Law;
 - 2.2.2 complies with Security Policy Framework; and
 - 2.2.3 meets any specific security threats to the Supplier System.
- 2.3 Without limiting paragraph 2.2, the Supplier shall at all times ensure that the level of security employed in the supply of the Vaccines is appropriate to maintain the following at acceptable risk levels (to be defined by the Authority):

- 3.3 Prior to the Commencement Date the Supplier will deliver to the Authority for approval the final Security Plan which will be based on the draft Security Plan set out herein.
- 3.4 If the Security Plan is approved by the Authority it will be adopted immediately. If the Security Plan is not approved by the Authority the Supplier shall amend it within 10 Working Days of a notice of non-approval from the Authority and re-submit to the Authority for approval. The Parties will use all reasonable endeavours to ensure that the approval process takes as little time as possible and in any event no longer than 15 Working Days (or such other period as the Parties may agree in writing) from the date of its first submission to the Authority. If the Authority does not approve the Security Plan following its resubmission, the matter will be resolved in accordance with Clause 12 (Dispute Resolution). No approval to be given by the Authority pursuant to this paragraph 3.4 may be unreasonably withheld or delayed. However any failure to approve the Security Plan on the grounds that it does not comply with the requirements set out in paragraphs 3.1 to 3.4 shall be deemed to be reasonable.

- 3.5 The Security Plan will set out the security measures to be implemented and maintained by the Supplier in relation to all aspects of the Vaccines and all processes associated with the delivery of the Vaccines and shall at all times comply with and specify security measures and procedures which are sufficient to ensure that the Vaccines comply with:

 - 3.5.6 any other extant national information security requirements and guidance, as provided by the Authority's IT security officers; and
 - 3.5.7 appropriate ICT standards for technical countermeasures which are included in the Supplier System.
- 3.6 The references to Quality Standards, guidance and policies set out in this Schedule shall be deemed to be references to such items as developed and updated and to any successor to or replacement for such Quality Standards, guidance and policies, from time to time.
- 3.7 If there is any inconsistency in the provisions of the above standards, guidance and policies, the Supplier should notify the Authorised Representative of such inconsistency immediately upon becoming aware of the same, and the Authorised Representative shall, as soon as practicable, advise the Supplier which provision the Supplier shall be required to comply with.
- 3.8 The Security Plan will be structured in accordance with ISO/IEC27002 and ISO/IEC27001 or other equivalent policy or procedure, cross-referencing if necessary to other schedules of the Contract which cover specific areas included within that standard.
- 3.9 The Security Plan shall not reference any other documents which are not either in the possession of the Authority or otherwise specified in this Schedule 7.

4.3 Any change or amendment which the Supplier proposes to make to the Security Plan (as a result of an Authority request or change to Schedule 1 or otherwise) shall be subject to a CCN and shall not be implemented until Approved.

5. AUDIT AND TESTING

5.1 The Supplier shall conduct tests of the processes and countermeasures contained in the Security Plan ("Security Tests") on an annual basis or as otherwise agreed by the Parties. The date, timing, content and conduct of such Security Tests shall be agreed in advance with the Authority.

5.2 The Authority shall be entitled to send a representative to witness the conduct of the Security Tests. The Supplier shall provide the Authority with the results of such tests (in an Approved form) as soon as practicable after completion of each Security Test.

5.3 Without prejudice to any other right of audit or access granted to the Authority pursuant to the Contract, the Authority shall be entitled at any time and without giving notice to the Supplier to carry out such tests (including penetration tests) as it may deem necessary in relation to the Security Plan and the Supplier's compliance with and implementation of the Security Plan. The Authority may notify the Supplier of the results of such tests after completion of each such test. Security Tests shall be designed and implemented so as to minimise the impact on the delivery of the Vaccines.

5.4 Where any Security Test carried out pursuant to paragraphs 5.2 or 5.3 reveals any actual or potential security failure or weaknesses, the Supplier shall promptly notify the Authority of any changes to the Security Plan (and the implementation thereof) which the Supplier proposes to make in order to correct such failure or weakness. Subject to Approval in accordance with paragraph 4.3, the Supplier shall implement such changes to the Security Plan in accordance with the timetable agreed with the Authority or, otherwise, as soon as reasonably possible. For the avoidance of doubt, where the change to the Security Plan to address a non-compliance with the Security Policy Framework or security requirements, the change to the Security Plan shall be at no additional cost to the Authority. For the purposes of this paragraph, a weakness means a vulnerability in security and a potential security failure means a possible breach of the Security Plan or security requirements.

6.1 Either Party shall notify the other immediately upon becoming aware of any Breach of Security including, but not limited to an actual, potential or attempted breach, or threat to, the Security Plan.

6.2 Upon becoming aware of any of the circumstances referred to in paragraph 6.1, the Supplier shall immediately take all reasonable steps necessary to:

6.2.1 remedy such breach or protect the Supplier System against any such potential or attempted breach or threat; and

6.2.2 prevent an equivalent breach in the future.

- 6.3 Such steps shall include any action or changes reasonably required by the Authority. If such action is taken in response to a breach that is determined by the Authority acting reasonably not to be covered by the obligations of the Supplier under the Contract, then the Supplier shall be entitled to refer the matter to the CCN procedure set out in Schedule 3.
- 6.4 The Supplier shall as soon as reasonably practicable provide to the Authority full details (using such reporting mechanism as may be specified by the Authority from time to time) of such actual, potential or attempted breach and of the steps taken in respect thereof.
