Specification & Requirements Document

RFX185 – TEACHING AND LEADERSHIP INNOVATION FUND [TLIF] ROUND 1

27th March 2017

Notes

This document is currently for internal use only – the details will be migrated on to DfE’s online procurement portal – REDIMO

This document

The Department for Education (DfE) intends to procure contractor(s) to deliver Round 1 of contracts for the Teaching and Leadership Innovation Fund¹ (TLIF).

This Invitation to Bid (ITB) sets out the details and arrangements for the procurement.

Bidders should note that it is envisaged that further rounds of TLIF will be arranged under separate procurements. DfE is currently considering and planning the timing and extent of such further rounds; whether they will be contracts, grants or other arrangements; and whether to focus future rounds on specific policies, types of schools, and areas. DfE does not commit at this point to further rounds, but expects to run at least 2 and up to 4 bidding rounds, of which this opportunity is the first.

In addition to this document and its supporting attachments (listed later in this document), bidders should also read:

1. Instructions to Bidders
2. The Questions to Bidders and the Evaluation Guidance

Security of Data

Within 30 days of contract award:

- TLIF providers will be required to submit a security plan, which will comply with the Data Protection Act 1998 and explain how the provider will ensure that Departmental and personal data, including historic data, will be protected, including a risk assessment.
- TLIF providers will further be required to provide a strategy to ensure that data will be appropriately disposed of in line with all relevant Government standards.

Background to this procurement – “the Specification of Services”

Terms in bold are set out in the Glossary at the end of this background section.

An overview of the Teaching and Leadership Innovation Fund:

1. The evidence is clear that the quality of teachers is the most important school-level factor in determining pupil outcomes, and this is particularly the case for pupils from disadvantaged backgrounds, where the difference between a good or bad teacher can amount to a whole year’s worth of learning. Effective leadership, backed by a commitment to ongoing continuing professional development (CPD), is also crucial, but to be effective it has to be high quality and practice is not yet widespread, systematic or consistent. The Department for Education is committed to supporting pupil social mobility, and is therefore looking for

bids that seek to improve teaching and leadership in priority areas and priority schools through professional development. In the first round of TLIF, we are looking for evidencebased projects across four Lots (National, North, Central and South) which will seek to achieve one or more of the following outcomes:

- improving the quality of teachers and effective teaching in classrooms
 - improving the quality of leaders at all levels
 - improving the career progression of teachers and leaders
 - improving the retention of high-quality teachers and leaders
 - a professional development and leadership development offer that meets the needs of schools.
2. We are not being prescriptive about how exactly projects should achieve these outcomes. We are looking for projects that can start delivering in the autumn term 2017, or by January 2018 at the latest.
 3. The Department for Education wants to achieve a highly educated society in which opportunity is equal for children and young people, no matter what their background or family circumstances may be. The awarding Authority for this procurement is seeking to contract with a number of providers or consortia that can design, develop, deliver and continuously improve highly effective programmes of Continuing Professional Development (CPD) and/or Leadership Development for teachers and leaders. These programmes will be targeted towards priority areas and priority schools in England.
 4. DfE also wants to improve the evidence base about what makes for successful CPD and Leadership Development in the most challenging schools and the most challenging areas, in order to share learning, so that the marketplace might become more effective and sustainable.
 5. Bidders should familiarise themselves with and be aware of the context of TLIF and the drivers which have led to the establishment of the fund, including:
 - The Secretary of State for Education’s formal announcement of TLIF available at:
<https://www.gov.uk/government/news/social-mobility-package-unveiled-by-education-secretary>
 - The Secretary of State for Education’s announcement of the first bidding round available at:
<https://www.gov.uk/government/speeches/justine-greening-teachers-the-experts-driving-social-mobility>
 - The Teachers’ Professional Development Standard available at:
<https://www.gov.uk/government/publications/standard-for-teachers-professional-development>
 - The National Standards of Excellence for Headteachers available at:
<https://www.gov.uk/government/publications/national-standards-of-excellence-for-headteachers>
 - The DfE’s priority to improve social mobility, including – but not limited to – its work in its 12 Opportunity Areas (see Attachment 2)
 6. Bidders should be clear that The Authority is looking to fund programmes that will deliver to priority schools.

- If providers are proposing to deliver their programme outside of priority areas, TLIF funding will only be available to cover the costs of participants from priority schools in those areas.
 - The Authority expects the significant majority of delivery in priority areas to be to priority schools. If the programme also intends to deliver a proportion of places in priority areas to teachers and/or leaders at non-priority schools, Bidders should give evidence to support the case for TLIF funds covering those costs.
 - Bidders should estimate the numbers of participants they expect to recruit/train a) in priority areas from priority schools, b) in priority areas from any other schools where they can demonstrate the need, and c) in other areas but only from priority schools.
7. Any programmes established using TLIF funding may choose to offer their projects to a wider range of schools outside of these criteria. However, in assessing bids, the Authority will only be taking into account the proposed impact on priority areas and priority schools.
 8. In Round 1, the Authority is keen to achieve not just high quality proposals, but ones that can be delivered to scale. It believes that programmes with at least 250 teacher or middle leader participants or at least 100 assistant heads, deputy heads, head teacher, multi academy chain chief executives or multi academy chain executive heads over the life of the programme would be desirable in Round 1, however this is not a Mandatory Requirement. Where bidders propose either more priority areas and / or more priority schools they will be more highly scored in this section of the evaluation.
 9. Furthermore, Bidders' proposals need to take account of DfE's commitment to:
 - funding provision that has both immediate, actionable elements and longer-term benefits to participants and schools facing change
 - funding solutions that will help to overcome the twin barriers of teachers' time and workload that prevent/reduce the take-up of professional development
 - an explicit requirement and expectation that TLIF funded provision must contribute towards improved diversity of the profession, and that, as a minimum, bidders' programmes recruit participants that are representative of the diverse workforce in the localities in which they will operate (see Attachment 3)
 - an explicit requirement to deliver best value for money for DfE and schools, including minimising 'deadweight' funding where money is spent with negligible social impact or outcome
 - an explicit requirement to build and share the evidence on the connections between staff development, through high-quality CPD and leadership development, school improvement and social mobility for children and young people
 - an explicit requirement to work in partnership with schools and other stakeholders in the system, working within existing and developing systems, structures and mechanisms, including – but not limited to – those in the 12 Opportunity Areas.
 10. A need for better professional development of teachers and leaders is not a new issue. The evidence from high-performing jurisdictions around the world shows that the most important school-level factor in determining pupil outcomes is the quality of teachers². The importance of good teachers is particularly pronounced for pupils from disadvantaged backgrounds,

² Barber, M. and Mourshed M., 2007, How the World's Best Performing School Systems Come Out on Top (London: McKinsey and Co.)

where the difference between a good and bad teacher amounts to a whole year's worth of learning³.

11. The second most important factor in determining high performance is effective leadership in schools.⁴ The proportion of secondary schools rated as Good or Outstanding by Ofsted for quality of teaching is 23% lower in the most deprived areas compared to the most affluent ones; and schools serving deprived communities are less likely to be judged by Ofsted to be Good or Outstanding for their leadership and management than those with least deprivation.
12. There is clear evidence that most successful education systems in the world are characterised by strong systems of teacher professional development, high levels of lesson observation and ongoing performance management⁵. Furthermore, research⁶ has shown that for teachers' and leaders' professional development to be effective it has to be of a high quality and whilst there are some growing pockets of good practice, this is not yet widespread, systematic or consistent.
13. Research from the United States also indicates that highly effective headteachers raise the achievement of a typical student in their schools by the equivalent of between 2 and 7 months of learning in a single school year.⁷
14. Recent Ofsted data shows that 18% of secondary schools and 11% of primaries are not rated good or outstanding for leadership and management⁷. This position varies significantly according to region; and schools serving deprived communities are less likely to be judged outstanding for leadership and management. Addressing this is vital to ensure that all children have the opportunity to meet their full potential.
15. The TLIF scheme will be a c. £75 million programme over the next 3 financial years⁸ (i.e. FY1718; FY1819; FY1920) to improve pupil outcomes in priority areas. This will be achieved by outcome-focused, evidence-based and innovative provision designed to improve the quality of teaching and leadership in challenging areas and schools and address 3 key aims:
 - to stimulate more and better CPD and Leadership Development provision for teachers in priority areas and priority schools
 - to stimulate demand for CPD and Leadership Development provision from teachers in priority areas and priority schools
 - to support development of a sustainable market in CPD and Leadership Development that will be capable of being self-funding in the future.

Procedural Notes:

16. This set of requirements for TLIF Round 1 relates to educational training services that fall within Schedule 3 of the Public Contracts Regulations 2015 (“PCR 2015”). The procurement process is under the Light Touch Regime (LTR) under the Regulations. The requirements set out in this document and associated materials apply to Round 1 only.
17. This procurement for Round 1 is for contracts only, not grants. Future rounds could potentially be contracts or grants.
18. The Authority expects to run at least 2 and up to 4 bidding rounds, of which this opportunity is the first. The Authority anticipates running one further opportunity in the autumn of 2017. Then, depending on how much funding has been allocated through these rounds, potentially one opportunity in 2018; and one opportunity in 2019.
19. Future rounds may vary in focus and / or priority areas and / or priority schools and / or scale. Future rounds may also seek to test more innovative, less proven proposals and / or seek to support scaling up small projects showing initial promise.
20. The Authority reserves the right unreservedly to deviate from this outline of potential future rounds, which is provided as guidance only.
21. Providers will be allowed to bid in more than one round. Unsuccessful Bidders will receive feedback on their bid and will be able to re-apply in future rounds, subject to meeting the selection criteria pertinent to the opportunity.
22. The Authority currently plans to award up to 15 contracts under this Round 1, although an actual maximum number of awards is not prescribed.
23. These awards will be within geographic Lots, as set out in Attachment 4 – these being Lot 1: National; Lot 2: North; Lot 3: Central; and Lot 4: South. The Authority currently plans to achieve a coverage across the Lots. Bidders can bid for each, any or all Lots, which will be evaluated for award individually by Lot – although there is a common set of requirements and a single proposal is sought, regardless of the number of Lots being bid for.
24. In the event a provider is awarded Lot 1 (the National Lot) then they will not be awarded further Lots. No bidders will be awarded more than 2 Lots.
25. The Authority’s current thinking is to award no more than £10 million (inclusive of any VAT) for any given contract within any Lot over its lifetime under this Round.
26. Bidders should not present proposals that are more than £10 million (inclusive of any VAT) for any given Lot over its lifetime under this Round. It is a ground for exclusion if this threshold is in breach. Any smaller proposals will be equally considered.
27. However where a Bidder has submitted a proposal compliant with the above limit of £10 million, the Authority is open to consideration of a bid for any Lot up to a total of £25 million (inclusive of VAT) for an exceptional solution and an exceptional commercial offer, which may be for any single Lot, including the National Lot. The evaluation of such an exceptional proposal will only be considered upon the Bidder being successfully evaluated as one of the winning proposals in their below £10 million proposal.
28. The Authority advises Bidders to consider the £10 million threshold and to pay attention to the content and quality of that bid (smaller value proposals shall be evaluated irrespective

of the total amount – there is no intrinsic advantage of a large bid over a small one) as this is the threshold for the basis of the evaluation.

29. Bidders should make clear on any exceptional bid proposal – in the allotted space on the return - the justification and extent of the exceptional outcomes and exceptional value they will deliver through such a larger value of award. (Please follow the notes in Appendix V on this matter and please do not submit separate bids for the larger exceptional amount, as such separate above £10 million proposals will not be considered in isolation).

Requirements of TLIF's awarded providers:

30. Within the Response by Bidders, attention is drawn to the Mandatory Requirements.
31. The Authority is seeking bids that have an overall focus on improving the quality of teaching and/or leadership in priority areas and priority schools, with the aim of improving the outcomes of children and young people.
32. Successful Bidders selected for award of contracts will have demonstrated in their proposals how they will:
- stimulate more/better provision of teachers' CPD and leadership development.
 - stimulate demand for provision of high-quality teachers' CPD and leadership development.
 - support the development of a sustainable market for CPD and leadership development.
33. To achieve success in this procurement Bidders should set out the best means, through professional development, to deliver one, more or all of the following outcomes:
- improving the quality of teachers and effective teaching in classrooms
 - improving the quality of leaders at all levels
 - improving the career progression of teachers and leaders
 - improving the retention of high-quality teachers and leaders
 - a professional development and leadership development offer that meets the needs of schools.

In addition, all bids must also address an outcome that the Authority requires an improved evidence base on what works in leadership development and teacher CPD, including value for money.

34. Round 1 of TLIF is about delivering evidence-based approaches at scale in the most challenging schools to meet the objectives of the fund – in other words, to meet its outcomes speedily with proven solutions, although these proven solutions may be delivered in innovative ways. By evidence-based, the Authority means Bidders' proposals should assemble the best ideas, methods, techniques and approaches which have demonstrable data for their success, and craft a proposed solution to the Requirements (as opposed to proposals which rely upon or seek to explore mainly theoretical, new, untested or researched approaches or solutions that lack an evidence base).
35. The Authority is focused on outcomes and results for the Fund and has been intentionally open and non-prescriptive as to the solutions or approaches that may be proposed by

Bidders for this Round; furthermore, the Authority has intentionally not stated any preferred or intended allocation of funds or contracts between CPD and Leadership Development for this Round.

36. The Authority expects and requires targeting of the majority of delivery to priority areas and priority schools for this Round. For any given Lot, participants must be drawn from at least 4 priority areas OR from at least 30 priority schools. In either case, at least 70% of overall delivery of the individual programme must be in priority areas.
37. TLIF funds will be awarded to drive the outcomes and achieve the objectives of the fund. It is anticipated that the funds, spanning CPD and Leadership Development, will be used by the appointed contractors for the following:
- Start-up/local roll out/running costs - where organisations can guarantee the 70% reach as set out above – including content development / refinement
 - Subsidised or free places for teachers and leaders, where there is a clear, costed rationale for doing so
 - Programme delivery activities, including but not limited to, payment of staffing and facilitators, venues and other direct spend
 - Quality Assurance / Evaluation support
 - Administration, Governance and Programme/Project Management
 - A proportionate contribution to organisational overheads and running costs.

This list is indicative but not binding.

38. Full transparency of each provider's costs (both fixed and variable) and performance offer is required by the Authority as part of the bid, so that the Authority may understand the full costs of set-up and ongoing delivery.
39. The Authority anticipates that programmes funded in Round 1 will be broadly 'implementation ready' but may need some updating/contextualisation – termed 'Design'. The Authority encourages Bidders to consider how they may creatively propose the re-use and reconfiguration of assets in order to deliver to speed, scale and value for money.
40. Bidders may include in their proposals ways in which they can offset the costs of the programme through a range of mechanisms, including school contributions, in-kind contributions, sponsorship and other funding streams.
41. Where school contributions form part of a bid, Bidders must clearly state the basis and amount of any proposed contributions.
42. Any sponsorship arrangements proposed will be subject to agreement in advance by the Authority. Agreement will not be unreasonably withheld, although the Authority reserves without reservation the right to withhold, or, if circumstances change, withdraw approval.
43. The Authority is not currently minded to fund through Round 1 proposals that replicate any existing programmes contracted by government for teachers and leaders, including but not limited to:

- The National Professional Qualifications [NPQ] (both the current licensed offer and the newly reformed qualifications).⁹

⁹ NPQs – see <https://www.gov.uk/government/collections/professional-development-for-school-leaders>

- The High Potential Middle and Senior Leadership programmes.
 - The Talented Leaders programme.
44. TLIF funding cannot be used for Capital projects; nor can it be used for Initial Teacher Training. Other exclusions may be identified during the term of the contract and these will be clarified and agreed with providers on a case-by-case basis.
 45. Bids will not be accepted where there is no stated attempt (or there is no demonstrable evidence provided) to deliver the Services beyond a narrow commercial grouping – for example a bid focused exclusively into one single academy chain's own schools rather than across the sector would be unlikely to meet the objectives of the fund.
 46. In terms of scope, both primary and secondary schools are in scope; as are special schools, alternative provision, early years (where part of maintained provision) and post-16 settings, such as schools with a sixth-form and sixth-form colleges. The general expectation of the Authority is that participants will be serving qualified teachers and leaders in the publically funded school sector in England. This currently includes maintained schools, academies, free schools, university technical colleges, sixth-form colleges and general further education colleges. Attachment 5 sets out data intended to support bidders' understanding of the potential scope of their target audience(s).
 47. The procurement encourages proposals which include the participation of teachers involved in teaching pupils with special educational needs and disability in both mainstream settings and special schools, provided such bids fall within the parameters of scope listed herein for TLIF.
 48. Eligibility is not restricted solely to teachers and leaders, although that is the focus for the use of funds for Round 1.
 49. Notwithstanding the above, bidders are free to determine their own participant eligibility arrangements for their provision, taking account of expectations set out elsewhere about funding and priority areas and priority schools.
 50. Under the fund, the principle responsibility and activity for recruiting participants will be with the awarded contractors. The Authority has not at this stage planned or resourced to deliver any activity supporting recruitment of participants itself.
 51. Bidders' proposals should focus on low and no-cost marketing activity, in line with expectations of all government contracts¹⁰ and in line with DfE Marketing and Branding Guidelines (Attachment 6). Bidders' proposals should also take account of schools' preferences for how they wish to receive marketing information. If bidders believe a strong case can be made to pay for marketing activity pertinent directly to TLIF activity, e.g. to recruit participants, that should be included in their cost proposals. The Authority may seek clarification on such proposals and may need to seek further advice and/or clearance from Cabinet Office for spend in this area, which may be declined¹¹.

¹¹ There are government-wide restrictions on any spend related to Marketing and Communications following the Marketing and Advertising freeze introduced in May 2010 for all Government Departments and their agencies. The Marketing and Advertising freeze also applies to all 'paid for' communications activities that are funded by the

52. The Authority is seeking to craft a contract agreement with the awarded bidders so that successful solutions could be widely adopted and scaled in the future, which may be by themselves or another party, possibly within one of the planned further rounds. Bidders are asked for their proposals for legacy at the end of the contract, to support the objective of sustainable, scale solutions.
53. The Authority anticipates that contracts will start in June 2017 with end dates to be agreed for each contract during clarification and/or bid optimisation activity. The Authority reserves the right at its absolute discretion to extend the contract for a further period and to increase the contract value, subject to funding. Extension decisions will be subject to both parties' agreement and to satisfactory contractor performance, Government support and funding.
54. The Authority reserves the right to terminate or reduce the scope of any contracted agreement should funding be withdrawn or changed, or if there is a significant change in Government policy relating to the delivery of the programme and outputs required as part of this contract, by giving at least 3 months' notice¹². The Authority reserves the right to terminate any contract should the supplier fail to achieve their commitments under the contract, after reasonable time to remedy.
55. Providers in receipt of funding through TLIF will be required to track and maintain robust and comprehensive data about participants' engagement, and their completion, deferral or withdrawal status as/if applicable. As a minimum, this must include teachers' and schools' unique reference numbers. Providers must put in place arrangements whereby participants and schools agree this data can be shared with the Authority and its approved third parties.
56. Providers will be expected to work with the Authority in a spirit of partnership and collaboration. A draft set of behaviours is supplied as Attachment 7 and bidders should note its content and the implications of its approach in their proposals. It is also important for the Authority that providers will work with each other in a similarly constructive manner and the Authority will expect bidders to agree to explore ways in which this can be achieved.
57. The Authority proposes to appoint an external Evaluator of the TLIF scheme (including its funded projects) to help in the measurement and evaluation process. It should be noted that any third party evaluation contractor will be appointed through a separate procurement activity. Due to the need for objectivity, TLIF providers will NOT be eligible to bid for, or be part of a consortium that bids for, the evaluation activity.

21.4 If the Contractor fails to comply with any provision of the Contract or fails to supply any of the Services in accordance with the provisions of the Contract and such failure is capable of remedy, then the DFE may instruct the Contractor to remedy the failure and the Contractor shall at its own cost and expense remedy such failure (and any damage resulting from such failure) within 21 days or such other period of time as the DFE may direct.

21.5 The DFE may review from time to time the progress of the Contractor against the Implementation Plan. The Contractor shall cooperate with the DFE in this regard and provide any information and evidence reasonably required by the DFE.

21.6 The DFE may instruct the Contractor to take appropriate remedial action where the DFE reasonably considers that the Implementation Plan is not being complied with or is at risk of not being complied with and the Contractor shall take such remedial action.

22. STEP IN RIGHTS

22.1 Without prejudice to DFE's rights of termination under clause 23 the DFE may exercise one or more of the rights set out in this clause 22 ("Step In Rights") if:

22.1.1 there is a Default by the Contractor which materially prevents or materially delays performance of the Services or any part of the Services;

22.1.2 an event of Force Majeure occurs which materially prevents or materially delays the performance of the Services or any part of the Services;

22.1.3 a Regulatory Body has advised the DFE that exercise by the DFE of its rights under this clause 22 is necessary;

22.1.4 a serious risk exists to the health and safety of persons, property or the environment;

22.1.5 it is necessary to discharge a statutory duty; or

22.1.6 the Contractor becomes insolvent.

22.2 If the DFE has a Step In Right it may serve notice on the Supplier (a "Step-In Notice") that it will take action under this clause 22 either itself or with the assistance of a third party.

22.3 The Step-In Notice shall set out:

- 22.3.1 the action the DFE wishes to take and in particular the Services that it wishes to control (the “Required Action”);
- 22.3.2 the event triggering the Step In Rights and whether the DFE believes that the Required Action is due to the Contractor's Default;
- 22.3.3 the date on which it wishes to commence the Required Action;
- 22.3.4 the time period which it believes will be necessary for the Required Action;
- 22.3.5 whether the DFE will require access to the Contractor's premises; and
- 22.3.6 to the extent practicable, the effect the DFE anticipates the Required Action will have on the Contractor's obligations to provide the Services during the period that the Required Action is being taken.
- 22.4 Following service of a Step-In Notice, the DFE shall:
 - 22.4.1 take the Required Action set out in the Step-In Notice and any consequential additional action as it reasonably believes is necessary to achieve the Required Action;
 - 22.4.2 keep records of the Required Action taken and provide information about the Required Action to the Contractor;
 - 22.4.3 co-operate wherever reasonable with the Contractor in order to enable the Contractor to continue to provide those Services of which the DFE is not assuming control; and
 - 22.4.5 act reasonably in mitigating the cost that the Contractor will incur as a result of the exercise of the Step In Rights.
- 22.5 For as long as and to the extent that the Required Action continues:
 - 22.5.1 the Contractor shall not be obliged to provide the Services to the extent that they are the subject of the Required Action; and
 - 22.5.2 the DFE shall pay the Contractor the Charges after subtracting any applicable Service Credits and the DFE's costs of taking the Required Action.
- 22.6 If the Contractor demonstrates to the DFE's reasonable satisfaction that the Required Action has resulted in the degradation of any Services not subject to the Required Action beyond that which would have been the case had the DFE not taken the Required Action, the DFE may adjust the Charges.
- 22.7 Before ceasing to exercise its Step In Rights the DFE shall deliver a written notice to the Contractor (a “Step-Out Notice”), specifying:
 - 22.7.1 the Required Action it has taken; and
 - 22.7.2 the date on which the DFE plans to end the Required Action subject to the DFE being satisfied with the Contractor's ability to resume the provision of the Services and the Contractor's plan developed in accordance with clause 22.8.
- 22.8 The Contractor shall, following receipt of a Step-Out Notice and not less than 20 Business Days prior to the date specified in clause 22.7.2, develop for the DFE's approval a draft plan relating to the resumption by the Contractor of the Services, including any action the Contractor proposes to take to ensure that the affected Services satisfy the requirements of the Contract.

22.9 If the DFE does not approve the draft plan, it shall inform the Contractor of its reasons for not approving it and the Contractor shall then revise the draft plan taking those reasons into account and shall re-submit the revised plan to the DFE for approval. The DFE shall not withhold or delay its approval of the draft plan unreasonably.

22.10 The Contractor shall bear its own costs in connection with any Step-In under this clause 22, provided that the DFE shall reimburse the Contractor's reasonable additional expenses incurred directly as a result of any Step-In action taken by the DFE under clauses 22.1.2 to 22.1.5 (insofar as the primary cause of the DFE serving the Step In Notice is identified as not being the result of a Contractor's Default).

- 24.3 The DFE shall require that all potential Contractors treat the information in confidence; that they do not communicate it except to such persons within their organisation and to such extent as may be necessary for the purpose of preparing a response to an invitation to tender issued by the DFE; and that they shall not use it for any other purpose.
- 24.4 The Contractor shall allow access to the Premises in the presence of DFE's authorised representative, to any person representing any potential contractor whom the DFE has selected to tender for the future provision of the Services.

The Contractor shall provide such explanations as are reasonably required for these purposes.
