

EMAPS Symbols

Dear EMAP user,

U K Power Networks use a large number of symbols to compile the network records for London, the East of England and the South East of England. There is far too much information to include it with every download from the EMAP website, for this reason the symbols are provided separately.

By selecting the agree button on our website you agree to ensure that the relevant symbols are passed to the end user. Please note that you need to download the symbols for the correct area depending on the geographical location of the site requested.

Please ensure that the symbols that you distribute are the current version in all cases.

To get the current information please download it from the eMAP website

If you require further assistance please do not hesitate to contact emaphelpdesk@ukpowernetworks.co.uk

Regards

EMAP Help Desk

Important information - please read

The purpose of this plan is to identify Virgin Media apparatus. We have tried to make it as accurate as possible but we cannot warrant its accuracy. In addition, we caution that within Virgin Media apparatus there may be instances where mains voltage cables are present and these should not be touched during. Further details can be found using the Affected Postcodes pdf, which can be downloaded from this website.

Therefore, you must not rely solely on this plan if you are carrying out any excavation or other works in the vicinity of Virgin Media apparatus. You must ensure that you are aware of the location of all underground services and that you are aware of the location of all overhead services. You must ensure that you are aware of the location of all underground services and that you are aware of the location of all overhead services. You must ensure that you are aware of the location of all underground services and that you are aware of the location of all overhead services.
