Service Overview

Client Caseload Information Systems (CCIS) are local databases that provide local authorities (LAs) with the information they need to support young people to engage in education and training; to identify those who are not participating and to plan services that meet young people's needs.

Each CCIS system is required to provide a monthly return of data to the DfE in accordance with the management information requirement and xml schema definition (XSD) as well as the Annual Activity Survey.

Data received by the Local Authority is verified and processed into a snapshot database used to provide local authority performance tables specifically around the NEET (Not in Education, Education or Training) agenda.

The process of data collection, validation, and reporting as well as help line services and support including the online web portal are the main components that make up the National Client Caseload Information System (NCCIS).

Core NCCIS Services

Database

Licence and hosting of the primary/current NCCIS database and up to the previous 4 years for historical reporting purposes. The database includes all of the required elements of the CCIS Management Information Requirement as well as extended data for the purposes of reporting and matching information. The database is refreshed each year with key data carried forward to ensure continuity of reporting.

NCCIS Application Suite

NCCIS comprises of a number of bespoke applications used to manage and process the data transferred in and out of the NCCIS solution. Each application is licenced by the Access Group and includes support and maintenance. The applications combine to provide the following key functionality:

- NCCIS Receiver/Staging
- Submission Checker
- NCCIS XML Import
- Workbook Generator
- Audit files generator
- NEET Calculator
- DWP Data Processor
- ONS Data Processor
- Not Known/NEET Match
- Annual Data Migration Tool
- Performance Table Generator

Access agrees to include minor changes or amendments to the applications/functions listed above as part of the support and maintenance agreement; however significant changes or new functionality can be provided at extra cost. Bespoke development of new features or changes, including project management, installation and implementation costs will be based on SFIA costings provided in our G-Cloud entry.

NCCIS Web Portal

The NCCIS Web Portal is the secure interface between the customer and local authorities or service providers.

Access to the portal requires a named user account. User accounts are issued through the Helpline Service on request and only after identities have been verified. Accounts are assigned varying levels of access depending on the type of user (e.g. Local Authority user, CCIS supplier, etc.).

The Web Portal is the channel through which the statutory monthly XML submission files are transferred to the customer. Only users with appropriate access are able to upload their files.

The Web Portal provides access to key documentation, information and data useful to local authorities and service providers. Published content is controlled by the customer and placed onto or removed from the portal by Access.

The Web Portal also provides a secure means for local authorities and service providers to securely transfer between one another, supporting data sharing and co-operative working.

Helpline Services

The Helpline Services provide telephone, email and on-line support to local authorities and service providers delivering CCIS. The helpline deals with all queries and issues relating to the CCIS Management Information Requirement including XML problems, Submission Errors, Data Errors, Reporting issues, Data Recording guidance, Performance Tables, young person transfer and general enquiries.

All questions and issues are logged within our case management system. All subsequent communication and correspondence are also recorded against the case. Each case is subject to our service levels and closely monitored to a satisfactory conclusion.

The Helpline service also manages access to the NCCIS Web Portal creating, resetting and disabling user accounts.

Quarterly performance reports on the helpline service detailing number of calls, response times and conclusion are provided and presented at performance meetings.

Management of Monthly Submissions

Each month the customer receives submissions for 151 local authorities, some directly from the authority and some from sub-regional service providers. Each submission is transferred through the NCCIS Web Portal and security checked before being verified and processed. Access monitors the status of each submission and

follow up services that have not yet submitted, not flagged their submission as live or have submissions that do not pass data quality checks.

Each submission undergoes a number of processes including validation, transformation, calculation (such as NEET Joiners and Leavers), export of audit files and LA workbook generation. Our solution incorporates all of these elements.

Reporting, Data Analysis and Data Management

A range of data analysis and reporting is available depending on the needs of the customer. Fixed prices can be agreed for these based on the SFIA rate card as per the following examples.

Internal data analysis This could include:

- Monthly analysis to check the integrity of data provided by local authorities
- Checking young people who are “NEET” or “Not Known” against other areas to help identify what the young person is doing and to distribute the outcomes to
- local authorities.

Reporting

This could include:

- Managing the annual activity survey to provide summary information regarding the activity of young people who have left compulsory school education
- Monthly national and Local Authority headline data as specified by the customer
- Quarterly summaries of participation.

Data requests

This could include data about young people as specified by the customer to support evaluation projects or wider data publications such as Destination Measures.

Documentation

Access will review and update key documentation associated with the service as follows:

- XML Schema Definition – XSD published to local authorities and CCIS suppliers.
- Management Information Requirement – Supporting the XSD
- Ad-hoc documentation/Notes
- Where requested, Access will distribute documentation through the Web Portal or by email as required.

Regional Meetings

Access will attend any regional MI meetings with LAs/Services as requested by the customer.

System Security

Penetration testing and accreditation against the system and the hosting environment by a CHECK certified company as required by the customer.

Escrow

The system/source code and technical documentation can be held in an Escrow agreement should the customer require.

Message Board

The message board has been designed to help Local Authorities share ideas, local practices and discuss policies. The forum section includes announcements that will be updated via the NCCIS administration team and a searchable list of the various topics that have been created within the Forums. Users can create their own topics and discussions that they believe other users will find interesting.

ONS Postcode Data

This includes securely processing and distributing data from external sources as requested by the customer at specific time intervals such as quarterly ONS postcode data.

Young Person Transfer

The young person transfer tool also allows Local Authorities to securely transfer young person information. Local Authorities can use this functionality to initiate the transfer of a young person from one Local Authority to another. The transfer allows authorities to see all their active transfers in one central location, making the transfer process more efficient and accountable. It also allows Local Authorities to monitor any outstanding or rejected transfer requests.

2 Onboarding

5 Outage and Maintenance Management

Outage Reporting - Customers will be provided with frequent email updates advising them of outage statuses and ETAs for resolution followed by Root Cause Analysis (RCA) as applicable.

Maintenance Management – downtime due to maintenance is very infrequent and is run outside of normal working hours with all customers being informed in advance to minimise disruption.

6 Backup and Disaster Recovery

The solution has been designed to cater for a range of disasters.

Backups are stored within a multi tenancy data vault and are encrypted at rest. This is a segregated unit outside of the main hosting environment, capable of being shipped to an alternate data centre if needed.

All Servers are backed up on a daily basis at 2am. These backups go directly to local storage and are copied to the data vault. This allows for quicker restores and redundancy.

Retention for backups:-

Daily backups of the solution are stored for 4 weeks in rotation.

Incremental sql log file backups are stored for the duration of the project, this enables deep roll forward and back capability along with the standard replacement backups.

The solution has been designed to deliver Recovery Point Objective (RPO) and Recovery Time Objective (RTO) using the following definitions:

- RPO is the maximum time period in which data might be lost.
- RTO is the duration of working time within which data should be restored after a disaster. This time starts from when a support call is logged with Access.

Standard Restore Testing

We undertake a restore test automatically on a weekly basis.

DR Testing

We run a full DR test on a 6 monthly basis, this is a non-invasive test where we bring the DR site up in an isolated fashion to ensure the services recover (Zerto allows us to do this without bringing the production environments down).

SQL Server

SQL Full Database backups are taken overnight as well as having SQL transaction logs taken at 15 minute intervals. This allows a database to be restored to an overnight position or to be restored to a chosen point in time within the day.

Frequently a database is restored following a user accidentally changing lots of data so the RPO does not always apply as the user may have changed the data several days ago, however the solution has been designed with a maximum RPO of 12 hours and a RTO of 6 hours.

Single Virtual Machine Failure – IIS or RDS Server

In the unlikely event of a single virtual machine (VM) failing (e.g. the IIS VM ceases to respond but the other VMs are still functioning correctly) then a new instance of the VM will be started. This new instance will be an exact copy of the VM from when it stopped responding. The solution has been designed so that the files on an IIS and RDS server are fairly static with an RPO of 12 hours and a RTO of 6 Hours.

Single Virtual Machine Failure – SQL Server

In the unlikely event of the SQL Server virtual machine (VM) failing then a new instance of the VM will be started. This new instance will be an exact copy of the VM from when it stopped responding. The solution has been designed with an RPO of 12 hours and a RTO of 6 Hours.

Business Continuity statement/plan

The Access Groups full and most up to date business continuity plan can be requested by emailing Natalie.gilesgrant@theaccessgroup.com

ISO27001:13 accreditation

The Access Group has achieved full ISO27001:13 accreditation across the Group. ISO/IEC 27001:2013 (also known as ISO27001) is the international standard that sets out the specification for an ISMS (information security management system). Its best-practice approach helps organisations like Access manage their information security by addressing people and processes as well as technology. Independently accredited certification to the Standard is recognised around the world as an indication that our ISMS is aligned with information security best practice.

We are finding that this is a key requirement of organisations that work with the Access Group.

Development Life Cycle

NCCIS has a detailed roadmap of improvements driven by customers, statutory requirements and our own roadmap. We take a partnership approach to developing and refining our product roadmap and delivering on the promises we make. This includes individual meetings with our customers and active participation in user groups. The developments set out in the roadmap are the direct results of this partnership approach and reflect individual specifications refined through this rigorous process. UI/UX prototyping tools form a critical part of this process, allowing wireframes and example user journeys to be demonstrated to our customers at an early stage, gaining valuable feedback before development begins. This allows us to ensure that what we develop meets the wider needs of our customer base and provides users with the opportunity to help shape the end product.

Technical Requirements

There are no server based scripts or executables which need to be run remotely from the client. There are also no components which require client side installation.

Web based functionality is supported on the following browsers (including mobile variants):

- MS Edge
- Firefox
- Chrome
- Safari

Owing to the way most browsers now auto-update, our testing can only practicably focus on the most recent version of the browser publicly available at the time of testing a development item. As part of our regression and release procedures, wider application testing is performed to ensure continued compliance.

Service Levels

We recognise that the systems, software and services we supply may be critical to the well-being of your business. Our aim is to ensure that you have continuous operational capability from our products. We will help you to achieve this by providing efficient support, resolving the majority of tickets at first-line contact.

We will help you maximise your return on investment by providing the best in technical assistance, advice and customer care. We own your support queries and will ensure that they are resolved as promptly and efficiently as possible. Our the technical support package is described below.

9. Dispute resolution process

9.1 All disputes between any of the parties arising out of or relating to this Agreement will be referred, by any party involved in the dispute, to the representatives of the parties specified in the Detailed Collaboration Plan.

9.2 If the dispute cannot be resolved by the parties' representatives nominated under clause 9.1 within a maximum of 5 Working Days (or any other time agreed in writing by the parties) after it has been referred to them under clause 9.1, then except if a party seeks urgent injunctive relief, the parties will refer it to mediation under the process set out in clause 9.3 unless the Buyer considers (acting reasonably and considering any objections to mediation raised by the other parties) that the dispute is not suitable for resolution by mediation.

9.3 The process for mediation and consequential provisions for mediation are:

9.3.1 a neutral adviser or mediator will be chosen by agreement between the parties or, if they are unable to agree upon a Mediator within 10 Working Days after a request by one party to the other parties to appoint a Mediator or if the Mediator agreed upon is unable or unwilling to act, any party will within 10 Working Days from the date of the proposal to appoint a Mediator or within 10 Working Days of notice to the parties that he is unable or unwilling to act, apply to the President of the Law Society to appoint a Mediator

9.3.2 the parties will within 10 Working Days of the appointment of the Mediator meet to agree a programme for the exchange of all relevant information and the structure of the negotiations

9.3.3 unless otherwise agreed by the parties in writing, all negotiations connected with the dispute and any settlement agreement relating to it will be conducted in confidence and without prejudice to the rights of the parties in any future proceedings

9.3.4 if the parties reach agreement on the resolution of the dispute, the agreement will be put in writing and will be binding on the parties once it is signed by their authorised representatives

9.3.5 failing agreement, any of the parties may invite the Mediator to provide a nonbinding but informative opinion in writing. The opinion will be provided on a without prejudice basis and will not be used in evidence in any proceedings relating to this Agreement without the prior written consent of all the parties

9.3.6 if the parties fail to reach agreement in the structured negotiations within 20 Working Days of the Mediator being appointed, or any longer period the parties agree on, then any dispute or difference between them may be referred to the courts

9.4 The parties must continue to perform their respective obligations under this Agreement and under their respective Contracts pending the resolution of a dispute.

10. Termination and consequences of termination

10.1 Termination

10.1.1 The Buyer has the right to terminate this Agreement at any time by notice in writing to the Collaboration Suppliers whenever the Buyer has the right to terminate a Collaboration Supplier's [respective contract] [Call-Off Contract].

10.1.2 Failure by any of the Collaboration Suppliers to comply with their obligations under this Agreement will constitute a Default under their [relevant contract] [Call-Off Contract]. In this case, the Buyer also has the right to terminate by notice in writing the participation of any Collaboration Supplier to this Agreement and sever its name from the list of Collaboration Suppliers, so that this Agreement will continue to operate between the Buyer and the remaining Collaboration Suppliers.

10.2 Consequences of termination

10.2.1 Subject to any other right or remedy of the parties, the Collaboration Suppliers and the Buyer will continue to comply with their respective obligations under the [contracts] [Call-Off Contracts] following the termination (however arising) of this Agreement.

10.2.2 Except as expressly provided in this Agreement, termination of this Agreement will be without prejudice to any accrued rights and obligations under this Agreement.

11. General provisions

11.1 Force majeure

11.1.1 For the purposes of this Agreement, the expression “Force Majeure Event” will mean any cause affecting the performance by a party of its obligations under this Agreement arising from acts, events, omissions, happenings or non-happenings beyond its reasonable control, including acts of God, riots, war or armed conflict, acts of terrorism, acts of government, local government or Regulatory Bodies, fire, flood, storm or earthquake, or disaster but excluding any industrial dispute relating to any party, the party's personnel or any other failure of a Subcontractor.

11.1.2 Subject to the remaining provisions of this clause 11.1, any party to this Agreement may claim relief from liability for non-performance of its obligations to the extent this is due to a Force Majeure Event.

11.1.3 A party cannot claim relief if the Force Majeure Event or its level of exposure to the event is attributable to its wilful act, neglect or failure to take reasonable precautions against the relevant Force Majeure Event.

11.1.4 The affected party will immediately give the other parties written notice of the Force Majeure Event. The notification will include details of the Force Majeure Event together with evidence of its effect on the obligations of the affected party, and any action the affected party proposes to take to mitigate its effect.

11.1.5 The affected party will notify the other parties in writing as soon as practicable after the Force Majeure Event ceases or no longer causes the affected party to be unable to comply with its obligations under this Agreement. Following the notification, this Agreement will continue to be performed on the terms existing immediately before the Force Majeure Event unless agreed otherwise in writing by the parties.

11.2 Assignment and subcontracting

11.2.1 Subject to clause 11.2.2, the Collaboration Suppliers will not assign, transfer, novate, sub-license or declare a trust in respect of its rights under all or a part of this Agreement or the benefit or advantage without the prior written consent of the Buyer.

11.2.2 Any subcontractors identified in the Detailed Collaboration Plan can perform those elements identified in the Detailed Collaboration Plan to be performed by the Subcontractors.

11.3 Notices

11.3.1 Any notices given under or in relation to this Agreement will be deemed to have been properly delivered if sent by recorded or registered post or by fax and will be deemed for the purposes of this Agreement to have been given or made at the time the letter would, in the ordinary course of post, be delivered or at the time shown on the sender's fax transmission report.

11.3.2 For the purposes of clause 11.3.1, the address of each of the parties are those in the Detailed Collaboration Plan.

11.4 Entire agreement

11.4.1 This Agreement, together with the documents and agreements referred to in it, constitutes the entire agreement and understanding between the parties in respect of the matters dealt with in it and supersedes any previous agreement between the Parties about this.

11.4.2 Each of the parties agrees that in entering into this Agreement and the documents and agreements referred to in it does not rely on, and will have no remedy in respect of, any statement, representation, warranty or undertaking (whether negligently or innocently made) other than as expressly set out in this Agreement. The only remedy available to each party in respect of any statements, representation, warranty or understanding will be for breach of contract under the terms of this Agreement.

11.4.3 Nothing in this clause 11.4 will exclude any liability for fraud.

11.5 Rights of third parties

Nothing in this Agreement will grant any right or benefit to any person other than the parties or their respective successors in title or assignees, or entitle a third party to enforce any provision and the parties do not intend that any term of this Agreement should be enforceable by a third party by virtue of the Contracts (Rights of Third Parties) Act 1999.

11.6 Severability

If any provision of this Agreement is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, that provision will be severed without effect to the remaining provisions. If a provision of this Agreement that is fundamental to

the accomplishment of the purpose of this Agreement is held to any extent to be invalid, the parties will immediately commence good faith negotiations to remedy that invalidity.

11.7 Variations

No purported amendment or variation of this Agreement or any provision of this Agreement will be effective unless it is made in writing by the parties.

11.8 No waiver

The failure to exercise, or delay in exercising, a right, power or remedy provided by this Agreement or by law will not constitute a waiver of that right, power or remedy. If a party waives a breach of any provision of this Agreement this will not operate as a waiver of a subsequent breach of that provision, or as a waiver of a breach of any other provision.

11.9 Governing law and jurisdiction

This Agreement will be governed by and construed in accordance with English law and without prejudice to the Dispute Resolution Process, each party agrees to submit to the exclusive jurisdiction of the courts of England and Wales.

Executed and delivered as an agreement by the parties or their duly authorised attorneys the day and year first above written.

Definitions and interpretation

In this Deed of Guarantee, unless defined elsewhere in this Deed of Guarantee or the context requires otherwise, defined terms will have the same meaning as they have for the purposes of the Call-Off Contract.

Term	Meaning
Call-Off Contract	Means [the Guaranteed Agreement] made between the Buyer and the Supplier on [insert date].

Unless the context otherwise requires:

- reference to a gender includes the other gender and the neuter
- references to an Act of Parliament, statutory provision or statutory instrument also apply if amended, extended or re-enacted from time to time
- any phrase introduced by the words 'including', 'includes', 'in particular', 'for example' or similar, will be construed as illustrative and without limitation to the generality of the related general words

References to liability are to include any liability whether actual, contingent, present or future.

Guarantee and indemnity

The Guarantor irrevocably and unconditionally guarantees that the Supplier duly performs all of the guaranteed obligations due by the Supplier to the Buyer.

If at any time the Supplier will fail to perform any of the guaranteed obligations, the Guarantor irrevocably and unconditionally undertakes to the Buyer it will, at the cost of the Guarantor:

- fully perform or buy performance of the guaranteed obligations to the Buyer
- as a separate and independent obligation and liability, compensate and keep the Buyer compensated against all losses and expenses which may result from a failure by the Supplier to perform the guaranteed obligations under the Call-Off Contract

As a separate and independent obligation and liability, the Guarantor irrevocably and unconditionally undertakes to compensate and keep the Buyer compensated on demand against all losses and expenses of whatever nature, whether arising under statute, contract or at common Law, if any obligation guaranteed by the guarantor is or becomes unenforceable, invalid or illegal as if the obligation guaranteed had not become unenforceable, invalid or illegal provided that the guarantor's liability will be no greater than the Supplier's liability would have been if the obligation guaranteed had not become unenforceable, invalid or illegal.

Obligation to enter into a new contract

If the Call-Off Contract is terminated or if it is disclaimed by a liquidator of the Supplier or the obligations of the Supplier are declared to be void or voidable, the Guarantor will, at the request of the Buyer, enter into a Contract with the Buyer in the same terms as the Call-Off Contract and the obligations of the Guarantor under such substitute agreement will be the same as if the Guarantor had been original obligor under the Call-Off Contract or under an agreement entered into on the same terms and at the same time as the Call-Off Contract with the Buyer.

Demands and notices

Any demand or notice served by the Buyer on the Guarantor under this Deed of Guarantee will be in writing, addressed to:

[Enter Address of the Guarantor in England and Wales]

[Enter Email address of the Guarantor

representative] For the Attention of **[insert details]**

or such other address in England and Wales as the Guarantor has notified the Buyer in writing as being an address for the receipt of such demands or notices.

Any notice or demand served on the Guarantor or the Buyer under this Deed of Guarantee will be deemed to have been served if:

- delivered by hand, at the time of delivery
- posted, at 10am on the second Working Day after it was put into the post
- sent by email, at the time of despatch, if despatched before 5pm on any Working Day, and in any other case at 10am on the next Working Day

In proving Service of a notice or demand on the Guarantor or the Buyer, it will be sufficient to prove that delivery was made, or that the envelope containing the notice or demand was properly addressed and posted as a prepaid first class recorded delivery letter, or that the fax message was properly addressed and despatched.

Any notice purported to be served on the Buyer under this Deed of Guarantee will only be valid when received in writing by the Buyer.

Beneficiary's protections

The Guarantor will not be discharged or released from this Deed of Guarantee by:

- any arrangement made between the Supplier and the Buyer (whether or not such arrangement is made with the assent of the Guarantor)
- any amendment to or termination of the Call-Off Contract
- any forbearance or indulgence as to payment, time, performance or otherwise granted by the Buyer (whether or not such amendment, termination, forbearance or indulgence is made with the assent of the Guarantor)
- the Buyer doing (or omitting to do) anything which, but for this provision, might exonerate the Guarantor

This Deed of Guarantee will be a continuing security for the Guaranteed Obligations and accordingly:

- it will not be discharged, reduced or otherwise affected by any partial performance (except to the extent of such partial performance) by the Supplier of the Guaranteed Obligations or by any omission or delay on the part of the Buyer in exercising its rights under this Deed of Guarantee

- it will not be affected by any dissolution, amalgamation, reconstruction, reorganisation, change in status, function, control or ownership, insolvency, liquidation, administration, appointment of a receiver, voluntary arrangement, any legal limitation or other incapacity, of the Supplier, the Buyer, the Guarantor or any other person
- if, for any reason, any of the Guaranteed Obligations is void or unenforceable against the Supplier, the Guarantor will be liable for that purported obligation or liability as if the same were fully valid and enforceable and the Guarantor were principal debtor
- the rights of the Buyer against the Guarantor under this Deed of Guarantee are in addition to, will not be affected by and will not prejudice, any other security, guarantee, indemnity or other rights or remedies available to the Buyer

The Buyer will be entitled to exercise its rights and to make demands on the Guarantor under this Deed of Guarantee as often as it wishes. The making of a demand (whether effective, partial or defective) relating to the breach or non-performance by the Supplier of any Guaranteed Obligation will not preclude the Buyer from making a further demand relating to the same or some other Default regarding the same Guaranteed Obligation.

The Buyer will not be obliged before taking steps to enforce this Deed of Guarantee against the Guarantor to:

- obtain judgment against the Supplier or the Guarantor or any third party in any court
- make or file any claim in a bankruptcy or liquidation of the Supplier or any third party
- take any action against the Supplier or the Guarantor or any third party
- resort to any other security or guarantee or other means of payment

No action (or inaction) by the Buyer relating to any such security, guarantee or other means of payment will prejudice or affect the liability of the Guarantor.

The Buyer's rights under this Deed of Guarantee are cumulative and not exclusive of any rights provided by Law. The Buyer's rights may be exercised as often as the Buyer deems expedient. Any waiver by the Buyer of any terms of this Deed of Guarantee, or of any Guaranteed Obligations, will only be effective if given in writing and then only for the purpose and upon the terms and conditions on which it is given.

Any release, discharge or settlement between the Guarantor and the Buyer will be conditional upon no security, disposition or payment to the Buyer by the Guarantor or any other person being void, set aside or ordered to be refunded following any enactment or Law relating to liquidation, administration or insolvency or for any other reason. If such condition will not be fulfilled, the Buyer will be entitled to enforce this Deed of Guarantee subsequently as if such release, discharge or settlement had not occurred and any such payment had not been made. The Buyer will be entitled to retain this security before and after the payment, discharge or satisfaction of all monies, obligations and liabilities that are or may become due owing or incurred to the Buyer from the Guarantor for such period as the Buyer may determine.

 - the terms of any agreement or other document to which the Guarantor is a party or which is binding upon it or any of its assets

 - all governmental and other authorisations, approvals, licences and consents, required or desirable

This Deed of Guarantee is the legal valid and binding obligation of the Guarantor and is enforceable against the Guarantor in accordance with its terms.

Payments and set-off

All sums payable by the Guarantor under this Deed of Guarantee will be paid without any set-off, lien or counterclaim, deduction or withholding, except for those required by Law. If any deduction or withholding must be made by Law, the Guarantor will pay that additional amount to ensure that the Buyer receives a net amount equal to the full amount which it would have received if the payment had been made without the deduction or withholding.

The Guarantor will pay interest on any amount due under this Deed of Guarantee at the applicable rate under the Late Payment of Commercial Debts (Interest) Act 1998, accruing on a daily basis from the due date up to the date of actual payment, whether before or after judgment.

The Guarantor will reimburse the Buyer for all legal and other costs (including VAT) incurred by the Buyer in connection with the enforcement of this Deed of Guarantee.

Guarantor's acknowledgement

The Guarantor warrants, acknowledges and confirms to the Buyer that it has not entered into this Deed of Guarantee in reliance upon the Buyer nor been induced to enter into this Deed of Guarantee by any representation, warranty or undertaking made by, or on behalf of the Buyer, (whether express or implied and whether following statute or otherwise) which is not in this Deed of Guarantee.

Assignment

The Buyer will be entitled to assign or transfer the benefit of this Deed of Guarantee at any time to any person without the consent of the Guarantor being required and any such assignment or transfer will not release the Guarantor from its liability under this Guarantee.

The Guarantor may not assign or transfer any of its rights or obligations under this Deed of Guarantee.

Severance

If any provision of this Deed of Guarantee is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision will be severed and the remainder of the provisions will continue in full force and effect as if this Deed of Guarantee had been executed with the invalid, illegal or unenforceable provision eliminated.

Third-party rights

A person who is not a Party to this Deed of Guarantee will have no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Deed of Guarantee. This Clause does not affect any right or remedy of any person which exists or is available otherwise than following that Act.

Governing law

This Deed of Guarantee, and any non-Contractual obligations arising out of or in connection with it, will be governed by and construed in accordance with English Law.

The Guarantor irrevocably agrees for the benefit of the Buyer that the courts of England will have jurisdiction to hear and determine any suit, action or proceedings and to settle any dispute which may arise out of or in connection with this Deed of Guarantee and for such purposes hereby irrevocably submits to the jurisdiction of such courts.

Nothing contained in this Clause will limit the rights of the Buyer to take proceedings against the Guarantor in any other court of competent jurisdiction, nor will the taking of any such proceedings in one or more jurisdictions preclude the taking of proceedings in any other jurisdiction, whether concurrently or not (unless precluded by applicable Law).

The Guarantor irrevocably waives any objection which it may have now or in the future to the courts of England being nominated for this Clause on the ground of venue or otherwise and agrees not to claim that any such court is not a convenient or appropriate forum.

- 1.2. Where the Supplier will provide products or Services or otherwise handle information at OFFICIAL for the Buyer, the requirements of [Cabinet Office Procurement Policy Note – Use of Cyber Essentials Scheme certification - Action Note 09/14](#) dated 25 May 2016, or any subsequent updated document, are mandated, namely that “contractors supplying products or services to HMG shall have achieved, and will be expected to retain Cyber Essentials certification at the appropriate level for the duration of the contract”. The certification scope shall be relevant to the Services supplied to, or on behalf of, the Buyer.

- 1.3. The ISO/IEC 27001 certification must have a scope relevant to the Services supplied to, or on behalf of, the Buyer. The scope of certification and the statement of applicability must be acceptable, following review, to the Buyer, including the application of controls from ISO/IEC 27002 (Code of Practice for Information Security Controls).
- 1.4. The Supplier shall follow the UK Government Security Classification Policy (GSCP) in respect of any Buyer's Data being handled in the course of providing the Services and will handle all data in accordance with its security classification. (In the event where the Supplier has an existing Protective Marking Scheme then the Supplier may continue to use this but must map the HMG security classifications against it to ensure the correct controls are applied to the Buyer's Data).
- 1.5. Buyer's Data being handled while providing an ICT solution or service must be separated from all other data on the Supplier's or sub-contractor's own IT equipment to protect the Buyer's Data and enable the data to be identified and securely deleted when required in line with paragraph 1.14. For information stored digitally, this must be at a minimum logically separated. Physical information (e.g., paper) must be physically separated.
- 1.6. The Supplier shall have in place and maintain physical security to premises and sensitive areas used in relation to the delivery of the products or Services, and that store or process Buyer's Data, in line with ISO/IEC 27002 including, but not limited to, entry control mechanisms (e.g. door access), CCTV, alarm systems, etc.
- 1.7. The Supplier shall have in place, implement and maintain an appropriate user access control policy for all ICT systems to ensure only authorised personnel have access to Buyer's Data. This policy should include appropriate segregation of duties and if applicable role based access controls (RBAC). User credentials that give access to Buyer's Data or systems shall be considered to be sensitive data and must be protected accordingly.
- 1.8. The Supplier shall have in place and shall maintain procedural, personnel, physical and technical safeguards to protect Buyer's Data, including but not limited to:
 - 1.8.1. physical security controls;
 - 1.8.2. good industry standard policies and processes;
 - 1.8.3. malware protection;
 - 1.8.4. boundary access controls including firewalls, application gateways, etc;

- 1.10. The Supplier shall ensure that any Buyer's Data which resides on a mobile, removable or physically uncontrolled device is stored encrypted using a product or system component which has been formally assured through a recognised certification process agreed with the Buyer except where the Buyer has given its prior written consent to an alternative arrangement.
- 1.11. The Supplier shall ensure that any device which is used to process Buyer's Data meets all of the security requirements set out in the NCSC End User Devices Platform Security Guidance, a copy of which can be found at: <https://www.ncsc.gov.uk/guidance/end-userdevice-security> and <https://www.ncsc.gov.uk/collection/end-user-device-security/eudoverview/eud-security-principles>.
- 1.12. Whilst in the Supplier's care all removable media and hardcopy paper documents containing Buyer's Data must be handled securely and secured under lock and key when not in use and shall be securely destroyed when no longer required, using either a crosscut shredder or a professional secure disposal organisation.

The term 'lock and key' is defined as: "securing information in a lockable desk drawer, cupboard or filing cabinet which is under the user's sole control and to which they hold the keys".
- 1.13. Where sanitisation or destruction is not possible for legal, regulatory or technical reasons, such as data stored in a cloud system, Storage Area Network (SAN) or on shared backup tapes, then the Supplier shall protect (and ensure that any sub-contractor protects) the Buyer's Information and Buyer's Data until such time, which may be long after termination or expiry of the Contract, when it can be securely cleansed or destroyed.

Security Incidents shall be reported through the Buyer's nominated system or service owner.

Security Incidents shall be investigated by the Supplier with outcomes being notified to the Buyer.

The findings of the ITHC relevant to the Services being provided are to be shared with the Buyer in full without modification or redaction and all necessary remedial work carried out. In the event of significant security issues being identified, a follow up remediation test may be required, to be determined by the Buyer upon review of the ITHC findings.
- 1.21. The Supplier or sub-contractors providing the Services will provide the Buyer with full details of any actual or future intent to develop, manage, support, process or store Buyer's Data outside of the UK mainland. The Supplier or sub-contractor shall not go ahead with any such proposal without the prior written agreement from the Buyer.

The audit shall cover the overall scope of the Services being supplied and the Supplier's, and any sub-contractors', compliance with the paragraphs contained in this Schedule.
- 1.23. The Supplier and sub-contractors shall undergo appropriate security assurance activities and shall provide appropriate evidence including the production of the necessary security documentation as determined by the Buyer. This will include obtaining any necessary professional security resources required to support the Supplier's and sub-contractor's security assurance activities such as: a Security and Information Risk Advisor (SIRA) certified to NCSC Certified Cyber Security Consultancy (CCSC) or NCSC Certified Cyber Professional (CCP) schemes.
- 1.24. Additional information and evidence to that listed above may be required to ensure compliance with DfE security requirements as part of the DfE security assurance process. Where a request for evidence or information is made by the Buyer, the Supplier will acknowledge the request within 5 working days and either provide the information within that timeframe, or, if that is not possible, provide a date when the information will be provided to the Buyer. In any case, the Supplier must respond to information requests from the Buyer needed to support the security assurance process promptly and without undue delay.

- 1.25. The Supplier shall contractually enforce all these Departmental Security Requirements onto any third-party suppliers, sub-contractors or partners who could potentially access Buyer's Data in the course of providing the Services.
- 1.26. The Supplier shall comply with the [NCSC's social media guidance: how to use social media safely](#) for any web and social media-based communications. In addition, any Communications Plan deliverable must include a risk assessment relating to the use of web and social media channels for the programme, including controls and mitigations to be applied and how the NCSC social media guidance will be complied with. The Supplier shall implement the necessary controls and mitigations within the plan and regularly review and update the risk assessment throughout the contract period. The Buyer shall have the right to review the risks within the plan and approve the controls and mitigations to be implemented, including requiring the Supplier to implement any additional reasonable controls to ensure risks are managed within the Buyer's risk appetite.
- 1.27. Any Supplier ICT system used to handle, store or process the Buyer's Data, including any Supplier ICT systems connected to systems that handle, store or process the Buyer's Data, must have in place protective monitoring at a level that is commensurate with the security risks posed to those systems and the data held. The Supplier shall provide evidence to the Buyer upon request of the protective monitoring arrangements in place needed to assess compliance with this requirement.
