F. CONTROL OF THE CONTRACT

F1 Contract Performance

F1.1 The Supplier shall immediately inform the Authority if any of the Goods are not being or are unable to be supplied, the reasons for non-supply, any corrective action and the date by which that action will be completed.

F1.2 At or around 6 Months from the Commencement Date and each anniversary of the Commencement Date thereafter, the Authority may carry out a review of the performance of the Supplier (a "**Review**"). Without prejudice to the generality of the foregoing, the Authority may in respect of the period under review consider such items as (but not limited to):

- a) the Supplier's delivery of the Goods;
- b) the Supplier's contribution to innovation in the Authority; whether the Goods provide the Authority with best value for money; consideration of any changes which may need to be made to the Goods;
- c) a review of future requirements in relation to the Goods; and

d) progress against key milestones.

- F1.3 The Supplier shall provide at its own cost any assistance reasonably required by the Authority to perform Reviews including the provision of data and information.
- F1.4 The Authority may produce a report (a "**Review Report**") of the results of each Review stating any areas of exceptional performance and areas for improvement in the provision of the Goods and where there is any shortfall in any aspect of performance reviewed as against the Authority's expectations and the Supplier's obligations under the Contract.
- F1.5 The Authority shall give the Supplier a copy of the Review Report (if applicable). The Authority shall consider any Supplier comments and may produce a revised Review Report.
- F1.6 The Supplier shall, within 10 Working Days of receipt of the Review Report (revised as appropriate) provide the Authority with a plan to address resolution of any shortcomings and implementation of improvements identified by the Review Report.
- F1.7 Actions required to resolve shortcomings and implement improvements (either as a consequence of the Supplier's failure to meet its obligations under the Contract identified by the Review Report, or those which result from the Supplier's failure to meet the Authority's expectations notified to the Supplier or of which the Supplier ought reasonably to have been aware) shall be implemented at no extra cost to the Authority.

F2 Remedies

- F2.1 If the Authority reasonably believes the Supplier has committed a Material Breach it may, without prejudice to its rights under clause H2 (Termination on Default), do any of the following:
- (a) without terminating the Contract, procure the supply of all or part of the Goods until such time as the Supplier has demonstrated to the Authority's reasonable satisfaction that the Supplier can supply the Goods in accordance with the Specification;
 - (b) without terminating the whole of the Contract, terminate the Contract in respect of some of the Goods only (whereupon a corresponding reduction in the Price shall be made) and thereafter procure a third party to supply those Goods;
 - (c) withhold or reduce payments to the Supplier in such amount as the Authority reasonably deems appropriate in each particular case; and/or
 - (d) terminate the Contract in accordance with clause H2.
- F2.2 Without prejudice to its right under clause C2 (Recovery of Sums Due), the Authority may charge the Supplier for any costs reasonably incurred and any reasonable administration costs in respect of the supply of any part of the Goods by a third party to the extent that such costs exceed the payment which would otherwise have been payable to the Supplier for those Goods.
- F2.3 If the Authority reasonably believes the Supplier has failed to supply all or some of the Goods in accordance with the Contract, professional or Good Industry Practice which could reasonably be expected of a competent and suitably qualified person, or any legislative or regulatory requirement, the Authority may give the Supplier notice specifying the way in which its performance falls short of the requirements of the Contract or is otherwise unsatisfactory.
- F2.4 If the Supplier has been notified of a failure in accordance with clause F2.3 the Authority may:

- (a) direct the Supplier to identify and remedy the failure within such time as may be specified by the Authority and to apply all such additional resources as are necessary to remedy that failure at no additional charge to the Authority within the specified timescale; and/or
- (b) withhold or reduce payments to the Supplier in such amount as the Authority deems appropriate in each particular case until such failure has been remedied to the satisfaction of the Authority.

F2.5 If the Supplier has been notified of a failure in accordance with clause F2.3, it shall:

- (a) use all reasonable endeavours to immediately minimise the impact of such failure to the Authority and to prevent such failure from recurring; and
- (b) immediately give the Authority such information as the Authority may request regarding what measures are being taken to comply with the obligations in clause F2.5 and the progress of those measures until resolved to the satisfaction of the Authority.

F2.6 If, having been notified of any failure, the Supplier does not remedy it in accordance with clause F2.5 in the time specified by the Authority, the Authority may treat the continuing failure as a Material Breach and may terminate the Contract immediately on notice to the Supplier.

F3 Transfer and Sub-Contracting

F3.1 Except where both clauses F3.9 and F3.10 apply, the Supplier shall not transfer, charge, assign, sub-contract or in any other way dispose of the Contract or any part of it without Approval. All such actions shall be evidenced in writing and shown to the Authority on request. Sub-contracting any part of the Contract does not relieve the Supplier of any of its obligations or duties under the Contract.

F3.2 The Supplier is responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Supplier shall provide each Sub-Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Goods fully in accordance with the Contract.

F3.3 The Supplier shall ensure that Sub-Contractors retain all records relating to the Goods for at least 6 years from the date of their creation and make them available to the Authority on request in accordance with clause F5 (Audit). If any Sub-Contractor does not allow the Authority access to the records, then the Authority shall have no obligation to pay any claim or invoice made by the Supplier on the basis of such documents or work carried out by the Sub-Contractor.

F3.4 If the Authority has consented to the award of a Sub-Contract, the Supplier shall ensure that:

- (a) the Sub-Contract contains a right for the Supplier to terminate if the Sub-Contractor does not comply with its legal obligations in environmental, social or labour law;
- (b) the Sub-Contractor includes a provision having the same effect as set out in clause F3.4 (a) in any Sub-Contract which it awards; and

- (a) compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Supplier shall replace or not appoint the Sub-Contractor; or
- (b) non-compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Authority may require the Supplier to replace or not appoint the Sub-Contractor and the Supplier shall comply with such requirement.

F3.6 Unless Approved otherwise, if the total value of the Contract over the Term is, or is likely to be, in excess of £5,000,000, the Supplier shall, in respect of Sub-Contract opportunities arising during the Term from or in connection with the provision of the Goods:

F3.8 The Authority may from time to time change the format and the content of the information required under clause F3.7

F3.9 Notwithstanding clause F3.1, the Supplier may assign to a third party (the “**Assignee**”) the right to receive payment of the Price or any part thereof due to the Supplier (including any interest which the Authority incurs under clause C2 (Payment and VAT)). Any assignment under clause F3.6 is subject to:

- (a) reduction of any sums in respect of which the Authority exercises its right of recovery under clause C3 (Recovery of Sums Due);
- (b) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (c) the Authority receiving notification under both clauses F3.7 and F3.8.

- F3.10 If the Supplier assigns the right to receive the Price under clause F3.9, the Supplier or the Assignee shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.
- F3.11 The Supplier shall ensure that the Assignee notifies the Authority of the Assignee's contact information and bank account details to which the Authority can make payment.
- F3.12 Clause C2 continues to apply in all other respects after the assignment and shall not be amended without Approval.

- F3.14 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to clause F3.15, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.
- F3.15 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F3.13 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the **"Transferee"**):
- (a) the rights of termination of the Authority in clauses H1 and H2 are available to the Supplier in respect of the Transferee; and
 - (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Supplier.
- F3.16 The Authority may disclose to any Transferee any Confidential Information of the Supplier which relates to the performance of the Supplier's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Supplier's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.
- F3.17 Each Party shall at its own cost and expense carry out or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the Contract.

If the receiving Party accepts the Change it shall confirm it in writing to the other Party.
- F4.3 If the Supplier is unable to accept a Change requested by the Authority or if the Parties are unable to agree a change to the Price, the Authority may:
- (a) allow the Supplier to fulfil its obligations under the Contract without the Change; or
 - (b) terminate the Contract immediately except where the Supplier has already delivered all or part of the Goods or where the Supplier can show evidence of substantial work being carried out to fulfil the requirements of the Specification; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).
- F4.4 A Change takes effect only when it is recorded in a CCN validly executed by both Parties.
- F4.5 The Supplier is deemed to warrant and represent that the CNN has been executed by a duly authorised representative of the Supplier in addition to the warranties and representations set out in clause G2.
- F4.6 Clauses F4.4 and F4.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Change in order to address the emergency. In an emergency, Changes may be approved by a different representative of the Authority. However, the Authorised Representative may review such a Change and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Change.

F5 Audit

- F5.1 The Supplier shall:
- (a) keep and maintain until 6 years after the end of the Term, or as long a period as may be agreed between the Parties, full and accurate records of the Contract including the Goods supplied under it, all expenditure reimbursed by the Authority, and all payments made by the Authority;

SECTION 1 INTRODUCTION

1.1 Introduction

- 1.1.1 The Ministry of Justice (MoJ) and our Executive Agencies, which includes His Majesty's Prison and Probation Service (HMPPS) organisation and Prison Industries (PI), referred to as The Authority, have the responsibility to provide essential employment places for prisoners and opportunities for them to gain skills, qualifications and work experience to improve their employment prospects upon release with the overall aim of reducing re-offending.
- 1.1.2 PI manage industries in 95 public sector prisons in England and Wales, and in some of the private sector prisons, and currently operate 465 workshops employing around 1060 staff and 15,000 prisoners and detainees. Our main industries include:
- **76 Textile workshops**, employing approximately 2275 prisoners on a daily basis, producing clothing and textile products for the prison population
 - **Land Based Activities**. We currently have 118 establishments where some form of **Horticultural Activity** takes place. 44 establishments have a commercial Horticultural unit, employing over 1050 offenders growing produce for use within prison kitchens
 - **25 Engineering and Windows** workshops employing over 850 prisoners, manufacturing products for the internal market, MOD and commercial companies. Disciplines include welding and fabrication, sheet metal works, CNC machining and powder coating
 - **5 plastics** workshops employing a total of 78 prisoners in 5 workshops. Each of these establishments has injection moulding facilities, operating a total of 27 machines across the workshops ranging from 40 tonnes to 850 tonnes producing a range of CES products for internal use and work for commercial customers
 - **20 print production workshops** employing approximately 362 prisoners, producing printed documents for HMPPS, MOJ, HMCTS and other Government departments
 - **24 woodwork** workshops employing approximately 500 prisoners. We produce goods including cell furniture, packaging crates and numerous bespoke items for the internal market, other government departments and commercial customers
 - **13 Food Packing Services** workshops producing daily breakfast and beverage packs for 55,000 prisoners
 - **33 Industrial laundries** employing approximately 800 prisoners. A number of the larger sites also undertake work for the commercial sector
 - Prison Industries continue to support **other Government Departments** by using offender labour to manufacture over £3million pounds worth of goods annually.
- 1.1.3 PI continue to develop their commercial offering to the market and have seen a continuing upward growth in work carried out for the Ministry of Defence and future opportunities for PI to provide additional work as part of the new build prisons. The success of these raw material contracts is therefore business critical.

1.2 Background and Overview of Requirements

- 1.2.1 The industrial workshops provide products for the internal market and contribute to the prison estate, quality of care to the prison population and to their families. Prison Service workshops in total supply around £32m of products per annum. PI Engineering Sector currently has a turnover of around £6m per annum.

- 1.2.2 This Specification relates to the Supply and Delivery of Aluminium Window, Door and Roof Profiles, Double Glazed Units and Infill Panels being provided via a contract between the Supplier(s) and the Ministry of Justice for a period of 5 years with an optional extension of 1 year. The information contained within this document forms the basis of the criteria against which Supplier performance will be measured.
- 1.2.3 The requirement will be divided into 4 Lots, as detailed below. The Authority intends to award contracts to up to 4 Suppliers (one Supplier per Lot, with the possibility of the same Supplier being awarded a contract for more than one Lot).

Lot 1	Aluminium Window and Door Profiles
Lot 2	Aluminium Roof Profiles and Greenhouses
Lot 3	Double Glazed units
Lot 4	Infill Panels

- 1.2.4 The Authority requires the goods specified in this document to be supplied direct to Engineering workshops at HMP Hewell, HMP Rochester, HMP The Mount and HMP Wymott (see Appendix A for address details). These workshops manufacture aluminium windows, doors and roof systems and lightweight single glazed aluminium framed greenhouses for the prison estate. They also use manufacture other specialist items such as cell windows, observation boxes, telephone boxes, bike shelters, shower screens, internal office partitioning, closed visit rooms and bottom-hung opening-in windows.
- 1.2.5 The Supplier(s) will be required to stock and deliver, as requested across the prison estate, as a minimum the range of products outlined in this document (refer to Section 2 for details). The Authority provides no guarantee of volumes, monetary commitment or future requirements whatsoever. All quantities provided in this document are historical usage figures and are provided for illustration purposes only.
- 1.2.6 To ensure the Authority can meet its obligations, Suppliers will be required to provide a flexible approach to the addition/removal of products stated within this document and any items added shall be priced in accordance with those in the original range. The Authority will where possible use reasonable endeavours to provide sufficient notice to advise supplier(s) of any product changes.

Where a sub-contractor is used, the Supplier(s) are obliged to ensure the products meet the Authority's requirements as detailed in this document.
- 1.2.10 The Authority will provide prior notice when a product is required that isn't one of the standard products described within this document, with lead times and pricing being agreed between both parties. In the event that the Supplier is unable to supply, the Authority reserves the right to purchase goods from an alternative Supplier.

SECTION 6 General Requirements

6.1 Social and Environmental Requirements

- 6.1.1 The government's 25 Year Environment Plan sets out goals for improving the environment within a generation and details how it will work with communities and businesses to do this. The Authority is obliged to deliver social value through commercial activity and endeavours to achieve wider, positive, environmental benefits through the delivery of this contract.
- 6.1.2 The Authority is obliged to ensure that goods and services purchased are manufactured, delivered, used and managed at the end of life in an environmentally and socially responsible manner. Suppliers will be expected to help enable the Authority to meet this obligation by considering how additional environmental benefits can be delivered in the performance of the contract, including the reduction of waste, water and working towards net zero greenhouse gas emissions.
- 6.1.3 The supplier must consider the impact of transport on the environment throughout the delivery of this contract and endeavour to reduce this impact. Examples of this include but are not limited to; UK manufacturing, avoiding unnecessary journeys, adopting zero or ultra-low emission modes of transport and having the capability to monitor and report on fuel/energy used, mileage and resulting emissions.

It is therefore necessary to ensure transparency in supply chains to assess the risks of infringements relating to basic employment and human rights of people employed in them. When procuring raw materials, it is also necessary to ensure there is minimal impact on the environment from the extraction, processing and manufacture of these products, and to assess the security of supply and scarcity of the raw materials.
- 6.1.6 Suppliers must provide an annual report to the Authority detailing the Supplier's reduction in emissions of greenhouse gases arising from the performance of the contract, measured in metric tonnes carbon dioxide equivalents (MTCDE).

- 6.1.7 In order to support the rehabilitation of offenders and reduce the likelihood of reoffending, the government wishes to see more prisoners working, where work can be recognised as productive and is delivered in an 'employment like' atmosphere. This gives prisoners the opportunity to learn new skills and prepare for employment on release. Suppliers are encouraged to consider offering employment and training opportunities to ex-offenders where possible. Further information about how New Futures Network can help with this can be found at Home - New Futures Network.

6.3 Flexibility, Innovation and Continuous Improvement

- 6.3.1 Flexibility is required from the Supplier throughout the Contract, with an ability to respond to changing requirements. The Supplier shall work strategically with the Authority to meet the objectives of the contract and assist in achieving ongoing increased performance against any set targets.
- 6.3.2 The Supplier will be required to develop and continuously improve goods, supply, processes and procedures, working proactively to reduce costs through their supply chain and manufacturing process throughout the duration of the Contract. This may include piloting of

new ideas and initiatives, proposing and implementing advances in technology, and streamlining processes.

- 6.3.3 Proposals are to be presented with clear identified benefits and risks. Those involving a cost element are to be fully costed, with payback timescales identified, and any reductions to the fees detailed. These will be evaluated accordingly and by agreement the contract amended by means of a variation.
- 6.3.4 As part of the Supplier's day-to-day operations, feedback obtained from any customer surveys and quality reviews should be part of the basis for ongoing continuous improvement of the equipment.

- 6.5.2 without giving notice to the Supplier where, in the Authority's view, the provision of such notice may undermine the Security Tests to be carried out
- and, where applicable, the Authority shall be granted access to the Supplier's premises for the purpose of undertaking the relevant Security Tests.
- 6.6 If the Authority carries out Security Tests in accordance with paragraphs 6.5.1 or 6.5.2, the Authority shall (unless there is any reason to withhold such information) notify the Supplier of the results of the Security Tests as soon as possible and in any event within 5 Working Days after completion of each Security Test.

- 7.2 If ISO/IEC 27001: 2013 certification or equivalent is provided, the ISMS shall be audited independently in accordance with ISO/IEC 27001: 2013 or equivalent. The Authority and its authorised representatives shall, where applicable, be granted access to the Supplier Sites and Sub-contractor premises for this purpose.
- 7.3 If, on the basis of evidence resulting from such audits, it is the Authority's reasonable opinion that ISMS is not compliant with any applicable principles and practices of ISO/IEC 27001: 2013 or equivalent, the requirements of this Schedule 6 and/or the Baseline Security Requirements is not being achieved by the Supplier, the Authority shall notify the Supplier of this and provide a reasonable period of time (having regard to the extent and criticality of any non-compliance and any other relevant circumstances) for the Supplier to implement any necessary remedy. If the Supplier does not ensure that the ISMS is compliant within this period of time, the Authority may obtain an independent audit of the ISMS to assess compliance (in whole or in part).
- 7.4 If, as a result of any such independent audit as described in paragraph 7.3 the Supplier is found to be non-compliant with any applicable principles and practices of ISO/IEC 27001:2013 or equivalent, the requirements of this Schedule 6 and/or the Baseline Security Requirements the Supplier shall, at its own cost, undertake those actions that are required in order to ensure that the ISMS is complaint and shall reimburse the Authority in full in respect of the costs obtaining such an audit.

8. SECURITY RISKS AND BREACHES

- 8.1 The Supplier shall use its reasonable endeavours to prevent any Breach of Security for any reason, including as a result of malicious, accidental or inadvertent behaviour.
- 8.2 If either Party becomes aware of a Breach of Security or an attempted Breach of Security it shall act in accordance with the agreed security incident management processes and incident response plans as set out in the ISMS.
- 8.3 Without prejudice to the security incident management processes and incident response plans set out in the ISMS, upon becoming aware of any Breach of Security or attempted Breach of Security, the Supplier shall:

- 8.3.1 immediately notify the Authority and take all reasonable steps (which shall include any action or changes reasonably required by the Authority) that are necessary to:
 - 8.3.1.1 minimise the extent of actual or potential harm caused by any Breach of Security;
 - 8.3.1.2 remedy any Breach of Security to the extent that is possible and protect the integrity of the ICT Environment (to the extent that this is within its control) and ISMS against any such Breach of Security or attempted Breach of Security;
 - 8.3.1.3 mitigate against a Breach of Security or attempted Breach of Security; and
 - 8.3.1.4 prevent a further Breach of Security or attempted Breach of Security in the future resulting from the same root cause failure;
- 8.3.2 provide to the Authority and/or the Computer Emergency Response Team for UK Government ("**GovCertUK**") or equivalent any data that is requested relating to the Breach of Security or attempted Breach of Security within 2 Working Days of such request; and
- 8.3.3 as soon as reasonably practicable and, in any event, within 2 Working Days following the Breach of Security or attempted Breach of Security, provide to the Authority full details (using the reporting mechanism defined by the ISMS) of the Breach of Security or attempted Breach of Security, including a root cause analysis if required by the Authority

and the Supplier recognises that the Authority may report significant actual or potential losses of Personal Data to the Information Commissioner or equivalent and to the Cabinet Office.

- 8.4 If any action is taken by the Supplier in response to a Breach of Security or attempted Breach of Security which occurred as a result of non-compliance of the ISMS with any ISO/IEC 27001: 2013 requirements or equivalent (as applicable), the Baseline Security Requirements and/or the requirements of this Schedule 6, any such action and change to the ISMS and/or Security Plan as a result shall be implemented at the Supplier's cost.

- 8.5 The Supplier shall ensure that the Supplier System:
 - 8.5.1 functions in accordance with Good Industry Practice for protecting external connections to the internet;
 - 8.5.2 functions in accordance with Good Industry Practice for protection from malicious code;
 - 8.5.3 provides controls to securely manage (store and propagate) all cryptographic keys to prevent malicious entities and services gaining access to them, in line with the Authority's Cryptographic Policy as made available to the Supplier from time to time;
 - 8.5.4 is patched (and all of its components are patched) in line with Good Industry Practice, any Authority patching policy currently in effect and notified to the Supplier and any Supplier patch policy that is agreed with the Authority; and
 - 8.5.5 uses the latest versions of anti-virus definitions, firmware and software available from industry accepted anti-virus software vendors.

- 8.6 Notwithstanding paragraph 8.5, if a Breach of Security is detected in the ICT Environment, the Parties shall co-operate to reduce the effect of the Breach of Security and, if the Breach of Security causes loss of operational efficiency or loss or corruption of Information Assets and/or Authority Data, assist each other to mitigate any losses and to recover and restore such Information Assets and Authority Data.
- 8.7 All costs arising out of the actions taken by the Parties in compliance with paragraphs 8.2, 8.3 and 8.6 shall be borne by:
- 8.7.1 the Supplier if the Breach of Security originates from the defeat of the Supplier's security controls or Information Assets and/or Authority Data is lost or corrupted whilst under the control of the Supplier or its Sub-contractor; or
- 8.7.2 the Authority if the Breach of Security originates from the defeat of the Authority's security controls or Information Assets and/or Authority Data is lost or corrupted whilst under the control of the Authority
- and each Party shall bear its own costs in all other cases.

9. VULNERABILITIES AND CORRECTIVE ACTION

- 9.1 The Parties acknowledge that from time to time vulnerabilities in the ICT Environment and ISMS will be discovered which, unless mitigated, will present an unacceptable risk to Information Assets and/or Authority Data.
- 9.2 The severity of any vulnerabilities shall be categorised by the Supplier as '*Critical*', '*Important*' and '*Other*' according to the agreed method in the ISMS and using any appropriate vulnerability scoring systems.
- 9.3 The Supplier shall procure the application of security patches to vulnerabilities categorised as '*Critical*' within 7 days of public release, vulnerabilities categorised as '*Important*' within 30 days of public release and vulnerabilities categorised as '*Other*' within 60 days of public release, except where:
- 9.3.1 the Supplier can demonstrate that a vulnerability is not exploitable within the context of the Goods being supplied, including where it resides in a software component which is not being used, provided that, where those vulnerabilities become exploitable, they are remedied by the Supplier within the timescales in paragraph 9.3;
- 9.3.2 the application of a security patch in respect of a vulnerability categorised as '*Critical*' or '*Important*' adversely affects the Supplier's ability to deliver the Goods, in which case the Supplier shall be granted an extension to the timescales in paragraph 9.3 of 5 days, provided that the Supplier continues to follow any security patch test plan agreed with the Authority; or
- 9.3.3 the Authority agrees a different timescale after consultation with the Supplier in accordance with the processes defined in the ISMS.
- 9.4 The ISMS and the Security Plan shall include provision for the Supplier to upgrade software throughout the Term within 6 months of the release of the latest version unless:
- 9.4.1 upgrading such software reduces the level of mitigation for known threats, vulnerabilities or exploitation techniques, provided always that such software is upgraded by the Supplier within 12 months of release of the latest version; or
- 9.4.2 otherwise agreed with the Authority in writing.

- 9.5 The Supplier shall:
- 9.5.1 implement a mechanism for receiving, analysing and acting upon threat information provided by GovCertUK, or any other competent Central Government Body;

 - 9.5.3 ensure that it is knowledgeable about the latest trends in threat, vulnerability and exploitation that are relevant to the ICT Environment (to the extent that this is within the control of the Supplier) by actively monitoring the threat landscape during the Term;
 - 9.5.4 pro-actively scan the ICT Environment (to the extent that this is within the control of the Supplier) for vulnerable components and address discovered vulnerabilities through the processes described in the ISMS;
 - 9.5.5 from the Commencement Date and within 5 Working Days of the end of each subsequent month during the Term provide a report to the Authority detailing both patched and outstanding vulnerabilities in the ICT Environment (to the extent that this is within the control of the Supplier) and any elapsed time between the public release date of patches and either the time of application or, for outstanding vulnerabilities, the time of issue of such report;
 - 9.5.6 propose interim mitigation measures in respect of any vulnerabilities in the ICT Environment (to the extent this is within the control of the Supplier) known to be exploitable where a security patch is not immediately available;
 - 9.5.7 remove or disable any extraneous interfaces, services or capabilities that are no longer needed for the provision of the Goods (in order to reduce the attack surface of the ICT Environment to the extent this is within the control of the Supplier); and
 - 9.5.8 inform the Authority when it becomes aware of any new threat, vulnerability or exploitation technique that has the potential to affect the security of the IT Environment (to the extent this is within the control of the Supplier) and provide initial indications of possible mitigations
- 9.6 If the Supplier is unlikely to be able to mitigate any vulnerability within the timescales in paragraph 9.3, the Supplier shall notify the Authority immediately.
- 9.7 Any failure by the Supplier to comply with paragraph 9.3 shall constitute a material Default.

10. SUB-CONTRACTS

- 10.1 The Supplier shall ensure that all Sub-Contracts with Sub-Contractors who have access to Information Assets and/or Authority Data contain equivalent provisions in relation to information assurance and security that are no less onerous than those imposed on the Supplier under the Contract.

ANNEX 1 – BASELINE SECURITY REQUIREMENTS

1 Security Classifications and Controls

- 1.1 The Supplier shall, unless otherwise Approved in accordance with paragraph 6.2 of this Annexe 1, only have access to and handle Information Assets and Authority Data that are classified under the Government Security Classifications Scheme as OFFICIAL.
- 1.2 There may be a specific requirement for the Supplier in some instances on a limited 'need to know basis' to have access to and handle Information Assets and Authority Data that are classified as 'OFFICIAL-SENSITIVE.'
- 1.3 The Supplier shall apply the minimum security controls required for OFFICIAL information and OFFICIAL-SENSITIVE information as described in Cabinet Office guidance, currently at:
https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/251480/Government-Security-Classifications-April-2014.pdf.
- 1.4 The Supplier shall be able to demonstrate to the Authority and any accreditor that it has taken into account the "Technical Controls Summary" for OFFICIAL (in the above guidance) in designing and implementing the security controls in the Supplier System, which shall be subject to assurance and accreditation to Government standards.
- 1.5 Additional controls may be required by the Authority and any accreditor where there are aspects of data aggregation.

2 End User Devices

- 2.1 Authority Data shall, wherever possible, be held and accessed on paper or in the ICT Environment on secure premises and not on removable media (including laptops, removable discs, CD-ROMs, USB memory sticks, PDAs and media card formats) without Approval. If Approval is sought to hold and access data by other means, the Supplier shall consider the second-best option and third best option below and record the reasons why a particular approach should be adopted when seeking Approval:
 - 2.1.1 second best option means: secure remote access so that data can be viewed or amended over the internet without being permanently stored on the remote device, using products meeting the FIPS 140-3 standard or equivalent, unless Approved;
 - 2.1.2 third best option means: secure transfer of Authority Data to a remote device at a secure site on which it will be permanently stored, in which case the Authority Data and any links to it shall be protected at least to the FIPS 140-3 standard or equivalent, unless otherwise Approved, and noting that protectively marked Authority Data must not be stored on privately owned devices unless they are protected in this way.
- 2.2 The right to transfer Authority Data to a remote device should be carefully considered and strictly limited to ensure that it is only provided where absolutely necessary and shall be subject to monitoring by the Supplier and Authority.
- 2.3 Unless otherwise Approved, when Authority Data resides on a mobile, removable or physically uncontrolled device, it shall be:
 - 2.3.1 the minimum amount that is necessary to achieve the intended purpose and should be anonymised if possible;
 - 2.3.2 stored in an encrypted form meeting the FIPS 140-3 standard or equivalent and using a product or system component which has been formally assured through a recognised certification

process of CESG to at least Foundation Grade, for example, under the CESG Commercial Product Assurance scheme (“CPA”) or equivalent, unless otherwise Approved;

2.3.3 protected by an authentication mechanism, such as a password; and

2.3.4 have up to date software patches, anti-virus software and other applicable security controls to meet the requirements of this Schedule 6.

2.4 Devices used to access or manage Authority Data shall be under the management authority of the Supplier and have a minimum set of security policy configurations enforced. Unless otherwise Approved, all Supplier devices shall satisfy the security requirements set out in the CESG End User Devices Platform Security Guidance (“**CESG Guidance**”) (<https://www.ncsc.gov.uk/guidance/end-user-device-security>) or equivalent.

2.5 Where the CESG Guidance highlights shortcomings in a particular platform the Supplier may wish to use, then these should be discussed with the Authority and a joint decision shall be taken on whether the residual risks are acceptable. If the Supplier wishes to deviate from the CESG Guidance, this should be agreed in writing with the Authority on a case by case basis.

3 Data Storage, Processing, Management, Transfer and Destruction

3.1 The Parties recognise the need for Authority Data to be protected. To that end, the Supplier shall inform the Authority the location within the United Kingdom where Authority Data is stored, processed and managed. The import and export of Authority Data from the Supplier System must be strictly controlled and recorded.

3.2 The Supplier shall inform the Authority of any changes to the location within the United Kingdom where Authority Data is stored, processed and managed and shall not transmit, store, process or manage Authority Data outside of the United Kingdom without Approval provided that the transmission, storage, processing and management of Authority Data offshore is within:

3.2.1 the EEA; or

3.2.2 another country or territory outside the EEA if that country or territory ensures an adequate level of protection by reason of its domestic law or of the international commitments it has entered into.

3.3 The Supplier System shall support the requirement of the Authority to comply with Government policy and Cabinet Office guidance on Offshoring by assessing, as required, any additional security risks associated with the storage, processing and/or transmission of any data and/or information offshore, including by an offshore Supplier (which may include the use of ‘landed resources’), taking account of European Union requirements to confirm the ‘adequacy’ of protection of Personal Data in the countries where storage, processing and/or transmission occurs. No element of the Supplier System may be offshored without Approval.

3.4 The Supplier shall ensure that the Supplier System provides internal processing controls between security domains to prevent the unauthorised high domain exporting of Authority Data to the low domain if there is a requirement to pass data between different security domains.

3.5 The Supplier shall ensure that any electronic transfer of Authority Data:

3.5.1 protects the confidentiality of the Authority during transfer through encryption suitable for the impact level of the data;

- 3.5.2 maintains the integrity of the Authority Data during both transfer and loading into the receiving system through suitable technical controls for the impact level of the data; and
- 3.5.3 prevents the repudiation of receipt through accounting and auditing.

3.6 The Supplier shall:

- 3.6.1 protect Authority Data, including sensitive Personal Data, whose release or loss could cause harm or distress to individuals and ensure that this is handled as if it were confidential while it is stored and/or processed;
- 3.6.2 ensure that any OFFICIAL-SENSITIVE information, including Personal Data is encrypted in transit and when at rest when stored away from the Supplier's controlled environment;
- 3.6.3 on demand, provide the Authority with all Authority Data in an agreed open format;
- 3.6.4 have documented processes to guarantee availability of Authority Data if it ceases to trade;
- 3.6.5 securely destroy all media that held Authority Data at the end of life of the media in accordance with any requirements in the Contract and, in the absence of any such requirements, in accordance with Good Industry Practice;
- 3.6.6 securely erase any or all Authority Data held by the Supplier when requested to do so by the Authority;
- 3.6.7 ensure that all material used for storage of Confidential Information is subject to controlled disposal and the Supplier shall:
 - 3.6.7.1 destroy paper records containing Personal Data by incineration, pulping or shredding so that reconstruction is unlikely; and
 - 3.6.7.2 dispose of electronic media that was used for the processing or storage of Personal Data through secure destruction, overwriting, erasure or degaussing for re-use.

4 Networking

- 4.1 Any Authority Data transmitted over any public network (including the Internet, mobile networks or unprotected enterprise network) or to a mobile device shall be encrypted using a product or system component which has been formally assured through a certification process recognised by CESG, to at least Foundation Grade, for example, under CPA or through the use of Public Sector Network ("PSN") compliant encrypted networking services or equivalent unless none are available in which case the Supplier shall agree the solution with the Authority.
- 4.2 The Authority requires that the configuration and use of all networking equipment in relation to the supply of the Goods, including equipment that is located in secure physical locations, is at least compliant with Good Industry Practice.
- 4.3 The Supplier shall ensure that the ICT Environment (to the extent this is within the control of the Supplier) contains controls to maintain separation between the PSN and internet connections if used.

5 Security Architectures

- 5.1 When designing and configuring the ICT Environment (to the extent that this is within the control of the Supplier) the Supplier shall follow Good Industry Practice and seek guidance from recognised security professionals with the appropriate skills and/or those with a CESG Certified Professional certification or equivalent for all bespoke or complex components.

- 5.2 The Supplier shall provide to the Authority and any accreditor sufficient design documentation detailing the security architecture of the ICT Environment and data transfer mechanism to support the Authority's and any accreditor's assurance that this is appropriate, secure and compliant with the Authority's requirements.
- 5.3 The Supplier shall apply the '*principle of least privilege*' (the practice of limiting systems, processes and user access to the minimum possible level) to the design and configuration of the ICT Environment used for the storage, processing and management of Authority Data. Users should only be granted the minimum necessary permissions to access Information Assets and Authority Data and must be automatically logged out of the Supplier System if an account or session is inactive for more than 15 minutes.

6 Digital Continuity

The Supplier shall ensure that each Information Asset is held in an appropriate format that is capable of being updated from time to time to enable the Information Asset to be retrieved, accessed, used and transferred to the Authority, including in accordance with any information handling procedures set out in the Information Security Policy Framework if applicable.

7 Personnel Vetting and Security

- 7.1 All Staff shall be subject to pre-employment checks that include, as a minimum, their employment history for at least the last 3 years, identity, unspent criminal convictions and right to work (including nationality and immigration status) and shall be vetted in accordance with:
- 7.1.1 the BPSS or BS7858 or equivalent; and
- 7.1.2 PSI 07/2014, if applicable, based on their level of access to Information Assets and/or Authority Data.
- 7.2 If the Authority agrees that it is necessary for any Staff to have logical or physical access to Information Assets and/or Authority Data classified at a higher level than OFFICIAL (such as that requiring 'SC' clearance), the Supplier shall obtain the specific government clearances that are required for access to such Information Assets and/or Authority Data.
- 7.3 The Supplier shall prevent Staff who are unable to obtain the required security clearances from accessing Information Assets and/or Authority Data and/or the ICT Environment used to store, process and/or manage such Information Assets or Authority Data.
- 7.4 The Supplier shall procure that all Staff comply with the Security Policy Framework and principles, obligations and policy priorities stated therein, including requirements to manage and report all security risks in relation to the supply of the Goods.
- 7.5 The Supplier shall ensure that Staff who can access Information Assets and/or Authority Data and/or the ICT Environment are aware of their responsibilities when handling such information and data and undergo regular training on secure information management principles. Unless otherwise Approved, this training must be undertaken annually.
- 7.6 If the Supplier grants Staff access to Information Assets and/or Authority Data, those individuals shall be granted only such levels of access and permissions that are necessary for them to carry out their duties. Once Staff no longer require such levels of access or permissions or leave the organisation, their access rights shall be changed or revoked (as applicable) within one Working Day.

8 Identity, Authentication and Access Control

- 8.1 The Supplier shall operate a robust role-based access control regime, including network controls, to ensure all users and administrators of and those maintaining the ICT Environment are uniquely identified and authenticated when accessing or administering the ICT Environment to prevent unauthorised users from gaining access to Information Assets and/or Authority Data. Applying the '*principle of least privilege*', users and administrators and those responsible for maintenance shall be allowed access only to those parts of the ICT Environment they require. The Supplier shall retain an audit record of accesses and users and disclose this to the Authority upon request.
- 8.2 The Supplier shall ensure that Staff who use the Authority System actively confirm annually their acceptance of the Authority's acceptable use policy.

9 Physical Media

- 9.1 The Supplier shall ensure that:
 - 9.1.1 all OFFICIAL information is afforded physical protection from internal, external and environmental threats commensurate with the value to the Authority of that information;

 - 9.1.4.2 only transferred by an approved secure form of transfer with confirmation of receipt obtained.

10 Audit and Monitoring

- 10.1 The Supplier shall implement effective monitoring of its information assurance and security obligations in accordance with Government standards and where appropriate, in accordance with CESG Good Practice Guide 13 – Protective Monitoring or equivalent.
- 10.2 The Supplier shall collect audit records which relate to security events in the ICT Environment (where this is within the control of the Supplier), including those that would support the analysis of potential and actual compromises. In order to facilitate effective monitoring and forensic readiness, such Supplier audit records shall include:
 - 10.2.1 logs to facilitate the identification of the specific asset which makes every outbound request external to the ICT Environment (to the extent it is within the control of the Supplier). To the extent the design of the ICT Environment allows, such logs shall include those from DHCP servers, HTTP/HTTPS proxy servers, firewalls and routers;
 - 10.2.2 regular reports and alerts giving details of access by users of the ICT Environment (to the extent that it is within the control of the Supplier) to enable the identification of changing access trends, any unusual patterns of usage and/or accounts accessing higher than average amounts of Authority Data; and

- 10.2.3 security events generated in the ICT Environment (to the extent it is within the control of the Supplier) including account logon and logoff events, start and end of remote access sessions, security alerts from desktops and server operating systems and security alerts from third party security software.
