Standard ILT Classroom Requirements

Full ILT Classroom installation requirements:

SMART Board 680

Projector – EB_X10/EB 905/475EBWi

Speakers (Powered or SMART) – Part No: 1050001

Sahara Ceiling Mounting Kit (1m Pole) – Sahara Part No: 1150014

Note: Additional 2m Pole + Connector Kit - required for high ceilings.

Sahara Cable Kit: (5, 10 or 15m Cable – As required, dependant on cable length) -
– Sahara Part No: 1770001

Note: Sahara Kit – (Includes Sahara Connection box, VGA Cable & Speaker cable
(Speaker to Connection Box))

1 x Standard PC (with SMART Notebook software installed)

1 x Workstation Trolley (for PC)

1 x Networked LaserJet Printer (Colour or B&W – As required)

1 x Table or Trolley (for Printer)

Data & Power requirements:

3 x Network Data points (1 x PC, 1 x Projector & 1 x Printer)

Twin Power Socket (PC)

Single/Twin Power Socket (Printer)

1 x Switched Fused spur supplying - 2 x High level single Power socket's:

(1 x Projector Supply – Ceiling mounted - adjacent to Projector fixing point)

(1 x Speaker Power – Adjacent to L/Hand Powered Speaker) –

(Note: Not required for SMART Speakers – Power socket at lower level)

Additional items Required: (PC – Connection Box)

1 x 3.5mm Jack to twin RCA connection lead (2metres)

1 x VGA Cable (2metres)

2 x Network Patch Cables (Length as required)

Note: A copy of the IT Department Standard Hardware list can be found on the
Staff Intranet in the Central Services/Information Technology folder:

<http://staff2/mod/resource/view.php?id=1935>

Current Equipment Specifications:

Spec for Epson EB-X10 Projector:

IMAGE SIZE: 33 inch to 300 inch

60-inch screen: 1.80 - 2.17m (projection distance)

Spec for Epson EB-905

SCREEN SIZE: 30-inch to 300-inch

PROJECTION DISTANCE 60-inch screen: 1.69 – 2.75m

Spec for SMART Board 680:

Size 65 1/4" W x 49 1/2" H x 5 1/8" D

(165.7 cm x 125.7 cm x 13 cm)

Active screen area 61 5/8" W x 46 1/8" H

Maximum interactive, (156.5 cm x 117.2 cm)

projected image) 77" diagonal (195.6 cm)

(Size dependant on Space available)

Typical Board Dimensions

900mm x 600mm

1200mm x 900mm

1200mm x 1200mm

1800mm x 1200mm

2400mm x 1200mm

Projector Epson - 475EBWi Projector

Epson Ceiling Mount - Part code: V12H003B23

or

Speakers (Powered) – Part No: 1050001

Sahara Cable Kit: (5, 10 or 15m Cable – As required, dependant on cable length) - – Sahara Part No: 1770001

Note: Sahara Kit – (Includes Sahara Connection box, VGA Cable & Speaker cable (Speaker to Connection Box))

1 x Standard PC (with SMART Notebook software installed)

1 x Workstation Trolley (for PC)

1 x Networked LaserJet Printer (Colour or B&W – As required)

1 x Table or Trolley (for Printer)

3 x Network Data points (1 x PC, 1 x Projector & 1 x Printer)

Twin Power Socket (PC)

Single/Twin Power Socket (Printer)

1 x Switched Fused spur supplying - 2 x High level single Power socket's:

(1 x Projector Supply – Ceiling mounted - adjacent to Projector fixing point)

(1 x Speaker Power – Adjacent to L/Hand Powered Speaker) –

(Note: Not required for SMART Speakers – Power socket at lower level)

Additional items Required: (PC – Connection Box)

1 x 3.5mm Jack to twin RCA connection lead (2metres)

1 x VGA Cable (2metres)

2 x Network Patch Cables (Length as required)

Note:

Ensure that the wall is sufficient to support the weight of the projector and associated mounting bracket

Typical Classroom Layout View

Projector Epson - 475EBWi Projector

SCREEN SIZE 60-inch to 100-inch

PROJECTION DISTANCE 74-inch screen: 0.43m

80-inch/203cm image from a distance of just 0.47m

KEystone CORRECTION Manual vertical & horizontal $\pm 5^\circ$

WEIGHT 5,4kg

DIMENSIONS (W x D x H) 367 x 375 x 181mm

(Size dependant on Space available)

Typical Board Dimensions

900mm x 600mm

1200mm x 900mm

1200mm x 1200mm

1800mm x 1200mm

2400mm x 1200mm

White Board

Standard ILT Classroom Requirements

Teaching Wall

18mm Plywood Pattress – For Touch Screen fixing

Interactive Touch Screen

Keyboard & Mouse I/P

NUC (Dimensions: 115x111x48mm)
Inputs: 65 watt Power supply
Ethernet connection
Keyboard + Mouse
Connections to Screen: HDMI Cable + USB
(Alternative VGA Cable + USB + Audio)

Screen Dimensions:

Typical 65" Screen (W:1591xH:961xD:116mm) – Net Weight 70kg
Typical 70" Screen (W:1713xH:1035xD:115mm) – Net Weight 85kg
Typical 80" Screen (W:2006xH:1192xD:110mm) – Net Weight 110kg
(Note: The above dimensions and weight give a reasonably accurate idea, but dimesions and weights may vary depending on make/model of screen finally selected)

Mounting options:

Wall Bracket (Fixed Height) – (Wall only Mounting bracket – or Brackets that spread the load to floor can be purchased).
Wall Bracket (Height Adjustable) – Typically load shared between wall and floor fixing
Mobile Stand – (Height Adjustable) - Screen is mounted on a trolley with Motor to provide height adjustment.

Note: The drawing shows a NUC, but this could be replaced with a standard Desk top PC, or a built in PC.
Preferably these devices will be leased or purchased (should we stop leasing in the future) and be of a standard the same or at least comparable to any other PC's in the room where applicable.

Power requirement has been set at 2 x Twin sockets to allow for a Desktop PC or connection of BYOD devices should they be required for use.

It is assumed that we will be using the built in speakers with the screens and will not be installing external powered speakers, hence the requirement for a power socket and cabling for these has been removed.

The NUC is connected to the screen via HDMI cable and a USB cable – Secondary BYOD's can be connected directly to the screen using an alternative HDMI or VGA input, to remove any requirement or need to interfere with the NUC cabling.

Key:

— Power
— Ethernet Network Cable
— HDMI Cables
— USB Input Cables

2 x Single Data Point
+ 2 x Twin Power
Sockets

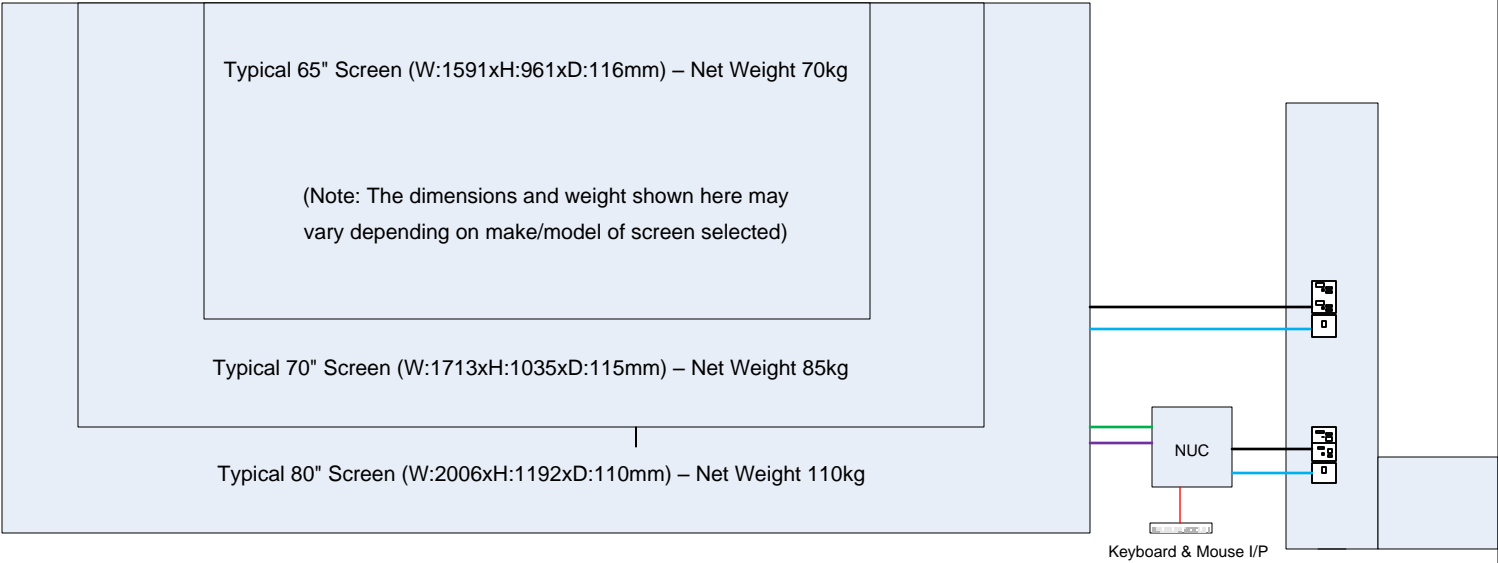

Mounting options:

- Wall Bracket (Fixed Height) – (Wall only Mounting bracket – or Brackets that spread the load to floor can be purchased).
- Wall Bracket (Height Adjustable) – Typically load shared between wall and floor fixing
- Mobile Stand – (Height Adjustable) - Screen is mounted on a trolley with Motor to provide height adjustment.

Screen Dimensions:

2.03 – 2.08
Metres

Note:
By setting the top edge of the Screen to 2.03 metres or slightly higher for larger screens it allows users to reach the top of the screen & also ensures bottom edge viewable at back of the room.
