GFE Types

CEI	An item of material embodied in a CWI. An item of materiel provided to a contractor, without charge, for incorporation into an asset under manufacture, production, construction repair etc. CEI was previously referred to as an embodiment loan item. Maybe issued as new acquisitions or from existing holdings.
CWI	An item of materiel temporarily issued to a contractor, without charge and for a specific period, typically for the purpose of undergoing repair, refurbishment, maintenance, servicing, modification, enhancement or conversion, or for the purpose of undergoing inspection or packing, and which is subject to physical return in a specific condition. CWI was formerly referred to as a contract loan item.
CWA	This describes an item of material removed from a CWI in accordance with a MOD contract. It is an item of materiel (which is removed (often as a result of cannibalisation or salvage action) from an existing item of materiel (which may then be identified for disposal) for incorporation into another item of materiel, or for retention as a fixed asset or stock item. CWA was a formerly referred to as a contract loan arising. Once removed, if the item is not to be disposed of, it is either brought on charge as a CWI pending work completion, issued as a CEI for embodiment, or a CSI. CWAs include items removed from items of materiel by a primary repair contractor for onward transfer to subcontractors.
CSI	An item of material, capital spare, provided to support work on a CWI in accordance with a MOD contract. It is an item of materiel provided to a contractor for a particular purpose and specified period, with or without charge, which is subject to return in the same condition as issued, fair wear and tear excepted or is replaced with an identical item as new. CSI was formerly referred to as an ordinary loan.
