B10.2 At intervals determined by the Authority (which shall not be more frequent than once every 30 days) the Contractor shall give the Authority updated TUPE Information.

B10.3 Each time the Contractor supplies TUPE Information to the Authority it shall warrant its completeness and accuracy and the Authority may assign the benefit of this warranty to any Replacement Contractor.

B10.4 The Authority may use TUPE Information it receives from the Contractor for the purposes of TUPE and/or any retendering process in order to ensure an effective handover of all work in progress at the end of the Contract Period. The Contractor shall provide the Replacement Contractor with such assistance as it shall reasonably request.

B10.5 If TUPE applies to the transfer of the Services on termination of the Contract, the Contractor shall indemnify and keep indemnified the Authority, the Crown and any Replacement Contractor against all actions, suits, claims, demands, losses, charges, damages, costs and expenses and other liabilities which the Authority or the Crown or any Replacement Contractor may suffer or incur as a result of or in connection with:

(a) the provision of TUPE Information;

- (a) amend or vary (or purport to amend or vary) the terms and conditions of employment or engagement (including, for the avoidance of doubt, pay) of any Staff (other than where such amendment or variation has previously been agreed between the Contractor and the Staff in the normal course of business and where any such amendment or variation is not in any way related to the transfer of the Services);
- (b) terminate or give notice to terminate the employment or engagement of any Staff (other than in circumstances in which the termination is for reasons of misconduct or lack of capability);

C2.16 If the Authority pays the Contractor prior to the submission of a Valid Invoice this payment shall be on account of and deductible from the next payment to be made.

C2.17 If any overpayment has been made or the payment or any part is not supported by a Valid Invoice the Authority may recover this payment against future invoices raised or directly from the Contractor. All payments made by the Authority to the Contractor shall be on an interim basis pending final resolution of an account with the Contractor in accordance with the terms of this clause C2.

C2.18 The Authority shall pay all sums due to the Contractor within 30 days of Receipt of a Valid Invoice. Valid Invoices should be submitted for payment to the following address:

Contractor from the Authority under the Contract or under any other agreement with the Authority or the Crown.

C3.2 Any overpayment by either Party, whether of the Price or of VAT or otherwise, shall be a sum of money recoverable by the Party who made the overpayment from the Party in receipt of the overpayment.

D1.3 The Contractor shall, during the Contract Period:

- (a) establish, maintain and enforce, and require that its Sub-Contractors establish, maintain and enforce, policies and procedures which are adequate to ensure compliance with the Relevant Requirements and prevent the occurrence of a Prohibited Act; and

D1.4 The Contractor shall immediately notify the Authority in writing if it becomes aware of any breach of clauses D1.1 and/or D1.2, or has reason to believe that it has or any of the Staff have:

(a) been subject to an investigation or prosecution which relates to an alleged Prohibited Act;

(b) been listed by any government department or agency as being debarred, suspended, proposed for suspension or debarment, or otherwise ineligible for participation in government procurement programmes or contracts on the grounds of a Prohibited Act; and/or

(c) received a request or demand for any undue financial or other advantage of any kind in connection with the performance of the Contract or otherwise suspects that any person directly or indirectly connected with the Contract has committed or attempted to commit a Prohibited Act.

D1.5 If the Contractor notifies the Authority pursuant to clause D1.4, the Contractor shall respond promptly to the Authority's enquiries, co-operate with any investigation, and allow the Authority to audit any books, records and/or any other relevant documentation.

D3.2 Subject to clause D3.1, a person who is not a Party has no right under the CRTPA to enforce any provisions of the Contract but this does not affect any right or remedy of any person which exists or is available otherwise than pursuant to the CRTPA and does not apply to the Crown.

D3.3 No Third Party Beneficiary may enforce or take steps to enforce any Third Party Provision without Approval.

D3.4 Any amendments to the Contract may be made by the Parties without the consent of any Third Party Beneficiary.

D4 Health and Safety

D4.1 The Contractor shall perform its obligations under the Contract in accordance with:

- (a) all applicable Law regarding health and safety; and
- (b) the Authority’s health and safety policy while at the Authority’s Premises.

D4.2 Each Party shall notify the other as soon as practicable of any health and safety incidents or material health and safety hazards at the Authority’s Premises of which it becomes aware and which relate to or arise in connection with the performance of the Contract. The Contractor shall instruct Staff to adopt any necessary associated safety measures in order to manage any such material health and safety hazards.

D5 Environmental Requirements

D5.1 The Contractor shall in the performance of the Contract have due regard to the Authority’s environmental, sustainable and ethical procurement policies (“Environmental Policies”) which require the Authority through its procurement and management of suppliers:

- (a) conserve energy, water, wood, paper and other resources and reduce waste;
- (b) phase out the use of ozone depleting substances;
- (c) minimise the release of greenhouse gases, volatile organic compounds and other substances damaging to health and the environment;

- (d) minimise the use of products harmful to health and the environment such as hazardous substances and solvents, replacing them with more benign substances where feasible and, where such substances are necessary, to ensure that they are stored in properly labelled containers, used and disposed of in compliance with legal and regulatory requirements and any instructions from the Authority;
- (e) reduce fuel emissions wherever possible;
- (f) maximise the use of recovered materials and, if recycled materials are not suitable or not readily available, to maximise the use of materials taken from renewable sources; and
- (g) promote the design of products that are capable of reuse or remanufacture or easily separable into recyclable parts consisting of one material (e.g. steel, plastic, textile).

D5.2 The Contractor shall ensure that any equipment and materials used in the provision of the Services do not contain:

- (a) ozone depleting substances such as hydrochlorofluorocarbons (HCFCs), halons, carbon tetrachloride, 111 trichloroethane, bromochloromethane or any other damaging substances; and/or
- (b) HFCs and other gaseous and non-gaseous substances with a high global warming potential;

unless given written permission by the Authority to do so.

D5.3 The Contractor shall conserve energy and water; reduce carbon emissions and other greenhouse gases; minimise the use of substances damaging or hazardous to health and the environment and reduce waste by, for example, using resources more efficiently and reusing, recycling and composting and respecting biodiversity.

D5.4 If required by the Authority the Contractor shall provide the Authority with information about its compliance with its obligations under clause D5.3.

D5.5 The Contractor shall ensure that its Staff are aware of the Authority's Environmental Policies.

D5.6 The Contractor shall:

- (a) identify any risks arising from climate change and variable weather such as higher temperatures, droughts, flooding, sea and river level rises, coastal and riparian erosion, water scarcity, and loss of water quality which may disrupt and/or affect the supply of the Services; and
- (b) if such risks have been identified, enhance the resilience of its organisation to enable it to adapt and deal with the effects of such extreme events, including by having the necessary awareness-raising, evaluation, preventive, preparatory, recovery measures and support systems in place in order to minimise any disruption to the supply of the Services.

D6 Timber and Wood Derived Products

D6.1 For the purposes of clauses D6.1 to D6.8 the following terms shall have the following meanings:

- (a) "Timber" means any product that contains wood or wood fibre, with the exception of "recycled" materials (see below). Such products range from solid wood to those where the manufacturing processes obscure the wood element, for example, paper. Timber and wood-derived products supplied or used in performance of the Services that have been recycled or reclaimed are referred to as "recycled" timber, which is defined below. Timber and wood-derived products supplied or used in performance of the Services that are not recycled are referred to as "virgin" timber when the distinction needs to be made for clarity. Short-rotation coppice is exempt from the requirements for timber and wood-derived products and falls under agricultural regulation and supervision rather than forestry;
- (b) "Legal and Sustainable" means production and process methods, also referred to as timber production standards, and in the context of social criteria, contract performance conditions (only), as defined by the document titled "UK Government timber procurement policy: Definition of Legal and Sustainable for timber procurement" (available at www.gov.uk/government/publications/timber-definition-of-legal-and-sustainable or CPET). The edition current on the day the Contract is awarded shall apply;
- (c) "FLEGT" means Forest Law Enforcement, Governance and Trade, and is a reference to the EU scheme to address the problem of illegally logged timber;
- (d) "FLEGT-licensed" means production and process methods, also referred to as timber production standards, and in the context of social criteria, contract performance conditions only, as defined by a bilateral Voluntary Partnership Agreement ("VPA") between the European Union and a timber-producing country under the FLEGT scheme, where both Parties have agreed to establish a system under which timber that has been produced in accordance with the relevant laws of the producing country, and other criteria stipulated by the VPA, are licensed for export by the producing country government;
- (e) "Recycled" means recovered wood that prior to being supplied to the Authority had an end use as a standalone object or as part of a structure. The term "recycled" is used to cover the following categories: pre-consumer recycled wood and wood fibre or industrial by products but excluding sawmill co-products (sawmill co-products are deemed to fall within the category of virgin timber), post-consumer recycled wood and wood fibre, and drift wood. It also covers reclaimed timber which was abandoned or confiscated at least ten years previously. Documentary evidence and independent verification also apply to recycled materials, but will focus on the use to which the timber was previously put rather than the forest source;
- (f) "Short-rotation coppice" means a specific management regime whereby the poles of trees are cut every one to two years and which is aimed at producing biomass for energy. It is exempt from the UK government timber procurement policy requirements and falls under agricultural regulation and supervision rather than forestry. The exemption only refers to short-rotation coppice, and not 'conventional' coppice which is forest management and therefore subject to the timber policy; and
- (g) "CPET" means the UK Government's Central Point of Expertise on Timber.

D6.2 All Timber supplied or used by the Contractor in providing the Services (including all Timber supplied or used by Sub-Contractors) shall comply with Schedule 1 and shall originate from a forest source where management of the forest has full regard for:

- (a) identification, documentation and respect of legal, customary and traditional tenure and use rights related to the forest;
- (b) mechanisms for resolving grievances and disputes including those relating to tenure and use rights, to forest management practices and to work conditions; and
- (c) safeguarding the basic labour rights and health and safety of forest workers

(the "Social Criteria").

D6.3 If requested by the Authority and not already provided in its Tender, the Contractor shall give the Authority evidence that the Timber supplied or used in providing the Services complies with the requirements of Schedule 1 and with the requirements of the Social Criteria.

D6.4 The Authority may at any time during the Contract Period and for 6 years after final delivery under the Contract require the Contractor to produce the evidence required for the Authority's inspection within 14 days of the Authority's written request.

D6.5 The Contractor shall maintain records of all Timber delivered to and accepted by the Authority for 6 years from final delivery under the Contract.

D6.6 The Authority shall decide whether the evidence submitted to it demonstrates legality and sustainability, or FLEGT-licence or equivalent, and is adequate to satisfy the Authority that the Timber complies with Schedule 1 and complies with the requirements of the Social Criteria. If the Authority is not satisfied, the Contractor shall commission and meet the costs of an "independent verification" and resulting report that will: (a) verify the forest source of the timber or wood; and (b) assess whether the source meets the relevant criteria.

D6.7 In the Contract "Independent Verification" means that an evaluation is undertaken and reported by an individual or body whose organisation, systems and procedures conform to ISO Guide 65:1996 (EN 45011:1998) General requirements for bodies operating product certification systems (as amended from time to time) or equivalent, and who is accredited to audit against forest management standards by a body whose organisation, systems and procedures conform to ISO 17011: 2004 General Requirements for Providing Assessment and Accreditation of Conformity Assessment Bodies (as amended from time to time) or equivalent.

D6.8 The Authority may reject Timber that does not comply with Schedule 1 or with the Social Criteria. If the Authority rejects any Timber the Contractor shall supply alternative Timber which does comply at no additional cost to the Authority and without causing delay to delivery of the Services.

- (d) to any consultant, contractor or other person engaged by the Authority

provided that in disclosing information under clauses E4.8 (c) and (d) the Authority discloses only the information which is necessary for the purpose concerned and requests that the information is treated in confidence and that a confidentiality undertaking is given where appropriate.

E4.9 Nothing in clauses E4.1 to E4.6 shall prevent either Party from using any techniques, ideas or Know-How gained during the performance of its obligations under the Contract in the course of its normal business, to the extent that this does not result in a disclosure of the other Party's Confidential Information or an infringement of the other Party's Intellectual Property Rights.

E4.10 The Authority shall use all reasonable endeavours to ensure that any government department, Contracting Authority, employee, third party or Sub-Contractor to whom the

Contractor's Confidential Information is disclosed pursuant to clause E4.6 is made aware of the Authority's obligations of confidentiality.

E4.11 If the Contractor does not comply with clauses E4.1 to E4.6 the Authority may terminate the Contract immediately on written notice to the Contractor.

E8.2 The Contractor hereby assigns:

(a) to the Authority, with full title guarantee, all Intellectual Property Rights (save for Copyright and Database Rights) which may subsist in the IP Materials prepared in accordance with clauses E8.1(a) and (b). This assignment shall take effect on the date of the Contract or (in the case of rights arising after the date of the Contract) as a present assignment of future rights that will take effect immediately on the coming into existence of the Intellectual Property Rights produced by the Contractor; and

(b) ensure that the third party owner of any Intellectual Property Rights that are or which may be used to perform the Services grants to the Authority a non-exclusive licence or, if itself a licensee of those rights, shall grant to the Authority an authorised sub-licence, to use, reproduce, modify, develop and maintain the Intellectual Property Rights in the same. Such licence or sub-licence shall be non-exclusive, perpetual, royalty-free, worldwide and irrevocable and shall include the right for the Authority to sub-license, transfer, novate or assign to other Contracting Authorities, the Crown, the Replacement Contractor or to any other third party supplying goods and/or services to the Authority ("Indemnified Persons");

E8.7 The Authority shall not, without the Contractor's consent, make any admissions which may be prejudicial to the defence or settlement of any Third Party IP Claim.

E8.8 If any Third Party IP Claim is made or in the reasonable opinion of the Contractor is likely to be made, the Contractor shall notify the Authority and any relevant Indemnified Person, at its own expense and subject to Approval (not to be unreasonably withheld or delayed), shall (without prejudice to the rights of the Authority under clauses E8.3(b) and G2.1(g)) use its best endeavours to:

- (a) modify any or all of the Services without reducing the performance or functionality of the same, or substitute alternative services of equivalent performance and functionality, so as to avoid the infringement or the alleged infringement; or
- (b) procure a licence to use the Intellectual Property Rights and supply the Services which are the subject of the alleged infringement, on terms which are acceptable to the Authority

and if the Contractor is unable to comply with clauses E8.8(a) or (b) within 20 Working Days of receipt by the Authority of the Contractor's notification the Authority may terminate the Contract immediately by notice to the Contractor.

E8.9 The Contractor grants to the Authority and, if requested by the Authority, to a Replacement Contractor, a royalty-free, irrevocable, worldwide, non-exclusive licence (with a right to sub-license) to use any Intellectual Property Rights that the Contractor owned or developed prior to the Commencement Date and which the Authority (or the Replacement Contractor) reasonably requires in order for the Authority to exercise its rights under, and receive the benefit of, the Contract (including, without limitation, the Services).

E9 Audit

E9.1 The Contractor shall keep and maintain until 6 years after the end of the Contract Period, or as long a period as may be agreed between the Parties, full and accurate records of the Contract including the Services supplied under it, all expenditure reimbursed

by the Authority, and all payments made by the Authority. The Contractor shall on request afford the Authority or the Authority's representatives such access to those records and processes as may be requested by the Authority in connection with the Contract.

E9.2 The Contractor agrees to make available to the Authority, free of charge, whenever requested, copies of audit reports obtained by the Contractor in relation to the Services.

E9.3 The Contractor shall permit duly authorised representatives of the Authority and/or the National Audit Office to examine the Contractor's records and documents relating to the Contract and to provide such copies and oral or written explanations as may reasonably be required.

E9.4 The Contractor (and its agents) shall permit the Comptroller and Auditor General (and his appointed representatives) access free of charge during normal business hours on reasonable notice to all such documents (including computerised documents and data) and other information as the Comptroller and Auditor General may reasonably require for the purposes of his financial audit of the Authority and for carrying out examinations into the economy, efficiency and effectiveness with which the Authority has used its resources. The Contractor shall provide such explanations as are reasonably required for these purposes.

E10 Tax Compliance

E10.1 If, during the Contract Period, an Occasion of Tax Non-Compliance occurs, the Contractor shall:

- (a) notify the Authority in writing of such fact within 5 Working Days of its occurrence; and
- (b) promptly give the Authority:
 - i) details of the steps it is taking to address the Occasion of Tax Non-Compliance and to prevent the same from recurring, together with any mitigating factors it considers relevant; and
 - ii) such other information in relation to the Occasion of Tax Non-Compliance as the Authority may reasonably require.

E10.2 If the Contractor or any Staff are liable to be taxed in the UK or to pay NICs in respect of consideration received under the Contract, the Contractor shall:

- (a) at all times comply with ITEPA and all other statutes and regulations relating to income tax, and SSCBA and all other statutes and regulations relating to NICs, in respect of that consideration; and
- (b) indemnify the Authority against any income tax, NICs and social security contributions and any other liability, deduction, contribution, assessment or claim arising from or made in connection with the provision of the Services by the Contractor or any Staff.

F. CONTROL OF THE CONTRACT

F1 Failure to meet Requirements

F1.1 If the Authority informs the Contractor in writing that the Authority reasonably believes that any part of the Services do not meet the requirements of the Contract or differs in any way from those requirements, and this is not as a result of a default by the Authority, the Contractor shall at its own expense re-schedule and carry out the Services in accordance with the requirements of the Contract within such reasonable time as may be specified by the Authority.

F2 Monitoring of Contract Performance

F2.1 The Contractor shall immediately inform the Authority if any of the Services are not being or are unable to be performed, the reasons for non-performance, any corrective action and the date by which that action will be completed.

F2.2 At or around 6 Months from the Commencement Date and each anniversary of the Commencement Date thereafter (each being a "Review Date"), the Authority shall carry out a review of the performance of the Contractor ("Checkpoint Review"). Without prejudice to the generality of the foregoing, the Authority may in respect of the period under review consider such items as (but not limited to): the Contractor's delivery of the Services; the Contractor's contribution to innovation in the Authority; whether the Services provide the Authority with best value for money; consideration of any changes which may need to be made to the Services; a review of future requirements in relation to the Services and progress against key milestones.

F2.3 The Contractor shall provide at its own cost any assistance reasonably required by the Authority to perform such Checkpoint Review including the provision of data and information.

F2.4 The Authority may produce a report (a "Checkpoint Review Report") of the results of each Checkpoint Review stating any areas of exceptional performance and areas for improvement in the provision of the Services and where there is any shortfall in any aspect of performance reviewed as against the Authority's expectations and the Contractor's obligations under this Contract.

F2.5 The Authority shall give the Contractor a copy of the Checkpoint Review Report (if applicable). The Authority shall consider any Contractor comments and may produce a revised Checkpoint Review Report.

F2.6 The Contractor shall, within 10 Working Days of receipt of the Checkpoint Review Report (revised as appropriate) provide the Authority with a plan to address resolution of any shortcomings and implementation of improvements identified by the Checkpoint Review Report.

F2.7 Actions required to resolve shortcomings and implement improvements (either as a consequence of the Contractor's failure to meet its obligations under this Contract identified by the Checkpoint Review Report, or those which result from the Contractor's failure to meet the Authority's expectations notified to the Contractor or of which the

Contractor ought reasonably to have been aware) shall be implemented at no extra charge to the Authority.

F3 Remedies for inadequate performance

F3.1 If the Authority reasonably believes the Contractor has committed a Material Breach it may, without prejudice to its rights under clause H2 (Termination on Default), do any of the following:

- (a) without terminating the Contract, itself supply or procure the supply of all or part of the Services until such time as the Contractor has demonstrated to the Authority's reasonable satisfaction that the Contractor will be able to supply the Services in accordance with the Specification;
- (b) without terminating the whole of the Contract, terminate the Contract in respect of part of the Services only (whereupon a corresponding reduction in the Price shall be made) and thereafter itself supply or procure a third party to supply such part of the Services;
- (c) withhold or reduce payments to the Contractor in such amount as the Authority reasonably deems appropriate in each particular case; and/or
- (d) terminate the Contract in accordance with clause H2.

F3.2 Without prejudice to its right under clause C3 (Recovery of Sums Due), the Authority may charge the Contractor for any costs reasonably incurred and any reasonable administration costs in respect of the supply of any part of the Services by the Authority or a third party to the extent that such costs exceed the payment which would otherwise have been payable to the Contractor for such part of the Services.

F3.3 If the Authority reasonably believes the Contractor has failed to supply all or any part of the Services in accordance with the Contract, professional or industry practice which could reasonably be expected of a competent and suitably qualified person, or any legislative or regulatory requirement, the Authority may give the Contractor notice specifying the way in which its performance falls short of the requirements of the Contract or is otherwise unsatisfactory.

F3.4 If the Contractor has been notified of a failure in accordance with clause F3.3 the Authority may:

- (a) direct the Contractor to identify and remedy the failure within such time as may be specified by the Authority and to apply all such additional resources as are necessary to remedy that failure at no additional charge to the Authority within the specified timescale; and/or
- (b) withhold or reduce payments to the Contractor in such amount as the Authority deems appropriate in each particular case until such failure has been remedied to the satisfaction of the Authority.

F3.5 If the Contractor has been notified of a failure in accordance with clause F3.3, it shall:

- (a) use all reasonable endeavours to immediately minimise the impact of such failure to the Authority and to prevent such failure from recurring; and
- (b) immediately give the Authority such information as the Authority may request regarding what measures are being taken to comply with the obligations in this clause F3.5 and the progress of those measures until resolved to the satisfaction of the Authority.

F3.6 If, having been notified of any failure, the Contractor fails to remedy it in accordance with clause F3.5 within the time specified by the Authority, the Authority may treat the continuing failure as a Material Breach and may terminate the Contract immediately on notice to the Contractor.

F4 Transfer and Sub-Contracting

F4.1 Except where clauses F4.6 and F4.7 both apply, the Contractor shall not transfer, charge, assign, sub-contract or in any other way dispose of the Contract or any part of it without Approval. All such documents shall be evidenced in writing and shown to the Authority on request. Sub-contracting any part of the Contract shall not relieve the Contractor of any of its obligations or duties under the Contract.

F4.2 The Contractor shall be responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Contractor shall provide each Sub-Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Services fully in accordance with the Contract.

F4.3 The Contractor shall ensure that its Sub-Contractors and suppliers retain all records relating to the Services for at least 6 years from the date of their creation and make them available to the Authority on request in accordance with the provisions of clause E9 (Audit). If any Sub-Contractor or supplier does not allow the Authority access to the records then the Authority shall have no obligation to pay any claim or invoice made by the Contractor on the basis of such documents or work carried out by the Sub-Contractor or supplier.

F4.4 If the Authority has consented to the award of a Sub-Contract, the Contractor shall ensure that:

- (a) the Sub-Contract contains a right for the Contractor to terminate the Sub-Contract if the relevant Sub-Contractor does not comply in the performance of its contract with legal obligations in environmental, social or labour law;
- (b) the Sub-Contractor includes a provision having the same effect as set out in clause F4.4 (a) in any Sub-Contract which it awards; and
- (c) copies of each Sub-Contract shall, at the request of the Authority, be sent by the Contractor to the Authority immediately.

F4.5 If the Authority believes there are:

- (a) compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Contractor shall replace or not appoint the Sub-Contractor; or

(b) non-compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Authority may require the Contractor to replace or not appoint the Sub-Contractor and the Contractor shall comply with such requirement.

F4.6 Notwithstanding clause F4.1, the Contractor may assign to a third party (the "Assignee") the right to receive payment of the Price or any part thereof due to the Contractor (including any interest which the Authority incurs under clause C2 (Payment and VAT)). Any assignment under this clause F4.6 shall be subject to:

(a) reduction of any sums in respect of which the Authority exercises its right of recovery under clause C3 (Recovery of Sums Due);

(b) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and

(c) the Authority receiving notification under both clauses F4.7 and F4.8.

F4.7 If the Contractor assigns the right to receive the Price under clause F4.6, the Contractor or the Assignee shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

F4.8 The Contractor shall ensure that the Assignee notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment.

F4.9 The provisions of clause C2 shall continue to apply in all other respects after the assignment and shall not be amended without Approval.

F4.10 Subject to clause F4.11, the Authority may assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof to:

(a) any Contracting Authority;

(b) any other body established or authorised by the Crown or under statute in order substantially to perform any of the functions that had previously been performed by the Authority; or

(c) any private sector body which substantially performs the functions of the Authority

provided that any such assignment, novation or other disposal shall not increase the burden of the Contractor's obligations under the Contract.

F4.11 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to clause F4.12, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.

F4.12 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F4.10 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the "Transferee"):

(a) the rights of termination of the Authority in clauses H1 and H2 shall be available to the Contractor in respect of the Transferee; and

(b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Contractor.

F4.13 The Authority may disclose to any Transferee any Confidential Information of the Contractor which relates to the performance of the Contractor's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Contractor's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.

F4.14 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Contract.

F5 Waiver

F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.

F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A4 (Notices and Communications).

F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6 Variation

F6.1 If, after the Commencement Date, the Authority's requirements change, the Authority may request a Variation subject to the terms of this clause 6.

F6.2 The Authority may request a Variation by notifying the Contractor in writing of the Variation and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Contractor accepts the Variation it shall confirm it in writing.

F6.3 If the Contractor is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:

(a) allow the Contractor to fulfil its obligations under the Contract without the Variation to the Specification; or

(b) terminate the Contract immediately except where the Contractor has already delivered all or part of the Services or where the Contractor can show evidence of substantial work being carried out to fulfil the requirements of the Specification; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).

F6.4 No Variation will take effect unless and until it is recorded in a validly executed CCN. Execution of a CCN is made via electronic signature as described in clause 1.2 of Section 1 of the Contract.

F6.5 A CCN takes effect on the date on which both Parties communicate acceptance of the CCN via Bravo. On the date it communicates acceptance of the CCN in this way the Contractor is deemed to warrant and represent that the CCN has been executed by a duly authorised representative of the Contractor in addition to the warranties and representations set out in clause G2.

F6.6 The provisions of clauses F6.4 and F6.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Variation in order to address the emergency. In an emergency, Variations may be approved by a different representative of the Authority. However, the Authorised Representative shall have the right to review such a Variation and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Variation.

F7 Severability

F7.1 If any provision of the Contract which is not of a fundamental nature is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision shall be severed and the remainder of the provisions of the Contract shall continue in full force and effect as if the Contract had been executed with the invalid, illegal or unenforceable provision eliminated.

F8 Remedies Cumulative

F8.1 Except as expressly provided in the Contract all remedies available to either Party for breach of the Contract are cumulative and may be exercised concurrently or separately, and the exercise of any one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.

F9 Entire Agreement

F9.1 The Contract constitutes the entire agreement between the Parties in respect of the matters dealt with therein. The Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any fraudulent misrepresentation.

F10 Counterparts

F10.1 The Contract may be executed in counterparts, each of which when executed and delivered shall constitute an original but all counterparts together shall constitute one and the same instrument.

G LIABILITIES

G1 Liability, Indemnity and Insurance

G1.1 Neither Party limits its liability for:

G1.3 Subject to clause G1.1 the Contractor's aggregate liability in respect of the Contract shall not exceed [REDACTED]

G1.4 The Contractor shall not be responsible for any injury, loss, damage, cost or expense if and to the extent that it is caused by the negligence or wilful misconduct of the Authority or by breach by the Authority of its obligations under the Contract.

G1.5 The Authority may recover from the Contractor the following losses incurred by the Authority to the extent they arise as a result of a Default by the Contractor:

- (a) any additional operational and/or administrative costs and expenses incurred by the Authority, including costs relating to time spent by or on behalf of the Authority in dealing with the consequences of the Default;
- (b) any wasted expenditure or charges;
- (c) the additional costs of procuring a Replacement Contractor for the remainder of the Contract Period and or replacement deliverables which shall include any incremental costs associated with the Replacement Contractor and/or replacement deliverables above those which would have been payable under the Contract;

- (e) any fine or penalty incurred by the Authority pursuant to Law and any costs incurred by the Authority in defending any proceedings which result in such fine or penalty.

G1.6 Subject to clauses G1.1 and G1.5, neither Party shall be liable to the other for any:

- (a) loss of profits, turnover, business opportunities or damage to goodwill (in each case whether direct or indirect); or
- (b) indirect, special or consequential loss.

G1.7 Unless otherwise specified by the Authority, the Contractor shall, with effect from the Commencement Date for such period as necessary to enable the Contractor to comply with its obligations herein, take out and maintain with a reputable insurance company a policy or policies of insurance providing an adequate level of cover in respect of all risks which may be incurred by the Contractor, arising out of the Contractor's performance of its obligations under the Contract, including death or personal injury, loss of or damage to property or any other loss. Such policies shall include cover in respect of any financial loss arising from any advice given or omitted to be given by the Contractor. Such insurance shall be maintained for the duration of the Contract Period and for a minimum of 6 years following the end of the Contract.

G1.8 The Contractor shall hold employer's liability insurance in respect of Staff and such insurance shall be in accordance with any legal requirement from time to time in force.

- (e) failing agreement, either of the Parties may invite the Mediator to provide a non-binding but informative written opinion. Such an opinion shall be provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties; and

SCHEDULE 1 – SPECIFICATION

This Section sets out the Authority's requirements as submitted in the bidder's pack dated 8th July 2021.

3.1 Project background

- 3.1.1 The Authority is looking for a supplier to continue to provide the services of a Defra Technical Adviser (DTA) for the Thames Tideway Tunnel (TTT) project. The DTA will provide Defra and Government with expertise from an engineering, major construction and commissioning perspective in order to protect the Government's interests in the TTT project. The contract is offered on a 2+1+1 basis – four years in total including two optional successful twelve-month extensions.
- 3.1.2 The expected budget is between the values of [REDACTED] across the life of the contract. However, the Authority cannot guarantee the value or the volume of the work as there will be some regular services with others being commissioned as needed. The DTA is a key advisor to Defra on the project and to date has regularly provided support during the lifetime of the project.
- 3.1.3 Further information on the Thames Tideway Tunnel project can be found at www.Tideway.London

3.2 Thames Tideway Tunnel project

- 3.21 The Thames Tideway Tunnel (TTT) is a huge private sector project, costing over [REDACTED] and is being financed and delivered by Bazalgette Ltd (trading as Tideway).
- 3.22 London's Victorian sewerage network lacks the capacity to meet the city's modern-day needs, meaning that during heavy rainfall events the network can discharge raw, untreated sewage into the tidal Thames. The TTT Project is modernising London's sewerage system and will deliver environmental and economic benefits to the UK's capital for generations. The project has been designed to help manage the problem of untreated sewage overflowing from the capital's sewers via combined sewer overflows (CSOs) and is intended (once completed) to enable the UK to meet the requirements of the Urban Waste Water Treatment Directive (UWWTD).
- 3.23 The TTT is a major new 'super' sewer, which is 25km long, and will intercept, store and transfer sewage waste away from the River Thames. Starting in Acton, West London, and the tunnel will travel through the heart of London at depths of between 30 and 60 metres, using gravity to transfer waste eastwards. The project is split into three sections across 24 construction sites, East, Central and West with a different joint venture delivering each section and is due for completion in 2025. The tunnel has been designed to operate in conjunction with the Lee Tunnel and Beckton sewage treatment works. Thames Water sewerage customers are paying for the tunnel through their bills. Government will only contribute if certain high impact, low likelihood events occur to trigger the Government's contingent financial support package ('the GSP').
- 3.24 Despite the impact of Covid-19, the project is just over 63% complete. The tunnelling phase is expected to be complete in 2023 when the testing and commissioning stage will commence.

3.3 The Government Support Package

3.31 Government has provided a package of contingent financial support to the TTT, known as the Government Support Package (GSP). This was done to enable the project to attract private sector finance at a cost that is reasonable to customers. The GSP has been designed to cover low probability, high impact risks which the market cannot bear at a reasonable cost to customers or at all.

The GSP provides support in the following five areas:

- supplemental compensation to cover risks that exceed the level of insurance the commercial market is able to provide and where any of the agreed insurances becomes unavailable as a result of market events;
- a market disruption facility, where Government agrees to lend the infrastructure provider money on commercial terms, should the debt capital markets become unavailable;
- a contingent equity agreement, where if costs escalate beyond a pre-agreed (remote) threshold and the infrastructure provider is unable to provide further equity, Government can inject equity in return for a stake in the project (Government can also choose to discontinue the GSP instead);
- a special administration agreement, whereby if the infrastructure provider is in special administration for more than 18 months, the Government either has to offer to purchase the entire share capital in the infrastructure provider or to discontinue the GSP; and
- a discontinuation agreement, under which the terms of compensation after a Government imposed discontinuation are set out.
- Contracts giving effect to the GSP were signed by Government and Tideway on the 24th August 2015. The GSP will remain in place until the project is finished and accepted by the owner.

3.4 HMG interests

Government also has several interests in the project which are summarised as follows:

- to achieve compliance with environmental objectives and with the Urban Waste Water Treatment Directive in respect of the tidal river Thames as soon as possible in order to minimise the risk of fines;
- to achieve value for money for Thames Water customers and the Exchequer; and
- To avoid calls on contingent Government support where possible, and where calls are made, to manage these effectively and efficiently.

3.5 Role in the Thames Tideway Tunnel Project

3.5.1 Defra

3.5.1.1 Defra (the Department for Environment, Food and Rural Affairs), the Authority for this requirement, is the Government department responsible for water quality and the water industry. Defra is providing a package of contingent financial support to the project, known as the Government Support Package (GSP). The details of this package are set out above. This gives Government a particular financial interest in the project as well as our environmental interests. Government (represented by Defra) therefore has an active role as a stakeholder in the project, which it does not have in the case of other water and sewerage infrastructure projects carried out

in the private sector. There is still a risk that the European Commission could seek fines and Defra are monitoring that risk.

3.5.1.2 The Defra Thames Tideway Tunnel team, a small team within Commercial Policy Division, within the Floods and Water Cluster are responsible for monitoring the project and protecting the Secretary of State's interest in the project, particularly any change which might mean the GSP is triggered which would result in cost to Government and ultimately the tax payer. The team is also supported by the Infrastructure and Projects Authority.

3.5.2 The Liaison Committee

3.5.2.1 Defra, Thames Water Utilities Ltd (TWUL) and Tideway (as the licensed Infrastructure Provider) have entered into a Liaison Agreement which provides for project monitoring and which will help manage Government's interests in the project. The Liaison Agreement sets out the framework for the Liaison Committee, which is a forum through which stakeholders can engage on issues affecting the project. This Liaison Committee meets at least quarterly (February, May, August and November). Additional meetings can also be called by members. Liaison Committee members are the two representatives from each of Tideway, TWUL and Defra. One of Defra's representatives is a member of the Infrastructure and Projects Authority. Ofwat and the Environment Agency attend in an observer role. The Liaison Committee is also attended by the Independent Technical Assessor (further detail below).

3.5.2.2 TWUL and Tideway are required to report at least quarterly in advance of each Liaison Committee meeting on a wide variety of matters affecting the Project, including expenditure on the works, predicted cost overruns, delays to the timetable.

3.5.2.3 The key Liaison Committee functions include:

- ensuring delivery of value for money to stakeholders including water utility customers;
- monitoring the progress of the Project against scheduled completion dates in the Project master programme;
- monitoring the expenditure forecast and any Predicted Overrun;
- reviewing and discussing Tideway's Quarterly Report and TWUL Quarterly Report and, if necessary, Tideway's Monthly Management Report;
- providing a forum for joint strategic discussion and to discuss proposed project variations developed by TWUL and Tideway

3.5.3 Independent Technical Assessor (ITA)

3.5.3.1 The Independent Technical Assessor (ITA) is appointed by Tideway and has a duty of care to Ofwat, Defra, TWUL and Tideway. The ITA provides an independent review of Tideway's and TWUL's reporting to the Liaison Committee. This review is provided in the form of a report to the Liaison Committee.

3.5.3.2 Government has taken the view that in light of the potentially significant liabilities under the GSP it would not be appropriate to rely on the ITA alone. A separate Defra Technical Adviser ("DTA") is required so that Government can be sure it is receiving fully independent advice, and is also required to provide Defra with the necessary technical capability to act as an intelligent stakeholder in the Project during construction and commissioning.

3.5.4 Other stakeholders in the project

3.5.4.1 Thames Water Utilities Ltd (TWUL) is a key partner in the project as once completed, Thames Water will operate the tunnel as an integral part of the London sewerage network, while Tideway will be responsible for its day-to-day maintenance.

3.5.4.2 Ofwat, the economic regulator of the water and sewerage industry in England and Wales and provider of the Tideway licence; and

3.5.4.3 The Environment Agency, the environmental regulator responsible for ensuring that TWUL and Tideway are compliant with environmental law (including in respect of CSO discharges into the River Thames).

3.6 Scope of requirement

3.6.1 As stated above in order to monitor the project and protect the Secretary of State's interest in the project especially in relation to the GSP, the Authority employs five advisers: lawyers, financial experts, technical advisers (DTA), loss adjusters and insurers. HMT and the Infrastructure and Projects Authority are actively involved in the oversight of the project and it is key we retain high quality external advice. See volume 4 for the scope of services.

3.6.2 The purpose of the Authority role is to provide Government with expertise from an engineering, major construction project and commissioning perspective in order to protect Government's interests in the TTT project, specifically by:

- analysing and interpreting information and data on project progress;
- Identifying risks and issues relevant to Government, including construction/commissioning delays and issues that could lead to claims under the GSP; and advising Defra on steps that should be taken to better understand and mitigate risks.

3.6.3 For the purposes of this role, Government's interests in the project can be summarised as:

- to achieve compliance with environmental objectives and with the Urban Waste Water Treatment Directive in respect of the tidal river Thames as soon as possible in order to minimise the risk of fines;
- to achieve value for money for customers and taxpayers; and
- To avoid calls on contingent Government support where possible, and where calls are made, to manage these effectively and efficiently.

3.6.4 The DTA will work closely and report to the TTT team within Defra, managed and led by a Deputy Director. The team and the DTA will also be working closely with the other external advisers (financial, legal, insurance and loss adjusters) who will continue to have a key role in analysing information and supplying advice, as needed. The DTA will need to work closely with these external advisers, particularly on financial advice relating to construction costs, but is not expected to provide specific financial expertise.

3.6.5 The specific tasks expected of the DTA are set out in more detail below.

3.7 Supporting Defra in effectively fulfilling its role on the Liaison Committee

3.7.1 Liaison Committee meetings will be chaired by Tideway on a quarterly basis, or more often where the need arises. The Liaison Committee is the main forum through which Tideway will update Defra and TWUL on project progress and provides an opportunity for Defra to challenge and interrogate Tideway. The DTA will have a key role in ensuring that Defra can fulfil this role effectively, including by:

- establishing effective direct relationship with the ITA and other key players in order to be able to clarify and seek further information on any relevant issues ahead of Liaison Committee meetings – the relationship with Tideway and TWUL will be more informal;

- Producing a quarterly report – this key document will provide an independent expert view on progress of the TTT and will be used by Defra to support our internal governance such as the Cross Government Project Board. It will provide advice to Government on risks and issues arising over the course of the project that could impact on taxpayer's interests, namely, risks of project failure, project overruns and project overspend or calls on the GSP. The report should also cover intelligence from the construction industry and market place that you have picked up which may be of interest/relevant to this project. A key source of information for this report will be the:
- quarterly reporting provided by the Tideway as part of the Liaison Committee pack, the ITA report that is part of this pack,
- the Tideway monthly management report and
- any other information we receive from Tideway.

3.7.2 These reports may be relatively straight forward during business as usual, but may become detailed, technical and complex if significant risks or issues arise.

3.7.3 The DTA quarterly report will include the following and the format will need to be agreed with Defra in advance:

- an executive summary to provide an expert view from DTA on the project and risks with key questions that they feel Defra should ask Tideway;
- an overview of project progress, reflecting key points from Tideway, TWUL and ITA reporting as well as any additional relevant reports, providing an expert and objective view of the likelihood of Tideway meeting key milestones and delivering to cost;
- analysis of the cost, schedule and risk reported by Tideway and the DTA opinion of these elements;
- analysis of any technical risks or issues that are significant for Defra/Government, highlighting any that may require further consideration by the Defra team's legal, finance or insurance advisers (this may include identifying any risks of Tideway not complying with the GSP terms for further investigation by legal advisers);
- expert view of methods of calculation and appropriate levels of risk and contingency of the project and what DTA believes are key areas of concern;
- an expert technical view regarding whether risk of a call on the GSP has increased, to what level of materiality and confirmation as to whether any Key Risk Indicators or escalation triggers (as defined in the GSP User Guide) have been met;
- recommendations to Defra/Government regarding steps it should take to protect taxpayer's interests, including where it should challenge information provided, request additional relevant information and influence the decisions of Tideway, TWUL and any other relevant parties.
- intelligence from the construction industry and market place that you have picked up which may be of interest/relevant to this project which Defra may need to consider;
- any illustrative graphs or trending data that might be useful

3.7.4 Providing verbal and written briefings to the Government Representative ahead of each Liaison Committee meeting as required, to ensure he/she is fully aware of and understands all technical issues.

3.7.5 Attending the Liaison Committee as a Defra adviser if required in support of the Government Representative.

3.7.6 Attending the Defra/Tideway monthly meeting and any other meetings as invited by Defra.

3.8 Ad-hoc technical analysis and support in response to events

3.8.1 It is vital that the DTA has the flexibility to engage more intensively on the project where required in response to emergence of particular risks and issues. This may include more regular briefings to the Defra team, governance bodies, senior officials and Ministers; and

preparation for and attendance of additional Liaison Committee meetings. It may also include providing technical advice to support Government decisions in the event of calls on the GSP. In particular, where a cost overrun has been identified that could trigger a call on the GSP, Tideway will be required to put forward a mitigation plan. The DTA, working closely with IPA and UKGI and/or financial advisers, would play a leading role in analysing this plan and putting forward their own independent, expert view as to whether the plan is realistic and how it can be improved. The DTA would also have a key role in monitoring implementation of the mitigation plan.

3.9 Technical support to internal management and governance.

- 3.9.1 Under business-as-usual, there will be quarterly Cross-Government Project Board meetings ahead of Liaison Committee meetings to keep other Government departments informed of project progress, and to prepare for the meetings. The DTA would normally be required to attend these project board meetings and the report referred to above is likely to be used to support these meetings. There may also be monthly meetings in between Liaison Committee meetings to track progress; the DTA may be required to attend these.
- 3.9.2 Where risks and issues arise on the project it will be necessary to escalate matters to senior officials (including at HM Treasury) and Ministers. The DTA will be required to provide input to briefings and submissions and to attend meetings.
- 3.9.3 Attend monthly or more regular adviser meetings, six weekly (or more regular) meetings with Defra team and technical sessions with the ITA and Tideway as requested by Defra.

3.10 The DTA will when required

- 3.10.1 Provide succinct summaries of project progress, risks and issues for inclusion in management information reports, risk registers and other routine documents;
- 3.10.2 Input to briefing papers and submissions to explain issues and risks that have arisen and recommended actions, communicating this in a manner which is appropriate and understandable for non-specialists not closely involved in the project (this may include producing presentations to explain particular technical issues that have arisen);
- 3.10.3 Attend pre-meetings to advise the Deputy Director and other team members on key points that should be raised at meetings and briefings;
- 3.10.4 Attend governance meetings where required, clearly presenting key risks and issues and explaining technical issues in a clear and concise style that is appropriate for non-specialists and colleagues not closely involved with the project;
- 3.10.5 Propose work packages on a quarterly basis to the TTT Team that may be appropriate for Defra, Tideway or other partners to commission to pro-actively manage or remedy any risks and issues identified;
- 3.10.6 Review the Key Risk Indicators and escalation triggers set out in the GSP User Guide and, using their expert knowledge and experience, advise on changes and improvements that could be made to ensure that the Senior Reporting Official (SRO), governance bodies, Defra's Accounting Officer, HM Treasury and Ministers will be informed of any increased risks to project delivery or of a call on the GSP at appropriate points.

3.11.1 Key Performance Indicators (KPIs)

The supplier will be required to work against key performance indicators for the duration of the contract, which can be found in Annex 2 of this document. These will be monitored by the Defra Thames Tideway Tunnel Team.

3.12 Travel and Subsistence

- 3.12.1 The new DTA can be based anywhere in the UK, particularly as Defra move towards a blended way of working because of Covid19; with meetings online and some in the office at 2 Marsham Street, London SW1P 4DF.
- 3.12.2 Any travel charges should be agreed/signed off with the contract manager prior to travelling. Without prior consent, the fees may not be paid
- 3.12.3 Due to the Covid-19 impact and Defra's focus on the environmental impact of travel, Travel and Subsistence will be paid as though the bidder is based in London. Therefore, if the bidder attends a meeting at Marsham Street, only travel across London will be paid. Subsistence will only be paid in the event an overnight stay outside London is needed and is agreed in advance with the Authority.

3.13 Knowledge Transfer

- 3.13.1 The successful Tenderer will be expected to work with the Defra team and possibly other external advisers to undertake knowledge transfer. Tenderers should specifically identify if, where and how this activity has been costed as part of their Tender.
- 3.13.2 It is expected that the successful Tenderer will be prepared to share its knowledge of and approach to the project with other internal and external members of the project team (which may include other external advisers). Defra envisages that this may include teaching seminars and workshops.
- 3.13.3 Tenders should set out how the pricing of this element will be approached.

3.14 Continuity of Personnel

- 3.14.1 The Contractor shall employ sufficient staff to ensure that the Services are provided at all times and in all respects to the Project Standard. It shall be the duty of the Contractor to ensure that a sufficient reserve of staff are available to ensure project delivery in the event of staff holidays, sickness or voluntary absence. In any event, only those named and approved personnel will be eligible to work on our projects. Should any additions be required, then a detailed CV will first need to be sent through to the contract manager for approval.
- 3.14.2 The Contractor must notify the Authority immediately of any changes to personnel associated with the project. The Contractor will ensure that every effort is made to replace outgoing staff with personnel of equal calibre and expertise. All new members of staff undertaking work for the Project will need to be agreed by the Defra Thames Tideway Tunnel Team prior to them starting any work.
- 3.14.3 The Contractor/s is/are liable and must bear any additional costs incurred from changes to their personnel.
- 3.14.4 At all times, the Contractor shall only employ in the execution and superintendence of the contract persons who are suitable and appropriately skilled and experienced, as agreed under the initial framework or notified and agreed with the Contract Manager.

3.15.1 Governance and Contract Management

Contract management meetings will take place on a six-weekly basis and will be monitored against the relevant KPI (see Annex 2).

3. SECURITY PLAN

3.1 The Contractor shall develop, implement and maintain a Security Plan to apply during the Contract Period (and after the end of the term as applicable) which will be approved by the Authority, tested, periodically updated and audited in accordance with this Schedule 8.

3.2 A draft Security Plan provided by the Contractor as part of its bid is set out herein.

3.3 Prior to the Commencement Date the Contractor will deliver to the Authority for approval the final Security Plan which will be based on the draft Security Plan set out herein.

3.4 If the Security Plan is approved by the Authority it will be adopted immediately. If the Security Plan is not approved by the Authority the Contractor shall amend it within 10 Working Days of a notice of non-approval from the Authority and re-submit to the Authority for approval. The Parties will use all reasonable endeavors to ensure that the approval process takes as little time as possible and in any event no longer than 15 Working Days (or such other period as the Parties may agree in writing) from the date of its first submission to the Authority. If the Authority does not approve the Security Plan following its resubmission, the matter will be resolved in accordance with clause 12 (Dispute Resolution). No approval to be given by the Authority pursuant to this paragraph 3.4 may be unreasonably withheld or delayed. However any failure to approve the Security Plan on the grounds that it does not comply with the requirements set out in paragraphs 3.1 to 3.4 shall be deemed to be reasonable.

3.5 The Security Plan will set out the security measures to be implemented and maintained by the Contractor in relation to all aspects of the Services and all processes associated with the delivery of the Services and shall at all times comply with and specify security measures and procedures which are sufficient to ensure that the Services comply with:

3.5.1 the provisions of this Schedule 8;

3.5.2 the provisions of Schedule 1 relating to security;

3.5.3 the Information Assurance Standards;

3.5.4 the data protection compliance guidance produced by the Authority;

3.5.5 the minimum set of security measures and standards required where the system will be handling Protectively Marked or sensitive information, as determined by the Security Policy Framework;

3.5.6 any other extant national information security requirements and guidance, as provided by the Authority's IT security officers; and

3.5.7 appropriate ICT standards for technical countermeasures which are included in the Contractor System.

3.6 The references to Quality Standards, guidance and policies set out in this Schedule shall be deemed to be references to such items as developed and updated and to any successor to or replacement for such Quality Standards, guidance and policies, from time to time.

3.7 If there is any inconsistency in the provisions of the above standards, guidance and policies, the Contractor should notify the Authorised Representative of such inconsistency immediately upon becoming aware of the same, and the Authorised Representative shall, as soon as practicable, advise the Contractor which provision the Contractor shall be required to comply with.

3.8 The Security Plan will be structured in accordance with ISO/IEC27002 and ISO/IEC27001 or other equivalent policy or procedure, cross-referencing if necessary to other schedules of the Contract which cover specific areas included within that standard.

3.9 The Security Plan shall not reference any other documents which are not either in the possession of the Authority or otherwise specified in this Schedule 8.

4. AMENDMENT AND REVISION

4.1 The Security Plan will be fully reviewed and updated by the Contractor annually or from time to time to reflect:

4.1.1 emerging changes in Good Industry Practice;

4.1.2 any change or proposed change to the Contractor System, the Services and/or associated processes;

4.1.3 any new perceived or changed threats to the Contractor System;

4.1.4 changes to security policies introduced Government-wide or by the Authority; and/or

4.1.5 a reasonable request by the Authority.

4.2 The Contractor will provide the Authority with the results of such reviews as soon as reasonably practicable after their completion and amend the Security Plan at no additional cost to the Authority.

4.3 Any change or amendment which the Contractor proposes to make to the Security Plan (as a result of an Authority request or change to Schedule 1 or otherwise) shall be subject to a CCN and shall not be implemented until Approved.

5. AUDIT AND TESTING

5.1 The Contractor shall conduct tests of the processes and countermeasures contained in the Security Plan ("Security Tests") on an annual basis or as otherwise agreed by the Parties. The date, timing, content and conduct of such Security Tests shall be agreed in advance with the Authority.

5.2 The Authority shall be entitled to send a representative to witness the conduct of the Security Tests. The Contractor shall provide the Authority with the results of such tests (in an Approved form) as soon as practicable after completion of each Security Test.

5.3 Without prejudice to any other right of audit or access granted to the Authority pursuant to the Contract, the Authority shall be entitled at any time and without giving notice to the Contractor to carry out such tests (including penetration tests) as it may deem necessary in relation to the Security Plan and the Contractor's compliance with and implementation of the Security Plan. The Authority may notify the Contractor of the results of such tests after completion of each such test. Security Tests shall be designed and implemented so as to minimise the impact on the delivery of the Services.

5.4 Where any Security Test carried out pursuant to paragraphs 5.2 or 5.3 reveals any actual or potential security failure or weaknesses, the Contractor shall promptly notify the

Authority of any changes to the Security Plan (and the implementation thereof) which the Contractor proposes to make in order to correct such failure or weakness. Subject to Approval in accordance with paragraph 4.3, the Contractor shall implement such changes to the Security Plan in accordance with the timetable agreed with the Authority or, otherwise, as soon as reasonably possible. For the avoidance of doubt, where the change to the Security Plan to address a non-compliance with the Security Policy Framework or security requirements, the change to the Security Plan shall be at no additional cost to the Authority. For the purposes of this paragraph, a weakness means a vulnerability in security and a potential security failure means a possible breach of the Security Plan or security requirements.

6. BREACH OF SECURITY

6.1 Either Party shall notify the other immediately upon becoming aware of any Breach of Security including, but not limited to an actual, potential or attempted breach, or threat to, the Security Plan.

6.2 Upon becoming aware of any of the circumstances referred to in paragraph 6.1, the Contractor shall immediately take all reasonable steps necessary to:

6.2.1 remedy such breach or protect the Contractor System against any such potential or attempted breach or threat; and

6.2.2 prevent an equivalent breach in the future.

6.3 Such steps shall include any action or changes reasonably required by the Authority. If such action is taken in response to a breach that is determined by the Authority acting reasonably not to be covered by the obligations of the Contractor under the Contract, then the Contractor shall be entitled to refer the matter to the CCN procedure set out in Schedule 3.

6.4 The Contractor shall as soon as reasonably practicable provide to the Authority full details (using such reporting mechanism as may be specified by the Authority from time to time) of such actual, potential or attempted breach and of the steps taken in respect thereof.
