

Schedule of Rates update – 09.02.23

We will not be scoring Dayworks for Mechanical or Electrical Trades.

Instead of re-issuing an amended Schedule of Rates document and Dayworks Tab, we will ensure that every Tender received is evaluated on the same basis, as such we will ignore the following cells on the Dayworks Tab under the Schedule of Rates when evaluating and scoring:

- E24 to E29
- D25, D27, D29
- E35 to E40
- D36, D38, D40

This means we will only be evaluating and scoring the total in cell E42, which will consist of the values from the All Building Trades cells; E13 to E18, D14, D16, D18.

To summarise, we will only be scoring the total dayworks value for All Building Trades and will be excluding any rates inserted for Mechanical and Electrical Trades. This will ensure all Tenderers are evaluated and scored on a like for like basis.
