BACKGROUND TO THIS FRAMEWORK

The National Health Service (NHS) and wider public sector is facing a period of intense financial pressure to reduce costs. Authorities are looking towards innovative solutions to help reduce their cost base and Improve patient care.

The Countess of Chester Hospital Commercial Procurement Services (CPS) is a centre of procurement expertise providing strategic and specialist procurement services and advice to NHS trusts, wider public sector and private sector clients. Operating within, but operationally independent of, an NHS Acute Foundation Trust Procurement department, our in-depth knowledge of the NHS and the healthcare market coupled with excellent track record of delivering high quality commercial and procurement projects enables us to effectively advise, assist and deliver a range of benefits including service improvements and cash releasing and cost avoidance savings. CPS Framework Agreements currently serve in excess of 60 public sector organisations, and offer unique access points to goods and services which offer innovation and savings with no customer access fees.

CPS wishes to award a national framework agreement for the supply of UVC Cleaning Solutions in an attempt to reduce Healthcare-associated infections.

The term Healthcare-associated infections (HCAIs) covers a wide range of infections that patients receive while in the healthcare environment that were neither present nor developing when original treatment began. The most well-known include those caused by methicillin-resistant Staphylococcus aureus (MRSA) and Clostridium difficile (C. difficile). HCAIs pose a serious risk to patients, staff and visitors within the NHS. They can incur significant costs for the NHS and cause significant morbidity to those infected. As a result, infection prevention and control is a key priority for the NHS and UVC Cleaning is an innovative solution which can assist in reducing such infections.

The solution is intended to be used as part of infection control as a supplement to standard cleaning and disinfection protocols in an attempt to reduce healthcare associated infections. The UVC cleaning solution will allow hospital staff to disinfect a number of environments within a healthcare setting including but not limited to patient rooms, hospital wards, operating rooms, emergency rooms, bathrooms and public areas and will disinfect a range of medical surfaces including but not limited to wheelchairs, bedside tables, walls and electronic equipment. The UVC solution aims eradicate all types of microorganisms including Clostridium difficile (C.diff), and multi-drug resistant organisms such as MRSA, VRE, CRE, Acinetobacter and other HCAIs.

The primary focus of this Framework Agreement is to develop a catalogue of UVC Cleaning solutions. Suppliers are able to submit varying commercial offers within this process with regards to purchase and lease/rental options of equipment, which Trusts can use for catalogue evaluation at the point of making a call-off decision.

This framework agreement opportunity encourages smaller businesses to participate (SME's), as such the procurement process has been simplified to encourage greater participation. By forming this framework will greatly reduce the ongoing administrative burden of repeating multiple procurement processes for the goods described within this ITT. This framework will therefore support public procurement and private enterprise through its efficiency.

BACKGROUND TO THE COUNTESS OF CHESTER HOSPITAL NHS FOUNDATION TRUST COMMERCIAL PROCUREMENT SERVICE.

The Countess of Chester Hospital NHS Foundation Trust is comprised of a 600 bed acute general hospital located on the outskirts of the City of Chester, an 86 bed community based hospital located in Ellesmere Port, a number of West Cheshire community based health clinics and a shared service Microbiology Laboratory in Wirral.

The Trust also hosts a Commercial Procurement Service which not only undertakes its own commercial activity but seeks to act to the wider public sector to promote and develop smaller innovative businesses and ideas. Further information can be obtained from the website www.coch-cps.co.uk

The Countess of Chester Hospital NHS Foundation Trust as the Framework Manager will administer the framework agreement, provide guidance to client authorities and issue draft contracts for consideration between client authorities and the successful supplier. In the first instance of any dispute the Framework Manager will offer first line mediation.

BACKGROUND TO THE PUBLIC SECTOR AND NHS

The public sector in the United Kingdom (UK) is comprised of many varying organisations. These include: ministries or departments of central government such as the Cabinet Office, Department of Health (including the National Health Service (NHS)) and Ministry of Justice; local authorities, such as councils and social services; wider public bodies such as fire and rescue services, police authority services, educational authorities, universities and public broadcasting; and finally utilities agents, such as water authorities. Derived from European Union (EU) treaty principles, UK public sector procurement bodies must comply with both the Public Procurement Directive and Public Remedies Directive. These mandate a regulated contract and tender procedure for opportunities above a certain financial threshold, which varies depending on the type of organisation and type of procurement being undertaken.

The National Health Service (NHS) in the UK is representative of over 400 health organisations including Hospital Trusts, Mental Health Trusts, Ambulance Trusts, Foundation Trusts, Clinical Commissioning Groups, Commercial Support Units and Community Health Trusts. The landscape is one of constant evolution and change.

To promote transparency The Countess of Chester Hospital NHS Foundation Trust wishes to establish a Framework Agreement for use by all UK public sector bodies (and any future successors to these organisations); however it is anticipated that its core use will be within the NHS, therefore to provider bidders with information on potential users of the Framework Agreement the following organisations are considered the core client base:

Clinical Commissioning Group's, NHS Trust's, Special Health Authorities, The Care Quality Commission, National Institute for Health Care Excellence, known as NICE, The Health and Social Care Information Centre, The Secretary of State, relevant Welsh health service bodies, NHS Foundation Trusts, Academic Health Science Networks, The NHS Trust Development Authority, Monitor, Health Education England including Local Education and Training Boards (LETB) constituted as committees of Health Education England, NHS Health Research Authority, The Department of Health, Executive agencies of the Department of Health including but not limited to Public Health England, the Medicines and Healthcare Products Regulatory Agency and the National Institute of Health Research, Arm's Length Bodies of the Department of Health not otherwise listed in this Contract Notice

HOW THE FRAMEWORK WILL OPERATE

This framework will be a catalogue call-off and as such no further competition will be required once awarded.

Client Trusts wishing to call-off the framework may engage directly with the successful framework suppliers and finalise their requirements based on their needs. The framework will be reviewed annually and will run for a maximum four year term, however call-off contracts may exceed this period provided that contracts are awarded within the framework term.

The following will outline a high level process of how parties will engage each other:

1. Client organisations can liaise directly with the Framework Manager to satisfy themselves that it offers adequate governance and value.
2. The Framework Manager will issue the client with a briefing pack and a copy of the Framework Agreement along with the framework catalogue of products.
3. The client will undertake their own evaluation of the information within the Framework and framework catalogue.
4. The Framework Manager will issue the Client with a unique reference number which the client can use to call-off the goods under this framework. Organisations attempting to engage the successful suppliers without the unique reference number are doing so outside of the remit of this framework and as such the Framework Manager can offer no assurance on legal compliance.
5. The Client will use the model contract templates as developed within this framework.

6. The Framework Manager will monitor expenditure through both the clients financial reporting and successful supplier’s management reports. Management fees as detailed within this ITT will be invoiced based on this information at the rate stated and at the frequency stated.
7. Failure by the Framework Manager to receive adequate management information from Client authorities may result in the issuing of a freedom of information request.

HOW THIS TENDER PROCESS WILL WORK.

Following the conclusion of the evaluation you will be issued notification of either being successful or unsuccessful. This will be accompanied by a debrief letter advising you of your scores and if appropriate the scores of the winning bid(s), along with narrative as to how the scores were applied and what the characteristics and relative advantages of the winning bid were. A 10 day standstill period will follow prior to concluding the framework which will be formed upon the exchange and signing of framework documents. CONTRACT AWARD PROCESS AND EVALUATION CRITERIA

The Framework Agreement will be awarded on the basis of the most economically advantageous offer which will be evaluated on the following:

Criteria	Weighting %
Commercial evaluation	40%
Non-financial evaluation:	60%
Total	100%

1. STEP 1: PREREQUISITES

1.1 Applicants must meet all of the requirements of SCHEDULE C. Any Applicants which do not meet all of the selection requirements set out in the prerequisites as found in SCHEDULE C (or (1) submit their European Single Procurement Document, which must be completed in full (together with any further information which is required in the prerequisites but not in the European Single Procurement Document); or (2) explain to The Countess of Chester Hospital Commercial Procurement Services' satisfaction why they do not perhaps through the use of self-cleaning evidence) will be treated as ineligible for the Framework Agreement, their Tender will not be evaluated further and the Applicant will be informed of their rejection at this stage.

1.2 Applicants who have passed prerequisites will move to step 2.

2. STEP 2: EVALUATION OF NON-FINANCIAL INFORMATION

2.1 Non-financial information will be evaluated using the criteria and weightings below:

Non-Financial Criteria	Weighting %
Warranty, maintenance and servicing	10%
Functionality	32%
Delivery	3%
Customer service/support	3%
Reporting	7%
Ease of use	5%
Total Non-Financial Criteria	60%

2.2 Applicants are required to answer a number of questions found in SCHEDULE D, which are linked to the criteria listed above.

2.2.1 Each question has been assigned a maximum score, which is provided in SCHEDULE D. The following methodology will apply where qualitative information is provided. Bidders are unable to contest the application of this methodology as it forms the subjective opinion of the awarding authority:

Rate	Qualifier
0	No Confidence
1	Serious concerns
2	Concerns, Some Confidence
3	Acceptable, Confident
4	Exceptionally Confident

2.3 The evaluation of non-financial information will be undertaken once, and the resulting score used in the calculation of the final score described in step 4 below.

3. STEP 3: COMMERCIAL EVALUATION

3.1 The commercial evaluation is based on purchase price of a UVC Cleaning solution using the weighting below

Commercial Evaluation weighting	40 %
---------------------------------	------

3.2 Applicants are required to provide all pricing for their solution(s) in SCHEDULE E. Only the purchase price for the solutions will be used for evaluation of award onto the Framework Agreement, although Applicants are encouraged to provide pricing for leasing/rental of their solution if applicable and any other costs associated with their solution in SCHEDULE E also. Applicants should note that these prices will not be evaluated. The purchase pricing submitted by the Applicant in SCHEDULE E will be evaluated as follows:

The Tender with the lowest price submitted for purchase of a UVC Cleaning solution will gain the full 40% commercial score. Subsequent Tenders will gain a percentage of the 40% commercial score on a pro-rata basis from the top scoring price. This is calculated using the following formula:

$$\text{Financial Score} = 40 \times \left(\frac{\text{Lowest Price}}{\text{Applicant Price}} \right)$$

where

Lowest Price = the lowest price offered for the specified product.

Applicant Price = the price offered by the Applicant for the specified product.

4. STEP 4: CALCULATION OF FINAL SCORES AND AWARD OF FRAMEWORK AGREEMENT

- 4.1 Once the Commercial and non-financial criteria have been assessed, the final scores will be calculated as follows:

The Applicant's non-financial score, as calculated in step 2 will be added to the financial score as calculated in step 3, to produce a total score for each Applicant. All Applicants whose combined score meets or exceeds 50% (who have met the minimum requirements set out in this Invitation to Tender) will be awarded to Framework Agreement.
