2.4.1 is a separate Contract from the Framework Contract;

2.4.2 is between a Supplier and a Buyer;

2.4.3 includes the Core Terms, the Schedules and the information in the completed Order Form; and

2.4.4 survives the termination of the Framework Contract.

2.5 Where the Supplier is approached by another eligible Buyer requesting Services or substantially similar Services, the Supplier must inform them about this Framework Contract prior to accepting an order from another eligible Buyer.

2.6 The Supplier acknowledges it has all the information required to perform its obligations under each Contract before entering into a Contract. When information is provided by a Relevant Authority, no warranty of its accuracy is given to the Supplier.

- 2.8 The Authority and the Buyer will not be liable for errors, omissions or misrepresentations of any information.
- 2.9 The Supplier warrants and represents that all statements made and documents submitted as part of the procurement of Services are and remain true and accurate. The Buyer may retain any such material for use in connection with the investigation and, as far as possible, may provide the Supplier with a copy of any material retained.

24.3 Offences and authorisation

- 24.3.1 In providing the Services the Supplier shall comply with PSI 10/2012 (Conveyance and Possession of Prohibited Items and

Other Related Offences) and other applicable provisions relating to security as published by the Authority and/or the Buyer from time to time.

25. Licence to Occupy

- 25.1 Any land or Buyer Premises made available from time to time by a Buyer to the Supplier in connection with a Call Off Contract are on a non-exclusive licence basis free of charge and are to be used by the Supplier exclusively for the purpose of performing its obligations under the Call Off Contract. The Supplier shall have use of such land or Buyer Premises as licensee and shall vacate the same immediately upon termination or expiry (as the case may be) of the Contract.
- 25.2 The Supplier shall limit access to the land or Buyer Premises to such Supplier Personnel as is necessary for it to perform its obligations under the Contract and the Supplier shall co-operate (and ensure that the Supplier Personnel co-operate) with any other persons working concurrently on such land or Buyer Premises as the Buyer may request.
- 25.3 If the Supplier requests modifications to the land or Buyer Premises such modifications are subject to Approval and shall be carried out by the Buyer at the Supplier's cost. The Buyer shall undertake Approved modification work without undue delay.
- 25.4 The Supplier shall (and shall procure that the Supplier Personnel at the Buyer Premises shall) observe and comply with such rules, regulations and requirements (including those relating to security arrangements) as may be in force from time to time for the conduct of personnel when on the Buyer's Premises as determined by the Buyer.
- 25.5 The Contract shall not create a tenancy of any nature in favour of the Supplier or the Supplier Personnel and no such tenancy has or shall come into being and, notwithstanding any rights granted pursuant to the Contract, the Buyer may use the land and/or Buyer Premises owned or occupied by it in any manner it sees fit.
- 25.6 If keys (to include key cards) to any part of the Buyer Premises are issued to the Supplier, the Supplier shall be deemed by this Contract to have given an undertaking that the keys will not be copied, lent or used by any person other than a person authorised in writing by the Supplier and the Supplier shall supply to the Buyer the names and addresses of such authorised persons. have been provided, and that in the event that any failure to do so results in losses or other costs falling upon the Buyer, such losses and costs shall be recoverable from the Supplier by the Buyer. If any keys are lost by the Supplier, or Supplier Personnel, then the Supplier shall immediately notify the Buyer. The Supplier shall be liable for all losses, or other costs falling upon the Buyer as a result of the loss of such keys including the loss or damage to property and the costs of replacing locks and lost keys.

26. Invalid parts of the Contract

If any provision of a Contract is prohibited by Law or judged by a court to be unlawful, void or unenforceable, it must be read as if it was removed from that Contract as much as required and rendered ineffective as far as possible without affecting the rest of the Contract, whether it's valid or enforceable.

27. No other terms apply

The provisions incorporated into each Contract represent the entire understanding between the Parties in respect of such Contract and supersede and replace all and any prior representations and/or agreement between the Parties (whether written or oral) provided always that nothing in this Clause 27 shall exclude liability for fraud or fraudulent mis-representation.

28. Third Party Rights

No third parties may use the Contracts (Rights of Third Parties) Act 1999 (CRTPA) to enforce any term of the Contract unless stated (referring to CRTPA) in the Contract. This does not affect third party rights and remedies that exist independently from CRTPA and does not apply to the Crown. Where a third party is given rights to enforce any term then it can only enforce or take any steps to enforce it with the prior written consent of the Relevant Authority (which consent, if given, may be on such terms as the Relevant Authority may decide). The Contract can be varied or terminated by the Parties without the consent of any third party.

29. Force Majeure

29.1 Any Party affected by a Force Majeure Event is excused from performing its obligations under a Contract while the inability to perform continues, if it both:

29.1.1 provides a Force Majeure Notice to the other Party;

29.1.2 uses all reasonable measures practical to reduce the impact of the Force Majeure Event.

29.2 Either party can partially or fully terminate the affected Contract if the provision of the Services is materially affected by a Force Majeure Event which lasts for thirty (30) days continuously.

29.3 Where a Party terminates under Clause 29.2:

29.3.1 each party must cover its own Losses;

29.3.2 Clauses 14.11.1 to 14.11.6 applies.

30. Relationship of the Parties

No Contract creates a partnership, joint venture or employment relationship. The Supplier must represent themselves accordingly and not allow others to represent in a manner contrary to this Clause 30.

31. No Waiver

A partial or full waiver or relaxation of the terms of a Contract is only valid if it is stated to be a waiver in writing to the other Party.

32. Assignment, Novation and Sub-Contracting

32.1 The Supplier can not assign a Contract without the Relevant Authority's prior written consent.

32.2 The Relevant Authority can at any time assign, novate or transfer its Contract or any part of it to any Crown Body, public or private sector body which performs the functions of the Relevant Authority.

32.3 When the Authority or the Buyer uses its rights under Clause 32.2 the Supplier must enter into a novation agreement in the form that the Authority or the Buyer specifies.

32.4 The Supplier can terminate a Contract novated under Clause 32.2 to a private sector body that is experiencing an Insolvency Event.

32.5 The Supplier remains responsible for all acts and omissions of the Supplier Personnel as if they were its own.

32.6 If the Authority or the Buyer asks the Supplier for details about Sub-Contractors, the Supplier must provide details of Sub-Contractors at all levels of the supply chain including:

32.6.1 their name

32.6.2 the scope of their appointment

32.6.3 the duration of their appointment

32.7 The Supplier shall provide the Authority or the Buyer with a copy of any Sub-Contract at the Authority or the Buyer's reasonable request.

32.8 If the Relevant Authority believes there are:

32.8.1 compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Supplier shall replace or not appoint the Sub-Contractor; or

32.8.2 non-compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Authority may require the Supplier to replace or not appoint the Sub-Contractor and the Supplier shall comply with such requirement.

32.9 The Supplier shall ensure that Key Sub-Contracts include:

- 32.9.1 a right under CRTPA for the Buyer to enforce any provisions under the Key Sub-Contract which confer a benefit upon the Buyer
- 32.9.2 a provision enabling the Buyer to enforce the Key Sub-Contract as if it were the Supplier
- 32.9.3 a provision enabling the Supplier to assign, novate or otherwise transfer any of its rights and/or obligations under the Key Sub-Contract to the Buyer
- 32.9.4 a provision requiring the Key Sub-Contractor not to embarrass the Authority and/or the Buyer or otherwise bring the Authority and/or the Buyer into disrepute
- 32.9.5 a provision restricting the ability of the Key Sub-Contractor to sub-contract all or any part of the provision of the Services provided to the Supplier under the Key Sub-Contract without first seeking the written consent of the Buyer
- 32.9.6 provisions which have the same effect as the following clauses of the Contract: 10.1.3, 10.1.4 (*Record keeping and reporting*), 19 (*Data Processing*), and 23 (*Sharing information*).

33. Changing the Contract

- 33.1 In the first instance, minor changes to the provision of the Services should, so far as possible, be agreed between the Parties as operational changes to the Services and managed as agreed between the Parties from time to time.
- 33.2 Subject to Clause 33.6 below, the Agreement cannot be varied except in writing signed by a duly authorised representative of all Parties and in the case of the Authority and where the Buyer is the Ministry of Justice, without a signature from MOJ Commercial or such other person as notified by the Authority acting through MOJ Commercial.
- 33.3 Either Party can request a variation to a Contract which is only effective if agreed in writing and signed by both Parties.
- 33.4 The Supplier must provide an impact assessment either:
 - 33.4.1 with the variation request, where the Supplier requests the variation;
 - 33.4.2 within the time limits stated by the Authority or the Buyer where they have requested the variation (or within a reasonable period if no time limits are stated).
- 33.5 If a variation cannot be agreed or resolved by the Parties, the Authority or the Buyer can either:
 - 33.5.1 agree that the Contract continues without the variation;

33.5.2 terminate the affected Contract, unless in the case of a Call Off Contract, the Supplier has already provided part or all of the provision of the Services, or where the Supplier can show evidence of substantial work being carried out to provide them;

33.5.3 refer the Dispute to be resolved using Clause 42 (*Dispute Resolution*).

33.6 The Authority shall be entitled from time to time, by notice in writing to the Supplier, to vary the terms which will be applicable to future call off contracts. Submission by the Supplier of a tender for a call off contract where its terms have been varied shall be deemed to be acceptance by the Supplier of the terms as varied. Any changes notified by the Authority in accordance with this Clause 33.6 shall not have any effect on call off contracts which have been agreed between a Buyer and the Supplier.

34. Communication and Notices

34.1 All notices under the Contract must be in writing and shall be deemed served on the Working Day of delivery as long as delivered before 5:00pm on a Working Day. OPERATIONAL SPECIFICATION

The Supplier shall provide the Services set out in this Specification. The Services shall be delivered in accordance with the mandatory guidance set out within Annex 1 (*Operational Requirements*), as applicable.

Ministry of JUSTICE

The Supplier shall at all times ensure that the Services comply with, and meet all the requirements of, and that the Supplier performs its other obligations arising under or in connection with, the Call-Off Contract, the Specification, Prison Service Instructions and Law, with effect from the Call Off Start Date.

This Specification sets out the services required to deliver the Services in the Prison.

In broad terms the service includes a HMP Academy within a prison which is hosted by an employer or consortia of businesses and employers that provides sector specific skills training and creates pathways to jobs on release, preferably with the employer/s involved in the HMP Academy. The core elements of this would be:

- A defined programme of learning that prepares the prisoners for work with the employer/s after release;
- A unique in-prison facility which resembles, as much as possible, the facility as it would be in the community. Including branding and signage, uniforms for prisoners, and a focus on company values;
- marketing the HMP Academy;
- reporting/monitoring and evaluating;
- guaranteed interviews for all participants completing the programme upon release; and
- "through the gate" support to enhance the likelihood of prisoners settling in well to the new role and having an immediate positive impact upon release.

The Specification will be subject to ongoing review and development by both Authority and Supplier to take note of emerging best practice and changes in approach. There is a clear expectation that the Supplier will strive to continuously improve service delivery and provide a flexible service which can readily respond to changing learning and skills needs of prisoners.

HMP Academies

Specification for HMP Academies

Purpose

We are seeking to establish and operate a number of new HMP Academies that meet the following criteria:

- enable employers to provide 'on the job' training tailored to their specific organisation's needs;
- engage with a flexible cohort of prisoners to prepare people for employment in their business on release; and
- invest in fixed prison training spaces which will be hosted and branded by employers.

Outcome

The Authority know that employment for prison leavers helps cut crime, prevents further victims and reduces the £18 billion total estimated economic and social cost of reoffending. Prison leavers who find employment after release are up to nine percentage points less likely to reoffend. Getting more prison leavers into work also has a role to play in promoting economic growth by helping employers with skills shortages.

In the year to March 2022, 17.3% of prison leavers were employed 6 Months post release (excluding cases where the status was unknown), this is up from 14.0% in the previous year.

Our ambition is to deliver a step-change in the number of prison leavers who secure employment on release.

As this is part of the Employability Innovation Fund, we are keen to establish robust data around the efficacy of HMP Academies in achieving the Authority's objectives of increasing the number of prisoners in employment post release.

MoJ and HMPPS will develop a set of core KPIs which all suppliers must report on to help monitor the delivery and success of the project. These shall include: a minimum number of prisoners enrolled into the HMP Academy programme each quarter; prisoner attendance rate being maintained at eighty-five per cent (85%) or above throughout the HMP Academy programme; a minimum percentage who start the HMP Academy programme complete it; one-hundred per cent (100%) of those who complete the HMP Academy programme are

HMP Academies

offered an interview for a live vacancy; a minimum percentage of interviewees are offered a job start and one hundred per cent (100%) of agreed data is shared with the Authority every month.

Service Elements in Scope

Suppliers are responsible for the planning, mobilisation (which may include fit-out of the HMP Academy facilities in the prison) and delivery of each HMP Academy.

Suppliers are responsible for creating and delivering an HMP Academy programme that reflects, as far as possible within a prison environment, a typical work environment and provides a potential pipeline of new recruits with the right skills into employment. Additionally, where appropriate, arrange participants to sit formal Qualifications if part of proposed programme.

Suppliers are responsible for collecting and reporting data in relation to the HMP Academy – in accordance with the Authority's requirements and any Call Off Contract.

Suppliers are responsible for ensuring effective 'Through the gate' support to the HMP Academy participants.

There will be a social value criterion as part of the call off competition.

Suppliers are responsible for marketing the HMP Academy within the prison.

Service Elements with Shared Responsibility

The supplier has shared responsibilities for the following services:

- identifying and selecting appropriate candidates to participate in the HMP Academy programme.

Service Elements Out of Scope

The following services are excluded from the scope of the HMP Academies Programme:

- managing and providing services within the existing curriculum;
- delivery of services which are already provided under contract (BAU);
- escorting to education settings; and
- initial screening and assessment (formal).

HMP Academies

Annex 1 - Operational Requirements

Operational Requirements

The Participants

HMP Academies will benefit prisoners aged 18 or over of working age regardless of Protected Characteristics and with a good work ethos who are motivated to engage with longer-term, higher skilled sector specific training in work environments.

People will be identified and selected by the Prison with support from the Supplier and HMPPS partner organisations (such as those providing Career Information, Advice and Guidance services (CIAG)). They will generally be serving the final period of their custodial sentence and expected to spend this time in the HMP Academy, learning new skills.

The core minimum eligibility criteria for participants for this type of intervention are:

- Have at least 3 months¹ left of their custodial sentence remaining and likely to stay at the prison for the duration until time of release.
- Have demonstrated achievement of soft skills including having a good work ethos and motivated to engage.
- Have a right to work in the UK.

The Facility / Facilities

The facilities available will be detailed in the call off competition and are specific to each prison (see Annex 2 (*Prison Specific Information*) for examples of what may be provided in terms of information during the call-off competition).

¹ This is flexible and will generally reflect the needs of the employer and the proposed programme length.

HMP Academies

Sustainability and adaptability

HMPPS want academies to be an integral part of prison operations, not just over the period of this Call-Off Contract but for the long term. HMPPS is investing in new infrastructure by refurbishing existing facilities and equipping them with modern industry standard equipment to support start up, and making them available to suppliers without charges, along with a pool of available prisoners at no cost to suppliers.

This will enable suppliers to utilise the facility and equipment to provide a pipeline of trained new recruits, using the businesses own expert resources to provide specialist skills to prisoner participants, equipping them for employment on release from custody.

Mobilisation

Suppliers will be expected to mobilise their resources quickly as soon as contracts are awarded and the designated prison facility becomes available for use. The Order Form within the Call Off Contract will set out the mobilisation time.

Creating a positive learning environment

HMP Academies should be safe, inclusive, respectful and supportive spaces with a clear sense of belonging for prisoners with little or no ambiguity about what its function and purpose is. The supplier will be required to take an active part in setting standards and behaviours of the prisoners participating. The prison will provide any necessary security and other appropriate 'prison' training to the suppliers' staff in accordance with local protocols. The supplier will be expected to create and sustain a professional learning environment that resembles, as much as possible, a similar learning and work environment they provide in the community.

HMP Academies

Learning Opportunities

HMP Academies are intended to be places of learning for the prisoners that participate where trade skills are aligned to the needs of the employer hosting the facility and to the sector the supplier operates in – making participants ‘job ready’ in preparation for future employment on release from prison. The scope, content and pace of learning will be at the discretion of the employer, but participants are expected to attend the HMP Academy full time for a period of months leading up to their release. Suppliers will be required to work closely with managers in the prison to consider and agree selection criteria over and above any minimum standards, to identify and select the right people to participate and the prison will be required to put the best candidates forward.

This is an opportunity for the employer to inspire potential recruits to become happy and productive team members. The range of skills available to participants may include specialist / technical knowledge and learning (accredited and non-accredited) as well as valuable ‘people skills’ such as adaptability, communication, creativity, initiative, organisation, planning, problem solving, reliability, team working and timekeeping. Learning about the employer is also significant – reflecting established company induction programmes to help new recruits fit in quickly by understanding how the employer operates such as information about systems and procedures, company strategy and services (such as company values and behaviours), alongside job specific information (e.g., department information, job requirements and objectives).

There may also be opportunities to develop numeracy and literacy skills for participants in association with the prison and its specialist providers, along with utilising other local existing education and learning provision in the prison (subject to local funding agreement).

HMP Academies

Employment Opportunities

HMP Academies shall be places where the supplier is expected to provide stable, sustainable and meaningful employment opportunities in the community – both for prison leavers and, where possible, for those ROTL for the purpose of work.

Through the gate support

Suppliers and their partners are expected to collaborate with the prison to support prisoners into employment to aid the transition from life inside a prison into the community. This support might extend to meeting them at the prison gate, providing some temporary financial support, particularly in the early days, help with finding accommodation and adopting a buddy system to support onboarding and knowledge sharing to orient new employees. Providing mentors prior to leaving custody and taking up employment is one example of good practice - making the transition easier and making some allowances in the first few weeks to help them settle in often works too. This support is expected to begin inside the prison and follow individuals 'through the gate'.

Suppliers might want to collaborate to gain support from other employers, organisations (including charities) already working with prison leavers to create wraparound support. This is seen as adding value to the 'through the gate' experience and will enhance the likelihood of an individual settling well into the new role and having an immediate positive impact. There may be opportunities for employers to collaborate with charities and other third sector organisations to enhance their offer.

HMP Academies

Marketing and promoting HMP Academies inside the prison, HMPPS and externally

Suppliers will be expected to raise awareness and promote the HMP Academy and all that it offers inside the prison to prisoners and staff and maintain a good level of engagement, interest and participation on an ongoing basis. Suppliers are also expected to work with HMPPS to promote the initiative across other parts of HMPPS and Ministry of Justice including by way of individual case studies where appropriate.

Suppliers will also be encouraged to promote HMP Academies to others outside of HMPPS, including publicly and within existing employer and trade networks to help raise awareness and future employer interest.

Monitoring and Evaluation

The main aim of the programme is to increase the number of offenders going into employment upon release. This includes any type of paid work regardless of whether this is permanent or temporary, full time or part time, employed or self-employed including apprenticeships. We will collect data separately about employment at 6 weeks and 6 months after release. To assess the success of HMP Academies in achieving this aim we aim to conduct: a) Data Monitoring and Metrics gathering; b) A Process Evaluation; and c) An Impact and Economic (Value-for-Money) Evaluation. . Suppliers will be required to provide data on participating prisoners to facilitate these monitoring and evaluation activities. These will be agreed and confirmed with the suppliers upon project inception.

Data Monitoring and Metrics gathering will provide early and regular indications of the progress and success of the HMP Academies programme. We aim to gather data about the prisoners participating in HMP Academics, such as the number and demographic characteristics of learners, to determine whether the target groups have been reached. We also aim to gather data about the success of the programme to help HMPPS evaluate the effectiveness of the HMP Academies initiative and to monitor performance of the contract.

HMP Academies

Information is likely to extend to the number of prisoners (including names and unique ID numbers) enrolled, number of dropouts (including names and unique ID number), numbers completing the programme, numbers being offered an interview (if not guaranteed) or a job (if interviews are guaranteed), name of employer, type of employment, number of offenders who do not show up despite being offered jobs, number of offenders who continue to work with employers after 6 weeks and 6 months.

Through a process, impact, and value-for-money evaluation of the HMP Academies, we will assess how the programme was delivered, whether (and to what extent) it was successful in increasing the number of offenders finding employment upon release and the estimated value for money or economic benefits of this publicly funded intervention. The process evaluation will focus on lessons learnt from the delivery of the intervention which can be used to improve future HMP Academy programmes. We will also focus on factors that appear to influence the success of the intervention, and on any unintended consequences or outcomes. We aim to use the impact evaluation to compare the employment of learners in the HMP Academies programme with similar offenders who have not been involved in the programme. This will enable us to estimate attribution and additionality (that is, the extent to which any improvement to offenders' employment prospects on release can be attributed to HMP Academies, as opposed to other factors, and evidence that this improvement is additional to outcomes expected to occur through 'business as usual', without HMP Academies.)

The Equality Act 2010

Suppliers must ensure their materials and training style is inclusive and upholds the statutory duties under the Equality Act 2010 at all times. This will include keeping reasonable adjustments under review and being able to demonstrate that relevant barriers

HMP Academies

to participation have been removed and providing reasonable adjustments to Participants with additional needs. Suppliers should ensure any staff, mentors or volunteers are appropriately trained in working with vulnerable adults with learning needs.

Security

Suppliers must:

- monitor any security issues according to the requirements of HMPPS;
- ensure staff and volunteers have the required security clearances and are monitored appropriately to ensure they are working appropriately with prisoners and delivering the service required;
- If providing a digital service deliver the Services in a manner that fully complies with PSI 25/2014 IT Security Policy and PSI 24/2014 Information Assurance Policy;
- make sure there are robust pre-employment checks in place, namely vetting in line with PSI 07/2014 Security Vetting;
- ensure all the Staff have been through the correct vetting process (or are prepared to provide assurances that the requirements will be met). It is a prerequisite to undertake vetting checks for those employed on a prison site or those with a professional relationship with the prisoners. This will be at the Supplier's cost;
- report any security concerns – physical, procedural, or dynamic, using the appropriate reporting system, and record these in the education and workshop observation book;
- must always know the number of prisoners they have under their supervision and be aware, at all times, of where the prisoners they are responsible for are and what tasks they are completing;
- ensure compliance with health and safety in the HMP Academy;

HMP Academies

- if the supplier becomes aware of anything which endangers the health, safety, or security of any person at the Prison, they must:
 - a. immediately take steps to warn others of and alleviate the danger; and
 - b. promptly notify the Prison of that danger and the steps taken.
- In the event of an accident or incident, the Prison health and safety advisor shall be fully informed by the Supplier of the details of their investigation. If the incident is serious or has resulted in hospitalisation, the Prison health and safety advisor shall also complete an investigation of the incident which shall review the circumstances of the incident and make recommendations to the Supplier as to the actions to take to ensure the likelihood of similar incidents is minimised in the future.
- there is full compliance with health and safety at work legislation and ensure that Safe Systems of Work are in place for all identified risks
- they understand their role and responsibility in executing contingency plans for fire and emergencies, which shall be provided for each learning area by the Prison;
- they investigate all incidents and accidents within the HMP Academy, identify trends and invest in rectifying common incidents and share these with the Authority within 28 days of the incident or accident occurring;
- they report any security concerns whether physical, procedural, or dynamic using the appropriate Intelligence Reporting (IR) system. The security concerns shall also be recorded in the appropriate Observation Book for that area;
- uniforms shall not contain offensive words, slogans, or badges;
- they comply with section 22 of the Offender Management Act 2007 and the Prison Service Instruction 10/2012 Conveyance and Possession of Prohibitive Items and Other Related Offences and any others that come into force;

A Call Off Contract shall be awarded on the basis of most economically advantageous tender from the point of view of the Buyer. This shall be the Call Off Tender that is the Most Economically Advantageous Tender (**MEAT**) (as defined by Price Per Quality Point (**PQP**)) and accepts the Call Off Contract as issued without condition or qualification.

To determine the winning Call Off Tender the Buyer shall evaluate compliant tenders based on the Quality Score and assess whether the overall Quality Score meets or exceeds the Quality Threshold of 50. Any tender which falls below the overall Quality Score will be excluded. The Buyer will then calculate the Price Per Quality Point for all tenders which meet the Quality Threshold.

PQP shall be calculated in the following manner: $\text{Price/Quality Score} = \text{PQP}$

The Bid with the lowest PQP is the MEAT.

Individual questions will be evaluated and allocated a score between 0 and 100. The Buyer will then apply the relevant question weightings to each score and add the resulting scores to give the overall Quality Score for that tender. Further details of the evaluation methodology and scoring are set out in Volume 4 of the ITT.
