0	August 2012	First Issue	SOS	21/8/12

1 Scheme Type

This scheme is a value band A (£0 to £30k) Road Renewal Scheme.

2 Scheme Description

The purpose of this project is to resurface sections of carriageway which have suffered from cracking and wheel track rutting. The scheme consists of patching work to both the eastbound and westbound carriageways.

The works will include but are not limited to:

- Provision of temporary accommodation or all necessary facilities to meeting health and safety requirements;
- Patching of a total area of less than 200m² with a thin surface course system over a length of approximately 1km in the carriageway and hard strip;
- Replacement of carriageway road markings as required;
- Replacement of carriageway road studs as required.

3 Road category on which the work is to be carried out

The works will take place on a single carriageway ≤ 9m wide (rural – greater than 40 mph) road.

4 Traffic Management

The traffic management layout to be utilised is a one lane closure to a 2-lane single carriageway road.

5 Period within which the work is to be carried out

The works are to be carried out within Time Band 5.

6 Site Restrictions and Constraints

There are no identified site constraints or restrictions at the works location.

7 Indicative Programme and Season within which the work is to be carried out

The works are anticipated to be completed within 2 days.

The majority of the works are to be constructed during British Summer Time.
