Schedule 6 - Statement of Requirements

Statement of Requirement (SoR) for the Royal Marines Band Service (RMBS) and the Provision of film capture for Massed Bands Events.

Background

The Massed Bands of HM Royal Marines annually perform the Mountbatten Festival of Music (MFM) at the Royal Albert Hall (RAH) to a live audience of a max. 15,000. This Royal Navy signature profile event is undertaken in the presence of the Captain General; enhancing reputation, enabling profile and facilitating influence opportunities. Additionally, over the past six years the event has been captured and broadcast over numerous Social Media (SM) platforms and on Forces TV, attracting a further global audience in excess one million (total) per year, greatly enhancing wider visibility and profile.

In addition, the Massed Bands of HM Royal Marines perform the ceremony of Beating Retreat on Horse Guards Parade, biennially, to a live audience of a c.7,000. Another Royal Navy signature profile event usually undertaken in the presence of the Captain General, the requirement exists to capture this event for historical¹ purposes and for streaming over on Social Media (SM) platforms attracting a considerable global audience and enhancing wider visibility and profile.

The importance of maintaining this presence in the digital space should not be underestimated as it follows the Defence Communications Activities: in the use of "A broad and systematic approach seeking to embed innovation throughout the Department's organisation."

The RMBS places great emphasis on the ability to exploit the footage captured during these events to shape its own SM output, more importantly it underpins and drives its recruiting campaign as it is high-quality, within iconic and instantly recognisable worldwide venues, demonstrably showcasing the unique versatility and ability of RM Musicians. SM is the medium of choice for the RMBS recruiting demographic, who are now 'digital natives', therefore the quality of content is a necessity to enable us to compete successfully in the recruitment market.

Requirement

The RMBS require the filming of the Mountbatten Festival of Music and Beating Retreat for use as an influence tool, wider profiling and for recruiting purposes. Additionally, the simultaneous live feed of archive film to screens during performances enhances and supplements music. This footage will be provided by RMBS and the supplier must have the ability to run this to the in-house screens whilst simultaneously capturing the event. The captured footage will then be broadcast at a suitable date on SM platforms and by

¹ The Massed Bands of the Royal Marines have performed BR ceremony on HGP since 1950.

either Forces TV, BFBS or other arts channel as in previous years). It is therefore essential that the quality of capture must be as per the technical specifications (see below).

Additional Option

A further option to include filming of a significant, high-profile event should be included for the duration of this contract. Details of the performance or event to be confirmed with filming standards and requirements comparable to the conditions laid out in this document. Exact details to be agreed between RMBS, RN Commercial and contracted supplier once requirement is identified.

Mountbatten Festival of Music (MFM)

Description of Work

Cameras would need to be in place for all three performances of MFM (Fri evening; Saturday matinee and evening), with a set up during the Thurs. For the Fri performance the company would need to provide up to 5 camera operators (close cameras to stage), this feed is cut by the company. For both performances on the Sat, a full camera team is required, still with the feed of the up-close cameras going to the screens.

All of the shows will need to be fully ISO captured on all of the cameras plus the transmission, plus a single mobile camera to film the arrival of the VVIP on the Sat evening performance. Dates vary each year, but broadly happen during the early part of March.

The venue's supplied screens will require a cut feed of the close to stage cameras as well as playout of video footage with timecode start syncing in 1080p and various still images as adverts, supplied by the Navy. This is required for all three shows.

Technical specifications

Thursday - evening tech rehearsal – locked off cameras for a director & script supervisor rehearsal. We shall provide the producer and script supervisor. The Gallery is in the venue's basement.

- 13 x cameras to include a jib in the God's, mini towercam on stage, 2 x handheld operators and remote tracking camera front of stage.
- Suggested lenses include HJ14, HJ22, 86:1 and 40:1.
- Full talkback with integration to audio and venue.
- Stereo audio feed is provided by an existing sound company.
- 13 x Camera ISO and TX recording in Prores 422, 10bit, HD, of all three shows.
- In-Hall camera positions are already identified and set.
- For Thursday, the cameras need to be in place and locked off (i.e. ready to go). After this the technical specification is the same for the 3 shows with the additional mobile camera to capture the VVIP arrival on the Saturday evening performance.

Timeline

Arrive on Thurs, run to in-hall screens only on Fri, exit hall on completion of final performance on Sat.

Pre-show recce and meetings will be required for full briefing. Various technical meetings will be planned prior to the event for which there will need to be some involvement (preparation starts immediately after event for the following year). Regarding the recce, if the contractor is already on the RAH contractors list that should not be required. Contractor will need to be set up and in place on the Thursday. All the camera positions are already identified from previous years.
