

## **UoS/DH/24/25/QTR2/ Bespoke Certificate paper, Transcript paper, and foiled flipped holograms**

Bespoke Certificate paper, Transcript paper, and foiled flipped holograms

University of Salford - Student Administration

We are currently looking to purchase bespoke certificate paper, transcript paper and foiled 2-image flipped holograms. Paper quality, print quality, security features and sustainability/carbon footprint are key considerations.

### **Minimum requirements:**

#### Holograms

- Two-image, flipped foiled hologram
- High security features (e.g. hologram design to incorporate security features embedded within the foil itself).
- Design to be registered with e registered, to ensure they cannot be replicated or re-registered elsewhere.
- Sustainability and Carbon footprint important considerations

#### Certificate paper

- 160gsm paper (with security features)
- Print to front
- Blind Embossed to front
- Silver foil applied to front
- Bespoke registered hologram (2-image foiled) applied to front
- Sustainability and Carbon footprint important considerations

#### Transcript paper

- 95gsm Watermarked Paper
- Print to front
- Print on reverse – grey text
- Print on reverse - Sequential Audit Number printed on reverse
- Bespoke registered hologram (2-image foiled) applied to front
- Sustainability and Carbon footprint important considerations

### Storage and Delivery

- Ability to store stocks until required
- Ability to deliver
- Sustainability and Carbon footprint important considerations
