

Clarification Questions Log - Site Wide Environmental Monitoring System Replacement Project

| Q. No. | Question | Response |
|--------|--|--|
| 1 | Could I please request that a User Requirement Specification (URS), facility plans and or sensor list (If not part of the URS). Normally our proposal directly responds to the technical content that is contained within the URS and we would provide a compliance statement as part of our proposal. | Appendix E of the tender is the URS we are working to. While Appendix E2 - Site Plan pdf doc should give an idea of which buildings are which. We can go into more detail during site visits. For the sensor list, please see Appendix E3- Existing Comark Units pdf doc which gives the quantity and type of Comark Sensor which is in place at the moment. |
