## Section 4 – Specification and about this procurement

### Executive Summary:

The Science & Technology Facilities Council (STFC), a component Research Council of UK Research and Innovation (UKRI), is a world-leading multi-disciplinary science organisation, whose goal is to deliver economic, societal, scientific and international benefits to the UK and its people – and more broadly to the world.

At its Rutherford Appleton Laboratory (RAL), STFC's RAL Space has two 5m Diameter Vacuum Chambers, referred to as Space Test Chamber 2 and 3 (STC-2 and STC-3).

This procurement is for the design, manufacture, supply and delivery to the Rutherford Appleton Laboratory of two Shroud Panel sets for use in STC-2 and STC-3.

It is the Contracting Authority's intention to place **two contracts** (one for each set of panels) with **two different suppliers** as a result of this procurement.

### Overview:

STC-2 & STC-3 at the Rutherford Appleton Laboratory will be used for calibration and characterization testing of satellite instruments. The two chambers are very similar with minor differences.

There are 46 shroud panels covering the whole internal surface of each chamber and they provide temperatures ranging from -193 °C to 130 °C. Each shroud panel is cooled by a Liquid Nitrogen (LN2) system which involves distribution of LN2 from a LN2 tank outside R100 to the phase separator (installed on a mezzanine floor on top of the chamber) to 12 valve boxes distributed on the outside shell of the chamber. The valve boxes then feed the Liquid Nitrogen to different panel zones. Each panel is heated by a number of heaters which are powered by mains electricity. Each shroud panel is instrumented with thermocouples for monitoring and control of the panel temperature. The chamber has a vacuum pumping system consisting of a roughing pump and 5 cryogenic pumps. These are used to achieve operational vacuum pressures in the 1E-5 to 1E-7 mbars range.

This procurement is for replacement thermal shroud panels for integration into its two 5m Space Test Chamber (STC) 2&3. In order for the new replacement shrouds to fully integrate with the existing (already installed) shroud support systems the new shroud panels will have to satisfy interface, weight and space envelope requirements of the existing shroud panels.

A summary of the shroud panel requirements and work to be performed for this procurement:

- Design, manufacture, assembly (including application of Aeroglaze (or similar) coating and panels bake out), testing, and shipping of all the shroud panels (1 set for STC2 and 1 set for STC3) to STFC-RAL
- The preparation of the documentation necessary for the work and provision of these documents
- Provision of all tools, test equipment, etc. necessary for the work
- Provision of packing cases for completed shroud assemblies
- Each space test chamber requires a total of 46 shroud panels (28 body and 18 door

panels.

- For the panels covering the side services and Electrical Ground Support Equipment flanges of the vessel (N8-N10 and S1-S8 in AD26) RAL space would like the supplier to consider panel designs with cut-outs and cover plates to give access and/or cover these flanges.
- Part of the shroud procurement also requires cover strips to cover gaps between shroud panels. The contractor is free to incorporate/use the existing cover-strips in their design if they deem the cover-strips are suitable.
- The existing panel design consists of Aluminium extrusions bolted to Aluminium plates. The LN2 is piped through the Al extrusions on each panel and this is how the panels are cooled. The contractor is responsible for designing and manufacturing panels to replace existing panels (and hence be compatible with existing interfaces) and meet the requirements
- The delivery schedule is absolutely critical for the launch of the MTG satellite and to the ultimate customer (European Space Agency). An advanced delivery date will be of significant benefit to the overall program.

### **Contract**

The Contracting Authority's intention is to award **two** contracts (for the design and supply of Panel Set C and Panel Set D respectively to two separate suppliers, as defined in the Specification and Statement of Work). The contracts will be awarded to the two highest-scored compliant bidders, providing both have scored 60.00% or more following evaluation. However, the Contracting Authority reserves the right to award just **one** contract for **both** sets of shroud panels to one bidder if only one compliant bid scores above the 60.00% threshold.

In the instance where two contracts have been let and one is later terminated (for contractual reasons), the Contracting Authority also reserves the right to subsequently place a contract for the second set with the supplier whose contract is still in place.

The Contracting Authority will identify and select which successful supplier is awarded contract to supply which Panel Set (C or D).

### **Terms and Conditions**

Bidders are to note that any requested modifications to the Contracting Authority Terms and Conditions on the grounds of statutory and legal matters only, shall be raised as a formal clarification during the permitted clarification period.

### **Contract Price**

All bidders should quote on a **fixed price basis** for the scope of work detailed in this tender. Prices should be quoted in GBP.

### **Payments**

As a UK Government funded body, UKRI-STFC is not permitted to make any advanced or “time of order” payments. Any payment made must be upon receipt of a tangible milestone deliverable where the actual value aligns with the payment made.

Payment upon full delivery and acceptance of the panels is preferred. Milestone payments – against defined and tangible deliverables - may be possible, to be finalised with the successful bidder.

## Section 5 – Evaluation model

### Award Evaluation of criteria

#### Non-Price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

|     |                                                                                                                                                                                                                                                                                              |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 0   | The Question is not answered, or the response is completely unacceptable.                                                                                                                                                                                                                    |
| 10  | Extremely poor response – they have completely missed the point of the question.                                                                                                                                                                                                             |
| 20  | Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.                                                                            |
| 40  | Poor response only partially satisfying the selection question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.                                                            |
| 60  | Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.                                                                                                                                                                     |
| 80  | Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.                                                           |
| 100 | Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider. |

Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

**Example**

Evaluator 1 scored your bid as 60  
 Evaluator 2 scored your bid as 40  
 Evaluator 3 scored your bid as 80  
 Evaluator 4 scored your bid as 60  
 Your final score will  $(60+40+80+60) \div 4 = 60$

**Price elements** will be judged on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.

All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 ( $80/100 \times 50 = 40$ )

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

## 5.5. Evaluation process

5.5.1 The evaluation process will feature some, if not all, the following phases

| Stage                                      | Summary of activity                                                                                                                                                                                                                                                                                                                                   |

Participation in the RFP process automatically signals that the Bidder accepts these Conditions.
- 7.1.14 All material issued in connection with this RFP shall remain the property of the Contracting Authority and/or as applicable relevant OPB and shall be used only for the purpose of this procurement. All Due Diligence Information shall be either returned to the Contracting Authority or securely destroyed by the Bidder (at the Contracting Authority's option) at the conclusion of the procurement

Potential Providers are reminded that any future proposed change in relation to consortia must be notified to the Contracting Authority so that it can make a further assessment by applying the selection criteria to the new information provided and consider rejection of the Response if the Contracting Authority reasonably consider the change to have a material impact of the delivery of the viability of the Response.

## **7.2. Bidder conference**

7.2.1 A Bidders' Conference will not be held in conjunction with this procurement.

## **7.3. Confidentiality**

7.3.1 Subject to the exceptions referred to in paragraph 7.3.2, the contents of this RFP are being made available by the Contracting Authority on condition that:

- 7.3.1.1 Bidders shall at all times treat the contents of the RFP and any related documents (together called the 'Information') as confidential, save in so far as they are already in the public domain;
- 7.3.1.2 Bidders shall not disclose, copy, reproduce, distribute or pass any of the Information to any other person at any time or allow any of these things to happen;
- 7.3.1.3 Bidders shall not use any of the Information for any purpose other than for the purposes of submitting (or deciding whether to submit) a Response; and
- 7.3.1.4 Bidders shall not undertake any publicity activity within any section of the media in relation to this procurement

7.3.2 Bidders may disclose, distribute or pass any of the Information to the Bidder's advisers, sub-contractors or to another person provided that either:

- 7.3.2.1 This is done for the sole purpose of enabling a Response to be submitted and the person receiving the Information undertakes in writing to keep the Information confidential on the same terms as if that person were the Bidder; or
- 7.3.2.2 The disclosure is made for the sole purpose of obtaining legal advice from external lawyers in relation to the procurement or to any Contract arising from it; or
- 7.3.2.3 The Bidder is legally required to make such a disclosure

7.3.3 In paragraphs 7.3.1 and 7.3.2 above the term 'person' includes but is not limited to any person, firm, body or association, corporate or incorporate.

- 7.3.4 UK SBS and the Contracting Authority may disclose detailed information relating to Responses to its employees, agents or advisers and they may make any of the Contract documents available for private inspection by its officers, employees, agents or advisers. UK SBS and the Contracting Authority also reserve the right to disseminate information that is materially relevant to the procurement to all Bidders, even if the information has only been requested by one Bidder, subject to the duty to protect each Bidder's commercial confidentiality in relation to its Response (unless there is a requirement for disclosure as explained in paragraphs 7.4.1 to 7.4.3 below).
- 7.3.5 All Central Government Departments and their Executive Agencies and Non-Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-Government role delivering overall Government policy on public procurement - including ensuring value for money and related aspects of good procurement practice.

For these purposes, the Contracting Authority may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to the Contracting Authority during this Procurement. Subject to section 7.4 below, the information will not be disclosed outside Government. Bidders taking part in this RFP consent to these terms as part of the competition process.

- 7.3.6 The Government introduced its new Government Security Classifications ("GSC") classification scheme to replace the current Government Protective Marking System ("GPMS"). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC from 2nd April 2014. The link below to the Gov.uk website provides information on the new GSC:  
<https://www.gov.uk/government/publications/government-security-classifications>
- 7.3.7 The Contracting Authority reserves the right to amend any security related term or condition of the draft contract accompanying this RFP to reflect any changes introduced by the GSC. In particular where this RFP is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.

Bidders should note, however, that, even where information is identified as commercially sensitive, the Contracting Authority may be required to disclose such information in accordance with the FoIA or the Environmental Information Regulations. In particular, the Contracting Authority is required to form an independent judgment concerning whether the information is exempt from disclosure under the FoIA or the EIR and whether the public interest favours disclosure or not. Accordingly, the Contracting Authority cannot guarantee that any information marked 'confidential' or "commercially sensitive" will not be disclosed.

By submitting a response to this RFP Bidders are agreeing that their participation and contents of their Response may be made public.

## **7.8. Preparation of a Response**

- 7.8.1 Bidders must obtain for themselves at their own responsibility and expense all information necessary for the preparation of Responses. Bidders are solely responsible for all costs, expenses and other liabilities arising in connection with the preparation and submission of their Response and all other stages of the selection and evaluation process. Under no circumstances will UK SBS or the Contracting Authority, or any of their advisers, be liable for any such costs, expenses or liabilities borne by Bidders or their sub-contractors, suppliers or advisers in this process.
