SCHEDULE ONE**1 BACKGROUND**

The government commissioned the Rochford Review to look at statutory assessment arrangements for pupils working below the standard of national curriculum tests. The Review recommended removing P scales as the statutory assessment for this group of pupils and replacing it with two new forms of assessment:

- pre-key stage standards for pupils engaged in subject-specific learning
- assessment against seven aspects of engagement for cognition and learning for those pupils not engaged in subject specific learning.

The seven aspects of engagement were developed in 2011 as part of a DfE-funded research project into children with complex learning difficulties and disabilities (CLDD), led by Professor Barry Carpenter. While the seven aspects were developed with teachers and were trialled in schools at that time, they have never been used as a statutory, summative assessment model, and P scales have continued to be used.

In recognition of this, the government response to a public consultation on the Rochford Review recommendations announced that the seven aspects of engagement for the purpose of a summative assessment will be piloted in the 2017/18 academic year before it a decision is made on whether to introduce it on a statutory basis.

The pilot will utilise a hub model which involves one school in each region acting as a 'teaching school hub' to help coordinate the pilot, including helping to identify those taking part in interviews. The hub schools will receive additional training and support from the Department to enable them to support other schools in their region participating in the pilot.

2 AIM

The Contractor shall use all reasonable endeavours to achieve the following aim:

- Deliver a qualitative research project to assess how the seven aspects of engagement can offer an effective tool to provide summative assessment on pupil progress, informing DfE's decision about whether to introduce it as a statutory end-of-year assessment.

3 OBJECTIVES

The Contractor shall use all reasonable endeavours to achieve the following objectives:

- Conduct qualitative telephone interviews with an agreed sample of pilot schools in two phases.
- Conduct eight school-based case studies (one per region), including interviews with schools, parents, local authorities and wider stakeholders tasked with monitoring school performance.
- Deliver high quality reporting, in an agreed format, to inform the Department's decision about whether to extend the seven aspects of engagement as a statutory end-of-year assessment tool.

4 TASKS

TASK 1: INSTRUMENT DESIGN AND PILOTING

The contractor shall conduct interviews in two phases during the pilot. Phase One will be conducted at the mid-point in March 2018 while phase two will be conducted towards the end of the pilot in June 2018.

For the first phase, the contractor shall devise two interview schedules – for participating schools and hub schools – to 30 minutes and 45 minutes respectively. Interviews will focus on early implementation of the new approach and early indications of its effectiveness as a statutory assessment tool. The hub school schedule will focus more on their experiences of the hub model, training/support received, current assessment methods and how the seven aspects approach fits with these. The first phase interviews will be conducted by telephone.

For the second phase, again the contractor shall devise two interview schedules – for participating schools and hub schools – to 45 minutes and one hour respectively. Analysis of data from Phase One interviews will influence the development of Phase Two interview schedules. Interviews will focus on areas such as: validity, flexibility, and usefulness of the model, compatibility of the model with schools' own assessments, and comparability of the model with the existing P-level assessment framework. The second phase interviews will be conducted by telephone.

Phase Two will also consist of one case study per region. The contractor shall devise three interview schedules, for a member of school staff, for a parent or carer of a child in the school, and for an external observer of the school (e.g. an Ofsted inspector or a local authority representative). These interviews are to last one hour, 45 minutes and 30 to 40 minutes respectively. The case studies in Phase Two will be conducted in person on the school site. The case study fieldwork will involve a half-day visit to the school, and the Contractor shall work flexibly with each school to develop an approach to engaging parents/carers.

The interviews shall be conducted by the contractor and will be designed to gather evidence for each of the objectives set out above.

External review of instruments

In addition to the contractor team, the contractor shall utilise the expert Advisory Panel to ensure that instruments are fit for purpose. Reviewers will be asked to comment on whether questions are appropriate and clearly expressed; and whether there are any key questions missing.

The contractor will provide the department opportunities to review and comment on and sign off the draft interview schedules.

TASK 2: SAMPLING

The sample of schools for the research will be provided by the Department. The schools (including the 8 teaching school hubs) have already been recruited by convenience sampling and have volunteered to take part in both the pilot and the research.

The contractor will be responsible, with the help from the sample of schools, to recruit parents or carers and external observers for the second phase case studies. Case study schools will be selected purposively based on findings from Phase One interviews. The sample structure will be designed collaboratively with DfE.

The contractor will offer parent/carers participants £30 as a thank you for their time, and case study schools a thank-you donation of £75.

When contacting participating schools or hub schools, the contractor will outline the aims and requirements of the research and highlight the intrinsic value of participation. The contractor will book interviews with the lead from the participating school or hub school at a time convenient to the participants. If another member of staff is involved in implementing or reporting on the tool the contractor shall accommodate a short interview while on site, if possible.

The target number of participating schools, parents, and external observed to be recruited and interviewed at each phase are outlined below.

	Phase 1 (interviews)	Phase 2 (Interviews and case studies)
Participating schools	32	48
Hub schools	8	8
Parents/carers	n/a	16 (2 per case study school)
External observers	n/a	16 (2 per case study school)

TASK 3: FIELDWORK

The contractor shall undertake in-depth, semi-structured qualitative interviews to gather rich data on the use and implementation of the seven aspects of engagement framework, including examples of effective/innovative practice.

The contractor shall assign interviewers to particular schools (where possible) to ensure continuity between Phases One and Two. Phase One fieldwork will be conducted in March 2018, and Phase Two in June 2018.

The contractor shall ask all respondents for their permission to record interviews to ensure that the detail and verbatim quotations are captured accurately.

The contractor shall monitor the achieved sample of schools closely during the recruitment and fieldwork period. The contractor will provide weekly updates to DfE on recruitment and fieldwork progress.

TASK 4: DATA ANALYSIS

The contractor shall use encrypted digital recorders to record discussions. These will then be transcribed or written up as detailed notes to a standardised template. Each interview will then be analysed in a bespoke framework, using Excel, that has been designed by the contractor Research Manager and signed off by the Project Director.

The thematic analysis will be based around the research aims and objectives as set out in the Department's Invitation to Tender. The contractor will use the evidence to enable identification of schools' experiences of the seven aspects of engagement model.

TASK 5: REPORTING

The contractor shall deliver a final in-depth research report describing the full results of the research. The contractor shall undertake changes to the text of the report suggested by the Department unless these are factually incorrect. The contractor will work with the Department to ensure that the outputs meet the needs of the intended audiences by:

- sharing emerging findings prior to report writing, and discussing how to present these

- agreeing the specification for all outputs up-front (audience, style, length and structure)
- inviting comment on draft outputs, in line with the schedule outlined in the invitation to tender.

Project team members will take overall responsibility for quality assuring the reporting. The contractor will produce the report in accordance with the DfE style and formatting guide.

6. STAFFING

The Contractors team shall comprise [REDACTED],
[REDACTED], [REDACTED], [REDACTED] from IFF. The

team shall also comprise [REDACTED] from the University of Derby as well as [REDACTED], [REDACTED], and [REDACTED].

The Department's project manager shall be [REDACTED]. The Contractor should direct all queries to [REDACTED] using the contact details specified on page 2 of the contract.

7 STEERING COMMITTEE

The Project Manager shall set up a Steering Committee for the Project, consisting of representatives from the Department, the Contractor, and any other key organisations whom the project will impact on, to be agreed between the parties. The function of the Steering Committee shall be to review the scope and direction of the Project against its aims and objectives, monitor progress and efficiency, and assess, manage and review expected impact and use of the findings from the Project against an agreed Project Communication Plan, through the standard Department Communication Plan Template. The Committee shall meet at times and dates agreed by the parties, or in the absence of agreement, specified by the Department. The Contractor's representatives on the Steering Committee shall report their views on the progress of the Project to the Steering Committee in writing if requested by the Department. The Contractor's representatives on the Steering Committee shall attend all meetings of the Steering Committee unless otherwise agreed by the Department.

8. RISK MANAGEMENT

Risk	Assessment	Mitigating Actions
Not completing fieldwork on time	Likelihood – medium Impact – medium	The contractor has proposed a large research team to conduct the interviews supported by our in-house recruitment experts. We have also allowed for a relatively generous fieldwork period, especially for Phase One which needs to be completed before Easter.
Not completing analysis and reporting on time (Phase 1)	Likelihood – medium Impact – medium	Timetable has been reviewed and the mailout to schools/ start of recruitment brought forward to enable additional time to complete fieldwork before the Easter holidays. Engagement can also be encouraged by DfE/ via communications from the hub schools about the forthcoming research. All Phase1 interviews are now being done by telephone which is more flexible to arrange than having some interviews f2f. Entry of scripts/ notes and analysis of the interviews will begin as soon as the first few interviews have been completed. Additional research support could be brought in if required.
Not completing analysis and reporting on time (Phase 2)	Likelihood – low Impact – medium	Entry of scripts/ notes and analysis of the interviews will begin as soon as the first few interviews have been completed. Additional research support could be brought in if required. Engagement with Phase 2 will build up through participation in Phase 1 and can also be encouraged by DfE/ via communications from the hub schools about the forthcoming research.

Topic guides do not meet policy objectives	Likelihood – low Impact - high	The question topics will be discussed in detail at the inception stage. The guides will be written with a focus on the research objectives. The guides will only be used once signed off with DfE. Throughout the fieldwork we will consider whether the guides could be adapted / improved, and discuss and agree this with DfE if so. Guides will be peer reviewed by the expert Advisory Panel.
Low willingness to participate	Likelihood – low Impact – high	Participating pilot schools have already expressed willingness to participate in the research, therefore this risk is low – but due to the limited volume of sample there would be a high impact if participation became an issue. We aim to achieve a high response rate through: sending a DfE-branded advance letter stressing the importance of the study; follow-up calls made by highly experienced, persuasive recruiters; being flexible about the times and days when interviews are conducted. Case study schools and parents will be offered a financial incentive as thanks for taking part.
Not doing justice in the analysis to the number of interviews undertaken	Likelihood – low Impact - medium	The qualitative data will be rigorously analysed at each phase, with a synthesis session at the end of Phase 2 to bring all the key findings together. Analysis will be done via an Excel-based framework designed for the study. All researchers and interviewers will participate in analysis sessions for each Phase.
The report not meeting DfE needs	Likelihood – low Impact - medium	The contractors will agree a report structure with DfE before drafting. DfE would be more than welcome to attend our internal synthesis session at which we develop key themes for the report. The report will be written directly to address the research objectives, and senior staff will be involved in drafting key chapters including the Executive Summary. IFF and the University of Derby have a proven track record of writing high quality reports for DfE. The report will be quality assured internally by the study directors at IFF and the University of Derby, and by the expert advisory panel.
Key personnel ill or leave	Likelihood – low Impact - low	At IFF the project team will have two Directors to give us coverage at the head of team for any absence. All members of the team will be kept up to date of progress so able to 'pick up' the project at any stage. IFF also have 12 other researchers in our Learning and Skills team who could be brought in as cover.

9 DATA COLLECTION

The Department seeks to minimise the burdens on Schools, Children's Services and Local Authorities (LAs) taking part in surveys.

When assessing the relative merits of data collection methods the following issues should be considered;

- only data essential to the project shall be collected;

- data should be collected electronically where appropriate/preferred;
- questionnaires should be pre-populated wherever possible and appropriate;
- schools must be given at least four working weeks to respond to the exercise from the date they receive the request; and
- LAs should receive at least two weeks, unless they need to approach schools in which case they too should receive 4 weeks to respond;

The Contractor shall clear any data collection tools with the Department before engaging in field work.

The Contractor shall check with the Department whether any of the information that they are requesting can be provided centrally from information already held.

10. CONSENT ARRANGEMENTS

The Department and the contractor shall agree in advance of any survey activity taking place the consent arrangements that shall apply for each of the participant groups. All participants should be informed of the purpose of the research, that the Contractor is acting on behalf of the Department and that they have the option to refuse to participate (opt out). Contact details should be provided including a contact person at the Department. Children who are 16 or over will usually be able to give their own consent but even where this is so, the Contractor, in consultation with the Department, should consider whether it is also appropriate for parents, guardians or other appropriate gatekeepers (e.g. schools, Local Authorities) to be informed when a child has been invited to participate in research.

11. PROJECT COMMUNICATION PLAN

The Contractor shall work with the Project Manager and Steering Group to agree the content of the Project Communication Plan on the standard Department Communication Plan Template at the start of the Project, and to review and update at agreed key points in the Project and at the close of the Project. The Communication Plan shall set out the key audiences for the Project, all outputs intended for publication from the Project, the likely impact of each output, and dissemination plans to facilitate effective use by the key audiences.

End of Schedule One

Total Project expenditure shall not exceed **£87,480** exclusive of VAT. Total costs will be reviewed if participation in fieldwork is lower than anticipated, and any revised costings will be based on costs as outlined in the contractor's tender.

- 2 The allocation of funds in the Table may not be altered except with the prior written consent of the Department.
- 3 The Contractor shall maintain full and accurate accounts for the Project against the expenditure headings in the Table. Such accounts shall be retained for at least 6 years after the end of the financial year in which the last payment was made under this Contract. Input and output VAT shall be included as separate items in such accounts.
- 4 The Contractor shall permit duly authorised staff or agents of the Department or the National Audit Office to examine the accounts at any reasonable time and shall furnish oral or written explanations of the accounts if required. The Department reserves the right to have such staff or agents carry out examinations into the economy, efficiency and effectiveness with which the Contractor has used the Department's resources in the performance of this Contract.
- 5 Invoices shall be submitted on the invoice dates specified in the Table, be detailed against the task headings set out in the Table and must quote the Department's Order Number. **The Purchase order reference number shall be provided by the department when both parties have signed the paperwork.** The Contractor or his or her nominated representative or accountant shall certify on the invoice that the amounts claimed were expended wholly and necessarily by the Contractor on the Projects in accordance with the Contract and that the invoice does not include any costs being claimed from any other body or individual or from the Department within the terms of another contract.

- 6** Invoices shall be sent to the **Department for Education, PO Box 407, SSCL, Phoenix House, Celtic Springs Business Park, Newport, NP10 8FZ** and/or by email to **APinvoices-DFE-U@sscl.gse.gov.uk**. Invoices submitted by email must be in PDF format, with one PDF file per invoice including any supporting documentation in the same file. Multiple invoices may be submitted in a single email but each invoice must be in a separate PDF file. The Department undertakes to pay correctly submitted invoices within 10 days of receipt. The Department is obliged to pay invoices within 30 days of receipt from the day of physical or electronic arrival at the nominated address of the Department. Any correctly submitted invoices that are not paid within 30 days may be subject to the provisions of the Late Payment of Commercial Debt (Interest) Act 1998. A correct invoice is one that: is delivered in timing in accordance with the contract; is for the correct sum; in respect of goods/services supplied or delivered to the required quality (or are expected to be at the required quality); includes the date, supplier name, contact details and bank details; quotes the relevant purchase order/contract reference and has been delivered to the nominated address. If any problems arise, contact the Department's Project Manager. The Department aims to reply to complaints within 10 working days. The Department shall not be responsible for any delay in payment caused by incomplete or illegible invoices.
- 7** The Contractor shall have regard to the need for economy in all expenditure. Where any expenditure in an invoice, in the Department's reasonable opinion, is excessive having due regard to the purpose for which it was incurred, the Department shall only be liable to reimburse so much (if any) of the expenditure disallowed as, in the Department's reasonable opinion after consultation with the Contractor, would reasonably have been required for that purpose.
- 8** If this Contract is terminated by the Department due to the Contractor's insolvency or default at any time before completion of the Projects, the Department shall only be liable under paragraph 1 to reimburse eligible payments made by, or due to, the Contractor before the date of termination.
- 9** On completion of the Project or on termination of this Contract, the Contractor shall promptly draw-up a final invoice, which shall cover all outstanding expenditure incurred for the Project. The final invoice shall be submitted not later than 30 days after the date of completion of the Projects.
- 10** The Department shall not be obliged to pay the final invoice until the Contractor has carried out all the elements of the Projects specified as in Schedule 1.
- 11** It shall be the responsibility of the Contractor to ensure that the final invoice covers all outstanding expenditure for which reimbursement may be claimed. Provided that all previous invoices have been duly paid, on due payment of the final invoice by the Department all amounts due to be reimbursed under this Contract shall be deemed to have been paid and the Department shall have no further liability to make reimbursement of any kind.
