NO	QUERY	REPLY	DATE
1	Would the PSA consider alternative/replacement Content Management Systems to replace their existing Sitefinity platform?	Although we currently use Sitefinity, we are open to alternative and reputable CMS platforms for the new website.	03/10/2023
2	If you are open to another platform would your existing partner for ongoing maintenance and support be in a position to support a different platform?	Our arrangements concerning our maintenance support would be informed by the needs of our new website, once it is in place.	03/10/2023
3	Could you please provide confirmation of the approximate number of web pages and listings of regulators and practitioners currently hosted on the website, which may potentially require migration to a new CMS?	The total number of active public "pages" is 1210, and this includes blogs/news and the dynamically-created Register entries. The sitemap for the site has 103 pages in its latest database - this references the main static pages only.	04/10/2023
4	In the provided brief, reference was made to an existing maintenance contract. Could you please verify the specifics regarding the hosting of the website? Is this element to be integrated into the proposed price, or is it presently covered under the terms of your ongoing maintenance contract?	Hosting is currently covered under the existing, separate maintenance contract.	04/10/2023
